Perpetual Subordinated Notes

In 2006, one of the Numericable Group's subsidiaries, NC Numericable S.A.S., issued a maximum € 25 million principal amount (excluding capitalised interest) of perpetual subordinated notes (Titres Subordonnés à Durée Indéterminée) ("TSDI") to Vilorex, a subsidiary of GDF Suez of which a €23.65 million principal amount has been subscribed. The TSDI are subordinated by law pursuant to Article L.228-97 of the French Commercial Code and expressly subordinated to part of the financing of the investments referred to below which was made available by NC Numericable S.A.S. The proceeds of the TSDI have been earmarked for financing the construction of plugs in towns located in SIPPEREC's southern hub (Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication). The TSDI bear interest at 7% per annum. Interest has been capitalised, and accrued interest on the loan amounted to €14.0 million as of December 31, 2013. The TSDI were issued for an indefinite term, and are repayable in case of the liquidation or dissolution of NC Numericable S.A.S. as well as upon NC Numericable S.A.S. achieving a specified level of revenues with respect to the customers covered by the connectors. Such triggers have not been reached since the TSDI issue date. If those triggers are reached and the TSDI are not prepaid, the interest rate steps up to 9% per annum. The TSDI contain a safeguard clause in connection with these triggers. From September 1, 2015 to September 1, 2019 the parties can call for a meeting to adjust the triggers so as to restore the economic balance which was contemplated at the time of issuance of the TSDI. NC Numericable S.A.S. may elect to prepay all or part of the TSDI upon ten days' notice in a minimum amount of €5 million. The TSDI are not transferable without NC Numericable S.A.S.'s consent. NC Numericable has a call option to purchase all of the outstanding TSDI for €1 from September 1, 2035. The TSDI must be prepaid in full if the SIPPREC concessions are transferred to a third party and that third party does not assume all of the rights and obligations of NC Numericable S.A.S. under the TSDI.

Security Deposits Received from Customers

Security deposits received from customers amounted to €51.9 million, €44.5 million and €42.9 million as at December 31, 2013, 2012 and 2011 respectively. These deposits are made when customers receive equipment from the Numericable Group, and the increase in the amount of deposits from December 31, 2011 to December 31, 2013reflects the increased deposits paid by customers for LaBox due to increased subscriptions including LaBox. Customer deposits are reimbursed when customers terminate their subscriptions, on condition that the customers have paid any outstanding invoices and have returned the equipment. The guarantee deposits are recorded in the balance sheet as items due within more than one year.

Indebtedness of Altice S.A.

The Altice S.A. Revolving Credit Facility Agreement

The Company is expected to enter into the Altice S.A. Revolving Credit Facility Agreement on or about the Issue Date with, amongst others, the original lenders party thereto (the "Altice S.A. RCF Lenders"), the mandated lead arrangers party thereto, Deutsche Bank AG, London Branch as facility agent and Deutsche Bank AG, London Branch as security agent, pursuant to which the Altice S.A. RCF Lenders have agreed to provide the Company with a €200 million senior secured revolving credit facility.

The description set forth below sets out the principal terms and conditions of the Altice S.A. Revolving Credit Facility Agreement.

Limitations on Use of Funds

Prior to the completion of SFR Acquisition, the Altice S.A. Revolving Credit Facility may be used by the Company to service interest on the proceeds of the Notes deposited in escrow. After the completion of the SFR Acquisition, the Altice S.A. Revolving Credit Facility may be used by the Company for general corporate and working capital purposes of the Company and its subsidiaries (excluding certain unrestricted subsidiaries) (the "Altice S.A. Borrower Group").

Conditions to Borrowing

A drawdown of the Altice S.A. Revolving Credit Facility cannot be made until, among other things, the facility agent has received (or waived) certain customary conditions precedent documents and evidence in form and substance reasonably satisfactory to it. Drawdowns are subject to further customary conditions including, among other things, that on the date the drawdown is requested and on the drawdown date (i) no default is continuing or occurring as a result of that drawdown, (ii) certain specified representations and warranties are true in all material respects, and (iii) that the consolidated leverage ratio is not greater than the specified ratio in the Altice S.A. Revolving Credit Facility Agreement.

Interest Periods, Interest Rates and Fees

The Company is permitted to make a specified number of drawdowns under the Altice S.A. Revolving Credit Facility Agreement with interest periods relating thereto of one, two, three or six months (or any other period agreed by the Company and the facility agent), but no such interest period shall end after the final maturity date of the Altice S.A. Revolving Credit Facility. Drawdowns under the Altice S.A. Revolving Credit Facility Agreement must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date.

The interest rate on each loan under the Altice S.A. Revolving Credit Facility Agreement for each interest period is equal to the aggregate of: (x) the applicable margin and (y) EURIBOR. The margin under the Altice S.A. Revolving Credit Facility is between 4.25% and 5.00% per annum. Interest accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period).

With respect to any available but undrawn amounts under the Altice S.A. Revolving Credit Facility Agreement, the Company is obligated to pay a commitment fee on such undrawn amounts calculated on undrawn and un-cancelled commitments from a date to be agreed between the Company and the Lenders until one month prior to the final maturity date of the Altice S.A. Revolving Credit Facility.

Repayment

The final maturity date of the Altice S.A. Revolving Credit Facility is the earlier of the date falling five years after the Issue Date and the date on which the Altice S.A. Revolving Credit Facility is fully repaid and cancelled.

Mandatory Prepayment

Upon the occurrence of a Change of Control (as defined in the Altice S.A. Revolving Credit Facility Agreement), the Company must repay the Altice S.A. Revolving Credit Facility in full together with accrued interest and all other amounts accrued under related finance documents and the Altice S.A. Revolving Credit Facility Agreement will be cancelled.

If an amount in excess of 50% of the Notes is repaid, prepaid, purchased, redeemed or defeased or acquired directly or indirectly by a member of the Borrower Group, the Company must apply an amount equal to such excess in cancellation of the Altice S.A. Revolving Credit Facility and, if applicable, prepayment of the loans drawn thereunder.

Certain excess proceeds received by the Company from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the Altice S.A. Revolving Credit Facility.

Guarantees

Each of the guarantors of the Notes and the Company will also guarantee the obligations of each Obligor under the Altice S.A. Revolving Creditor Facility.

Security

The Altice S.A. Revolving Credit Facility is secured by the same collateral as the Notes (other than collateral in respect of the escrow property).

Representations and Warranties

The Altice S.A. Revolving Credit Facility Agreement contains representations and warranties usual for facilities of this type subject to certain exceptions and customary materiality qualifications.

Undertakings

The Altice S.A. Revolving Credit Facility Agreement contains certain restrictive covenants which substantially reflect the covenants contained in the Indenture.

The Altice S.A. Revolving Credit Facility Agreement also requires the Company and the Borrower Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorisations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorisation is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the Altice S.A. Revolving Credit Facility Agreement and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) permitting access to the facility agent, security agent and advisors in certain circumstances; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the collateral; (xii) an Obligor not moving its center of main interest from, or having an “establishment” in any jurisdiction other than, its jurisdiction of incorporation; and (xiii) restricting the making of proceeds drawn under the Altice S.A. Revolving Credit Facility available to any sanctioned person or sanctioned country.

Financial Covenants, Events of Default

The Altice S.A. Revolving Credit Facility Agreement requires the Company and the Borrower Group to maintain a Consolidated Net Senior Secured Leverage Ratio (as defined in the Altice S.A. Revolving Credit Facility Agreement) of no more than 5.50:1, tested prior to utilisation and quarterly to the extent there are loans outstanding.

The Altice S.A. Revolving Credit Facility Agreement contains certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts; and/or (iii) declare that all or part of the loans be repayable on demand. The proceeds of any enforcement of collateral will be applied in accordance with the Altice S.A. Intercreditor Agreement.

The Altice S.A. Intercreditor Agreement

To establish the relative rights of certain creditors, the Company will enter into the Altice S.A. Intercreditor Agreement with, amongst others:

- the creditors under the Altice S.A. Revolving Credit Facility Agreement (the “RCF Creditors”);

- upon its accession, the Trustee for the Notes on its behalf and on behalf of the holders of the Notes (the "Senior Notes Creditors");
- any persons that accedes to the Altice S.A. Intercreditor Agreement as counterparties to certain hedging agreements (the "Hedging Agreements") in accordance with the terms of the Altice S.A. Intercreditor Agreement (the "Hedging Banks", together with the RCF Creditors, the "Super Priority Creditors");
- any persons that accedes to the Altice S.A. Intercreditor Agreement under any future term or revolving credit facility (other than the RCF Agreement) designated as a senior bank facility (a "Senior Bank Facility") in accordance with the terms of the Altice S.A. Intercreditor Agreement (the "Senior Bank Creditors", together with the Senior Notes Creditors, the "Senior Creditors");
- any person that accedes to the Altice S.A. Intercreditor Agreement in their capacity as a creditor (the "Shareholders") any shareholder indebtedness provided to the Company (the "Shareholder Debt"); and
- The Altice S.A. Intercreditor Agreement provides that existing indebtedness of the Company may be refinanced and/or future indebtedness may be incurred by the Company subject to the terms of the Altice S.A. Intercreditor Agreement and each finance document then existing. Future debt designated under the Altice S.A. Intercreditor Agreement as ranking on enforcement the security in priority to liabilities owed to the Senior Creditors is subject to certain conditions, including that it may only be in the form of a revolving credit facility, which is a working capital facility, or hedging indebtedness, and to the extent permitted (or not prohibited) by the terms of each finance document.

For the purposes of the Altice S.A. Intercreditor Agreement, the creditors of each class of debt will vote together and a representative trustee or agent within that class of debt (a "Representative") may act on the instructions of the majority of creditors of that class of debt (or, in the case of the Super Priority Debt or Senior Bank Debt (as defined below), on the instructions of $66^2/_3$% of creditors of that class of debt) (a "Relevant Majority"). Hedging Banks will vote together with the Super Priority Debt. In addition, in certain circumstances (as set out in the Altice S.A. Intercreditor Agreement) certain classes of creditors will vote together as part of an instructing group (the "Instructing Group"), which is the Relevant Majority of (i) (if Senior Bank Debt has been discharged and while any Senior Notes Debt remains outstanding) the Senior Notes Creditors and (ii) (while Senior Bank Debt remains outstanding) the Senior Creditors.

By accepting a Note the relevant holder thereof shall be deemed to have agreed to and accepted the terms and conditions of the Altice S.A. Intercreditor Agreement.

The following description is a summary of certain provisions, among others, that are contained in the Altice S.A. Intercreditor Agreement that relate to the rights and obligations of the Senior Notes Creditors. It does not restate the Altice S.A. Intercreditor Agreement nor does it describe provisions relating to the rights and obligations of holders of other classes of our debt and you are urged to read that documents in its entirety because it, and not the discussions here, define certain rights of the parties to the Altice S.A. Intercreditor Agreement, including the Notes.

Order of Priority

Ranking & Priority

The Altice S.A. Intercreditor Agreement provides, subject to certain provisions, the liabilities of the Company (and any member of its group which accedes to the Altice S.A. Intercreditor Agreement as a new obligor (together with, amongst others, the Company, the "Obligors")) under or in respect of, amongst others, the (i) Altice S.A. Revolving Credit Facility Agreement (the "RCF Debt"), (ii) the Hedging Agreements (the "Hedging Debt" and together with the RCF Debt, the "Super Priority Debt"), (iii) the Notes (the "Senior Notes Debt"), (iv) the Senior Bank Facilities (the "Senior Bank Debt" and together with the Senior Notes Debt, the "Senior Debt") and (v) the Shareholder Debt will rank in right and order of payment in the following order:

i. *first*, the RCF Debt, Senior Bank Debt, Senior Notes Debt, Hedging Debt and any other Super Priority Debt, Senior Debt and amounts due to the Trustee, *pari passu* without any preference between them; and

ii. *second*, the Shareholder Debt.

Priority of Security

The Altice S.A. Intercreditor Agreement provides that the security provided by the Obligors (the "Security") for the Senior Debt and the Super Priority Debt (together, the "Senior Secured Debt") will rank the RCF Debt, Senior Bank Debt, Senior Notes Debt, Hedging Debt and any other Super Priority Debt and Senior Debt and amounts due to the Trustee *pari passu* without any preference between them.

Additional Secured Debt

The creditors party to the Altice S.A. Intercreditor Agreement acknowledge that the Obligors may wish to incur incremental Senior Secured Debt, which in any such case is intended to rank *pari passu* with any existing Secured Secured Debt and/or share *pari passu* with any existing Security. By execution of the Altice S.A. Intercreditor Agreement, the creditors confirm that if and to the extent such a financing and such ranking and such Security is permitted by the terms of the finance documents at such time, they will (at the cost of the Obligors) co-operate with the Obligors with a view to enabling such financing and such sharing in the Security to take place. In particular, but without limitation, the Super Priority Creditors, the Senior Bank Creditors, the Hedging Banks, and the Senior Notes Creditors have authorised and directed its Representative to execute any amendment to the Altice S.A. Intercreditor Agreement and such other finance documents required to reflect such arrangements to the extent such financing and/or sharing is permitted by such finance documents.

Restrictions

Subject to certain limited exceptions and subject to, *inter alia*, the provisions set forth under the captions "*—Permitted Payments" and "—Restrictions on Enforcement*", while any Senior Secured Debt is outstanding, the Altice S.A. Intercreditor Agreement restricts (to the extent not otherwise consented to by the relevant Representative representing the Relevant Majority of: (i) Super Priority Creditors (while any Super Priority Debt is outstanding), (ii) Senior Bank Creditors (while any Senior Bank Debt is outstanding) and (only to the extent prohibited under the Indenture) the Senior Notes Creditors and/or (iii) (only to the extent prohibited under the Indenture) the Senior Notes Creditors (while any Senior Notes Debt remains outstanding)):

- the ability of the Obligors and their subsidiaries to create or permit to subsist any security interest over any of their assets for any Shareholder Debt;

- the ability of the Obligors and their subsidiaries to pay, purchase, redeem or acquire any of the Shareholder Debt, or otherwise to provide financial support in relation to such liabilities; and

- the ability of the Obligors to discharge the Shareholder Debt by set-off, any right of combination of accounts or otherwise.

Limitation of Credit Support

Pursuant to the Altice S.A. Intercreditor Agreement, the Obligors are prohibited from granting any security in favor of any Senior Secured Debt unless that security is given in favor of the Security Agent to hold for the benefit of all other Senior Secured Debt.

Permitted Payments

While any Senior Secured Debt is outstanding, Obligors will only be permitted to make payments of Shareholder Debt:

a. with the prior written consent of:

    i. (while any Super Priority Debt is outstanding) the relevant Representatives representing the Relevant Majority of the Super Priority Creditors;

    ii. (if any Senior Bank Debt is outstanding) the Representatives representing the Relevant Majority of the Senior Bank Creditors; and

    iii. (if any Senior Notes Debt is outstanding) (only to the extent prohibited by the Indenture) the relevant Representatives representing the Relevant Majority of the Senior Notes Creditors; or

b. such payments are not prohibited by the debt documents in respect of the Senior Secured Debt and if, at that time, no Senior Secured Creditor has accelerated any of the Senior Secured Debt.

Restrictions on Enforcement

Subject to certain limited exceptions, and except with the consent of the Relevant Majority of Super Priority Creditors, the Shareholders cannot (i) demand payment of any Shareholder Debt; (ii) accelerate any of the Shareholder Debt or otherwise declare any of the aforementioned debt prematurely due or payable on an event of default or otherwise, (iii) enforce any of the Shareholder Debt by attachment, set-off, execution or otherwise, (iv) petition for, initiate, support or take any steps with a view to any insolvency or any voluntary arrangement or assignment for the benefit of creditors or any similar proceedings involving an Obligor, (vi) sue or bring or support any legal proceedings against any Obligor or its subsidiaries or (vii) otherwise exercise any remedy for the recovery of any Shareholder Debt.

A Shareholder will be allowed to bring or support proceedings to prevent the loss of any right to bring or support proceeding by reason of expiry of statutory limitation periods.

Enforcement Instructions

No Senior Secured Creditor has any independent power to enforce, or has recourse to, any Security except through the Security Agent and the Security Agent shall enforce Security (if then enforceable) if so instructed by the Relevant Majority of Super Priority Creditors or the Instructing Group. The Security Agent may disregard any instructions from any other person to enforce the Security and may disregard any instructions to enforce any Security if those instructions are inconsistent with the Altice S.A. Intercreditor Agreement. The Security Agent is not obliged to enforce the Security if it has not received security and/or indemnity to its satisfaction by the relevant creditors.

To the extent that the Super Priority Creditors or the Instructing Group wish to enforce Security, they must notify the Senior Agent and each other Senior Representative 10 business days prior to the date it issues the enforcement instructions (the "Proposed Enforcement Instruction Date"). To the extent any Super Priority Creditors or the Instructing Group wish to accelerate any debt owing to any Senior Secured Creditor, they must notify the Security Agent and each other Senior Representative at least three business days prior to the date it intends to accelerate. If the Security Agent receives conflicting enforcement instructions prior to the Proposed Enforcement Instruction Date, the Representatives of the Super Priority Creditors and the Representative of the Instructing Group shall consult with one another and with the Security Agent in good faith for 30 days (or such shorter date as may be agreed) (the "Consultation Period"). Consultation will not be required if the Security has become enforceable as a result of an insolvency event relating to an Obligor against whom such enforcement action is taken or if any of such instructing representatives determines in good faith that consultation (and thereby delay) could reasonably be expected to have a material adverse effect on the ability to enforce the Security or the realisation of proceeds of enforcement.

While any Super Priority Debt is outstanding, if the Security Agent receives conflicting enforcement instructions from the Representatives of the Super Priority Debt or the Instructing Group, and the Consultation Period has passed, the Security Agent shall comply with the instruction from the Instructing Group. The failure by a creditor group to issue enforcement instructions will be deemed to be conflicting, provided that if the representatives of the Instructing Group fail to give instructions as to enforcement and the Consultation Period has elapsed, the Security Agent will comply with the instructions of the representative of the Super Priority Debt. The instructions of the Super Priority Creditors will prevail if (i) the Super Priority Creditors have not been fully and finally discharged in cash within six months of the Proposed Enforcement Instruction Date, or (ii) the Security Agent has not commenced any enforcement action within 3 months of the Proposed Enforcement Date. All enforcement instructions will need to comply with the following security enforcement principles:

1. It shall be the aim of any enforcement of the Security to achieve the Security Enforcement Objective. "Security Enforcement Objective" means maximizing, so far as is consistent with a prompt and expeditious enforcement of the Security, the recovery of the Super Priority Creditors and (without prejudice to the waterfall described in "*Application of Proceeds*" below) the Senior Creditors.

2. The security enforcement principles may be amended, varied or waived with the prior written consent of the Relevant Majority of Super Priority Creditors, an Instructing Group and the Security Agent.

3. Without prejudice to the Security Enforcement Objective, the Security will be enforced and other action as to enforcement of the Security will be taken such that either:

   (a) in the event enforcement is being effected in accordance with the instructions of the Instructing Group either:

      (i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the waterfall described in "*Application of Proceeds*" below; or

      (ii) sufficient proceeds from enforcement will be received by the Security Agent in cash to ensure that when the proceeds are applied in accordance with the waterfall described in "*Application of Proceeds*" below), the Super Priority Debt is repaid and discharged in full (unless the Relevant Majority of Super Priority Creditors agree otherwise); or

   (b) in the event enforcement is being effected in accordance with the instructions of the Super Priority Creditors either:

      (i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the waterfall described in "*Application of Proceeds*" below; or

      (ii) with the consent of the Instructing Group, the proceeds are received by the Security Agent in cash and non-cash consideration for distribution in accordance with the waterfall described in "*Application of Proceeds*" below.

4. The enforcement must be prompt and expeditious it being acknowledged that, subject to the other provisions of the Altice S.A. Intercreditor Agreement, the time frame for realisation of value from the enforcement of the Security pursuant to enforcement will be determined by (while any Super Priority Debt is outstanding) the Representatives representing the Relevant Majority of Super Priority Creditors or the relevant Representatives representing an Instructing Group provided that it is consistent with the Security Enforcement Objective.

5. On:

   (a) a proposed enforcement of any of the Security over assets other than shares in a member of the Group, where the aggregate book value of such assets exceeds $3,000,000 (or its equivalent); or

   (b) a proposed enforcement of any of the Security over some, but not all, of the shares in a member of the Group over which Security exists;

the Security Agent shall, if so requested by (while any Super Priority Debt is outstanding) the Representatives representing the Relevant Majority of Super Priority Creditors or the relevant Representatives representing an Instructing Group, and at the expense of such creditors, obtain an opinion from any (X) reputable and independent internationally recognized accounting firm, (Y) reputable and independent internationally recognized investment bank, or (Z) other reputable and independent professional services firm experience in restructuring and enforcement (a "Financial Advisor"), that the consideration for the sale is fair from a financial point of view after taking into account all relevant circumstances. If the Security Agent is unable to obtain an opinion pursuant to this paragraph 5, it shall notify the Super Priority Representatives and the Senior Representatives representing an Instructing Group and may proceed to enforce the Security without obtaining such opinion.

6. The Security Agent shall be under no obligation to appoint a Financial Advisor or to seek the advice of a Financial Advisor, unless expressly required to do so by the security enforcement principles or any other provision of the Altice S.A. Intercreditor Agreement.

7. The Financial Advisor's opinion will be conclusive evidence that the Security Enforcement Objective has been met.

8. If enforcement of any Security is conducted by way of public auction in any relevant jurisdiction, no Financial Advisor shall be required to be appointed in relation to such enforcement action. Nothing shall require the enforcement of Security to take place by way of public auction.

Release of Security and Guarantees

If a disposal of an asset owned by the Obligor is made to a person or persons outside of the Group and either (i) the disposal is not permitted or prohibited by the underlying finance documents, or (ii) the disposal is being effected at the request of the relevant creditor in circumstances where it is entitled to take enforcement action under the Altice S.A. Intercreditor Agreement (and such disposal is consistent with certain security enforcement principles), or (iii) the disposal is pursuant to enforcement action in accordance with the Altice S.A. Intercreditor Agreement, and, in each case, the Security Agent is authorised to release any Security and other claims (including guarantees) under any finance document over that asset and, if that asset comprises of the shares in the capital of an Obligor or any of its subsidiaries which are subject to Security, release on behalf of the relevant creditor and each Obligor and its Subsidiaries that subsidiary and its subsidiaries from all present and future obligations and liabilities under the relevant finance document provided that the proceeds of the disposal applied in accordance with the relevant finance document and with the Altice S.A. Intercreditor Agreement.

Where a disposal relates to (ii) or (iii) above, and the asset which is disposed of consists of shares in an Obligor or its holding company and the Security Agent decides to dispose of all or part of the liabilities of such Obligor, holding company or any subsidiary under the finance documents, the Security Agent may: (a) dispose of all or part of such liabilities such that the transferee shall not be treated as a Senior Secured Creditor or a secured party; and (b) dispose of all (and not part) of such liabilities owed to the Senior Creditors on behalf of the relevant creditors and Obligors such that the transferee be treated as a Senior Secured Creditor or a secured party.

Turnover

The Altice S.A. Intercreditor Agreement provides that if any Super Priority Creditor or Senior Creditor or Shareholder receives or recovers a payment which is prohibited by the Altice S.A. Intercreditor Agreement or not paid in accordance with the provisions described under "*—Application of Proceeds*", subject to certain exceptions, the receiving or recovering creditor will promptly notify the Security Agent and hold any amount on trust for the creditors and, upon demand by the Security Agent, pay that amount to the Security Agent or, if lower, the amount of debt owed to the relevant category of creditor, in each case less the third party costs and expenses (if any) reasonably incurred in receiving or recovering such amount, for application by the Security Agent in accordance with the order of priority described under "*—Application of Proceeds*". These provisions will not apply to any receipt or recovery by the Hedging Banks in relation to certain netting and set-off arrangements with Obligors, permitted refinancing, or otherwise in accordance with the loss sharing provisions of the Altice S.A. Intercreditor Agreement.

Subordination on Insolvency

After the occurrence of an insolvency event in relation to any Obligor (the "Insolvent Obligor"), the Shareholder Debt owed by the Insolvent Obligor will be subordinated in right of payment to the Super Priority Debt and Senior Debt owed by such Insolvent Obligor.

Filing of Claims

While any Senior Secured Debt is outstanding, the Security Agent is authorised (acting on the instructions of (while any Super Priority Debt) the Relevant Majority of Super Priority Creditors or the Instructing Group) to: (i) claim, enforce and prove for any debt owed by the Insolvent Obligor (ii) only with respect to Shareholder Debt, exercise all powers of convening meetings, voting and representations in respect of the shareholder debt owed by the Insolvent Obligor and (iii) file claims and proofs, give receipts and take all such proceedings and do all such things as the Security Agent considers reasonably necessary to recover any debt owed by the Insolvent Obligor.

If the Security Agent is not entitled or does not take any of the actions referred to above, the Shareholders will do so promptly when requested by the Security Agent (acting on the instructions of the Relevant Majority of Super Priority Creditors or the Instructing Group).

Application of Proceeds

Subject to the rights of any creditor (other than a Secured Creditor) with prior security or preferential claims, all amounts from time to time received pursuant to the provisions described under "—*Turnover*" or otherwise recovered by the Security Agent (or any other creditors) in connection with the realisation or enforcement of all or any part of the security in favor of the Senior Secured Debt, apply them at any time as the Security Agent sees fit, and to the extent permitted by law, in the following order:

- first, in payment of the following amounts in the following order of priority: (i) *pari passu* and pro rata to the Security Agent and thereafter to the Trustee to the Notes in respect of any amounts due to each such party, and (ii) *pari passu* and pro rata to each representative of Senior Secured Debt of the fees, costs, expenses and liabilities (and all interest thereon as provided in the relevant finance documents) of each such representative and any receiver, attorney or agent appointed by such representative under the security documents or the Altice S.A. Intercreditor Agreement;

- second, in payment *pari passu* and pro rata of the balance of the costs and expenses of each Super Priority Creditor and each Senior Creditor in connection with such enforcement;

- third, in payment *pari passu* and pro rata to the representative of the Super Priority Debt and the Hedging Banks for application towards the balance of the Super Priority Debt;

- fourth, in payment *pari passu* and pro rata to each representative of Senior Debt for application towards (i) Senior Bank Debt and (ii) Senior Notes Debt;

- fifth, in payment of the surplus (if any) to the Obligors or other person entitled to it.

Amendment

Prior consent of each Representative is required for any waivers, consents, or amendments in relation to any security documents if any such amendments, waivers or consents would adversely affect the nature or scope of the charged property or the manner in which the proceeds of enforcement of Security is distributed.

The Intercreditor Agreement may be amended by the Obligors and the Security Agent without consent of the other parties if the amendment is to cure defects, typographical errors, resolve ambiguities or reflect changes, in each case, of a minor technical or administrative nature. Where an amendment affects the rights and obligations of one or more parties to the Intercreditor Agreement, and could not reasonably be expected to be adverse to the interests of other parties or class of parties, only the parties affected by such amendment need to agree to the amendments.

Other than in respect of certain customary amendments and waivers (which require the consent of each of the Senior Secured Creditors, the Security Agent and the Company), the Intercreditor Agreement may be amended or waived or any consent may be given under it with the written agreement of the Majority Super Priority Creditors, the Majority Senior Bank Creditors, the Majority Senior Notes Creditors the Company and the Security Agent.

Annex III
R 4.11

PART XXI
TAX CONSIDERATIONS

Grand Duchy of Luxembourg

The following is an overview of certain material Luxembourg tax consequences relating to the Company as well as to the purchase, holding and disposal of the New Shares (and New Shares only). It does not purport to be a complete analysis of all possible tax situations that may be relevant to a decision to purchase the New Shares or with regard to the taxation of the Company. Prospective purchasers should consult their own tax advisers as to the applicable tax consequences of the purchase and the ownership of the New Shares based on their particular circumstances. No conclusions should be drawn with respect to issues not specifically addressed in this section. The following description of Luxembourg tax law is based on Luxembourg law and regulations as in effect and as interpreted by Luxembourg tax authorities on the date of this Prospectus and is subject to any amendments in law (or in interpretation) later introduced, whether or not on a retroactive basis. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective purchasers should therefore consult their own advisers as to the effects of any local laws, including Luxembourg tax law, to which they may be subject.

The residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, a reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités* – ‘‘CIT’’), municipal business tax (*impôt commercial communal* – ‘‘MBT’’), a solidarity surcharge (*contribution au fonds pour l’emploi*), as well as personal income tax (*impôt sur le revenu*). Corporate investors and the Company may further be subject to net wealth tax (*impôt sur la fortune* – ‘‘NWT’’) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

Taxation of the Company

The Company is a fully taxable entity in the Grand Duchy of Luxembourg. It is considered resident of Luxembourg for Luxembourg domestic tax purposes and for purposes of the Luxembourg tax authorities concluded with other countries.

Income tax

Profits of the Company are as a general rule subject to CIT and MBT. The tax profit as determined for CIT purposes is applicable, with minor adjustments, for MBT purposes. CIT is levied at an effective rate of 22.47% (2014 rate, inclusive of the 7% solidarity surcharge). MBT is levied at a variable rate according to the municipality in which a company is located and amounts to 6.75% (in Luxembourg-city). The aggregate CIT and MBT rate for 2014 amounts to 29.22% per annum in Luxembourg-City.

Luxembourg companies whose holding and financing assets exceed 90% of their balance sheet total, are subject to an annual minimum CIT of €3,210 (2014 rate, inclusive of the 7% solidarity surcharge). All other Luxembourg companies are subject to a minimum CIT that depends on the balance sheet total of the company resulting from the last closing balance sheet of the relevant fiscal year. For these companies, the minimum CIT ranges from €535 to €21,400 (2014 rates, inclusive of the 7% solidarity surcharge). In both cases, the minimum CIT paid for a given year can be offset against the corporate tax liability of the following years; if no CIT is due, the minimum tax becomes a final tax payment.

As a general rule, dividends, liquidation proceeds and capital gains received or realised by the Company are regarded as ordinary business income and are consequently included in the taxable base for CIT and MBT purposes. In case of dividends, a tax credit may be available for Luxembourg or foreign withholding tax retained by the distributing entity. The same is valid for liquidation proceeds. Capital gains are taxable only upon realisation. No special lower taxation rates apply to capital gains.

Dividends, liquidation proceeds and capital gains may however be tax exempt if the conditions of the participation exemption regime, as described below, are satisfied. If these conditions are not met, under current Luxembourg tax laws, 50% of the gross amount of dividends (excluding liquidation proceeds) received from (i) a Luxembourg resident fully-taxable company limited by share capital, or (ii) a company limited by share capital resident in a State with which the Grand Duchy of Luxembourg has concluded a double tax treaty and liable to a tax corresponding to Luxembourg CIT, or (iii) a company resident in a EU Member State and covered by article 2 of Council Directive 90/435/EEC of July 23, 1990, as amended (the "amended EU Parent-Subsidiary Directive") is exempt from Luxembourg income tax.

Under the participation exemption regime, dividends derived by the Company from its shareholdings may be exempt from income tax if, at the time the dividend is made available, (i) the distributing entity is an eligible entity e.g. a Luxembourg resident fully-taxable company limited by share capital (*société de capitaux*), a company covered by article 2 of the amended EU Parent-Subsidiary Directive or a non-resident company limited by share capital (*société de capitaux*) liable in its country of residence to a tax corresponding to Luxembourg CIT and (ii) the Company has held or commits itself to hold for an uninterrupted period of at least 12 months a direct participation of at least 10% of the share capital of the distributing entity or a direct participation of an acquisition price of at least €1.2 million. A foreign tax is considered comparable to Luxembourg CIT if it is levied at a rate of at least 10.5% on a taxable base that is similar to the basis used for Luxembourg CIT purposes. Liquidation proceeds are assimilated to dividends received and may be exempt under the same conditions. Participations held through a tax transparent entity are considered as being direct participations proportionally to the percentage held in the net assets of the transparent entity.

Under the participation exemption regime, capital gains realised by the Company on its shareholdings in eligible entities (as referred to above) may be exempt from income tax if the above mentioned conditions regarding the dividend exemption are met, except that, if the 10% threshold condition is not met, the acquisition price must be of at least €6 million for capital gains purposes.

Certain tax treaties signed by Luxembourg can further broaden the scope of the participation exemption regime.

Net worth tax

The Company is subject to NWT at the rate of 0.5% applied on its net assets as determined for NWT purposes. Net worth is referred to as the unitary value (*valeur unitaire*), as determined at 1 January of each year. The unitary value is basically calculated as the difference between (a) assets valued at their fair market value (*valeur estimée de réalisation* or *Gemeiner Wert*) and (b) liabilities vis-à-vis third parties.

The NWT charge for a given year can be avoided or reduced if a specific reserve, equal to five times the NWT to save, is created before the end of the subsequent tax year and maintained during the five following tax years. The maximum NWT to be saved is limited to the CIT amount due for the same tax year, including the employment fund surcharge, but before imputation of available tax credits.

The participation held in the share capital of an eligible subsidiary is an exempt asset for NWT purposes, if the conditions of the participation exemption regime are satisfied i.e. on 1 January of a relevant year, the Company holds a participation of at least 10% of the share capital of the eligible entity (as defined above) or a participation therein of an acquisition price of at least €1.2 million.

Foreign assets held in treaty countries (for example real estate or assets invested in foreign permanent establishments) are generally exempt in the Grand Duchy of Luxembourg based on double tax treaty provisions. Third-party liabilities in relation to exempt assets are not deductible in computing the unitary value.

Certain tax treaties concluded by the Grand Duchy of Luxembourg contain a participation exemption provision for dividends and in some cases also for net wealth tax. Holders of the New Shares should therefore carefully compare the requirements under the Luxembourg domestic law and applicable tax treaties.

Taxation of the holders of the New Shares

Withholding tax

Dividends paid by the Company to the holders of the New Shares are as a rule subject to a 15% withholding tax in the Grand Duchy of Luxembourg (17.65% if the dividend tax is not charged to the holders of the New Shares: the Company assumes responsibility for the withholding of tax in that case. However, a withholding exemption applies if at the time the income is made available, the receiving entity (i) is an eligible parent (as defined hereafter) and (ii) has held for an uninterrupted period of at least 12 months a participation of at least 10% of the share capital of the Company or a participation of an acquisition price of at least €1.2 million. Eligible parents include a company covered by article 2 of the amended EU Parent-Subsidiary Directive or a (Luxembourg or not Luxembourg) permanent establishment thereof, a company resident in a State having a tax treaty with Luxembourg and subject to a tax corresponding to Luxembourg CIT or a Luxembourg permanent establishment thereof, a company limited by shares (*société de capitaux*) or a cooperative society (*société coopérative*) resident in the EEA other than an EU Member State and liable to a tax corresponding to Luxembourg CIT or a Luxembourg permanent establishment thereof or a Swiss company limited by share capital which is effectively subject to corporate income tax in Switzerland without benefiting from an exemption. A foreign tax is considered comparable to Luxembourg CIT if it is levied at a rate of at least 10,5% on a taxable base that is similar to the basis used for Luxembourg CIT purposes. Tax treaties signed by Luxembourg can further broaden the scope of the withholding tax exemption.

Under Luxembourg law, a liquidation distribution by the Company will not be regarded as a dividend and will therefore not be subject to withholding tax.

Income tax

Luxembourg Resident Individual Holders of the New Shares

Dividends derived from the New Shares by resident individuals, who act in the course of the management of either their private wealth or their professional or business activity, are subject to income tax at the ordinary progressive rates (with a top effective marginal rate of currently 43.6%, inclusive of the solidarity surcharge). Such dividends however benefit from a 50% exemption plus an additional lump-sum amount of €1,500 (which is doubled for married taxpayers who are jointly taxable) is deductible from total dividends received during the tax year.

Capital gains realised on the disposal of the New Shares by resident individuals, who act in the course of the management of their private wealth, should not be subject to income tax, unless said capital gains qualify either as speculative gains or as gains on a substantial participation. Capital gains on the New Shares are deemed to be speculative gains and are subject to income tax at the progressive ordinary rates if the New Shares are disposed of within 6 months after their acquisition or if their disposal precedes their acquisition. A participation is deemed to be substantial where a resident individual investor, either alone or together with his spouse and/or minor children, directly or indirectly at any time within the 5 years preceding the disposal, has held more than 10% of the share capital of the Company. An investor is also deemed to alienate a substantial participation if it acquired free of charge, within the 5 years preceding the transfer, a participation that was constituting a substantial participation in the hands of the alienator (or the alienators in case of successive transfers free of charge within the same 5-year period). Capital gains realised on a substantial participation more than 6 months after the acquisition thereof are subject to income tax according to the half-global rate method, (i.e. the average rate applicable to the total income is calculated according to progressive income tax rates and half of the average rate is applied to the capital gains realised on the substantial participation). A disposal may include a sale, an exchange, a contribution or any other kind of alienation of the participation.

Capital gains realised on the disposal of the New Shares by resident individual investors, who act in the course of their professional or business activity, are subject to income tax at the ordinary progressive rates. Taxable gains are determined as being the difference between the price for which the New Shares have been disposed of and the lower of their cost or book value.

Luxembourg Resident Corporate Holders of the New Shares

Dividends and other payments derived from the New Shares and paid to a Luxembourg fully-taxable resident company are subject to income tax, unless the conditions of the participation exemption regime, as described below, are satisfied. If these conditions are not met, under current Luxembourg tax laws, 50% of the gross amount of dividends received from the Company is exempt from income tax. A tax credit is as a general rule granted for Luxembourg withholding taxes, if any.

Under the participation exemption regime, dividends derived from the New Shares may be exempt from income tax at the level of the resident corporate investor if cumulatively, (i) the beneficiary of the dividends is a Luxembourg resident fully-taxable company, a Luxembourg permanent establishment of a company covered by article 2 of the amended EU Parent-Subsidiary Directive or a Luxembourg permanent establishment of a company limited by share (*société de capitaux*) resident in a country having a tax treaty with Luxembourg or a Luxembourg permanent establishment of a limited company or a cooperative company resident in the EEA other than a EU Member State, (ii) at the time the dividend is put at the beneficiary's disposal the beneficiary of the dividend has held or commits itself to hold the New Shares for an uninterrupted period of 12 months and, (iii) during this uninterrupted period of 12 months the New Shares represent a participation of at least 10% in the share capital of the Company or a participation of an acquisition price of at least €1.2 million. Liquidation proceeds are assimilated (in the hands of the investor) to received dividends and may be exempt under the same conditions. New Shares held through a tax transparent entity are considered as being a direct participation proportionally to the percentage held in the net assets of the transparent entity.

Capital gains realised by a Luxembourg fully-taxable resident company on the New Shares are subject to income tax at ordinary rates, unless the conditions of the participation exemption regime, as described below, are satisfied.

Under the participation exemption regime, capital gains realised on the New Shares may be exempt from income tax if the above mentioned conditions are met except that the acquisition price of the New Shares must be of at least €6 million for capital gains purposes. New Shares held through a tax transparent entity are considered as being a direct participation proportionally to the percentage held in the net assets of the transparent entity.

Taxable gains are determined as being the positive difference between the price for which the New Shares have been disposed of and the lower of their cost or book value.

Luxembourg Resident Companies benefiting from a Special Tax Regime

Holders of the New Shares who are (i) undertakings for collective investment subject to the law of December 17, 2010 or (ii) specialised investment funds subject to the law of February 13, 2007 or (iii) family wealth management companies governed by the law of May 11, 2007 are exempt from income tax in Luxembourg. Dividends derived from and capital gains realised on the New Shares are thus not subject to income tax in their hands.

Luxembourg Non-Resident Holders of the New Shares

Non-resident investors who do not have a permanent establishment in the Grand Duchy of Luxembourg to which the New Shares are attributable are generally not liable to any Luxembourg income tax, whether they receive payments of dividends or realise capital gains upon sale of New Shares, except by way of withholding tax (if any) or for capital gains realised on a substantial participation (see above) before the acquisition or within the first 6 months of the acquisition thereof that are subject to income tax in the Grand Duchy of Luxembourg at ordinary rates (subject to the double tax treaties). Luxembourg tax will also apply in case of alienation after 6 months or more if the investor has been a Luxembourg resident taxpayer for more than 15 years and has become a non-resident taxpayer less than 5 years before the alienation takes place. Under applicable tax treaties, Luxembourg will in general not be entitled to tax.

Dividends received and capital gains realised on the New Shares and attributable to a Luxembourg permanent establishment are subject to Luxembourg income tax, unless the conditions of the participation exemption regime are satisfied (see above). A tax credit is further granted for the Luxembourg withholding tax.

Taxable gains are determined as being the positive difference between the price for which the New Shares have been disposed of and the lower of their cost or book value.

Other Taxes

Net wealth tax

Luxembourg net wealth tax will not be levied on an investor unless (i) such investor is a corporate entity resident in the Grand Duchy of Luxembourg not entitled to a specific exemption, or (ii) the New Shares are attributable to an enterprise or part thereof which is carried on through a permanent establishment in the Grand Duchy of Luxembourg of a corporate entity, where the conditions of the participation exemption are not fulfilled.

Registration taxes and stamp duties

The issuance of the New Shares is currently subject to a €75 fixed registration duty.

There is no Luxembourg registration tax, stamp duty or any other similar tax or duty payable in the Grand Duchy of Luxembourg by investors as a consequence of the issuance of the New Shares, nor will any of these taxes be payable as a consequence of a subsequent transfer or redemption of the New Shares unless they are recorded in a Luxembourg notarial deed or otherwise registered in the Grand Duchy of Luxembourg.

Inheritance tax and gift tax

Under Luxembourg tax law, where an individual investor is a resident of the Grand Duchy of Luxembourg for inheritance tax purposes at the time of his death, the New Shares are included in his taxable base for inheritance tax purposes.

Gift tax may be due on a gift or donation of New Shares, if recorded in a Luxembourg notarial deed or otherwise registered in the Grand Duchy of Luxembourg.

Netherlands Taxation

Annex III
R. 4.11

This overview solely addresses the principal Dutch withholding tax consequences and certain registration taxes and duties relevant to the acquisition, ownership and disposal of New Shares. It does not address any other Dutch tax consequences that may be relevant to a particular holder of New Shares. Any potential investor should consult his tax adviser for more information about the tax consequences of acquiring, owning and disposing of New Shares in his particular circumstances, including the effect of any taxation under the laws of the Netherlands, which are not discussed herein.

Where in this overview English terms and expressions are used to refer to Dutch concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Dutch concepts under Dutch tax law. Where in this overview the terms "the Netherlands" and "Dutch" are used, these refer solely to the European part of the Kingdom of the Netherlands. The Board shall conduct the affairs of the Company, and shall procure that the Company is organised, in the manner outlined in this Prospectus. A change to such organisational structure or to the manner in which the Company conducts its business may invalidate the contents of this overview, which will not be updated to reflect any such change.

This overview is based on the tax law of the Netherlands (unpublished case law not included) as it stands at the date of this Prospectus. The tax law, upon which this overview is based, is subject to changes, perhaps with retroactive effect. Any such change may invalidate the contents of this overview, which will not be updated to reflect such change.

