Interim Financial Report

For the six month period ended June 30, 2017

INTRODUCTION

The Board of Directors of Altice N.V. (the “Company” or “Altice”) has the pleasure in presenting the interim management report of the Company and its subsidiaries (the “Group”) as at and for the six month period ended June 30, 2017, prepared in accordance with IAS 34. This report comprises regulated information within the meaning of articles 1:1 and 5:25d of the Dutch Financial Markets Supervision Act (*Wet op het Financieel Toezicht*). This report, along with the interim condensed consolidated financial statements and the statement of responsible persons, forms the Interim Financial Report of the Company.

Principal activities of the Group

Founded in 2001 by entrepreneur Patrick Drahi, Altice is a convergent global leader in telecom, content, media, entertainment and advertising. Altice delivers innovative, customer-centric products and solutions that connect and unlock the limitless potential of its over 50 million customers over fiber networks and mobile broadband. The Group enables millions of people to live out their passions by providing original content, high-quality and compelling TV shows, and international, national and local news channels. Altice delivers live broadcast premium sports events and enables millions of customers to enjoy the most well-known media and entertainment. Altice innovates with technology in its Altice labs across the world. Altice links leading brands to audiences through premium advertising solutions. Altice is also a global provider of enterprise digital solutions to millions of business customers. Altice is present in 10 territories from New York to Paris, from Tel Aviv to Lisbon, from Santo Domingo to Geneva, from Amsterdam to Dallas.

1. DISCUSSION AND ANALYSIS OF THE RESULTS OF OPERATIONS OF THE GROUP

1.1. Significant events affecting historical results

A summary of the significant events since December 31, 2016, that had a material impact on the interim condensed consolidated financial statements as of June 30, 2017, are given below:

1.1.1. Initial Public Offering (“IPO”) in the United States

In June 2017, Altice USA closed on its IPO of 71,724,139 shares of its Class A common stock (12,068,966 newly issued shares sold by Altice USA and 59,655,173 shares sold by affiliates of BC Partners and CPPIB, together, the “Sponsors”) at a price to the public of \$30.00 per share. After the IPO, the Group retained ownership of approximately 70.2% of issued and outstanding common stock of Altice USA, which represents approximately 98.2% of the voting rights. The Class A common stock began trading on June 22, 2017, on the New York Stock Exchange under the symbol “ATUS”.

In connection with the sale of its Class A common stock, Altice USA received proceeds of approximately \$350 million (€323 million). The proceeds were used to redeem a portion of the principal amount outstanding of the 10.875% Senior Notes due 2025 (“CSC 2025 Senior Notes”) issued by CSC Holdings. The redemption occurred on July 10, 2017; at June 30, 2017, the Group therefore classified the amount to be redeemed as short-term debt and the cash to be utilized was presented as restricted cash.

Immediately prior to the IPO, the Sponsors’ interests in CVC 2 B.V. (which indirectly held 100% of Altice USA) were redeemed, and the Sponsors received shares, providing them an equivalent interest, in Altice USA. In addition, Altice USA converted the loan from the Sponsors, of \$525 million, into shares of Altice USA common stock at the IPO price.

Following the IPO, the Group’s total equity increased by \$0.9 billion, including the direct share capital increase through the IPO (\$350 million) and the capitalization of the vendor loan.

In addition, the put and call instruments held by the minority shareholders in the US subsidiaries were cancelled. The put instrument entitled the minority shareholders the option to sell Altice their shares, which Altice was obligated to purchase. At December 31, 2016, this option was valued at €2.8 billion and recorded as a financial liability, with a corresponding reduction in equity. On cancellation, the liability was released through equity.

1.1.2. Launch of the new Altice global brand

On May 23, 2017, Altice N.V. announced the transformation from a holding company with a collection of different assets and brands around the world, to a unified global group with one single brand - Altice. The Altice name,

brand and new logo will replace the current brands at each of Altice's operating companies, and it is expected that the commercial brands will have completed the transition process by the end of the second quarter of 2018.

This announcement had the effect of reducing the remaining useful lives of the trade names recognized as intangible assets through prior acquisitions. The Group has estimated the remaining useful lives to be the period of active use, which is one year from the date of this announcement for most of the Group's brands.

For the Group's brands that are considered as defensive intangible assets once they are no longer in use, the Group has estimated the remaining value at the time the global Altice brand is expected to be launched. From this moment the assets become defensive assets, the remaining useful life of these assets has been estimated to be 2 years.

1.1.3. Exchange of Altice N.V. shares for SFR Group S.A. shares

During the six month period ended June 30, 2017, the Company acquired an aggregate number of 46,278,953 SFR Group shares in private off-market transactions. In consideration for these acquisitions, the Company delivered common shares A, which it held previously as treasury shares. Following these transactions, the Group held directly and indirectly 94.3% of the capital and voting rights of SFR Group.

1.1.4. Content rights and agreements

On May 11, 2017, the Group announced that it had successfully acquired the exclusive rights to broadcast the UEFA Champions League and UEFA Europa League in France. The rights were acquired by Altice Picture and cover the period from August 2018 to May 2021. During the period, the Group paid the first installment of €70.2 million for the UEFA Champions League and UEFA Europa League. The rights include exclusive broadcast coverage across free-TV, pay-TV, mobile, internet, over-the-top and digital terrestrial television coverage in France and non-exclusive rights in French in Luxembourg, Switzerland and Monaco.

On June 12, 2017, Altice N.V. announced a multiyear partnership with Netflix which will lead to Netflix's content being made available to Altice's customers on all eligible devices in France, Portugal, Israel and Dominican Republic.

1.1.5. Acquisitions and disposals

1.1.5.1. Disposal of Coditel

As at December 31, 2016, the Group had entered into an agreement to sell its Belgian and Luxembourg (Belux) telecommunication businesses, and accordingly classified the associated assets and liabilities as a disposal group held for sale in accordance with IFRS 5. On June 19, 2017, the Group completed the sale of Coditel Brabant SPRL and Coditel S.à r.l, to Telenet Group BVBA, a direct subsidiary of Telenet Group Holding N.V., receiving €302.8 million, and recognizing a loss on sale after transactions costs of €0.9 million.

1.1.5.2. Acquisition of a stake in SPORT TV

On February 24, 2017, PT Portugal acquired a 25% stake in the capital of SPORT TV for €12.3 million. SPORT TV is a sports broadcaster based in Portugal. Following this investment, SPORT TV's shareholders are PT Portugal, NOS, Olivedesportos and Vodafone, each of which with a 25% stake. This new structure benefits, above all, PT Portugal's customers and the Portuguese market, guaranteeing all the operators access to the sports content considered essential in fair and non-discriminatory market conditions.

1.1.5.3. Acquisition of Audience Partners

On March 2, 2017, Altice USA acquired Audience Partners, a leading provider of data-driven, audience-based digital advertising solutions worldwide. Altice USA has a successful TV data and addressable advertising track record in the New York designated market area, and this will expand to include the digital capabilities of Audience Partners to deliver seamless multiscreen addressable solutions.

1.1.5.4. Sale by SFR Group of L'Etudiant and the B2B Division of Newsco Group to Coalition Media Group

On April 28, 2017, SFR Group completed the sale of the companies from the Newsco's B2B activities and L'Etudiant to the holding company Coalition Media Group, controlled by Marc Laufer. SFR Group subsequently

acquired a 25% stake in this holding. As part of the transaction, the vendor loan contracted during the acquisition of Altice Media Group for €100 million was fully reimbursed. SFR Group recorded a €23 million capital gain.

1.1.5.5. *Acquisition of Teads S.A. (“Teads”)*

On June 22, 2017, Altice Teads S.A. (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. Teads is the number one online video advertising marketplace in the world with an audience of more than 1.2 billion unique visitors. The acquisition values Teads at an enterprise value of up to €285 million on a cash and debt free basis. The acquisition purchase price is subject to Teads achieving certain revenue targets in 2017. The acquisition purchase price was due 75% at closing, with the remaining 25% earn-out subject to Teads obtaining defined revenue performance in 2017, and if so, becoming payable in 2018.

1.1.6. *Refinancing activities*

During the first six months of the year, the Group announced that it had successfully priced new term loans with institutional investors as follows:

- \$3,000 million of 8.25-year senior secured term loans at Altice USA
- \$1,265 million of 8.25-year senior secured term loans at Altice USA
- \$1,425 million of 8.25-year term loans B at SFR Group
- €1,150 million of 8.25-year term loans B at SFR Group, and
- \$910 million of 8.25-year term loan B at Altice Financing.

The new term loans proceeds were used to redeem:

- the entire \$2,500 million loans under Altice USA’s existing Term Loan Facility due in October 2024,
- \$500 million of the 8.625% Senior Notes due September 2017 issued by Altice USA,
- the \$815 million loans under Altice USA’s existing Term Loan Facility due in January 2025,
- \$450 million of Altice USA’s 6.375% Senior Notes due in September 2020,
- €850 million of term loans at SFR Group due in April 2023,
- \$1,425 million of term loans at SFR Group due in January 2024,
- €300 million term loans at SFR Group due in July 2023,
- €446 million term loans at Altice Financing due in July 2023, and
- \$425 million of the 2012 Senior Notes at Altice Financing.

