In the context of the separation, the corporate name of the Company was changed from Altice N.V to Altice Europe N.V.

##### 1.1.8.1. *Issuance of Cablevision's \$1,500 million incremental term loans*

On January 12, 2018, CSC Holdings successfully priced, for the Cablevision credit pool, \$1,500 million of 8-year incremental term loans under the 2015 Cablevision credit facility agreement. The term loans were issued at OID of 99.50 and are due to mature in January 2026. The term loans were drawn on January 25, 2018. The proceeds of the term loans were used, together with proceeds from CSC Holdings' offering of new 2018 Cablevision senior guaranteed notes, borrowings under the 2015 Cablevision revolving credit facility and cash on balance sheet, to (i) refinance all of CSC Holdings' 7% senior debentures due 2018, (ii) make a dividend to Cablevision, the direct parent of CSC Holdings, which used the proceeds to refinance all of Cablevision's 7% senior notes due 2018, (iii) temporarily repay approximately \$450.0 million of outstanding borrowings under the 2015 Cablevision revolving credit facility and (iv) pay fees, costs and expenses associated with these transactions. Cablevision used the proceeds referred to in (iv) above to fund a dividend to its parent, Altice USA, which proceeds in turn were used to fund the dividend to the Company.

### **1.1.8.2. Issuance of Cablevision's \$1,000 million Senior Guaranteed Notes due 2028**

The proceeds of the 2018 Cablevision senior guaranteed notes will be used, together with proceeds from the \$1,500 million of incremental term loans borrowed under the 2015 Cablevision credit facility agreement (as described above) to (i) refinance all of CSC Holdings' 7⅞% senior debentures due 2018, (ii) make a dividend to Cablevision, the direct parent of CSC Holdings, which used the proceeds to refinance all of Cablevision's 7¼% senior notes due 2018, (iii) temporarily repay approximately \$450.0 million of outstanding borrowings under the 2015 Cablevision revolving credit facility and (iv) pay fees, costs and expenses associated with these transactions.

## 2. PRINCIPAL RISKS AND UNCERTAINTIES

The Group recognizes that effective risk management is critical to enable the Group to meet its strategic objectives. As a structured approach, risk management is integrated in the Group's strategic planning and operational management procedures, and relies on the commitment of all employees to adopt risk management as an integral part of their duties, notably by identifying, reporting and implementing risk mitigation measures and behaviours. Therefore, the Group is continuously monitoring its risk management framework, policies and procedures, to adapt to the ever-changing business environment where the Group operates.

The Group conducts annual risk assessments to identify the main risks the Group is exposed to and to determine appropriate measures with the view to focus on internal controls in the relevant areas. The Group therefore operates a risk management framework designed to account for its geographically diversified market presence and product portfolio. The Group's risk management framework enables its risks to be identified, assessed, managed and monitored.

The Group categorizes its risks into four groups:

- strategic risks – risks and uncertainties that may hamper the achievement of strategic and/or business plans of the Group;
- operational risks – risks and uncertainties that may potentially affect the effectiveness and efficiency of the Group's current business and operations;
- financial risks – risks and uncertainties with respect to the Group's financial position; and
- compliance risks – risk and uncertainties with respect to laws and regulations that can have an impact on the Group's organization and/or business processes and operations.

The Group's risk assessment approach consists of two parts: (i) identification of the key risks and events that can materially affect the Group's strategic objectives and operations, using a "top down" and a "bottom up" exercise conducted in its key operations and geographies – United States (until the date of the Separation), France, Portugal, the Dominican Republic and Israel; and (ii) assessment of the probability of occurrence of such risks and of their impact on the Group's strategy and operations, and determination of the level of control the Group has over those risks (risk mapping).

The Board of Directors has evaluated the principal risks and uncertainties faced by the Group in the first six months of 2018 and has determined that there are no significant changes in these risks and uncertainties as compared to those disclosed in the Annual Report of the Company for the year ended December 31, 2017. These condensed interim consolidated financial statements of the Group as of June 30, 2018 and for the six month period then ended were approved by the Board of Directors and authorized for issue on August 17, 2018.

These condensed interim consolidated financial statements of the Group as of June 30, 2018 and for the six month period then ended, are presented in millions of Euros, except as otherwise stated, and have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. They should be read in conjunction with the annual consolidated financial statements of the Group and the notes thereto as of and for the year ended December 31, 2017 which were prepared in accordance with International Financial Reporting Standards as adopted in the European Union (“IFRS”) (the “annual consolidated financial statements”).

The accounting policies applied for the condensed interim consolidated financial statements as of June 30, 2018 do not differ from those applied in the annual consolidated financial statements as of and for the year ended December 31, 2017, except for the adoption of new standards effective as of January 1, 2018.

#### *2.1.1. Standards applicable for the reporting period*

The following standards have mandatory application for periods beginning on or after January 1, 2018 as described in note 2.1.4 to the annual consolidated financial statements.

- IFRS 15 *Revenue from Contracts with Customers*;
- IFRS 9 *Financial Instruments*;
- Amendments to IFRS 2: *Classification and Measurement of Share Based Payment Transactions*;
- IFRIC 22: *Foreign Currency Transactions and Advance Consideration*;
- Annual improvements cycle 2014-2016.

The application of amendments to IFRS 2, IFRIC 22 and annual improvements cycle 2014-2016 had no impact on the amounts recognised in the annual consolidated financial statements and had no impact on the disclosures in these condensed interim consolidated financial statements.

Below are described the main changes in the Group’s accounting policies relating to the first application of IFRS 15 *Revenue from Contracts with Customers* and IFRS 9 *Financial instruments*. Other significant revenue recognition policies remain unchanged.

##### *2.1.1.1. Revenue recognition*

Revenue from the Group’s activities is mainly composed of television, broadband Internet, fixed and mobile telephony subscription, installations fees invoiced to residential and business clients and advertising revenues.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group’s activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales within the Group.

In accordance with IFRS 15 *Revenue from Contracts with Customers*, the revenue recognition model includes five steps for analyzing transactions so as to determine when to recognize revenue and at what amount:

- (1) Identifying the contract with the customer.
- (2) Identifying separate performance obligations in the contract.
- (3) Determining the transaction price.
- (4) Allocating the transaction price to separate performance obligations.
- (5) Recognizing revenue when or as the performance obligations are satisfied.

For bundled packages, the Group accounts for individual products and services separately if they are distinct – i.e. if a product or service is separately identifiable from other items in the bundled package and if the product or service is distinct from other items in the bundle. The consideration is allocated between separate products and services in a bundle based on their stand-alone selling prices. The stand-alone selling prices are determined based on the market prices at which the Group sells the mobile devices and telecommunications services separately.

This leads to the recognition of a contract asset in the statement of financial position.

The contract asset is reversed over the enforceable period. Enforceable period has been determined for each company. It represents the period over which rights and obligation are enforceable. This period is determined not only by the commitment period as stated in the contract, but also by business practices and contracts mechanisms (early renewal, exit options, penalties and other clauses).

### ***Revenue from mobile devices***

The Group recognizes revenues when a customer takes possession of the device, which is the performance obligation. This usually occurs when the customer signs a new contract. The amount of revenue includes the sale of mobile devices and ancillary equipment for those devices. For mobile devices sold separately, customers pay in full at the point of sale or in several installments (credit agreement).

### ***Revenue from service***

Revenues from subscriptions for basic cable services, digital television pay, Internet and telephony (fixed and mobile) are recognized in revenue on a straight-line basis over the subscription period; revenues from telephone calls are recognized in revenue when the service is rendered in accordance with the term of the contract.

### ***Installation revenue***

Installation service revenue is deferred and recognized over the benefit period. For B2B customers, the benefit period is the contract term, which is defined and agreed for 2 years or more. For B2C customers, there is no commitment period and installation costs are recognized over the benefit period.

### ***Agent versus principal***

The Group determines whether it is acting as a principal or as an agent. The Group is acting as a principal if it controls a promised good or service before it is transferred to a customer.

Indicators for acting as a principal include: (1) the Group is primarily responsible for fulfilling the promise to provide the specified good or service, (2) the Group has inventory risk in the specified good or service and (3) the Group has discretion in establishing the price for the specified good or service.

On the other hand, the Group is acting as an agent or an intermediary, if these criteria are not met. When the Group is acting as an agent, revenue is presented on a net basis in the statement of income. When the Group is acting as principal, revenue is presented on a gross basis.

#### ***2.1.1.2. Contract costs***

The Group recognizes as an asset the incremental costs of obtaining a contract with a customer if it expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Commissions to third parties and sales incentives to employees are considered as costs to obtain a contract and are recognized under the balance sheet caption “contract costs”.

Assets recognized as contract costs are amortized on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. The asset may relate to goods or services to be transferred under a specific anticipated contract. The amortization charge is recognized in the statement of income, within caption “Depreciation, amortization and impairment”.

As a practical expedient, the Group recognizes the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the Group otherwise would have recognized is one year or less.