Dividend withholding tax

The Company is incorporated under the laws of the Grand Duchy of Luxembourg. The Board shall conduct the affairs of the Company in such manner that it does not become a resident of the Netherlands for Dutch tax purposes. Consequently, payments by the Company on the New Shares may be made free from withholding or deduction of or for any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands.

Registration taxes and duties

No Dutch registration tax, transfer tax, stamp duty or any other similar documentary tax or duty, other than court fees, is payable in the Netherlands by the holder of New Shares in respect of or in connection with (i) the subscription, issue, placement, allotment of New Shares, (ii) the enforcement by legal proceedings (including the enforcement of any foreign judgment in the courts of the Netherlands) of the documents relating to the issue of New Shares or the performance by the Company of its obligations under such documents, or (iii) the transfer of New Shares.

PART XXII
GENERAL INFORMATION

Annex I
R 14.1
R 14.2
Annex III
R 4.1

1. Persons responsible

The Company accepts responsibility for the information contained in this Prospectus. The Company declares that it has taken all reasonable care to ensure that, to the best of its knowledge, the information contained in this Prospectus is in accordance with the facts and contains no material omission likely to affect its import.

Annex I
R 1.1,
R 1.2
Annex III
R 1.1, 1.2

Set out below is an overview of the Company's share capital, certain significant provisions of Luxembourg corporate law as well as a brief summary of certain provisions of the Articles. This overview does not purport to give a complete overview and should be read in conjunction with the Articles, together with relevant provisions of applicable law, and does not constitute legal advice regarding these matters and should not be considered as such.

2. Share capital of the Company

Annex I
R 21.1.1
R 21.2.3
R 21.1.7

The Company was incorporated on January 3, 2014 with an issued share capital of €31,000 divided into 31,000 ordinary shares of €1 each, which were issued to the subscriber to the Company's shares. The Company had an authorised capital at incorporation set at two million euro (€2,000,000.-), the Board then being authorised, for a period starting on the publication date of the Articles in the Luxembourg official gazette (*Mémorial C*) and ending five (5) years after the date of such publication, to issue once or several times, within the limits of the authorised share capital, two million (2,000,000) shares, with a nominal value of one euro (€1.-) each.

On January 16, 2014, the General Meeting resolved to:

(i) amend the nominal value of the ordinary shares from one euro (€1.-) to one euro cent (€0.01) in order to have the share capital of the Company represented by three million one hundred thousand (3,100,000) ordinary shares.

(ii) increase the authorised share capital in order to allow the Board of Directors to increase the share capital of the Company by (i) a maximum amount of five million euro (€5,000,000), allowing the Board to issue five hundred million (500,000,000) ordinary shares of one euro cent (€0.01) each and (ii) a maximum amount of twenty million euro (€20,000,000), allowing the Board to issue up to two billion (2,000,000,000) Class B Shares of one euro cent (€0.01) each to the Significant Shareholder on the exercise of the Warrant, for a period of five (5) years from the date of publication in the *Mémorial C* of the resolution to amend the authorised capital.

On January 30, 2014, the Board of Directors resolved to increase the share capital of the Company within the limits of the authorised capital by (i) an amount of one million seven hundred twenty nine thousand euro (€1,729,000) by the creation and issuance of 172,900,000 new ordinary shares in exchange of a contribution in kind in an aggregate value of €4,971,969,000; (ii) by an amount of €2,385.20 by the creation and issuance of 238,520 new ordinary shares in exchange of a contribution in kind in an aggregate value of €6,738,190; and (iii) by an amount of €265,486.73 by the creation and issuance of 26,548,673 new ordinary shares in exchange of a contribution in kind in an aggregate value of €750,000,012.25 in the context of the initial public offering and admission to trading of 202,787,193 ordinary shares of the Company on Euronext Amsterdam on January 31, 2014. Following the admission, the Company's share capital was €2,027,871.83.

On March 13, 2014, the Board of Directors resolved to increase the share capital of the Company within the limits of the authorised capital: (i) by an amount of €1,631.50 by the creation and issuance of 163,150 new ordinary shares in exchange of a contribution in kind in an aggregate value of €4,609,054; (ii) by an amount of €14,409.05 by the creation and issuance of 1,440,905 new ordinary shares in exchange of a contribution in kind in an aggregate value of €40,705,598.53; and (iii) by an amount of €5,108.54 by the creation and issuance of 510,854 new ordinary shares in exchange of a contribution in kind in an aggregate value of €14,431,797.10. Following these increases, the Company's share capital was €2,049,021.02.

On March 31, 2014, the Board of Directors resolved to increase the share capital of the Company within the limits of the authorised capital by an amount of €1,329.40 by the creation and issuance of 132,940,000 new ordinary shares in exchange of a contribution in cash in an aggregate value of €3,130,004. The new shares to be issued pursuant to this resolution were issued as of April 15, 2014. Following this increase, the Company's share capital amounted to €2,050,350.42.

On June 23, 2014, the Board of Directors resolved to increase the share capital of the Company within the limits of the authorised capital by an amount of €355.75 by the creation and issuance of 35,575 new ordinary shares in exchange of a contribution in cash in an aggregate value of €1,000,000.-. The new shares to be issued pursuant to this resolution were issued as of June 24, 2014. Following this increase, the Company's share capital amounted to €2,050,706.17.

On June 26 , 2014, the Board of Directors resolved to increase the share capital of the Company within the limits of the authorised capital by an amount of €179,000.- by the creation and issuance of 17,900,000 new ordinary shares in exchange of a contribution in cash in an aggregate value of €911,110,000.-. The new shares to be issued pursuant to this resolution were issued as of June 27, 2014. Following this increase, the Company's share capital amounted to €2,229,706.17.

On or about July 22, 2014,after receipt of the approved and visa stamped prospectus by the CSSF, the Company will in exchange for the contribution by Carlyle and Cinven of the Numericable Shares to the Company, issue the New Shares on the basis of the Exchange Ratio.The Company's share capital will therefore be increased by a resolution of the Board of Directors within the limits of the authorised capital as part of the Contribution in Kind and Roll Over (as set out under Parts XI section 6 (*Roll Over*) and XIX section 4 (*Related Party Transactions*) above) by 24,751,873 ordinary shares. The issued share capital of the Company following the Contribution in Kind and Roll Over will be €2,477,224.90and will be represented by 247,722,490 ordinary shares with a nominal value of €0.01 each. As a result of the issuance of the New Shares subject to the Contribution in Kind and Roll Over, the issued share capital of the Company will be increased and holders of the Existing Shares will be diluted by 9.99 per cent. The issued share capital of the Company following the Issuance will be two million four hundred seventy seven thousand two hundred twenty two euro and ninety cents (€2,477,224.90) and will be represented by two hundred fourty seven million seven hundred twenty two thousand four hundred and ninety (247,722,490) ordinary shares with a nominal value of one euro cent (€0.01) each.

Annex III
R 9.1

Ordinary Shares (including the New Shares) are issued in registered form. No temporary documents of title have been or will be issued in respect of the Ordinary Shares (including the New Shares). The Ordinary Shares (including the New Shares) will rank *pari passu* for dividends.

The Class B Shares will be, when issued, in registered form and will not be listed. The Class B Shares will be entitled to a limited dividend in certain circumstances only.

No New Shares have been issued other than fully paid.

Currently, neither the Company nor any of its subsidiaries holds any of the Ordinary Shares.

The ISIN of the Ordinary Shares is and will be LU1014539529.

Further information on the rights attaching to the Ordinary Shares is set out in section 3 below.

Further information on the rights attaching to the Class B Shares is set out in section 4 below.

3. Information about the Ordinary Shares (including the New Shares)

Description of the type and class of securities issued

The Ordinary Shares are ordinary shares in the capital of the Company.

Legislation under which the Ordinary Shares were and will be created

The Ordinary Shares have been and will be created pursuant to, and are governed by, Luxembourg law.

Form and currency of the Ordinary Shares

Ordinary Shares are issued in registered form. Ordinary Shares are held and transferred through book-entry form in accounts opened with one or more financial intermediaries with Euroclear Nederland, in accordance with the normal settlement procedures applicable to equity securities settled through the book-entry system maintained by Euroclear Nederland. The persons shown in securities accounts of a financial intermediary authorised to maintain accounts with Euroclear Nederland as the holders of the Ordinary Shares will be able to transfer their interests in accordance with the rules and procedures of Euronext Amsterdam, Euroclear Nederland and other relevant additional clearing systems.

The currency of the Ordinary Shares is the euro and their nominal value is equal to €0.01.

Voting Rights

Annex I
R 18.1

Each Ordinary Share carries the right to one vote. Shareholders have the right to receive notice of and to attend and vote at all General Meetings.

Dividends and distributions

Annex I
R 20.7

Ordinary Shares carry the right to receive dividends and distributions paid by the Company. Subject to certain limitations set out by Luxembourg law and the Articles, each Ordinary Share is entitled to participate equally with the other Ordinary Shares in dividends when and if declared by the annual General Meeting out of funds legally available for such purposes. Declared and unpaid dividends held by the Company for the account of its shareholders do not bear interest. Under Luxembourg law, claims for dividends lapse in favour of the Company five years after the date on which the dividends have been declared. Neither the Articles nor Luxembourg law contain restrictions on the payment of dividends specifically applicable to non-Luxembourg resident holders of shares.

In the event of the liquidation, dissolution or winding-up of the Company, the assets (if any) remaining after allowing for the payment of all Liquidation Proceeds shall be allocated in the following order of preference: (i) the Ordinary Shares shall be paid their nominal value; (ii) the Class B Shares shall be paid their nominal value; (iii) the Class B Shares shall receive an amount which is equal to the lower of (a) ten per cent. (10%) of the nominal value of the Class B Shares and (b) five per cent. (5%) of the amount of Liquidation Proceeds to be distributed by the Company; and (iv) the Ordinary Shares shall receive the remainder of the Liquidation Proceeds. All payments made to the holders of the Ordinary Shares shall be made pro rata to their respective shareholdings. The decision to liquidate, dissolve or wind-up requires the approval of at least two-thirds of the votes cast at an extraordinary General Meeting where at first call at least fifty per cent. (50%) of the issued share capital is represented, with no quorum being required at a reconvened meeting. Irrespective of whether the liquidation is subject to a vote at the first or a subsequent extraordinary General Meeting, it requires the approval of at least two-thirds of the votes cast at the extraordinary General Meeting.

Repurchase of Ordinary Shares

The Company is prohibited by Luxembourg law from subscribing for its own shares.

The Company may repurchase its shares subject to the conditions provided for by the 1915 Law. Any repurchase of Ordinary Shares is conditional upon (i) the prior authorisation given by the shareholders, (ii) such repurchase only relating to fully paid-up Ordinary Shares and (iii) such repurchase, including Ordinary Shares previously acquired by the Company and held by it and Ordinary Shares acquired by a person acting in his own name but on the Company's behalf, not resulting in the value of the Company's net assets falling below an amount lower than an amount corresponding to the Company's issued and outstanding share capital increased by the legal reserve and any statutory reserves which the Company is not permitted to distribute. In addition, if the aggregate purchase price in respect of the Ordinary Shares the subject of the re-purchase is in excess of the nominal value of such shares, the Company must have distributable reserves in an amount at least equal to the difference in value between the aggregate nominal value of the Ordinary Shares being repurchased and the aggregate consideration being paid for such repurchase.

In addition, Luxembourg law allows the Board to approve the repurchase of the Company's Ordinary Shares without the prior approval of the General Meeting if necessary to prevent serious and imminent harm to the Company. In such a case, the next General Meeting must be informed by the Board of the reasons for and the purpose of the acquisitions made, the number and nominal values, or in the absence thereof, the accounting par value of the shares acquired, the proportion of the issued share capital which they represent and the consideration paid for them.

Description of restrictions on free transferability

Annex I
4.6

The Ordinary Shares are freely transferable. Luxembourg law does not impose any limitations on the rights of Luxembourg or non-Luxembourg residents to hold the Ordinary Shares or exercise the voting rights attached thereto.

The New Shares are subject to a contractual lock-up arrangement. Please see "Lock-up arrangements" in summary item E.5 and Part II Risk Factors (*Future sales, or the possibility of future sales, of a substantial number of Ordinary Shares could depress the market price of the Ordinary Shares*) for further details.

4. Information about the Class B Shares and Warrant

Annex I
R 21.1.4
R 21.1.5
Annex III
R 4.2
R 4.3
R 4.4
R 4.5

Legislation under which the Class B Shares were created

The Class B Shares have been created pursuant to, and are governed by, Luxembourg law.

Form and currency of the Class B Shares

The Class B Shares are not, and will not be, listed. The Class B Shares are issued in registered form.

Under Luxembourg law, the ownership of registered shares is evidenced by the inscription of the name of the shareholder, the number of shares and the amount paid up on each share in the register of shareholders of the Company (the "Register") which is kept at the registered office of the Company. Each transfer of shares is made by a written declaration of transfer recorded in the Register, such declaration to be dated and signed by the transferor and the transferee or by their duly appointed agent. The Register shall be kept at the registered office of the Company.

The currency of the Class B Shares is the euro and their nominal value is equal to €0.01.

Voting Rights attaching to the Class B Shares

Each Class B Share carries the right to one vote. The Class B shareholders have the right to receive notice of and to attend and vote at all General Meetings of the Company.

In respect of any resolution put to the General Meeting which purports to alter the terms of the Class B Shares, the holder of the Class B Shares must, as a separate class of shareholder, vote in favour of such proposal in accordance with the applicable voting threshold requirements set out in the 1915 Law.

Dividends and distributions

As provided for in the Articles, the Class B Shares carry the right to receive dividends paid by the Company only in circumstances in which a dividend is paid on the Ordinary Shares. The Class B Shares share pro rata in any dividend declared by the Company. The amount of any dividend paid on the Class B Shares shall be capped at an amount equal to the lower of (i) ten per cent. (10%) of the nominal value of the Class B Shares in respect of which the dividend is to be paid, and (ii) five per cent. (5%) of the aggregate amount of the dividend distributed by the Company.

Any distribution of profits made by the Company shall be allocated as follows: (i) Class B Shares shall receive an amount which shall be capped at an amount equal to the lower of (a) ten per cent. (10%) of the nominal value of the Class B Share(s) in respect of which the dividend is to be paid, and (b) five per cent. (5%) of the aggregate amount of the dividend distributed by the Company; and (ii) Ordinary Shares shall receive the outstanding amount of the decided distribution which is not distributed to the holder of the Class B Shares.

In the event of the liquidation, dissolution or winding-up of the Company, the assets (if any) remaining after allowing for the payment of all liabilities (the "Liquidation Proceeds") shall be allocated in the following order of preference: (i) the Ordinary Shares shall be paid their nominal value; (ii) the Class B Shares shall be paid their nominal value; (iii) the Class B Shares shall receive an amount which is equal to the lower of (a) ten per cent. (10%) of the nominal value of the Class B Shares and (b) five per cent. (5%) of the amount of Liquidation Proceeds to be distributed by the Company; and (iv) the Ordinary Shares shall receive the remainder of the Liquidation Proceeds. The decision to liquidate, dissolve or wind-up requires the approval of at least two-thirds of the votes cast at an extraordinary General Meeting where at first call at least 50% of the issued share capital is represented, with no quorum being required at a reconvened meeting. Irrespective of whether the liquidation is subject to a vote at the first or a subsequent extraordinary General Meeting, it requires the approval of at least two-thirds (2/3) of the votes cast at the extraordinary General Meeting.

Repurchase of Class B Shares

The Class B Shares are capable of repurchase in accordance with article 49-8 of the 1915 Law. The Class B Shares must mandatorily be repurchased by the Company at their nominal value if (i) the holder of the Class B Shares sells or transfers any Class B Shares to a person other than the Company or an affiliate except in case of a transfer arising as a result of a repurchase or cancellation by the Company of any Class B Shares or a transfer to Patrick Drahi or his heirs or an entity controlled by Patrick Drahi be it directly or indirectly; (ii) the holder of the Class B Shares holds less than thirty per cent. (30%) of the Ordinary Shares of the Company; (iii) following the occurrence of a Durational Exercise Event, immediately following the passing of the resolution of the General Meeting approving the renewal of the Company's authorised share capital and the Board's authority to issue Class B Shares out of such authorised share capital; (iv) following the occurrence of a Low Threshold Exercise Event if no single holder of Ordinary Shares (excluding Next L.P.) and no holders of Ordinary Shares (excluding Next L.P.), acting in concert as defined in accordance with article 3 of the Transparency Law, continues to hold twenty per cent. (20%) or more of the aggregate number of voting rights attached to the Ordinary Shares of the Company; or (v) following the occurrence of a High Threshold Exercise Event, the General Meeting of the Company has voted in favour of the continuity of the Company.

Under Luxembourg law, a repurchase of the Class B Shares in accordance with article 49-8 of the 1915 Law is permitted only when (i) the repurchase is authorised by, and the terms and conditions of such repurchase is set out in, the Articles, (ii) the shares which are the subject of the repurchase are fully paid up, (iii) as set out in the 1915 Law distributable amounts or the proceeds of a new issue of shares made with a view to carrying out such repurchase are available, (iv) if the proceeds of a new issue of shares is not used to effect the repurchase, a reserve equal to the nominal value of the repurchased shares is included in a reserve which is, save in certain circumstances, un-distributable, and (v) notice of the repurchase is published in accordance with the 1915 Law.

The Articles contain an undertaking by the holder of the Class B Shares to take any and all actions necessary to permit a repurchase of the Class B Shares or the capital decrease followed by the cancellation of all its Class B Shares, including the use of the rights attaching to the Class B Shares into which the Warrant is exercisable to convene a General Meeting of the Company and to approve at such General Meeting the decrease of the Company's share capital and the subsequent cancellation of the Class B Shares. The holder of the Class B Shares has also undertaken to offer its Class B Shares for repurchase to the Company and to provide the Company with the financial resources necessary to undertake the repurchase of the Class B Shares in accordance with the 1915 Law in case the Company is not in a position to repurchase the Class B Shares in accordance with the 1915 Law and the holder of the Class B Shares refuses to vote in favour of the cancellation of the Class B Shares and decrease of the share capital of the Company.

Annex III
R 4.8

Description of restrictions on free transferability

Subject to any transfer of Class B Shares arising as a result of a repurchase (and subsequent cancellation) by the Company of any Class B Shares or a transfer to Patrick Drahi or his heirs or any entity controlled by Patrick Drahi, whether directly or indirectly (such transaction being a permitted transfer), the Class B Shares or any right, title, and/or interest therein or thereto may not be transferred, sold, exchanged, given, assigned, hypothecated, pledged, encumbered, a security granted or otherwise disposed of, be it directly or indirectly, whether by operation of law or otherwise by the holder of the Class B Shares for a period of five (5) years (such duration being consistent with Luxembourg practice) from their date of issue (the "Class B Lock-up") unless arising as a result of a repurchase or cancellation by the Company of any Class B Shares. The Class B Lock-up provisions are set out in the Articles.

On or after the 5th anniversary of the date of the subscription of Class B Shares, the holder of Class B Shares may transfer such shares freely subject to the Mandatory Repurchase provisions set out in these Articles.

Warrant Instrument

Annex III
R 7.3

The Company, on January 16, 2014, issued the Warrant Instrument pursuant to which the Warrant was created over Class B Shares.

Next L.P. controlled by Patrick Drahi (the "Warrant Holder"), holds the Warrant issued by the Company.

The Warrant is not transferable to third parties other than to any person or entity controlling, controlled by or under common control with Next L.P. (in each case, whether directly or indirectly). The Warrant is exercisable into Class B Shares.

Terms of the Warrant Instrument, exercise of the Warrant and issuance of Warrant Shares

The Warrant is exercisable in full, or partially, by the Warrant Holder upon each occurrence of an Exercise Event.

The right of the Warrant Holder to exercise the Warrant is not extinguished upon exercise of the Warrant: the Warrant is a revolving instrument entitling the Warrant Holder to exercise the Warrant upon the occurrence of any Exercise Event, notwithstanding any previous exercise of the Warrant, provided that at the time of the occurrence of a subsequent Exercise Event, the Warrant Holder does not already hold shares representing the relevant proportion of the Company's share capital, the Warrant Holder would hold, should it exercise the Warrant on the basis of the relevant Exercise Event (as explained below).

Exercise of the Warrant upon the occurrence of an Exercise Event is not mandatory.

Upon the occurrence of an Exercise Event, the Warrant is exercisable (in full, or partially, on several occasions) into such number of Warrant Shares as is equal to a maximum of either (i) in the event of a Low Threshold Exercise Event, sixty six point sixty seven per cent. (66.67%) of the issued and outstanding share capital on a fully diluted basis, or (ii) in the event of a High Threshold Exercise Event, seventy five per cent. (75%) of the issued and outstanding share capital on a fully diluted basis, plus one Class B Share, taking into account the shares already held by the Warrant Holder.

A "Low Threshold Exercise Event" occurs either (i) when the shareholding of any holder of Ordinary Shares, excluding the Warrant Holder (or the shareholding of any holder of Ordinary Shares, excluding the Warrant Holder, when aggregated with the shareholding(s) of any shareholder(s) with whom such shareholder is acting in concert in accordance with article 3 of the Transparency Law) is at least equal to twenty per cent. (20%) of the aggregate number of voting rights attaching to the Ordinary Shares, or (ii) in order to comply with Luxembourg law, which requires the renewal of the authorised share capital by a decision of the General Meeting with a majority of two-thirds of the votes cast at such meeting as described below every five (5) years, upon (a) the expiry of a period of four (4) years and six (6) months from the Warrant Issue Date or (b) any subsequent expiration of a period of four

(4) years and six (6) months following any publication of the renewal of the authorised share capital set out in the Articles (each such period being a "Durational Exercise Event").

A "High Threshold Exercise Event" occurs when (i) the Company's losses for any financial year exceed half of the Company's corporate capital and (ii) the Board resolves to propose to the shareholders of the Company the continuation of the existence of the Company despite the Company's loss situation.

The Warrant Holder may exercise its Warrant at any time following the date on which an Exercise Event occurred and as long as the Exercise Event continues to exist, except in the case of an exercise following a Durational Exercise Event, in which case, the Warrant Holder may exercise its Warrant only during a period commencing on the date of occurrence of the relevant Durational Exercise Event and expiring on the date which is six (6) months following such date.

On an exercise of the Warrant, the Warrant Holder will pay for the Class B Shares in cash at the par value of each Class B Share into which the Warrant is exercised ("Warrant Exercise Price"). The Company will place into a bank account held in the Company's name the amount of the aggregate Warrant Exercise Price and will not use the funds except for the purpose of repurchasing or cancelling the Warrant Shares pursuant to the Articles.

The General Meeting has created an authorised share capital of a maximum amount of twenty five million euro (€25,000,000) comprising two billion (2,000,000,000) Class B Shares which may be used by the Board, for an initial period of five (5) years from the date of publication of the resolutions approving the relevant amendment to the Articles i.e. March 19, 2014 (such period being renewable by a decision of the General Meeting resolving with a majority of two-thirds (2/3) of the votes cast at such meeting provided that a majority of the share capital is represented at the meeting (and upon a second call of the meeting without a quorum)), to (i) increase the current share capital in whole or in part on one or more occasions by (a) a maximum amount of five million euro (€5,000,000) with or without the issue of shares (but if with the issue of shares by the issue of Ordinary Shares) against payment in cash or in kind or against an incorporation of share premium, account 115, distributable reserves or retained earnings and/or (b) a maximum amount of twenty million euro (€20,000,000) by the issue of Class B Shares (including but not limited to the issue of Class B Shares on the exercise of any warrants that may be issued by the Company from time to time) against payment in cash (such payment being equal to the aggregate nominal value of the Class B Shares to be issued); (ii) determine the place and date of the issue (or any successive issue) and the terms and conditions of the subscription for the Class B Shares and/or the Ordinary Shares, as the case may be; (iii) determine the allocation of the subscription price for the Class B Shares and/or the Ordinary Shares to the share capital, share premium and/or any other reserve account of the Company; (iv) limit and/or withdraw the preferential subscription rights of existing shareholders in case of an issuance of Class B Shares and/or the Ordinary Shares, as the case may be; and (v) record each share capital increase by way of a notarial deed and amend the share register to reflect the amendment accordingly.

Cancellation of the Warrant

If the Warrant Holder's holding of Ordinary Shares falls below thirty per cent. (30%) of the total number of Ordinary Shares in issue at any time during the Warrant Exercise Period, the Warrant is automatically cancelled in accordance with the terms of the Warrant Instrument.

5. Summary of the Articles

Annex I
R 21.2.1
R 21.2.2

Set out below is an overview of the material provisions of the Articles and applicable Luxembourg laws. Because it is an overview, it does not contain all of the information in the Articles and is qualified in its entirety by reference to the Articles which are available for inspection at the Company's registered office and on its website.

Company's objects

The Company's object is contained in article 3 of the Articles. The Company's object is the acquisition of participations, in Luxembourg or abroad, in any company or enterprise in any form whatsoever, and the management, development and sale of those participations. The Company may in particular acquire and sell, by subscription, purchase and exchange or in any other manner, any stock, shares and other participation securities, bonds, debentures, certificates of deposit and other debt instruments and, more generally, any securities and financial instruments issued by any public or private entity. It may participate in the creation, development, management and control of any company or enterprise. Further, it may invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin.

The Company may borrow in any form. The Company may issue notes, bonds and any kind of debt and equity securities. It may issue convertible funding instruments and warrants. The Company may lend funds, including, without limitation, the proceeds of any borrowings, to its subsidiaries and affiliated companies. It may also give guarantees and pledge, transfer, encumber or otherwise create and grant security over some or all of its assets to guarantee its own obligations and those of any other company, subsidiary or affiliate, and, generally, for its own benefit and that of any other company or person. The Company may issue warrants or any other instrument which allows the holder of such instrument to subscribe for shares in the Company. For the avoidance of doubt, the Company may not carry out any regulated financial sector activities without having obtained the requisite authorisation.

The Company may use any techniques, legal means and instruments to manage its investments efficiently and protect itself against credit risks, currency exchange exposure, interest rate risks and other risks.

The Company may carry out any commercial, financial or industrial operation and any transaction with respect to real estate or movable property, which directly or indirectly, favours or relates to its corporate object.

Rights and restrictions attached to the Ordinary Shares

The Ordinary Shares are subject to all the provisions of the Articles. Pursuant to the Articles and Luxembourg law, the main rights attached to the Ordinary Shares are described below.

Each Ordinary Share gives entitlement to one vote. Each Ordinary Share is entitled to participate in distributions and liquidation proceeds. See the section above entitled "- *Dividends and distributions*".

Upon each capital increase or issue of instruments entitling shareholders to subscribe for Ordinary Shares, each share is, pursuant to the 1915 Law, entitled to a proportional preferential subscription right in the new issue, unless such right has been limited or withdrawn by a decision of (i) the General Meeting or (ii) the Board in the context of the authorised share capital.

Any change to the rights attaching to the Class B Shares and to the Binding Nomination Right requires the prior written consent of Next L.P. for so long as Next L.P. holds at least thirty per cent. (30%) of the Ordinary Shares of the Company.

The New Shares are subject to a contractual lock-up arrangement. Please see "Lock-up arrangements" in summary item E.5 and Part II Risk Factors (*Future sales, or the possibility of future sales, of a substantial number of Ordinary Shares could depress the market price of the Ordinary Shares*) for further details.

Authorised share capital

The General Meeting has created an authorised share capital of twenty five million euro (€25,000,000) comprising Ordinary Shares and Class B Shares.

The Board is authorised and empowered within the limits of the authorised share capital for an initial period of five (5) years from the date of publication of the resolutions approving the relevant amendment to the Articles, i.e. March 19, 2014 (such period being renewable by a decision of the General Meeting resolving with a majority of two-thirds (2/3) of the votes cast at such meeting provided that a majority of the share capital is represented at the meeting (and upon a second call of the meeting without a quorum)) to: (i) increase the current share capital in whole or in part on one or more occasions by (a) a maximum amount of five million euro (€5,000,000) with or without the issue of shares (but if with the issue of shares by the issue of Ordinary Shares) against payment in cash or in kind or against an incorporation of share premium, account 115, distributable reserves or retained earnings and/or up to (b) a maximum amount of twenty million euro (€20,000,000) by the issue of Class B Shares (including but not limited to the issue of Class B Shares on the exercise of any warrants that may be issued by the Company from time to time) against payment in cash (such payment being equal to the aggregate nominal value of the Class B Shares to be issued); (ii) determine the place and date of the issue (or any successive issue) and the terms and conditions of the subscription for the Class B Shares and/or the Ordinary Shares, as the case may be; (iii) determine the allocation of the subscription price for the Class B Shares and/or the Ordinary Shares to the share capital, share premium and/or any other reserve account of the Company; (iv) limit and/or withdraw the preferential subscription rights of existing shareholders in case of an issuance of Class B Shares and/or the Ordinary Shares, as the case may be; and (v) record each share capital increase by way of a notarial deed and amend the share register to reflect the amendment accordingly.

Pursuant to the 1915 Law, Ordinary Shares may be acquired by the Company following a shareholder decision at an extraordinary General Meeting to reduce the capital of the Company. Such a capital decrease requires a shareholders' resolution with a quorum requirement of fifty per cent. (50%) at a first meeting (with no quorum requirement at a second, reconvened meeting) and a majority requirement of at least two-thirds (2/3) of the votes cast at the relevant shareholders' meeting.

Pursuant to the 1915 Law, Ordinary Shares can be converted into a different class of shares (e.g. non-voting preferred shares) but only with the consent of the respective shareholder and subject to a shareholders' resolution adopted at a General Meeting held with a quorum of at least fifty per cent. (50%) (no quorum applying at a second, reconvened meeting) and a majority requirement of at least two-thirds (2/3) of the votes cast at the relevant meeting.

Luxembourg law provides for the issue of repurchasable shares, which are repurchasable subject to the conditions stated in the Articles. The Articles contain provisions allowing for any Class B Shares in issue to be repurchased by the Company provided that the statutory conditions set out in article 49-8 of the 1915 Law (which are reproduced in the Articles) have been fulfilled. The Ordinary Shares may be repurchased by the Company within the limits set out in the 1915 Law and the Articles.

Under Luxembourg law, and as set out in the Articles, a repurchase of the Class B Shares in accordance with article 49-8 of the 1915 Law is permitted only when (i) the repurchase is authorised by, and the terms and conditions of such repurchase is set out in, the Articles, (ii) the shares which are the subject of the repurchase are fully paid up, (iii) as set out in the 1915 Law distributable amounts or the proceeds of a new issue of shares made with a view to carrying out such repurchase are available, (iv) if the proceeds of a new issue of shares is not used to effect the repurchase, a reserve equal to the nominal value of the repurchased shares is included in a reserve which is, save in certain circumstances, un-distributable, and (v) notice of the repurchase is published in accordance with the 1915 Law.

The Articles stipulate that the Class B Shares must mandatorily be repurchased by the Company at their nominal value upon or following the exercise of the Warrant if: (i) the holder of the Class B Shares transfers, sells, exchanges, or otherwise disposes of any Class B Shares to a person other than the Company or an affiliate except in case of a transfer arising as a result of a repurchase or cancellation by the Company of any Class B Shares or a transfer to Patrick Drahi or his heirs or an entity controlled by Patrick Drahi be it directly or indirectly, directly or indirectly or whether by operation of law, or pledges, assigns, encumbers or creates a security interest in any Class B Shares; (ii) the holder of the Class B Shares holds less than thirty per cent. (30%) of the Ordinary Shares of the Company; (iii) following the occurrence of a Durational Exercise Event, immediately following the passing of the resolution of the General Meeting approving the renewal of the Company's authorised share capital and the Board's authority to issue Class B Shares out of such authorised share capital; (iv) following the occurrence of a Low Threshold Exercise Event if no single holder of Ordinary Shares (excluding Next L.P.) and no holders of Ordinary Shares (excluding Next L.P.), acting in concert as defined in accordance with article 3 of the Transparency Law, continues to hold twenty per cent. (20%) or more of the aggregate number of voting rights attached to the Ordinary Shares of the Company; or (v) following the occurrence of a High Threshold Exercise Event, the General Meeting of the Company has voted in favour of the continuity of the Company.

The Articles contain an undertaking by the holder of the Class B Shares to take any and all actions necessary to permit a repurchase of the Class B Shares or the capital decrease followed by the cancellation of all its Class B Shares, including the use of the rights attaching to the Class B Shares into which the Warrant is exercisable to convene a General Meeting of the Company and to approve at such meeting the decrease of the Company's share capital and the subsequent cancellation of the Class B Shares and to provide the Company with financial resources necessary to undertake the repurchase of the Class B Shares in accordance with the 1915 Law in case the Company is not in a position to repurchase the Class B Shares in accordance with the 1915 Law and the holder of the Class B Shares refuses to vote in favour of the cancellation of the Class B Shares and decrease of the share capital of the Company.

Share transfer restrictions

Annex III
R 7.3

The Ordinary Shares are freely transferable, in accordance with the normal settlement procedures applicable to equity securities settled through the book-entry system maintained by Euroclear Nederland. Certain of the Existing Shares are subject to a lock-up arrangement. The New Shares are subject to the Lock-Up (please refer to element E.5 of the summary under Part I on page 21 for more details). The Lock-Up will only apply as from the date on which the Company implements its first share capital increase as from June 22, 2014 and for which the underwriting banks impose a lock-up on the shares of the Company in that respect. Class B Shares or any right, title and/or interest therein or thereto shall not be transferred, sold, exchanged, given, assigned, hypothecated, pledged, encumbered, a security granted or otherwise disposed of, be it directly or indirectly, whether by operation of law or otherwise by the holder of the Class B Shares for a period of five (5) years (such duration being consistent with Luxembourg practice) from their date of issue (the "Class B Lock-up") unless arising as a result of a repurchase or cancellation by the Company of any Class B Shares or a transfer to Patrick Drahi or his heirs or an entity controlled by Patrick Drahi be it directly or indirectly.

Dividends and other distributions

In accordance with the Articles, each year, at least five per cent. (5%) of the annual net profits of the Company have to be allocated to a legal reserve account. Such allocation to the legal reserve ceases to be compulsory when the Company's legal reserve amount reaches ten per cent. (10%) of the Company's issued share capital. The remaining balance of the Company's profits, together with any available reserves (other than the legal reserve) and subject to applicable law, is at the disposal of the General Meeting for distribution or allocation to a reserve account or carry forward in accordance with applicable legal provisions.

The Company will declare any payment made in respect of its shares in euro. Under Luxembourg law, a dividend may be declared by a simple majority of the votes cast at a General Meeting of the Company.

Dividends will be distributed in accordance with the Company's Articles, dividend policy and in accordance with the decision of the General Meeting on the date set by the Board (to which the powers to determine the date and conditions of payment may be delegated by the General Meeting).

Furthermore, interim dividends may be paid by the Board within the conditions provided for by the 1915 Law.

Both the Ordinary Shares and the Class B Shares carry the right to receive dividends and distributions paid by the Company. As provided for in the Articles, each Ordinary Share is entitled to participate equally with the other Ordinary Shares in dividends when and if declared by the General Meeting of the Company out of funds legally available for such purposes. The Class B Shares carry the right to receive dividends only in circumstances in which a dividend is paid on the Ordinary Shares as declared by the General Meeting of the Company out of funds legally available for such purposes. The Class B Shares do share pro rata in any dividend declared by the Company. The amount of any dividend paid on the Class B Shares shall not be more than the amount which shall be capped at an amount equal to the lower of (i) ten per cent. (10%) of the nominal value of the Class B Shares in respect of which the dividend is to be paid, and (ii) five per cent. (5%) of the aggregate amount of the dividend declared by the Company.

Any distribution of profits made by the Company shall be allocated as follows: (i) Class B Shares shall receive an amount which shall be capped at an amount equal to the lower of (i) ten per cent. (10%) of the nominal value of the Class B Share(s) in respect of which the dividend is to be paid, and (ii) five per cent. (5%) of the aggregate amount of the dividend distributed by the Company; and (ii) Ordinary Shares shall receive the outstanding amount of the decided distribution which is not distributed to the holder of the Class B Shares.

Declared and unpaid dividends held by the Company for the account of its shareholders do not bear interest. Under Luxembourg law, claims for dividends lapse in favour of the Company five (5) years after the date on which the dividends have been declared. Neither the Articles nor Luxembourg law contain restrictions on the payment of dividends specifically applicable to non-Luxembourg resident holders of shares.

The decision to liquidate, dissolve or wind-up requires the approval of at least two-thirds of the votes cast at an extraordinary General Meeting where at first call at least fifty per cent. (50%) of the issued share capital is represented, with no quorum being required at a reconvened meeting. Irrespective of whether the liquidation is subject to a vote at the first or a subsequent extraordinary General Meeting, it requires the approval of at least two-thirds (2/3) of the votes cast at the extraordinary General Meeting.

Without prejudice to stricter provisions in the Articles, in the event of a loss of half the corporate capital, the Board shall convene a General Meeting so that it is held within a period not exceeding two months from the time at which the loss was or should have been ascertained by them and such meetings shall resolve in accordance with the conditions provided in Article 67-1 of the 1915 Law on the possible dissolution of the Company.

The same rules shall be observed where the loss equals at least three quarters of the corporate capital provided that in such case, dissolution shall take place if approved by one fourth of the votes cast at the meeting.

In the event of any infringement of the foregoing provisions, the directors or the members of the management board, as applicable, may be declared personally and jointly and severally liable *vis-à-vis* the company for all or part of the increase of the loss.

In the event of the liquidation, dissolution or winding-up of the Company, the assets (if any) remaining after allowing for the payment of the Liquidation Proceeds shall be allocated in the following order of preference: (i) the Ordinary Shares shall be paid their nominal value; (ii) the Class B Shares shall be paid their nominal value; (iii) the Class B Shares shall receive an amount which is equal to the lower of (a) ten per cent. (10%) of the nominal value of the Class B Shares and (b) five per cent. (5%) of the amount of Liquidation Proceeds to be distributed by the Company; and (iv) the Ordinary Shares shall receive the remainder of the Liquidation Proceeds.

All payments made to the holders of the Ordinary Shares and to the holder of the Class B Shares shall be made pro rata to their respective shareholdings.

For information on the taxation of dividends, see Part XXI of this Prospectus (*Tax Considerations*).

Shareholder Meetings

Annex I
R 21.2.5

Please also refer to section 6 below which sets out, among others, the quorum requirements, convening rights and attendance provisions for General Meetings.

Shareholder resolutions are adopted by a majority of the votes cast without a quorum requirement, unless the relevant resolutions relate to: (i) an amendment of the Articles (including an increase or decrease of the issued and/or authorised share capital); (ii) a merger or a demerger; or (iii) the liquidation of the Company, in which case a quorum of fifty per cent. (50%) at a first meeting (with no quorum required at a second, reconvened meeting) and a two-thirds majority of the votes cast at the relevant meeting must be obtained to pass the relevant resolutions.

In respect of amendments to the Articles involving any change to the respective rights of different categories of shares, it is necessary to comply with the majority and quorum requirements set out above in respect of each category of share in issue. Resolutions to change shareholder commitments or the nationality of the Company must be adopted by a unanimous vote of the shareholders and bondholders. Resolutions to increase shareholders' commitments must be adopted by a unanimous vote of the shareholders.

The General Meeting will appoint the Company's directors and auditor(s), approve the annual statutory and consolidated accounts, and resolve on dividend distributions.

Board

The Company is managed by the Board, which is comprised of a minimum of three (3) Directors and a maximum of ten (10) Directors. The majority of the Directors are Executive Directors.

All Executive Directors shall be appointed by the General Meeting. Except where Carlyle nominates for appointment an Executive Director to the Board in accordance with its contractual right to do so under the Roll Over Agreement, Executive Directors shall only be appointed from a list of proposed candidates (it being understood that the number of candidates proposed shall always exceed the number of available mandates of Directors) by Next L.P. (the "Binding Nomination Right"). All Non-Executive Directors shall be independent.

Next L.P. shall only be entitled to exercise its Binding Nomination Right as long as it holds thirty per cent (30%), or more of the Ordinary Shares. The Binding Nomination Rights cannot be amended without the consent of Next L.P. In circumstances in which Next L.P. is entitled to exercise its Binding Nomination Right at a General Meeting, the Board shall request by written notice sent at least ten (10) days prior to the publication of the convening notice for the General Meeting that Next L.P. exercises its Binding Nomination Right within seven (7) days following receipt of that written notice. The Binding Nomination Right shall be exercised in writing.

The General Meeting shall appoint the Directors and determine their number, their remuneration and the term of their office. Directors cannot be appointed for a term of office of more than six (6) years but are eligible for re-appointment upon the expiry of their term of office. Directors may be removed at any time, with or without cause, by a resolution of the General Meeting. Annex I 16.1

If the office of a Director becomes vacant, the other Directors, acting by a simple majority, shall fill the vacancy on a provisional basis until a new Director is appointed by the next General Meeting. In case the vacancy to be filled is that of a Director who was appointed from the list of candidates proposed by Next L.P. in accordance with the Binding Nomination Right, the Directors must, within 72 hours of the vacancy and in any event before any other deliberation or vote, fill in the vacancy by appointing one of the remaining candidates nominated on the latest list of candidates proposed by Next L.P.

All powers not expressly reserved to the shareholders by the 1915 Law or the Articles fall within the competence of the Board, which has full power to carry out and approve all acts and operations consistent with the Company's corporate object. The Board may delegate special or limited powers to one or more agents for specific matters.

The Board shall meet at the request of the Chairman, a vice-chairman or any two (2) Directors. A Director may grant to another Director a power of attorney in order to be represented at any meeting of the Board.

The Board may only validly deliberate and act if (i) a majority of its members and (ii) the Chairman are present or represented. Board resolutions shall be validly adopted by a majority of the votes of the Directors present or represented. If this quorum is not reached a second Board meeting shall be convened with the same agenda and such reconvened Board meeting may validly deliberate and act if a majority of its members are present or represented.

Any Director may participate in any meeting of the Board by telephone or video conference, or by any other means of communication which allows all those taking part in the meeting to identify, hear and speak to each other. Participation by such means is deemed equivalent to participation in person at a duly convened and held Board meeting.

Board resolutions shall be recorded in minutes signed by the Chairman (or a Vice Chairman, as the case may be), by all the Directors present or represented at the Board meeting, or by the secretary (if any).

Circular resolutions signed by all the Directors shall be valid and binding as if passed at a duly convened and held Board meeting, and shall bear the date of the last signature.

Chairman

The Articles stipulate that the Board appoints a Chairman from among its members who shall be an Executive Director. The Chairman has, in the case of a tied vote at a meeting of the Board, a casting vote. The Chairman will preside at meetings of the Board.

In the absence of the Chairman or in circumstances in which the Chairman is conflicted and such conflict relates to the Warrant, the Warrant Instrument or Warrant Shares, the Executive Vice-Chairman will act as chairman of the meeting and in the event of a tied-vote has a casting vote. In circumstances in which the Chairman is conflicted other than by reason of the Warrant, the Warrant Instrument or Warrant Shares, the Non-Executive Vice Chairman will act as chairman and in the event of a tied-vote has a casting vote.

