2. Accounting policies

2.1. Basis of preparation

These condensed interim consolidated financial statements of the Group as of June 30, 2017 and for the six month period then ended were approved by the Board of Managers on August 25, 2017

These condensed interim consolidated financial statements of the Group as of June 30, 2017 and for the six month period then ended, are presented in millions of Euros, except as otherwise stated, and have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. They should be read in conjunction with the annual consolidated financial statements of the Group and the notes thereto as of and for the year ended December 31, 2016 which were prepared in accordance with International Financial Reporting Standards as adopted in the European Union (“IFRS”) (the “annual consolidated financial statements”).

The accounting policies applied for the condensed interim consolidated financial statements as of June 30, 2017 do not differ from those applied in the annual consolidated financial statements as of and for the year ended December 31, 2016.

2.1.1. Standards applicable for the reporting period

The following standards have mandatory application for periods beginning on or after January 1, 2017 as described in note 1.3 to the annual consolidated financial statements.

- Amendments to IAS 7 Disclosure Initiative. The amendments will require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including non-cash changes and changes arising from cash flows;
- Recognition of Deferred Tax Assets for Unrealized Losses (Amendments to IAS 12). The amendments clarify the accounting for deferred tax assets for unrealized losses on debt instruments measured at fair value; and
- Annual improvements cycle 2014-2016.

These standards and interpretations are under the process of endorsement of the European Union. The application of these amendments had no impact on the amounts recognised in the annual consolidated financial statements and had no impact on the disclosures in these condensed interim consolidated financial statements.

2.1.2. Standards and interpretations not applicable as of reporting date

Altice International S.à r.l

Notes to the Condensed Interim Consolidated Financial Statements

The Group has not early adopted the following standards and interpretations, for which application is not mandatory for period started from January 1, 2017, and which may impact the amounts reported.

- IFRS 15 Revenue from Contracts with Customers, effective on or after January 1, 2018;
- IFRS 9 Financial instruments, effective on or after January 1, 2018;
- IFRS 16 Lease, effective on or after January 1, 2019;
- Amendments to IFRS 2: Classification and Measurement of Share-based Payment Transactions, which is applicable on or after January 2018;
- IFRIC 22: Foreign Currency Transactions and Advance Consideration. The interpretation is applicable for annual periods beginning on or after January 1, 2018, with earlier application is permitted;
- Annual improvements cycle 2014-2016, effective on or after January 1, 2018;
- IFRIC 23: Uncertainty over Income Tax Treatments. The interpretation is applicable effective for annual periods beginning on or after January 1, 2019.

Regarding IFRS 15 Revenue from Contracts with Customers, in May 2014, the IASB issued IFRS 15 which establishes a single comprehensive 5-step model to account for revenue arising from contracts with customers. IFRS 15 will supersede all current revenue recognition guidance including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The Group has implemented a comprehensive project across all geographies to determine the potential differences with current revenue recognition and implement those. The issue identification phase has now been completed and the implementation plan is in progress. Please refer to the annual consolidated financial statements for more detailed information on the issues identified.

The Group has decided to adopt the standard based on the full retrospective approach. Although no reliable quantified information is yet available, the Group anticipates that the impact of the standard will be significant. The impacts on revenue will be primarily driven by the following:

- In the mobile business, the allocation of revenue from multiple arrangement contracts to the handset and to the services will be based on respective standalone selling prices, whereas under IAS 18, handset revenue is currently being capped to the amount paid by the customer. This will lead to:
 - the transfer of portion of revenue from services revenue to equipment revenue,
 - a change in the timing of revenue recognition as handset revenue recognized upon delivery of the terminal will be much higher,

The aggregated mobile revenue should not be materially impacted, and the impact on other revenue is less material.

- The retrospective application of the standard is likely to lead to a significant increase in equity (on the opening balance sheet of the comparative year) mainly due to:
 - the allocation of bundle contracts in the mobile business,
 - the scope of capitalized reseller commissions being broadened as compared to the current treatment, along with a change in their depreciation pattern.