#### 2.1.1.3. *Financial instruments*

Standard IFRS 9 *Financial Instruments* allows two methods for subsequent measurement:

- amortized cost: this is the original amount minus principal repayments, cumulative amortizations and impairments. An impairment is recognized if the fair value at the end of the period is less than the carrying amount. The amortized cost must be determined by using the effective interest rate method,
- fair value: this is the amount for which an asset could be exchanged, or a liability paid, between two willing parties, in an arm’s length transaction.

#### *Classification and measurement*

Except for certain trade receivables, under IFRS 9, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

Under IFRS 9, debt financial assets are subsequently measured at fair value through profit or loss (FVPL), amortised cost, or fair value through other comprehensive income (FVOCI).

The classification is based on two criteria: the Group’s business model for managing the assets; and whether the instruments’ contractual cash flows represent ‘solely payments of principal and interest’ on the principal amount outstanding (the ‘SPPI criterion’).

The new classification and measurement of the Group’s debt financial assets are, as follows:

- Debt instruments at amortised cost for financial assets that are held within a business model with the objective to hold the financial assets in order to collect contractual cash flows that meet the SPPI criterion. This category includes the Group’s Trade and other receivables, and Loans included under balance sheet caption “Financial assets” (non-current and current portion).
- Debt instruments at FVOCI, with gains or losses recycled to profit or loss on derecognition. The Group has no instrument in this new category.

Other financial assets are classified and subsequently measured, as follows:

- Equity instruments at FVOCI, with no recycling of gains or losses to profit or loss on derecognition. This category only includes equity instruments, which the Group intends to hold for the foreseeable future and which the Group has irrevocably elected to so classify upon initial recognition or transition. The Group classified its quoted and unquoted equity instruments as equity instruments at FVOCI. Equity instruments at FVOCI are not subject to an impairment assessment under IFRS 9. Under IAS 39, the Group’s unquoted equity instruments were classified as AFS (Available for sale) financial assets.
- Financial assets at FVPL comprise derivative instruments. This category would also include debt instruments whose cash flow characteristics fail the SPPI criterion or are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.

The assessment of the Group’s business models was made as of the date of initial application, January 1, 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The accounting for the Group’s financial liabilities remains largely the same as it was under IAS 39. Similar to the requirements of IAS 39, IFRS 9 requires contingent consideration liabilities to be treated as financial instruments measured at fair value, with the changes in fair value recognized in the statement of profit or loss. Under IFRS 9, embedded derivatives are no longer separated from a host financial asset. Instead, financial assets are classified based on their contractual terms and the Group’s business model. The accounting for derivatives

embedded in financial liabilities and in non-financial host contracts has not changed from that required by IAS 39.

### ***Impairment***

The adoption of IFRS 9 has changed the Group's accounting for impairment losses for financial assets by replacing IAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach. IFRS 9 requires the Group to record an allowance for ECLs for all loans and other debt financial assets not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

For Contract assets and Trade and other receivables, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

### ***Hedge accounting***

The Group continues to apply the requirement of IAS 39 related to hedge accounting.

### ***Financial liabilities restructuring***

Based on the IFRS 9, the Group removes a financial liability (or a part of a financial liability) from its statement of financial position when, and only when, it is extinguished-i.e. when the obligation specified in the contract is discharged or cancelled or expires.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### ***2.1.2. Standards and interpretations not applicable as of reporting date***

The Group has not early adopted the following standards and interpretations, for which application is not mandatory for period started from January 1, 2018 and that may impact the amounts reported.

- IFRS 16 *Leases*, effective on January 1, 2019;
- Annual improvements cycle 2015-2017, effective on or after January 1, 2019;
- IFRIC 23: *Uncertainty over Income Tax Treatments*, applicable for annual periods beginning on or after January 1, 2019;
- Amendments to IFRS 9: *Prepayments features with Negative Compensation*, effective on or after January 1, 2019;
- Amendments to IAS 28: *Long term interests in Associates and Joint ventures*, effective on or after January 1, 2019;
- Amendments to IAS 19: *Plan Amendment, Curtailment or Settlement*, effective on or after January 1, 2019.

IFRS 16 Leases issued on January 13, 2016 is the IASB's replacement of IAS 17 Leases. IFRS 16 specifies how to recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value.

The Board of Directors of the Company anticipate that the application of IFRS 16 in the future may have a material impact on amounts reported in respect of the Group's financial assets and financial liabilities, especially given the different operating lease arrangements of the Group. The effects are analysed as part of a Group-wide project for implementing this new standard. During the six month period ended June 30, 2018, the assessment phase has been

finalized and implementation plan is in progress, and it is not yet practicable to provide a reasonable estimate of the quantitative effects until the projects have been completed.

### 2.1.3. *Significant accounting judgments and estimates*

In the application of the Group's accounting policies, the Board of Directors of the Company is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

These key areas of judgments and estimates, as disclosed in the annual consolidated financial statements are:

- Estimations of provisions for claims and restructuring plans;
- Measurement of post-employments benefits;
- Revenue recognition;
- Fair value measurement of financial instruments;
- Measurement of deferred taxes;
- Impairment of goodwill;
- Estimation of useful lives of intangible assets and property, plant and equipment, and
- Estimation of impairment losses for trade and other receivables.

As of June 30, 2018, there were no changes in the key areas of judgements and estimates except that, following the application of IFRS 15 *Revenue from Contracts with Customers*, judgement and estimates are made for the determination of the enforceable period that is used for the recognition of contract assets and the amortization of the contract costs.

### 2.1.4. *Revised information*

The comparative information as of June 30, 2017 and December 31, 2017 had been revised to reflect the impact of new accounting standards IFRS 15 *Revenue from Contracts with Customers*, IFRS 9 *Financial instruments*, applicable from January 1, 2018, and the Separation of Altice USA from the Company (please refer to note 3.1.4. for more details). Please refer to note 18 for the reconciliation to previously published results.

#### 2.1.4.1. *IFRS 15 Revenue from Contracts with Customers*

The Group has adopted IFRS 15 *Revenue from Contracts with Customers* for annual period beginning on January 1, 2018, in accordance with the full retrospective method by restating each prior period and recognize the cumulative effect of initially applying IFRS 15 as an adjustment to the opening balance of equity at the beginning of the earliest period presented (January 1, 2017).

The details of the significant changes are set out below. The quantitative impacts are presented in note 18.

#### *Mobile activities*

The most significant impact is in the mobile activities (B2C and B2B transactions) as some arrangements include multiple elements that are being bundled: a handset component sold at a discounted price and a communication service component. In application of IFRS 15, the Group has identified those items as separate performance obligations. Total revenue is allocated to both elements based on their stand-alone selling price, leading to more revenue being allocated to the handset upfront. This also impacts the timing of revenue recognition as the handset is delivered up-front, even though total revenue does not change in most cases over the life of the contract. Other IFRS 15 topics impacting the accounts include capitalization of commissions (i.e. renewal commissions) which are broader than the capitalization model in the past, along with depreciation pattern which is based on estimates relating to the contract duration in some instances (prepaid business for example).

#### *Fixed activities*

In most cases, the service and the equipment is not considered as distinct performance obligations. Other identified topics relate to connection fees, related costs and capitalization of commissions. Related estimates include the determination of capitalized assets depreciation period based on contract period and additional periods related to anticipated contract that the Group can specifically identify.

#### 2.1.4.2. IFRS 9 Financial Instruments

IFRS 9 Financial Instruments issued on July 24, 2014 is the IASB's replacement of IAS 39 Financial Instruments: Recognition and Measurement. The Standard includes requirements for recognition and measurement, impairment, de-recognition and general hedge accounting. The Group implemented the standard based on the simplified retrospective approach; the transition impact was recorded in equity as of January 1, 2018 with no impact on 2017. The quantitative impacts are presented in note 18.

Main impact of IFRS 9 are as follows:

- Based on the IFRS 9 guidance, financial liabilities that have been renegotiated in previous period, where the renegotiated terms were considered as a non-substantial modification of the initial terms (cash flows modified in a proportion equal to or lower than 10%), requires a specific treatment upon transition to IFRS 9. Under IFRS 9, the Company should use the original effective interest rate to calculate the carrying value of the debt which is the present value of the modified future cash flows. Under IAS 39, for financial liabilities that have been renegotiated, the effective interest rate is changed on a prospective basis, with no income statement impact at the renegotiation date. For restructuring of financial liabilities that have been treated as extinguishment of debt, which is the case for most of the Group debt restructuring, there is no impact under IFRS 9.
- Based on the IFRS 9 guidance, the Group has applied the simplified model for trade receivables and contracts assets (without significant financing component) and has applied the expected credit loss model (i.e. including forward looking information) on assets (i.e. trade receivables not yet due and contract assets IFRS 15 *Revenue from Contracts with Customers*). Under current standard, the bad debt was calculated based on incurred losses.
- The new standard also implies change of classification in financial assets.

### 3. Scope of consolidation

The following changes occurred during the six month period ended June 30, 2018, which impacted the scope of consolidation compared to that presented in the annual consolidated financial statements.