At the date of refinancing, the above activities had the effect of:

- extending the average maturity of Altice USA’s debt from 6.1 to 6.5 years and reducing the weighted average cost of debt from 7.3% to 7.0% (Optimum silo), and extending the average maturity of debt from 6.6 to 6.9 years and the weighted average cost of its debt reduced from 5.6% to 5.3% (Suddenlink silo).
- extending the average maturity of SFR Group’s debt from 7.3 to 7.6 years and reduced the weighted average cost of its debt from 5.2% to 4.9%, and
- extending the average maturity of Altice International group’s debt from 6.7 to 7 years and reduced the weighted average cost of its debt from 6.2% to 5.9%.

In addition, CVC 1 B.V. fully redeemed its short-term loans for an aggregate of \$235.4 million (€206.2 million), including accrued interest.

1.2. Significant post balance sheet events that do not have an impact on the interim condensed financial statements

1.2.1. *Acquisition of Media Capital in Portugal*

On July 14, 2017, the Group entered into a definitive agreement with Promotora de Informaciones, S.A (“Prisa”) to acquire Prisa’s 94.7% stake in Media Capital SGPS, SA (“Media Capital”). Media Capital is a leading Portuguese media group with audience leadership positions in both TV and radio. Media Capital, which also owns the largest Portuguese content producer Plural, reported in 2016 revenue of €174.0 million and EBITDA of €41.5 million. After the successful completion of the acquisition, Media Capital will ultimately be owned by Altice International. The transaction is subject to regulatory approvals.

1.2.2. *Partial repayment of the 10.875% Senior Notes due 2025*

As described in note 6 of the condensed interim financial statements, on July 10, 2017, a portion (\$315 million) of the \$2 billion aggregate principal amount outstanding of the CSC 2025 Senior Notes issued by CSC Holdings was redeemed.

1.2.3. *Extension of maturity of debt*

On July 21, 2017, Altice Corporate Finance extended the maturity by one year of its €240 million financing to June 2020 and extended the maturity by one year of its €1,163 million financing to June 2021. There was no change in margins or other conditions.

1.3. Share Performance

The evolution of the price of the Company's common shares A from December 31, 2016 to June 30, 2017 is presented below and is based on data available from public sources. [Source: Euronext Amsterdam]:

The price of the Company's common shares A increased by 7.3% over the six month period ended June 30, 2017 and closed at €20.20. The performance of the share price was underpinned by overall macro-economic factors in the market and tough competitive environments in the French and Portuguese markets.

2. PRINCIPAL RISKS AND UNCERTAINTIES

The Group recognizes that effective risk management is critical to enable the Group to meet its strategic objectives. As a structured approach, risk management is integrated in the Group's strategic planning and operational management procedures, and relies on the commitment of all employees to adopt risk management as an integral part of their duties, notably by identifying, reporting and implementing risk mitigation measures and behaviors. Therefore, the Group is continuously monitoring its risk management framework, policies and procedures, to adapt to the ever-changing environment where the Group operates.

The Group conducts annual risk assessments to identify the main risks the Group is exposed to and to determine appropriate measures with the view to focus on internal controls in the relevant areas. The Group's risk management framework enables its risks to be identified, assessed, managed and monitored. The Group categorizes its risks into four groups:

- strategic risks – risks and uncertainties that may hamper the achievement of strategic and/or business plans of the Group;

ALTICE N.V.

Interim Financial Report

For the six month period ended June 30, 2017

- operational risks – risks and uncertainties that may potentially affect the effectiveness and efficiency of the Group’s current business and operations;
- financial risks – risks and uncertainties with respect to the Group’s financial position; and
- compliance risks – risk and uncertainties with respect to laws and regulations that can have an impact on the Group’s organization and/or business processes and operations.

The Board of Directors has evaluated the principal risks and uncertainties faced by the Group in the first six months of 2017 and has determined that there are no significant changes in these risks and uncertainties as compared to those disclosed in the Annual Report for the year ended December 31, 2016. A summary of the principal risks and uncertainties is provided below:

- Competition
- Legislation and regulatory matters – Compliance
- Business continuity management
- Taxation
- Quality of service
- Services failures
- Innovation
- Revenue assurance
- Reputation
- Talent retention and human resources management
- Mergers and acquisitions - Integration
- Supply chain performance
- Fraud
- Legal and administrative proceedings
- Reliability of network and IT systems
- Cybersecurity
- Content strategy
- Altice Way implementation
- Debt management
- Macroeconomic and political risks
- Reliability of financial statements

A detailed description of these risks and uncertainties is provided in the Annual Report of the Company for the financial year ended December 31, 2016. The Board also believes that the Group’s exposure to these risks will not evolve significantly over the coming six months.

3. RELATED PARTY TRANSACTIONS

The main controlling shareholder of the Company is Next Alt S.à r.l. (“Next Alt”). Next Alt is controlled by Patrick Drahi and holds 59.93% of the share capital of the Company as of the date of this report. The Group’s capital structure did not change in the six months ended June 30, 2017, from that reported in the annual consolidated financial statements.

As part of its business operations, the Group may from time to time enter into transactions with related parties. Transactions with related parties mainly include those with:

- the controlling shareholder of the Group
- minority investors in Altice USA, and
- associates of SFR Group (including associates of NextRadioTV).

Transactions with managers and executives are mainly related to equity purchases made by such executives in relation to the management investment plan that has been put in place by the Company. Such transactions have been included in note 14 to the interim condensed consolidated financial statements as of and for the six months ended June 30, 2017.

Transactions with related parties are not subject to any guarantees. All such transactions are at arm’s length and settled in cash.

ALTICE N.V.

Interim Financial Report

For the six month period ended June 30, 2017

Compared to the year ended December 31, 2016, the Board has identified the following transactions with related parties that had a significant impact on the interim condensed consolidated accounts of the Group for the six months ended June 30, 2017:

- In March 2017, a lease contract for administrative building was signed between SFR Group and Quadrans (controlled by the ultimate beneficial owner of the Group), compliant with the letter of intent signed in December 2016. The duration of the lease is 12 years, as with other leases signed with Quadrans in 2016.
- In May 2017, the Board of Directors approved a management proposal whereby the fee paid as part of the annual strategic services and brand license agreement with Next Alt, which was established in Q4 2016, will cease and will no longer be included in corporate costs. The fee, as described in the annual consolidated financial statements, will be replaced with the grant of 30 million share options issued by Altice N.V. to Next Alt. The management subsequently finalized the discussion with Next Alt on the terms and conditions of the options and agreed that there would be three tranches of 10 million options:
 - a first tranche of 10 million share options will vest 50% after 2 years, 25% after 3 years and the final 25% after 4 years,
 - a second tranche of 10 million share options will vest in the event the share price doubles in value on or before January 31, 2021,
 - a third tranche of 10 million share options will vest in the event the share price triples in value on or before January 31, 2022.
- As part of the IPO of the US business, there were several transactions with the non-controlling interests:
 - The put agreements that the Group had entered with the non-controlling interests in the US no longer exist following the IPO. The fair value previously recognized was reversed, with a total reduction of €2,812.3 million from the amount reported in the Group's 2016 annual consolidated financial statements.
 - The \$525 million vendor loan issued by the non-controlling interests in the US were redeemed via a capital contribution (€460.0 million).
 - the Sponsors' interests in CVC 2 B.V. (which indirectly held 100% of Altice USA) was redeemed, and the Sponsors received shares for an equivalent interest in Altice USA.
- SFR Group repaid the €100.0 million vendor loan, relating to the acquisition of Altice Media Group from a company controlled by the controlling shareholder of the Group.

2. Accounting policies

2.1. Basis of preparation

These condensed interim consolidated financial statements of the Group as of June 30, 2017 and for the six month period then ended were approved by the Board of Directors and authorized for issue on August 11, 2017.

These condensed interim consolidated financial statements of the Group as of June 30, 2017 and for the six month period then ended, are presented in millions of Euros, except as otherwise stated, and have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting*. They should be read in conjunction with the annual consolidated financial statements of the Group and the notes thereto as of and for the year ended December 31, 2016 which were prepared in accordance with International Financial Reporting Standards as adopted in the European Union (“IFRS”) (the “annual consolidated financial statements”).

The accounting policies applied for the condensed interim consolidated financial statements as of June 30, 2017 do not differ from those applied in the annual consolidated financial statements as of and for the year ended December 31, 2016.

2.1.1. Standards applicable for the reporting period

The following standards have mandatory application for periods beginning on or after January 1, 2017 as described in note 1.3 to the annual consolidated financial statements.

- Amendments to IAS 7 Disclosure Initiative. The amendments will require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including non-cash changes and changes arising from cash flows;
- Recognition of Deferred Tax Assets for Unrealized Losses (Amendments to IAS 12). The amendments clarify the accounting for deferred tax assets for unrealized losses on debt instruments measured at fair value; and
- Annual improvements cycle 2014-2016.

These standards and interpretations are under the process of endorsement of the European Union. The application of these amendments had no impact on the amounts recognised in the annual consolidated financial statements and had no impact on the disclosures in these condensed interim consolidated financial statements.