For the other standards, the effects of implementing the new standards, and amendments to standards, are currently being analysed as part of Group-wide projects. It is not practicable to provide a reasonable estimate of the quantitative effects until the projects have been completed, at which time this will be provided.

2.1.3. Significant accounting judgments and estimates

In the application of the Group's accounting policies, the Board of Managers of the Company is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Altice International S.à r.l

Notes to the Condensed Interim Consolidated Financial Statements

These key areas of judgments and estimates, as disclosed in the annual consolidated financial statements are:

- Estimations of provisions for claims and restructuring plans;
- Measurement of post-employments benefits;
- Revenue recognition;
- Fair value measurement of financial instruments;
- Measurement of deferred taxes;
- Impairment of goodwill;
- Estimation of useful lives of intangible assets and property, plant and equipment, and
- Estimation of impairment losses for trade and other receivables.

As of June 30, 2017, there were no changes in the key areas of judgements and estimated except that the Company has reduced the remaining useful lives of the trade names recognized as intangible assets, following the launch of the new Altice global brand (see note 5.4).

2.1.4. Revised information

The comparative information as of June 30, 2016 has been revised to reflect the impact of the finalization of the purchase price allocation of Groupe News Participation S.A.S. (“GNP”), acquired during the year ended December 31, 2016. Please refer to note 16 for the reconciliation to previously published results.

3. Scope of consolidation

The following changes occurred during the six month period ended June 30, 2017, which impacted the scope of consolidation compared to that presented in the annual consolidated financial statements.

3.1. Acquisitions and disposals during the period

3.1.1. Disposal of Coditel

As at December 31, 2016, the Group had entered into an agreement to sell its Belgian and Luxembourg (Belux) telecommunication businesses, and accordingly classified the associated assets and liabilities as a disposal group held for sale in accordance with IFRS 5. On June 19, 2017, the Group completed the sale of Coditel Brabant SPRL and Coditel S.à r.l, to Telenet Group BVBA, a direct subsidiary of Telenet Group Holding N.V., receiving €302.8 million, and recognizing a loss on sale after transactions costs of €0.9 million, recorded in the other income and expenses line item in the consolidated statement of income.

3.1.2. Acquisition of a stake in SPORT TV

On February 24, 2017, PT Portugal acquired a 25% stake in the capital of SPORT TV for €12.3 million. SPORT TV is a sports broadcaster based in Portugal. Following this investment, SPORT TV’s shareholders are PT Portugal, NOS, Olivedesportos and Vodafone, each of which with a 25% stake. This new structure benefits, above all, PT Portugal’s customers and the Portuguese market, guaranteeing all the operators access to the sports content considered essential in fair and non-discriminatory market conditions.

3.1.3. Acquisition of Teads

On June 22, 2017, Altice Teads (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. Teads is the number one online video advertising marketplace in the world with an audience of more than 1.2 billion unique visitors. The acquisition values Teads at an enterprise value of up to €285 million on a cash and debt free basis. The acquisition purchase price is subject to Teads achieving certain revenue targets in 2017. The acquisition purchase price was due 75% at closing, with the remaining 25% earn-out subject to Teads obtaining defined revenue performance in 2017, and if so, becoming payable in 2018.

3.2. Transactions completed in the prior period

3.2.1. Disposal of Cabovisão and ONI

The net result on disposal of businesses recognised in the income statements for the six months to June 30, 2016 of €107.5 million related to the sale of Cabovisão and its subsidiaries to Apex France, which was completed in January 2016. Total consideration received for the disposal amounted to €137.7 million (including purchase price adjustments), of which €63.9 million was for the shares of Cabovisão and its subsidiaries.