Conflicts of interest

The 1915 Law states that any director who has a personal interest in a transaction conflicting with that of the company in respect of which he or she is a director and which is submitted to the Board for approval must advise the Board of such conflict and cause a record of his statement to be included in the minutes of the relevant Board meeting at which such matter is discussed. In addition, he or she is prohibited from participating in the deliberations relating to, and from voting on, such matter at that Board meeting. A special report on the conflict must then be prepared by the Board and presented to the next General Meeting, before any other matter is put to the vote. These provisions of the 1915 Law are set out in the Articles.

Amendments to the rights of shareholders

Any amendments to the rights of shareholders requires an amendment to the Articles and are subject to the same quorum and majority requirements as for an extraordinary General Meeting (the requirements in respect of which are set out at sections 6 and 10 below). Any resolution to amend the Articles must be taken before a Luxembourg notary and such amendments must be published in accordance with Luxembourg law. The Articles do not provide for any specific conditions that are more stringent than is required by law.

6. General meetings

Luxembourg law distinguishes between ordinary General Meetings and extraordinary General Meetings ("Extraordinary General Meeting") of shareholders. Extraordinary General Meetings are convened to vote on any amendment of the Articles and certain other matters described below and are subject to the quorum and majority requirements described below. All other General Meetings are ordinary General Meetings, to be held at least once a year.

Ordinary General Meetings: at an ordinary General Meeting there is no quorum requirement and resolutions are adopted by a simple majority, irrespective of the number of shares represented.

Extraordinary General Meetings: an Extraordinary General Meeting convened for any of the following purposes must have a quorum of at least fifty per cent. (50%) of the issued share capital and resolutions are adopted by a two-thirds (2/3) majority, except for a resolution changing shareholder commitments or the nationality of the Company, which requires a unanimous vote by the shareholders and bondholders:

- a limitation or exclusion of preferential subscription rights;
- approving a legal merger or demerger;

- the liquidation of the Company;
- the changing of the nationality of the Company; or
- an amendment of the Articles (which includes an increase or decrease of the authorised or the issued share capital and the change of the corporate form).

Except in case of a merger, division or operations assimilated thereto pursuant to the 1915 Law, any change to the corporate form or the corporate object of the Company requires approval by the bondholders (in addition to the shareholders, as described above). Such meeting shall not validly deliberate unless at least one half of the securities outstanding are represented and the agenda indicates the proposed amendments. If the first of these conditions is not fulfilled, a second meeting may be convened, in accordance with the conditions laid down in the 1915 Law. At the second meeting, bondholders who are not present or represented shall be regarded as being present and as voting for the proposals of the Board. Certain requirements as set out in the 1915 Law must be complied with on pain of nullity.

At both meetings, resolutions shall be validly passed if they are passed by two thirds (2/3) of the votes cast. Votes cast shall not include votes attaching to bonds in respect of which the bondholder has not taken part in the vote or has abstained or has returned a blank or invalid vote.

If the above quorum is not reached, the Extraordinary General Meeting may be reconvened to a later date, subject to appropriate notification procedures with no quorum requirement.

General Meetings may be convened by the Board, the Chairman or the statutory auditors of the Company from time to time. A General Meeting must be called upon written request (which shall include an indication of the agenda for such meeting) made by a shareholder or shareholders holding, in aggregate, at least ten per cent. (10%) of the voting rights in the Company.

Each holder of Ordinary Shares in the capital of the Company shall be entitled to attend the General Meeting, to address such meeting and, to the extent applicable, to exercise his voting rights. Shareholders may vote by proxy or written voting forms. The Board must be notified in writing of a shareholder's intention to attend the meeting. Such notice must be received by the Board no later than on the date specified in the notice of the meeting. The Board may determine that the voting rights may be exercised by means of electronic communication.

Shareholders may only attend the General Meeting and participate in the voting in respect of shares which are registered in their name on the record date as specified in the notice of the meeting. The record date will be on the 14th day prior to the date of the meeting.

The notice of the meeting shall be circulated no later than on the 30th day, or in case of convening a second meeting due to lack of quorum in the first meeting on the 17th day, prior to the date of the meeting and shall state the items to be dealt with, the items to be discussed and which items are to be voted on, the place and time of the meeting, the procedure for participating at the meeting by written proxy-holder, the address of the website of the Company and, if applicable, the procedure for participating at the meeting and exercising one's right to vote by electronic means of communication. Notices must be published in (i) the Luxembourg official gazette (*Mémorial C*), (ii) in one Luxembourg newspaper and (iii) in such media which may reasonably be expected to be relied upon for the effective dissemination of information to the public throughout the EEA, and which are accessible rapidly and on a non-discriminatory basis.

Shareholders individually or jointly representing at least five per cent (5%) of the issued share capital have the right to request the Board to place items on the agenda of the General Meeting and submit proposals for items included in the agenda. Such request shall be received at least twenty-two (22) days before the relevant General Meeting.

7. Share capital increase

The issuance of shares in the Company requires an amendment to the Articles approved by an Extraordinary General Meeting, which may not validly deliberate unless at least half of the issued share capital is represented upon the first call and the agenda indicates the proposed amendments to the Articles. On first call, the General Meeting must be convened on at least thirty (30) days' notice. If the first of these conditions is not satisfied, a second meeting may be called by means of a notice published at least seventeen (17) days prior to the meeting in (i) the Luxembourg official gazette (*Mémorial C*), (ii) in one Luxembourg newspaper and (iii) in such media which may reasonably be expected to be relied upon for the effective dissemination of information to the public throughout the EEA . The second meeting will deliberate irrespective of the proportion of share capital represented. At both meetings, resolutions, in order to be adopted, must be approved by at least two-thirds (2/3) of the votes cast. Votes cast do not include votes attaching to shares with respect to which the shareholder has not taken part in the vote, has abstained or has returned a blank or invalid vote.

Shareholders may, within certain limits, grant the Board the power to issue new shares. The General Meeting has created an authorised share capital of twenty five million euro (€25,000,000) comprising two billion (2,000,000,000) Class B Shares which may be used by the Board, for an initial period of five (5) years from the date of publication of the resolutions approving the relevant amendment to the Articles, i.e. March 19, 2014 (such period being renewable by a decision of the General Meeting resolving with a majority of two-thirds (2/3) of the votes cast at such meeting provided that a majority of the share capital is represented at the meeting (and upon a second call of the meeting without a quorum)), to (i) increase the current share capital in whole or in part on one or more occasions by (a) a maximum amount of five million euro (€5,000,000) with or without the issue of shares (but if with the issue of shares by the issue of Ordinary Shares) against payment in cash or in kind or against an incorporation of share premium, account 115, distributable reserves or retained earnings and/or (b) a maximum amount of twenty million euro (€20,000,000) by the issue of Class B Shares (including but not limited to the issue of Class B Shares on the exercise of any warrants that may be issued by the Company from time to time) against payment in cash (such payment being equal to the aggregate nominal value of the Class B Shares to be issued); (ii) determine the place and date of the issue (or any successive issue) and the terms and conditions of the subscription for the Class B Shares and/or the Ordinary Shares, as the case may be; (iii) determine the allocation of the subscription price for the Class B Shares and/or the Ordinary Shares to the share capital, share premium and/or any other reserve account of the Company; (iv) limit and/or withdraw the preferential subscription rights of existing shareholders in case of an issuance of Class B Shares and/or the Ordinary Shares, as the case may be; and (v) record each share capital increase by way of a notarial deed and amend the share register to reflect the amendment accordingly.

Unless limited or cancelled by shareholders at an Extraordinary General Meeting, holders of the Ordinary Shares have under Luxembourg law and the Articles have a pro rata preferential right to subscribe for newly issued Ordinary Shares, except for (i) shares issued for consideration other than cash, (ii) shares issued to the employees of the Company and (iii) shares issued to persons exercising a previously granted right to subscribe for shares.

The Articles provide that statutory preferential subscription may be limited or cancelled by the Board of Directors in the event of an increase of the issued share capital by the issuance of Class B Shares or Ordinary Shares, as the case may be, decided by the Board within the limits of the authorised share capital.

As permitted under the 1915 Law, the Board is permitted under the Articles to restrict the operation of statutory preferential subscription rights in respect of an issuance of Class B Shares.

8. Information rights

Luxembourg law gives shareholders limited rights to inspect certain corporate records thirty (30) days prior to the date of the annual General Meeting at the Company's website or its registered address, including the parent company accounts with the list of directors and auditors, the combined accounts, the notes to the parent company accounts and to the combined accounts, a list of shareholders whose shares are not fully paid-up, the management reports and the auditor's reports.

The parent company accounts, the combined accounts, the auditor's reports and the management reports must be sent to the registered shareholders at the same time as the convening notice for the annual General Meeting. In addition, any shareholder is entitled to receive a copy of these documents free of charge upon request thirty (30) days prior to the date of the annual General Meeting and to inspect these documents at the registered office of the

Company. Under Luxembourg law, it is generally accepted that a shareholder has the right to receive responses to questions concerning items on the agenda of a General Meeting if such responses are necessary or useful for a shareholder to make an informed decision on the agenda item, unless such a response could be detrimental to the interests of the company. This determination is made by the Board.

9. Election and removal of Directors

Members of the Board are elected by simple majority of the represented shareholders at any General Meeting. Except in the event of the replacement of a member of the Board during his or her mandate, their respective terms will expire at the third annual General Meeting following the date of their appointment. Any Director may be removed with or without cause by a simple majority vote at any General Meeting.

10. Amendment of the Articles

Annex I
R 21.2.4

Luxembourg law requires an Extraordinary General Meeting to vote on any amendment of the Articles, including any amendments to change the rights of the holders of Ordinary Shares or Class B Shares of the Company. The Company's Articles do not contain provisions providing for conditions to amend the Articles, and the rights of the holders of Ordinary Shares that are more stringent than the conditions required by law except for any change to the rights attaching to the Class B Shares and to the Binding Nomination Right which require the prior written consent of Next L.P. for so long as Next L.P. holds at least thirty per cent. (30%) of the Ordinary Shares of the Company. The agenda of the Extraordinary General Meeting must indicate the proposed amendments to the Articles.

An Extraordinary General Meeting convened for the purpose of amending the Articles must have a quorum of at least 50% of the issued capital of the Company. If the quorum is not reached, the Extraordinary General Meeting may be reconvened with no quorum being required. Irrespective of whether the proposed amendment is subject to a vote at the first or a subsequent Extraordinary General Meeting, the amendment is subject to the approval of at least two-thirds of the votes cast at the Extraordinary General Meeting, except as described below.

Any resolutions to amend the Articles must be taken before a Luxembourg notary and must be published in accordance with Luxembourg law.

11. Annual accounts

Each year the Board must prepare parent company financial statements for the Company, consisting of an inventory of its assets and liabilities together with a statement of financial position and a profit and loss account. The Board must also prepare annually consolidated financial statements of the Company. The Board must also prepare annual management reports on each of the standalone audited financial statements and the consolidated financial statements. For each of these sets of accounts a report must be issued by the independent auditors.

The annual financial statements, the consolidated financial statements, the management report and the auditor's reports must be available for inspection by shareholders on the Company's website or at the registered office of the Company in Luxembourg at least thirty (30) days prior to the date of the annual General Meeting.

The financial statements and the consolidated financial statements, after approval by the annual General Meeting, are filed with the Luxembourg Register of Commerce and Companies.

12. Disclosure rules

Annex I
R 21.2.7

Home member state for purposes of the EU Transparency Directive

Luxembourg is the home Member State of the Company for the purposes of the EU Transparency Directive (Directive 2004/109/EC of the European Parliament and of the Council of December 15, 2004). As a result, the Company will be subject to financial and other reporting obligations under Luxembourg law dated January 11, 2008 on transparency requirements regarding information about issuers whose securities are admitted to trading on a regulated market (the "Transparency Law").

Because the Existing Shares are, and the New Shares will be, admitted to trading on a regulated market operating in the Netherlands, the Company is also be subject to a disclosure obligation relating to inside information under the Financial Supervision Act (*Wet op het financieel toezicht*), which implements the EU Transparency Directive in the Netherlands.

Disclosure of information

The Company is required to publish its annual accounts within four months after the end of each financial year and its half-yearly figures within two months after the end of the first six months of each financial year. In addition, the Company is obliged to publish interim management statements (*inter alia* containing an overview of important transactions and their financial consequences) in the period starting ten weeks after the beginning and six weeks before the end of the first and second half of each financial year. This may change depending on how Luxembourg will transpose the EU Transparency Directive amending Directive (2013/50/EU).

The Company must also make public certain inside information by means of a press release and on its website. Pursuant to the Financial Supervision Act and the Transparency Law, inside information is knowledge of concrete information directly or indirectly relating to the issuer or the trade in its securities which has not been made public and publication of which could significantly affect the trading price of the securities. Both the Financial Supervision Act and the Transparency Law contain specific rules intended to prevent insider trading. Pursuant to the Luxembourg law of May 9, 2006 (*relative aux abus de marché*), the Company has adopted a code of business conduct in respect of the reporting and regulation of transactions in the Company's securities.

Disclosure of significant ownership in the Company's shares

Holders of the Company's Ordinary Shares and derivatives or other financial instruments linked to the Company's Ordinary Shares may be subject to notification obligations pursuant to the Transparency Law. The following description summarises these obligations. The Company's shareholders are advised to consult with their own legal advisers to determine whether the notification obligations apply to them.

Without prejudice to the Transparency Law, any shareholder (or any shareholders acting in concert as defined in accordance with article 3 of the Transparency Law) holding Ordinary Shares shall notify the Company of the proportion of voting rights of the Company he/she/it/they hold(s) where that proportion reaches/exceeds/falls below 1%, 2%, 3% and 4%, within seven (7) days of such event (the "Threshold Event"). The voting rights of the shareholders who do not comply with this notification obligation within the seven (7) day period will be suspended at the General Meeting immediately following the Threshold Event or the breach (as the case may be) as set out in the Articles.

The Transparency Law provides that the acquisition or disposal of a shareholding in the Company, and if following the acquisition or disposal the proportion of voting rights held by the relevant person reaches, exceeds or falls below one of the thresholds of 5%, 10%, 15%, 20%, 25%, 33 1/3%, 50% or 66 2/3% of the total voting rights existing when the situation giving rise to a declaration occurs, notice to the Company, the CSSF and the Luxembourg Stock Exchange (acting as officially appointed mechanism in charge of the central storage of regulated information for public disclosure) will be required. A person must also notify the Company, the CSSF and the LSE of the proportion of his or her voting rights if that proportion reaches, exceeds or falls below the abovementioned thresholds as a result of events changing the breakdown of voting rights.

For the purposes of calculating the percentage of a shareholder's voting rights in the Company, the following will be taken into account:

- voting rights held by a third party with whom that person or entity has concluded an agreement and which obliges them to adopt, by concerted exercise of the voting rights they hold, a lasting common policy towards the Company;

- voting rights held by a third party under an agreement concluded with that person or entity providing for the temporary transfer for consideration of the voting rights in question;
- voting rights attaching to shares pledged as collateral with that person or entity, provided the person or entity controls the voting rights and declares its intention to exercise them;
- voting rights attaching to shares in which a person or entity holds an interest for the duration of the life of such person or entity;
- voting rights which are held or may be exercised within the meaning of the four foregoing points by an undertaking controlled by that person or entity;
- voting rights attaching to shares deposited with that person or entity which the person or entity may exercise at its discretion in the absence of specific instructions from the shareholders;
- voting rights held by a third party in its own name on behalf of that person or entity; and
- voting rights which that person or entity may exercise as a proxy where the person or entity may exercise the voting rights in its sole discretion.

Disclosure of insider transactions

Members of the Board and other executives fulfilling senior management responsibilities ("Persons Discharging Senior Managerial Responsibilities", as defined below) within the Company and persons closely associated with them must disclose to the CSSF and to the Company all transactions relating to shares of the Company or derivatives or other financial instruments linked to shares of the Company conducted by them or for their account. "Persons Discharging Senior Managerial Responsibilities" within the Company are the members of the Board of Directors and executives who, while occupying a high level management position, are not members of the above corporate bodies, but who have regular access to non-public material information relating, directly or indirectly, to the Company and have the authority to make management decisions about the future development of the Company and its business strategy.

13. Mandatory bids and compulsory acquisition rules relating to Ordinary Shares

Annex III
R 4.9

European Union takeover regulations

The European Directive on Takeover Bids (2004/25/EC) (the "Takeover Directive") has been implemented in the Luxembourg law of May 19, 2006 on takeover bids (the "Luxembourg Takeover Law") and it has been implemented in Dutch legislation in the Financial Supervision Act and the Public Takeover Bids Decree (*Besluit openbare biedingen Wft*, the "Dutch Takeover Decree").

The relevant conflict of laws provisions of the Takeover Directive, implemented both in the Luxembourg Takeover Law and the Dutch Takeover Decree, do explicitly state that if the offeree company's shares are not admitted to trading on a regulated market in the EU Member State in which the company has its registered office, and if the offeree company's shares are admitted to trading on regulated markets in another EU Member State, the authority competent to supervise the bid for all the remaining shares in the company shall be that of the EU Member State of the market on which the shares are admitted to trading, i.e., in the present case the competent authority in The Netherlands, the AFM.

In respect of governing law, matters relating to the consideration offered in the case of a bid for all the remaining shares in the company, in particular the price, and matters relating to the bid procedure, in particular the information on the offeror's decision to make a bid, the contents of the offer document and the disclosure of the bid, shall be dealt with in accordance with the rules of the Member State of the competent authority. However, in matters relating to, *inter alia*, the information to be provided to the employees of the offeree company and in matters relating to company law, in particular the percentage of voting rights which confer control and any derogation from the obligation to launch a bid for all the remaining shares in the company, the applicable rules and the competent authority shall be those of the Member State in which the offeree company has its registered office, i.e., in the present case the competent authority in Luxembourg, the CSSF.

Mandatory takeover offers

The Luxembourg Takeover Law provides that if a person, acting alone or in concert, acquires securities of the Company which, when added to any existing holdings of the Company's securities, give such person voting rights representing 33 1/3% of all of the voting rights attached to the issued shares in the Company, this person is obliged to make an offer for the remaining shares in the Company.

Squeeze out procedures

The Luxembourg Takeover Law provides that a holder, alone or with persons acting in concert with it, directly or indirectly, of at least ninety-five per cent. (95%) of the Company's share capital and voting rights (a "majority shareholder") may, under certain conditions, require all the holders of the remaining securities to sell to it their securities. A majority shareholder that decides to exercise its mandatory squeeze-out right must ensure that it can fulfil in full any cash consideration.

Sell-out rights

The Luxembourg Takeover Law provides that where, following an offer made to all holders of securities of a company, the offeror holds alone or together with persons acting in concert securities representing ninety per cent. (90%) or more of the voting rights in the company a holder of remaining securities may require the offeror to buy such holder's securities from the holder at a fair price.Where a company has issued more than one class of securities, the right of sell-out may only be exercised in the class in which the applicable threshold has been reached. The right of sell-out must be exercised within three months following the date that is allowed for acceptance of the bid.

Luxembourg squeeze-out and sell-out Law

In the absence of a takeover bid pursuant to the Luxembourg Takeover Law, the Luxembourg law of July 21, 2012 on squeeze-out and sell-out of securities (the "Squeeze-out and Sell-out Law") might be applicable. A majority shareholder within the meaning of the Squeeze-out an Sell-out Law is any legal or natural person holding alone or together with persons acting in concert shares in the Company representing ninety-five per cent. (95%) or more of the share capital and voting rights in the Company. Under the Squeeze-out and Sell-out Law, any majority shareholder of the Company may require any minority shareholder to sell his/her securities in the company to the majority shareholder (squeeze out). Likewise, any minority shareholder of the Company may require the majority shareholder to buy the minority shareholder(s) securities (sell-out).

Provisions preventing a Change of Control

The Articles do not contain any provisions that would have the effect of delaying, deferring or preventing a change in control of the Company and that would operate only with respect to a merger, acquisition or corporate restructuring involving the Company or any of its subsidiaries.

The Warrant Instrument grants to the Warrant Holder a right to subscribe, by exercising the Warrant, for a number of Class B Shares. Such subscription may result in the Warrant Holder obtaining voting control of the Company. Please refer to section 4 above in relation to the terms and operation of the Warrant Instrument.

Annex I
R 25.1

14. Insider dealing and market manipulation

The rules on preventing insider dealing and market abuse set out in the Financial Supervision Act and Luxembourg law of May 9, 2006 (the "Luxembourg Market Abuse Law") are applicable to the Company, the members of the Board, other insiders and persons performing or conducting transactions in the securities of the Company. The Financial Supervision Act and the Luxembourg Market Abuse Law are subject to certain geographical limitations, *i.e.* certain Dutch law provisions may only apply if a transaction is entered into in or from the Netherlands and certain Luxembourg law provisions may only apply if a transaction is entered into in or from Luxembourg. These geographical and other limitations are not further explained in this section. Furthermore, even if certain Dutch law provisions and Luxembourg law provisions may not apply, comparable foreign law provisions may apply.

Certain important market abuse rules set out in the Financial Supervision Act and the Luxembourg Market Abuse Law that are relevant for investors are described hereunder. The Company's shareholders and investors are advised to consult with their own legal advisers in relation to these rules.

The Company is in principle required to make inside information public without any delay. Pursuant to the Financial Supervision Act and the Luxembourg Market Abuse Law, inside information is knowledge of concrete information directly or indirectly relating to the issuer or the trade in its securities which has not yet been made public and publication of which could significantly affect the trading price of the securities. The Company must provide the CSSF and the AFM with this inside information at the time of publication. Furthermore, the Company must without delay publish the inside information on its website and keep it available on the Company's website for at least one year. It is prohibited for any person to make use of inside information within or from the Netherlands, Luxembourg or a non-EU Member State by conducting or effecting a transaction in the shares. In addition, it is prohibited for any person to pass on inside information relating to the Company or the trade in its securities to a third party or to recommend or induce, on the basis of inside information, any person to conduct a transaction in securities of the Company. Furthermore, it is prohibited for any person to manipulate the market, for instance by conducting transactions which could lead to an incorrect or misleading signal of the supply of, the demand for or the price of the securities.

Market abuse qualifies as a felony and an economic crime under Dutch and Luxembourg law. Non-compliance with the Dutch and Luxembourg market abuse rules set out in this section could constitute an economic offense and/or a crime and could lead to the imposement of administrative fines by the AFM and/or the CSSF. The public prosecutor could press criminal charges resulting in fines or imprisonment.

15. Subsidiary undertakings

Annex I
R 7.1
R 7.2

The Company is the holding company of the Group.

The Significant subsidiary undertakings and associated undertakings of the Company are as follows:

Name	Country of Incorporation	Proportion of ownership interest
Altice International S.à. r.l. (formerly Altice VII S.à r.l.)	Luxembourg	100%
Altice Finco S.A.	Luxembourg	100% owned by Altice International S.à r.l.
Numericable Group S.A.	France	40% owned by Altice France S.A. (upon completion of the Roll Over, Altice France S.A. will own 74,59% of Numericable Group S.A.)
Altice Hispaniola, S.A.S. (resulting from the merger between Altice Dominican Republic II, S.A.S. and ODO)	Dominican Republic	100% owned by Altice Bahamas S.à r.l.

MCS S.A.S.	France	100% owned by Sport Lux S.à r.l.
Sportv S.A.	Luxembourg	100% owned by MCS
Ypso Holding S.à r.l.	Luxembourg	100% owned by Numericable Group SA

16. Major Shareholders

Annex I
R 18.3
Annex III
R. 3.3

The Company is a subsidiary of Next L.P. Next L.P. is founded and controlled by Patrick Drahi.

Its purpose is to identify opportunities and make acquisitions, including in the telecommunications industry, and to create value through operational excellence. The Company's Significant Shareholder has developed a unique expertise in the telecommunications industry since 1994. The Company's Signficiant Shareholder consolidated the cable sector in France, and also developed a strong presence in Israel, Portugal, Belgium, Luxembourg, Switzerland and the Caribbean, and has significant experience in investing capital in, structuring, financing and managing investments in and advising cable operators worldwide.

As at July 21, 2014 (the last practicable date prior to the publication of this Prospectus) and insofar as is known to the Company, the following persons are, directly or indirectly, interested in 5% or more of the issued share capital of the Company, and will have the following interests immediately after Admission:

- Next L.P. holding 140,895,705 Ordinary Shares;
- Carlyle holding 16,617,409 Ordinary Shares;
- The Capital Group Companies, Inc. holding 12,449,641 Ordinary Shares.

17. Directors

As at the date of this Prospectus, the Board is comprised of six (6) members. Patrick Drahi was elected Chairman of the Board on January 13, 2014. It is intended that, in the third quarter of 2014, one more Non-Executive Director will be appointed resulting in seven (7) Board members. Three (3) of the seven members of the fully constituted Board will be independent and the remaining four members (including Patrick Drahi) are non-independent. The Articles provide that the Board of Directors must be composed of a minimum of three (3) members and a maximum of ten (10). The majority of the Directors shall at all times be Executive Directors.

The Board appointed an executive vice-chairman, who is an Executive Director, and a non-executive vice-chairman, who is an independent Non-Executive Directors. In the absence of the Chairman or in circumstances in which the Chairman is conflicted and such conflict relates to the Warrant, the Warrant Instrument or Warrant Shares, the Executive Vice-Chairman will act as chairman of the meeting and in the event of a tied-vote has a casting vote. In circumstances in which the Chairman is conflicted other than by reason of the Warrant, the Warrant Instrument or Warrant Shares, the Non-Executive Vice Chairman will act as chairman and in the event of a tied-vote has a casting vote. For any meeting of the Board, a Director may designate another Director to represent him or her and vote in his or her name. The agenda of the meeting of the Board is agreed by the Chairman of the Board after consultation with the CEO.

Other directorships and partnerships

The details of those companies and partnerships outside the Group of which the Directors are currently directors or partners, or have been directors or partners at any time during the previous five (5) years prior to the date of this Prospectus, are as follows:

Name	Position	Company/Partnership	Position still held (Y/N)
Dexter Goei	Director	F300	Y
	Director	Hubgrade	Y
	Director	Knewon	Y
	Director	ONI Maderia	Y
	Director	ONI Açores	Y
	Director	Wananchi	Y
	Director	Titan Consulting	Y
Jérémie Bonnin	Director	Altice Participations GP	Y

Confirmations

As at the date of this Prospectus, no Director has during the last five (5) years:

(A) had any convictions in relation to fraudulent offences;

(B) except as indicated in the paragraph above, been associated with any bankruptcies, receiverships or liquidations acting in the capacity of any of the positions set out against the name of the Director in the table above;

(C) been subject to any official public incrimination and/or sanctions by any statutory or regulatory authorities including, where relevant, designated professional bodies; or

(D) been disqualified by a court from acting as a member of the administrative management or supervisory bodies of an issuer or from acting in the management or conduct of the affairs of any issuer.

Interests of Directors in Ordinary Shares

Annex I
R.14.2
R 17.3

Interests in shares in the Company

On and following Admission, assuming that no further Ordinary Shares have been issued after July 21, 2014 (the latest practicable date prior to the publication of this Prospectus) certain of the Directors will have the following beneficial interests in Ordinary Shares:

Director	Shareholding	Percentage of issued share capital of the Company
Patrick Drahi (through Next)	140,895,705	56.87 %
Dexter Goei (through Penta)	3,103,983	1.25 %
Dennis Okhuijsen (through Penta)	1,507,797	0.61 %
Jérémie Bonnin (through Penta)	983,823	0.40 %

Transactions with Directors

None of the Directors has or has had any interest in any transaction which is or was unusual in its nature of conditions or significant to the business which was effected by any member of the Group during the current or immediately preceding financial year, or which was effected during an earlier financial year and remains in any respect outstanding or unperformed.

None of the Directors has or had a beneficial interest in any contract to which any member of the Group was a party during the current or immediately preceding financial year.

There are no outstanding loans or guarantees granted or provided by any member of the Group for the benefit of any of the Directors.

Executive Directors' Letters of Appointment

Annex I
R. 15
R. 15.1
R 16.2

The particulars of the appointments of the Executive Directors (and termination provisions) are set out in appointment agreements, brief details of which are set out below.

Name	Age	Position	Date of Appointment	Independent/ Non-Independent	Term (Years)
Patrick Drahi	50	Executive Chairman	6 January 2014	Non-Independent	5
Dexter Goei	42	Chief Executive Officer	6 January 2014	Non-Independent	5
Dennis Okhuijsen	44	Chief Financial Officer	6 January 2014	Non-Independent	4
Jérémie Bonnin	39	General Secretary	3 January 2014	Non-Independent	4

The aggregate fixed basic remuneration payable by the Company to the Executive Directors of the Company (excluding the Chairman) for services rendered to the Group is €1,100,000 per annum (excluding variable remuneration). The Executive Directors (excluding the Chairman) are also entitled to a discretionary aggregate bonus of €1,700,000 per annum.

The Executive Directors appointment can be terminated either by the Company in accordance with the Articles or Luxembourg law or the relevant Executive Director on six months' prior written notice. There are no contractual severance arrangements in place.

Each of the Executive Directors has the benefit of indemnity insurance maintained by the Group on their behalf, indemnifying the Executive Director, to the extent permitted by law, against liabilities they incur in the course of their appointment as a Director of the Company and in defending any proceedings whether civil or criminal in which judgement is given in their favour.

Non-Executive Directors' Letters of Appointment and Fees

The Company has two independent Non-Executive Directors on the Board. Each of the Non-Executive Directors appointed has entered into a letter of appointment with the Company.

Each appointment is for an initial period of three years that expires on the date of the Company's third annual General Meeting following admission of the ordinary shares of the Company on Euronext Amsterdam on January 31, 2014 and will be automatically terminated upon (i) expiry of the fixed period of three years, (ii) resignation, (iii) retirement pursuant to the Articles or (iv) removal from office by virtue of powers vested in the Shareholders under the Articles or Luxembourg law.

Each of the Non-Executive Directors is entitled to receive a fixed annual fee of €60,000 from the Company. In addition, each of the Non-Executive Directors appointed as a member of the Audit Committee is entitled to receive an additional fixed annual fee of €20,000 in respect of such membership and each of the Non-Executive Directors appointed as a member of the Remuneration Committee is entitled to receive a fixed annual fee of €5,000 in respect of such membership, from the Company.

The Company shall reimburse each of the Non-Executive Directors all reasonable expenses properly incurred in the performance of their duties as a Non-Executive Director of the Company.

Each of the Non-Executive Directors has the benefit of indemnity insurance maintained by the Company on their behalf indemnifying them against liabilities they incur to third parties as a result of their office as a Non-Executive Director.

18. Significant change

Other than as disclosed in this Prospectus (see, in particular, Part IX starting on page 110 of this Prospectus (*Pro Forma Financial Information of the Group Unaudited Pro Forma Consolidated Statement of Income of the Group for the Year ended December 31, 2013*), no significant change has occurred in the financial or trading position of the group since December 31, 2013.

19. Litigation and disputes

Annex I
R 20.8

Other than as disclosed in this Prospectus (see Part XVI starting on page 336 of this Prospectus (*Description of Group's Business—Legal Proceedings*), there are no, and have not been with reference to the previous twelve (12) months any, governmental, legal or arbitration proceedings against or affecting the Company, nor is the Company aware of any pending or threatened proceedings of such kind, which may have or have had a significant effect on the financial position or profitability of the Company.

20. Material contracts relating to the Admission

Annex I
R 22

On April 5, 2014, the Company and Altice France entered into an agreement with Carlyle and Cinven, according to which the Company and Altice France shall acquire the entirety of shares of common stock of Numericable Group held by Carlyle and Cinven (representing stakes of 21.32% from Carlyle and 13.27% from Cinven). The Board approved the entry by the Company into the agreement and the Roll Over on April 3, 2014 and April 5, 2014.

The aforementioned agreement provides that (i) Altice France will purchase approximately 14% of the shares of common stock of Numericable Group from Carlyle and Cinven (7.50% from Carlyle and 6.50% from Cinven) at a price of €30.50 per share, payment being at the earliest of (a) January 31, 2015 and (b) 6 months after the acquisition by Numericable Group of 100% of the capital of SFR (other than the 10 shares in SFR not held by Vivendi S.A.) and (ii) Carlyle and Cinven will contribute all of their remaining shares in Numericable Group (representing approximately 20.6% of the Numericable Group's shares of common stock) to the Company, in exchange for issuance of 24,751,873 ordinary shares of the Company .

Pursuant to the Roll Over Agreement, one Contributed Share will give right to 0.97 ordinary share of the Company. As a consideration for the Contribution, the Company will issue 24,751,873 ordinary shares of the Company. As a result of the Contribution, Carlyle and Cinven will hold respectively 6,71% and 3,28% of the share capital of the Company.

Upon completion of the Roll Over and on the Completion Date, the Company will contribute the Contributed Shares to Altice France against shares of common stock of Altice France. As a result of the Contribution to Altice France, Altice France will hold approximately 74.6% of the shares of common stock of Numericable Group.

On May 27, 2014, a waiver was granted by the French *Autorité des Marchés Financiers* to Altice France from the obligation to launch a tender offer on all of the Numericable Group's shares of common stock in relation to the Roll Over.

The completion of the Roll Over terminates the shareholders' agreement entered into between Altice France, Carlyle and Cinven, in place since the initial public offering of Numericable Group on the Euronext Paris market of NYSE Euronext in November 2013.

Pursuant to the Roll Over Agreement, Carlyle may, at its own discretion, nominate for appointment by the General Meeting an Executive Director to the Company's Board as long as Carlyle continues to hold more than 5% of the share capital and voting rights of the Company.

The New Shares are subject to the Lock-Up (please refer to element E.5 of the summary under Part I on page 21 for more details). The Lock-Up will only apply as from the date on which the Company implements its first share capital increase as from June 22, 2014 and for which the underwriting banks impose a lock-up on the Shares of the Company in that respect.

21. Related Party Transactions

Annex I
R 19

During the year ended December 31, 2011, 2012 and 2013 we incurred an aggregate of €3.6 million, €6.2 million and €0.6 million in management fees to related parties. These fees are primarily related to consulting services provided on mergers and acquisitions and negotiations with vendors and banks. In addition, we pay a fee to broadcast the news channel i-24 over our networks. I-24 is majority-held by our controlling shareholder, Next L.P. Also, except as disclosed in the notes to the historical consolidated financial statements of the Company included in the Prospectus, we did not have any material transactions with related parties during 2011, 2012 and 2013.

The Group has entered into certain arrangements with Numericable, including a services agreement with respect to our operations in Belgium and Luxembourg, trade mark license agreements for use of the "Numericable" brand in Belgium and Luxembourg and the French Overseas Territories and the purchase of cable modems and set-top boxes. Additionally, except as disclosed in note 31 to the historical consolidated financial statements, the Group did not have any material transactions with related parties during the years ended December 31, 2013 and 2012.

22. Significant new factor, material mistake or inaccuracy

If a significant new factor, material mistake or inaccuracy relating to the information included in this Prospectus which is capable of affecting the assessment of the New Shares arises or is noted on or before Admission of the New Shares, a supplement to the Prospectus will be published in accordance with article 13 of the Prospectus Law. Any supplement to the Prospectus will be subject to approval by the CSSF.

23. Consents

Annex III
R 10.3

Deloitte Audit S.à r.l. has given and not withdrawn its written consent to the inclusion in this Prospectus of the Report (reproduced in Part VI of the Prospectus "*Details of the issuance, listing and admission to trading*"), its accountants' reports as included in Part XXV of this Prospectus and its report concerning the pro forma financial information as included in Part XXV of this Prospectus and references thereto in the form and context in which they appear and has authorised the contents of its reports for the purposes of item 5.5.3R(2)(f) of the Prospectus Rules.

For the purposes of article 14 2(b) of the Prospectus Directive, the Prospectus will be available in printed form and available free of charge as of the date of approval of this Prospectus by the CSSF at the registered office of the Company at 3, boulevard Royal, L-2449 Luxembourg, Grand Duchy of Luxembourg. In addition the Prospectus will be published in electronic form and available on the Company's website at https://www.altice.net,.

24. Business year

The business year for the Company begins on the first day of January and ends on the last day of December of each year. The first accounting year began on January 3, 2014 and shall end on December 31, 2014.

25. Financial statements

The consolidated financial statements of the Company will be published on an annual basis. These statements will be audited by the Company's auditors.

26. Auditors

Deloitte Audit S.à r.l., a private limited liability company (*société à responsabilité limitée*), having its registered office at 560, rue de Neudorf, L-2220 Luxembourg, registered with the Luxembourg Trade and Companies Register under number B 67.895 and who is a member of the *Institut des Réviseurs d'Entreprises* Luxembourg.

Annex I
R 2.1
Annex I
R23.1
Annex III
R 10.3

PART XXIII
GLOSSARY

Term	Definition
“3G”	The third generation of mobile communications standards, referred to in the industry as IMT-2000, capable of data speeds exceeding the 14.4 Kbps of GSM technology.
“4G”	The fourth generation of mobile communications standards, referred to the industry as IMT-Advanced with a nominal data rate of 100 Mbit/s while the client physically moves at high speeds relative to the station, and 1 Gbit/s while client and station are in relatively fixed positions. Expected to provide a comprehensive and secure all-IP based mobile broadband solution to laptop computer wireless modems, smartphones, and other mobile devices. Facilities such as ultra-broadband Internet Internet access, IP telephony, gaming services, and streamed multimedia may be provided to users, which when fully implemented is expected to allow for higher data speeds than achievable with 3G and additional network features and capabilities.
“ADSL”	Asymmetrical DSL; an Internet access technology that allows voice and high-speed data to be sent simultaneously over local copper telephone line.
“ARPU”	Average Revenue Per User; ARPU is an average monthly measure that we use to evaluate how effectively we are realising revenues from subscribers. ARPU is calculated by dividing the revenue (for the services provided, in each case including the proportional allocation of the bundling discount) for the respective period by the average number of RGUs for that period and further by the number of months in the period. The average number of RGUs is calculated as the number of RGUs on the first day in the respective period plus the number of RGUs on the last day of the respective period, divided by two. This definition may be different for other companies, including SFR.
“bandwidth”	The width of a communications channel; in other words, the difference between the highest and lowest frequencies available for network signals. Bandwidth also refers to the capacity to move information.
“broadband Internet”	Any circuit that can transfer data significantly faster than a dial-up phone line.
“churn”	The number of RGUs for a given service disconnected (either at the customer’s request or due to termination of the subscription by us) during the period divided by the number of average RGUs for such service for such period; statistics do not include customers excluding transfers between our services (other than a transfer between our cable services and our mobile services).
“CPE”	Customer premise equipment, which typically comprises a modem or set-top box and associated cabling and other fittings such as an NIU in order to deliver service to a subscriber.
“DSL”	Digital Subscriber Line; DSL is a technology that provides high-speed Internet access over traditional telephone lines.
“DTT”	Digital terrestrial television.
“FTTx”	Fiber optic infrastructure
“HD”	High definition.
“HFC”	Hybrid fiber coaxial.
“HSPA”	High Speed Packet Access, a type of UMTS3G network that supports both mobile communications technology that provides enhanced download and upload speeds.
“IMS”	IP Multimedia Subsystem.
“Internet”	A collection of interconnected networks spanning the entire world, including university, corporate, government and research networks. These networks all use the IP (Internet Protocol) communications protocol.
“IP”	Internet Protocol.
“IPTV”	Internet Protocol television

“IRU”	Indefeasible Right of Use, the effective temporary ownership of a portion of the capacity of an international cable. IRUs are specified in terms of a certain number of channels of a given bandwidth. IRU is granted by the company or consortium of companies that built the (usually optical fiber) cable.
“ISP”	Internet Service Provider.
“IT”	Information technology, a general term referring to the use of various software and hardware components when used in a business.
“local loop”	The network element used to connect a subscriber to the nearest switch or concentrator, commonly referred to as the “last mile” because it is the part of the network that is connected directly to the subscriber; alternatively the HFC access network.
“LTE”	Long term evolution technology being a standard in mobile network technology.
“M2M”	Machine-to-machine
“MHz”	Megahertz; a unit of frequency equal to one million Hertz.
“Mbps”	Megabits per second; each megabit is one million bits.
“multiple-play”	The bundling of different telecommunications services, e.g. digital cable television, broadband Internet and fixed telephony services, by one provider.
“MVNO”	Mobile virtual network operator. Refers to a company that provides mobile services but does not have its own licensed frequency allocation of radio spectrum, nor necessarily all of the infrastructure required to provide mobile telephony services.
“network”	An interconnected collection of components which would, in a telecommunications network, consist of switches connected to each other and to customer equipment by real or virtual links. Transmission links may be based on fiber optic or metallic cable or point to point radio connections.
“PVR”	Personal video recording
“RGU”	Revenue Generating Unit. RGUs relate to sources of revenue, which may not always be the same as customer relationships. For example, one person may subscribe for two different services, thereby accounting for only one subscriber, but two RGUs. RGUs for pay television and broadband Internet infrastructure access are counted on a per source service basis and RGUs for fixed-line telephony are counted on a per line basis. Mobile RGUs is equal to the net number of lines or SIM cards that have been activated on our mobile network.
“triple-play”	Where a customer has subscribed to a combination of three products, digital cable television, broadband Internet and fixed telephony services, from us.
“UMTS”	Universal Mobile Telecommunications Service, a 3G mobile networking standard commonly used to upgrade GSM networks to 3G standards.
“VoD”	Video on demand; a service which provides subscribers with enhanced playback functionality and gives subscribers access to a broad array of on demand programming, including movies, live events, local drama, music videos, children programming and adult programming.
“VoIP”	Voice over Internet Protocol; a telephone service via Internet, or via TCP/IP protocol, which can be accessed using a computer, a sound card, adequate software and a modem.
“VPN”	Virtual private network, a business service enabling users to obtain remote access to network functionality.
“VDSL”	Very high speed DSL. A high speed variant of ADSL.

PART XXIV
DEFINITIONS

Unless otherwise stated or the context otherwise requires, (i) the terms "Group", "we", "us" and "our" as used in this Prospectus refer to the Company and its subsidiaries (including the Numericable Group and, following the Transactions, these terms will also include SFR and its subsidiaries and SIG 50); (ii) the terms "Numericable Group" and "Numericable" as used in this Prospectus refer to Numericable Group and its subsidiaries (without giving effect to the Transactions) and (iii) the term "Combined France Group" refers to Numericable Group and its subsidiaries after giving effect to the Transactions including SFR and its subsidiaries and SIG 50.

Definitions of certain terms and certain financial and operating data can be found below. For explanations or definitions of certain technical terms relating to our business as used herein, see Part XXIII of this Prospectus on page 556 of this Prospectus ("Glossary").

"1915 Law" refers to the Luxembourg law of August 10, 1915 on commercial companies, as amended.

"2012 Notes" collectively refers to the 2012 Senior Secured Notes and the 2012 Senior Notes.

"2012 Revolving Credit Facility" refers to the revolving facility agreement, dated November 27, 2012, as amended and restated on December 12, 2012, as further amended, restated, supplemented or otherwise modified from time to time among, *inter alios,* Altice Financing, as borrower, the lenders from time to time party thereto, Citibank International PLC as facility agent and Citibank, N.A., London Branch as security agent.

"2012 Senior Notes" refers to the $425 million aggregate principal amount of 97/8% senior notes due 2020 issued by Altice Finco under the 2012 Senior Notes Indenture.

"2012 Senior Notes Indenture" refers to the indenture dated as of December 12, 2012, as amended, among, inter alios, Altice Finco, as issuer, the guarantors party thereto and the trustee and the security agent party thereto, governing the 2012 Senior Notes.