2.1.2. Standards and interpretations not applicable as of reporting date

The Group has not early adopted the following standards and interpretations, for which application is not mandatory for period started from January 1, 2017 and that may impact the amounts reported.

- IFRS 15 Revenue from Contracts with Customers, effective on or after January 1, 2018;
- IFRS 9 Financial instruments, effective on or after January 1, 2018;
- IFRS 16 Lease, effective on or after January 1, 2019;

ALTICE N.V.

Condensed Interim Consolidated Financial Statements

- Amendments to IFRS 2: Classification and Measurement of Share-based Payment Transactions applicable on or after January 2018;
- IFRIC 22: Foreign Currency Transactions and Advance Consideration. The interpretation is applicable for annual periods beginning on or after January 1, 2018. Earlier application is permitted;
- Annual improvements cycle 2014-2016, effective on or after January 1, 2018;
- IFRIC 23: Uncertainty over Income Tax Treatments. The interpretation is applicable effective for annual periods beginning on or after January 1, 2019.

Regarding IFRS 15 Revenue from Contracts with Customers, in May 2014, the IASB issued IFRS 15 which establishes a single comprehensive 5-step model to account for revenue arising from contracts with customers. IFRS 15 will supersede all current revenue recognition guidance including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The Group has implemented a comprehensive project across all geographies to determine the potential differences with current revenue recognition and implement those. The issue identification phase has now been completed and the implementation plan is in progress. Please refer to the annual consolidated financial statements for more detailed information on the issues identified.

The Group has decided to adopt the standard based on the full retrospective approach. Although no reliable quantified information is yet available, the Group anticipates that the impact of the standard will be significant. The impacts on revenue will be primarily driven by the following:

- In the mobile business, the allocation of revenue from multiple arrangement contracts to the handset and to the services will be based on respective standalone selling prices, whereas under IAS 18, handset revenue is currently being capped to the amount paid by the customer. This will lead to:
 - the transfer of portion of revenue from services revenue to equipment revenue,
 - a change in the timing of revenue recognition as handset revenue recognized upon delivery of the terminal will be much higher,

The aggregated mobile revenue should not be materially impacted, and the impact on other revenue is less material.

- The retrospective application of the standard is likely to lead to a significant increase in equity (on the opening balance sheet of the comparative year) mainly due to:
 - the allocation of bundle contracts in the mobile business,
 - the scope of capitalized reseller commissions being broadened as compared to the current treatment, along with a change in their depreciation pattern.

For the other standards, the effects of implementing the new standards, and amendments to standards, are currently being analysed as part of Group-wide projects. It is not practicable to provide a reasonable estimate of the quantitative effects until the projects have been completed, at which time this will be provided.

2.1.3. Significant accounting judgments and estimates

In the application of the Group's accounting policies, the Board of Directors of the Company is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

These key areas of judgments and estimates, as disclosed in the annual consolidated financial statements are:

- Estimations of provisions for claims and restructuring plans;
- Measurement of post-employments benefits;
- Revenue recognition;
- Fair value measurement of financial instruments;
- Measurement of deferred taxes;

ALTICE N.V.

Condensed Interim Consolidated Financial Statements

- Impairment of goodwill;
- Estimation of useful lives of intangible assets and property, plant and equipment, and
- Estimation of impairment losses for trade and other receivables.

As of June 30, 2017, there were no changes in the key areas of judgements and estimated except that the Company has reduced the remaining useful lives of the trade names recognized as intangible assets, following the launch of the new Altice global brand (see note 5.4).

2.1.4. Revised information

The comparative information as of June 30, 2016 has been revised to reflect the impact of the finalization of the purchase price allocation of Suddenlink, Optimum and Groupe News Participation S.A.S. (“GNP”), acquired during the years ended December 31, 2015 and 2016. Please refer to note 17 for the reconciliation to previously published results.

3. Scope of consolidation

The following changes occurred during the six month period ended June 30, 2017, which impacted the scope of consolidation compared to that presented in the annual consolidated financial statements.

3.1. Altice USA IPO

In June 2017, Altice USA closed on its IPO of 71,724,139 shares of its Class A common stock (12,068,966 newly issued shares sold by Altice USA and 59,655,173 shares sold by affiliates of BC Partners and CPPIB, together, the “Sponsors”) at a price to the public of \$30.00 per share. After the IPO, the Group retained ownership of approximately 70.2% of issued and outstanding common stock of Altice USA, which represents approximately 98.2% of the voting rights. The Class A common stock began trading on June 22, 2017, on the New York Stock Exchange under the symbol “ATUS”.

In connection with the sale of its Class A common stock, Altice USA received proceeds of approximately \$350 million (€323 million). The proceeds were used to redeem a portion of the principal amount outstanding of the 10.875% Senior Notes due 2025 (“CSC 2025 Senior Notes”) issued by CSC Holdings. The redemption occurred on July 10, 2017; at June 30, 2017, the Group therefore classified the amount to be redeemed as short-term debt and the cash to be utilized was presented as restricted cash.

On June 21, 2017, Altice USA converted the loan from the Sponsors of \$525 million, into shares of Altice USA common stock at the IPO price.

Following the IPO, the Group’s total equity increased by \$0.9 billion, including the direct share capital increase through the IPO (\$350 million) and the capitalization of the vendor loan.

In addition, the put and call instruments held by the minority shareholders in the US subsidiaries were cancelled. The put instrument entitled the minority shareholders the option to sell Altice their shares, which Altice was obligated to purchase. At December 31, 2016, this option was valued at €2.8 billion and recorded as a financial liability, with a corresponding reduction in equity. On cancellation, the liability was released through equity.

3.2. Acquisitions and disposals during the period

3.2.1. Disposal of Coditel

As at December 31, 2016, the Group had entered into an agreement to sell its Belgian and Luxembourg (Belux) telecommunication businesses, and accordingly classified the associated assets and liabilities as a disposal group held for sale in accordance with IFRS 5. On June 19, 2017, the Group completed the sale of Coditel Brabant SPRL and Coditel S.à r.l. to Telenet Group BVBA, a direct subsidiary of Telenet Group Holding N.V., receiving €302.8 million, and recognizing a loss on sale after transactions costs of €0.9 million.

Condensed Interim Consolidated Financial Statements

3.2.2. Acquisition of a stake in SPORT TV

On February 24, 2017, PT Portugal acquired a 25% stake in the capital of SPORT TV for €12.3 million. SPORT TV is a sports broadcaster based in Portugal. Following this investment, SPORT TV's shareholders are PT Portugal, NOS, Olivedesportos and Vodafone, each of which with a 25% stake. This new structure benefits, above all, PT Portugal's customers and the Portuguese market, guaranteeing all the operators access to the sports content considered essential in fair and non-discriminatory market conditions.

3.2.3. Acquisition of Audience Partners

On March 2, 2017, Altice USA acquired Audience Partners, a leading provider of data-driven, audience-based digital advertising solutions worldwide. Altice USA has a successful TV data and addressable advertising track record in the New York designated market area, and this will expand to include the digital capabilities of Audience Partners to deliver seamless multiscreen addressable solutions.

3.2.4. Sale by SFR Group of L'Etudiant and the B2B Division of Newsco Group to Coalition Media Group

As noted in the annual consolidated financial statements, SFR and Marc Laufer had begun exclusive negotiations for a new partnership between SFR, NewsCo and l'Etudiant. In accordance to IFRS 5 – *Non-current Assets Held for Sale and Discontinued Operations*, the associated disposal group was classified as held for sale in the consolidated statement of financial position, assets of €59 million and liabilities of €46 million, as at December 31, 2016. On April 28, 2017, SFR Group completed the sale of the companies. SFR Group subsequently acquired a 25% stake in this holding, this is classified as an investment in associate. As part of the transaction, the vendor loan contracted during the acquisition of Altice Media Group for €100 million was fully reimbursed. SFR Group recorded a €23 million capital gain.

3.2.5. Acquisition of Teads

On June 22, 2017, Altice Teads (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. Teads is the number one online video advertising marketplace in the world with an audience of more than 1.2 billion unique visitors. The acquisition values Teads at an enterprise value of up to €285 million on a cash and debt free basis. The acquisition purchase price is subject to Teads achieving certain revenue targets in 2017. The acquisition purchase price was due 75% at closing, with the remaining 25% earn-out subject to Teads obtaining defined revenue performance in 2017, and if so, becoming payable in 2018.

3.2.6. Exchange of Altice N.V. shares for SFR Group S.A. shares

During the six month period ended June 30, 2017, the Company acquired an aggregate number of 46,278,953 SFR Group shares in private off-market transactions. In consideration for these acquisitions, the Company delivered common shares A, which it held previously as treasury shares. Following these transactions, the Group held directly and indirectly 94.3% of the capital and voting rights of SFR Group.

3.3. Transactions completed in the prior period

3.3.1. Disposal of Cabovisão and ONI

The net result on disposal of businesses recognised in the income statements for the six months to June 30, 2016 of €107.5 million related to the sale of Cabovisão and its subsidiaries to Apax France, which was completed in January 2016. Total consideration received for the disposal amounted to €137.7 million (including purchase price adjustments), of which €63.9 million was for the shares of Cabovisão and its subsidiaries.