3.3. Controlled subsidiaries with material non-controlling interests

4. Segment reporting

4.1. Definition of segments

Given the geographical spread of the entities within the Group, analysis by geographical area is fundamental in determining the Group's strategy and managing its different businesses. The chief operating decision maker is the senior management team. This team analyses the Group's results across geographies, and certain key areas by activity. The presentation of the segments here is consistent with the reporting used internally by the senior management team to track the Group's operational and financial performance. The reporting segments presented are consistent with the ones presented in the annual consolidated financial statements. The businesses that the Group owns and operates do not show significant seasonality, except for the mobile B2C and B2B segments, which can show significant changes in sales at the year end and at the end of the summer season (the "back to school" period). The B2B business is also impacted by the timing of preparation of the annual budgets of public and private sector companies. The accounting policies of the reportable segments are the same as the Group's accounting policies.

The segments that are presented are detailed below:

- **Portugal:** Altice owns Portugal Telecom ("PT Portugal"), the largest telecom operator in Portugal. PT Portugal caters to fixed and mobile B2C, B2B and wholesale clients using the Meo brand.
- **Israel:** Fixed and mobile services are provided using the HOT and HOT Mobile brands to B2C, B2B clients. HOT also produces award winning exclusive content that it distributes using its fixed network.
- **Dominican Republic:** The Group provides fixed and mobile services to B2C, B2B and wholesale clients using the Tricom (cable network) and Orange (under licence) brands.
- **Others:** This segment includes the operations in the French Overseas Territories, Belgium (up to June 26, 2017), Luxembourg and Switzerland, as well as the Content, Advertising, Technical Service and Customer Service business, and all corporate entities. The Board of Managers believes that these operations are not substantial enough to require a separate reporting segment, and so are reported under "Other".

4.1.1. Financial Key Performance Indicators ("KPIs")

The Board of Managers has defined certain financial KPIs that are tracked and reported by each operating segment every month to the senior executives of the Company. The Board of Managers believes that these indicators offer them the best view of the operational and financial efficiency of each segment and this follows best practices in the rest of the industry, thus providing investors and other analysts a suitable base to perform their analysis of the Group's results.

The financial KPIs tracked by the Board of Managers are:

- Adjusted EBITDA: by segment
- Revenues: by segment and in terms of activity
- Capital expenditure ("Capex"): by segment
- Operating free cash flow ("OpFCF"): by segment

4.1.2. *Non-GAAP measures*

Adjusted EBITDA, Capex and OpFCF are non-GAAP measures. These measures are useful to readers of Altice's financial statements as they provide a measure of operating results excluding certain items that Altice's management believe are either outside of its recurring operating activities, or items that are non-cash. Excluding such items enables trends in the Group's operating results and cash flow generation to be more easily observable. The non-GAAP measures are used by the Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel. Such performance measures are also the de facto metrics used by investors and other members of the financial community to value other companies operating in the same industry as the Group and thus are a basis for comparability between the Group and its peers. Moreover, the debt covenants of the Group are based on the Adjusted EBITDA and other associated metrics.

4.1.2.1. *Adjusted EBITDA*

Adjusted EBITDA is defined as operating income before depreciation and amortization, non-recurring items (capital gains, non-recurring litigation, restructuring costs) and equity based compensation expenses. This may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the annual consolidated financial statements in accordance with IAS 1 - *Presentation of Financial Statements*.

4.1.2.2. *Capital expenditure ("Capex")*

Capex is an important indicator to follow, as the profile varies greatly between activities:

- The fixed business has fixed Capex requirements that are mainly discretionary (network, platforms, general), and variable Capex requirements related to the connection of new customers and the purchase of Customer Premise Equipment (TV decoder, modem, etc).
- Mobile Capex is mainly driven by investment in new mobile sites, upgrade to new mobile technology and licenses to operate. Once Capex is engaged and operational, there are limited Capex requirements.
- Other Capex: Mainly related to Capex incurred to purchase content rights

4.1.2.3. *Operating free cash flow ("OpFCF")*

OpFCF is defined as Adjusted EBITDA less Capex. This may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating cash flow as presented in the consolidated statement of cash flows in accordance with IAS 1 - *Presentation of Financial Statements*.