#### 3.1. Transactions completed in the current period

##### 3.1.1. Sale of telecommunications solutions business and data center operations in Switzerland

On February 12, 2018, the Company announced the closing of the transaction to sell its telecommunications solutions business and data center operations in Switzerland, green.ch AG and Green Datacenter AG, to InfraVia Capital Partners. The transaction values the business at an enterprise value of approximately 214 million CHF (9.9x LTM Adjusted EBITDA).

The capital gain recorded during the six month period ended June 30, 2018 amounted to €88.8 million, net of tax. The total proceeds received related to the sale amounted to €156.4 million.

##### 3.1.2. Acquisition by Altice France of the minority stake held by News Participations in Altice Content Luxembourg

On April 5, 2018, Altice France acquired the minority stake held by News Participations (NP) in Altice Content Luxembourg (ACL) for the amount of €100 million by exercising the call option it held on NP's 25% stake in ACL. On May 31, 2018, Altice France increased its ownership in NextRadioTV S.A. via conversion of convertible bonds into equity. Following the transactions described above, the Group's ownership in NextRadioTV S.A. and its subsidiaries increased to 100%.

##### 3.1.3. Exercise of the ATS call option

In April 2018, the Group exercised the call option for the acquisition of the remaining 49% in Altice Technical Services ("ATS") for a fixed price of €147 million, bearing interests at an annual rate of EURIBOR 1 month plus 3.5%. This amount will be paid in November 2018. As a result of the exercise of the call option, the Company's

ownership in ATS increased to 100%.

#### 3.1.4. *Altice USA separation from the Company*

On June 8, 2018, the Company and Altice USA announced that the planned separation of Altice USA from the Company (the "Separation") had been implemented. In the context of the Separation, the corporate name of the Company was changed from Altice N.V to Altice Europe N.V.

The Separation took place by way of a special distribution in kind by the Company of its 67.2% interest in Altice USA to the Company's shareholders out of the Company's share premium reserve (the "Distribution"). The Company instructed its agent to transfer to each of its shareholders 0.4163 shares of Altice USA common stock for every share held by such shareholder in the Company's capital on the Distribution record date.

As announced by the Company and Altice USA on June 7, 2018, the total number of shares of Altice USA Class A common stock and Altice USA Class B common stock that have been distributed are:

- Altice USA Class A common stock 247,683,489
- Altice USA Class B common stock 247,683,443

Following the Distribution, there were 489,384,523 shares of Altice USA Class A common stock and 247,684,443 shares of Altice USA Class B common stock outstanding.

As part of the Separation, on June 6, 2018, Altice USA paid a \$1.5 billion of cash dividend to its shareholders, including \$1.1 billion to the Company (equivalent to €1.3 billion and €0.9 billion respectively).

On April 23, 2018, the Group completed the sale of i24News Europe and i24News US (international 24-hour news and current affairs television channel) to Altice USA for a total consideration of \$10.1 million (€8.3 million).

##### 3.1.4.1. *The accounting principles used for the transaction and accounting impact*

The distribution in kind by the Company of its 67.2% interest in Altice USA to the Company's shareholders was excluded from the provisions of IFRIC 17 *Distribution of Non-cash Asset to Owners* and was treated as a common control transaction, as Altice USA is controlled by Next Alt, the ultimate company owned by Patrick Drahi before and after the distribution. Therefore, the distribution was recorded at book value through shareholders' equity, resulting in a decrease by €2,849.5 million of equity during the six month period ended June 30, 2018.

The remaining interest in Altice USA, directly and indirectly owned through CVC 3 B.V. and Neptune Holding US LP was recorded at fair value through equity at the Separation date (June 8, 2018) in accordance with IFRS 10 *Consolidated Financial Statements*, which resulted in an increase in shareholder's equity by €232.4 million, and then revalued at fair value through Other Comprehensive Income, based on the requirements of IFRS 9 *Financial Instruments*, as of June 30, 2018 which resulted in a decrease in fair value of €11.1 million. The fair value of Altice USA and Neptune Holding US LP shares was €371.3 million as of June 30, 2018 (please refer to note 10.1.2), consisting of:

- the remaining ownership of Altice USA directly the Company through CVC3 B.V. is 0.79% or 5,844,276 class A shares, for a value of \$99.7 million (€85.4 million).
- the investment kept in Altice USA via Neptune Holding US LP is 2.65% or 19,570,250 shares, for a fair value of \$333.8 million (€285.9 million).

The Separation was treated as a discontinued operation as specified in IFRS 5 *Non-currents assets Held for sale and discontinued operations*, all the statement of income line items was restated to remove the impact of Altice USA and its contribution to the net result was presented in the line "discontinued operation" of the statement of income. Prior year period was restated (please refer to note 18).

Information related to the impact of discontinued operation of Altice USA in the statement of income and the statement of cash flows for the six month period ended June 30, 2018 and June 30, 2017 is presented in note 3.5. The contribution of i24 entities for the six month period June 30, 2018 was not treated discontinued operations as it is not a major line of business or segment (please refer to note 4.1).

### **3.2. Transactions completed in the prior period**

#### *3.2.1. Acquisition of a stake in SPORT TV*

On February 24, 2017, PT Portugal acquired a 25% stake in the capital of SPORT TV for €12.3 million. SPORT TV is a sports broadcaster based in Portugal. Following this investment, SPORT TV's shareholders are PT Portugal, NOS, Olivedesportos and Vodafone, each of which with a 25% stake. This new structure benefits, above all, PT Portugal's customers and the Portuguese market, guaranteeing all the operators' access to the sports content considered essential in fair and non-discriminatory market conditions.

#### *3.2.2. Sale by SFR Group of L'Etudiant and the B2B Division of Newsco Group to Coalition Media Group*

In 2016, SFR Group and Marc Laufer began exclusive negotiations for a new partnership between SFR, NewsCo and l'Etudiant. In accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*, the associated disposal group was classified as held for sale as of December 31, 2016. On April 28, 2017, SFR Group completed the sale of the companies. SFR Group subsequently acquired a 25% stake in this holding, this is classified as an investment in associate. As part of the transaction, the vendor loan contracted during the acquisition of Altice Media Group for €100 million was fully reimbursed. The Group recorded a €28.6 million capital gain for this transaction.

#### *3.2.3. Disposal of Coditel*

As at December 31, 2016, the Group had entered into an agreement to sell its Belgian and Luxembourg (Belux) telecommunication businesses, and accordingly classified the associated assets and liabilities as a disposal group held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*. On June 19, 2017, the Group completed the sale of Coditel Brabant SPRL and Coditel S.à r.l., to Telenet Group BVBA, a direct subsidiary of Telenet Group Holding N.V. After the final post-closing price adjustments, the Group received €280.8 million, and recognized a loss on sale after transactions costs of €24.0 million.

On June 22, 2017, Altice Teads (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. Teads is the number one online video advertising marketplace in the world with an audience of more than 1.2 billion unique visitors. The acquisition values Teads at an enterprise of up to €302.3 million. The acquisition purchase price was due 75% at closing, with the remaining 25% earn-out subject to Teads obtaining defined revenue performance in 2017. As the defined revenue targets for 2017 were met, an earn-out payment of €48.6 million was made to the former owners of Teads during Q2 2018, with an additional earn-out payment of €13.1 million made on July 3, 2018. Please also refer to note 17.1.

  - the dividend paid to non-controlling interest of €395.5 million,
  - the impact based on the accounting treatment mentioned in note 3.1.4.1 which amounted to €976.3 million. This amount included €38.2 million of cumulative translation adjustment after the Separation took place on June 8, 2018.
- Acquisition by Altice France of the minority stake held by News Participations in Altice Content Luxembourg (please refer to note 3.1.2).
- The extinguishment of the put option of ACL of €94.8 million in Altice France.

### 3.4. Assets held for sale

In December 2017, the Board of Directors of the Company decided to sell the Group's International Wholesale business. The transits and international outgoing traffic business in Portugal and the Dominican Republic was classified as held for sale as of December 31, 2017, in accordance with IFRS 5 *Non-Current Assets Held for Sale and Discontinued Operations*. On March 12, 2018, the Company announced that it had entered into exclusivity with Tofane Global, a Paris-based telecommunications and digital player specializing in international carrier services, for the sale of its international wholesale voice carrier business in France, Portugal and the Dominican Republic. As a result, the working capital related to the French wholesale business was also classified as a disposal group held for sale as of June 30, 2018, in accordance with IFRS 5 *Non-Current Assets Held for Sale and Discontinued Operations*. The results from these operations are included in the respective segments mentioned above. On July 18, 2018, Sale and Purchase Agreements had been signed separately by Altice France, Altice Dominicana and MEO with Tofane Global. The transaction is expected to close in September 2018. Please refer to note 17.5.

consolidate SFR TowerCo and hence the assets and liabilities related to SFR TowerCo were not classified as held for sale. The Sale and Purchase Agreement has been signed on August 7, 2018 (please refer to note 17.9) for a consideration of €3.5 billion.