Total				(200.4)	(303.9)	(417.5)	190.2

1. Following the IPO, non-controlling interests have direct investment in Altice USA; previously the non-controlling interests had direct investments in CVC 2 B.V., which indirectly owned 100% of Altice USA.

3.5. Variations in non-controlling interests

Variations in non-controlling interests (€m)	June 30, 2017	December 31, 2016
Balance at beginning of the period/year	190.2	916.7
Share of loss for the period/year	(200.4)	(303.9)

Other variations	11.9	(8.4)
Balance at end of the period/year	(417.5)	190.2

The main change in the equity attributable to non-controlling interests was a result of the Company acquiring an aggregate number of 46,278,953 SFR Group shares in private off-market transactions from the minority investors.

4. Segment reporting

4.1. Definition of segments

Given the geographical spread of the entities within the Group, analysis by geographical area is fundamental in determining the Group's strategy and managing its different businesses. The Group's chief operating decision maker is the senior management team. This team analyses the Group's results across geographies, and certain key areas by activity. The presentation of the segments here is consistent with the reporting used internally by the senior management team to track the Group's operational and financial performance. The reporting segments presented are consistent with the ones presented in the annual consolidated financial statements. The businesses that the Group owns and operates do not show significant seasonality, except for the mobile B2C and B2B segments, which can show significant changes in sales at the year end and at the end of the summer season (the "back to school" period). The fixed B2B segment in the US also shows significant seasonality at the end of the school period (May-June) and the back to school period. The B2B business is also impacted by the timing of preparation of the annual budgets of public and private sector companies. The accounting policies of the reportable segments are the same as the Group's accounting policies.

The segments that are presented are detailed below:

- **France:** The Group controls SFR Group, the second largest telecom operator in France, which provides services to residential (B2C) and business clients (B2B) as well as wholesale customers, providing mobile and high speed internet services using the SFR and associated brands
- **United States ("US"):** Altice USA provides fixed services to B2C, B2B and wholesale clients in the United States. The Group has a DOCSIS 3.1 compliant network in several states in the Southwestern US with the Suddenlink brand and has a dominant position in the New York, New Jersey and Connecticut markets with the Optimum and Lightpath brands.
- **Portugal:** Altice owns Portugal Telecom ("PT Portugal"), the largest telecom operator in Portugal. PT Portugal caters to fixed and mobile B2C, B2B and wholesale clients using the Meo brand.
- **Israel:** Fixed and mobile services are provided using the HOT and HOT Mobile brands to B2C, B2B clients. HOT also produces award winning exclusive content that it distributes using its fixed network.
- **Dominican Republic:** The Group provides fixed and mobile services to B2C, B2B and wholesale clients using the Tricom (cable network) and Orange (under licence) brands.
- **Others:** This segment includes the operations in the French Overseas Territories, Belgium, Luxembourg and Switzerland, as well as the Content, Technical Service and Customer Service business, and all

ALTICE N.V.

Condensed Interim Consolidated Financial Statements

corporate entities. The Board of Directors believes that these operations are not substantial enough to require a separate reporting segment, and so are reported under “Other”.

4.2. Financial Key Performance Indicators (“KPIs”)

The Board of Directors has defined certain financial KPIs that are tracked and reported by each operating segment every month to the senior executives of the Company. The Board of Directors believes that these indicators offer them the best view of the operational and financial efficiency of each segment and this follows best practices in the rest of the industry, thus providing investors and other analysts a suitable base to perform their analysis of the Group’s results.

The financial KPIs tracked by the Board of Directors are:

- Adjusted EBITDA: by segment
- Revenues: by segment and in terms of activity
- Capital expenditure (“Capex”): by segment, and
- Operating free cash flow (“OpFCF”): by segment.

4.2.1. *Non-GAAP measures*

Adjusted EBITDA, Capex and OpFCF are non-GAAP measures. These measures are useful to readers of Altice’s financial statements as they provide a measure of operating results excluding certain items that Altice’s management believe are either outside of its recurring operating activities, or items that are non-cash. Excluding such items enables trends in the Group’s operating results and cash flow generation to be more easily observable. The non-GAAP measures are used by the Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel. Such performance measures are also the de facto metrics used by investors and other members of the financial community to value other companies operating in the same industry as the Group and thus are a basis for comparability between the Group and its peers. Moreover, the debt covenants of the Group are based on the Adjusted EBITDA and other associated metrics.

4.2.1.1. *Adjusted EBITDA*

Adjusted EBITDA is defined as operating income before depreciation and amortization, non-recurring items (capital gains, non-recurring litigation, restructuring costs) and equity based compensation expenses. This may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the annual consolidated financial statements in accordance with IAS 1 - *Presentation of Financial Statements*.

4.2.1.2. *Capex*

Capex is an important indicator to follow, as the profile varies greatly between activities:

- The fixed business has fixed Capex requirements that are mainly discretionary (network, platforms, general), and variable capex requirements related to the connection of new customers and the purchase of Customer Premise Equipment (TV decoder, modem, etc).
- Mobile Capex is mainly driven by investment in new mobile sites, upgrade to new mobile technology and licenses to operate; once engaged and operational, there are limited further Capex requirements.
- Other Capex: Mainly related to costs incurred in acquiring content rights.

4.2.1.3. *Operating free cash flow*

OpFCF is defined as Adjusted EBITDA less Capex. This may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating cash flow as presented in the consolidated statement of cash flows in accordance with IAS 1 - *Presentation of Financial Statements*.

4.2.2. *Revenues*

Additional information on the revenue split is presented as follows:

- Fixed in the business to consumer market (B2C),
- Mobile in the business to consumer market (B2C),

4.3.2. Other expenses and income

Other expenses and income mainly relate to provisions for ongoing and announced restructuring, transaction costs related to acquisitions, and other non-cash expenses (gains and losses on disposal of assets, provisions for litigation, etc.). Details for costs incurred during the six month period ended June 30, 2017 and 2016 are given below:

Other expenses and income (€m)	Six months ended June 30, 2017	Six months ended June 30, 2016
Stock option expense	288.5	10.1
Items excluded from adjusted EBITDA	288.5	10.1

Other expenses and income (net)	71.3	5.8
Other expenses and income	905.6	184.9

4.3.2.1. *Restructuring costs*

Restructuring costs mainly include costs related to provisions for employee redundancies and contract termination fees at subsidiaries with ongoing restructuring plans. Details of these are provided below.

- France: On August 4, 2016, management and the representative unions of SFR Group's telecom division signed an agreement to allow the Group to adapt more quickly to the demands of the telecom market by building a more competitive and efficient organization. This agreement reaffirmed the commitments to maintain jobs until July 1, 2017 that were made at the time of the SFR acquisition, and defined the internal assistance guarantees and the conditions for voluntary departures that would be implemented as of the second half of 2016. This agreement stipulates three steps:
 - the reorganization of retail, which resulted in a voluntary departure plan as of the 4th quarter of 2016 (step one);
 - the preparation of a new voluntary departure plan to be launched in July 2017, preceded by the possibility for employees who would like to benefit from this plan to request suspension of their employment contract in the 4th quarter of 2016 to pursue their professional plans outside the company; and
 - a period between July 2017 and June 2019 during which employees could also benefit from a voluntary departure plan under conditions to be defined.

The first phase of this agreement, namely the reorganization of retail stores, ended at end-March 2017 with the validation of about 800 departures of employees. Furthermore, the Career and Job Planning Group Agreement ("CJP Group Agreement") was signed on February 1, 2017 by most of the representative unions of the SFR Group Telecom division. It specifies the external mobility scheme offered to the employees for the period before June 30, 2017. As of June 30, 2017, 1,360 employees took benefit from the "*Mobilitéé Volontaire Sécurisée*" plan (suspension of labour contract) of the CJP Group Agreement, and will benefit in priority from the voluntary departure plan if they remain eligible when the plan enters into force.

Finally, "Livre 2", which describes the target organization of the Telecom division of SFR and the changes that are required to achieve such an organization, was delivered to the representative unions on April 3, 2017. The validation commissions began in July, and the departure of approximately 2,000 additional employees is expected before the end of November 2017, being the end date of the voluntary plan. A restructuring provision was recognized for the voluntary departure plan for a total amount of €742 million. In parallel, the employee benefit plan provision was reversed for an amount of €47 million

- United States: In the fourth quarter of 2016, Optimum and Cequel initiated a voluntary retirement plan, under the conditions of which, certain employees from the corporate, administrative and infrastructure departments were eligible to participate and terminate their employment contracts. Once an employee has applied to leave under the plan, Optimum and Cequel's management have the right to reject the offer, and thus the Group has determined that the plan qualifies as a termination benefit under IAS 19R, 'employee benefits'. An expense of €82.3 million was recorded in the six month period ended June 30, 2017 to account for the impact of the plan (€194.9 million was recognised for the year ended December 31, 2016).