"2012 Senior Notes Proceeds Loan" refers to the proceeds loan agreement dated the 2012 Transaction Completion Date between Altice Finco and Altice Financing pursuant to which the proceeds of the 2012 Senior Notes were on- lent by Altice Finco to Altice Financing.

"2012 Senior Secured Notes" collectively refers to the €210 million aggregate principal amount of 8% senior secured notes due 2019 and the $460 million aggregate principal amount of 77/8% senior secured notes due 2019 issued by Altice Financing under the 2012 Senior Secured Notes Indenture.

"2012 Senior Secured Notes Indenture" refers to the indenture dated as of December 12, 2012, among, inter alios, Altice Financing, as issuer, the guarantors party thereto and the trustee and the security agent party thereto, governing the 2012 Senior Secured Notes.

"2012 Transaction" collectively refers to the Take Private Transaction, the refinancing of certain indebtedness of Cool Holding and HOT, the entering into of the 2012 Revolving Credit Facility Agreement, the issuing of the HOT Refinancing Notes, the Acquisition Note and the Cool Proceeds Note, the making of the 2012 Senior Notes Proceeds Loan and the offering and sale of the 2012 Notes.

"2012 Transaction Completion Date" refers to December 27, 2012 and is the date on which the 2012 Transaction completed.

"2013 Coditel Acquisition" refers to the acquisition by Altice International of all remaining shares in Coditel Holding from certain minority shareholders which was consummated in November 2013.

"2013 December Transactions" refers to the acquisition of ODO which closed on April 9, 2014, the acquisition of Tricom which closed on March 12, 2014, and the related issuance of the 2013 Dollar Senior Notes, 2013 Dollar Senior Secured Notes, and 2013 Euro Senior Secured Notes.

"2013 Dollar Senior Notes Indenture" refers to the indenture governing the 2013 Dollar Senior Notes.

"2013 Dollar Senior Notes Proceeds Loan" refers to the proceeds loan agreement between Altice Finco and Altice Financing pursuant to which the proceeds of the 2013 Dollar Senior Notes were on-lent by Altice Finco to Altice Financing.

"2013 Dollar Senior Secured Notes" refers to the $900 million aggregate principal amount of $6^1/_2$% Senior Secured Notes due 2022 issued by Altice Financing on December 12, 2013.

"2013 Euro Senior Secured Notes" refers to the €300 million aggregate principal amount of $6^1/_2$% Senior Secured Notes due 2022 issued by Altice Financing on December 12, 2013.

"2013 Guarantee Facility" refers to the guarantee facility agreement dated July 1, 2013, as amended, restated, supplemented or otherwise modified from time to time, among Altice Financing as borrower, the lenders from time to time party thereto, Wilmington Trust (London) Limited as facility agent and Citibank, N.A., London Branch as security agent.

"2013 June Transactions" refers collectively to the Fold in, the ABO refinancing, the Cabovisão Refinancing, the Coditel Refinancing, the ONI Transaction, the Outremer Transaction, the 2013 Coditel Acquisition and the Acquisition of Content Subsidiaries.

"2013 Margin Loan" refers to the €324 million facility agreement dated November 7, 2013 and amended on January 16, 2014, between, among others, Altice France, as borrower, the lenders party thereto and ING Bank N.V as facility agent and as security agent, which is expected to be fully repaid and extinguished in connection with the Transactions.

"2013 Revolving Credit Facility" refers to the revolving facility agreement, dated July 1, 2013, as amended, restated, supplemented or otherwise modified from time to time, among Altice Financing as borrower, the lenders from time to time party thereto Citibank International Plc as facility agent and Citibank, N.A., London Branch as security agent.

"2013 Senior Notes" refers to the €250 million aggregate principal amount of 9% senior notes due 2023 issued by Altice Finco under the 2013 Senior Notes Indenture.

"2013 Senior Notes Indenture" refers to the indenture dated as of June 14, 2013, as amended, among, *inter alios*, Altice Finco, as issuer, the guarantors party thereto and the trustee and the security agent party thereto, governing the 2013 Senior Notes.

"2013 Senior Notes Proceeds Loan" refers to the intercompany loan made with the proceeds of the offering of the 2013 Senior Notes by Altice Finco as lender to Altice Financing as borrower in connection with the 2013 June Transactions.

"2013 Senior Secured Notes" collectively refers to the 2013 Dollar Senior Secured Notes and the 2013 Euro Senior Secured Notes.

"2013 Senior Secured Notes Indenture" refers to the indenture governing the 2013 Senior Secured Notes.

"2013 Term Loan" refers to the term loan credit agreement on or prior to between Altice Financing as borrower and the persons listed in Schedule 2.01 thereto as lenders, an agent to be mutually agreed among the borrower and the lenders as the Administrative Agent and Citibank, N.A., London Branch as security agent.

"ABO" refers to Altice Blue One S.A.S., a *société par actions simplifiée*, incorporated under the laws of France.

"ABO Proceeds Loan" refers to the intercompany loan made by Altice Holdings as lender to ABO as borrower in connection with the ABO refinancing and the 2013 June Transactions.

"Acquisition" refers to the purchase by Altice France of approximately 7.50% of the shares of common stock of Numéricable Group S.A. from Carlyle and 6.50% of the shares of common stock of Numéricable Group S.A. from Cinven at a price of EUR 30.50 per share, payment being at the earliest of (a) January 31, 2015 and (b) 6 months after the acquisition by Numericable Group of 100% of the capital of SFR (other than the 10 shares in SFR not held by Vivendi S.A.).

"Acquisition Agreement" has the meaning ascribed to it in "*Recent developments*".

"Admission" means the admission of the New Shares to Euronext Amsterdam and the trading of the New Shares on Euronext Amsterdam on or about July 25, 2014.

"AFM" meansthe Netherlands Authority for the Financial Markets (*Stichting Autoriteit Financiële Markten*).

"Altice Bahamas" refers to Altice Bahamas S.à r.l., a private limited liability company (*société à responsabilité limitée*), incorporated under the laws of the Grand Duchy of Luxembourg.

"Altice Blue Two" refers to Altice Blue Two S.A.S., a private limited liability company (*société par actions simplifiée*) incorporated under the laws of France.

"Altice Caribbean" refers to Altice Caribbean S.à r.l. a private limited liability company incorporated under the laws of the Grand Duchy of Luxembourg.

"Altice Financing" refers to Altice Financing S.A., a public limited liability company (*société anonyme*) incorporated under the laws of Luxembourg.

"Altice Financing Pledged Proceeds Notes" collectively refers to the AH Proceeds Loan, the 2013 December AH Proceeds Loans, the Cool Proceeds Note, the Acquisition Note and the HOT Refinancing Notes.

"Altice Finco" refers to Altice Finco S.A., a public limited liability company (*société anonyme*), incorporated under the laws of Luxembourg.

"Altice France" refers to Altice France S.A., formerly named Altice Six S.A., a public limited liability company (*société anonyme*) existing under the laws of the Grand Duchy of Luxembourg.

"Altice Group" refers to, collectively, the Group and the Numericable Group, unless the context otherwise requires.

"Altice Holdings" refers to Altice Holdings S.à r.l., a private limited liability company (*société à responsabilité limitée*), incorporated under the laws of the Grand Duchy of Luxembourg.

"Altice International" refers to Altice International S.à r.l., previously named Altice VII S.à r.l., a private limited liability company (*société à responsabilité limitée*), existing under the laws of the Grand Duchy of Luxembourg.

"Altice International Group" refers to Altice International and its subsidiaries.

"Altice Portugal" refers to Altice Portugal S.A., a public limited liability company (*sociedade anónima*) incorporated under the laws of Portugal.

"Altice S.A." refers to Altice S.A, a public company with limited liability (*société anonyme*), incorporated under the laws of the Grand Duchy of Luxembourg.

"Altice S.A. Equity Financing" means the offering of €569 million in value of ordinary shares or equity-linked securities of the Company to be issued in connection with the Transactions.

"Altice S.A. Intercreditor Agreement" refers to the intercreditor agreement to be dated on or about the Issue Date, as amended from time to time, among, *inter alios*, the Company, and Deutsche Bank AG, London Branch, as the security agent.

"Altice S.A. Rapport des commissaires aux comptes sur les comptes consolidés

Exercice clos le 31 décembre 2013

Mesdames, Messieurs, les actionnaires,

En exécution de la mission qui nous a été confiée par vos statuts et votre Assemblée générale, nous vous présentons notre rapport relatif à l'exercice clos le 31 décembre 2013, sur :

- le contrôle des comptes consolidés de la société Numericable Group S.A., tels qu'ils sont joints au présent rapport ;
- la justification de nos appréciations ;
- la vérification spécifique prévue par la loi.

Les comptes consolidés ont été arrêtés par le Conseil d'administration. Il nous appartient, sur la base de notre audit, d'exprimer une opinion sur ces comptes.

I Opinion sur les comptes consolidés

Nous avons effectué notre audit selon les normes d'exercice professionnel applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les comptes consolidés ne comportent pas d'anomalies significatives. Un audit consiste à vérifier, par sondages ou au moyen d'autres méthodes de sélection, les éléments justifiant des montants et informations figurant dans les comptes consolidés. Il consiste également à apprécier les principes comptables suivis, les estimations significatives retenues et la présentation d'ensemble des comptes. Nous estimons que les éléments que nous avons collectés sont suffisants et appropriés pour fonder notre opinion.

Nous certifions que les comptes consolidés sont, au regard du référentiel IFRS tel qu'adopté dans l'Union européenne, réguliers et sincères et donnent une image fidèle du patrimoine, de la situation financière, ainsi que du résultat de l'ensemble constitué par les personnes et entités comprises dans la consolidation.

Sans remettre en cause l'opinion exprimée ci-dessus, nous attirons votre attention sur les points suivants exposés dans les notes de l'annexe aux comptes consolidés :

- Les notes 1.2 « Bases de préparation des comptes consolidés » et 1.3 « Informations comparatives » exposent respectivement le traitement comptable des opérations d'apports constitutives du groupe ainsi que leur incidence sur la préparation et la présentation des comptes consolidés et leurs données comparatives ;
- les notes 4.1.2 « Introduction en bourse et augmentations de capital » et 4.1.6 « Refinancements de la dette senior » exposent les opérations d'introduction en bourse et de refinancement intervenues en fin d'année 2013 et leur incidence sur les hypothèses retenues pour l'application du principe de continuité d'exploitation du groupe tel que décrit dans la note 1.5 « Hypothèse de continuité d'exploitation » ;
- les notes 1.3 « Informations comparatives » et 2.1 « Principes de préparation des comptes consolidés » exposent le changement de méthode comptable résultant de la première application de la norme IAS 19 révisée « Avantages du personnel ».

2 Justification des appréciations

En application des dispositions de l'article L.823-9 du Code de commerce relatives à la justification de nos appréciations, nous portons à votre connaissance les éléments suivants :

La note 3 « Principes comptables significatifs et principales sources d'incertitude relatives aux estimations » de l'annexe aux comptes consolidés expose les principes comptables significatifs et principales sources d'incertitudes relatives aux estimations. Cette note précise également que les circonstances et les résultats futurs pourraient conduire à des changements d'estimations ou d'hypothèses susceptibles d'affecter la situation financière, le compte de résultat et les flux de trésorerie futurs du Groupe. Parmi ces estimations significatives, figurent notamment les écarts d'acquisition et les actifs d'impôts différés :

- La société procède systématiquement, à chaque clôture, à des tests de perte de valeur des écarts d'acquisition selon les modalités décrites dans les notes 2.14 « Dépréciation d'actifs » et 3 « Principes comptables significatifs et principales sources d'incertitude relatives aux estimations » de l'annexe aux comptes consolidés.

  Nous avons examiné les modalités de mise en œuvre de ces tests de pertes de valeur ainsi que les prévisions de flux de trésorerie et hypothèses utilisées et nous avons vérifié que la note 16 « Tests de dépréciation » de l'annexe aux comptes consolidés donne une information appropriée.

- Le Groupe présente à l'actif de son bilan des impôts différés actifs pour un montant de 132,7 millions d'euros au 31 décembre 2013 tel qu'exposé dans la note 4.1.7 « Impôts différés activés » de l'annexe aux comptes consolidés.

  Nous avons apprécié les données et les hypothèses sur lesquelles se fondent les prévisions d'utilisation des déficits fiscaux reportables, revu les calculs effectués par la société et vérifié que les notes 3, 4.1.7 et 12 donnent une information appropriée.

Les appréciations ainsi portées s'inscrivent dans le cadre de notre démarche d'audit des comptes consolidés, pris dans leur ensemble, et ont donc contribué à la formation de notre opinion exprimée dans la première partie de ce rapport.

3 Vérification spécifique

Nous avons également procédé, conformément aux normes d'exercice professionnel applicables en France, à la vérification spécifique prévue par la loi des informations relatives au groupe données dans le rapport de gestion.

Nous n'avons pas d'observation à formuler sur leur sincérité et leur concordance avec les comptes consolidés.

Numericable Group
ETAT CONSOLIDE DES AUTRES ELEMENTS DU RESULTAT GLOBAL

(en milliers d'euros)	**2013**	**2012**
Résultat net attribuable aux propriétaires de l'entité	**64 550**	**86 377**
Éléments susceptibles d'être reclassés ultérieurement en résultat :		
Réserves de conversion	-	-
Variation de juste valeur des actifs financiers disponibles à la vente	-	-
Impôt sur éléments reconnus directement dans les autres éléments du résultat global	-	-
Éléments qui ne seront pas reclassés ultérieurement en résultat :		
Ecarts actuariels (1)	(458)	(1 496)
Impôt sur éléments reconnus directement dans les autres éléments du résultat global	-	-
Autres éléments du résultat global attribuable aux propriétaires de l'entité	**64 092**	**84 881**

Dans la mesure où le Groupe exerce ses activités exclusivement en France, la devise fonctionnelle et de présentation de toutes les entités du Groupe est l'euro. Par conséquent, aucune réserve de conversion n'a été constatée aux 31 décembre 2013 et 2012.

Les actifs financiers disponibles à la vente sont composés d'investissements divers dans des entités non cotées et qui ne sont pas incluses dans la consolidation (voir note 17) et pour lesquels le groupe ne dispose d'aucun élément fiable pour déterminer une juste valeur différente de sa quote part des capitaux propres. Ces investissements n'étant pas significatifs, ils sont évalués au coût historique et, par conséquent, aucune variation de juste valeur n'est reflétée dans l'état consolidé du résultat global.

(1) Comme indiqué en Note 2.1, le Groupe a appliqué la norme IAS 19R au 1er janvier 2013, en comptabilisant les écarts actuariels au poste « Autres éléments du résultat global ».

L'application d'IAS 19R a ainsi résulté en un changement de méthode comptable qui a été également reflété sur les comptes de 2012 (se référer également à la Note 1.3).

Trésorerie et équivalents de trésorerie à la clôture		**101 365**	**7 996**

(1) Au titre de l'exercice 2013, les autres éléments non monétaires correspondent principalement :
- aux frais d'extinction des dettes actionnaires (« premiums » relatifs à l'extinction des Super Pecs) pour 81,6 millions d'euros (se référer à la note 4.1.1);
- à l'étalement des frais sur emprunt selon la méthode du coût amorti, sans effet sur la trésorerie, pour 20,0 millions d'euros.

(2) Les investissements corporels et incorporels financés par location financement pour un montant de 39 millions d'euros (21 millions d'euros au 31 décembre 2012) sont sans effet sur le tableau des flux de trésorerie lors de l'acquisition.

(3) Correspond principalement au prix payé dans le cadre des acquisitions de LTI (25,5 millions d'euros) et Valvision (3,3 millions d'euros) net de la trésorerie acquise (1,5 millions d'euros). Se référer également aux notes 4.1.4 et 4.1.5.

(4) Correspond aux augmentations de capital réalisées dans le cadre de l'introduction en bourse de la société (offre au public pour 250 millions d'euros et offre réservée aux salariés pour 1 million d'euros) diminuées des frais engagés dans le cadre de l'IPO pour 14,6 millions d'euros (se référer à la note 4.1.2).

(5) Correspond principalement à la mise en place de la nouvelle tranche D pour 800 millions d'euros nets des frais sur emprunts décaissés pour 10 millions d'euros (se référer également à la Note 4.1.6).

(6) Ce montant correspond principalement aux dettes éteintes lors du refinancement de décembre 2013 (emprunts obligataires pour 480 millions d'euros, dette senior Altice B2B pour 451 millions d'euros (se référer également à la Note 4.1.6).

1 Bases de préparation des états financiers consolidés

1.1 Présentation de Numericable Group

Numericable Group (ci après « **La société** ») est une société anonyme de droit français constituée en août 2013 et dont le siège social est situé en France.

Le 7 Novembre 2013, Numericable Group a reçu, dans le cadre du projet d'introduction en bourse de la société, l'apport de deux holdings constituées au Luxembourg, Ypso Holding S.à.r.l et Altice Lux Holding S.à.r.l., respectivement sociétés-mères d'Ypso France et d'Altice B2B France.

Ypso France, qui englobe l'activité commerciale Numericable, est un fournisseur français de services de télévision par câble au travers de bouquets de chaines de télévision numériques haut de gamme, accessibles aux ménages bénéficiant d'une connexion dite « triple play » au réseau câblé. Ypso France fournit également des services Internet à large bande passante au marché français résidentiel et des services de téléphonie fixe et mobile.

Altice B2B France, au travers de Completel, sa principale entité opérationnelle, gère le plus grand réseau alternatif *« FTTO »* français (pour « fiber-to-the-office », « fibre-pour-le-bureau ») et constitue le troisième réseau alternatif *Digital Subscriber Line* (« DSL ») français. En reliant directement les sites des clients professionnels aux réseaux de fibres et DSL, Completel SAS fournit à la clientèle professionnelle une offre de services complète qui comprend le transfert de données et l'Internet à très haut débit, des services de télécommunications, ainsi que des solutions de convergence et de mobilité.

1.2 Bases de préparation des Comptes Consolidés

Les Comptes consolidés pour l'exercice clos le 31 décembre 2013 qui se composent d'un bilan consolidé, d'un compte de résultat consolidé, d'un état consolidé du résultat global, d'un tableau des flux de trésorerie consolidé, d'un tableau de variation des capitaux propres consolidés et des notes annexes afférentes, ont été préparés conformément aux normes comptables internationales *International Financial Reporting Standards* (« **IFRS** ») telles que publiées par l'International Accounting Standards Board (« **IASB** ») et adoptées dans l'Union Européenne au 31 décembre 2013. Ces normes internationales comprennent les normes IAS (*International Accounting Standards*), IFRS (*International Financial Reporting Standards*) et leurs interprétations (SIC et IFRIC).

Les Comptes consolidés ont été préparés sous la responsabilité du Conseil d'administration et arrêtés par le Conseil d'Administration de la Société en date du 1er avril 2014.

Conformément à la législation française, les états financiers consolidés seront considérés comme définitifs lorsqu'ils auront été approuvés par les actionnaires du Groupe lors de l'Assemblée Générale Ordinaire des actionnaires devant se tenir en mai 2014.

Ypso Holding S.à.r.l. et Altice Lux Holding S.à.r.l. étant, avant d'être apportées à Numericable Group et après l'introduction en Bourse, des entités sous contrôle commun (contrôle assuré par les fonds d'investissement privés Carlyle, Cinven et Altice agissant de concert), les opérations d'apports ne constituent pas une acquisition au sens de la norme IFRS 3 « Regroupement d'entreprises ». Le Groupe a ainsi opté pour la comptabilisation de cette opération en valeurs comptables et les comptes consolidés sont établis comme si l'apport des titres de capital d'Ypso Holding S.à.r.l et Altice Lux Holding S.à.r.l. avait eu lieu avant le 1er janvier 2012, ouverture de la période comparative présentée. Les comptes consolidés au 31 décembre 2013 sont donc présentés pour une période de 12 mois.

1.3 Informations comparatives

Les données comparatives présentées au titre de la période de douze mois close le 31 décembre 2012 correspondent , à l'exception de l'impact du retraitement retrospective de la norme IAS 19 révisée (exposé ci-dessous), aux comptes combinés des deux sous-groupes Ypso et Altice B2B (ci-après dénommés les « **Deux Groupes** »).

En effet, avant d'être apportés à Numericable Group le 7 novembre 2013, les Deux Groupes étaient des entités sous contrôle commun, le contrôle étant assuré par les fonds d'investissement privés Carlyle, Cinven et Altice.

En conséquence, les données présentées au titre de l'information comparative reflètent les actifs, passifs, revenus, charges et flux de trésorerie historiques qui étaient relatifs aux sous-groupes Ypso et Altice B2B, lesquels formaient au 31 décembre 2012 deux groupes distincts.

Par ailleurs, comme expliqué en Note 2.1, le Groupe a appliqué la norme IAS 19R au 1er janvier 2013, en comptabilisant les écarts actuariels au poste « Autres éléments du résultat global ». L'application d'IAS 19R a ainsi résulté en un changement de méthode comptable qui a été également reflété sur les comptes de 2012.

L'impact de cet ajustement sur les rubriques et principaux agrégats du compte de résultat 2012 est présenté dans le tableau suivant (tableau de passage entre les comptes combinés 2012 publiés et les comptes 2012 corrigés et présentés à titre de comparatif dans le présent document):

(en milliers d'euros)	**Comptes 2012 publiés**	**Ajustement IAS 19R**	**Comptes 2012 corrigés**
Provisions	(7 715)	1 496	(6 219)

Résultat d'exploitation	**299 045**	**1 496**	**300 541**
Résultat net	**84 930**	**1 496**	**86 426**
Autres éléments du résultat global	**0**	**(1 496)**	**(1 496)**
Résultat global	**84 930**	**-**	**84 930**

1.4 Liste des entités incluses dans la consolidation

Filiales

Les entités consolidées sont des sociétés contrôlées par le groupe (y compris les entités ad hoc), c'est-à-dire des entités dans lesquelles le Groupe a le pouvoir de diriger les politiques financières et opérationnelles pour tirer des avantages de leurs activités. Le contrôle est démontré quand le Groupe a le pouvoir, direct ou indirect, de diriger les politiques financières et opérationnelles d'une entreprise afin de tirer des avantages de son activité. Les états financiers des filiales sont inclus dans les Comptes Consolidés à partir de la date où le contrôle est effectif, jusqu'à la date où l'exercice de ce contrôle cesse. Les participations ne donnant pas le contrôle sont reflétées séparément dans le tableau de variation des capitaux propres du Groupe.

Participations

Les participations sur lesquelles le Groupe exerce une influence notable, mais pas de contrôle ni de contrôle conjoint, sont comptabilisées suivant la méthode de la mise en équivalence. Ces participations sont comptabilisées en « Titres mis en équivalence ». Par influence notable, on entend le pouvoir de participer aux décisions financières et opérationnelles de la société dans laquelle des participations ont été prises, mais sans contrôle exclusif ni contrôle conjoint sur ces décisions. Initialement, ces titres mis en équivalence sont comptabilisés au coût historique. La quote-part de résultat de la période est présentée dans la ligne « Résultat des sociétés mises en équivalence » du compte de résultat consolidé, à partir de la date à laquelle l'influence notable débute jusqu'à celle où cette influence notable cesse.

Aux 31 décembre 2013 et 2012, les Comptes Consolidés incluent les entités suivantes :

Société et forme juridique de la constitution	**Siège social**	**Méthode de consolidation au 31 décembre 2013**	**Pourcentage de contrôle**		**Pourcentage d'intérêt**	
			2013	**2012**	**2013**	**2012**

(1) Les entités Numericable et Est Vidéocommunications ont été fusionnées en décembre 2013 dans NC Numericable.

(2) Les entités Invescom et LTI Telecom ont été acquises en date du 31 octobre 2013 comme mentionné dans les faits marquants de l'exercice.

1.5 Hypothèse de continuité d'exploitation

Le Groupe a été formé par une série d'acquisitions, essentiellement financées par des emprunts externes. De plus, la construction et la modernisation ultérieure du réseau ont requis des investissements substantiels. Ces deux facteurs expliquent la structure financière du Groupe et la proportion importante des passifs financiers par rapport au total des capitaux propres consolidés, ainsi que la charge financière significative liée au coût de l'endettement.

A l'heure actuelle, le Groupe assure le service de sa dette et finance ses investissements à travers les liquidités nettes générées par ses activités. En outre, les accords passés par le Groupe dans le cadre de ses contrats de crédit obligent le Groupe à se conformer à certains ratios de liquidité (se référer au paragraphe 23.1) et à maintenir certains niveaux de liquidité.

Par ailleurs, comme expliqué en note 4.1.6, le Groupe a procédé en 2013 à plusieurs opérations de refinancement de ses Dettes Senior ce qui a permis au Groupe de rééchelonner une grande partie de sa dette financière.

Dans ces conditions et sur la base des prévisions de trésorerie mises à jour, le conseil d'administration considère que le Groupe sera en mesure de financer ses besoins de liquidités au cours de la période de douze mois à compter de l'arrêté des Comptes Consolidés pour l'exercice clos le 31 décembre 2013 ainsi que de procéder au paiement des intérêts et des remboursements de sa dette financière au cours de cette période.

Par conséquent, les Comptes Consolidés pour l'exercice clos le 31 décembre 2013 ont été préparés dans l'hypothèse de continuité d'exploitation.

2 Règles et méthodes comptables

2.1 Principes de préparation des Comptes Consolidés

Normes et interprétations appliquées par le Groupe au 31 décembre 2013

Les principes comptables de comptabilisation et d'évaluation appliqués pour préparer les Comptes Consolidés au 31 décembre 2013 sont les mêmes que ceux appliqués pour les états financiers combinés de Numericable Group, établis conformément aux normes IFRS.

Comme indiqué dans la note 1, les Comptes Consolidés sont établis en comformité avec les normes comptables internationales IFRS telles qu'adoptées par l'Union européenne (**UE**), dont l'application est obligatoire pour les exercices clos le 31 décembre 2013. Les principes de comptabilisation et d'évaluation définis dans les normes comptables internationales IFRS telles qu'adoptée par l'Union européenne ont été appliqués pour la préparation des Comptes Consolidés. Ils sont disponibles sur le site Web suivant :

http://ec.europa.eu/internal_market/accounting/ias/index_en.htm

Les normes et interprétations adoptées par l'Union européenne dont l'application est obligatoire au 31 décembre 2013, sont similaires aux normes et interprétations publiées par l'International Accounting Standards Board (« **IASB** »), à l'exception de la norme IAS 39 *Instruments financiers - Comptabilisation et évaluation* (« **IAS 39** ») et les normes et interprétations ci-dessous, qui ont été adoptées par l'UE, mais dont l'application n'était pas obligatoire au 31 décembre 2013.

Textes d'application obligatoire pour l'exercice clos le 31 décembre 2013

- IAS 19R (révisée en 2011) *Avantages du personnel* (applicable au 1er janvier 2013 au plus tard pour le Groupe) (« **IAS 19R** »)

Les principaux changements résultant de cette révision sont les suivants :

- comptabilisation des écarts actuariels au poste « Autres éléments du résultat global », ce qui entraîne un changement de méthode comptable car le Groupe comptabilisait auparavant les écarts actuariels directement au compte de résultat ;
- modification du mode de calcul de la composante financière, avec la suppression du rendement attendu des autres actifs de couverture, ce qui n'a pas d'impact sur les comptes du Groupe ;
- comptabilisation immédiate des coûts des services passés non acquis en résultat.

Conformément aux dispositions d'IAS19R, le Groupe a appliqué les nouvelles dispositions de manière rétrospective. L'effet des modifications est détaillé dans la note 1.3 ci-dessus.

Les autres amendements et interprétations d'application obligatoire au 31 décembre 2013 mais sans impact significatif pour le Groupe sont les suivants :

- Amendements d'IAS 1 *Présentation des autres éléments du résultat global* et *Etats financiers* individuels .

  Cet amendement d'IAS 1 prévoit la modification de la présentation des autres éléments du résultat global dans l'état consolidé des autres éléments du résultat global, afin de présenter les éléments devant être reclassés dans le résultat net séparément des éléments qui ne le seront jamais. Les informations comparatives sont également présentées de la même manière ;

- IFRIC 20 *Frais de découverture engagés pendant la phase de production d'une mine à ciel ouvert* (« **IFRIC 20** ») ;

- Amendements d'IFRS 7 *Informations à fournir – Compensation des actifs et passifs financiers*
- Amendements d'IAS 32 *Compensation des actifs et passifs financiers* ;

- Amendements d'IAS 12 *Impôts différés : recouvrement des actifs sous-jacents ;*
- Amendements d'IFRS 1 *Hyperinflation grave et suppression des dates d'application fermes pour les nouveaux adoptants ;*
- IFRS 13 *Evaluation de la juste valeur* (« **IFRS 13** »)

  IFRS 13 constitue une norme transverse aux autres normes IFRS lorsque celles-ci recourent à la notion de juste valeur en terme d'évaluation et d'information à fournir. Elle définit la juste valeur, présente un cadre pour les évaluations à la juste valeur et précise l'information à fournir sur les modalités d'évaluation à la juste valeur, comprenant notamment la hiérarchie des évaluations à la juste valeur actuellement incluse dans IFRS 7 Instruments financiers : Informations à fournir.

  Conformément aux dispositions transitoires d'IFRS 13, le Groupe a appliqué les nouvelles dispositions sur l'évaluation à la juste valeur de manière prospective.

Textes d'application obligatoire postérieurement au 31 décembre 2013 et non appliqués par anticipation

Les normes et interprétations suivantes ont été publiées par l'IASB et l'IFRS Interpretations Committee, et adoptées par l'UE à la date d'établissement des Comptes Consolidés, mais elles ne sont pas encore obligatoires. Le Groupe a donc décidé de ne pas les appliquer de façon anticipée.

- IAS 27 (révisée en 2011) *Etats financiers individuels* (applicable au 1^er^ janvier 2014 au plus tard pour le Groupe) (« **IAS 27 révisée** »)

Cette norme définit les dispositions relatives à la comptabilisation et aux informations à fournir des états financiers individuels, qui sont des états financiers préparés par une société mère, ou un investisseur d'une coentreprise ou d'une entreprise associée, lorsque ces investissements sont comptabilisés à leur coût d'acquisition ou en conformité avec IAS 39. La norme établit également le traitement comptable des dividendes, ainsi que d'autres obligations d'information à publier.

- IAS 28 (révisée en 2011) *Participations dans des entreprises associées et des coentreprises* (applicable au 1^er^ janvier 2014 au plus tard pour le Groupe) (« **IAS 28 révisée** »)

Cette norme est relative à la comptabilisation selon la méthode de la mise en équivalence des entités sous influence notable et sous contrôle conjoint (*joint ventures*).
Certaines clarifications ont été apportées pour la comptabilisation des variations des pourcentages d'intérêts (sans prise ou perte de contrôle des filiales). Les informations à fournir sont désormais couvertes par IFRS 12 *Informations à fournir sur les intérêts détenus dans d'autres entités.*

- IFRS 10 *Etats financiers consolidés* (applicable au 1^er^ janvier 2014 au plus tard pour le Groupe) (« **IFRS 10** »)

IFRS 10 remplace SIC 12 *Consolidation – Entités ad hoc* et IAS 27 pour la partie relative aux états financiers consolidés. Cette norme traite de la consolidation d'entités qu'elles soient des filiales ou des entités ad hoc, pour lesquelles elle redéfinit la notion de contrôle, base de la consolidation.

- IFRS 11 : *Partenariats* (applicable au 1^er^ janvier 2014 au plus tard pour le Groupe) (« **IFRS 11** »)

IFRS 11 remplace IAS 31 *Participation dans des coentreprises* et l'interprétation SIC 13 *Entités contrôlées conjointement – Apports non monétaires par des coentrepreneurs.*

Cette norme traite de la comptabilisation des accords conjoints. La définition du contrôle conjoint repose sur l'existence d'un accord contractuel et le consentement unanime des parties partageant le contrôle.

Les accords conjoints sont classés en deux catégories (i) les *joint ventures* : chaque partie a un droit dans l'actif net de l'entité, à comptabiliser selon la méthode de la mise en équivalence, méthode déjà appliquée par le Groupe et (ii) les *joint operations* : chaque partie a des droits directs dans les actifs et des obligations directes sur les passifs de l'entité, à comptabillser conformément à l'accord contractuel.

- IFRS 12 *Informations à fournir sur les intérêts détenus dans d'autres entités* (applicable au 1er janvier 2014 au plus tard pour le Groupe) (« **IFRS 12** »)

IFRS 12 remplace les dispositions relatives aux informations à fournir auparavant incluses dans IAS 27, IAS 28 et IAS 31.

Cette norme regroupe et développe les informations à fournir au titres des entités contrôlées, contrôlées conjointement ou sous influence notable et des entités ad hoc non consolidées.

- Amendement à la norme IAS 32 « Présentation - Compensation des actifs et des passifs financiers » (applicable de manière obligatoire aux exercices ouverts à compter du 1er janvier 2014).

La Direction évalue actuellement l'impact potentiel de l'application de ces normes, interprétations et amendements sur le compte de résultat , l'état de la situation financère, le tableau des flux de trésorerie et le contenu des notes annexes des Comptes mais à ce stade, n'anticipe pas d'impact significatif lié à l'application de ces normes, interprétations et amendements.

Les Comptes sont établis selon la convention du coût historique, à l'exception de certaines catégories d'actifs et passifs recensés ci-dessous :

- instruments financiers dérivés comptabilisés à leur juste valeur ;
- actifs financiers à la juste valeur par le biais du compte de résultat;
- actifs financiers disponibles à la vente comptabilisés à leur juste valeur.

2.2 Méthode de conversion

Les Comptes Consolidés sont présentés en euros – monnaie fonctionnelle du Groupe. Toutes les données financières sont arrondies au millier d'euros le plus proche.

Les opérations en devises sont initialement comptabilisées dans la monnaie fonctionnelle au taux de change en vigueur à la date de l'opération. A la date de clôture, les actifs et passifs monétaires libellés dans une devise sont convertis dans la monnaie fonctionnelle au taux de change en vigueur à la date en question. Tous les écarts de change sont enregistrés. Les actifs et passifs non monétaires évalués d'après leur coût historique dans une devise sont convertis aux taux de change en vigueur aux dates des opérations initiales. Les différences de change correspondantes sont comptabilisées dans le compte de résultat.

2.3 Chiffre d'affaires

Le chiffre d'affaires du Groupe est constitué des principaux éléments suivants :

- Abonnements TV, Internet haut débit, services de câble de base, téléphonie et frais d'installation facturés aux particuliers et aux clients professionnels.

- Services de transmission de données, Internet à très haut débit, services de télécommunications, solutions de convergence et de mobilité facturés aux clients professionnels.

- Services de mise à disposition de l'infrastructure réseau, dont des contrats de droit d'usage irrévocable (*indefeasible right of use* ou IRU) ou bande passante sur le réseau, à d'autres opérateurs de télécommunications et services d'entretien associés.

Le chiffre d'affaires comprend la juste valeur de la contrepartie reçue ou à recevoir pour la vente de biens et services dans le cadre des activités ordinaires du Groupe. Les produits sont présentés après déduction de la taxe sur la valeur ajoutée, et des remises, rabais et ristournes, et élimination des ventes intragroupes entre entités comprises dans le périmètre de consolidation.

Les produits sont comptabilisés et présentés comme suit, conformément à IAS 18 *Produits des activités ordinaires* (IAS 18) :

- Les produits des abonnements aux services de câble de base, de télévision numérique à péage, d'Internet et de téléphonie sont comptabilisés de manière linéaire sur la durée d'abonnement, tandis que les produits des appels téléphoniques hors forfait sont comptabilisés lorsque le service est rendu.

- Lorsqu'un client bénéficie d'une promotion sur un abonnement (par exemple, au moyen d'une remise sur le tarif d'abonnement ou d'une période d'abonnement gratuit) sans rapport avec sa consommation et ses achats passés, le total des produits à facturer fait l'objet d'une comptabilisation linéaire pendant la durée de validité d'un éventuel contrat de fourniture de biens et services après la période promotionnelle. Si la promotion n'est pas conditionnée à la souscription d'un contrat comportant une durée d'engagement, le groupe comptabilise les produits pendant la période promotionnelle à hauteur de la contrepartie reçue ou à recevoir, car la prorogation du contrat n'est pas garantie.

- Les frais d'installation et de configuration (y compris le raccordement au réseau) des particuliers sont comptabilisés en chiffre d'affaires lorsque le service est rendu.

- Les frais d'accès aux services des clients professionnels facturés lors du raccordement du client avec un équipement ou un service sont comptabilisés en produits constatés d'avance, puis le produit constaté d'avance correspondant est repris en résultat sur la durée de vie estimée du client, sur base de données statistiques. Il est généralement étalé sur la période d'engagement contractuel.

- Le produit associé aux capacités de transmission par câble terrestre mises à disposition dans le cadre de contrats d'IRU fait l'objet d'une comptabilisation linéaire sur la durée du contrat.

2.4 Produits constatés d'avance

Pour certains contrats avec des clients professionnels, le Groupe perçoit des paiements d'avance (contrats d'IRU et frais de raccordement au réseau). Le produit est alors généralement comptabilisé de manière linéaire sur la durée du contrat. A la clôture de l'exercice, le produit constaté d'avance correspond au produit de la location du réseau non encore comptabilisé en chiffre d'affaires.

2.5 Résultat d'exploitation avant amortissements et dépréciations

Le sous-total « Résultat d'exploitation avant amortissements et dépréciations » ou « EBITDA » est présenté dans le compte de résultat consolidé car la Direction a considéré pertinent de présenter, au compte de résultat, un sous-total au sein du résultat d'exploitation pour mieux comprendre la performance financière du Groupe et qui exclut les principaux éléments sans effet sur la trésorerie, tels que les amortissements et les dépréciations, accroissant ainsi la valeur prédictive des états financiers.

Par ailleurs, l'EBITDA est un indicateur utilisé par la Direction en interne pour mesurer la performance opérationnelle et financière, prendre des décisions d'investissement et d'allocation des ressources et évaluer les performances de l'équipe dirigeante.

Le sous-total EBITDA n'est pas nécessairement comparable à des indicateurs à l'appellation similaire présentés par d'autres entreprises. Il ne saurait se substituer au résultat d'exploitation, car les effets des amortissements et des dépréciations qui en sont exclus pèsent sur le résultat d'exploitation, qui est également présenté au compte de résultat consolidé conformément à IAS 1.

2.6 Charges et produits financiers

Les charges et produits financiers sont principalement constitués des éléments suivants :

- charges d'intérêts et autres frais liés à des activités de financement comptabilisées selon la méthode du coût amorti ainsi que, le cas échéant, les variations de juste valeur des Instruments dérivés de taux d'intérêt qui ne peuvent pas être qualifiés comme des instruments de couverture au sens de la norme IAS 39 *Instruments financiers : Comptabilisation et évaluation* (« **IAS 39** ») et qui figurent au poste « Coût de l'endettement brut » dans le compte de résultat consolidé ;

- produits d'intérêts liés à la trésorerie et aux équivalents de trésorerie.

2.7 Informations sectorielles

Selon IFRS 8 *Secteurs opérationnels*, les informations sectorielles doivent être présentées sur la même base que celle utilisée pour le reporting interne. Le Groupe a identifié les trois secteurs opérationnels suivants :

- Activités B2C
- Activités B2B
- Services de vente en gros ou *Wholesale*

Activités B2C

Le Groupe propose aux particuliers et aux clients professionnels des abonnements TV, l'accès à Internet haut débit, des services de câble de base, de la téléphonie et des services d'installation payants.

Activités B2B

Le Groupe propose aux clients professionnels une palette complète de services : transmission de données, Internet très haut débit, services de télécommunications, solutions de convergence et de mobilité, en raccordant directement leurs installations à des réseaux fibre et DSL.

Services de vente en gros ou *Wholesale*

Le Groupe commercialise des services de mise à disposition de l'infrastructure réseau, notamment des contrats d'IRU ou de la bande passante sur son réseau, à d'autres opérateurs de télécommunications, ainsi que les services d'entretien associés.

2.8 Impôt sur les sociétés

La charge d'impôt sur les sociétés comprend l'impôt exigible et les impôts différés. La charge d'impôt est constatée au compte de résultat consolidé, sauf si elle est liée à des éléments constatés en capitaux propres, auquel cas elle est comptabilisée en capitaux propres (se référer également à la Note 4.1.7).

La dette d'impôt sur les sociétés correspond à l'impôt à payer au titre de l'exercice, d'après les taux adoptés ou quasi adoptés à la date de clôture, et aux régularisations d'impôts au titre des exercices précédents.

Les différences existant entre la valeur fiscale des actifs et passifs et leur valeur comptable constituent des différences temporaires donnant lieu à la comptabilisation d'un impôt différé. En revanche, les différences temporaires suivantes n'entraînent pas la comptabilisation d'un impôt différé : (i) la comptabilisation initiale de l'écart d'acquisition, (ii) la comptabilisation initiale des actifs ou des passifs dans le cadre d'une opération autre qu'un regroupement d'entreprises sans effet sur le bénéfice comptable et imposable, et (iii) des participations dans des filiales, co-entreprises et entreprises associées dès lors que le Groupe contrôle la date à laquelle les différences temporelles s'inverseront et qu'il est probable que ces différences ne s'inverseront pas dans un avenir prévisible.

Les entreprises comprises dans la consolidation comptabilisent, le cas échéant, un passif d'impôt différé sur les dividendes que lesdites entreprises ont prévu de distribuer.

L'impôt différé est calculé au taux qui devrait être applicable aux différences temporaires lors de leur reversement, conformément aux règles en vigueur à la date de clôture.

Les actifs et passifs d'impôt différé sont compensés s'il existe un droit légal de compenser les actifs et passifs d'impôts exigibles, et s'ils sont liés à des impôts sur les sociétés prélevés par la même administration fiscale sur la même entité imposable, ou sur différentes entités imposables, lorsque le contribuable a l'intention de régler le montant net de ses actifs et passifs d'impôt exigible ou que lesdits actifs et passifs seront liquidés simultanément.

Les impôts différés sont revus à chaque clôture pour tenir compte notamment des changements de législation fiscale et des perspectives de recouvrement des différences temporelles déductibles et des déficits fiscaux. Un actif d'impôt différé n'est comptabilisé que dans la mesure où il est probable que le Groupe disposera de bénéfices futurs imposables sur lesquels cet actif pourra être imputé dans un horizon prévisible ou, au-delà, d'impôts différés passifs de même maturité.

2.9 Subventions publiques et subventions d'investissement

Les entités du Groupe peuvent recevoir des subventions publiques et des subventions d'investissement sous forme de financement direct ou indirect de projets d'investissement, assuré dans la plupart des cas par les collectivités territoriales. Ces subventions sont déduites du coût des actifs concernés et sont comptabilisées dans le compte de résultat consolidé en fonction du rythme de consommation des avantages économiques futurs attendus.