On July 30, 2018, Altice Europe announced that its subsidiary Altice Dominicana had reached an agreement with Phoenix Tower International, a portfolio company of Blackstone, for the sale of 100% in the tower company Teletorres del Caribe that will comprise 1,049 sites currently operated by Altice Dominicana. ## 4. Segment reporting

### 4.1. Definition of segments

Given the geographical spread of the entities within the Group, analysis by geographical area is fundamental in determining the Group's strategy and managing its different businesses. The Group's chief operating decision maker is the senior management team. This team analyses the Group's results across geographies, and certain key areas by activity. The presentation of the segments here is consistent with the reporting used internally by the senior management team to track the Group's operational and financial performance. The businesses that the Group owns and operates do not show significant seasonality, except for the mobile B2C and B2B segments, which can show significant changes in sales at the year end and at the end of the summer season (the "back to school" period). The B2B business is also impacted by the timing of preparation of the annual budgets of public and private sector companies. The accounting policies of the reportable segments are the same as the Group's accounting policies.

The segments that are presented are detailed below:

- **France:** The Group controls Altice France S.A., the second largest telecom operator in France, which provides services to residential (B2C) and business clients (B2B) as well as wholesale customers, providing mobile and high-speed internet services using SFR and the associated brands. As of 2018, this segment also comprises of the French Overseas Territories (FOT), Altice Technical Services France (ATSF) and Altice Customer Services (ACS).
- **Portugal:** Altice owns Portugal Telecom ("PT Portugal"), the largest telecom operator in Portugal. PT Portugal caters to fixed and mobile B2C, B2B and wholesale clients using the MEO brand. As of 2018, this segment also includes the Altice Technical Services entities in Portugal.
- **Israel:** Fixed and mobile services are provided using the HOT telecom, HOT mobile and HOT net brands to B2C and B2B clients. HOT also produces award winning exclusive content that it distributes using its fixed network. As of 2018, this segment also includes the Altice Technical Services entity in Israel.
- **Dominican Republic:** The Group provides fixed and mobile services to B2C, B2B and wholesale clients using Altice brands. As of 2018, this segment also includes the Altice Technical Services entity in the Dominican Republic.
- **Teads:** Provides digital advertising solutions.
- **Altice TV:** Content business from the use of content rights.
- **Others:** This segment includes all corporate entities and i24 US LLC (please refer to note 3.1.4.). The Board of Directors believes that these operations are not substantial enough to require a separate reporting segment, and so are reported under "Others".

Following the change in segment definition as of 2018, the comparative segment information of 2017 was restated accordingly. In addition, United States is no longer defined as a segment as the result of the classification of Altice USA as discontinued operations (please refer to note 3.1.4).

### 4.2. Financial Key Performance Indicators ("KPIs")

The Board of Directors has defined certain financial KPIs that are tracked and reported by each operating segment every month to the senior executives of the Company. The Board of Directors believes that these indicators offer them the best view of the operational and financial efficiency of each segment and this follows best practices in the rest of the industry, thus providing investors and other analysts a suitable base to perform their analysis of the Group's results.

The financial KPIs tracked by the Board of Directors are:

- Adjusted EBITDA: by segment,
- Revenues: by segment and in terms of activity,
- Capital expenditure (“Capex”): by segment, and
- Operating free cash flow (“OpFCF”): by segment.

#### 4.2.1. *Non-GAAP measures*

Adjusted EBITDA, Capex and OpFCF are non-GAAP measures. These measures are useful to readers of Altice’s financial statements as they provide a measure of operating results excluding certain items that Altice’s management believe are either outside of its recurring operating activities, or items that are non-cash. Excluding such items enables trends in the Group’s operating results and cash flow generation to be more easily observable. The non-GAAP measures are used by the Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel. Such performance measures are also the de facto metrics used by investors and other members of the financial community to value other companies operating in the same industry as the Group and thus are a basis for comparability between the Group and its peers. Moreover, the debt covenants of the Group are based on the Adjusted EBITDA and other associated metrics. The definition of covenant has not changed with the adoption of the IFRS 15 *Revenue from Contracts with Customers* by the Group.

##### 4.2.1.1. *Adjusted EBITDA*

Adjusted EBITDA is defined as operating income before depreciation and amortization, non-recurring items (capital gains, non-recurring litigation, restructuring costs) and equity-based compensation expenses. This may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the annual consolidated financial statements in accordance with IAS 1 - *Presentation of Financial Statements*.

##### 4.2.1.2. *Capex*

Capex is an important indicator to follow, as the profile varies greatly between activities:

- The fixed business has fixed Capex requirements that are mainly discretionary (network, platforms, general), and variable capex requirements related to the connection of new customers and the purchase of Customer Premise Equipment (TV decoder, modem, etc).
- Mobile Capex is mainly driven by investment in new mobile sites, upgrade to new mobile technology and licenses to operate; once engaged and operational, there are limited further Capex requirements.
- Other Capex is mainly related to costs incurred in acquiring content rights.

##### 4.2.1.3. *Operating free cash flow*

OpFCF is defined as Adjusted EBITDA less Capex. This may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating cash flow as presented in the consolidated statement of cash flows in accordance with IAS 1 - *Presentation of Financial Statements*.

#### 4.2.2. *Revenues*

Additional information on the revenue split is presented as follows:

- Fixed in the business to consumer market (B2C),
- Mobile in the business to consumer market (B2C),
- Business to business (B2B) market,
- Wholesale, and
- Other.

Intersegment revenues represented 1.1% of total revenues for the six month period ended June 30, 2018, compared to 4.5% of total revenues for the six month period ended June 30, 2017 (€80.7 million compared to €340.4 million). Intersegment revenues mainly relate to services rendered by certain centralized Group functions (relating to content production, technical services, customer services and management fees) to the operational segments of the Group.

## 5. Goodwill and Intangible Assets

### 5.1. Goodwill

Goodwill recorded in the consolidated statement of financial position was allocated to the different groups of cash generating units (“GCGU” or “CGU” for cash generating units) as defined by the Group. Following the change in the segment structure as of 2018 (please refer to note 4.1), FOT, Altice Technical Service France and Altice Customer Service were reclassified from caption Others to France. Similarly, other Altice Technical Service entities in Portugal, Israel and the Dominican Republic were allocated to the total GCGU in respective countries.

The caption Held for sale in gross value of Altice France represents the reduction in goodwill of €23.3 million due to the sale of i24 News and Middle East News. These entities were sold to Altice USA on April 23, 2018. Following the disposal of B2B press activities, Altice France derecognized €10.3 million of goodwill as of June 30, 2018, which is captured in table above in caption Other.

## 5.2. Impairment of goodwill

Goodwill is reviewed at the level of each GCGU or CGU annually for impairment and whenever changes in circumstances indicate that its carrying amount may not be recoverable. Goodwill was tested at the CGU/GCGU level for impairment as of December 31, 2017. The CGU/GCGU is at the country level where the subsidiaries operate. The recoverable amounts of the GCGUs are determined based on their value in use. The key assumptions for the value in use calculations are the pre-tax discount rates, the terminal growth rate and the EBIT margin during the period. The senior management team has determined that there have not been any changes in circumstances indicating that the carrying amount of goodwill may not be recoverable. In addition, there were no significant changes in assets or liabilities in any CGU/GCGU, while the recoverable amounts continue to significantly exceed the carrying amounts. Therefore, no updated impairment testing was performed, nor any impairment recorded, for the six months ended June 30, 2018.

## 5.3. Business combinations

The Group has concluded several acquisitions during the past 12 months. In all acquisitions, the Group records the provisional value of the assets and liabilities as being equivalent to the book values in the accounting records of the entity being acquired. The Group then identifies the assets and liabilities to which the purchase price needs to be allocated. The fair value is determined by an independent external appraiser based on a business plan prepared as of the date of the acquisition.

### 5.3.1. Acquisitions where the purchase price allocations have been finalized

#### 5.3.1.1. Pho Holding

On July 26, 2017, Altice France obtained approval for the take-over of Pho Holding (owner of the Numero 23 channel) by NextRadioTV. Following the take-over (current ownership is 51%), the consolidation method changed as of September 30, 2017 (from equity accounted to full consolidation).

#### 5.3.1.2. Teads

On June 22, 2017, Altice Teads (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. The acquisition purchase price was €302.3 million, with 75% due at closing, and the remaining 25% earn-out subject to Teads obtaining defined revenue

performance in 2017, which targets have been met. As the defined revenue targets for 2017 were met, an earn-out payment of €48.6 million was made to the former owners of Teads during the second quarter of 2018, with an additional earn-out payment of €13.1 million made on July 3, 2018. Please also refer to note 17.1.

Following the preliminary purchase price allocation, the Group identified the following assets and liabilities. Their fair value was determined by an independent external appraiser based on a business plan prepared as of the date of the acquisition as follows:

- the Teads brand was measured using the relief from royalty method using a useful life of 5 years, resulting in a fair value of €26.6 million;
- a fair value of €50.2 million was attributed to Programatic and Managed Service technology and measured using the relief from royalty method with a useful life of 5 years.

There was no change in the preliminary purchase price allocation compared to December 31, 2017 and the purchase price allocation has been finalized.