4.1.3. *Revenues*

Additional information on the revenue split is presented as follows:

- Fixed in the business to consumer market (B2C),
- Mobile in the business to consumer market (B2C),
- Wholesale and business to business (B2B) market, and
- Other.

Intersegment revenues represented 6.5% of total revenues for the six months ended June 30, 2017, compared to 0% of total revenues for the six months ended June 30, 2016 (€172.5 million compared to €1.0 million). Intersegment revenues mainly increased compared to the prior year due to the acquisition of entities that render certain centralized services (relating to content production, technical services and customer services) to the operational segments of the Group.

4.3.4.1. *Content rights*

During 2016, the Group secured exclusive content rights to broadcast certain sports (English Premier League Football, French Basketball League and English Rugby Premiership) in France and other territories; the rights are for periods of between three and six years. The content rights were capitalised in accordance IAS 38- *Intangible Assets* and are amortised over their respective useful lives. Where the rights are for more than 12 months, the nominal cash flows were discounted to their present value on initial recognition of the asset.

The total amortization recorded for the six month period ended June 30, 2017 was €80.2 million (June 30, 2016: nil).

4.2.4.1. Adjusted EBITDA less accrued Capex (operating free cash flow)

The table below details the calculation of operating free cash flows, as presented to the Board of Managers. This measure is used as an indicator of the Group's financial performance as the Board believes it is one of several benchmarks used by investors, analysts and peers for comparison of performance in the Group's industry, although it may not be directly comparable to similar measures reported by other companies. The figures below do not include intersegment eliminations.

5.2. Impairment of goodwill

Goodwill is reviewed at the level of each GCGU or CGU annually for impairment and whenever changes in circumstances indicate that its carrying amount may not be recoverable. Goodwill was tested at the CGU/GCGU level for impairment as of December 31, 2016. The CGU/GCGU is at the country level where the subsidiaries operate. The recoverable amounts of the GCGUs are determined based on their value in use. The key assumptions for the value in use calculations are the pre-tax discount rates, the terminal growth rate and the EBIT margin during the period. The senior management team has determined that there have not been any changes in circumstances indicating that the carrying amount of goodwill may not be recoverable. In addition, there were no significant changes in assets or liabilities in any CGU/GCGU, while the recoverable amounts continue to significantly exceed the carrying amounts. Therefore, no updated impairment testing was performed, nor any impairment recorded, for the six months ended June 30, 2017.

5.3. Business combinations

The Group has concluded several acquisitions during the past 12 months. In all acquisitions, the Group records the provisional value of the assets and liabilities as being equivalent to the book values in the accounting records of the entity being acquired. The Group then identifies the assets and liabilities to which the purchase price needs to be allocated. The fair value is determined by an independent external appraiser based on a business plan prepared as of the date of the acquisition.

5.3.1. Acquisitions where the purchase price allocations are not yet finalized

5.3.1.1. Teads

On June 22, 2017, Altice Teads (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. The acquisition purchase price is subject to Teads achieving certain revenue targets in 2017. The acquisition purchase price was €302.3 million, with due 75% at closing, with the remaining 25% earn-out subject to Teads obtaining defined revenue performance in 2017. Management determined that there was a high probability that the earnout would be met, therefore in determining the initial goodwill, the purchase price included 100% of the deferred acquisition price. Following the preliminary purchase price allocation, a summary of the allocation between the different classes of assets and liabilities is provided below.

	€m
Total consideration transferred	302.3
Fair value of identifiable assets, liabilities and contingent liabilities	44.6
Goodwill	257.7

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of Teads. Due to the proximity of the date of acquisition to the balance sheet date, the Group is yet to assess the fair value of the identifiable assets and liabilities. The exercise will be completed within the measurement period as defined by IFRS 3.

5.3.1.2. Altice Customer Services (ACS)

On December 22, 2016, the Group finalized the acquisition of 100% of the share capital of ACS. Certain managers in ACS subsequently reinvested part of their proceeds to acquire a 35% stake. Total consideration transferred to the vendors amounted to €27.7 million (excluding purchase price adjustments) on a cash free debt free basis. Following the preliminary purchase price allocation, a summary of the allocation between the different classes of assets and liabilities is provided below.