2.10 Ecarts d'acquisition et regroupements d'entreprises

Les regroupements d'entreprises sont comptabilisés en fonction de la méthode de l'acquisition. Les actifs, passifs et passifs éventuels de l'entreprise acquise, qui répondent aux critères d'IFRS 3R, sont comptabilisés à leur juste valeur à la date d'acquisition, à l'exception des actifs non courants (ou des groupes destinés à être cédés) classés comme détenus en vue de la vente selon la norme IFRS 5 *Actifs non courants détenus en vue de la vente et activités abandonnées*, qui doivent être comptabilisés à la valeur la plus faible entre leur valeur comptable et leur juste valeur diminuée des coûts de la vente.

La contrepartie versée correspond à la juste valeur, à la date d'acquisition, des actifs cédés, des engagements souscrits ou des passifs repris, et des instruments de capitaux propres émis par le Groupe en échange du contrôle de l'entreprise acquise. L'écart d'acquisition généré par le regroupement d'entreprises est égal à la différence entre :

- la somme de la contrepartie versée, la valeur de toute participation ne donnant pas le contrôle encore détenue par un tiers après le regroupement, et, le cas échéant, la juste valeur à la date d'acquisition de la participation détenue précédemment par l'acquérant dans la cible,

- et l'écart entre les actifs identifiables acquis et les passifs repris à la date d'acquisition.

Cet écart d'acquisition apparaît à l'actif du bilan consolidé. Lorsqu'il en résulte une différence négative, elle est immédiatement comptabilisée en résultat.

Les coûts annexes directement attribuables à une acquisition donnant le contrôle sont comptabilisés en charges pour les périodes au cours desquelles les coûts sont engagés, à l'exception des coûts d'émission des titres d'emprunt ou de capitaux propres qui doivent être comptabilisés selon les normes IAS 32 *Instruments financiers : Présentation* (« **IAS 32** ») et IAS 39.

Lorsque l'écart d'acquisition est calculé de façon provisoire à la clôture de l'exercice pendant lequel l'acquisition a été effectuée, toute régularisation de cette valeur provisoire effectuée dans les douze mois qui suivent l'acquisition est comptabilisée en contrepartie de l'écart d'acquisition.

Dans le cas de prises de participation ne donnant pas le contrôle (autrement dit, des participations ne donnant pas le contrôle dans une filiale qui fait déjà l'objet d'un regroupement), le Groupe affecte l'intégralité de la différence entre le prix payé et la quote-part dans les actifs nets acquise aux capitaux propres conformément à la norme IAS 27, sans réévaluation des actifs et passifs repris.

Les écarts d'acquisition provenant de l'acquisition de filiales ou de co-entreprises sont présentés séparément dans le bilan consolidé. Les pertes de valeur relatives à ces écarts d'acquisition sont présentées sur la ligne « Amortissements et dépréciations » du compte de résultat consolidé.

Les écarts d'acquisition provenant de l'acquisition d'entreprises associées sont inclus dans la valeur comptable de la participation. Les pertes de valeur relatives à ces écarts d'acquisition sont enregistrées dans la ligne « Résultat des sociétés mises en équivalence ».

Les écarts d'acquisition ne sont pas amortis mais font l'objet d'un test de dépréciation dès l'apparition d'indices de pertes de valeur et au minimum une fois par an selon les modalités et hypothèses décrites en note 16.

Après leur comptabilisation initiale, les écarts d'acquisition sont inscrits à leur coût diminué des pertes de valeur constatées.

2.11 Immobilisations incorporelles

Principes de comptabilisation et d'évaluation

La valeur des immobilisations incorporelles est égale à leur coût moins les amortissements et dépréciations cumulées. Le coût correspond à tous les coûts directement imputables et nécessaires à l'achat, à la création, à la fabrication et à la mise en service de l'actif. Les immobilisations incorporelles sont principalement constituées des IRU, des brevets, des logiciels achetés et des applications développées en interne.

Les IRU correspondent au droit d'utilisation d'une partie des capacités d'un câble de transmission terrestre ou sous-marin octroyé pour une durée déterminée. Les IRU sont comptabilisés comme des actifs lorsque le Groupe possède un droit spécifique d'une partie identifiée de l'actif sous-jacent (généralement, de la fibre optique ou une bande de fréquences exclusive), et que la durée de ce droit correspond à la majeure partie de la durée d'utilité de l'actif sous-jacent. Ils sont amortis sur la durée la plus courte entre la durée d'utilisation attendue et la durée du contrat (entre 3 et 20 ans).

Les brevets font l'objet d'un amortissement linéaire pendant la période d'utilisation prévue (en règle générale, moins de 10 ans).

Les logiciels font l'objet d'un amortissement linéaire pendant la durée d'utilité attendue (en règle générale, moins de 3 ans).

Le coût d'acquisition d'une immobilisation incorporelle développée en interne correspond aux frais de personnel supportés dès lors que l'immobilisation incorporelle répond aux critères de la norme IAS 38. Une immobilisation incorporelle issue du développement d'un projet interne est comptabilisée si le Groupe peut démontrer que toutes les conditions suivantes sont remplies :

- La faisabilité technique permettant l'achèvement de l'immobilisation incorporelle de sorte qu'il soit possible de l'utiliser ou de la vendre.
- Son intention d'achever l'immobilisation incorporelle et de l'utiliser ou de la vendre.
- Sa capacité à utiliser ou à vendre l'immobilisation incorporelle.
- La capacité de l'immobilisation incorporelle à apporter des avantages économiques futurs probables.

Le groupe peut notamment démontrer l'existence d'un marché pour la production de l'immobilisation incorporelle ou l'immobilisation incorporelle elle-même ou, si elle va être utilisée en interne, son utilité.
- La disponibilité des ressources techniques, financières et autres pour achever la conception de l'immobilisation incorporelle, puis pour l'utiliser ou la vendre.
- Sa capacité à mesurer avec exactitude les charges imputables à l'Immobilisation incorporelle pendant sa conception.

L'incorporation dans le coût de l'actif cesse lorsque le projet est terminé et que l'actif est prêt à être utilisé.

Le coût d'une immobilisation incorporelle générée en interne issue de la phase de développement d'un projet Informatique Interne fait l'objet d'un amortissement linéaire pendant la durée d'utilité attendue (en règle générale, moins de 3 ans).

Accords conclus avec les collectivités locales

Pour mettre en place et gérer son réseau, les sociétés du Groupe ont historiquement (et souvent avant leur entrée dans le groupe) conclu des accords avec des collectivités locales et des organismes représentatifs dans le cadre de différents cadres juridiques (Plan Câble, loi relative à la liberté de communication de 1986, etc.). Plusieurs de ces accords octroient des droits exclusifs à l'opérateur et définissent des obligations en matière de fourniture, de programmation, de politique de prix et de redevance à verser pour les services de télévision locaux. Certains constituent des concessions de service public avec des clauses de « retour des biens », en vertu de laquelle la propriété des installations techniques et des ouvrages de génie civil est restituée aux collectivités locales à la fin de la concession.

Les directives sur les télécoms de l'UE (2002), appelées « Paquet Télécom », établissent le principe de la libre concurrence entre les opérateurs du marché des télécommunications, obligeant les organismes de réglementation nationaux à garantir des conditions de concurrence équitables, sans accorder de droits exclusifs ou spéciaux pour l'installation et l'exploitation de réseau. La loi française du 9 juillet 2004, qui transpose le Paquet Télécom, exigeait la mise en conformité des contrats existants d'ici à fin juillet 2007 au plus tard, afin de supprimer les clauses accordant des droits exclusifs et de garantir une utilisation partagée des ouvrages de génie civil.

Seule une minorité des accords noués avec les collectivités locales est susceptible d'appartenir à la catégorie des concessions de service public lorsque ces accords ont été conclus. Par conséquent, IFRIC 12 *Accords de concession de services* n'est appliqué qu'au contrat de délégation du service public signé avec le département des Hauts-de-Seine (*Délégation de Service Public 92).*

Contrat de concession de service public noué avec le département des Hauts-de-Seine

Sequalum, entité comprise dans le Groupe, a été sélectionnée en 2007 par le Conseil Général des Hauts-de-Seine afin de planifier, déployer et exploiter un réseau de fibre à très haut débit *Fiber To The Home* (FTTH) dans l'ensemble du département dans le cadre d'une Délégation de Service Public (DSP) appelée DSP 92. Une DSP est une forme de partenariat public-privé de droit français en vertu duquel une collectivité confie à des entités privées l'exploitation d'un service public moyennant une redevance proportionnelle aux recettes générées par l'exploitation du service en question.

Conformément au contrat de prestation de service signé entre Sequalum et le Conseil Général des Hauts-de-Seine, Sequalum doit construire le réseau (la construction devrait être achevée d'ici 2015), puis assurer l'entretien et l'exploitation du réseau en respectant une norme spécifique pendant 25 ans. A la fin de la 25^{e} année, l'accord prendra fin.

Sequalum prend en charge la construction pour le compte du département des Hauts-de-Seine en échange d'une immobilisation incorporelle (c'est-à-dire le droit de collecter des recettes auprès des utilisateurs du réseau). Conformément à IAS 38 et IFRIC 12, Sequalum comptabilise l'immobilisation incorporelle au coût (net de la subvention reçue, ce qui correspond à la juste valeur de la contrepartie versée pour acquérir l'actif), soit la juste valeur de la contrepartie reçue ou à recevoir pour les prestations de services de construction.

Principales caractéristiques de l'accord :

Tarifs réglementés	**Origine du chiffre d'affaires**	**Subvention octroyée par le concédant**	**Valeur résiduelle**	**Fin du contrat**	**Classification comptable**
Les tarifs sont fixés dans le contrat de services	Utilisateurs	Subvention de 59 millions d'euros pour financer la construction	Le réseau sera restitué au concédant sans indemnité, à l'exception de certains actifs (actifs de reprise)	Le contrat prend fin après 25 ans	Immobilisations incorporelles

2.12 Immobilisations corporelles

La valeur des immobilisations corporelles est égale à leur coût d'acquisition diminué des amortissements et dépréciations cumulés.

Les terrains ne font pas l'objet d'amortissements. Les bâtiments et les locaux font l'objet d'un amortissement linéaire sur 20 ans.

Les composants significatifs des immobilisations corporelles et dont la durée d'utilité est différente font l'objet d'une comptabilisation et d'un amortissement séparés. Concernant le réseau et le matériel technique, les amortissements et les dépréciations sont calculés linéairement et les principales durées sont les suivantes :

Réseau et équipements techniques	***Méthode***	***Durée***
Nœuds du réseau	Linéaire	10 à 15 ans
Câbles optiques	Linéaire	15 à 30 ans
Installations d'ingénierie	Linéaire	20 à 40 ans
Liaisons	Linéaire	5 ans
Terminaux numériques	Linéaire	3 à 5 ans
Mobilier	Linéaire	5 à 10 ans
Agencements	Linéaire	8 à 10 ans
Equipements de transport	Linéaire	2 à 5 ans
Equipements de bureau	Linéaire	3 à 5 ans
Equipements informatiques	Linéaire	3 à 5 ans

La plus-value ou moins-value lors de la cession d'une immobilisation corporelle, qui correspond à l'écart entre le produit constaté au titre de la cession et la valeur comptable de l'immobilisation, est comptabilisée parmi les « Autres produits ou charges opérationnels » au compte de résultat consolidé.

2.13 Contrats de location

Tout contrat de location transférant au locataire la quasi-totalité des avantages et risques inhérents à la propriété d'un actif est comptabilisé comme un contrat de location-financement. Dans tous les autres cas, il s'agit de contrats de location simple.

Lorsque le Groupe est le bailleur

Les montants dus par les locataires dans le cadre des contrats de location-financement sont comptabilisés comme des créances pour le montant de l'investissement net du Groupe dans les contrats de location. Le produit des contrats de location-financement est affecté aux périodes comptables afin d'obtenir un taux de rendement périodique constant sur l'investissement net du Groupe restant dû pour les contrats de location.

Le produit des contrats de location simple est comptabilisé de façon linéaire sur la durée du contrat correspondant. Les coûts directs initiaux supportés lors de la négociation et de la signature du contrat de location simple sont ajoutés à la valeur comptable de l'actif loué et comptabilisé en linéaire sur la durée du contrat de location.

Lorsque le Groupe est le locataire

Les actifs détenus dans le cadre de contrats de location-financement sont initialement comptabilisés comme des actifs du Groupe à leur juste valeur au début du contrat ou, à la valeur actuelle des paiements minimum au titre du contrat, si elle est inférieure. La dette correspondante vis-à-vis du bailleur figure dans le bilan en tant qu'obligation liée au contrat de location-financement. Les paiements liés au contrat de location sont répartis entre les charges financières et la réduction de l'obligation liée au contrat de manière à obtenir un taux d'intérêt constant sur le solde restant dû de la dette. Les charges financières sont immédiatement comptabilisées en résultat. Les loyers conditionnels sont comptabilisés comme des charges pour les périodes concernées.

Les paiements liés à un contrat de location simple sont comptabilisés linéairement en charges pendant la durée du contrat, sauf si une autre base systématique est plus représentative de la consommation dans le temps des avantages économiques de l'actif loué. Les loyers conditionnels en rapport avec des contrats de location simple sont comptabilisés en charges pour les périodes concernées. Si des incitations à la location sont versées pour la signature de contrats de location simple, ils figurent en dettes. L'avantage cumulé des incitations est comptabilisé linéairement sous forme de réduction des charges de location, sauf si une autre base systématique est plus représentative de la consommation dans le temps des avantages économiques de l'actif loué.

2.14 Dépréciation d'actifs

A chaque fois que des événements ou des évolutions de l'environnement économique font peser un risque de dépréciation sur les écarts d'acquisition, ou sur d'autres immobilisations incorporelles, corporelles ou bien sur des immobilisations en cours, le Groupe réexamine leur valeur. En outre, l'écart d'acquisition, les autres immobilisations incorporelles à durée d'utilité indéterminée et les immobilisations incorporelles en cours sont soumis à un test de dépréciation annuel au cours du deuxième semestre de chaque exercice.

L'objet du test de dépréciation est de comparer la valeur recouvrable d'un actif ou d'une unité génératrice de trésorerie (« **UGT** ») à sa valeur comptable.

La valeur nette de réalisation d'un actif ou d'une UGT correspond à la valeur la plus élevée entre sa valeur d'utilité et sa juste valeur après déduction des coûts de vente. Elle est calculée pour chaque actif, à moins que l'actif en question ne génère pas d'entrées de trésorerie largement indépendantes de celles relatives aux autres actifs ou groupes d'actifs. Dans ce cas, elle est calculée pour l'unité génératrice de flux trésorerie à laquelle est rattaché l'actif.

Une unité génératrice de trésorerie correspond au plus petit groupe identifiable d'actifs qui génère des entrées de trésorerie dans une large mesure indépendantes de celles d'autres actifs ou groupes d'actifs. Les UGT sont, pour le Groupe ; « Activités B2C », « Activités B2B » et « Wholesale ».

La valeur d'utilité de chaque actif ou groupe d'actifs correspond à la valeur actualisée des flux de trésorerie futurs (méthode des flux de trésorerie actualisés) qui est calculée en utilisant un taux d'actualisation après impôt pour chaque actif ou groupe d'actifs.

La juste valeur moins les frais de vente correspond au montant que l'on peut obtenir de la vente de l'actif ou du groupe d'actifs lors d'une transaction de gré à gré entre des parties bien informées et consentantes, moins les frais de vente.

Une dépréciation est enregistrée au poste « Amortissements et dépréciations » du compte de résultat si la valeur comptable d'un actif excède sa valeur nette de réalisation. Seules les dépréciations d'actifs autres que l'écart d'acquisition, telles que celles relatives aux immobilisations incorporelles, aux immobilisations incorporelles à durée d'utilité indéterminée et aux immobilisations corporelles, peuvent être reprises.

2.15 Actifs financiers

Le Groupe classe les actifs financiers selon quatre catégories : actifs disponibles à la vente, prêts et créances, titres détenus jusqu'à l'échéance et actifs financiers à la juste valeur par le biais du résultat net. Ils sont répartis entre actifs courants et actifs non courants conformément à IAS 1.

L'achat et la vente de tous les actifs financiers sont comptabilisés à la date de règlement.

Actifs financiers disponibles à la vente

Les actifs financiers disponibles à la vente sont initialement comptabilisés à la juste valeur augmentée des frais de transaction directement imputables à l'acquisition ou à la sortie de l'actif financier. Par la suite, ils sont comptabilisés à la juste valeur. Les profits et pertes liés aux variations de la juste valeur sont directement imputés en capitaux propres jusqu'à cession ou dépréciation des titres. Les produits ou pertes cumulés sont recyclés dans le résultat de la période considérée.

Les actifs financiers disponibles à la vente sont principalement composés des actions d'entreprises qui ne font pas partie du Groupe. La juste valeur correspond au cours des titres cotés ou, dans le cas de titres non cotés, au coût historique, déduction faite de toute dépréciation, lorsque la juste valeur ne peut être évaluée de manière fiable au moyen des techniques habituelles, en l'absence d'un marché actif.

En présence d'indices objectifs d'une dépréciation des actifs disponibles à la vente, la dépréciation cumulée comptabilisée en capitaux propres est recyclée en résultat. Ces indices sont notamment une baisse des flux de trésorerie attendus de ces actifs (par exemple, si l'émetteur rencontre de graves difficultés), une baisse considérable de la rentabilité attendue ou une baisse prolongée de la juste valeur du titre. Les dépréciations d'instruments de capitaux propres classés parmi les actifs disponibles à la vente qui sont recyclées dans le résultat ne sont jamais reprises.

Les actifs financiers disponibles à la vente figurent dans l'actif non courant, à moins qu'il soit prévu de les céder dans les 12 mois qui suivent l'établissement du bilan.

Prêts et créances

Les prêts et créances sont initialement comptabilisés à la juste valeur augmentée des frais de transaction directement imputables à l'acquisition. Après la comptabilisation initiale, ils sont évalués au coût amorti en utilisant la méthode du taux d'intérêt effectif.

Cette catégorie est principalement composée des créances clients et autres créances

En présence d'indices objectifs d'une dépréciation, celle-ci est calculée et correspond à l'écart entre la valeur comptable des actifs financiers et leur valeur nette de réalisation et la différence est comptabilisée en résultat. Les dépréciations peuvent être reprises en cas de hausse ultérieure de la valeur nette de réalisation de l'actif.

Actifs financiers détenus jusqu'à l'échéance

Les actifs financiers détenus jusqu'à l'échéance présentent des paiements fixes ou déterminables et une échéance fixe et le Groupe a l'intention et la capacité de les conserver jusqu'à échéance. Ils sont évalués au coût amorti en utilisant la méthode du taux d'intérêt effectif.

On apprécie s'il existe un indice quelconque montrant qu'un actif a subi une dépréciation.

Aucun actif financier n'est classé dans cette catégorie.

Actifs financiers comptabilisés à la juste valeur par résultat

Ces actifs financiers sont évalués à leur juste valeur et les variations sont comptabilisées au compte de résultat.

Cette catégorie est essentiellement composée des éléments suivants :
- actifs détenus à des fins de transaction qui seront vendus dans un futur proche (principalement des titres négociables) ;
- actifs volontairement classés dans cette catégorie dès l'origine ;
- instruments dérivés actifs.

2.16 Stocks

Les stocks, principalement composés de décodeurs et de matériel technique, sont valorisés à leur coût d'acquisition ou à leur valeur nette de réalisation, si celle-ci est inférieure. Le coût d'acquisition est calculé selon la méthode du coût moyen pondéré. Il comprend les frais d'acquisition des matériels.

La valeur nette de réalisation correspond au prix de vente estimé dans un contexte d'activité normale, après déduction des coûts nécessaires à la réalisation de la vente.

2.17 Trésorerie et équivalents de trésorerie

La trésorerie correspond aux espèces détenues sur des comptes bancaires et sous forme de dépôts.

Les équivalents de trésorerie sont constitués de placements très liquides dont la valeur est peu susceptible de changer et dont l'échéance initiale se situe généralement à moins de trois mois de la date d'achat.

2.18 Passifs financiers et instruments de capitaux propres

Classement en dettes ou en capitaux propres

Les dettes et les instruments de capitaux propres sont classés soit en dettes financières soit en capitaux propres selon la substance de l'arrangement contractuel.

Instruments de capitaux propres

Un instrument de capitaux propres est tout contrat mettant en évidence un intérêt résiduel dans les actifs d'une entité après déduction de tous ses passifs. Les instruments de capitaux propres émis par le Groupe sont comptabilisés pour la valeur des ressources perçues, nette des coûts directs d'émission.

Passifs financiers

Les passifs financiers autres que les instruments dérivés comprennent les emprunts dans le cadre de la dette senior du *Senior Facility Agreement*, les dettes liées aux contrats de location-financement, les dépôts de garantie, les avances reçues et les découverts bancaires.

Ils sont évalués au coût amorti en utilisant la méthode du taux d'intérêt effectif, conformément à IAS 39. Le taux d'intérêt effectif correspond au taux de rendement interne utilisé pour l'actualisation exacte des flux de trésorerie futurs pendant la durée du passif financier. Les commissions et les frais liés à l'émission d'obligations sont inclus dans le calcul du taux d'intérêt effectif tout au long de la durée de vie attendue de l'instrument. Les intérêts cumulés figurent au poste passifs financiers courants dans le bilan.

2.19 Instruments dérivés

Les instruments dérivés sont initialement comptabilisés à la juste valeur à la date où le contrat correspondant est conclu, puis réévalués à la juste valeur.

Des swaps de taux d'intérêt et des caps permettent de gérer l'exposition aux taux d'intérêt. L'objectif est de convertir des instruments financiers à taux d'intérêt variable en instruments à taux fixe. Ces contrats ne sont pas éligibles à la comptabilité de couverture telle que définie par IAS 39, car il n'existe aucune appellation ou documentation sur une quelconque relation de couverture lorsqu'ils sont conclus. Les variations de la juste valeur de ces instruments dérivés sont comptabilisées immédiatement en résultat parmi les produits ou les charges financières.

2.20 Avantages du personnel, provisions et passifs éventuels

Des provisions sont constituées lorsque le Groupe a une obligation légale (en vertu de la législation, de la réglementation ou d'un contrat) ou implicite résultant d'événements passés, et qu'il est probable qu'une sortie de ressources générant des avantages économiques sera nécessaire pour répondre à l'obligation (dont le montant peut être estimé de manière fiable). Les provisions sont réévaluées à la fin de chaque période comptable et font l'objet d'une régularisation afin de correspondre à la meilleure estimation.

Un passif éventuel est une obligation potentielle résultant d'événements passés et dont l'existence ne sera confirmée que par la survenance (ou non) d'un ou plusieurs événements futurs incertains qui ne sont pas totalement sous le contrôle de l'entité ou une obligation actuelle résultant d'événements passés, mais qui n'est pas comptabilisée, car il n'est pas probable qu'une sortie de ressources représentatives d'avantages économiques sera nécessaire pour éteindre l'obligation ou car le montant de l'obligation ne peut être évalué avec une fiabilité suffisante. Le montant de l'obligation est, dans ce cas, mentionnée en annexe, mais n'est pas comptabilisé.

Avantages du personnel

Le Groupe participe à des régimes d'avantages du personnel à cotisations définies et à prestations définies. Les coûts relatifs à un régime de retraite à cotisations définies sont présentés en charges de personnel au compte de résultat consolidé, et comptabilisés lorsqu'il sont supportés.

Les obligations du Groupe relatives aux indemnités de départ à la retraite et aux prestations de fin de contrat sont estimées annuellement, conformément aux dispositions de l'IAS 19 révisé *Avantages du personnel* (« **IAS 19R** ») avec l'aide d'actuaires indépendants, en utilisant la méthode des unités de crédit projetées et en tenant compte des hypothèses actuarielles, notamment la rotation probable des bénéficiaires, les hausses de salaire, l'espérance de vie prévue et la durée d'emploi probable des salariés, et d'un taux d'actualisation adéquat mis à jour annuellement.

Les résultats actuariels découlant des variations des hypothèses actuarielles sont comptabilisés en autres éléments du résultat global.

Litiges

Le montant des provisions pour litiges se fonde sur l'évaluation du niveau de risque et du bien-fondé des demandes.

Restructuration

Les provisions relatives aux coûts de restructuration sont comptabilisées lorsque la version finale du plan de restructuration est approuvée par la Direction et lorsque le Groupe a créé, chez les personnes concernées, une attente fondée qu'il mettra en œuvre la restructuration, soit en commençant à exécuter le plan, soit en leur annonçant ses principales caractéristiques. Ces provisions ne comprennent que les charges directement liées à la restructuration, notamment les indemnités de licenciement, les coûts des départs en préretraite, les coûts des préavis non effectués et les autres coûts directement liés à la fermeture des installations.

2.21 Paiement sur la base d'actions

Le Groupe a accordé des options qui seront réglées en instruments de capitaux propres. En application d'IFRS 2, l'avantage accordé aux salariés au titre des plans de stock-options, évalué au moment de l'attribution de l'option, constitue un complément de rémunération.

Les plans d'attributions d'actions dénoués en instruments de capitaux propres sont évalués à la date d'attribution sur la base de la juste valeur des instruments de capitaux propres accordés. Ils sont comptabilisés comme des charges de personnel, linéairement sur la durée d'acquisition des droits, en prenant en compte l'estimation du Groupe du nombre d'options qui seront acquises à la fin de la période d'acquisition. De plus, pour les plans basés sur des conditions de performance hors marché, la probabilité de réaliser la performance est estimée chaque année et la charge est ajustée en conséquence.

La juste valeur des options attribuées est déterminée en utilisant le modèle d'évaluation Black & Scholes, qui prend en compte une réestimation annuelle du nombre attendu d'options exerçables. La charge comptabilisée est ajustée en conséquence.

2.22 Coûts d'emprunt

Les coûts d'emprunt liés à l'acquisition, à la construction ou à la production d'actifs éligibles sont comptabilisés comme faisant partie du coût de l'actif en question. Il est précisé que le délai de mise en service est relativement court en raison du déploiement progressif du réseau. L'application de la norme IAS 23 *Coûts d'emprunt* n'a donc pas d'impact sur les Comptes Consolidés.

2.23 Résultat par action

Le résultat de base par action est calculé en divisant le résultat attribuable aux porteurs d'actions ordinaires de la société mère par le nombre moyen pondéré d'actions ordinaires en circulation au cours de la période, en excluant le cas échéant les actions propres détenues par le Groupe.

Le résultat dilué par action est calculé en divisant le résultat attribuable aux porteurs d'actions ordinaires de la société mère par le nombre moyen pondéré d'actions ordinaires en circulation au cours de la période, en prenant pour hypothèses que tous les instruments potentiellement dilutifs sont convertis et que le produit supposé de la conversion de ces instruments a été utilisé pour acquérir des actions du Groupe au cours moyen de marché de la période durant laquelle ces instruments étaient en circulation.

Les instruments potentiellement dilutifs comprennent notamment les options de souscription d'actions attribuées, si elles sont dilutives.

3 Principes comptables significatifs et principales sources d'incertitude relatives aux estimations

L'établissement des Comptes Consolidés préparés conformément aux normes comptables internationales IFRS implique que le Groupe procède à un certain nombre d'estimations et retienne certaines hypothèses, jugées réalistes et raisonnables.

Ainsi, l'application de principes comptables pour la préparation des Comptes Consolidés décrits dans la note 2 implique des décisions, des estimations et des hypothèses qui ont une influence sur les montants des actifs et des passifs, mais aussi des produits et des charges.

Ces estimations sont préparées sur la base du principe de continuité d'exploitation, d'après les informations disponibles, en tenant compte de l'environnement économique du moment. Dans le contexte économique actuel, certains faits et circonstances pourraient donc conduire à des changements de ces estimations ou hypothèses, ce qui affecterait la situation financière, le compte de résultat et les flux de trésorerie du Groupe Consolidés.

La valorisation de certains actifs et passifs lors de la préparation de ces Comptes Consolidés se fonde notamment sur certaines hypothèses, en particulier pour les éléments suivants :

- Reconnaissance du chiffre d'affaires : comme indiqué dans la note 2.3, le chiffre d'affaires est comptabilisé à la juste valeur de la contrepartie reçue ou à recevoir lorsque des risques et avantages significatifs liés à la propriété d'un produit ont été transférés à l'acheteur ou lorsque la prestation de service a été rendue. En ce qui concerne les contrats avec des particuliers qui incluent des frais d'installation, de raccordement au réseau et de configuration, l'appréciation des critères de comptabilisation d'IAS 18 nécessite d'avoir recours au jugement notamment pour déterminer si l'installation, la configuration et le raccordement au réseau constituent un service à comptabiliser de manière séparée. En ce qui concerne les frais d'accès au service pour les clients professionnels, le produit est comptabilisé linéairement sur la durée du contrat. En fonction des décisions prises et des estimations, le rythme et les montants des produits comptabilisés pourraient différer sensiblement.

- Capitalisation des coûts de développement : les critères de capitalisation des coûts de développement sont exposés dans la note 2.11. Une fois capitalisés, ils sont ensuite amortis sur la durée d'utilité estimée des produits concernés (généralement 3 ans). Le Groupe doit donc évaluer la faisabilité commerciale et technique des programmes de développement et estimer la durée d'utilité des actifs ainsi conçus. Si ces hypothèses sont ensuite invalidées, il est parfois nécessaire de déprécier ou décomptabiliser certains des coûts de développement capitalisés et incorporés au coût de l'actif. La note 14 présente le montant des coûts capitalisés et incorporés au coût de l'actif dans le bilan consolidé.
- Juste valeur des instruments financiers (voir la note 28.3) : la juste valeur est calculée d'après le cours publié à la clôture de la période. Lorsqu'il n'existe aucune cotation sur un marché actif (par exemple, pour les swaps de taux d'intérêt utilisés actuellement afin de couvrir le risque de taux d'intérêt), la juste valeur est calculée selon des modèles reposant sur des données observables des marchés ou différentes techniques d'évaluation, telles que la valeur actuelle des flux de trésorerie futurs.
- Comptabilisation des actifs d'impôt différé sur déficits reportables (voir les notes 2.8, 4.1.7 et 12) : les actifs d'impôt différé concernent principalement des déficits fiscaux reportables. Les actifs relatifs aux reports de pertes fiscales sont comptabilisés s'il est probable que le Groupe enregistre ultérieurement des bénéfices imposables sur lequel ces déficits fiscaux pourront être imputés. Un examen approfondi est nécessaire pour évaluer la capacité du Groupe à utiliser les déficits fiscaux reportables. Les événements passés, ainsi que les éléments positifs et négatifs de certains facteurs économiques qui peuvent peser sur l'activité du Groupe dans un avenir proche sont analysés afin d'estimer la probabilité d'utilisation future des déficits fiscaux reportables. Au 31 décembre 2013, le Groupe a reconnu un actif d'impôt différé d'un montant total de 132,7 millions d'euros au titre des déficits reportables dont l'utilisation future a été jugée probable sur l'horizon retenu de 5 ans.

- Tests de dépréciation (voir les notes 2.10 et 16) : le calcul des valeurs recouvrables des unités génératrices de trésorerie lors du test de dépréciation annuel implique d'estimer leur juste valeur après déduction des coûts de vente et leur valeur d'utilité. Pour évaluer la valeur d'utilité, la Direction s'appuie sur des hypothèses relatives aux flux de trésorerie de l'exploitation des unités génératrices de trésorerie, ainsi que les taux d'actualisation.

  Le calcul de la valeur d'utilité se fonde sur des hypothèses telles que le taux d'actualisation et le taux de croissance à l'infini au-delà de la période de projection. Ces hypothèses peuvent évoluer et se traduire par une baisse de la valeur comptable en-deçà de la valeur recouvrable, ce qui entraînerait la constatation d'une dépréciation.

  Au 31 décembre 2013 et 2012, les hypothèses utilisées pour calculer la valeur d'utilité des unités génératrices de trésorerie auxquelles l'écart d'acquisition a été affecté étaient les suivantes :

CGU « Opérations B2C »	**2013**	**2012**
Durée de la période de projection	5 ans	8 ans
Taux d'actualisation	7,30%	7,56%
Taux de croissance hors période de projection pour la valeur finale	2,00%	1,75%

CGU « Opérations B2B » et « Wholesale»	**2013**	**2012**
Durée de la période de projection	5 ans	6 ans
Taux d'actualisation	7,14%	9,42%
Taux de croissance à l'infini hors période de projection pour la valeur finale	2,00%	1,00%

Le calcul de la valeur d'utilité repose sur des projections des flux de trésorerie d'après les budgets financiers approuvés par la Direction et dont la période a été ramenée à 5 ans en 2013 conformément aux préconisations d'IAS 36. Les projections relatives au nombre d'abonnés, au chiffre d'affaires, aux coûts et aux investissements sont fondées sur des hypothèses raisonnables et acceptables déterminées par la Direction. Les hypothèses principales comprennent les prévisions de nombre d'abonnés, le revenu moyen par abonné et le niveau d'investissement d'amélioration des infrastructures de réseaux. Les projections sont fondées aussi bien sur l'expérience passée que sur le taux de pénétration anticipé pour les différents produits.

4 Evénements significatifs

4.1 Exercice clos le 31 décembre 2013

4.1.1 Constitution de Numericable Group

Numericable Group a été créée en juillet 2013 et constituée par voie d'apports en numéraire d'un montant initial de 37 milliers d'euros.

Le 7 Novembre 2013, Numericable Group a reçu, dans le cadre du projet d'introduction en bourse de la société, l'apport de deux holdings constituées au Luxembourg, Ypso Holding S.à.r.l et Altice Lux Holding S.à.r.l., respectivement sociétés-mères d'Ypso France et d'Altice B2B France.

Les apports d'Ypso et Altice B2B a Numericable Group ont résulté en une augmentation de capital de la société d'un montant total de 1 995 489 milliers d'euros répartis en 113 772 milliers d'euros d'augmentation de capital social et 1 881 717 milliers d'euros de primes d'émission.

Suite aux apports, le capital de la société s'élevait ainsi à 113 809 milliers d'euros et la prime d'émission à 1 881 717 milliers d'euros.

Par ailleurs, lors de la restructuration de la dette du Groupe qui a eu lieu en 2009 et au cours de laquelle les actionnaires du Groupe avaient acquis certains prêts au titre du SFA Ypso France, Ypso Holding Sàrl avait procédé à l'émission de titres financiers, souscrits par les actionnaires, et notamment 132.664.023 certificats d'actions à intérêts prioritaires subordonnés (subordinated interest preferred equity certificates) (les « Super PEC »), d'une valeur nominale d'un euro et dont les intérêts étaient capitalisables.

Cinven, Carlyle et Altice ont fait apport de ces SuperPEC le 7 novembre 2013 à Numericable Group, dans le cadre des opérations juridiques liées à l'introduction en Bourse. Cette dette a par conséquent été éteinte en contrepartie d'une remise de titres nouvellement émis. Consécutivement, des frais d'extinction de dettes (« Premium ») ont été comptabilisés en charges financières pour un montant de 81,6 millions d'euros. Cette charge n'a eu aucun impact sur la trésorerie du groupe.

4.1.2 Introduction en bourse et augmentations de capital

Le 25 octobre 2013, le conseil d'administration de Numericable Group a décidé du principe de lancement de l'introduction en bourse de la société sur le marché NYSE Euronext Paris.

Le 7 novembre 2013, le conseil d'administration a :

- fixé le prix d'introduction en bourse à 24,80 euros par actions ;
- décidé d'augmenter le capital d'un montant total de 250 000 milliers d'euros par offre au public (dont 10 081 milliers d'euros d'augmentation du capital social par création d'actions nouvelles et 239 919 milliers d'euros de primes d'émission) ;
- proposé une augmentation de capital réservée aux salariés qui a finalement été réalisée pour un montant de 1 034 milliers d'euros (dont 52 milliers d'euros d'augmentation du capital social par création d'actions nouvelles et 982 milliers d'euros de primes d'émission).

La première cotation a eu lieu le 8 novembre 2013.

Les frais engendrés dans le cadre de l'introduction en bourse ont été intégralement imputés sur la prime d'émission pour un montant total de 14 582 milliers d'euros. Ces frais, intégralement supportés par Numericable Group, ont été comptabilisés sans effet d'impôt.

Suite aux opérations d'introduction en bourse, le capital social de Numericable Group s'élevait ainsi à 123 942 milliers d'euros et la prime d'émission à 2 108 037 milliers d'euros.

Se référer également à la note 22.1 pour l'historique de la constition du capital social de Numericable Group.

4.1.3 Attribution d'un plan d'options de souscription d'actions

Le conseil d'administration du 7 novembre 2013 a par ailleurs adopté un plan d'attribution d'options de souscription d'actions au profit de certains mandataires sociaux de Numericable Group et salariés du Groupe.

Ce plan porte sur un nombre total de 2 845 229 options de souscription d'actions équivalent à 2 845 229 actions.

Au 31 décembre 2013, la juste valeur des options attribuées a été évaluée à 9 702 milliers d'euros. La charge reconnue en 2013 au titre du plan s'est elevée à 640 milliers d'euros.

Se référer à la Note 25.2 pour davantage de détails sur ce plan d'options de souscription d'actions.

4.1.4 Acquisition de Valvision

Le 27 juin 2013, le Groupe a procédé au rachat de 100% des actions de la société Valvision, câblo-opérateur présent dans l'est de la France.

La différence entre le prix de l'acquisition (3 340 milliers d'euros) et la quote-part de capitaux propres acquise (219 milliers d'euros), représentatif de la clientèle acquise, soit 3 121 milliers d'euros a été intégralement affecté au poste « Autres immobilisations incorporelles » et fait l'objet d'un amortissement sur une durée de 3 ans.

Aucun complément de prix n'est prévu dans le cadre du contrat d'acquisition.

4.1.5 Acquisition de LTI Telecom

Le 31 octobre 2013, le Groupe a procédé au rachat de 100% des actions de la holding Invescom qui détient 100% de l'opérateur B2B LTI Telecom.

Le prix de l'acquisition s'élève à 25 550 milliers d'euros pour une quote-part de capitaux propres acquise de 609 milliers d'euros. Aucun complément de prix n'est prévu dans le cadre du contrat d'acquisition.

Compte tenu de la date d'acquisition, l'exercice d'allocation du prix d'acquisition aux actifs identifiables et aux passifs assumés n'a pas encore été finalisé au 31 décembre 2013, la société ayant jusqu'au 30 septembre 2014 pour finaliser cet exercice.

Par conséquent, la différence de 24 941 milliers d'euros entre le prix d'acquisition et la quote part de capitaux propres tels qu'ils ressortent des comptes locaux du sous ensemble acquis, a été comptabilisée au 31 décembre 2013 en écart d'acquisition (se référer à la Note 13).

4.1.6 Refinancements de la Dette Senior

Amendements opérés en juillet / aout 2013

En juillet et en août 2013, le Groupe a amendé ses Dettes Senior ce qui a permis au Groupe de rééchelonner une grande partie de sa dette financière. Cette renégociation a également entrainé une évolution de certaines conditions contractuelles, dont le taux de marge applicable à la dette Senior d'Altice B2B.

Cette renégociation des Dettes Senior a été analysée en une simple modification de la dette existante et par conséquent les frais liés à la renégociation des dettes (soit 6.2 millions d'euros) ont fait l'objet d'une comptabilisation au coût amorti par la méthode du taux d'intérêt effectif conformément à IAS 39.

Refinancement opéré en décembre 2013

En décembre 2013, le Groupe a levé une nouvelle tranche de Dette Senior d'un montant total de 800 millions d'euros (Tranche D). Cette tranche est remboursable au 31 décembre 2018 et est rémunérée au taux Euribor plus une marge de 3,75%.

Le Groupe a utilisé les produits de cette émission (800 millions d'euros) ainsi que les produits issus de l'augmentation de capital réalisée dans le cadre de l'offre réservée au public (250 millions d'euros) pour procéder au remboursement de certaines de ses dettes existantes à savoir:

- la totalité de la Dette Senior souscrite à l'origine par Altice B2B France pour 451 millions d'euros ;
- l'intégralité de l'emprunt obligataire de 275 millions d'euros (Tranche C-Two B) souscrit en octobre 2012 ;
- une partie de l'emprunt obligataire de 225 millions d'euros (tranche C-Two A) souscrit en octobre 2012 (remboursement de 78,8 millions d'euros) ;
- une partie de l'emprunt obligataire de 360 millions d'euros (tranche C-One) souscrit en février 2012 (remboursement de 126,1 millions d'euros).

Cette renégociation des Dettes Senior a été analysée comme une extinction de la dette existante et en conséquence :

- les frais d'extinction des emprunts obligataires (« Premium ») supportés par le Groupe ont été comptabilisés en autres charges financières pour 28,0 millions d'euros ;
- les frais relatifs à la mise en place des dettes éteintes en décembre 2013, qui avaient initialement été comptabilisés au coût amorti, ont été comptabilisés en autres charges financières pour 15,2 millions d'euros ;
- les frais liés à la mise en place de la nouvelle tranche D (7,25 millions d'euros) ont fait l'objet d'une comptabilisation au coût amorti par la méthode du taux d'intérêt effectif conformément à IAS 39.

Suite aux refinancements opérés en 2013, l'échéancier des Dettes Senior se présente comme suit au 31 décembre 2013 (valeurs comptables):

Maturité	**2014**	**2015**	**2016**	**2017**	**2018**	**2019**	**Total**
En millions d'euros	42.6	63.4	102.1	821.0	1 223.2	380.0	2 632.4

4.1.7 Impôts différés activés

Au cours de l'exercice, le Groupe a reconnu un actif d'impôt différé d'un montant total de 132,7 millions d'euros au titre des déficits reportables dont l'utilisation future a été jugée probable sur l'horizon retenu de 5 ans.

Compte tenu du montant important de déficits non reconnus restant au 31 décembre 2013 (cf. note 12.4), l'intégralité du produit d'impôt différé reconnu en 2013 a été comptabilisé au compte de résultat et aucun impôt différé actif n'a pas été comptabilisé sur les écarts actuariels présentés en autres éléments du résultat global ni sur les frais d'augmentation de capital imputés sur la prime d'émission.

4.1.8 Enquête approfondie de la Commission européenne sur la cession par certaines collectivités d'infrastructures câblées

Le 17 juillet 2013, la Commission européenne a indiqué avoir décidé d'ouvrir une enquête approfondie afin de déterminer si la cession d'infrastructures câblées publiques opérée entre 2003 et 2006 par plusieurs collectivités territoriales françaises à Numericable était conforme aux règles de l'Union Européenne en matière d'aides d'Etat. La Commission européenne a exprimé à ce stade des doutes sur la compatibilité de l'aide que représenterait l'avantage économique conféré selon elle à Numericable, en raison des conditions de cette cession.

Cette position étant contestée par le Groupe et le risque éventuel en lien avec cette enquête ne pouvant être évalué de façon fiable, aucune provision n'a été constatée dans les comptes au 31 décembre 2013.

4.1.9 Cession-bail de modems

En mai 2013 et en juin 2013, le Groupe a conclu deux contrats de cession-bail (*leaseback)* avec Lease Expansion, pour respectivement 12,7 millions d'euros et 5,9 millions d'euros, concernant les nouveaux modems dénommés "La Box".

La durée de location est de trois ans pour chacun des contrats.