As both common shares A and common shares B have the same economic rights, basic earnings per share is calculated using the aggregate number of shares in circulation, excluding treasury shares held by the Company. Except for the earnings per share from discontinued operations, basic and diluted earnings per share are the same due to the Group recording a loss for the six month periods ended June 30, 2018 and 2017; the potential dilutive shares upon creation would have led to an increase of diluted earnings per share.

During the six month period ended June 30, 2018, the Group did not refinance any of its debt, except for refinancing in Altice USA (please refer to notes 9.2.1 to 9.2.3 below).

### *9.2.1. Issuance of Cablevision's \$1,500 million incremental term loans*

On January 12, 2018, CSC Holdings successfully priced, for the Cablevision credit pool, \$1,500 million of 8-year incremental term loans under the 2015 Cablevision credit facility agreement. The term loans were issued at OID of 99.50 and are due to mature in January 2026. The term loans are comprised of eurodollar borrowings or alternate base rate borrowings, and bear interest at a rate per annum equal to the adjusted LIBO rate or the alternate base rate, as applicable, plus the applicable margin, where the applicable margin is (i) with respect to any alternate base rate loan, 1.50% per annum and (ii) with respect to any eurodollar loan, 2.50% per annum. The term loans were drawn on January 25, 2018. The proceeds of the term loans were used, together with proceeds from CSC Holdings' offering of new 2018 Cablevision senior guaranteed notes, borrowings under the 2015 Cablevision revolving credit facility and cash on balance sheet, to (i) refinance all of CSC Holdings' 7 $\frac{7}{8}$ % senior debentures due 2018, (ii) make a dividend to Cablevision, the direct parent of CSC Holdings, which used the proceeds to refinance all of Cablevision's 7 $\frac{3}{4}$ % senior notes due 2018, (iii) temporarily repay approximately \$450.0 million of outstanding borrowings under the 2015 Cablevision revolving credit facility and (iv) pay fees, costs and expenses associated with these transactions. Cablevision used the proceeds referred to in (iv) above to fund a dividend to its parent, Altice USA, which proceeds in turn were used to fund the dividend to the Company.

### *9.2.2. Issuance of Cablevision's \$1,000 million Senior Guaranteed Notes due 2028*

On January 12, 2018, CSC Holdings successfully priced \$1,000 million in aggregate principal amount of senior guaranteed notes due 2028. The 2018 Cablevision senior guaranteed notes bear interest at a rate of 5.375% and are due to mature on February 1, 2028. The offering closed on January 29, 2018. The proceeds of the 2018 Cablevision senior guaranteed notes will be used, together with proceeds from the \$1,500 million of incremental term loans borrowed under the 2015 Cablevision credit facility agreement (as described above) to (i) refinance all of CSC Holdings' 7 $\frac{7}{8}$ % senior debentures due 2018, (ii) make a dividend to Cablevision, the direct parent of CSC Holdings, which used the proceeds to refinance all of Cablevision's 7 $\frac{3}{4}$ % senior notes due 2018, (iii) temporarily repay approximately \$450.0 million of outstanding borrowings under the 2015 Cablevision revolving credit facility and (iv) pay fees, costs and expenses associated with these transactions.

### *9.2.3. Issuance of Cequel's \$1,050 million Senior Note due 2028 and redemption of the \$1,050 million Senior Note due 2020*

In April 2018, Cequel Communications Holding I LLC (CCHI), a Delaware limited liability company and Cequel Capital Corporation, a Delaware corporation, each an indirect, wholly owned subsidiary of Altice USA, Inc. (collectively, the "Issuers"), issued a \$1,050.0 million, 7.5% senior note due 2028. On April 23, 2018 (the "Redemption Date"), the Issuers used the proceeds of the \$1,050.0 million, 7.5% senior note to redeem in full the outstanding \$1,050.0 million in aggregate principal amount of their 6.375% Senior Notes due 2020 (the "Notes"), which were issued pursuant to an indenture dated as of October 25, 2012, between the Issuers and U.S. Bank National Association, as trustee (the "Trustee"). The Notes were redeemed at a redemption price equal to 101.594% of the outstanding aggregate principal amount, plus accrued and unpaid interest on the Notes to the Redemption Date.

## **9.3. Derivatives and hedge accounting**

As part of its financial risk management strategy, the Group enters certain hedging operations. The main instruments used are fixed to fixed or fixed to floating cross-currency and interest rate swaps (CCIRS) that cover against foreign currency and interest rate risk related to the Group's debt obligations. The Group applies hedge accounting for the operations that meet the eligibility criteria as defined by IAS 39 (the Group continues to apply the requirement of IAS 39 related to hedge accounting, as allowed under IFRS 9).

Details of the main items within the caption, and the movements from the prior period, are detailed below.

#### 9.6.1. Collateralised debt – Comcast

This indebtedness in Altice USA was collateralized by the investment in the listed stock of Comcast. Due to the implementation of the separation of Altice USA from the Company as at June 8, 2018, the Comcast collateralized debt is nil as at June 30, 2018.

#### 9.6.2. Put options with non-controlling interests

The Group executes agreements with the non-controlling interests in certain acquisitions whereby the non-controlling interests have the option to sell their non-controlling interests to the Group. These instruments are measured at their fair value at the balance sheet date (please refer to note 10.1.2 for further information).

On August 27, 2015, Altice Content Luxembourg (a company 75% owned by Altice and 25% owned by News Participations, a company controlled by Alain Weill) acquired Groupe News Participations SAS, the holding company of NextradioTV (the “NextradioTV Transaction”). In May 2016, Altice transferred its participation in Altice Content Luxembourg to Altice France. In the context of the NextradioTV transaction, News Participations has granted to Altice a call option on the Altice Content Luxembourg securities held by News Participations. In addition, Altice has granted to News Participations a put option on the Altice Content Luxembourg securities held by News Participations. On April 5, 2018, the call option has been exercised for an amount of €100.0 million, resulting in the derecognition of the put option.

### 9.6.3. Deposits received

Altice France receives deposits from customers largely in relation to equipment that it provides customers that Altice France retains ownership of.

### 9.6.4. Reverse factoring and securitization

Through the use of reverse factoring structures, the Group improves the financial efficiency of its supply chain by reducing requirements for working capital. The year on year increase is due to the combination of an increase in spending with existing suppliers and new suppliers having joined the various reverse factoring programs that the Group maintains and due to Altice France securing certain B2B receivables, also reducing need of working capital flows.

### 9.6.5. Commercial paper

During the six month period ended June 30, 2018, Altice France made additional borrowings under its commercial paper program.

### 9.6.6. Bank overdraft

The Group is required to use an estimated annual effective tax rate to measure the income tax benefit or expense recognized in an interim period.

The Group recorded an income tax expense of €3.7 million for the six month period ended June 30, 2018, reflecting a negative effective tax rate of 1% compared to an income tax benefit of €188.9 million for the six month period ended June 30, 2017, reflecting an effective tax rate of 17%. Non-deductible financial expenses and provisions (mainly penalties related to gun jumping in Portugal, please refer to note 13.2.1) had the impact of lowering the Group's effective tax rate for the six month period ended June 30, 2018 and 2017.

**11.1. Income tax litigation**

There was no significant development in existing tax litigations since the publication of the annual consolidated financial statements that have had, or that may have, a significant effect on the financial position of the Group.

## **12. Contractual obligations and commercial commitments**

During the six month period ended June 30, 2018, no significant contractual obligations and commercial commitments have been signed as compared to the year ended December 31, 2017.

## **13. Litigation**

In the normal course of its activities, the Group is accused in a certain number of governmental, arbitration and administrative law suits. Provisions are recognised by the Group when management believe that it is more likely than not that such lawsuits will result in an expense being recognized by the Group, and the magnitude of the expenses can be reliably estimated. The magnitude of the provisions recognised is based on the best estimate of the level of risk on a case-by-case basis, considering that the occurrence of events during the legal action involves constant re-estimation of this risk.

The Group is not aware of other disputes, arbitration, governmental or legal action or exceptional fact (including any legal action of which the Group is aware, which is outstanding or by which it is threatened) that may have been, or is in, progress during the last months and that has a significant effect on the financial position, the earnings, the activity and the assets of the Company and the Group, other than those described below.

This note describes the new proceedings and developments in existing litigations that have occurred since the publication of the annual consolidated financial statements and that have had or that may have a significant effect on the financial position of the Group.

### **13.1. France**

#### *13.1.1. CLCV's summons and complaint against Altice France*

On January 7, 2013, the consumer association CLCV filed a complaint against Altice France in the Paris Commercial Court. CLCV claimed that some of the clauses in Altice France's general terms of subscription, and those of some other telephone operators, were unfair. It also asked for compensation for the collective loss suffered. The Paris District Court ruled that the clauses were unfair. On February 24, 2015, the Paris District court ruled that eight clauses included in the general terms of subscription were unfair and ordered Altice France to publish the ruling on its website and three daily print publications. Altice France was also asked to pay € 30,000 in damages to the CLCV. This decision was not executory, and Altice France appealed this ruling on April 16, 2015. The case was pleaded before the court of appeals of Paris on October 19, 2017.