4.3.2.2. *Stock Option Expense*

Under the Long Term Incentive Plan ("LTIP") and stock option plan ("SOP"), as described in the annual consolidated financial statements, the main changes were new options granted to Next Alt, as described in note 14. During the six month period ended June 30, 2017, the Group incurred stock option expenses of €288.5 million, of which the majority was attributable to the carry unit plan of Altice USA. Under the carry unit plan, grants have a similar vesting pattern as the SOP (i.e. 50% two years from grant date and 25% in each of years three and four following grant date). In the US, an expense of €274.1 million was recorded for the six month period ended June 30, 2017 compared to nil for the six month period ended June 30, 2016.

4.3.4.1. *Content rights*

During 2016, the Group secured exclusive content rights to broadcast certain sports (English Premier League Football, French Basketball League and English Rugby Premiership) in France and other territories; the rights are for periods of between three and six years. The content rights were capitalised in accordance IAS 38- *Intangible Assets* and are amortised over their respective useful lives. When extending beyond one year, the nominal cash flows are discounted to their present value on initial recognition of the asset.

The total amortization recorded for the six month period ended June 30, 2017 was €80.2 million.

4.3.5. *Adjusted EBITDA less accrued Capex*

The table below details the calculation of Adjusted EBITDA less accrued Capex, or operating free cash flows ("OpFCF"), as presented to the Board of Directors. This measure is used as an indicator of the Group's financial performance as the Board believes it is one of several benchmarks used by investors, analysts and peers for comparison of performance in the Group's industry, although it may not be directly comparable to similar measures reported by other companies. Adjusted EBITDA and accrued Capex are both reconciled to GAAP reported figures in this note, this measure is a calculation using these two non-GAAP figures, therefore no further reconciliation is provided.

5.2. Impairment of goodwill

Goodwill is reviewed at the level of each GCGU or CGU annually for impairment and whenever changes in circumstances indicate that its carrying amount may not be recoverable. Goodwill was tested at the CGU/GCGU level for impairment as of December 31, 2016. The CGU/GCGU is at the country level where the subsidiaries operate. The recoverable amounts of the GCGUs are determined based on their value in use, except for the France and US GCGU, where the observable price of the publicly traded shares is used to determine fair value. The key assumptions for the value in use calculations are the pre-tax discount rates, the terminal growth rate and the EBIT margin during the period. The senior management team has determined that there have not been any changes in circumstances indicating that the carrying amount of goodwill may not be recoverable. In addition, there were no significant changes in assets or liabilities in any CGU/GCGU, while the recoverable amounts continue to significantly exceed the carrying amounts. Therefore, no updated impairment testing was performed, nor any impairment recorded, for the six months ended June 30, 2017.

5.3. Business combinations

The Group has concluded several acquisitions during the past 12 months. In all acquisitions, the Group records the provisional value of the assets and liabilities as being equivalent to the book values in the accounting records of the entity being acquired. The Group then identifies the assets and liabilities to which the purchase price needs to be allocated. The fair value is determined by an independent external appraiser based on a business plan prepared as of the date of the acquisition.

5.3.1. Acquisitions where the purchase price allocations have been finalized

5.3.1.1. Groupe News Participations (NextRadioTV)

The fair value of the assets and liabilities acquired was finalised during the period, with no change to the amounts disclosed in the annual consolidated financial statements.

5.3.1.2. Optimum

On June 21, 2016, the Company completed the acquisition of a controlling stake in Optimum, a leading cable operator in the New York area in the United States. The consideration transferred amounted to €8,025.4 million on a cash free, debt free basis.

The Group identified the following assets and liabilities, and their final fair value was determined by an independent external appraiser based on a business plan prepared as of the date of the acquisition as follows:

- Customer relationships: determined for each operating segment, namely Fixed B2C and B2B and Wholesale customers. The fair value was evaluated using the excess earnings method and the useful life reflects the economic life of the asset for a total amount of €4,286.3 million.
- Brand: The Optimum and Lightpath brands were measured using the relief from royalty method using a useful life between 12 and 14 years and amounted to a total of €892.7 million.
- Franchise rights: concessions awarded by local municipalities for Optimum to conduct its business in its areas of operation, measured at fair value of €7,185.1 million. The franchises were valued using the greenfield method.
- Property, plant and equipment: preliminary evaluated at a fair value of €4,288.3 million.

Following the purchase price allocation, a summary of the final allocation between the different classes of assets and liabilities is provided below.

	€m
Total consideration transferred	8,025.4
Fair value of identifiable assets, liabilities and contingent liabilities	2,946.2
Goodwill	5,079.2

5.3.2. Acquisitions where the purchase price allocations are not yet finalized

5.3.2.1. Teads

On June 22, 2017, Altice Teads (a company which the Group has 98.5% of the financial interest, with 1.5% attributable to the managers of Teads) closed the acquisition of Teads. The acquisition purchase price is subject to Teads achieving certain revenue targets in 2017. The acquisition purchase price was €302.3 million, with 75%

ALTICE N.V.

Condensed Interim Consolidated Financial Statements

due at closing, and the remaining 25% earn-out subject to Teads obtaining defined revenue performance in 2017. Management determined that there was a high probability that the earnout would be met, therefore in determining the initial goodwill, the purchase price included 100% of the deferred acquisition price. Following the preliminary purchase price allocation, a summary of the allocation between the different classes of assets and liabilities is provided below.

	€m
Total consideration transferred	302.3
Fair value of identifiable assets, liabilities and contingent liabilities	44.6
Goodwill	257.7

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of Teads. Due to the proximity of the date of acquisition to the balance sheet date, the Group is yet to assess the fair value of the identifiable assets and liabilities. The exercise will be completed within the measurement period as defined by IFRS 3.

5.3.2.2. Audience Partners

On March 2, 2017, the Group finalized the acquisition of 100% of the share capital of Audience Partners. Total consideration to be transferred to the vendors amounts to \$75.4 million (€70.5 million equivalent, excluding purchase price adjustments), including \$45.4 million cash consideration paid to existing management, owners, and seller attributable expenses and \$30.0 million contingent consideration, subject to certain conditions.

The Group identified the following assets and liabilities, and their preliminary fair value was determined by an independent external appraiser based on a business plan prepared as of the date of the acquisition as follows:

- Customer relationships: The fair value was evaluated using the excess earnings method and the useful life reflects the economic life of the asset for a total amount of €39.4 million.
- Technology: a fair value of €9 million was attributed to technology acquired.

Following the preliminary purchase price allocation, a summary of the allocation between the different classes of assets and liabilities is provided below.

	€m
Total consideration transferred	70.5
Fair value of identifiable assets, liabilities and contingent liabilities	52.4
Goodwill	18.1

The Group is continuously evaluating the fair value of acquired assets and liabilities and expects to complete the final purchase price allocation within the measurement period as defined by IFRS 3.

5.3.2.3. Altice Customer Services (ACS)

On December 22, 2016, the Group finalized the acquisition of 100% of the share capital of ACS. Certain managers in ACS subsequently reinvested part of their proceeds to acquire a 35% stake. Total consideration transferred to the vendors amounted to €27.7 million (excluding purchase price adjustments) on a cash free debt free basis. Following the preliminary purchase price allocation, a summary of the allocation between the different classes of assets and liabilities is provided below.

	€m
Total consideration transferred	27.7
Fair value of identifiable assets, liabilities and contingent liabilities	(2.1)
Goodwill	29.8

The Group is continuously evaluating the fair value of acquired assets and liabilities and expects to complete the final purchase price allocation within the measurement period as defined by IFRS 3.

5.3.2.4. Altice Technical Services (ATS)

On November 22, 2016, the Group finalized the 51% acquisition of Parilis SA. Total consideration transferred to the vendors amounted to €158.1 million (excluding purchase price adjustments) on a cash free debt free basis.

¹ The Group franchises are recognized as indefinite life intangible assets and are not amortized, they are tested for impairment annually or more frequently as warranted by events or changes in circumstances. Costs incurred in negotiating and renewing broadband franchises are amortized on a straight-line basis over the life of the renewal period.

On May 23, 2017, the Group announced the adoption of a global brand which will replace the local brands in the future (except for the media brands), reducing the remaining useful lives of these trade name intangibles. The Company has estimated the remaining useful lives to be 3 years from the date of adoption, which reflects one year as an in-use asset and two years as a defensive asset. Amortization expense is calculated on an accelerated basis based on the Company's estimate of the intangible asset during the in-use period. The remaining estimated value of the defensive asset once it is no longer in use will be amortized over the defensive period. The acceleration in amortization expense that was recorded in the six months to June 30, 2017 was €176.2 million.

The total amortization expense for the six months ended June 30, 2017 and 2016 was €1,618.5 million and €1,169.8 million, respectively. The increase from the prior year is primarily related to the full six month impact of Optimum in 2017, compared to only 9 days included in the same period of 2016.

¹ The debt of Altice USA was disclosed separately for Optimum and Suddenlink in the annual consolidated financial statements, however, given the IPO in June 2017, the US subsidiaries are combined and reported under the heading Altice USA.

9.2. Refinancing activities

During the six month period ended June 30, 2017, the Group successfully repriced some of its debt. Further details of the refinancing activities are provided below.