4.1.10 Contrôles fiscaux

Courant 2013, l'administration a entamé une vérification fiscale sur les entités Altice B2B France et Completel concernant les années 2010 et 2011 s'achevant par la remise le 19 décembre 2013 de propositions de rectifications. Ces dernières portent exclusivement sur le rejet de la déductibilité de la charge de certaines prestations de services d'actionnaires réalisées en 2009, 2010 et 2011. Une provision comptabilisée pour risques et charges d'un montant total de 11,4 millions d'euros a été comptabilisée au 31 décembre 2013 afin de couvrir la totalité des redressements envisagés (Impôt sur les sociétés, TVA, retenue à la source, amendes, majorations et intérêts de retard).

4.1.11 Indemnités Lehman Brother

Le Groupe a reçu deux nouveaux versements de 4,5 millions d'euros et 2,6 millions d'euros en juin 2013 et en décembre 2013 respectivement dans le cadre de sa demande d'indemnisation suite à la faillite de Lehman Brothers en septembre 2008 (se référer à la Note 28.4).

4.1.12 Annulation de l'amende de 5 millions d'euros infligée par l'ARCEP

En juillet 2013, le Conseil constitutionnel a estimé que le pouvoir de sanction de l'ARCEP (Autorité de régulation des communications électroniques et des postes) ne répondait pas aux principes d'indépendance et d'impartialité imposés par la Constitution.

Le 21 octobre 2013, le Groupe a obtenu l'annulation par le Conseil d'Etat de la décision de sanction de l'ARCEP du 20 décembre 2011 qui avait condamné Numericable et NC Numericable à une amende de 5 millions d'euros pour non-respect de la décision de l'ARCEP du 4 novembre 2010.

Le Groupe a constaté le produit relatif à l'annulation de cette amende dans les comptes au 31 décembre 2013 dans la rubrique « Autres produits opérationnels » (se référer à la Note 9).

4.1.13 Litige FREE

Le 13 décembre 2013, le tribunal de commerce de Paris a condamné le Groupe à payer à Free la somme de 6 411 milliers d'euros dans le cadre d'un litige portant sur une campagne publicitaire menée par Numericable qui aurait selon Free porté atteinte à sa marque et son image (se référer à la Note 24.2 pour plus de détails sur la procédure). Le Groupe a interjeté appel de ce jugement.

Le Groupe a provisionné l'intégralité de cette condamnation dans les comptes consolidés clos le 31 décembre 2013. Cette condamnation ayant fait l'objet d'une execution début janvier 2014, la provision a été classifiée dans la rubrique « Provisions courantes » du bilan consolidé au 31 décembre 2013.

4.2 Exercice clos le 31 décembre 2012

4.2.1 Emissions obligataires

En 2012, le Groupe a procédé à plusieurs émissions obligataires afin de refinancer une partie de sa dette financière.

En février 2012, le Groupe a émis des obligations à hauteur de 360 millions d'euros. L'émetteur était Numericable Finance & Co. S.C.A. (société de titrisation non réglementée constituée sous forme de société en commandite par actions de droit luxembourgeois). Les produits de cette émission ont permis à Numericable Finance & Co. de financer le rachat de l'intégralité de la part de la banque prêteuse (JP Morgan) dans un prêt (le prêt « C-One ») dont le seul prêteur était la banque elle-même dans le cadre du Senior Facility Agreement, au profit du Groupe, qui a ainsi été en mesure de rembourser certains prêts du Senior Facility Agreement à hauteur de 350 millions d'euros.

L'échéance des obligations se situe le 15 février 2019 et elles portent intérêt à 12,375%. Les coupons sont payés semestriellement le 15 février et le 15 août de chaque année.

En février 2012, le Groupe a également obtenu une nouvelle ligne de crédit revolving (dénommée *Revolving Credit Facility*) dans le cadre de du *Senior Facility Agreement*; elle met à disposition du groupe Ypso un montant maximum de 65 millions d'euros. Son échéance se situe en mars 2016. La part utilisée de cette ligne porte intérêt au taux Euribor plus une marge de 4,5%. La part non utilisée, soit 65 millions d'euros (au 31 décembre 2013), porte un intérêt égal à une commission d'engagement de 2,25%.

Aux termes de la modification et du retraitement du *Senior Facility Agreement* de septembre 2011, l'échéance des engagements de certains prêteurs a été reportée de deux ans (soit 50% de la tranche A et des Capex Facilities et 2/3 des tranches B et C). En outre, le niveau de marge pour les tranches ayant fait l'objet de la prorogation a été modifié et de nouveaux « covenants » financiers ont été mis en place. Le *Senior Facility Amendment and Restatement* de septembre 2011 est entré en vigueur le 15 février 2012.

En octobre 2012, le Groupe a procédé à deux autres émissions obligataires de 225 et 275 millions d'euros respectivement par le biais du même émetteur, Numericable Finance & Co. Les produits de cette émission ont permis à Numericable Finance & Co. de financer le rachat de l'intégralité de la part de la banque prêteuse (JP Morgan) dans deux nouveaux prêts (le prêt « C-Two A » et le prêt « C-Two B ») dont le seul prêteur était la banque prêteuse elle-même dans le cadre du *Senior Facility Agreement*, au profit du Groupe, qui a ainsi été en mesure de rembourser certains prêts de la Dette Senior à hauteur de 490 millions d'euros.

Le prêt « C-Two A » porte sur un montant de 225 millions d'euros. Son échéance se situe le 15 février 2019 et il porte un intérêt annuel de 8,75%. Les coupons sont payés semestriellement le 15 février et le 15 août de chaque année, à partir du 15 février 2013.

Le prêt « C-Two B » porte sur un montant de 275 millions d'euros. Son échéance se situe en octobre 2018 et il porte un intérêt variable égal au taux Euribor plus 7,85% par an. Les coupons sont payés trimestriellement le 15 janvier, le 15 avril, le 15 juillet et le 15 octobre de chaque année, à partir du 15 janvier 2013.

Le Groupe a payé 55 millions d'euros de frais pour la mise en place de ces prêts (C-One, C-Two A et C-Two B) et les modifications correspondantes du *Senior Facility Agreement*. Ce montant comprend :

- les coûts des émissions obligataires d'un montant de 30,2 millions d'euros qui sont amortis sur la durée des obligations en utilisant la méthode du taux d'intérêt effectif ;
- les pénalités d'abandon de crédit (*waiver fees*) pour un montant de 17,4 millions d'euros enregistrées au poste « Autres charges financières » du compte de résultat consolidé pour la période close le 31 décembre 2012 ;

- les commissions et honoraires de conseil pour un montant de 7,4 millions d'euros enregistrées au poste « Autres charges financières » du compte de résultat consolidé pour la période close le 31 décembre 2012.

4.2.2 Rachat du réseau de Nice

En avril 2012, le Groupe a signé un accord avec la municipalité de Nice en vue du rachat du réseau câblé de la ville pour une valeur de 20 millions d'euros.

Le paiement du prix d'achat est effectué comme suit :
- 2,5 millions d'euros en juillet 2012 et 2,5 millions d'euros en janvier 2013 ;
- le solde de 15 millions d'euros est payable sur 20 ans (0,75 million d'euros chaque année de 2013 à 2032) avec un intérêt annuel de 4%.

4.2.3 Contrôles fiscaux

Au cours du troisième trimestre 2012, les contrôles fiscaux mentionnés à la note 12.5 ont été étendus à l'exercice 2010. Les redressements relatifs aux exercices 2005 à 2009 ont été réduits.

Au 31 décembre 2012, le montant de la provision comptabilisée en rapport avec ces contrôles fiscaux n'avait pas été réévalué car le risque financier lié aux redressements pour l'exercice 2010 était équivalent aux réductions consenties par l'administration pour les redressements portant sur les exercices 2005 à 2009.

5 Informations sectorielles

Comme expliqué dans la note 2.7, le Groupe a recensé trois secteurs opérationnels :
- Activités B2B
- Activités B2C
- Wholesale

5.1 Compte de résultat

Les tableaux suivants présentent, pour chaque période, la contribution de chaque secteur aux postes du compte de résultat consolidé (de la rubrique Chiffre d'affaires jusqu'à la rubrique Résultat d'exploitation avant amortissements et dépréciations).

Les ventes intrasectorielles ont été éliminées sous la colonne « Eliminations ».

Exercice 2013 (en milliers d'euros)	**B2C**	**B2B**	**Wholesale**	**Eliminations**	**Total 2013**
Chiffre d'affaires	**869 448**	**312 640**	**200 794**	**(68 640)**	**1 314 242**
Achats externes	(415 127)	(180 195)	(84 333)	68 640	(611 016)
Charges de personnel	(87 144)	(60 504)	(6 982)	-	(154 631)
Impôts et taxes	(20 469)	(8 073)	(5 355)	-	(33 896)
Provisions	(8 616)	(11 567)	(283)	-	(20 466)
Autres produits opérationnels	65 499	20 763	59	-	86 321
Autres charges opérationnelles	(18 588)	(1 878)	-	-	(20 466)
Résultat d'exploitation avant amortissements et dépréciations (EBITDA)	**385 003**	**71 186**	**103 900**	-	**560 088**

Exercice 2012 (en milliers d'euros)	**B2C**	**B2B**	**Wholesale**	**Eliminations**	**Total 2012**
Chiffre d'affaires	**832 568**	**324 506**	**211 476**	**(66 125)**	**1 302 425**
Achats externes	(386 060)	(178 420)	(103 766)	66 125	(602 121)
Charges de personnel	(77 592)	(57 186)	(6 697)	-	(141 475)
Impôts et taxes	(19 901)	(7 569)	(4 926)	-	(32 396)
Provisions	(4 516)	(1 323)	(380)	-	(6 219)
Autres produits opérationnels	68 095	21 108	26	-	89 229
Autres charges opérationnelles	(16 030)	(1 148)	-	-	(17 178)
Résultat d'exploitation avant amortissements et dépréciations (EBITDA)	**396 564**	**99 968**	**95 733**	-	**592 265**

5.2 Ecart d'acquisition

Les écarts d'acquisition se ventilent par secteur de la façon suivante aux 31 décembre 2013 et 2012 :

Valeur nette comptable (en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
B2C	984 583	984 583
B2B	499 045	474 103
Wholesale	-	-
Total	**1 483 628**	**1 458 686**

5.3 Investissements

Les investissements corporels et incorporels (net des subventions d'investissement reçues) sont ventilés par secteur de la façon suivante aux 31 décembre 2013 :

Chiffres exprimés en milliers d'euros	**31 décembre 2013**
B2C	165 473
B2B	73 904
Wholesale	80 452
Total	**319 829**

6 Chiffre d'affaires

Le chiffre d'affaires contributif se décompose de la manière suivante :

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Chiffres d'affaires B2C	864 589	826 171
Chiffres d'affaires B2B	309 646	323 201
Chiffre d'affaires Wholesale	140 007	153 053
Chiffre d'affaires total	**1 314 242**	**1 302 425**

Il est précisé que tout le chiffre d'affaires est réalisé en France.

7 Achats externes

Les achats externes se composent pour l'essentiel des éléments suivants :

(en milliers d'euros)	31 décembre 2013	31 décembre 2012
Coûts du contenu télévisuel, de l'Internet et de la téléphonie	(315 318)	(332 853)
Sous-traitance et achats de services	(98 082)	(90 752)
Marketing	(38 834)	(30 120)
Honoraires	(35 991)	(31 936)
Redevances et licences versées	(12 183)	(12 089)
Droits de passage versés	(14 936)	(15 316)
Loyers et charges locatives	(27 023)	(25 790)
Energie	(25 846)	(23 938)
Créances douteuses	(8 000)	(9 173)
Frais postaux	(4 389)	(4 378)
Frais de transport	(4 654)	(4 286)
Frais de réparation et de maintenance	(11 830)	(11 911)
Charges opérationnelles diverses	(13 930)	(9 579)
Achats externes	(611 016)	(602 121)

8 Charges de personnel

Les charges de personnel se décomposent de la manière suivante :

(en milliers d'euros)	31 décembre 2013	31 décembre 2012
Traitements et salaires	(99 947)	(91 343)
Charges sociales	(45 923)	(43 889)
Participation des salariés	(5 210)	(6 243)
Coûts relatifs au plan de stock options (a)	(3 551)	-
Charges de personnel	**(154 631)**	**(141 475)**

(a) Dont 2,9 millions au titre des contributions patronales dûes lors de l'attribution des actions et 0,6 millions d'euros correspondant au coût du plan reconnu en 2013 (se référer à la Note 4.1.3).

Au 31 décembre 2013, le Groupe employait un total de 2 182 personnes (dont 2 077 contrats à durée indéterminée) contre 1 979 personnes au 31 décembre 2012 (dont 1 910 contrats à durée indéterminée)

Le tableau suivant ventile les effectifs titulaires d'un contrat à durée indéterminée par catégories socioprofessionnelles aux 31 décembre 2013 et 2012 :

Catégories socioprofessionnelles	**31 décembre 2013**	**31 décembre 2012**
Cadres (Managers)	1 096	1 015
Techniciens supérieurs et agents de maîtrise (T.S.M.)	356	322
Ouvriers, employés, techniciens (O.E.T.) (Non Managers)	625	573
TOTAL	**2 077**	**1 910**

9 Autres produits opérationnels

Les autres produits opérationnels se composent pour l'essentiel des éléments suivants :

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Production immobilisée [(a)]	75 853	82 217
Produits de cessions d'actifs	5 078	3 817
Autres [(b)]	5 390	3 195
Autres produits opérationnels	**86 321**	**89 229**

(a) La production immobilisée concerne des travaux sur le réseau effectués par des employés du Groupe en vue de l'accroissement des activités de modernisation du réseau câblé.

(b) En 2013, ce poste inclut le remboursement de l'amende de 5 millions d'euros infligée par l'ARCEP en 2012. En 2012, ce poste incluait principalement divers transferts de charges pour 2,7 millions d'euros.

10 Autres charges opérationnelles

Les autres charges opérationnelles se composent pour l'essentiel des éléments suivants :

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Valeur nette comptable des actifs cédés	(14 741)	(7 382)
Honoraires payées dans le cadre des opérations de refinancement	(4 619)	(7 372)
Frais de gestion payées à nos actionnaires (a)	(1 106)	(2 424)
Charges opérationnelles diverses	-	-
Autres charges opérationnelles	**(20 466)**	**(17 178)**

(a) jusqu'à la date d'introduction en bourse, à partir de laquelle les conventions ont été résiliées.

11 Résultat financier

Les résultats financiers aux 31 décembre 2013 et 2012 peuvent être analysés comme suit :

(en milliers d'euros)	**Note**	**31 décembre 2013**	**31 décembre 2012**
Produits d'intérêt reçus sur trésorerie et équivalents de trésorerie		111	106
Autres produits financiers	**11.1**	9 593	4 220
Produits financiers		**9 704**	**4 326**
Variation de la juste valeur des instruments dérivés		-	-
Charges d'intérêt sur la dette financière, hors impact du taux d'intérêt effectif		(184 839)	(183 057)
Intérêts financiers relatifs à la dette financière brute		**(184 839)**	**(183 057)**
Autres charges financières	**11.2**	(148 513)	(32 699)
Résultat financier		**(323 648)**	**(211 430)**

11.1 Autres produits financiers

Au 31 décembre 2013, les autre produits d'intérêts sont principalement composés :

- Les paiements reçus dans le cadre de l'indemnisation demandée après la faillite de Lehman Brothers en septembre 2008 (voir la note 28.4) pour 7,1 millions d'euros (contre 2,8 millions d'euros en 2012) ;
- De reprises de provisions pour risques et charges financiers pour 1,9 millions d'euros.

11.2 Autres charges d'intérêt

Au 31 décembre 2013, les autres charges financières sont principalement composées :

- des frais d'extinction des emprunts obligataires (« Premium ») supportés par le Groupe pour 28 millions d'euros dans le cadre du refinancement de la dette Senior exposé dans la note 4.1.6 ci-dessus ;
- des frais d'extinction des SuperPECs pour 81 millions d'euros (sans impact sur la trésorerie du groupe dans la mesure où, comme exposé dans la note 4.1.1 ci-dessus, cette dette a été éteinte par émission d'actions dans le cadre de l'introduction en bourse) ;
- de la part non amortie des frais relatifs aux dettes éteintes en décembre 2013 (initialement comptabilisés au coût amorti) pour 15,2 millions d'euros ;
- l'amortissement des frais payés pour la mise en place des financements toujours en place fin 2013 pour 8,3 millions d'euros ;
- de pénalités de retard de déploiement clients pour 4 millions d'euros.

Au 31 décembre 2012, les autres charges financières incluaient principalement :

- des pénalités de remboursement anticipés payées dans le cadre des refinancements de la dette pour 17,4 millions d'euros ;
- l'amortissement des frais payés pour la mise en place des financements pour 6,2 millions d'euros évalués selon la méthode du taux d'intérêt effectif ;
- de pénalités de retard pour 5,6 millions d'euros.

12 Impôts sur les sociétés

12.1 Charge d'impôts sur les sociétés

La charge d'impôts sur les sociétés se décompose comme suit :

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Charge / Produits d'impôts courants	130	(2 486)
Charge / Produits d'impôts différés	132 662	-
Charge (Produits) d'impôts	**132 792**	**(2 486)**

12.2 Réconciliation entre le taux effectif d'impôt et le taux théorique d'impôt

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Résultat net avant impôt	(68 086)	88 912
A déduire : Résultat des sociétés mises en équivalence	484	199
	(67 602)	89 111
Taux d'impôt sur les sociétés en France	38%	34,43%
Charge d' impôts calculée au taux de 38%	**25 689**	**(30 681)**
Réconciliation des charges d'impôts		
Impôts différés activés	132 662	-
Effet des revenus exonérés d'impôt et effet des dépenses non déductibles sur le bénéfice avant impôt (1)	(26 231)	(13 315)
Effet des déficits fiscaux non reconnus comme impôt différé actif	-	41 083
Crédits d'impôts	673	420
Effet des autres différences	-	8
Charges d'impôts comptabilisées en résultat	**132 792**	**(2 486)**
Taux effectif d'impôt (2)	(196,43)%	2,79%

(1) correspond principalement aux charges d'intérêts non déductibles selon les règles de capitalisation restreinte (15,2 millions d'euros au 31 décembre 2013 contre 9,9 millions d'euros au 31 décembre 2012).

(2) Le taux effectif d'impôt est négatif en 2013 compte tenu des impôts différés activés au cours de l'exercice.

Compte tenu du montant important de déficits non reconnus restant au 31 décembre 2013 (cf. note 12.4), l'intégralité du produit d'impôt différé reconnu en 2013 au titre des déficits reportables dont l'utilisation future a été jugée probable sur l'horizon retenu de 5 ans a été comptabilisé au compte de résultat et aucun impôt différé actif n'a pas été comptabilisé sur les écarts actuariels présentés en autres éléments du résultat global ni sur les frais d'augmentation de capital imputés sur la prime d'émission.

12.3 Actifs et passifs d'impôt courants

Les actifs d'impôt exigibles au 31 décembre 2013 s'élèvent à 3,4 millions d'euros et correspondent à des acomptes d'IS et à des Crédits Impot Compétitivité Emploi (CICE) dont le Groupe doit demander le remboursement.

L'impôt sur les sociétés exigible, qui figure au poste « Passifs d'impôt courants », s'élève respectivement pour les exercices clos les 31 décembre 2013 et 2012 à 71 milliers d'euros et 2 604 milliers d'euros.

12.4 Impôts différés actifs non reconnus

Au 31 décembre 2013, les déficits fiscaux reportables cumulés s'élevaient à 2 316 millions d'euros, ce qui représentait un actif d'impôt théorique de 876 millions d'euros. Un impôt différé actif de 132,7 millions d'euros a été reconnu au 31 décembre 2013.

Le total des déficits fiscaux reportables peut être ventilé comme suit :

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Ypso France et ses filiales (1)	1 857 400	1 852 028
Altice B2B France et ses filiales	413 401	402 544
Ypso Holding Lux	45 561	256 173
Total des déficits fiscaux reportables	**2 316 362**	**2 510 745**
Impôt différé actif calculé au taux normal	**876 217**	**851 103**
Dont impôt différé actif reconnu	*132 662*	-
Dont impôt différé actif non reconnu	*743 555*	*851 103*

(1) inclut des pertes contestées par l'administration fiscale (56 millions d'euros au 31 décembre 2013).

12.5 Contrôles fiscaux

Certaines filiales du Groupe, Ypso France, NC Numericable (y compris Numericable et Est Videocommunication fusionnées en 2013) font l'objet d'un contrôle fiscal par l'administration fiscale française pour les exercices clos du 31 décembre 2007 au 31 décembre 2010. Une provision pour risque fiscal d'un montant total de 24,9 millions d'euros est comptabilisée au 31 décembre 2013 (contre 25,1 millions d'euros au 31 décembre 2012) pour couvrir les risques relatifs à ces contrôles.

Au cours de l'année 2013, l'administration a entamé une vérification fiscale sur les entités Altice B2B France et Completel concernant les années 2010 et 2011 s'achevant par la remise le 19 décembre 2013 de propositions de rectifications. Ces dernières portent exclusivement sur le rejet de la charge de prestations de certains services d'actionnaires réalisées en 2009, 2010 et 2011. Une provision pour risques d'un montant total de 11,4 millions d'euros a été comptabilisée au 31 décembre 2013 afin de couvrir la totalité des redressements envisagés (Impôt sur les sociétés, TVA, retenue à la source, amendes, majorations et intérêts de retard).

Le montant total des provisions pour risques fiscaux s'élève ainsi à 36,3 millions d'euros au 31 décembre 2013, contre 25,1 millions d'euros au 31 décembre 2012.

13 Ecarts d'acquisition

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Montant comptabilisé, net		
Solde au début de l'exercice	1 458 686	1 458 638
Ecarts d'acquisition reconnus au cours de la période (1)	24 942	48
Solde à la clôture de l'exercice (2)	**1 483 628**	**1 458 686**

(1) Au 31 décembre 2013, l'écart d'acquisition supplémentaire de 24.9 millions d'euros s'explique par l'acquisition de LTI Telecom (comme indiqué dans la note 4.1.5). L'allocation du prix d'acquisition est provisoire et sera finalisée dans le délai de 12 mois suivant la date d'acquisition. Cet écart d'acquisition a été alloué à l'UGT Activités B2B.

(2) L'écart d'acquisition peut être ventilé comme suit :

Valeur nette comptable (en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Activités B2C	984 583	984 583
Activités B2B	499 045	474 103
Total	**1 483 628**	**1 458 686**

(a) La rubrique « Droits d'usage, brevets et licences » est principalement constitutée de droits d'usage. Ceux-ci correspondent principalement aux droits d'utilisation de l'infrastructure et des installations de génie civil construites par l'opérateur historique France Telecom ainsi qu'aux investissements réalisés au travers des DSP.

(b) Les autres immobilisations incorporelles intègrent principalement les fichiers clients (dont la clientèle Valvision acquise courant 2013, se référer à la Note 4.1.4) ainsi que la production immobilisée au titre des projets informatiques concernant le réseau.

(*) Comme expliqué dans la note 2.11, le Groupe applique l'interprétation de la norme IFRIC 12 en ce qui concerne le contrat de délégation du service public signé avec le département des Hauts-de-Seine (« DSP 92 »).

L'application de cette interprétation a eu les incidences suivantes sur le bilan consolidé 2012:

- Reclassement de la valeur nette comptable à fin 2011 en « Autres immobilisations incorporelles » pour 17,2 millions d'euros (26,6 millions d'euros d'investissements moins 9,5 millions d'euros de subventions reçues au 31 décembre 2011)
- Comptabilisation de 26,4 millions d'euros d'investissements en 2012 dans la rubrique « Droits d'usage, brevets et licences » (38,0 millions d'euros d'investissements moins 11,5 millions d'euros de subventions reçues en 2012)

Ces investissements d'un montant de 26,4 millions d'euros au titre de 2012 réalisés dans le cadre du contrat de délégation du service public signé avec le département des Hauts-de-Seine (Délégation de Service Public 92) sont classés parmi les activités d'investissement dans le tableau des flux de trésorerie consolidé.

A fin 2013, le montant total des investissements (nets des subventions) réalisés dans le cadre de la DSP 92 et classifié en immobilisations incorporelles s'élève à 71,8 millions d'euros.

La valeur nette comptable des actifs détenus par le biais de contrats de location financement se décompose de la manière suivante :

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Terrains	1 029	1 029
Bâtiments	6 558	6 868
Réseau et équipements techniques	53 048	31 632
Autres	79	160
	60 714	**39 689**

16 Tests de dépréciation

16.1 Allocation de l'écart d'acquisition entre les unités génératrices de trésorerie (« UGT »)

Conformément à la norme IAS 36 *Dépréciations d'actifs* (« **IAS 36** »), l'écart d'acquisition a été réparti entre deux UGT, « Activités B2C » (essentiellement NC Numericable) et « Activités B2B » (principalement Completel SAS et LTI Telecom).

16.2 Principales hypothèses retenues pour déterminer la valeur recouvrable des UGT

Le test de dépréciation de l'écart d'acquisition a été réalisé sur la base des unités génératrices de trésorerie définies ci-dessus. Conformément à la norme IAS 36 relative à la dépréciation des actifs, le test de dépréciation est réalisé en comparant la valeur comptable et la valeur recouvrable. La valeur recouvrable est déterminée à partir de la valeur d'utilité calculée selon la méthode des flux de trésorerie actualisés.

La valeur d'utilité est déterminée en utilisant des projections de trésorerie fondées sur des budgets financiers validés par la Direction et portant sur des périodes de 5 ans.

Les projections en matière de nombre d'abonnés, de chiffre d'affaires, de coûts et d'investissements sont fondées sur des hypothèses raisonnables et correspondent aux meilleures estimations de la direction. Les principales hypothèses sont relatives aux nombre d'abonnés et au niveau de dépenses d'amélioration des infrastructures du réseau. Les projections sont fondées aussi bien sur l'expérience passée que sur le taux de pénétration anticipé pour les différents produits.

Comme indiqué dans la note 3, l'établissement de la valeur d'utilité dépend d'hypothèses en matière de taux d'actualisation et de taux de croissance à l'infini. Ces hypothèses peuvent évoluer, ce qui pourrait se traduire par une baisse de la valeur recouvrable en-deçà de la valeur comptable, ce qui entraînerait la constatation d'une dépréciation.

Aucune dépréciation n'a été constatée au 31 décembre 2013 et 2012.

La valeur d'utilité est déterminée à partir des estimations suivantes aux 31 décembre 2013 et 2012:

CGU « Opérations B2C »	**2013**	**2012**
Durée de la période de projection	5 ans	8 ans
Taux d'actualisation appliqué aux projections des flux de trésorerie	7,30%	7,56%
Taux de croissance à l'infini (« GTP ») utilisé pour le calcul de la valeur terminale	2,00%	1,75%

En termes de sensibilité des montants recouvrables, une variation à la hausse ou à la baisse de 0,25% du taux d'actualisation se traduirait par une diminution / augmentation de la valeur recouvrable d'environ 143 millions d'euros. De même, une variation à la hausse ou à la baisse de 0,25% du taux de croissance à l'infini se traduirait par une augmentation / diminution de la valeur recouvrable d'environ 116 millions d'euros.

Au 31 décembre 2013, la valeur recouvrable serait égale à la valeur comptable si les principales hypothèses évoluaient comme suit :

- augmentation du taux d'actualisation de 7,30% à 8,73%;
- diminution du taux de croissance à l'infini de 2,00% à 0,12% ;
- Baisse de la marge brute (calculée à partir de reportings internes) de 50,7% du chiffre d'affaires en moyenne à 46,0% en moyenne sur l'horizon de 5 ans.

CGU « Opérations B2B »	**2013**	**2012**
Durée de la période de projection	5 ans	6 ans
Taux d'actualisation appliqué aux projections des flux de trésorerie	7,14%	9,42%
Taux de croissance à l'infini (« GTP ») utiliés pour le calcul de la valeur terminale	2,00%	1,00%

En termes de sensibilité des montants recouvrables, une variation à la hausse ou à la baisse de 0,25% du taux d'actualisation se traduirait par une dimunution / augmentation de la valeur recouvrable d'environ 74 millions d'euros. De même, une variation à la hausse ou à la baisse de 0,25% du taux de croissance à l'infini se traduirait par une augmentation / une diminution de la valeur recouvrable d'environ 56 millions d'euros.

Au 31 décembre 2013, la valeur recouvrable serait égale à la valeur comptable si les hypothèses principales évoluaient comme suit:

- augmentation du taux d'actualisation de 7,14% à 10,62%;
- diminution du taux de croissance à l'infini de 2,00% à -3,70% ;
- baisse de la marge brute (calculée à partir de reportings internes) de 38,3% en moyenne à 32,1% en moyenne (sur l'horizon de 5 ans).

17 Titres mis en équivalence

Le Groupe exerce une influence notable sur Alsace Connexia Participation, une filiale intégrée selon la méthode de la mise en équivalence. Alsace Connexia Participation était à l'origine détenue à 38,14% par Ypso France, à 38,15% par LD Collectivités et à 23,71% par Sogetrel Réseaux. En 2009, LD Collectivités a acquis la participation de Sogetrel Réseaux, et détient désormais une participation majoritaire (61,86%) dans Alsace Connexia Participation.

Alsace Connexia Participation possède une participation de 70% dans Alsace Connexia. Cette dernière est titulaire d'un contrat de délégation de service public qui lui a été attribué par la Région Alsace, pour la conception, la réalisation, le financement, l'exploitation et la commercialisation d'une infrastructure de télécommunications sur la région pour une période de 15 ans. Le contrat de concession est entré en vigueur le 3 février 2005.

Le tableau ci-après détaille les actifs nets et les résultats opérationnels d'Alsace Connexia Participation :

(en milliers d'euros)	31 décembre 2013	31 décembre 2012
Actif net (1)	7 614	8 888
Quote-part de l'actif net	2 893	3 378

(en milliers d'euros)	2013	2012
Chiffre d'affaires (Alsace Connexia)	14 463	13 050
Résultat net	(1 274)	(524)
Quote-part de résultat	(484)	(199)

(1) Il est précisé qu'aucun écart d'acquisition n'a été reconnu dans l'actif net.

18 Autres actifs financiers courants et non courants

(en milliers d'euros)	Courants		Non courants	
	31 décembre 2013	**31 décembre 2012**	**31 décembre 2013**	**31 décembre 2012**
Instruments dérivés (1)	-	-	-	5
Participations dans des entités qui ne sont pas consolidées (2)	-	-	35	35
Autres actifs financiers (3)	4 020	4 034	7 228	6 791
Total des actifs financiers	**4 020**	**4 034**	**7 263**	**6 831**

(1) Comme indiqué dans la note 28.4, le Groupe disposait jusqu'à fin 2012 de contrats de cap de taux qui lui permettaient de limiter son exposition aux taux d'intérêts mais ces instruments n'étaient pas considérés comme des instruments de couverture au sens de la norme IAS 39. En conséquence, les variations de juste valeur de ces instruments dérivés étaient constatées immédiatement dans le compte de résultat en résultat financier car ces instruments sont directement liés à l'application de la politique de gestion des risques de taux d'intérêt du Groupe, même s'ils ne sont pas considérés comme des instruments de couverture au sens de la norme IAS 39.

Ces instruments dérivés sont classés dans les actifs financiers non courants car ils ne sont pas détenus dans le but principal de les revendre, mais détenus à des fins de couverture du risque de taux.

(2) Les participations dans des entités qui ne sont pas consolidées et classées comme actifs disponibles à la vente incluent notamment Câble Toulousain de Videocom, Médiamétrie Expansion, Rennes Cité Média et TV7 Bordeaux. Ces sociétés ne sont pas comprises dans le périmètre de consolidation car le Groupe n'a pas de contrôle ou d'influence notable sur celles-ci.

(3) Au 31 décembre 2013 et 2012, les autres actifs financiers incluent un gage de 4 millions d'euros accordé dans le cadre de la DSP 92 (classifié en courant, voir également la note 2.11). Le solde correspond à des dépôts de garantie versés par le Groupe notamment dans le cadre des locations de bâtiments.

19 Stocks

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Valeur brute	50 858	46 808
Provision pour dépréciation	(1 290)	(1 199)
Valeur nette comptable	**49 568**	**45 609**

Les stocks sont principalement composés de modems et décodeurs qui seront utilisés par les clients pour la réception des programmes. Le montant des dépréciations constatées pour ramener les stocks à leur valeur recouvrable est non significatif pour les exercices 2013 et 2012.

20 Créances clients et autres créances

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Créances clients	309 998	272 864
Provision pour dépréciation	(33 371)	(27 167)
Créances clients, nettes	**276 627**	**245 697**
Avances et acomptes	2 181	2 211
Créances fiscales et sociales	84 826	141 806
Charges constatées d'avance	32 256	18 025
Autres créances	6 998	9 632
Créances clients et autres créances, nettes	**402 888**	**417 371**

Les créances clients présentées ci-dessus sont évaluées au coût amorti. Les créances clients ayant une échéance courte, leur juste valeur et leur coût amorti sont équivalents à leur valeur nominale.
Les créances clients sont principalement liées aux clients individuels (B2C), qui constituent un très grand nombre de clients répartis dans un grand nombre de zones géographiques.

Clients B2C

Le délai moyen de règlement des clients individuels est de 5 jours. Aucun intérêt de retard n'est appliqué aux créances impayées. Au 31 décembre 2013, hors quelques cas spécifiques, le Groupe a provisionné les créances individuelles échues depuis plus de 90 jours à hauteur de 81% sur la base du taux de recouvrement historiquement observé sur ces créances qui s'élève à 19%. Les créances clients individuelles échues entre 0 et 90 jours sont également provisionnées au cas par cas sur la base de l'historique de recouvrement et d'une analyse de la situation financière du client.

Clients B2B

Au 31 décembre 2013, le Groupe a provisionné les créances clients B2B échues depuis plus de 90 jours à hauteur de 60% sur la base du taux de recouvrement historiquement observé sur ces créances qui s'élève à 40%.

Les créances clients présentées dans le tableau ci-dessus incluent des créances impayées à la clôture de l'exercice (se référer également à l'échéancier des créances clients ci-dessous), qui n'ont pas été provisionnées en l'absence de variation significative du risque de crédit et dans la mesure où les sommes sont toujours considérées comme recouvrables. Le Groupe ne dispose pas d'assurance crédit sur ces créances et ne peut légalement pas compenser ces créances avec les montants que le Groupe doit à la contrepartie.

Echéances des créances clients

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Non exigible	92 610	121 232
0-90 jours	67 888	62 825
> 90 jours	149 508	88 808
Total	**309 998**	**272 864**

La concentration du risque de crédit est limitée étant donné que la base de clients est vaste et disparate. Aucun client ne représente plus de 5% du total des créances clients.

La variation de la provision pour dépréciation des créances clients est comme suit:

(en milliers d'euros)	31 décembre 2013	31 décembre 2012
Solde au début de l'exercice	(27 167)	(26 770)
Dotation de l'exercice	(12 961)	(9 322)
Pertes sur créances irrécouvrables	8 000	8 925
Reprise de provision pour dépréciation	-	-
Créances classées dans les actifs déstinés à être cédés	-	-
Regroupements d'entreprises	(1 243)	-
Solde à la clôture de l'exercice	(33 371)	(27 167)

21 Trésorerie et équivalents de trésorerie

La trésorerie et les équivalents de trésorerie présentés dans le tableau des flux de trésorerie consolidé incluent les disponibilités et dépots à court-terme. La réconciliation entre la position de trésorerie présentée dans le tableau des flux de trésorerie consolidé et la trésorerie présentée dans la rubrique « Trésorerie et équivalents de trésorerie » du bilan consolidé est comme suit:

(en milliers d'euros)	31 décembre 2013	31 décembre 2012
Disponibilités	101 365	7 996
Equivalents de trésorerie	-	-
Trésorerie et équivalents de trésorerie présentés dans le bilan consolidé	**101 365**	**7 996**
Trésorerie des activités cédées ou en cours de cession	-	-
Découverts bancaires comptabilisés en dettes financières dans le bilan consolidé	-	-
Trésorerie et équivalents de trésorerie présentés dans le tableau des flux de trésorerie consolidé	**101 365**	**7 996**

Aux 31 décembre 2013 et 2012, aucun équivalent de trésorerie n'était détenu par le Groupe.

22 Capitaux propres

Au 31 décembre 2013, le capital social de Numericable Group s'élève, sur la base du nombre d'actions émises à cette date, à 123 942 012 euros, divisé en 123 942 012 actions ordinaires d'un montant nominal de 1 euro.

22.1 Evolution du capital

Le capital social a été constitué de la manière suivante au cours de l'exercice 2013 :

Date	Opération	Actions émises
Août 2013	Constitution par voie d'apports en numéraire	37 000
Novembre 2013	Apports en nature des actionnaires	113 772 229
Novembre 2013	Augmentation de capital par offre au public	10 080 645
Novembre 2013	Augmentation de capital par offre aux salariés	52 138
Total au 31 décembre 2013		**123 942 012**

22.2 Actions propres

Le Groupe n'a pas mis en œuvre de programme de rachat d'actions au cours des exercices 2013 et 2012.

De fait, il ne détenait aucune action propre au 31 décembre 2013 et au 31 décembre 2012.

22.3 Résultat par action

(en milliers d'euros)	**2013**	**2012**
Résultat net utilisé pour le calcul du résultat par action - de base	**64 550**	**86 377**
Impact des instruments dilutifs :		
Plan d'options de souscription d'actions (2)	-	-
Résultat net utilisé pour le calcul du résultat par action - dilué	**64 550**	**86 377**

Le tableau ci-dessous fournit le nombre moyen pondéré d'actions ordinaires utilisé pour le calcul du résultat de base et du résultat dilué par action :

(nombre d'actions)	**31 décembre 2013**	**31 décembre 2012**
Nombre moyen pondéré d'actions ordinaires (1)	**115 271 326**	**113 772 229**
Effet des instruments dilutifs:		
Plan d'options de souscription d'actions (2)	-	-
Nombre moyen pondéré d'actions en circulation et dilutives	**115 271 326**	**113 772 229**

(1) Le nombre moyen pondéré d'actions ordinaires retenu dans le calcul du résultat par action correspond, jusqu'à la date d'introduction en bourse, au nombre d'actions émises en rémunération des apports (se référer à la note 22.1 Evolution du capital). Les actions émises dans le cadre de l'offre au public et de l'offre aux salariés ont été retenues prorata temporis.

(2) L'ensemble des options de souscriptions d'actions accordées en 2013 (2 845 229 options) est non dilutif compte tenu du cours moyen de l'action entre la date d'attribution et la date de clôture de l'exercice et de la valorisation du plan.

22.4 Dividendes

Le Groupe n'a pas distribué de dividendes à ses actionnaires au cours des exercices 2013 et 2012.

23 Passifs financiers

Les passifs financiers se décomposent de la manière suivante :

(en milliers d'euros)		Courants		Non courants		Total	
	Note	31/12/2013	31/12/2012	31/12/2013	31/12/2012	31/12/2013	31/12/2012
Passifs financiers dans le cadre du *Senior Facility Agreement*	23.1	42 575	93 187	2 589 784	2 707 498	2 632 359	2 800 685
Titres subordonnés à durée indéterminée	23.2	-	-	37 695	35 208	37 695	35 208
Passifs financiers dans le cadre de contrats de location-financement	30.2	20 578	19 432	20 915	7 886	41 493	27 318
Autres passifs financiers	23.4	1 096	2 113	1 568	131 234	2 664	133 347
Total des prêts et passifs financiers		**64 249**	**114 732**	**2 649 962**	**2 881 826**	**2 714 211**	**2 996 558**
Instruments dérivés		-	-	-	-	-	-
Dépôts de garantie reçus de clients	23.3	-	-	51 932	44 517	51 932	44 517
Découverts bancaires		-	-	-	-	-	-
Total des passifs financiers		**64 249**	**114 732**	**2 701 894**	**2 926 343**	**2 766 143**	**3 041 075**

23.1 Passifs financiers dans le cadre du Senior Facility Agreement

Senior Facility Agreement accordé à Ypso

Le Groupe a conclu un contrat dit *Senior Facility Agreement* (« **SFA** ») en date du 6 juin 2006 (notamment amendé le 2 mars 2007, le 9 décembre 2009, le 8 septembre 2011, le 31 juillet 2013 et le 22 novembre 2013) auprès de BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch et Morgan Stanley Bank International Limited, en tant que chefs de file, BNP Paribas en tant qu'agent et *security agent* et d'autres prêteurs. Certaines filiales du Groupe se sont portées garantes dans le cadre du SFA, chacune assumant, dans certaines limites, les obligations des autres emprunteurs et garants dans le cadre du SFA.

Des engagements financiers (*covenants*) sont attachés au SFA et pourraient avoir un impact sur les taux d'intérêt supportés par le Groupe ainsi que sur les marges applicables au SFA (voir détails ci-dessous).

En 2012, le Groupe a émis trois emprunts obligataires pour refinancer une partie de sa Dette Senior à court terme dans le cadre des SFA. L'émetteur des obligations est Numericable Finance & Co. S.C.A. (société de droit luxembourgeois). Le produit de ces émissions obligataires a été utilisé par Numericable Finance & Co. pour financer trois nouveaux emprunts auprès de la banque prêteuse (JP Morgan) dans le cadre du *Senior Facility Agreement* à destination du Groupe :

- une tranche « C-One » de 360 millions d'euros ;
- une tranche « C-Two A » de 225 millions d'euros ;
- une tranche « C-Two B » de 275 millions d'euros.

En décembre 2013, le Groupe a levé une nouvelle tranche de Dette Senior d'un montant total de 800 millions d'euros (Tranche D). Cette tranche est remboursable au 31 décembre 2018 et est rémunérée au taux Euribor plus une marge de 3,75%.

Le Groupe a utilisé les produits de cette émission (800 millions d'euros) ainsi que le produit issu de l'augmentation de capital réalisée dans le cadre de l'offre réservée au public (250 millions d'euros) pour procéder au remboursement de certaines de ses dettes existantes à savoir:

- la totalité de la Dette Senior souscrite à l'origine par Altice B2B France pour 451 millions d'euros ;
- l'intégralité de l'emprunt obligataire de 275 millions d'euros (Tranche C-Two B) souscrit en octobre 2012 ;
- une partie de l'emprunt obligataire de 225 millions d'euros (tranche C-Two A) souscrit en octobre 2012 (remboursement de 78,8 millions d'euros) – le solde de cet emprunt s'élève ainsi à 146,3 millions d'euros au 31 décembre 2013 ;
- une partie de l'emprunt obligataire de 360 millions d'euros (tranche C-One) souscrit en février 2012 (remboursement de 126,1 millions d'euros) – le solde de cet emprunt s'élève ainsi à 234,1 millions d'euros au 31 décembre 2013.

Le tableau ci-dessous récapitule les différentes tranches en place dans le cadre du contrat de Dette Senior à fin décembre 2013, leur maturité, le taux de marge applicable ainsi que le montant restant à rembourser au 31 décembre 2013:

Tranche	Maturité	Marge / Coupon (1)	Nominal décembre 2013 (2)
A2 et capex 2	Juin 2015	E + 3,875%	51,9
B1	Juin 2014	E + 3,50%	11,2
B2	Juin 2016	E + 4,75%	106,5
B3	Decembre 2017	E + 4,75%	672,1
C1	Decembre 2015	E + 4,00%	36,0
C2	Decembre 2017	E + 5,25%	42,3
C3	Decembre 2017	E + 4,75%	110,9
C4	Decembre 2018	E + 5,00%	426,8
D	Decembre 2018	E + 3,75%	800,0
C-ONE (Obligataire)	Février 2019	12,375%	234,1
C-TWOA (Obligataire)	Février 2019	8,750%	146,3

(1) Euribor ("E") + taux de marge aplicable à la tranche ;
(2) Nominal exprimé en millions d'euros au 31 décembre 2013, hors intérêts courus et hors impact du taux d'intérêt effectif.