On March 30, 2018, the court of appeals of Paris ruled that seven (of the fifty or so clauses) which the CLCV claimed were unfair/abusive and demanded that Altice France publish the entire ruling on its website preceded by the phrase, 'legal communiqué' and ordered Altice France to remove said clauses from the general terms of subscription with a penalty of up to 300 euros per day of delay.

#### *13.1.2. Altice France against Iliad, Free and Free mobile: unfair competition by disparagement*

On May 27, 2014, Altice France filed a complaint against Iliad, Free and Free Mobile in the Paris Commercial Court for unfair competition claiming that when Free Mobile was launched and afterwards, Iliad, Free and Free Mobile were guilty of disparaging Altice France services. Altice France claimed €493 million in damages.

On September 9, 2016, by pleadings on counterclaims, Free requested the court to judge that Altice France denigrated their capacities and services and claimed €475 million in damages. The Paris Commercial Court rendered its judgment on January 29, 2018. The Court sentenced Free Mobile to pay to Altice France €20 million as moral damage as a result of unfair competition made by disparagement.

In addition, the court sentenced Altice France to pay to Free Mobile €25 million as moral and material damage as a result of unfair competition made by disparagement.

Accordingly, the court sentences, as compensation, Altice France to pay to Free Mobile €5 million as damages. This decision was executed and the Group paid the €5 million net amount to Free Mobile in June 2018.

#### *13.1.3. Canal Plus Group (GCP) against Altice France and NC Numericable*

On October 4, 2017, GCP summoned Altice France and NC Numericable before Paris Commercial Court. GCP claimed that both Altice France and NC Numericable breached their contractual obligations and notably:

- the marketing of substitute products to the GCP allowing customer poaching from GCP offers to the benefit of « Altice » offers;
- the decrease of GCP's offers promotions;
- the promotion of migration of the subscriber base in favour of FTTB offer, which does not allow access to Canalsat offer;
- misleading advertising on contents (ex: « Le Grand Football est chez Altice France »);
- the refusal to set up new offers;
- the modification of the GCP channels numbering;
- the GCP channels denigration on SC platforms.

GCP requested the termination of the above under financial penalty of thirty thousand euros per day, and damages in the amount of €174 million. Altice France fully contests the facts and has initiated its own evaluation of damages suffered before initiating its own demands against Canal Plus.

#### 13.1.4. *Bouygues Telecom against Altice France (Faber CCI)*

- On October 19, 2017, Bouygues Telecom submitted a request for arbitration to the secretary of the International Chamber of Commerce ("ICC") relating to a disagreement regarding the Faber Agreement between Bouygues Telecom and Altice France.
- Bouygues Telecom claims that Altice France breached certain contractual duties and commitments made before the French Competition Authority relating to the Faber Agreement (namely, certain delays and not having connected certain categories of buildings, thereby causing damage to Bouygues Telecom).

The Arbitration court has been setup and proceeding began in May 2018. In a document dated June 15, 2018 Bouygues Telecom alleged that it has suffered prejudices amounting to €164.9 million. The Group disputes these claims.

The Group will present its counter claim on October 15, 2018 and is preparing the estimate of its own prejudice suffered and analysing the prejudice mentioned by Bouygues Telecom. As of June 30, 2018, the Group considers that the risk is difficult to estimate reliably and is hence considered to be a contingent liability under IAS 37 *Provision, Contingent Liabilities and Contingent Assets*.

#### 13.1.5. *Complaint by Orange Réunion and Orange Mayotte against SRR and SFR*

##### Differential on-net/off-net pricing in the mobile telephony market in Mayotte and La Réunion

Orange Réunion, Orange Mayotte and Outremer Telecom filed a complaint with the French Competition Authority in June 2009 alleging unfair differential on-net/off-net pricing by SRR in the mobile telephony market in Mayotte and La Réunion seeking conservatory measures from the French Competition Authority.

On September 15, 2009, the French Competition Authority announced provisional measures against SRR, pending its decision on the merits. SRR had to discontinue any price spread exceeding its actual "off-net/on-net" costs in the network concerned.

As the French Competition Authority found that SRR had not fully complied with its injunction, it fined SRR €2 million on January 24, 2012. In the proceedings on the merits, with regard to the "Consumers" component of the case, SRR requested and obtained a "no contest" on the complaints on July 31, 2013. On June 13, 2014, the French Competition Authority rendered its decision for the "Consumers" component of the case, fining SFR and its subsidiary SRR €45.9 million.

On June 18, 2018, the Group agreed on a settlement with Orange, whereby both parties mutually agreed to desist from certain ongoing legal actions.

##### Compensation disputes

Following the French Competition Authority's decision of September 15, 2009 (provisional measures) and pending the Authority's decision on the merits, on June 17, 2013, Outremer Telecom filed a suit against SRR and SFR in the Commercial Court seeking remedy for the loss it believes it suffered as a result of SRR's practices.

Outremer Telecom claimed €23.5 million in damages subject to adjustment for unfair practices by SRR in the consumer market in mobile telephony in La Réunion and Mayotte, and €1 million as damages in full for unfair practices by SRR in the business market in mobile telephony in La Réunion and Mayotte.

Outremer withdrew from the proceedings against SRR and SFR on May 10, 2015.

On October 8, 2014, Orange Reunion sued SRR and SFR jointly and severally to pay €135.3 million for the loss suffered because of the practices sanctioned by the French Competition Authority. Various procedural issues have been raised, on which a judgment is pending. The Court rendered its ruling on June 20, 2016 stating that the petitions of Orange Réunion cannot relate to the period preceding October 8, 2009 and therefore refused to exonerate SFR.

On December 20, 2016, following the Court's judgment, Orange updated its estimate of the loss it believes it suffered after October 8, 2009 and reached the amount of €88 million (which represents the non-time-barred portion of the alleged loss).

As part of the agreement described above, on June 18, 2018, Orange has agreed to drop this litigation.

#### 13.1.6. *Orange suit against SFR in the Paris Commercial Court (overflows case)*

Orange filed a claim on August 10, 2011 with the Paris Commercial Court asking the Court to order SFR to immediately cease its unfair "overflow" practices and to order SFR to pay €309.5 million in contractual penalties. It accused SFR of deliberately organizing overflows onto the Orange network for the purpose of economically optimizing its own network (under designing the Primary Digital Block (PBN)). In a ruling of December 10, 2013, the Court ordered SFR to pay Orange €22.1 million. SFR and Orange both appealed the ruling. On January 16, 2015 the Paris Court of Appeals upheld the Commercial Court's ruling and SFR paid the €22.1 million. On January 13, 2017, SFR appealed the ruling.

On August 11, 2014, SFR also petitioned the District Court enforcement judge, who rendered his decision on May 18, 2015, by ordering SFR to pay €0.6 million (assessment of penalty for 118 abusive overflows).

On July 24, 2017, Orange summoned SFR before the Paris Commercial Court in order to obtain the payment of €11.8 million by application of contractual penalty clauses concerning misbehaviors between July 2011 and July 2014. At the same date, Orange summoned Completel before the same Court, for the same reasons and basis, but for an amount of €9.7 million.

By pleadings dated January 30, 2018, SFR and Completel asked for a ruling deferment in order to await the Court of Cassation judgment.

As part of the agreement described above, on June 18, 2018, Orange has agreed to drop this litigation.

#### 13.1.7. *SFR against Orange: abuse of dominant position in the second homes market*

On April 24, 2012, SFR filed a complaint against Orange with the Paris Commercial Court for practices abusing its dominant position in the retail market for mobile telephony services for non-residential customers.

On February 12, 2014, the Paris Commercial Court ordered Orange to pay to SFR €51 million for abuse of dominant position in the second homes market.

On April 2, 2014, Orange appealed the decision of the Commercial Court on the merits. On October 8, 2014, the Paris Court of Appeals overturned the Paris Commercial Court's ruling of February 12, 2014 and dismissed SFR's requests. The Court of Appeals ruled that it had not been proven that a pertinent market limited to second homes exists. In the absence of such a market, there was no exclusion claim to answer, due to the small number of homes concerned. On October 13, 2014 SFR received notification of the judgment of the Paris Court of Appeal of October 8, 2014 and repaid the €51 million to Orange in November 2014. On November 19, 2014, SFR appealed the ruling. On April 12, 2016, the French Supreme Court overturned the Court of Appeal's decision and referred the case back to the Paris Court of Appeal. Orange returned €52.7 million to SFR on May 31, 2016. Orange refilled the case before the Paris Court of Appeal on August 30, 2016.

On June 8, 2018, the Paris Court of Appeal rejected Orange's appeal. Orange retains the possibility of refiling an appeal with the French Supreme Court.

## **13.2. Portugal**

### *13.2.1. European Commission Investigation*

After having approved the acquisition of PT Portugal by the Group on April 20, 2015, the European Commission initiated an investigation into infringement by the Group of the obligation of prior notification of concentrations under Article 4(1) of the Merger Regulation and/or of the stand-still obligation laid down in Article 7(1) of the Merger Regulation. The European Commission issued a statement of objections on May 18, 2017, informing the Group of the objections raised against it.