	€m
Total consideration transferred	27.7
Fair value of identifiable assets, liabilities and contingent liabilities	(2.1)
Goodwill	29.8

The Group is continuously evaluating the fair value of acquired assets and liabilities and expects to complete the final purchase price allocation within the measurement period as defined by IFRS 3.

Altice International S.à r.l

Notes to the Condensed Interim Consolidated Financial Statements

5.3.1.3. Altice Technical Services (ATS)

On November 22, 2016, the Group finalized the 51% acquisition of Parilis SA. Total consideration transferred to the vendors amounted to €158.1 million (excluding purchase price adjustments) on a cash free debt free basis. Following the preliminary purchase price allocation, a summary of the allocation between the different classes of assets and liabilities is provided below:

	€m
Total consideration transferred	158.1
Allocation to minority interests	45.0
Fair value of identifiable assets, liabilities and contingent liabilities	59.4
Goodwill	143.7

The Group is continuously evaluating the fair value of acquired assets and liabilities and expects to complete the final purchase price allocation within the measurement period as defined by IFRS 3.

5.4. Intangible Assets

The following table summarizes information relating to the Company's acquired intangible assets as of June 30, 2017 and December 31, 2016:

Intangible Assets	June 30, 2017		
	Gross carrying amount	Accumulated amortization	Net carrying amount

Total	6,812.7	(4,089.2)	2,723.5

Intangible Assets	December 31, 2016		
	Gross carrying amount	Accumulated amortization	Net carrying amount
(€m)			
Customer relationships	1,822.9	(596.6)	1,226.4
Trade names	318.9	(86.8)	232.1
Franchise & patents ¹	451.4	(98.5)	353.0
Software & licenses	714.9	(462.1)	252.7
Other amortizable intangibles	3,427.4	(2,563.9)	863.5
Total	6,735.5	(3,807.9)	2,927.6

¹ The Group franchises are recognized as indefinite life intangible assets and are not amortized, they are tested for impairment annually or more frequently as warranted by events or changes in circumstances. Costs incurred in negotiating and renewing broadband franchises are amortized on a straight-line basis over the life of the renewal period.

On May 23, 2017, the Group announced the adoption of a global brand which will replace the local brands in the future (except for the media brands), reducing the remaining useful lives of these trade name intangibles. The Company has estimated the remaining useful lives to be 3 years from the date of adoption, which reflects one year as an in-use asset and two years as a defensive asset. Amortization expense is calculated on an accelerated basis based on the Company's estimate of the intangible asset during the in-use period. The remaining estimated value of the defensive asset once it is no longer in use will be amortized over the defensive period. The acceleration in amortization expense that was recorded in the six months to June 30, 2017 was €18.5 million.

Total amortization expense for the six months ended June 30, 2017 and 2016 was €333.9 million and €261.2 million, respectively.

6. Cash and cash equivalents and restricted cash

Cash balances	June 30,	December 31,

Bank balances	185.0	167.4
Cash and cash equivalents	236.8	266.0
Restricted cash	34.1	19.4
Total	270.9	285.4

The restricted cash balance at June 30, 2017 relates to the €33 million held in escrow for the Teads acquisition and will be released in June 2018.

7. Shareholders' Equity

7.1. Issued capital

There were no changes in the issued capital of the Group during the period; total issued capital of the Company as at June 30, 2017 remains €309.3 million, comprising 30,925,700,000 outstanding ordinary shares, with a nominal value of € 0.01 each.

7.2. Additional paid in capital

The changes in additional paid in capital of the Group for the six month period ended June 30, 2017 amounted to a reduction of €63.6 million, primarily attributed to the put option recognized as part of the acquisition of Teads; bringing total additional paid-in capital of the Group to €248.0 million.

7.3. Other reserves

8.2. Refinancing activities

During the period ended June 30, 2017, the Group successfully repriced some of its debt. Further details of the refinancing activities are provided below.