Garanties et caution

Les tranches sont garanties sans condition et de façon irrévocable, conjointement et individuellement par chacun des garants (Ypso France SAS et ses filiales) dans le cadre du *Senior Facility Agreement*, sous réserve de certaines limites légales.

Les tranches sont garanties par des sûretés réelles, notamment un nantissement des actions d'Ypso France SAS et ses filiales.

Covenants

La mise à disposition des tranches senior mentionnées à la Note 23.1 ne dépend pas des notes de crédit du Groupe, mais de son respect des *covenants* financiers liés à la capacité du Groupe à générer suffisamment de trésorerie pour rembourser sa dette nette. En conséquence, le *Senior Facility Agreement* comprend des engagements opérationnels et financiers, avec des exceptions particulières, notamment des engagements limitant la capacité du groupe à :

- s'associer, fusionner ou intégrer toute autre société, faire l'objet d'une refonte ou modifier de manière significative la nature de l'activité du groupe dans son ensemble ;
- céder, transférer, louer, prêter ou renoncer à tout ou partie de ses actifs, ou signer un accord à ces fins ;
- entreprendre des transactions importantes non liées aux conditions commerciales normales et ce pour la totalité de la valeur marchande ;
- réaliser des acquisitions ou des investissements ;

- ouvrir ou conserver tout compte auprès d'une banque ou d'une institution financières proposant des services autres que ceux d'une banque ou institution de crédit autorisée à entreprendre des transactions bancaires en France, en Belgique ou au Luxembourg ;
- allouer ou émettre des actions ou des titres ;
- modifier la date de clôture de l'exercice.

Le *Senior Facility Agreement* oblige également le Groupe à se conformer aux engagements financiers suivants :

- un ratio maximum de dette nette consolidée rapporté à l'excédent brut d'exploitation (EBITDA) annualisé ;
- un ratio minimum de trésorerie consolidée rapporté au service de la dette;
- un ratio minimum d'EBITDA annualisé rapporté à la charge d'intérêts consolidée et
- un niveau maximum d'investissements annuel.

Le respect des engagements est vérifié tous les trimestres et un audit annuel au 31 décembre est réalisé lors de la préparation des comptes consolidés d'Ypso France établis conformément aux principes comptables français. Depuis la mise en œuvre du SFA, le groupe a toujours respecté les engagements financiers prévus par celui-ci.

Comme prévu dans le cadre du SFA, les covenants sont calculés sur la base d'agrégats financiers déterminés à partir des comptes consolidés établis par Ypso France conformément aux principes comptables français, et non pas aux normes IFRS. En conséquence, l'EBITDA utilisé pour le caclul des covenant est différent de celui présenté dans le compte de résultat consolidé du Groupe.

23.2 Titres Subordonnés à Durée Indéterminée

En 2006, un montant de 23,7 millions d'euros a été émis sous la forme de Titres Subordonnés à Durée Indéterminée (« **TSDI** ») par NC Numericable, une filiale du Groupe, à destination d'un seul souscripteur, GDF Suez Groupe (Vilorex)(intérets capitalisés exclus). Les fonds issus de cet emprunt sont destinés à financer la construction de prises des villes comprises dans la plaque sud du SIPPEREC (*Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication*), un regroupement de villes situées dans l'agglomération parisienne. L'emprunt est rémunéré à un taux d'intérêt annuel de 7% appliqué sur le montant non amorti des TSDI. Les intérêts des titres sont capitalisés. Le remboursement est soumis à conditions. Le montant total des intérêts courus sur les TSDI s'élevait respectivement à 14,0 millions d'euros et 11,6 millions d'euros aux 31 décembre 2013 et 2012 et ont été classés dans les passifs financiers non courants dans le tableau figurant en note 23.

L'instrument contient une obligation contractuelle de remboursement en numéraire (intérêts inclus) dans le cas où les cash flows générés par l'activité permettraient au Groupe de rembourser le prêt. En vertu des stipulations du contrat, le paiement des intérêts et le remboursement de la dette dépendent du niveau de trésorerie généré mais le Groupe ne dispose pas de droit inconditionnel qui lui permettrait d'éviter le remboursement. En conséquence, l'instrument est considéré comme un passif financier évalué au coût amorti conformément à la norme IAS 32.

23.3 Dépôts de garantie reçus de clients

Les dépôts de garantie reçus de clients représentent respectivement 51,9 millions d'euros et 44,5 millions d'euros aux 31 décembre 2013 et 2012. Ces dépôts sont versés par les clients lorsqu'ils reçoivent les équipements fournis par le Groupe. Ce dépôt leur est remboursé à la fin de la période contractuelle si les factures sont acquittées et le matériel restitué.

23.4 Autres passifs financiers

Au 31 décembre 2013, les autres passifs fianciers incluent divers emprunts bancaires souscrits par Numericable à l'égard de plusieurs banques (principalement envers la *Caisse d'Épargne d'Alsace-Lorraine*) pour 1 648 milliers d'euros et par Completel auprès de divers établissements bancaires pour 609 milliers d'euros.

Au 31 décembre 2012, les autres passifs financiers incluaient également la dette d'Ypso Holding Lux S.à.r.l. à l'égard des actionnaires pour un montant de 128 962 milliers d'euros qui a été éteinte courant 2013 dans le cadre des apports effectués à Numericable Group.

24 Provisions et passifs éventuels

La décomposition et l'évolution des provisions pour les exercices clos au 31 décembre 2013 et 2012 sont comme suit:

(en milliers d'euros)	1er janvier 2013	Mouvement périmètre	Dotation	Utilisation	Reprise	Reclass	31 décembre 2013

Part non courante	62 847	11 399	(6 545)	(1 318)	(2 409)	63 973

(1) Correspond principalement aux provisions pour risques relatives aux frais de non restitution de matériel.

Le Groupe est impliqué dans des procédures judiciaires, administratives ou réglementaires dans le cours normal de son activité.

Une provision est enregistrée par le Groupe dès lors qu'il est jugé probable que de tels litiges entraînent des coûts à la charge du Groupe et que le montant de ces coûts peut être raisonnablement estimé. Certaines sociétés du Groupe sont parties à un certain nombre de contentieux liés aux activités ordinaires du Groupe. Seuls les procédures et litiges les plus significatifs auxquels le Groupe est partie sont décrits ci-après.

Le Groupe n'a pas connaissance d'autres procédures gouvernementales, judiciaires ou d'arbitrage (y compris toute procédure dont le Groupe a connaissance, qui est en suspens ou dont le Groupe est menacé) que celles mentionnées ci-dessous au présent paragraphe, susceptibles d'avoir ou ayant eu au cours des douze derniers mois des effets significatifs sur la situation financière ou la rentabilité de la Société ou du Groupe.

24.1 Litiges fiscaux

L'administration fiscale française a procédé à des vérifications sur diverses sociétés du Groupe depuis 2005 en ce qui concerne les taux de TVA applicables aux offres multi-play du Groupe. En droit fiscal français, les services de télévision sont assujettis à un taux de TVA à 5,5%, qui a été porté à 7% à compter du 1er janvier 2012, tandis que les services internet et de téléphonie sont soumis à un taux de TVA de 19,6%. Lors de la commercialisation d'offres multi-play, le Groupe applique une réduction de prix par rapport au prix auquel il facturerait ces services sur une base individuelle. Le Groupe impute cette réduction de prix principalement sur la part du prix de ses offres multi-play correspondant aux services internet et de téléphonie, parce que ces services ont été plus récemment inclus dans le catalogue d'offres du Groupe . Par conséquent, la TVA facturée aux abonnés multi-play du Groupe est inférieure à celle qui leur serait facturée si la réduction de prix devait s'imputer principalement sur la part du prix de ses offres multi-play correspondant aux services de télévision ou au prorata sur l'ensemble des services.

L'administration fiscale française considère que ces réductions de prix auraient dû être imputées au prorata sur le prix individuel de chacun des services (télévision, internet haut débit, téléphonie fixe et/ou mobile) inclus dans les offres multi-play du Groupe et a adressé des propositions de rectification en ce sens pour les exercices 2006 à 2010.

Le Groupe a formellement contesté les redressements fiscaux relatifs aux exercices 2006 à 2009. Le Groupe a par ailleurs saisi le Ministère des Finances en décembre 2011 et a sollicité un règlement d'ensemble des rectifications opérées par l'administration concernant les différentes sociétés du Groupe pour la période 2006 à 2009. Suite à ces demandes, l'administration a revu à la baisse les montants des redressements pour les années 2008 et 2009 en incluant dans son calcul une limitation basée sur la règle du 50/50 applicable sur la TVA composite qui était en vigueur de 2008 à 2010. Les nouveaux montants des redressements s'élevant à 17,1 millions d'euros (hors pénalités de 40%) pour la période 2006 - 2009 ont été communiqués au Groupe fin août 2012.

En parallèle, en 2012, l'administration fiscale a initié une procédure de vérification du Groupe pour l'exercice 2010, dans les mêmes conditions et pour les mêmes raisons que les vérifications décrites ci-dessus dont le Groupe a fait l'objet dans le passé. Ces procédures ont donné lieu à l'établissement de propositions de rectifications fin juin 2013, calculées à l'identique de 2007 à 2009, pour un montant total de 6,1 millions d'euros (hors pénalités de 40%). Le Groupe a répondu le 21 août 2013 pour contester les rectifications proposées. L'administration a adressé des réponses aux observations du Groupe fin octobre 2013, aux termes desquelles elle maintient ses redressements. A ce jour, les années 2011 et suivantes ne font pas l'objet de contrôles en matière de TVA sur le périmètre Numericable.L'administration a également mis en recouvrement le rappel de l'année 2006 sur NC Numericable (soit environ 2 millions d'euros sur les 17,1 millions d'euros mentionné ci-dessus pour la période 2006-2009). Le Groupe a demandé un sursis de paiement et déposé une réclamation en septembre 2012 qui a été rejetée par l'administration fiscale le 27 juin 2013. Le Groupe a introduit une requête introductive d'instance en date du 20 août 2013.

Les règles de TVA applicables aux offres multiplay ont changé à compter du 1er janvier 2011.

Au 31 décembre 2013, une provision fiscale pour un montant total de 24,9 millions d'euros (contre 25,1 millions d'euros au 31 décembre 2012) est comptabilisée couvrant essentiellement la totalité des risques TVA (hors pénalités de 40% dont le montant s'élèverait à 7,1 millions d'euros) au titre des rectifications notifiées portant sur les exercices 2006 à 2010 (soit 23,5 millions d'euros). Le Groupe a répondu le 21 août 2013 pour contester les rectifications proposées).

Enfin, courant 2013, l'administration a entamé une vérification fiscale sur les entités Altice B2B France et Completel concernant les années 2010 et 2011 s'achevant par la remise le 19 décembre 2013 de propositions de rectifications. Ces dernières portent essentiellement sur la remise en cause de charges de prestations de services dont ont bénéficié les sociétés en 2009, 2010 et 2011. La totalité des redressements envisagés

(Impôt sur les sociétés, TVA, retenue à la source, amendes, majorations et intérêts de retard) est provisionnée au 31 décembre 2013 pour un total de 11,4 millions d'euros. De plus, la proposition de rectification se traduit par une réduction des déficits reportables pour 28,5 millions d'euros. Le Groupe a contesté l'ensemble des redressements envisagés le 17 février 2014.

Au 31 décembre 2013, une provision fiscale pour un montant total de 36,3 millions d'euros a été comptabilisée couvrant essentiellement la totalité des risques TVA (hors pénalités de 40% dont le montant s'élève à 7,1 millions d'euros) au titre des rectifications notifiées portant sur les exercices 2006 à 2010 (soit 24,9 millions d'euros) et les risques liés à la remise en cause de charges de prestations de services au titre des rectifications notifiées portant sur les exercices 2009 à 2011 (soit 11,4 millions d'euros).

24.2 Litiges civils et commerciaux

24.2.1 Enquête approfondie de la Commission européenne sur la cession par certaines collectivités d'infrastructures câblées.

Le 17 juillet 2013, la Commission européenne a indiqué avoir décidé d'ouvrir une enquête approfondie afin de déterminer si la cession d'infrastructures câblées publiques opérée entre 2003 et 2006 par plusieurs collectivités territoriales françaises à Numericable était conforme aux règles de l'Union Européenne en matière d'aides d'Etat. Dans le cadre de l'annonce de l'ouverture de cette enquête approfondie, la Commission européenne a indiqué qu'elle estime que la cession de biens publics à une entreprise privée sans compensation appropriée confère à celle-ci un avantage économique dont ne bénéficient pas ses concurrents et constitue par conséquent une aide d'Etat au sens des règles de l'Union Européenne et que la cession à titre grâcieux de réseaux câblés et de fourreaux opérés par 33 municipalités françaises, selon ses estimations, au profit de Numericable confère un avantage de ce type et comporte par conséquent une aide d'Etat. La Commission européenne a exprimé des doutes sur le fait que cette aide alléguée puisse être jugée compatible avec les règles de l'Union Européenne.
Le Groupe conteste fermement l'existence d'une quelconque aide d'Etat. En outre, cette décision d'ouverture d'enquête concerne un nombre relativement faible de prises réseaux (environ 200 000), dont la majorité n'a pas été rénové en EuroDocsis 3.0 et permet d'accéder seulement à un nombre limité des services de télévision du Groupe. La décision de la Commission européenne du 17 juillet 2013 a été publiée au journal officiel de l'Union européenne le 17 septembre 2013. Depuis lors, les échanges se poursuivent dans le cadre de cette procédure tant au titre des observations de tiers que de celles des parties à la procédure quant à l'allégation de l'existence d'une aide et de son étendue, le Groupe contestant pour sa part fermement l'existence d'une quelconque aide d'Etat.

24.2.2 Litige avec Orange concernant certains IRUs

Le Groupe a conclu quatre IRUs non-exclusifs avec Orange, les 6 mai 1999, 18 mai 2001, 2 juillet 2004 et 21 décembre 2004, dans le cadre de l'acquisition par le Groupe de certaines entreprises exploitant des réseaux câblés construits par Orange. Ces réseaux câblés sont accessibles uniquement grâce aux installations de génie civil d'Orange (principalement ses conduits) qui sont mises à la disposition du Groupe par Orange aux termes de ces IRUs non-exclusifs. Chacun de ces IRUs couvre une zone géographique différente et a été conclu pour une durée de 20 ans.

En application de la décision de l'ARCEP numéro 2008-0835 du 24 juillet 2008, Orange a publié, le 15 septembre 2008, une offre technique et tarifaire d'accès aux infrastructures de génie civil constitutives de la boucle locale filaire à destination des opérateurs de télécommunications permettant aux opérateurs de déployer leurs propres réseaux de fibre optique dans les conduits d'Orange. Les termes de cette offre technique et tarifaire obligatoire sont plus restrictifs que ceux dont le Groupe bénéficiait aux termes des IRUs qu'il a conclus avec Orange. Orange a ensuite demandé à Numericable de suivre les procédures générales d'accès aux installations de génie civil d'Orange, pour le maintien et l'amélioration de son réseau. Cette affaire a été portée devant l'ARCEP (le 4 novembre 2010) et la Cour d'appel de Paris (le 23 juin 2011) qui ont chacune statué en faveur d'Orange. Numericable a formé un pourvoi en cassation et, le 25 septembre 2012, la Cour de cassation, pour l'essentiel, a confirmé la décision de la Cour d'appel de Paris.

Par ailleurs, le 21 octobre 2011, l'ARCEP engagé une procédure de sanction à l'encontre de Numericable en raison du non-respect par Numericable de la décision de l'ARCEP du 4 novembre 2010. Par conséquent, en décembre 2011, Numericable a conclu des avenants aux IRUs avec Orange afin de se conformer à la décision de l'ARCEP du 4 novembre 2010 et d'aligner les procédures d'exploitation prévues au titre des IRUs avec les procédures définies dans l'offre technique et tarifaire générale publiée par Orange.

La conclusion des avenants aux IRUs n'a toutefois pas suspendu la procédure de sanction initiée par l'ARCEP et, le 20 décembre 2011, Numericable a été condamné à payer une amende de 5,0 millions d'euros pour non-respect de la décision de l'ARCEP du 4 novembre 2010. Cette amende a été intégralement payée au cours de l'exercice 2012. Numericable a déposé un recours devant le Conseil d'Etat à l'encontre de cette décision. Dans le cadre de ce recours, Numericable a soulevé une question préjudicielle de constitutionalité, renvoyée devant le Conseil constitutionnel, sur la conformité à la constitution de l'Article L. 36-11 du CPCE qui prévoit les pouvoirs de sanction de l'ARCEP. Le 5 juillet 2013, le Conseil constitutionnel a fait droit à la demande de Numericable et a invalidé les alinéas 1 à 12 de l'Article L. 36-11 du CPCE sur le fondement desquels la décision de sanction de l'ARCEP du 20 décembre 2011 mentionnée ci-dessus a été rendue. Numericable a demandé au Conseil d'Etat de tirer les conséquences de cette décision et d'annuler, en conséquence, la décision de l'ARCEP du 20 décembre 2011. Le 21 octobre 2013, le Conseil d'Etat a annulé la décision de sanction de l'ARCEP du 20 décembre 2011 qui avait condamnée Numericable et NC Numericable à une amende de 5 millions d'euros pour non-respect de la décision de l'ARCEP du 4 novembre 2010.

En parallèle, Numericable a assigné Orange devant le tribunal de commerce de Paris le 7 octobre 2010 et demande sa condamnation au paiement de la somme de 2,7 milliards d'euros à titre de dommages et intérêts pour le préjudice résultant de la violation et la modification des IRUs par Orange. Le 23 avril 2012, le tribunal de commerce de Paris s'est prononcé en faveur d'Orange et a rejeté les demandes en dommages et intérêts de Numericable, estimant qu'il n'y avait pas de différences significatives entre les procédures d'exploitation d'origine et les nouvelles procédures d'exploitation imposées à Numericable par Orange aux termes de son offre technique et tarifaire générale publiée le 15 septembre 2008. Numericable a interjeté appel de cette décision devant la Cour d'appel de Paris et demande le même montant de dommages et intérêts. Orange, de son côté, soutient que cette procédure a affecté de manière significative sa marque et son image et demande la condamnation de Numericable au paiement de la somme de 50 millions d'euros à titre de dommages et intérêts. La Cour d'Appel de Paris devrait rendre sa décision pendant le second trimestre de l'année 2014.

24.2.3 Litige avec Free concernant l'annonce d'une offre mobile

Une action a été intentée le 3 août 2011 à l'encontre de Numericable et NC Numericable devant le tribunal de commerce de Paris par l'opérateur de télécommunications Free concernant le lancement de l'offre mobile de Numericable au printemps 2011 au travers d'un évènement annoncé comme « La révolution du mobile continue ».

Free, qui a utilisé le terme « révolution » pour désigner ses services de téléphonie mobile et dont la dernière offre porte le nom de « Freebox Révolution », affirme, entre autres, que la campagne de Numericable a créé de la confusion chez les consommateurs et a porté atteinte à sa marque et à son image. Par deux assignations, Free demande la condamnation de Numericable et NC Numericable au paiement d'une somme globale s'élevant à 10 millions d'euros à titre de dommages et intérêts. A l'issue des plaidoiries, le tribunal a sollicité un avis de la direction générale de la concurrence, de la consommation et de la répression des fraudes (DGCCRF) concernant la réalité des allégations de Free au regard du droit de la publicité. La DGCCRF a rendu un avis dans lequel elle indique considérer que les points soulevés par Free ne constituent pas une publicité mensongère ou irrégulière non-conforme au droit de la publicité applicable. Toutefois, le 13 décembre 2013, le tribunal de commerce de Paris a condamné NC Numericable à payer à Free la somme de 6 391 000 euros. NC Numericable a interjeté appel de ce jugement. Le jugement étant exécutoire et la somme versée début 2014, le risque a été intégralement provisionné au 31 décembre 2013.

24.2.4 Litiges avec divers éditeurs de services à valeur ajoutée (SVA)

Par assignations groupées en date du 19 février 2013, cinq sociétés éditrices de services téléphoniques à valeur ajoutée qui proposent leurs services au public au moyen de numéros surtaxés (0899) de Completel, ont assigné Completel devant le tribunal de commerce de Nanterre et demandé sa condamnation au paiement de la somme globale de 350 000 euros à titre de remboursement de sommes correspondant à des retenues prélevées par Completel sur les sommes perçues pour leur compte. Completel a procédé à ces retenues en réponse aux pratiques de ces sociétés qu'elle estime contraires aux contrats conclus entre ces sociétés et Completel ainsi qu'aux règles déontologiques du secteur. Elles sollicitent en outre le versement de dommages et intérêts d'un montant global de 12 millions d'euros en réparation du préjudice prétendument subi à raison de la rétention des sommes par Completel.

Par ailleurs, Completel ayant décidé en novembre 2012 de mettre un terme à cette activité, elle a suspendu certains reversements et appliqué diverses pénalités contractuelles à des sociétés commercialisant ce type de services téléphoniques à valeur ajoutée. Certaines de ces sociétés ont assigné Completel devant divers tribunaux de commerce et demandé sa condamnation au paiement des sommes retenues par Completel ou la suppression des pénalités appliquées par Completel. Le montant global montant réclamé s'élève à environ 400 000 euros, représentant essentiellement des sommes perçues pour le compte des éditeurs.

24.2.5 Litige avec la Ligue de Football Professionnel

Par assignation du 26 avril 2013, la Ligue Professionnelle de Football (la « LFP ») demande au tribunal de commerce de Nanterre de constater que la société Numericable aurait abusé de sa position dominante et manqué à ses obligations de non-discrimination à l'égard de la LFP lorsque cette dernière éditait la chaîne CFoot. La LFP demande 4,1 millions d'Euros de dommages et intérêts en réparation de son préjudice à ce titre. Plus particulièrement la LFP reproche à Numericable le faible niveau de rémunération perçue pour la commercialisation de sa chaîne CFoot par comparaison avec les rémunérations de certaines chaînes de sport commercialisées au sein de bouquets de chaînes. L'audience de plaidoierie devrait intervenir durant l'année 2014.

24.2.6 Action de Colt, Free et Orange devant le tribunal de l'Union européenne concernant le projet DSP 92

Les sociétés Colt, Free, et Orange, par trois actes distincts d'introduction d'instance à l'encontre de la Commission européenne, ont saisi le tribunal de l'Union européenne aux fins d'annulation de la décision finale de la Commission européenne en date du 30 septembre 2009 (décision No. C (2009) 7426) qui a considéré que la compensation de charges de service public de 59 millions d'euros accordée pour l'établissement et l'exploitation d'un réseau de communications électroniques à très haut débit dans le département des Hauts de Seine ne constitue pas une aide d'Etat au sens des règles de l'Union Européenne. Le Groupe n'est pas partie à cette instance, la filiale du Groupe Sequalum agissant en qualité d'intervenant, de même que l'Etat français et le département des Hauts de Seine. Par trois arrêts en date du 16 septembre 2013, le tribunal de l'Union européenne a rejeté les recours des trois requérants et confirmé la décision de la Commission européenne mentionnée ci-dessus. Free et Orange ont formé un pourvoi devant la Cour de justice de l'Union européenne.

24.2.7 Réclamation de Bouygues Télecom

Fin octobre 2013, le Groupe a reçu une réclamation de la société Bouygues Télécom relative au contrat « marque blanche » conclu le 14 mai 2009, initialement pour cinq ans et prolongé une fois pour cinq ans de plus, entre ces sociétés pour la fourniture à Bouygues Télécom d'offres double- et triple-play très haut débit. Dans ce courrier, Bouygues Télécom réclame des dommages-intérêts d'un montant total de 53 millions d'euros à raison de ce contrat. Ainsi, Bouygues Télécom allègue un préjudice qui justifierait, selon Bouygues Télécom, des dommages-intérêts incluant (i) un montant de 17,3 millions d'euros à raison d'un dol pré-contractuel (communication d'informations erronées préalablement à la conclusion du contrat), (ii) un montant de 33,3 millions d'euros à raison de défaillances par les sociétés du Groupe dans l'exécution du contrat et (iii) un montant de 2,4 millions d'euros à raison d'un préjudice d'image subi par Bouygues Télécom. Le Groupe considère ces réclamations infondées, tant sur le plan des faits que sur le plan contractuel, et conteste tant les allégations de Bouygues Télécom que le montant des préjudices invoqués. Il entend néanmoins poursuivre les discussions opérationnelles se déroulant régulièrement entre les parties concernant le suivi de ce contrat, pour lequel Bouygues Télécom demande des aménagements contractuels dans le cadre de sa réclamation. Nonobstant cette réclamation qui n'a pas connu de suite judiciaire, les parties poursuivent leur collaboration quotidienne dans des conditions identiques à celles qui prévalaient avant octobre 2013. Ce contrat, qui court jusqu'en 2019, a généré 37,3 millions d'euros de chiffre d'affaires en 2012, soit 49,6% du chiffre d'affaire total marque blanche B2C de 75,3 millions d'euros et 2,8% du chiffre d'affaires total du Groupe.

24.2.8 Enquête par la Chambre Régionale des Comptes d'Ile-de-France concernant la DSP 92

Mi-novembre 2013, un certain nombre d'articles de presse ont rapporté que la Chambre Régionale des Comptes d'Ile-de-France aurait ouvert une enquête sur la gestion du département des Hauts-de-Seine entre 2004 et 2007. Les articles de presse rapportaient que cette enquête se concentrerait principalement sur l'attribution du projet DSP 92 à Numericable et en particulier sur l'octroi de 59 millions d'euros à titre de compensation de charges de service public pour l'établissement et l'exploitation d'un réseau de communications électroniques à très haut débit dans le département des Hauts de Seine. Le Groupe ne dispose d'aucune information concernant l'objet ou le calendrier de cette enquête et donc quant à sa nature exacte ou ses effets potentiels sur le Groupe. Néanmoins, le Groupe note, comme indiqué ci-dessus, que la DSP 92 a été validée par les juridictions administratives françaises, la Commission européenne et le tribunal de l'Union européenne devant lesquelles la DSP 92 était attaquée et qu'en outre, la Cour des Comptes n'a aucun pouvoir d'action à l'encontre d'une entité non-gouvernementale.

24.2.9 Litiges prud'homaux

Le Groupe est impliqué dans un certain nombre de litiges prud'homaux dont une part importante résulte de la dernière période de fusion survenue en 2006-2007, avec UPC-NOOS, qui a donné lieu, jusqu'en 2009, à des ajustements et harmonisations des pratiques sociales qui ont pu être conflictuels. Le Groupe encourt un risque global de condamnation d'environ 4 millions d'euros pour l'ensemble de ces contentieux. L'essentiel de ces contentieux consiste en une contestation par le salarié des motifs et ou de la forme de son licenciement.

25 Avantages du personnel

25.1 Provisions pour retraites

En France, les salariés du Groupe bénéficient d'un régime général de retraite. Le Groupe reverse ainsi à l'état les cotisations sociales dues dans le cadre de ces régimes généraux. Ce régime est considéré comme un régime à contribution définie tel que défini par la norme IAS 19 R. Les salariés du Groupe sont rattachés à la Convention Collective Nationale des Télécommunications, qui est utilisée pour calculer le montant de l'indemnité de retraite dûe lors du départ en retraite du salarié.

Les indemnités de départ à la retraite ont été évalués individuellement, sur la base de plusieurs paramètres et hypothèses, notamment l'âge, le poste occupé, l'ancienneté et le salaire, conformément à leur contrat de travail.

25.1.1 Hypothèses employées pour les plans à prestations définis

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Taux d'actualisation	3,0%	3,0%
Taux de croissance des salaires	3,0%	3,0%
Taux d'inflation	2,0%	2,0%
Taux de rotation des cadres (moyenne)	9,0%	7,0%
Taux de rotation des autres employés (moyenne)	18,0%	15,0%

Le taux de rotation peut fortement varier en fonction de l'ancienneté.

25.1.2 Composantes de la charge

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Coût des services rendus	881	713
Charge d'intérêt	253	287
Rendement attendu des actifs du plan	-	-
Reconnaissance des écarts actuariels	458	1 496
Coût des services passés	-	-
Regroupements d'entreprise	157	-
Réductions/Paiements	(36)	(57)
Charge au titre des avantages postérieurs à l'emploi	**1 714**	**2 439**
Dont pertes (gains) actuariels comptabilisés en autres éléments du résultat global	458	1 496
Exprimé en pourcentage de la valeur actuelle des engagements de retraites	4,5%	17,7%

Les gains et pertes actuariels découlant des variations des hypothèses actuarielles sont comptabilisés directement dans les autres éléments du résultat global.

25.1.2.1 Variation de l'engagement

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Engagement au titre des régimes à prestations définies à l'ouverture de l'exercice	**8,455**	**6,101**
Coût des services rendus	881	713
Charge d'intérêt	253	287

Apports versés	-	-
Ecarts actuariels	458	1 496
Prestations versées	(36)	(87)
Coût des services passés	-	-
Regroupement d'entreprises	157	-
Réductions/Paiements	-	(57)
Engagement au titre des régimes à prestations définies à la clôture de l'exercice	**10,168**	**8,455**

25.2 Plan d'options de souscription d'actions

Le conseil d'administration du 7 novembre 2013 a adopté un plan d'attribution d'options de souscription d'actions au profit de certains mandataires sociaux de Numericable Group et salariés du Groupe.

Ce plan porte sur un nombre total de 2 845 229 options de souscription d'actions équivalent à 2 845 229 actions. Le prix d'exercice de l'option est de 24,80 euros par action (soit le prix fixé lors de l'introduction en bourse de la société).

Le plan a une durée de huit ans à compter du 7 novembre 2013 et ce jusqu'au 7 novembre 2021.

L'exercice des options est soumis à des conditions de présence et de performance (basée sur les indicateurs chiffre d'affaires et EBITDA - capex du Groupe).

L'acquisition des options se fait en trois périodes :

- 50% en novembre 2015 ;
- 25% en novembre 2016 ;
- 25% en novembre 2017.

Au 31 décembre 2013, la juste valeur des options a été évaluée à 9 702 milliers d'euros. La charge reconnue en 2013 au titre du plan s'est elevée à 640 milliers d'euros.

Les principales hypothèses retenues pour la valorisation du plan sont reprises dans le tableau ci-dessus :

	Options de souscriptions - Novembre 2013
Juste valeur unitaire en date d'attribution	3,41
Prix de l'action en date d'attribution	24,80
Prix d'exercice de l'option	24,80
Volatilité attendue (moyenne pondérée)	25%
Date d'expiration (maturité)	Novembre 2021
Dividendes attendus	4%
Taux d'intérêt sans risque (basé sur les obligations d'État)	0,75%

26 Autres passifs non courants

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Produits constatés d'avance (à plus d'un an)	97 429	105 791
Dettes fournisseurs non courantes	4 874	5 175
Dettes fiscales et sociales non courantes	282	300
Autres passifs non courants	**102 585**	**111 266**

A la clôture de l'exercice, les produits constatés d'avance sont principalement constitués du chiffre d'affaires non reconnu provenant de la location du réseau.

Dans le cadre de certains contrats conclus avec des clients B2B, le Groupe reçoit des paiements d'avance relatifs à des contrats d'IRU et des frais d'accès aux services. Le chiffre d'affaires relatif à ces contrats est généralement étalé sur la durée du contrat.

La part non courante des produits constatés d'avance présentés dans le tableau ci-dessus correspond au chiffre d'affaires qui sera reconnu dans plus d'un an à compter de la date clôture.

La part courante des produits constatés d'avance (c'est-à-dire qui sera constatée dans les douze mois suivants la clôture de l'exercice) est classée dans la rubrique « Dettes fournisseurs et autres dettes » comme indiqué en note 27.

27 Dettes fournisseurs et autres dettes

(en milliers d'euros)	**31 décembre 2013**	**31 décembre 2012**
Dettes fournisseurs courantes	513 979	416 183
Dettes fournisseurs d'immobilisation	78 494	87 145
Avances et acomptes reçus	20 464	19 884
Comptes courants	49	21 219
Dettes fiscales	24 987	87 358
Dettes sociales	54 412	45 871
Produits constatés d'avance (à moins d'un an)	57 441	45 319
Autres dettes	7 592	3 054
Dettes fournisseurs et autres dettes	**757 418**	**726 033**

28 Instruments financiers

Les principales règles et méthodes comptables adoptées (critères de reconnaissance, méthodes d'évaluation et méthodes de reconnaissance des produits et charges) pour chaque classe d'actifs financiers, de passifs financiers et d'instruments de capitaux propres sont détaillées dans les notes 2.15 et 2.19.

28.1 Juste valeur des instruments financiers

Méthodes d'évaluation et hypothèses appliquées afin de déterminer la juste valeur des instruments dérivés

La juste valeur des instruments dérivés est calculée à l'aide de prix de marchés. Lorsque de tels cours ne sont pas disponibles, une analyse des flux de trésorerie actualisés est menée, en utilisant la courbe d'intérêt applicable pour la durée des instruments dans le cas de produits dérivés sans option, et des modèles d'évaluation des options dans le cas d'instruments dérivés optionnels. La juste valeur des swaps de taux d'intérêt est mesurée à la valeur actuelle des flux futurs de trésorerie estimés et actualisée selon les courbes de taux applicables dérivées des taux d'intérêts de marché.

Conformément aux amendements apportés à la norme IFRS 7, le Groupe classe ses instruments financiers évalués à la juste valeur selon trois niveaux (la hiérarchie de la juste valeur).

- Niveau 1 : l'évaluation de la juste valeur est dérivée de prix de marché (non ajustés) issus de marchés actifs pour des actifs ou passifs identiques.
- Niveau 2 : l'évaluation de la juste valeur est dérivée de données autres que les prix de niveau 1, qui sont observables pour l'actif ou le passif, soit directement (par exemple des prix), soit indirectement (par exemple, des éléments dérivant du prix).
- Niveau 3 : l'évaluation de la juste valeur est dérivée de techniques d'évaluation incluant des données sur l'actif ou le passif qui ne sont pas fondées sur des données observables sur le marché (informations non observables).

Les niveaux de juste valeur sont présentés dans les tableaux ci-dessous.

Evaluation de la valeur des autres actifs financiers

Compte tenu de leur courte échéance, la juste valeur de la trésorerie et des équivalents de trésoreries, des créances commerciales et autres actifs courants, des dettes commerciales et autres passifs courants est très proche de leur valeur nette comptable.

Les participations dans des entités non incluses dans le Groupe sont des titres non cotés. De ce fait, leur juste valeur ne peut pas être mesurée de manière fiable et ils sont donc évalués à leur coût d'acquisition.

Garanties financières

Dans le cadre du *Senior Facility Agreement*, les actifs du Groupe ont été donnés en garantie aux banques prêteuses.

28.2 Actifs financiers

		31 décembre 2013 – Actifs financiers				
(en milliers d'euros) – montants nets	Niveau de juste valeur	Disponibles à la vente	Prêts et créances	Evalués à la juste valeur par le compte de résultat	Détenus jusqu'à échéance	Total des actifs financiers
Créances clients et autres créances	2	-	402 888	-	-	402 888
Titres mis en équivalence	3	2 893	-	-	-	2 893

Trésorerie et équivalents de trésorerie	1	-	-	7 996	-	7 996
Actifs financiers		**3 412**	**428 196**	**7 996**	**5**	**439 609**

28.3 Passifs financiers

A l'exception des instruments dérivés, les passifs financiers sont évalués à leur coût amorti, qui correspond à la valeur estimée du passif financier au moment de sa comptabilisation initiale, minorée des remboursements en principal, et minorée ou majorée de l'amortissement cumulé, déterminé selon la méthode du taux d'intérêt effectif, provenant de tout écart entre ce montant initial et le montant à la date de maturité, et déduction faite de toute provision pour dépréciation ou irrécouvrabilité.

Les instruments dérivés détenus jusqu'à échéance sont évalués à la juste valeur par le compte de résultat.

Les emprunts obligataires sont côtés sur l'Irish Stock Exchange, leur cours au 31 décembre 2013 sont les suivants :

- Tranche CONE, coupon 12.375%, échéance février 2019 : 122,83 ;
- Tranche CTWOA, coupon 8. 75%, échéance février 2019 : 113,94.

28.4 Objectifs de gestion des risques financiers

Objectif de la fonction de trésorerie du Groupe

Le service trésorerie du Groupe fournit des services, coordonne l'accès aux marchés financiers nationaux et internationaux, évalue et gère les risques financiers liés aux activités du Groupe par le biais de rapports internes, qui analysent l'exposition aux différents risques financiers. Ces risques comprennent les risques de marché (principalement les risques de taux d'intérêt, puisque les activités du Groupe ne l'exposent pas aux risques de change), les risques de crédit et les risques de liquidité. L'objectif du Groupe est de limiter ces risques au maximum en utilisant des instruments financiers dérivés pour couvrir les risques d'exposition. Le Groupe ne dispose d'aucun instrument financier, dérivés incorporés, ni n'opère de transaction sur ceux-ci, à des fins spéculatives.

Gestion des risques liés au taux d'intérêt

Le Groupe est exposé aux risques liés au taux d'intérêt car il emprunte des fonds, la plupart du temps à un taux d'intérêt variable. Le Groupe limite ces risques en concluant, lorsqu'il le juge approprié, des contrats de swap de taux d'intérêt et des contrats de cap de taux. Bien que le Groupe n'applique pas les dispositions de la norme IAS 39 en matière de comptabilité de couverture, la stratégie de couverture est régulièrement revue de manière à l'adapter à l'évolution prévisible des taux d'intérêt, de manière à garantir une stratégie de couverture la plus efficace possible, conformément aux exigences du SFA.

L'exposition du Groupe aux taux d'intérêt sur les actifs et passifs financiers est détaillée dans le paragraphe intitulé « Gestion du risque de liquidité » de la présente note.

Analyse de la sensibilité au taux d'intérêt

L'analyse de sensibilité présentée ci-après a été réalisée sur la base de l'exposition aux taux d'intérêt des instruments dérivés et non dérivés à la clôture de l'exercice. Pour les dettes à taux variables, l'analyse a été réalisée en estimant que le solde à rembourser à la clôture de l'exercice était constant sur l'ensemble de l'exercice. Une hausse ou une baisse de 50 points de base est utilisée pour la présentation interne du risque de taux d'intérêt à la direction. Il s'agit de l'estimation de la Direction en matière d'évolution possible des taux d'intérêt.

Si les taux d'intérêt avaient varié à la baisse (ou à la hausse) de l'ordre de 50 points de base, toutes choses égales par ailleurs, le résultat net du Groupe au 31 décembre 2013 aurait été majoré (ou minoré) de 12 millions d'euros. Cette variation découle principalement de l'exposition du Groupe aux taux d'intérêt sur la partie de ses emprunts à taux variable.

Contrats de swap de taux d'intérêt

Dans le cadre des contrats de swap de taux d'intérêt, le Groupe échange un taux d'intérêt variable contre un taux fixe pour un montant notionnel donné. Ces contrats permettent au Groupe de limiter le risque d'évolution du taux d'intérêt sur la juste valeur de la dette à taux fixe et l'exposition au risque sur flux de trésorerie relatifs aux dettes à taux variable. A la clôture de l'exercice, la juste valeur des swaps de taux est déterminée en actualisant les flux de trésorerie futurs avec les courbes d'intérets à la clôture de l'exercice et le risque de crédit inhérent au contrat.

Il est précisé que le Groupe ne détenait aucun contrat de Swap au cours des exercices clos le 31 décembre 2013 et 2012.

Gestion du risque de crédit

Le risque de crédit désigne le risque que la contrepartie ne respecte pas ses obligations contractuelles, ce qui se traduirait par une perte financière pour le Groupe.

Les instruments financiers qui pourraient augmenter le risque de crédit sont principalement les créances clients, la trésorerie et les équivalents de trésorerie, les investissements et les instruments financiers dérivés. L'exposition maximale du Groupe au risque de crédit correspond à la valeur comptable des actifs financiers comptabilisés dans le bilan consolidé, nets des dépréciations comptabilisées.

Comme indiqué dans la note 20, le Groupe estime qu'il a une exposition extrêmement limitée à la concentration du risque de crédit pour ce qui concerne les créances clients en raison à la fois du nombre et de la diversité des clients (clients individuels et institutions publiques) qui opèrent de surcroit dans des secteurs d'activité variés et sont localisés partout en France. Le risque maximal de crédit sur ces actifs financiers équivaut à leur valeur nette comptable. L'analyse du risque de crédit sur les créances clients nettes échues est mentionnée en note 20.

Le Groupe est attaché à investir sa trésorerie, ses équivalents de trésorerie ainsi que ses titres négociables dans des institutions financières ou des groupes industriels disposant d'une note de crédit « A-/A3 » au minimum.

Pourtant, en septembre 2008, la banque Lehman Brothers a fait faillite. Une partie des passifs financiers du Groupe étaient couverts par des contrats de swap de taux d'intérêt conclus avec Lehman Brothers. A la suite de sa faillite, Lehman Brothers a fait défaut sur ces swaps. Le Groupe a formulé une demande de remboursement auprès de Lehman Brothers pour un montant total d'environ 11,2 millions d'euros. En 2012, le Groupe avait reçu une première tranche de 2,8 millions d'euros dans le cadre de cette demande. En 2013, le Groupe a reçu deux nouveaux versements pour un montant total de 7,1 millions d'euros. Le solde non reçu à ce jour, soit environ 1,3 millions d'euros représente un gain potentiel pour le Groupe mais n'a pas été constaté dans les comptes clos au 31 décembre 2013.

Gestion du risque de liquidité

La gestion du risque de liquidité relève en premier lieu de la responsabilité de la Direction, qui a établi un cadre approprié de gestion du risque de liquidité pour faire face aux besoins en financements à court, moyen et long terme du Groupe. Le Groupe gère ses liquidités en maintenant un niveau adéquat de liquidités, de facilités de crédit, en supervisant en permanence les prévisions de flux de trésorerie et les flux réels de trésorerie, et en adaptant les profils de maturités des actifs et passifs financiers.

Les tableaux ci-après présentent les maturités contractuelles auxquelles les passifs financiers du Groupe devront faire l'objet de remboursements (hors coût amorti et intérêts futurs). Les tableaux ont été construits à partir des flux de trésorerie non actualisés pour les passifs financiers sur la base de la date d'exigibilité de remboursement. La date de maturité contractuelle correspond à la date la plus proche à laquelle le Groupe pourrait être contraint à rembourser le passif.

Le Groupe considère que sa trésorerie disponible et la trésorerie opérationnelle anticipée qui sera générée par l'activité opérationnelle sont suffisants pour couvrir ses dépenses, ses investissements et les engagements financiers liés à sa dette pour les douze prochains mois.

29 Transactions avec les parties liées

Les actionnaires majoritaires du Groupe sont les fonds d'investissement privés Altice, Cinven et Carlyle.