9.2.1. Refinancing of a portion of the existing debt in the US

On March 15, 2017, the Group announced that it had successfully priced two new term loans with institutional investors as follows:

- \$3,000 million of 8.25-year senior secured term loans, and
- \$1,265 million of 8.25-year senior secured term loans.

The new term loans closed on April 17 and April 26, 2017, respectively. They both have a margin of 225 basis points (2.25%) over Libor. The proceeds from executing these terms loans were used to refinance:

- the entire \$2,500 million loans under the existing Term Loan Facility maturing in October 2024,
- \$500 million of the 8.625% Senior Notes due September 2017,
- the \$815 million loans under the existing Term Loan Facility maturing in January 2025, and
- \$450 million of the 6.375% Senior Notes due September 2020.

At the time of the refinancing, the average maturity of the debt in the Cablevision silo was extended from 6.1 to 6.5 years and the weighted average cost of debt was reduced from 7.3% to 7.0%, while at Suddenlink the average maturity of debt increased from 6.6 to 6.9 years and the weighted average cost of its debt reduced from 5.6% to 5.3%. A loss on extinguishment of debt of €35.8 million was recognized in the consolidated income statement related to these transactions.

9.2.2. Refinancing of a portion of the existing debt in other locations

On March 23, 2017, the Group announced that it successfully priced:

- \$1,425 million of 8.25-year term loans B at SFR Group with a margin of 275 basis point over Libor,
- €1,150 million of 8.25-year term loans B at SFR Group with a margin of 300 basis points over Euribor, and
- \$910 million of 8.25-year term loan B at Altice Financing with a margin of 275 basis point over Libor.

The refinancing closed on April 18, 2017 and the proceeds of the term loans were used to refinance:

- €850 million of term loans at SFR Group due in April 2023,
- \$1,425 million of term loans at SFR Group due in January 2024,
- €300 million term loans at SFR Group due in July 2023,
- €446 million term loans at Altice Financing due in July 2023, and
- redeem the entire \$425 million of the 2012 Senior Notes at Altice Financing.

The refinancing extended the average maturity of the SFR Group debt from 7.3 to 7.6 years and reduced the weighted average cost of its debt from 5.2% to 4.9%, and extended the average maturity of Altice International group's debt from 6.7 to 7 years and reduced the weighted average cost of its debt from 6.2% to 5.9%.

The SFR Group restructuring was a modification of the terms of the debt and the costs of refinancing were capitalized with the new loans, while at Altice Financing a loss on extinguishment of debt of €39.0 million was recognized in the consolidated income statement related to these transactions.

9.3. Derivatives and hedge accounting

As part of its financial risk management strategy, the Group enters certain hedging operations. The main instruments used are fixed to fixed or fixed to floating cross-currency and interest rate swaps (CCIRS) that cover against foreign currency and interest rate risk related to the Group's debt obligations. The Group applies hedge accounting for the operations that meet the eligibility criteria as defined by IAS 39.

9.3.1. *CCIRS*

The following table provides a summary of the Group's CCIRS.

1. The derivatives are all measured at fair value. The change in fair value of derivatives classified as cash flow hedges (CFH) in accordance with IAS 39 is recognized in the cash flow hedge reserve. The derivatives not hedge accounted have the change in fair value recognised immediately in profit or loss (FVPL).
2. These cross-currency swaps do not involve the exchange of notional amounts at maturity of the contracts. Accordingly the only cash flows associated with these contracts are interest payments and receipts.
3. This is a new swap executed during the quarter to partially hedge the new \$910 million term loan that replaced the €446 million term loan maturing in July 2023 (as disclosed in note 9.2.2).
4. A new \$930 million swap was executed during April, which hedges a portion of the \$2,750 million senior notes. The swap is recognized in a cash flow hedge relationship.

The change in fair value of all derivative instruments designated as cash flow hedges was recorded in other comprehensive income for the six month period ended June 30, 2017. Before the impact of taxes, gains of €296.8 million were recorded in other comprehensive income (€198.7 million net of taxes).

9.3.2. *Interest rate swaps*

The Group enters interest rate swaps to cover its interest rate exposure in line with its treasury policy. These swaps cover the Group's debt portfolio and do not necessarily relate to specific debt issued by the Group. The details of the instruments are provided in the following table.

9.6. Other financial liabilities

The main changes in other financial liabilities in the six month period ended June 30, 2017 were:

The non-current portion of €1,595.8 million decreased by €2,884.2 million, mainly related to various debt instruments being repaid or cancelled as part of the Altice USA IPO:

- The put agreements that the Group has entered with the non-controlling interests in the US no longer exist following the IPO. The fair value previously recognized was reversed, with a total reduction of €2,812.3 million from the amount reported in the annual consolidated financial statements.
- The \$525 million vendor note issued by the non-controlling interests in the US was redeemed via a capital contribution (€460.0 million), and
- CVC 1 B.V. fully redeemed its short-term loans for an aggregate of \$235.4 million (€206.2 million), including accrued interest.

In addition to the IPO transactions, the carried unit plan in the US, was remeasured to its fair value at June 30, 2017, of €320.5 million.

The current portion of €3,694.2 million increased €202.3 million compared to December 31, 2016. This increase was mainly related to:

- an increase in issued commercial paper by SFR Group (€511.8 million),
- an increase in the current portion of the collateralised debt at Altice USA (€17.0 million),
- the repayment of a €100.0 million vendor loan, relating to the acquisition of Altice Media Group by SFR Group from a company controlled by the controlling shareholder of the Group, and
- a decrease in accrued interest, following interest payments during the period (€277.9 million).

¹ The increase is largely a result of the increase in the fair value of the investment in the common shares of Comcast Corporation held by Optimum.

During the six month period ended June 30, 2017, there were no transfers of assets or liabilities between levels of the fair value hierarchy. There are no non-recurring fair value measurements. The Group's trade and other receivables and trade and other payables are not shown in the table above as their carrying amounts approximate their fair values.

11. **Taxation**

Tax expense	Six months ended	Six months ended
(€m)	June 30, 2017	June 30, 2016
Loss before income tax and share of earnings of associates	(1,572.1)	(876.9)
Income tax benefit	191.0	87.4
Effective tax rate	12%	10%

The Company is required to use an estimated annual effective tax rate to measure the income tax benefit or expense recognized in an interim period.

The Company recorded an income tax benefit of €191.0 million for the six month period ended June 30, 2017, reflecting an effective tax rate of 12%. Non-deductible financial expenses, provisions and non-deductible share-based compensation expense reduced the income tax benefit for the six month period ended June 30, 2017.

The Company recorded an income tax benefit of €87.4 million for the six month period ended June 30, 2016, reflecting an effective tax rate of 10%. The effective tax rate is mainly explained by Altice USA contribution. Indeed on June 9, 2016 the common stock of Cequel Corporation was contributed to Altice USA. On June 21, 2016, Altice N.V., through Altice USA, completed its acquisition of Cablevision. Accordingly, Cequel and Cablevision joined the federal consolidated and certain state combined income tax returns of Altice USA. As a result, the applicable tax rate used to measure deferred tax assets and liabilities increased, resulting in a non-cash deferred income tax charge in the second quarter of 2016. This effect was partially offset by the recognition of deferred tax assets for U.S tax loss carry forwards regarding accrued interest expense of Neptune Finco Corp pursuant to its merger with and into Cablevision on June 21, 2016.

11.1. Income tax litigation

There was no significant development in existing tax litigations since the publication of the annual consolidated financial statements that have had, or that may have, a significant effect on the financial position of the Group.

12. Contractual obligations and commercial commitments

During the six month period ended June 30, 2017, no significant contractual obligations and commercial commitments have been signed as compared to the year ended December 31, 2016, other than:

- the lease commitment signed between SFR and SCI Quadrans, as disclosed in note 14; and
- on May 11, 2017, the Group announced that it had successfully acquired the exclusive rights to broadcast the UEFA Champions League and UEFA Europa League in France. The rights were acquired by Altice Picture and cover the period from August 2018 to May 2021. During the second quarter of 2017, the Group prepaid the first installment of €70.2 million for the UEFA Champions League and UEFA Europa League, recorded in other non-current assets in the Statement of Financial Position. In relation to these rights, the Group has executed a new €350 million bank guarantee, of which €316 million was drawn at June 30, 2017 (also refer to note 9.5). The rights include exclusive broadcast coverage across free-TV, pay-TV, mobile, internet, over-the-top and digital terrestrial television coverage in France and non-exclusive rights in French in Luxembourg, Switzerland and Monaco.

Following the new and amended agreements, the total commitments of the Group increased by approximately €1 billion.

13. Litigation

In the normal course of its activities, the Group is accused in a certain number of governmental, arbitration and administrative law suits. Provisions are recognised by the Group when management believe that it is more likely than not that such lawsuits will result in an expense being recognized by the Group, and the magnitude of the expenses can be reliably estimated. The magnitude of the provisions recognised is based on the best estimate of the level of risk on a case-by-case basis, considering that the occurrence of events during the legal action involves constant re-estimation of this risk.