On March 23, 2017, the Group announced that it successfully priced \$910 million of 8.25-year term loan B at Altice Financing with a margin of 275 basis point over Libor. The refinancing closed on April 18, 2017 and the proceeds of the term loans were used to refinance:

- €446 million term loans at Altice Financing maturing in July 2023, and
- redeem the entire \$425 million of the 2012 Senior Notes at Altice Financing.

The refinancing extended the average maturity of Altice International group's debt from 6.7 to 7 years and reduced the weighted average cost of its debt from 6.2% to 5.9%. Altice Financing recognized a loss on extinguishment of debt of €39.0 million related to these transactions.

8.3. Derivatives and hedge accounting

As part of its financial risk management strategy, the Group enters certain hedging operations. The main instruments used are fixed to fixed or fixed to floating cross-currency and interest rate swaps (CCIRS) that cover against foreign currency and interest rate risk related to the Group's debt obligations. The Group applies hedge accounting for the operations that meet the eligibility criteria as defined by IAS 39.

8.3.1. *Interest rate swaps*

The Group enters interest rate swaps to cover its interest rate exposure in line with its treasury policy. These swaps cover the Group's debt portfolio and do not necessarily relate to specific debt issued by the Group. The details of the instruments are provided in the following table.

Entity Maturity	Notional amount due from counterparty (millions)	Notional amount due to counterparty (millions)	Interest rate due from counterparty	Interest rate due to counterparty	Accounting treatment
Altice Financing S.A.					
May 2026	USD 720	USD 720	1.81%	6m LIBOR	FVPL
January 2023	EUR 750	EUR 750	3m EURIBOR	-0.13%	FVPL

8.3.2. Foreign currency forward contracts

The Group enters into foreign exchange forward contracts to cover its foreign exchange exposure in line with its treasury policy. The details of these instruments are provided below:

Entity Maturity	Currency purchased forward (millions)	Currency sold forward (millions)	Accounting treatment
Altice Financing S.A.			
December 2017	EUR 4	ILS 22	FVPL
December 2017	USD 19	ILS 81	FVPL

8.3.3. CCIRS

The following table provides a summary of the Group's CCIRS.

- The derivatives are all measured at fair value. The change in fair value of derivatives classified as cash flow hedges (CFH) in accordance with IAS 39 is recognized in the cash flow hedge reserve. The derivatives not hedge accounted have the change in fair value recognised immediately in profit or loss (FVPL).
- These cross-currency swaps do not involve the exchange of notional amounts at maturity of the contracts. Accordingly the only cash flows associated with these contracts are interest payments and receipts.
- This is a new swap executed during the quarter to partially hedge the new \$910 million term loan that replaced the €446 million term loan maturing in July 2023 (as disclosed in note 8.2.2).
- A new \$930 million swap was executed during April, which hedges a portion of the \$2,750 million senior notes. The swap is recognized in a cash flow hedge relationship.

The change in fair value of all derivative instruments designated as cash flow hedges was recorded in other comprehensive income for the six month period ended June 30, 2017. Before the impact of taxes, gains of €87.1 million were recorded in other comprehensive income (€64.4 million net of taxes).

8.4. Reconciliation to swap adjusted debt

The various hedge transactions mitigate interest and foreign exchange risks on the debt instruments issued by the Group. Such instruments cover both the principal and the interest due. A reconciliation from the carrying amount of the debt as per the statement of financial position and the due amount of the debt, considering the effect of the hedge operations (i.e. the, "swap adjusted debt"), is provided below:

Reconciliation to swap adjusted debt (€m)	June 30, 2017	December 31, 2016

8.5. Available credit facilities

Available credit facilities (€m)	Total facility	Drawn
Altice Financing S.A.	981.1	300.0
Revolving credit facilities	981.1	300.0

The facility at Altice Financing was drawn €310.0 million as at December 31, 2016, there have been various drawing and repayments during the period, with a net decrease in the amount drawn of €10.0 million.