On April 24, 2018, the European Commission has notified the Group of its decision to impose upon it a fine for an amount of €124.5 million. The Commission found that the Group infringed the prior notification obligation of a concentration under Article 4(1) of the EU Merger Regulation, and the stand-still obligation under Article 7(1) of the EU Merger Regulation. The Group fully disagrees with the Commission's decision, and in particular, it considers that this case differs entirely from the French Numéricable/Altice France/Virgin gun jumping case, in which the Group had agreed not to challenge the allegations brought against it. In the Group's opinion, the Commission's decision relies on a wrongful definition of the notion of "implementation" of a concentration. Further, the transaction agreement governing the management of the target during the pre-closing period provided the Group with a consultation right on certain exceptional matters relating to PT Portugal aimed at preserving the value and integrity of the target prior to closing and was in accordance with well-established M&A market practice.

In any event, the Group considers that the elements in the Commission's file do not establish the exercise of influence, as alleged by the Commission, by the Group over PT Portugal's business conduct neither prior to the merger notification to the Commission nor prior to the Commission's clearance.

On July 5, 2018, the Group has filed a request for annulment against the Commission's decision before the EU General Court to request that the decision as a whole be annulled or, at the very least, that the sanction be significantly reduced. The Commission's decision does not affect the approval granted by the European Commission on April 20, 2015 for the acquisition of PT Portugal by the Group.

As of June 30, 2018, a liability of €124.5 million is recorded at Altice Portugal, as it is the acquiring entity of PT Portugal. On July 25, 2018, Altice issued a bank guarantee to the European Commission.

### *13.2.2. Vodafone – Network Sharing Agreement*

Vodafone and PT Comunicações (currently MEO) signed, on July 21, 2014, an agreement for the acquisition of exclusive rights of use of the PON Network, which consisted in the possibility of access to the installed infrastructure owned by each of the parties to offer new generation services and integrated offerings (voice, internet and television) autonomously in the retail market. On November 4, 2015, MEO informed Vodafone that it has decided to individually develop a new, ambitious plan for the expansion of its fiber optic network, both in geographical areas already covered by a new generation network and in other geographical areas, while continuing to comply with the agreed. Notwithstanding Vodafone states that this was a breach of the agreement and is claiming an amount of approximately €132 million from MEO for damages and losses allegedly caused by that non-compliance with the agreed.

MEO submitted its defense to these claims in June 2018, stating that (i) Vodafone did not have a contractual right to prevent MEO from developing its network autonomously and independently from the agreement, (ii) all of Vodafone rights, resulting from the agreement, were respected by MEO, and Vodafone was in no way limited by MEO in the investment in the construction of its own network, which it developed freely and voluntarily, choosing to invest where it found greater profitability for its business, and (iii) Vodafone's claims for damages and losses were not factually sustainable.

### *13.2.3. TV Tel - Restricted access to the telecommunication ducts*

In March 2004, TV TEL Grande Porto - Comunicações, S.A. ("TVTEL", subsequently acquired by NOS), a telecommunication company based in Oporto, filed a claim against PT Comunicações in the Lisbon Judicial Court. TV TEL alleged that, since 2001, PT Comunicações has unlawfully restricted and/or refused access to its telecommunication ducts in Oporto, thereby undermining and delaying the installation and development of TV TEL's telecommunications network. TV TEL is claiming an amount of approximately €15 million from MEO for

damages and losses allegedly caused and yet to be sustained as a result of the delay in the installation of its telecommunications network in Oporto. PT Comunicações submitted its defense to these claims in June 2004, stating that (1) TV TEL did not have a general right to install its network in PT Comunicações's ducts, (2) all of TV TEL's requests were lawfully and timely responded to by PT Comunicações according to its general infrastructure management policy, and (3) TV TEL's claims for damages and losses were not factually sustainable.

In the end of 2016, MEO was notified to present the list of witnesses, which it did, and the witnesses were heard in the trial that took place in April and May 2017. In September 2017, MEO was notified of a unfavourable decision (for an amount significantly lower than the gross claim and for which there is a provision), as a result of which it has filed an appeal. In June 2018, MEO was notified of the unfavourable decision of the appeal to the Lisbon Court of Appeal, which confirmed the previous decision from the first instance court. MEO filed an appeal to the Supreme Court in July 2018.

#### 13.2.4. *Optimus - Interconnection agreement*

This legal action is dated from 2001 and relates to the price that Telecomunicações Móveis Nacionais ("TMN", PT Portugal's mobile operation at that time) charged Optimus - Comunicações S.A. ("Optimus", one of MEO's mobile competitors at that time, currently NOS) for mobile interconnection services, price that Optimus did not agree with. TMN transferred to PT Comunicações (PT Portugal's fixed operation at that time, currently named MEO) the receivables from Optimus, and subsequently PT Comunicações offset those receivables with payables due to Optimus. NOS argues for the annulment of the offset made by PT Comunicações and accordingly claims from PT Comunicações the settlement of the payables due before the offset plus accrued interest. In August 2015, the court decided that the transfer of the interconnection receivables from TMN to PT Comunicações and consequently the offset of those receivables with payables due by PT Comunicações to Optimus were not legal and therefore sentenced MEO to settle those payables plus interest up to date in the total amount of approximately €35 million. MEO appealed from this decision in October 2015 to the Court of Appeal of Lisbon. In September 2016, MEO was notified of the decision from the Court of Appeal of Lisbon, which confirmed the initial ruling against MEO, as a result of which MEO decided to appeal to the Supreme Court. On March 13, 2017, MEO was notified of the Supreme Court's decision of dismissal of its appeal and as a result MEO decided to appeal to the Constitutional Court. In January 8, 2018, MEO was notified of the Constitutional Court decision of dismissal of the appeal, after which MEO appealed to the Constitutional Court Conference. MEO was notified that the Constitutional Court Conference did not accept and consequently will not analyse the appeal. In July 2018, MEO paid €41 million to settle the action which had been accrued for in 2015.

## 14. Equity based compensation

### 14.1.1. *Stock option plan – impact of Altice USA spin off.*

On April 30, 2018 the Board decided to amend the stock option plans and this decision was approved in the extraordinary general meeting (EGM) on June 11, 2018. The EGM approved the modification for the Board members, but same principles will be applicable for all employees in the plans. In addition, for the performance SOP, a decision has been taken on July 10, 2018 by the EGM.

The modification has been treated based on the provisions of IFRS 2 *Share based Payments*:

- (1) For the Altice Europe part of the stock option plans:  
The part of the Altice Europe plans was repriced in order to take into account the spin-off of Altice USA and has been considered as a replacement of cancelled options. Altice Europe continues to expense the portion of the initial fair value not yet recognized over the original vesting period, after taking into account the decrease related to the Altice USA stock option part (based on 24.33% ratio).
- (2) For the Altice USA part of the stock option plans:  
For specific reasons related to market regulations in the USA, it was decided to replace Altice USA stock option by payment in cash based on vesting dates of existing plans (no change in vesting conditions).

The treatment of a change from equity settled to cash settled is treated by IFRS 2 B43:

- (3) The vested part of the liability was recognized as a liability with a corresponding reduction of equity. The vested portion amount to \$96.2 million (€82.4 million). Of this \$32.9 million relates to Patrick Drahi/Next

**Altice Europe N.V. (formerly Altice N.V.)**  
Condensed Interim Consolidated Financial Statements

Alt, \$32.9 million relates to Dexter Goei and \$10.2 million relates to the other key management personnel. Payment is expected by end of September 2018.

(4) The unvested liability will be recorded in the statement of income over the vesting period.

**15. Related party transactions and balances**

Following the changes in the Altice organizational structure that also impacts Altice Management International (“AMI”), Altice management decided to cancel the Altice Way fee from December 31, 2017 onwards. Instead AMI will recharge corporate costs plus markup to Altice France, PT Portugal, HOT and Altice Dominicana based on their revenues contribution in 2017.

Transactions with related parties are mainly related to transactions with Altice USA, transactions with associates of the various operating entities of the Group, such as Altice France, PT Portugal and HOT, and payments for services rendered by the controlling shareholder of the Group. Such transactions are limited to:

- exchange of services between Altice France and PT Portugal and their associate companies;
- entering into a brand license and service agreement with the controlling shareholder of the Company, which was amended in 2017 to replace the fee payable under the agreement by a grant of stock options;
- exchange of services between Altice USA, Teads and Altice Dominicana;
- exchange of services like healthcare insurance, management of emergency network and broadcasting of sport events between PT Portugal and its associate companies;
- services between HOT Telecom and Phi, its joint venture partner for mobile services; and
- rental agreements for office space in France for the Altice France group with Quadrans, a company controlled by the ultimate beneficiary owner of the Group.

Transactions with related parties are not subject to any guarantees. The table below shows a summary of the Group’s related party transactions for the six months ended June 30, 2018 and 2017, and outstanding balances as at June 30, 2018 and December 31, 2017.

## 16. Going concern

As of June 30, 2018, the Group had net current liability position of €4,409.1 million (mainly due to trade payables amounting to €6,922.6 million) and a negative working capital of €1,912.8 million. During the six month period ended June 30, 2018, the Group registered a net loss of €460.0 million from continued operations and generated cash flows from operations of €1,816.9 million from continued operations.