The Group is not aware of other disputes, arbitration, governmental or legal action or exceptional fact (including any legal action of which the Group is aware, which is outstanding or by which it is threatened) that may have been, or is in, progress during the last months and that has a significant effect on the financial position, the earnings, the activity and the assets of the Company and the Group, other than those described below.

This note describes the new proceedings and developments in existing litigations that have occurred since the publication of the annual consolidated financial statements and that have had or that may have a significant effect on the financial position of the Group.

13.1. France**13.1.1. Wholesale disputes****13.1.1.1. *Potential failure to meet commitments made by Numericable Group as part of the takeover of exclusive control of SFR by the Group relating to the agreement signed by SFR and Bouygues Telecom on November 9, 2010.***

Following a complaint from Bouygues Telecom, the French Competition Authority officially opened an inquiry on October 5, 2015 to examine the conditions under which SFR Group performs its commitments relating to the joint investment agreement entered into with Bouygues Telecom to roll out fiber optics in very densely populated areas (the “Faber” contract). A session before the Competition Authority board was held on November 22, and then on December 7, 2016.

On March 8, 2017, the French Competition Authority issued a penalty of €40 million jointly and severally to Altice Luxembourg S.A. and SFR Group for non-respect of their engagements as defined in the Faber contract. The French Competition Authority also imposed other injunctions also subject to fines in case of non-compliance. On April 13, 2017, Altice Luxembourg S.A. and SFR Group appealed and requested a suspension of the decision of the French Competition Authority before the Council of State. The judge in chambers of the Council of State said there is no matter to be referred. The Council of State plans to rule on the request on the substance before

ALTICE N.V.

September 13, 2017 (i.e. within the short period of five months). During the second quarter 2017, the penalty of €40.0 million was paid.

13.1.1.2. *SFR v Orange: abuse of dominant position in the second homes market*

On April 24, 2012, SFR filed a complaint against Orange with the Paris Commercial Court for practices abusing its dominant position in the retail market for mobile telephony services for non-residential customers. On February 12, 2014, the Paris Commercial Court ordered Orange to pay to SFR €51 million for abuse of dominant position in the second homes market.

On April 2, 2014, Orange appealed the decision of the Commercial Court on the merits. On October 8, 2014, the Paris Court of Appeals overturned the Paris Commercial Court's ruling of February 12, 2014 and dismissed SFR's requests. The Court of Appeals ruled that it had not been proven that a pertinent market limited to second homes exists. In the absence of such a market, there was no exclusion claim to answer, due to the small number of homes concerned. On October 13, 2014 SFR received notification of the judgment of the Paris Court of Appeals of October 8, 2014 and repaid the €51 million to Orange in November 2014. On November 19, 2014, SFR appealed the ruling.

On April 12, 2016, the French Supreme Court overturned the Court of Appeal's decision and referred the case back to the Paris Court of Appeal. Orange returned €52.7 million to SFR on May 31, 2016. Orange refiled the case before the Paris Court of Appeal on August 30, 2016 and filed a memorandum on June 29, 2017.

13.1.1.3. *Claim by Bouygues Telecom against NC Numericable and Completel*

In late October 2013, NC Numericable and Completel received a claim from Bouygues Telecom regarding the "white label" contract signed on May 14, 2009, initially for five years and extended once for an additional five years for the supply to Bouygues Telecom of double- and triple-play very-high-speed offers. In its letter, Bouygues Telecom claimed damages totaling €53 million because of this contract. Bouygues Telecom alleges a loss that, according to Bouygues Telecom, justifies damages including (i) €17.3 million for alleged pre-contractual fraud (providing erroneous information prior to signing the contract), (ii) €33.3 million for alleged non-performance by the Group companies of their contractual obligations and (iii) €2.4 million for alleged damage to Bouygues Telecom's image. The Group considers these claims unfounded both in fact and in contractual terms, and rejects both the allegations of Bouygues Telecom and the amount of damages claimed.

On July 24, 2015, Bouygues Telecom filed suit against NC Numericable and Completel concerning the performance of the contract to supply very-high-speed links (2P/3P). Bouygues Telecom is accusing NC Numericable and Completel of abusive practices, deceit and contractual faults, and is seeking nullification of certain provisions of the contract and indemnification of €79 million. On June 21, 2016, Bouygues Telecom filed revised pleadings, increasing its claims for indemnification to a total of €180 million.

The matter was heard in a new procedural hearing on September 27, 2016. Regarding these issues, Bouygues Telecom is claiming €138.4 million in reparation for the loss suffered. The case has been postponed until March 15, 2017 to appoint the reporting judge. In addition, in a counter-claim, NC Numericable and Completel are seeking €10.8 million in addition to the contractual interest as well as €8 million in royalties due for fiscal year 2015 and €8.2 million in royalties due for fiscal year 2016. Bouygues Telecom filed a memorandum on June 20, 2017. NC Numericable and Completel must reply on September 26, 2017.

13.1.2. *Consumer Disputes*

13.1.2.1. *Tracotel and Intermobility against SFR : Velib*

In May 2017, Tracotel et Intermobility sued SFR before the "Tribunal de Commerce de Paris" in order to obtain compensation for the damage allegedly suffered by the two contracting parties in the context of the response to the tender procedure of the Vélis DSP. They accuse SFR of not having filed the joint offer and are asking for the sentencing of SFR to the tune of €69 million for loss of chance. To date, the Group is challenging the merits of these claims.

13.1.3. *Other disputes*

13.1.3.1. *Litigation between Sequalum and CG 92 regarding DSP 92*

ALTICE N.V.

Condensed Interim Consolidated Financial Statements

A disagreement arose between the Hauts-de-Seine General Council (“CG92”) and Sequalum regarding the terms of performance of a utilities public service concession contract (“THD Seine”) signed on March 13, 2006 between Sequalum, a subsidiary of the Group, and the Hauts-de-Seine General Council; the purpose of this delegation was to create a very-high-speed fiber optic network in the Hauts-de-Seine region. The Hauts-de-Seine General Council meeting of October 17, 2014 decided to terminate the public service delegation agreement signed with Sequalum “for misconduct by the delegatee for whom it is solely responsible.”

The demand for payment was contested in a motion filed with the Administrative Court of Cergy Pontoise on September 3, 2014. Its enforcement and the payment of the sums requested have been suspended pending a ruling on the merits. On May 7, 2015, the General Council sent a second demand for an order for payment in the amount of €51.6 million, orders disputed by Sequalum on July 11, 2015.

Sequalum claims that the termination was unlawful and continued to perform the contract, subject to any demands that the delegator may impose. Should the competent courts confirm this interpretation of unlawful termination, Sequalum may primarily have (i) to repay the public subsidies received for the DSP 92 project, normally the outstanding component of the subsidies (the company received €25 million in subsidies from the General Council), (ii) to reimburse any deferred income (estimated at €32 million by the Department) and (iii) to compensate the Department for any losses suffered (amount estimated by the Department of €212 million).

In turn, the department of Hauts-de-Seine received the returnable assets of the DSP on July 1, 2015. Furthermore, the General Council will have to pay compensation to Sequalum, which essentially corresponds to the net value of the assets.

On October 16, 2014, Sequalum filed a motion in the Administrative Court of Cergy Pontoise requesting the termination of the public service concession because of force majeure residing in the irreversible disruption of the structure of the contract, with the resulting payment of compensation in Sequalum’s favor.

At December 31, 2015, the assets were removed from Sequalum’s accounts in the amount of €116 million. Income receivable in the amount of €139 million related to the expected indemnification was also recognized, an amount fully depreciated given the situation.

On July 11, 2016, the department of Hauts-de-Seine established a breakdown of all amounts due (in its opinion) by each party for the various disputes, and issued demands based on said breakdown. Each amount was subject to a decision by the public accountant dated July 13, 2016 (final amount established by the latter for a net amount of €181.6 million, considering the carrying amount due in his opinion to Sequalum). This breakdown, the various demands and the compensation decision were subject to applications for annulment filed by Sequalum with the Administrative Court of Cergy Pontoise on September 10, 12 and 14, 2016. These applications remain pending, except for the application for annulment relating to the breakdown (the court having considered that the breakdown was not a measure which could be appealed. Sequalum appealed this decision before the Versailles Administrative Court of Appeals). SFR Group states that it also has its own fiber optics in the department of Hauts-de-Seine to service its customers.

Pursuant to two decisions rendered on March 16, 2017, the Administrative Court of Cergy Pontoise rejected the actions brought by Sequalum against two enforcement measures issued by the department of Hauts-de-Seine in respect of penalties, for amounts of €51.6 million and €45.1 million. Sequalum intends to appeal the decisions before the Administrative Court of Versailles. Following the dismissal by the Administrative Court of Versailles lodged by Sequalum against the two enforceable measures issued by the department of Hauts-de-Seine in respect of the penalties the amount of €97 million was paid during July 2017.