In addition to the available credit facilities, a new guarantee of €350.0 million was established in relation to the new content rights secured, please refer to note 11 for further details.

8.6. Other financial liabilities

The main changes in other financial liabilities in the six month period ended June 30, 2017 were the non-current portion of €1,031.0 million increased by €66.5 million, mainly related to changes in group current accounts with entities outside the Altice International scope. The current portion of €583.3 million decreased by €60.7 million compared to December 31, 2016. This decrease was mainly related to a decrease in accrued interest, following interest payments during the period.

9. Fair value of financial assets and liabilities

9.1.1. Fair value of assets and liabilities

The table below shows the carrying value compared to fair value of financial assets and liabilities.

10. Taxation

Total income tax for the six months ended June 30, 2017 was €16.7 million (€0.3 million benefit for the same period in 2016). The variation in the income tax results mainly from consolidation of Altice Technical Services entities that were consolidated from December 2016, and the change in fair value recorded on derivative financial instruments.

10.1. Income tax litigation

There was no significant development in existing tax litigations since the publication of the annual consolidated financial statements that have had, or that may have, a significant effect on the financial position of the Group.

11. Contractual obligations and commercial commitments

During the six month period ended June 30, 2017, no significant contractual obligations and commercial commitments have been signed as compared to the year ended December 31, 2016, other than on May 11, 2017, the Group announced that it had successfully acquired the exclusive rights to broadcast the UEFA Champions League and UEFA Europa League in France. The rights were acquired by Altice Picture and cover the period from August 2018 to May 2021. During the second quarter of 2017, the Group prepaid the first installment of €70.2 million for the UEFA Champions League and UEFA Europa League. In relation to these rights, the Group has executed a new €350 million bank guarantee, of which €316 million was drawn at June 30, 2017. The rights include exclusive broadcast coverage across free-TV, pay-TV, mobile, internet, over-the-top and digital terrestrial television coverage in France and non-exclusive rights in French in Luxembourg, Switzerland and Monaco.

Following the new and amended agreements, the total commitments of the Group increased by approximately €1 billion.

12. Litigation

In the normal course of its activities, the Group is accused in a certain number of governmental, arbitration and administrative law suits. Provisions are recognised by the Group when management believe that it is more likely than not that such lawsuits will result in an expense being recognized by the Group, and the magnitude of the expenses can be reliably estimated. The magnitude of the provisions recognised is based on the best estimate of the level of risk on a case-by-case basis, considering that the occurrence of events during the legal action involves constant re-estimation of this risk.

The Group is not aware of other disputes, arbitration, governmental or legal action or exceptional fact (including any legal action of which the Group is aware, which is outstanding or by which it is threatened) that may have been, or is in, progress during the last months and that has a significant effect on the financial position, the earnings, the activity and the assets of the company and the Group, other than those described below.

This note describes the new proceedings and developments in existing litigations that have occurred since the publication of the annual consolidated financial statements and that have had or that may have a significant effect on the financial position of the Group.

12.1.1. *Optimus - Abuse of dominant position in the wholesale market*

In March 2011, Optimus filed a claim against MEO in the Judicial Court of Lisbon for the payment of approximately €11 million, because of an alleged abuse of dominant position by MEO in the wholesale offer. Optimus sustained its position by arguing that they suffered losses and damages because of MEO's conduct. In 2016, the court decided entirely in favour of MEO and during the first quarter of 2017 MEO was informed that NOS/Optimus would not file an appeal regarding the matter that was under discussion.

13. Related party transactions and balances

The following changes in related party relationships occurred compared to those disclosed in the annual consolidated financial statements:

- Altice USA incurred management fees of \$15 million (€13.9 million) to Altice International during the six months ended June 30, 2017.
- The Group made cash payments up to Altice Luxembourg amounting to €234.5 million.
- The Group had the following loans due from other Altice entities, not in the Altice International Group, of €579.0 million (an increase of €48.0 million from year-end).
- New put agreements were executed with the minority investors in Teads, amounting to €74.4 million.
- The Group had transactions with SFR Group from sale of services for a total €394.3 million (of which €165.7 million related to the sale of sports channels, and purchased €38.0 million of goods and services from SFR Group).