As of June 30, 2018, the Group had a negative equity position of €4,074.1 million compared to €363.5 million as at December 31, 2017. The equity position decreased from the prior period mainly due to the special distribution in kind of the Group's 67.2% interest in Altice USA to the Company's shareholders out of the Company's share premium reserve (the Distribution).

The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short days of sales outstanding and suppliers are paid under standard commercial terms, thus generating a negative working capital. This is evidenced by the difference in the level of receivables and payables; €4,542.3 million compared to €6,922.6 million for the six month period ended June 30, 2018, as compared to €4,870.6 million and €8,368.8 million for the year ended December 31, 2017. Payables due the following month are covered by revenues and cash flows from operations (if needed).

As of June 30, 2018, the Group's short term borrowings mainly comprised mainly of debentures of HOT Telecom for an amount of €180.6 million and loans from financial institutions for Altice France and Altice Financing for €285.1 million and €373.5 million respectively. These short-term obligations are expected to be covered by the operating cash flows of the operating subsidiaries. As at June 30, 2018, the revolving credit facilities at Altice France and Altice Financing were drawn in an aggregate of €580.0 million. A listing of available credit facilities by silo is provided in note 9.5 and the amounts available per segments are sufficient to cover the short-term debt and interest expense needs of each of these segments if needed.

Given the above, the Board of Directors has considered the following elements in determining that the use of the going concern assumption is appropriate:

- The Group has a strong track record of generating positive adjusted EBITDA and operating cash flows:
  - Adjusted EBITDA amounted to €2,574.5 million, a decrease of 7.6% compared to the same period last year. This decrease in adjusted EBITDA is mainly linked to lower performance in Portugal, Israel and the Dominican Republic segments.
  - Operating cash flows for the six months ended June 30, 2018 were €1,816.9 million.
- The Group had unrestricted cash reserves of €1,600.9 million as of June 30, 2018, compared to €1,239.0 million as of December 31, 2017, which would allow it to cover any urgent cash needs. The Group can move its cash from one segment to another under certain conditions as allowed by its debentures and debt covenants. Cash reserves in operating segments carrying debt obligations were as follows:
  - France: €433.0 million
  - Altice International: €265.9 million
- Additionally, as of June 30, 2018, the Group had access to revolving credit facilities of up to €2,236.0 million (of which €580.0 million was drawn as of June 30, 2018) and has access to an equity market where it can issue additional equity.

The Group's senior management team tracks operational key performance indicators (KPIs) on a weekly basis, thus tracking top line trends closely. This allows the Board of Directors and local CEOs to ensure proper alignment

with budget targets and respond with speed and flexibility to counter any unexpected events and help to ensure that the budgeted targets are met.

Based on the above, the Board of Directors is of the view that the Group will continue to act as a going concern for 12 months from the date of approval of these financial statements and has hence deemed it appropriate to prepare these condensed interim consolidated financial statements using the going concern assumption.

## **17. Events after the reporting period**

### **17.1. Release of the purchase price acquisition of Teads held as escrow**

On July 3, 2018, the restricted cash that was held in an escrow account following the acquisition of Teads in Q2 2017 has been fully released (please refer to note 6). The cash was used to pay non-reinvesting and reinvesting sellers for a total amount of €42.1 million. In addition, an earn-out payment of €13.1 million was made to certain former owners of the company. This earn-out was subject to Teads obtaining defined revenue performance in 2017, which targets have been met. Subsequent to the earn-out payment of the €13.1 million, €5.2 million was reinvested by the former owners in the share capital of the company.

### **17.3. Repayment of portion of the Altice Corporate Financing facility**

On July 10, 2018, the Company repaid €625 million of the Altice Corporate Financing facility for certain tranches with a maturity date of 2021, using part of the proceeds received in the Altice USA dividend distribution.

### **17.4. Refinancing of a portion of the existing debt of the Altice France credit pool**

On July 16, 2018, the Company priced and allocated for its Altice France credit pool \$2.5 billion of new 8-year Term Loans B's. The new Term Loan B will bear interest at a margin of 400bps over LIBOR. Closing of the new financing is expected on August 14, 2018 and subject to closing conditions and the proceeds will be used by Altice France to call a portion of its \$4.0 billion May 2022 6.0% Senior Secured Notes.

### **17.5. Refinancing of a portion of the existing debt of the Altice France credit pool**

On July 18, 2018, the Company had successfully priced and allocated for its Altice France credit pool €1.0 billion and \$1.75 billion of new 8.5-year Senior Secured Notes. The new €1.0 billion and \$1.75 billion Senior Secured Notes have a coupon of 5.875% and 8.125% respectively. The proceeds from this transaction, in conjunction with

the proceeds raised through the \$2.5 billion of new Term Loans priced earlier in July 2018, will be used by Altice France to redeem in full its \$4.0 billion May 2022 6.0% Senior Secured Notes and €1.0 billion May 2022 5.375% Senior Secured Notes.

Following the consummation of this refinancing, and pro forma for the \$2.5 billion of new 8-year Term Loans priced in July 2018, the average maturity of Altice France's capital structure has been extended from 6.4 to 7.5 years and the weighted average cost of Altice France's debt is 5.0%.

#### **17.6. Sale and purchase agreements signed for the sale of the International Wholesale business**

On July 18, 2018, three Sale and Purchase Agreements had been signed by Altice France, Altice Dominicana and MEO with Tofane Global related to the sale of the international wholesale voice carrier business in France, the Dominican Republic and Portugal, respectively. The transaction is expected to close in September 2018. The total consideration to be received amounts to €33.0 million, consisting of €25.0 million in cash and an €8.0 million vendor loan.

#### **17.7. The Company issued a bank guarantee to the European Commission**

On July 25, 2018, the Company issued a bank guarantee to the European Commission in relation to the fine for an amount of €124.5 million (see note 13.2.1).

#### **17.8. The Company entered into an agreement to sell its telecommunication towers business in the Dominican Republic**

On July 30, 2018, the Company announced that its subsidiary Altice Dominicana has reached an agreement with Phoenix Tower International, a portfolio company of Blackstone, for the sale of 100% in the tower company Teletorres del Caribe that will comprise 1,049 sites currently operated by Altice Dominicana. The transaction values Teletorres del Caribe, at an enterprise value of \$170 million. In conjunction with the contemplated transaction, Altice Dominicana will enter into a 20-year master agreement with Teletorres del Caribe, setting a clear partnership framework between the two companies. Teletorres del Caribe has committed to support Altice Dominicana in the continued deployment of its network. Altice Dominicana will pursue its long-term industrial project and continue providing best-in-class telecommunication services to its subscribers, as part of the Altice Group. The transaction is expected to close during the third quarter of 2018 and is subject to the effective de-merger and customary closing conditions.

The Group had started the preparation of the sale in the end of November 2017, however, the Management considered that the sale was not highly probable given the preparatory works were mostly executed in 2018 and the decision to sell the business in the Dominican Republic had not been taken by the Board. Therefore, as of December 31, 2017, the transaction did not meet the classification criteria of held for sale according to IFRS 5 *Non-currents Assets Held for Sale and Discontinued Operations*.

There were negotiations that took place during the first two quarters of 2018, however, the Management considered that the sale was not highly probable as of June 30, 2018. The criteria for classification as held for sale was not met (please refer to note 3.4).

#### **17.9. Sale and purchase agreement signed for the sale of the telecommunication towers business of Altice France**

On August 7, 2018, Altice France signed a sale and purchase agreement with Starlight BidCo S.A.S related to the sale of 49.99% of shares in a newly incorporated tower company called SFR TowerCo. The contribution of the tower sites currently operated by the Group to SFR TowerCo, as well as the closing of the of the transaction are expected to occur in the financial year ending December 31, 2018.

#### **17.10. New swaps relating to the Altice France refinancing**

Following the refinancing of the Altice France 2022 \$4.0 billion 6.00% High Yield Notes certain cross-currency swaps have been amended to hedge the new 2026 \$2,500 million L+400 Term Loan B and the new 2027 \$1,750 million 8.125% High Yield Notes. In this process the euro notional of the swaps has been increased by

approximately €157 million. The corresponding amounts received will be used to partially repay the outstanding revolver at Altice France.

In addition, Altice France has entered a new swap to hedge the \$250 million upside of the 2027 \$1.75 billion of Senior Secured Notes of with a coupon of 8.125%.

## **Report on Review of Condensed Interim Consolidated Financial Statements**

### *Introduction*

We have reviewed the accompanying condensed consolidated statement of financial position of Altice Europe N.V. as of June 30, 2018, the related condensed consolidated statements of income, other comprehensive income, changes in equity and cash flows for the six months period then ended and the other explanatory notes (collectively, the “Interim Financial Statements”). The Board of Directors is responsible for the preparation and fair presentation of the Interim Financial Statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union. Our responsibility is to express a conclusion on these Interim Financial Statements based on our review.

### *Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of the Interim Financial Statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Interim Consolidated Financial Statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union.