13.2. Portugal

13.2.1. European Commission Investigation

After having approved the acquisition of PT Portugal by Altice on April 20, 2015, the European Commission initiated an investigation into infringement by Altice of the obligation of prior notification of concentrations under Article 4(1) of the Merger Regulation and/or of the stand-still obligation laid down in Article 7(1) of the Merger Regulation. The European Commission issued a statement of objections on May 18, 2017, informing Altice of the objections raised. Altice does not agree with the European Commission’s preliminary conclusions, and will submit a full response to the statement of objections and contest all the objections. The sending of a statement of objections does not prejudice the outcome of the investigation. The investigation proceedings do not affect the approval

ALTICE N.V.

granted by the European Commission for the acquisition of PT Portugal by Altice. Altice has until August 18, 2017 to submit its response to the statement of objections.

In the absence of any guidelines regarding the methodology applicable to the settings of fines with respect to gun jumping infringements and in absence of any gun jumping precedent at European Union level, it is not possible at this early stage to provide any estimate of financial penalty, if any. No provision was recorded as of June 30, 2017.

13.2.2. *Optimus - Abuse of dominant position in the wholesale market*

In March 2011, Optimus filed a claim against MEO in the Judicial Court of Lisbon for the payment of approximately €11 million, because of an alleged abuse of dominant position by MEO in the wholesale offer. Optimus sustained its position by arguing that they suffered losses and damages because of MEO's conduct. In 2016, the court decided entirely in favour of MEO and during the first quarter of 2017 MEO was informed that NOS/Optimus would not file an appeal regarding the matter that was under discussion.

14. Related party transactions and balances

The following changes in related party relationships occurred compared to those disclosed in the annual consolidated financial statements:

- In March 2017, a lease contract for administrative building was signed between SFR and SCI Quadrans (controlled by the ultimate beneficial owner of the Group), compliant with the letter of intent signed in December 2016. The duration of the lease is 12 years, as with other leases signed with Quadrans in 2016.
- In May 2017, the Board of Directors approved a management proposal whereby the fee paid as part of the annual strategic services and brand license agreement with Next Alt, which was established in Q4 2016, will cease and will no longer be included in corporate costs. The fee, as described in the annual consolidated financial statements, will be replaced with the grant of 30 million share options issued by Altice N.V. to Next Alt. The management subsequently finalized the discussion with Next Alt on the terms and conditions of the options and agreed that there would be three tranches of 10 million options:
 - a first tranche of 10 million share options will vest 50% after 2 years, 25% after 3 years and the final 25% after 4 years,
 - a second tranche of 10 million share options will vest in the event the share price doubles in value on or before January 31, 2021,
 - a third tranche of 10 million share options will vest in the event the share price triples in value on or before January 31, 2022.
- As part of the IPO of the US business, there were several transactions with non-controlling interests:
 - The put agreements that the Group had entered with the non-controlling interests in the US no longer exist following the IPO. The fair value previously recognized was reversed, with a total reduction of €2,812.3 million from the amount reported in the annual consolidated financial statements.
 - The \$525 million vendor loan issued by the non-controlling interests in the US was redeemed via a capital contribution (€460.0 million),
 - the Sponsors' interests in CVC 2 B.V. (which indirectly held 100% of Altice USA) was redeemed, and the Sponsors received shares for an equivalent interest in Altice USA.
- SFR Group repaid the €100.0 million vendor loan, relating to the acquisition of Altice Media Group from a company controlled by the controlling shareholder of the Group.

15. Going concern

As of June 30, 2017, the Group had net current liability position of €(8,308.7) million (mainly due to trade payables amounting to €7,178.5 million) and a negative working capital of €(2,123.7) million. During the six month period ended June 30, 2017, the Group registered a net loss of €1,382.4 million and generated cash flows from operations of €3,705.7 million.

As of June 30, 2017, the Group had a negative equity position of €(280.5) million compared to €(2,339.6) million as at December 31, 2016. The negative equity position improved from the prior period due to the cancellation of the put options of €2,831.2 million held by the minority investors in the US (please refer to discussion in note 3 for further details).

The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short days of sales outstanding and suppliers are paid under

ALTICE N.V.

Condensed Interim Consolidated Financial Statements

standard commercial terms, thus generating a negative working capital. This is evidenced by the difference in the level of receivables and payables; €4,654.2 million compared to €7,178.5 million for the six month period ended June 30, 2017, as compared to €4,600.5 million and €7,713.4 million for the year ended December 31, 2016. Payables due the following month are covered by revenues and cash flows from operations (if needed).

As of June 30, 2017, the Group's short term borrowings mainly comprised of debentures of Altice USA €1,561.0 million due within the next 12 months and accrued interests of €1,080.3 million. These short-term obligations are expected to be covered by the operating cash flows of the operating subsidiaries. As of June 30, 2017, the revolving credit facilities at Optimum and Altice Financing S.A. were drawn in an aggregate of €869.5 million. A listing of available credit facilities by silo is provided in note 9.5 and the amounts available per segments are sufficient to cover the short-term debt and interest expense needs of each of these segments if needed.

Given the above, the Board of Directors has considered the following elements in determining that the use of the going concern assumption is appropriate:

- The Group has a strong track record of generating positive adjusted EBITDA and operating cash flows:
 - Adjusted EBITDA amounted to €4,667.9 million, an increase of 34.4% compared to the same period last year. This increase in adjusted EBITDA is mainly due to the integration of newly acquired entities (please refer to note 3).
 - Operating cash flows for the six month period ended June 30, 2017 was €3,705.5 million, an increase of 35.4% compared to the six month period ended June 30, 2016 (€2,736.2 million).
- The Group had healthy unrestricted cash reserves €1,270.6 million as of June 30, 2017, compared to €1,109.1 million as of December 31, 2016, which would allow it to cover any urgent cash needs. The Group can move its cash from one segment to another under certain conditions as allowed by its debentures and debt covenants. Cash reserves in operating segments carrying debt obligations were as follows:
 - France: €364.9 million
 - United States: €240.9 million
- Additionally, as of June 30, 2017, the Group had access to revolving credit and guarantee facilities of up to €4,628 million (of which €869.5 million was drawn as of June 30, 2017) and has access to an equity market where it can issue additional equity.

The Group's Executive Committee tracks operational key performance indicators (KPIs) on a weekly basis, thus tracking top line trends closely. This allows the Board of Directors and local CEOs to ensure proper alignment with budget targets and respond with speed and flexibility to counter any unexpected events and help to ensure that the budgeted targets are met.

Based on the above, the Board of Directors is of the view that the Group will continue to act as a going concern for 12 months from the date of approval of these financial statements and has hence deemed it appropriate to prepare these condensed interim consolidated financial statements using the going concern assumption.

16. Events after the reporting period

16.1. Acquisition of Media Capital in Portugal

On July 14, 2017, the Group entered into a definitive agreement with Promotora de Informaciones, S.A ("Prisa") to acquire Prisa's 94.7% stake in Media Capital SGPS, SA ("Media Capital"). Media Capital is a leading Portuguese media group with audience leadership positions in both TV and radio. Media Capital, which also owns the largest Portuguese content producer Plural, reported in 2016 revenue of €174.0 million and EBITDA of €41.5 million. After the successful completion of the acquisition, Media Capital will ultimately be owned by Altice International. The transaction is subject to regulatory approvals.

16.2. Partial repayment of Altice the 10.875% Senior Notes due 2025

As described in note 6 of the condensed interim financial statements, on July 10, 2017, a portion (\$315 million) of the \$2 billion aggregate principal amount outstanding of the CSC 2025 Senior Notes issued by CSC Holdings was redeemed.

16.3. Extension of maturity of debt

On July 21, 2017, Altice Corporate Finance extended the maturity by one year of its €240 million financing to June 2020 and extended the maturity by one year of its €1,163 million financing to June 2021. There was no change in margins or other conditions.

ALTICE N.V.

16.4. Public buy-out offer followed by squeeze out on SFR Group

On August 9, 2017, the Company entered into several agreements relating to the acquisition of SFR Group shares through exchanges against Altice N.V. common shares A. These agreements ensure the holding by the Group of 95.9% of the share capital and voting rights of SFR Group.

As a result, the Group announced its intention to file with the French financial market authority, in September 2017, a buyout offer followed by a squeeze-out for the remaining SFR Group shares for a price of €34.50 per share.

16.5. Increase in bank facility at Altice Corporate Financing

On August 2, 2017, Altice Corporate Financing successfully obtained an increase in its existing facility of €800.0 million. The facility will be used to fund the squeeze out on the SFR Group, disclosed above in note 16.4. None of the terms or conditions of the facility were amended.

17. Revised information

As per the provisions of IFRS 3 Business Combination, the impact of the recognition of the identifiable tangible and intangible assets of Suddenlink, Optimum and GNP at their fair value was revised as of and for the six months ended June 30, 2016.

Report on Review of Condensed Interim Consolidated Financial Statements

Introduction

We have reviewed the accompanying consolidated statement of financial position of Altice N.V. as of June 30, 2017, the related condensed consolidated statements of income, other comprehensive income, changes in equity and cash flows for the six month period then ended and the other explanatory notes (collectively, the “Interim Financial Statements”). The Board of Directors is responsible for the preparation and fair presentation of the Interim Financial Statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union. Our responsibility is to express a conclusion on these Interim Financial Statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of the Interim Financial Statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Financial Statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union.