14. Going concern

As of June 30, 2017, the Group had net current liability position of €(797.7) million (mainly due to trade payables amounting to €1,646.7 million) and a negative working capital of €(147.5) million. During the six month period ended June 30, 2017, the Group registered a net loss of €32.9 million and generated cash flows from operations of €1,003.1 million. As of June 30, 2017, the Group had an equity position of €32.4 million compared to €28.4 million as at December 31, 2016.

The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short days of sales outstanding and suppliers are paid under standard commercial terms, thus generating a negative working capital. This is evidenced by the difference in the level of receivables and payables; €1,306.8 million compared to €1,646.7 million for the six month period ended June 30, 2017, as compared to €1,291.5 million and €1,831.8 million for the year ended December 31, 2016. Payables due the following month are covered by revenues and cash flows from operations (if needed).

As of June 30, 2017, the Group's short term borrowings mainly comprised of loans and debentures due within the next 12 months and accrued interests on borrowings. These short-term obligations are expected to be covered by the operating cash flows of the operating subsidiaries. As of June 30, 2017, the revolving credit facilities at Altice Financing S.A. were drawn in an aggregate of €300.0 million. A listing of available credit facilities by silo is provided in note 8.5 and the amounts available per segments are sufficient to cover the short-term debt and interest expense needs of each of these segments if needed.

Altice International S.à r.l

Notes to the Condensed Interim Consolidated Financial Statements

Given the above, the Board of Managers has considered the following elements in determining that the use of the going concern assumption is appropriate:

- The Group has a strong track record of generating positive adjusted EBITDA and operating cash flows:
 - Adjusted EBITDA amounted to €1,142.6 million, an increase of 6.0% compared to the same period last year. This increase in adjusted EBITDA is mainly due to the integration of newly acquired entities (please refer to note 3).
 - Operating cash flows for the six month period ended June 30, 2017 were €1,003.1 million, an increase of 23.5% compared to the six month period ended June 30, 2016 (€812.1 million).
- The Group had healthy unrestricted cash reserves €236.8 million as of June 30, 2017, compared to €266.0 million as of December 31, 2016, which would allow it to cover any urgent cash needs. The Group can move its cash from one segment to another under certain conditions as allowed by its debentures and debt covenants. Cash reserves in operating segments carrying debt obligations were as follows:
- Additionally, as of June 30, 2017, the Group had access to revolving credit and guarantee facilities of up to €981.1 million (of which €300.0 million was drawn as of June 30, 2017).

The Group's Executive Committee tracks operational key performance indicators (KPIs) on a weekly basis, thus tracking top line trends closely. This allows the Board of Managers and local CEOs to ensure proper alignment with budget targets and respond with speed and flexibility to counter any unexpected events and help to ensure that the budgeted targets are met.

Based on the above, the Board of Managers is of the view that the Group will continue to act as a going concern for 12 months from the date of approval of these financial statements and has hence deemed it appropriate to prepare these interim consolidated financial statements using the going concern assumption.

15. Events after the reporting period

15.1. Acquisition of Media Capital in Portugal

On July 14, 2017, the Group entered into a definitive agreement with Promotora de Informaciones, S.A ("Prisa") to acquire Prisa's 94.7% stake in Media Capital SGPS, SA ("Media Capital"). Media Capital is a leading Portuguese media group with audience leadership positions in both TV and radio. Media Capital, which also owns the largest Portuguese content producer Plural, reported in 2016 revenue of €174.0 million and EBITDA of €41.5 million. After the successful completion of the acquisition, Media Capital will ultimately be owned by Altice International. The transaction is subject to regulatory approvals.

16. Revised information

As per the provisions of IFRS 3 Business Combination, the impact of the recognition of the identifiable tangible and intangible assets of at their fair value was revised as of and for the six months ended June 30, 2016. There was no impact on the balance sheet.