Les soldes bilanciels et flux réciproques entre les entités du Groupe ont été éliminés lors de la préparation des Comptes Consolidés. Les détails des transactions entre le Groupe et les autres parties liées sont présentés ci-dessous.

29.1 Opérations de financement et prestations de services

Au cours de l'exercice, les entités du Groupe ont conclu les transactions suivantes avec des parties liées qui ne font pas partie du périmètre de consolidation :

(en milliers d'euros)	*Prestations de services*		*Montants dus par les parties liées*		*Montants dus aux parties liées*	
	2013	**2012**	**2013**	**2012**	**2013**	**2012**
Actionnaires						
Cinven	474	610	-	-	639	-
Altice	181	1 214	-	-	-	-
Carlyle	450	600	-	-	900	450
Sociétés affiliées						
Alsace Connexia Participation SAS	-	-	2 280	2 235	-	-

Des management fees ont été versés aux actionnaires (Cinven, Altice and Carlyle) en lien avec certains services de gestion, de financement et de conseils fournis (pour respectivement 1 106 milliers d'euros, et 2 424 milliers d'euros en 2013 et 2012). Ces contrats ont pris fin au 30 septembre 2013 dans le contexte de l'IPO.

Par ailleurs, comme évoqué en Note 4.1.1, lors de la restructuration de la dette du Groupe qui a eu lieu en 2009 et au cours de laquelle les actionnaires du Groupe avaient acquis certains prêts au titre du SFA Ypso France, Ypso Holding Sàrl avait procédé à l'émission de titres financiers, souscrits par les actionnaires, et notamment 132.664.023 certificats d'actions à intérêts prioritaires subordonnés (subordinated interest preferred equity certificates) (les « Super PEC »), d'une valeur nominale d'un euro et dont les intérêts étaient capitalisables.

Cinven, Carlyle et Altice ont fait apport de ces SuperPEC le 7 novembre 2013 à Numericable Group, dans le cadre des opérations juridiques liées à l'introduction en Bourse. Cette dette a par conséquent été éteinte en contrepartie d'une remise de titres nouvellement émis. Consécutivement, des frais d'extinction de dettes (« Premium ») ont été comptabilisés en charges financières pour un montant de 81,6 millions d'euros. Cette charge n'a eu aucun impact sur la trésorerie du groupe.

29.2 Relations avec les parties liées

(1) Relations avec les actionnaires du Groupe

Relations avec Altice

Altice détient des réseaux câblés dans les Antilles françaises et le Groupe reverse des frais de terminaisons d'appel à ces réseaux pour les appels émis par les abonnés de son réseau à destination des abonnés des réseaux Antillais. Le Groupe perçoit à l'inverse des frais de terminaison d'appel pour les appels émis par les abonnés de ces réseaux à destination des abonnés du Groupe.

Enfin, Altice détient la société Auberimmo qui loue des infrastructures au Groupe. Auberimmo a pour seul client Completel SAS, membre du Groupe. Les loyers refacturés au titre de 2013 ont représenté 1 132 milliers d'euros TTC contre 1 081 milliers d'euros TTC en 2012.

Relations avec Carlyle

Sagemcom, l'un de nos principaux fournisseurs de décodeurs, a été acheté par des fonds gérés par Carlyle le 17 août 2011.

Completel et NC Numericable ont par ailleurs conclu le 31 décembre 2013 un contrat de prestation de services avec les sociétés B&B Hôtels et Econonich (ensemble, le « Groupe B&B Hôtels »), groupe acquis par Carlyle en 2010. Ce contrat a été conclu pour une durée de cinq années, au terme de laquelle les parties se rencontreront pour une éventuelle prolongation de contrat. Aux termes de ce contrat, Completel et NC Numericable se sont engagés à fournir les services suivants :

- fourniture d'accès à internet haut débit ;
- création d'un réseau IP regroupant tous les sites concernés ;
- services de sécurité;
- services de téléphonie fixe ;
- services de télévision ; et
- prestations transverses liées aux autres services fournis.

(2) Relations avec Coditel, entité détenue par Altice ainsi que par d'autres parties non liées au Groupe

Dans le cadre de la cession de Coditel Belgium et de Coditel Luxembourg en juin 2011, le Groupe a conclu un accord de service et un accord de licence de marque avec Coditel Holding S.A. afin de garantir la poursuite de l'activité de ces sociétés.

Accord de service

Le 30 juin 2011, Numericable a conclu un accord de service avec Coditel ("Coditel Services Agreement"). Selon les termes de l'accord, le Groupe continue de fournir à Coditel tous les services qu'il fournissait avant sa cession, incluant:

- services de plateforme de vidéo à la demande et services de contenu de vidéo à la demande ;
- services d'ingénierie de voix, d'IP et télévisuels ;
- assistance technique pour l'achat de matériel et appareils nécessaire à son activité, notamment décodeurs, logiciels, modems, routeurs et combinés de téléphonie mobile, ainsi que contenus de télévision et de vidéo à la demande ;
- livraison de signaux de chaînes de télévision et de flux de données existants le réseau du Groupe;
- mise à jour du logiciel de facturation de Coditel ; et
- poursuite de l'assistance aux systèmes Coditel actuellement situés dans les locaux du Groupe ou actuellement assistés par les systèmes du Groupe.

En contrepartie des services fournis, Coditel a accepté de verser au Groupe un montant total de 100.000 euros par an. En outre, Coditel doit reverser au Groupe 10% de son chiffre d'affaires mensuel généré par les vidéos à la demande.

Accord de licence de marque

Le 30 juin 2011, Coditel et Numericable ont également conclu un accord de licence de marque ("Trade Mark Agreement"). Selon les termes de l'Accord de licence de marque, le Groupe fournit une licence à Coditel pour l'utilisation de la marque « Numericable », enregistré sous Ma14502, exclusivement en Belgique et au Luxembourg en lien avec l'offre, la promotion et la commercialisation de produits et services de téléphonie, d'Internet et télévisuels. Les frais de licence sont inclus dans les 100.000 euros annuels de l'Accord de service. L'Accord de licence prend fin de manière automatique au 30 juin 2017, à la fin de tous les services couverts par l'Accord de service ou à l'échéance de l'Accord de services.

29.3 Rémunération de la Direction

La rémunération des membres du Comité exécutif s'est élevée respectivement à 2 226 milliers d'euros et 2 100 milliers d'euros au cours des exercices 2013 et 2012 respectivement. Ce montant ne comprend que les avantages à court terme comme les salaires, traitements et bonus.

Le Groupe a par ailleurs provisionné 303 milliers d'euros au 31 décembre 2013, pour les indemnités de départ à la retraite (régime général) des membres du comité exécutif.

Enfin, la charge relative au plan de stock options (contribution patronale + charge IFRS 2) représente 3 409 milliers d'euros pour les membres du comité exécutif au titre de l'exercice 2013 (néant en 2012).

30 Contrats de location

30.1 Lorsque le Groupe est bailleur

Location financement

Le Groupe n'a pas conclu de contrat de location financement en tant que bailleur.

Location simple

La location simple se rapporte principalement aux infrastructures du réseau détenues par le Groupe et louées à d'autres sociétés du secteur des télécommunications, sur des durées comprises entre 15 et 30 ans. Tous les contrats de location contiennent des clauses de révision de marché dans le cas où le preneur exercerait son option de renouvellement. Le preneur ne dispose d'aucune option d'achat à l'issue du bail.

Les revenus futurs relatifs à ces contrats de location simple (comptabilisés en produits constatés d'avance) sont ventilés comme suit:

(en milliers d'euros)	Montant futur minimum des loyers	
	31 décembre 2013	31 décembre 2012
A un an au plus	53 930	45 318
Plus d'un an et moins de 5 ans	42 224	40 930
Plus de 5 ans	54 997	64 545
Total	**151 151**	**150 793**

30.2 Lorsque le Groupe est locataire

Location financement

Le Groupe a conclu divers accords de location financement liés à des biens immobiliers, pour lesquels le bail est généralement d'une durée de 20 à 30 ans et liés à des équipements de bureau pour lesquels le bail est généralement d'une durée de 4 ans.

Les principaux contrats de location financement se rapportent à des équipements de réseau achetés à Cisco et à la location de l'immeuble occupé par le Groupe à Champs-sur-Marne pour lequel le Groupe dispose d'une option d'achat à l'issue du bail, à un prix qui devrait être suffisamment inférieur à la juste valeur à la date où l'option pourra être exercée.

Tous les contrats sont libellés en euros. Certains contrats de location financement immobilière spécifient qu'au début du bail, les paiements annuels seront fixés à un montant donné, mais qu'au cours des années suivantes, ce montant sera augmenté à un taux d'inflation (soit un pourcentage d'augmentation).

(en milliers d'euros)	Versements locatifs minimum		Valeur actuelle des versements locatifs minimum	
	31 décembre 2013	31 décembre 2012	31 décembre 2013	31 décembre 2012
Un an au plus tard	22 100	11 685	21 257	11 302
Plus d'un an et moins de 5 ans	21 069	13 883	19 246	12 830
Plus de 5 ans	1 342	721	989	595
	44 510	**26 288**	**41 492**	**24 728**
Dont charges financières futures	(3 018)	(1 560)	-	-
Valeur actuelle des versements locatifs minimum	41 492	24 728	41 492	24 728
Passifs financiers liés aux contrats de location-financement - part courante			21 257	11 302
Passifs financiers liés aux contrats de location-financement – part non courante			20 235	13 426

Le taux d'intérêt implicite du contrat de location est fixé à la date de signature du contrat et ce pour l'ensemble de la durée du contrat. Le taux d'intérêt effectif annuel moyen s'élève à environ 3,96% et 3,24% respectivement pour 2013 et 2012.

Location simple

Le Groupe a également des engagements de location simple concernant des véhicules et biens immobiliers. La durée pour ces contrats de location simple est généralement de 3, 6 ou 9 ans, soit une durée standard de bail immobilier commercial en France. Le contrat de location pour les véhicules est d'une durée de 3 ans.

Les contrats de location d'IRU (droits irrévocables d'utilisation de boucle ou de réseau) d'équipement et de réseaux ou les autres contrats de location (droits de passage) pour lesquels le Groupe est preneur sont considérés comme non significatif.

Dans le cadre de ses activités de divertissement, le Groupe a également conclu des accords de location et d'achat de programmes télévisés.

Au 31 décembre 2013, les engagements de location simple non résiliables s'élevaient à :

(en milliers d'euros)

	31 décembre 2013
Un an au plus tard	10 381
Plus d'un an et moins de 5 ans	34 798
Plus de 5 ans	12 978
	58 156

31 Actifs non courants détenus en vue de la vente et activités cédées ou en cours de cession

Néant.

32 Engagements et obligations contractuelles

32.1 Engagements contractés

Garanties liées au Senior Facility Agreement

Dans le cadre du *Senior Facility Agreement* conclu par les filiales du Groupe, les engagements suivants ont été donnés aux banques prêteuses :

- Respect des engagements financiers ;
- Maintien d'un périmètre d'intégration fiscale stable ;
- Respect des conditions concernant l'acquisition, la cession, l'utilisation et le contrôle des actifs.

Tous les actifs des filiales du Groupe ont été nantis auprès des banques.

Engagements lies à l'activité opérationnelle

Le Groupe s'est engagé à construire 75.000 prises pour un montant total de 4,5 millions d'euros pour la ville du Havre.

Pour opérer des réseaux de télécommunication, le Groupe a besoin de licences, d'autorisations ou de droits d'usage des infrastructures du domaine public ou privé. Le Groupe paie donc généralement des droits à l'administration publique responsable de la gestion des infrastructures ou au propriétaire privé. Dans le cadre de ses activités commerciales normales, le Groupe a par ailleurs conclu des accords de sous-traitance, en particulier pour certains services de maintenance de réseau.

Engagements de location liés aux activités opérationnelles

Comme indiqué en note 30, le Groupe a conclu divers accords de location simple.

Obligations contractuelles

Le tableau suivant récapitule les engagement financiers par maturité au titre des dettes financières et contrats de location simple contractés par le Groupe (se référer également aux notes correspondantes) :

			Maturité		Total
(en milliers d'euros)	**Note**	< 1 an	1 – 5 ans	> 5 ans	31 décembre 2013
Prêts et engagements financiers	**23**	64 249	2 283 075	418 818	2 766 142
Contrats de location opérationnelle	**30**	10 381	34 798	12 978	58 157
Total		**74 630**	**2 317 873**	**431 796**	**2 824 299**

32.2 Engagements reçus

Le Groupe a reçu un engagement d'un montant total de 25 millions d'euros de GDF Suez pour la souscription à des obligations à taux variable à durée indéterminée (TSDI), qui financeront la construction du réseau Sipperec. Au 31 décembre 2013, le Groupe a déjà perçu 23,8 millions d'euros en principal de GDF Suez.

33 Evénements postérieurs à la clôture

33.1 Contrat de liquidité conclu avec Exane BNP Paribas

Début 2014, le Groupe a conclu un Contrat de liquidité avec Exane BNP Paribas en vue de favoriser la liquidité de ses titres et la régularité de leurs cotations sur le marché NYSE Euronext Paris. Un compte de liquidité d'un montant de 3 millions d'euros a ainsi été ouvert pour permettre à Exane BNP Paribas de réaliser leur interventions prévues par le contrat de liquidité.

33.2 Attribution d'un nouveau plan d'options de souscription d'actions

Le conseil d'administration du 10 janvier 2014 a adopté un nouveau plan d'attribution d'options de souscription d'actions au profit de certains mandataires sociaux de Numericable Group et salariés du Groupe.

Ce plan porte sur un nombre total de 287 618 options de souscription d'actions équivalent à 287 618 actions.

Le prix d'exercice est de 27,62€ par action.

33.3 Négociations exclusives avec Vivendi en vue du rachat de SFR

Le 14 mars 2014, le conseil de surveillance du Groupe Vivendi a annoncé qu'il avait décidé d'entrer en négociations exclusives avec Altice, actionnaire majoritaire de Numericable Group, pour une période de trois semaines, en vue d'un rachat éventuel de sa filiale SFR.

Numericable Group

Consolidated financial statements
for the year ended December 31, 2013

Numericable Group
Tour Ariane
5, place de la Pyramide

This is a free translation into English of the statutory auditors' report on the consolidated financial statements issued in French and is provided solely for the convenience of English-speaking users.

The statutory auditors' report includes information specifically required by French law in such reports, whether modified or not. This information is presented below the audit opinion on the consolidated financial statements and includes an explanatory paragraph discussing the auditors' assessments of certain significant accounting and auditing matters. These assessments were considered for the purpose of issuing an audit opinion on the consolidated financial statements taken as a whole and not to provide separate assurance on individual account balances, transactions, or disclosures.

This report also includes information relating to the specific verification of information given in the Group's management report.

This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

Numericable Group S.A.

Registered office: Tour Ariane—5, place de la Pyramide—92088 Paris La Défense Cedex

Share capital: €.123 942 012

Statutory auditors' report on the consolidated financial statements

To the Shareholders,

In compliance with the assignment entrusted to us by your by-laws and Shareholders' general meeting, we hereby report to you, for the year ended December 31, 2013, on:

- the audit of the accompanying consolidated financial statements of Numericable Group S.A.;
- the justification of our assessments;
- the specific verification required by law.

These consolidated financial statements have been approved by the Board of Directors. Our role is to express an opinion on these consolidated financial statements based on our audit.

1 Opinion on the consolidated financial statements

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit involves performing procedures, using sampling techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the Group as at December 31, 2013 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Without qualifying our opinion, we draw your attention to the matter set out in the following notes to the consolidated financial statements:

- Notes 1.2 «Basis of preparation of the consolidated financial statements» and 1.3 «Comparative information» describe respectively the accounting treatment of the contribution operations to the group and their impact on the preparation and presentation of the consolidated financial statements and the comparative information;
- Notes 4.1.2 «IPO and capital increase» and 4.1.6 «Refinancing of Senior Debt» describe the initial public offering and the refinancing operations which occurred at the end of 2013 and their impact on

the hypothesis made to adopt the going concern assumption for the group as described in note 1.5 «Going concern assumption»;

- Notes 1.3 «Comparative information» and 2.1 «Accounting principles governing the preparation of the consolidated financial statements» describe the change in accounting method resulting from the first implementation of the revised IAS 19 standard.

2 Justification of our assessments

In accordance with the requirements of article L.823-9 of the French Commercial Code *(Code de commerce)*, we bring to your attention the following matters:

Note 3 «Critical accounting judgment and key sources of uncertainty in respect of estimates» to the consolidated financial statements describes the critical accounting policies and main sources of uncertainty in respect to estimates. This note also states that changes in facts and circumstances may result in revised estimates or assumptions which could affect the financial position, results of operations and cash flows of the Group. Amongst the significant estimates, there are goodwill and deferred tax assets:

- The company systematically performs, at each closing date, impairment tests on goodwill according to the methods described in note 2.14 «Impairment of goodwill and non-current assets» and note 3 «Critical accounting judgment and key sources of uncertainty in respect of estimates» to the consolidated financial statements.

  We examined the methods used to test for impairment as well as cash flow projections and assumptions used and ensured that note 16 «Impairment testing» provides appropriate disclosures thereon.

- The Group presents in its statement of financial position deferred tax assets for an amount of 132.7 million euros as at December 31, 2013, as described in note 4.1.7 «Recognition of deferred tax assets» to the consolidated financial statements.

  We assessed the information and assumptions used for the forecasted future use of tax losses to carry forward, reviewed the calculations performed by the company and ensured that Note 3, 4.17 and 12 provide appropriate disclosures thereon.

These assessments were made as part of our audit of the consolidated financial statements taken as a whole, and therefore contributed to the opinion we formed which is expressed in the first part of this report.

3 Specific verification

As required by law we have also verified, in accordance with professional standards applicable in France, the information presented in the group's management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

Numericable Group

CONSOLIDATED STATEMENT OF COMPREHENSIVE INCOME

	2013	2012
	(in thousands of euros)	
Net income (loss) attributable to owners of the entity	64,550	86,377
Items that may subsequently be reclassified in profit or loss:		
Cumulative translation adjustments	—	—
Change in fair value of available-for-sale financial assets	—	—
Tax on items recognized directly in other comprehensive income	—	—
Items that will not *subsequently be reclassified in profit or loss:*		
Actuarial gains and losses[1]	(458)	(1,496)
Tax on items recognized directly in other comprehensive income	—	—
Total other comprehensive income (loss) attributable to owners of the entity	64,092	84,881

As the Group operates only in France, the functional and presentation currency of all the entities within the Group is the euro. As a result, no cumulative translation adjustments were recognized as of December 31, 2013 or 2012.

Available-for-sale financial assets consist of various investments in unlisted entities not included in the scope of consolidation (see Note 17) and for which there are no reliable indicators allowing the Group to determine a fair value other than its share of equity. Due to the fact that these investments are not material, these investments are measured at historical cost; accordingly, no unrealized gain or loss is recognized in the consolidated statement of comprehensive income.

---

(1) As indicated in Note 2.1, the Group has applied IAS 19R from 1 January 2013, by recognizing actuarial gains and losses in "Other comprehensive income."

The application of IAS 19R has resulted in a change in accounting policy that has also been reflected in the 2012 financial statements (see Note 1.3).

---

(1) Contributions of Ypso Holding SARL and Altice B2B Luxembourg SARL to Numericable Group, which resulted in a capital increase of 1,995.5 million euros (see Note 4.1.1);

(2) Capital increases carried out within the framework of the Company's IPO (public offer in the amount of 250 million euros and offer reserved for employees in the amount of 1 million euros) net of expenses incurred in connection with the IPO, which were charged to additional paid-in capital in the amount of 14.6 million euros (expenses recorded without tax effect) (see Note 4.1.2);

(3) Cost of the stock option plan granted on November 7, 2013 in favor of certain officers and employees of the Group (see Note 4.1.3);

(4) Extinguishment of shareholders debts within the framework of the contributions made to Numericable Group prior to the IPO (Super PECs) (see Note 4.1.1).

Net cash flow from discontinued operations		—	—
Net increase (decrease) in cash and cash equivalents		**93,369**	**(32,584)**
Cash and cash equivalents—opening balance		**7,996**	**40,580**
Cash and cash equivalents—closing balance		**101,365**	**7,996**

---

(1) In 2013, other non-cash items mainly relate to:

- expenses relating to the extinguishment of shareholder debts ("premiums" relative to the cancellation of Super PECs) in the amount of 81.6 million euros (see Note 4.1.1);
- the staggering of borrowing costs using the amortized cost method, with no effect on cash, in the amount of 20.0 million euros.

(2) Investments in property, plant, equipment and intangible assets financed through finance leases in the amount of 39 million euros (21 million euros in 2012) had no impact on the statement of cash flows at the time of the purchases.

(3) Mainly the price paid in connection with the acquisitions of LTI (25.5 million euros) and Valvision (3.3 million euros), net of cash acquired (1.5 million euros). See Notes 4.1.4 and 4.1.5.

(4) Capital increases carried out within the framework of the company's IPO (public offer in the amount of 250 million euros and offer reserved for employees in the amount of 1 million euros) net of expenses incurred in connection with the IPO in the amount of 14.6 million euros (see Note 4.1.2).

(5) Mainly the implementation of the new Tranche D in the amount of 800 million euros net of expenses paid in the amount of 10 million euros (see Note 4.1.6).

(6) This amount primarily reflects debt extinguished during refinancing transactions in December 2013 (bonds in the amount of 480 million euros, Altice B2B senior debt in the amount of 451 million euros, see Note 4.1.6).

Numericable Group
Consolidated Financial Statements
for the year ended December 31, 2013

1 Basis of preparation of the consolidated financial statements

1.1 Numericable Group

Numericable Group (hereinafter referred to as "the **Company**") is a limited company incorporated under French law in August 2013, and is headquartered in France.

On November 7, 2013, Numericable Group received, within the framework of the Company's prospective IPO, the contribution of two holding companies incorporated in Luxembourg, Ypso Holding SARL and Altice Lux Holding SARL, the parent companies of Ypso France and Altice B2B France respectively.

Ypso France, which operates the Numericable business, is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. Ypso France also provides French residential customers with broadband Internet, fixed telephony and mobile telecommunications services.

Altice B2B France, through its main operational entity, Completel SAS, operates the largest alternative fiber-to-the-office ("FTTO") network in France, constituting the third-largest alternative Digital Subscriber Line ("DSL") network in France. Completel SAS provides business customers with a comprehensive service offering, including data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

1.2 Basis of preparation of the consolidated financial statements

The consolidated financial statements for the year ended December 31, 2013, which comprise the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income, the consolidated statement of cash flows, the consolidated statement of changes in equity and the related notes, have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and adopted in the European Union as of December 31, 2013. These international standards include IAS (International Accounting Standards), IFRS (International Financial Reporting Standards) and their interpretations (SIC and IFRIC).

The consolidated accounts were prepared under the responsibility of the Board of Directors, and approved by the Board of Directors on April 1st, 2014.

In accordance with French law, the consolidated financial statements will be considered final once they have been approved by the Group's shareholders at the Ordinary Shareholders' Meeting in May 2014.

As Ypso Holding SARL and Altice Lux Holding SARL, before being contributed to Numericable Group and after the IPO, were and remained entities under joint control (controlled by the Carlyle, Cinven and Altice private equity funds acting in concert), the contribution transactions do not constitute an acquisition within the meaning of IFRS 3 *Business Combinations*. The Group has opted to account for this transaction in carrying amounts, and the consolidated financial statements are prepared as if the contribution of the equity securities of Ypso Holding SARL and Altice Lux Holding SARL had occurred before January 1, 2012, the opening of the comparative period presented. The consolidated financial statements as of December 31, 2013 accordingly cover a period of 12 months.

1.3 Comparative information

The comparative data presented in respect of the 12 months ended December 31, 2012 correspond—with the exception of the application of IAS 19R (as disclosed hereafter)—to the combined financial statements of the two subgroups Ypso and Altice B2B (hereinafter referred to as the "**Two Groups**").

Before being contributed to Numericable Group on November 7, 2013, the Two Groups were entities under common control (controlled by the Carlyle, Cinven and Altice private equity funds).

1 Basis of preparation of the consolidated financial statements (Continued)

Accordingly, the financial datas presented for comparative purposes reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Ypso and Altice B2B, which formed two separate groups as of December 31, 2012.

Moreover, as indicated in Note 2.1, the Group has applied IAS 19R from 1 January 2013, recognizing actuarial gains and losses in "Other comprehensive income." The application of IAS 19R has resulted in a change in accounting policy that has also been reflected in the 2012 financial statements.

The impact of this adjustment on the items and main aggregates of the 2012 statement of income is set out in the following table (reconciliation of the 2012 combined financial statements with the restated 2012 financial statements presented for comparison purposes in this document).

	Reported 2012 financial statements	IAS 19R adjustment	Restated 2012 financial statements
	(In thousands of euros)		
Provisions	(7,715)	1,496	(6,219)
Operating income before depreciation and amortization (EBITDA)	590,769	1,496	592,265
Operating income	299,045	1,496	300,541
Net income (loss)	84,930	1,496	86,426
Other comprehensive income	0	(1,496)	(1,496)
Comprehensive income	84,930	—	84,930

1.4 List of entities included in the scope of consolidation

Subsidiaries

Consolidated entities are companies controlled by the Group (including special-purpose entities), i.e. entities in which the Group has the power to govern financial and operating policies so as to obtain benefits. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of a company so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date at which control commences until the date at which control ceases. Non-controlling interests in subsidiaries are identified separately in the statement of changes in equity.

Associates

Investments, in which the Group exercises significant influence, but not control or joint control, are accounted for under the equity method. Such investments are referred to as "associates" throughout these consolidated financial statements. Significant influence is the power to participate in the financial and operating policy decisions of the associate, but not control or joint control over said decisions. Associates are initially recognized at historical cost. The consolidated financial statements include the consolidated Group's share of income and expenses, from the date at which significant influence commences until the date at which significant influence ceases.

As of December 31, 2013 and 2012, the consolidated financial statements include the following entities:

Company and legal form of incorporation	Registered office	Basis of consolidation as of December 31, 2013	% control		% interest	
			2013	2012	2013	2012
Numericable Group	5 Place de la Pyramide—92088 Paris La Défense	Parent company	100%	N/A	100%	N/A

---

(1) Numericable and Est Vidéocommunications were merged in NC Numericable in December 2013.

(2) Invescom and LTI Telecom were acquired on October 31, 2013, as mentioned in "Significant events."

1.5 Going concern assumption

The Group was formed by a series of acquisitions, funded mainly by external borrowings. The construction and subsequent modernization of the network have also required substantial investments. These two factors explain the Group's financial structure, namely the significant proportion of financial liabilities in relation to consolidated equity, as well as the significant interest expense.

The Group currently services its debt and funds its investments through net cash from operations. Furthermore, the Group's covenants under its loan agreements require it to comply with certain liquidity ratios (see section 23.1) and to maintain certain cash levels.

Furthermore, as explained in Note 4.1.6, the Group refinanced its Senior Debt in 2013, rescheduling a large portion of its debt.

Under these conditions, and in view of the updated cash flow projections, the Board of Directors believes that the Group will be able to finance its cash requirements for the 12 months from the close of the 2013 consolidated financial statements, and to meet its obligations in respect of its debt during this period.

As a result, the consolidated financial statements for the year ended December 31, 2013 have been prepared on a going concern basis.

2 Significant accounting policies

2.1 Accounting principles governing the preparation of the consolidated financial statements

Standards and interpretations applied by the Group as of December 31, 2013

The accounting policies for recognition and measurement used in preparing the consolidated financial statements for the year ended December 31, 2013 are the same as those used for the combined financial statements of Numericable Group, prepared in accordance with IFRS.

As mentioned in Note 1, the consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), with

2 Significant accounting policies (Continued)

mandatory application for annual periods ended December 31, 2013. The recognition and measurement principles of International Financial Reporting Standards as adopted by the European Union have been applied in preparing the consolidated financial statements. They are available on the following website:

http://ec.europa.eu/internal_market/accounting/ias/index_en.htm

Standards and interpretations adopted by the European Union with mandatory application as of December 31, 2013 are similar to the standards and interpretations published by the International Accounting Standards Board ("**IASB**"), with the exception of IAS 39 *Financial Instruments: Recognition and Measurement* ("**IAS 39**") and the following standards and interpretations adopted by the EU but not yet mandatory in the EU from December 31, 2013.

Standards and interpretations mandatory for the year ended December 31, 2013

- IAS 19R (revised in 2011) *Employee Benefits* (applicable no later than January 1, 2013 for the Group) ("**IAS 19R**")

The main changes resulting from this revision are:

- the recognition of actuarial gains and losses through "Other comprehensive income." This results in a change in accounting principles, as the Group previously recognized actuarial gains and losses through profit or loss;
- the modification of the calculation of the financial component, due to the removal of the expected return on plan assets, which did not have an impact on the Group's financial statements;
- the immediate expensing of non-vested past service costs.

In accordance with the provisions of IAS 19R, the Group has applied the new provisions retrospectively. The effect of the changes is described in Note 1.3 above.

Other amendments and interpretations applicable from December 31, 2013, but without material impact on the Group are as follows:

- Amendments to IAS 1 *Presentation of Items of Other Comprehensive Income* and *Separate Financial Statements*

  This amendment to IAS 1 requires changing the presentation of other comprehensive income in the consolidated statement of comprehensive income, in order to present items liable to be reclassified in profit or loss separately from items that will never be reclassified in this manner. Comparative information is also presented in the same way.
- IFRIC 20 *Stripping Costs in the Production Phase of a Surface Mine* ("**IFRIC 20**")
- Amendments to IFRS 7 *Disclosures: Offsetting Financial Assets and Financial Liabilities*
- Amendments to IFRS 32 *Disclosures: Offsetting Financial Assets and Financial Liabilities*
- Amendments to IAS 12 *Deferred Tax: Recovery of Underlying Assets*
- Amendments to IFRS 1 *Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters*
- IFRS 13 *Fair value Measurement* ("**IFRS 13**")

  IFRS 13 is a single source of fair value measurement and disclosure requirements for use across IFRSs. It defines fair value, sets out a framework for measuring fair value and lists disclosure requirements in respect of fair value measurements, including the fair value hierarchy currently set out in IFRS 7 *Financial Instruments: Disclosures*.

  In accordance with the transitional provisions of IFRS 13, the Group has applied the new provisions in respect of fair value prospectively.

2 Significant accounting policies (Continued)

Standards and Interpretations mandatory after December 31, 2013 and not adopted early

The following are standards and interpretations that had been issued by the IASB and the IFRS Interpretations Committee and adopted by the EU at the date of these consolidated financial statements but which are not yet mandatory. The Group has not elected to adopt them early.

- IAS 27 (revised in 2011) *Separate Financial Statements* (applicable no later than January 1, 2014 for the Group) ("**IAS 27 Revised**")

This standard sets out recognition and disclosure provisions for separate financial statements, i.e. financial statements prepared by a parent, an investor, a joint venture or an associate, when such investments are carried at acquisition cost or in accordance with IAS 39. The standard also outlines the accounting requirements for dividends, and contains numerous disclosure requirements.

- IAS 28 (revised in 2011) *Investments in Associates and Joint Ventures* (applicable no later than January 1, 2014 for the Group) ("**IAS 28 Revised**")

This standard relates to the consolidation of joint ventures and associates under the equity method.

Some clarifications have been included with respect to accounting for changes in ownership interests (with or without loss of control). These disclosures are now covered by IFRS 12 *Disclosure of Interests in Other Entities*.

- IFRS 10 *Consolidated Financial Statements* (applicable no later than January 1, 2014 for the Group) ("**IFRS 10**")

IFRS 10 supersedes SIC-12 *Consolidation of Special-Purpose Entities* and IAS 27 for the part relating to consolidated financial statements. This standard deals with the consolidation of subsidiaries and special-purpose entities, and redefines control, which is the basis of consolidation.

- IFRS 11 *Joint Arrangements* (applicable no later than January 1, 2014 for the Group) ("**IFRS 11**")

IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities: Non-Monetary Contributions by Venturers*.

This standard deals with the accounting for joint arrangements. The definition of joint control is based on the existence of an arrangement and the unanimous consent of the parties sharing control.

Joint arrangements are classified into two categories: (i) joint ventures, where each party has an interest in the net assets of the entity, which is accordingly consolidated at equity, a method already applied by the Group; and (ii) joint operations, where each party has direct rights to the assets and direct obligations in respect of the liabilities of the entity, which is consolidated in accordance with the contractual arrangement.

- IFRS 12 *Disclosure of Interests in Other Entities* (applicable no later than January 1, 2014 for the Group) ("**IFRS 12**")

IFRS 12 replaces provisions relating to disclosures previously included in IAS 27, IAS 28 and IAS 31.

This standard combines and supplements disclosures related to subsidiaries, joint ventures, associates, consolidated and unconsolidated SPEs.

- Amendment to IAS 32 *Disclosures: Offsetting Financial Assets and Financial Liabilities* (applicable on a mandatory basis for annual periods beginning on or after 1 January 2014)

Management is currently assessing the potential impact of the application of these standards and amendments on the statement of income, the statement of financial position, the statement of cash flows and the notes to the financial statements, but at this stage does not anticipate any material effect related to the application of these standards, interpretations and amendments.

2 Significant accounting policies (Continued)

The financial statements have been prepared according to the historical cost principle, with the exception of certain assets and liabilities detailed below:

- derivative financial instruments measured at fair value;
- financial assets at fair value through profit and loss measured at fair value;
- available-for-sale financial assets measured at fair value.

2.2 *Foreign Currency Translation Adjustments*

The consolidated financial statements are presented in euros, the functional currency of the Group. All financial data are rounded to the nearest thousand euro.

Foreign currency transactions are initially recorded in the functional currency at the exchange rate prevailing at the date of the transaction. At the closing date, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the exchange rate prevailing on that date. All foreign currency differences are expensed. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of initial transaction. All foreign currency differences are recognized in profit or loss.

2.3 *Revenue*

Revenue from the Group's activities is mainly composed of:

- TV subscriptions, broadband Internet, basic cable services, telephony and installation fees invoiced to residential and business clients.
- Data transmission and very high speed Internet services, telecommunications services, convergence and mobility solutions invoiced to business clients.
- Network infrastructure services, including indefeasible rights of use ("IRUs") arrangements and bandwidth capacity on the network, provided to other telecommunications operators, as well as the related maintenance services.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales between entities included in the scope of consolidation.

Revenue is recognized and presented as follows, in accordance with IAS 18 *Revenue* (IAS 18):

- Revenues from subscriptions for basic cable services, digital pay TV, Internet and telephony are recognized on a straight-line basis over the subscription period; revenues from telephone calls made outside plans are recognized when the service is rendered.
- When a promotion not related to a customer's past consumption and purchases (such as a discount on the subscription price or free subscription for a given period) is offered to a customer, the Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract provided that the Group has the enforceable and contractual right to deliver the products after the free promotional period offered to the customer. If a promotion is not related to the subscription for a contract including a non-cancellable period, the Company recognizes revenues during the promotional period in the amount of the consideration received or receivable, as the customer's continuance is not assured.
- Installation and set-up fees (including connection) for residential customers are recognized as revenues when the service is rendered.

2 Significant accounting policies (Continued)

- Service access fees for business clients, when the access to the services is provided and they are associated to equipment or a service, are deferred, and the revenue is recognized along the estimated duration of the customer relationship, based on statistical data. They are generally staggered over the term of the contract.
- The revenue related to transmission capacity on terrestrial cables under IRU arrangements are recognized on a straight-line basis over the term of the contract.

2.4 Deferred revenue

For certain arrangements entered into with its non-residential customers, the Group receives up-front cash payments in relation to IRUs and connection fees. For these arrangements, the revenue is generally recognized on a straight-line basis over the term of the contract. Deferred revenue at the end of the reporting period represents unrecognized network lease revenue.

2.5 Operating income before depreciation and amortization

The Group has included the aggregate "Operating income before depreciation and amortization" or "EBITDA" in the consolidated statement of income because management believes that this aggregate is useful: it provides a measure of operating results that excludes non-cash items such as depreciation and amortization, thereby enhancing the predictive value of the financial statements.

Furthermore, EBITDA is an indicator used internally by management to measure the Company's operational and financial results, to make investment and resource-allocation decisions, and to assess the performance of management personnel.

EBITDA may not be comparable with similarly named measures used by other entities. Further, this aggregate should not be considered as a proxy for operating income, as the effects of depreciation, amortization and impairment, which are excluded from this measure, ultimately have an impact on operating income, which is also presented in the consolidated financial statements in accordance with IFRS 1.

2.6 Financial income and expense

Financial income and expense primarily comprise:

- interest expense and other expenses paid for financing transactions recognized at amortized cost and changes in the fair value of interest rate derivative instruments that do not qualify as hedges within the meaning of IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39"), and which are recognized in "Interest relative to gross financial debt" in the consolidated statement of income;
- interest income relating to cash and cash equivalents.

2.7 Segment information

IFRS 8 *Operating Segments* requires segment information to be presented on the same basis as that used for internal reporting purposes. The Group has identified the following three segments:

- B2C Operations
- B2B Operations
- Wholesale Services

2 Significant accounting policies (Continued)

B2C Operations

The Group provides residential and business customers with TV subscription services, broadband Internet, basic cable services, telephony and installation services.

B2B Operations

The Group provides business customers with a comprehensive service offering, including data transmission and very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

Wholesale Services

The Group sells network infrastructure services, including IRUs and bandwidth capacity on its network, to other telecommunications operators, as well as the related maintenance services.

2.8 *Income taxes*

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except if it relates to items recognized directly in equity, in which case it is recognized in equity (see Note 4.1.7).

Current tax is the tax payable on the taxable income for the year, estimated using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (i) the initial recognition of goodwill; (ii) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; and (iii) investments in subsidiaries, joint ventures and associates when the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Accordingly, for companies included in the scope of consolidation, a deferred tax liability may be recognized in respect of prospective dividend payments by these companies.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and if they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities when the taxable entity intends to settle current tax liabilities and assets on a net basis or when tax assets and liabilities are to be realized simultaneously.

Deferred taxes are reviewed at each reporting date to take into account changes in tax legislation and the possibility of recovering deductible temporary differences and tax losses. A deferred tax asset is recognized when it is probable that future taxable profits against which the temporary difference can be utilized will be available within a foreseeable timeframe.

2.9 *Government grants and investment subsidies*

Entities of the Group may receive government grants and investment subsidies in the form of direct or indirect funding of investment projects, mainly provided by local and regional authorities. These grants are deducted from the cost of the related assets and recognized in the consolidated statement of

2 Significant accounting policies (Continued)

income, based on the pattern in which the related asset's expected future economic benefits are consumed.

2.10 Goodwill and business combinations

Business combinations are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3R are recognized at their fair value at the acquisition date, except for non-current assets (or groups earmarked for disposal), which are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* and measured at the lower of their carrying amount and fair value less costs to sell.

The consideration transferred corresponds to the fair value, at the acquisition date, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. The goodwill arising from a business combination is equal to the difference between:

- the sum of the consideration paid, the value of any non-controlling interest that remains outstanding after the business combination and, where applicable, the acquisition-date fair value of the acquirer's previously held equity interest in the target, and
- the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed.

Goodwill is recognized in assets in the consolidated statement of financial position. When the difference is negative, it is directly recognized through profit or loss.

The secondary costs directly attributable to an acquisition giving control are recorded in expenses in the period during which the costs are incurred, except for the borrowing costs, which must be recorded in accordance with IAS 32 *Financial Instruments: Presentation* ("**IAS 32**") and IAS 39.

When goodwill is determined provisionally at the end of the period in which the combination is effected, any adjustments to the provisional values within 12 months of the acquisition date are recognized in goodwill.

With respect to the acquisition of non-controlling interests (i.e. non-controlling interests in a subsidiary that is already included in the scope of combination), the Group fully allocates the difference between the price paid and the share in net assets acquired to equity in accordance with IAS 27, with no revaluation of the assets and liabilities acquired.

Goodwill resulting from the acquisition of subsidiaries or joint ventures is presented separately in the consolidated statement of financial position. Impairment relative to this goodwill is presented on the "Depreciation and amortization" line of the consolidated statement of income.

Goodwill resulting from the acquisition of associates is included in the carrying amount of the investment. Impairment relative to this goodwill is presented on the "Share in net income (loss) of associates" line.

Goodwill is not amortized, but is subject to impairment testing whenever there is any indication that an asset may be impaired, and at least once a year in accordance with the methods and assumptions described in Note 16.

After initial recognition, goodwill is recorded at cost less accumulated impairment losses.

2.11 Intangible assets

Recognition and measurement principles

Intangible assets are measured at cost less accumulated amortization and impairment losses. Cost comprises all directly attributable costs necessary to buy, create, produce and prepare the asset for use.

2 Significant accounting policies (Continued)

Intangible assets consist mainly of indefeasible rights of use, patents, and purchased and internally developed software.

IRUs correspond to the right to use a portion of the capacity of a terrestrial or submarine transmission cable granted for a fixed period. IRUs are recognized as an asset when the Group has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life. They are amortized over the shorter of the expected period of use and the life of the contract between 3 and 20 years.

Patents are amortized on a straight-line basis over the expected period of use, generally not exceeding 10 years.

Software is amortized on a straight-line basis over its expected useful life, which generally does not exceed 3 years.

The cost of an internally developed intangible asset is the sum of personnel expenses incurred from the date the intangible asset first meets the recognition criteria of IAS 38. An intangible asset arising from the development phase of an internal project is recognized if an entity can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention of completing the intangible asset and use or sell it;
- its ability to use or sell the intangible asset;
- the capacity of the intangible asset to generate probable future economic benefits. Among other things, the Group must demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset;
- its ability to measure reliably the expenditures attributable to the intangible asset during its development.

Capitalization of costs ceases when the project is finalized and the asset is available for use.

The cost of an internally developed intangible asset arising from the development phase of an internal IT project is amortized on a straight-line basis over its expected useful life, which generally does not exceed three years.

Agreements entered into with local authorities

To set up and operate its networks, the companies of the Group have in the past (and often before entering the Group) entered into various agreements with local authorities and representative bodies under successive legal frameworks (French cable network plan, Freedom of Communication Act of 1986, etc.). Many of these agreements convey exclusive rights to the operator and lay down obligations in terms of local television service provision, programming, pricing policy, and the associated license fees payable. Some of the agreements are public service concessions with "return property" clauses, whereby ownership of the technical equipment and civil engineering work reverts to the local authorities at the end of the concession.

The EU Telecoms Directives of 2002, known as the "Telecoms Package," establish the principle of open competition among operators in the telecommunications market, requiring national regulatory authorities to enforce fair competition conditions, without granting exclusive or special rights for setting up and operating networks. The French law of July 9, 2004, which transposed the Telecoms Package into French law, required that existing agreements be brought into compliance by the end of July 2007 at

2 Significant accounting policies (Continued)

the latest, removing all exclusive rights clauses and ensuring the shared use of public civil engineering infrastructure.

Only a minority of agreements entered into with local authorities were liable to be classified in the category of public service concessions when these agreements were concluded. As such, IFRIC 12 *Service Concessions* applies solely to the public service concession arrangement with the department of Hauts-de-Seine (*Délégation de Service Public 92*).

Service Concession agreement entered into with the department of Hauts-de-Seine

Sequalum, a subsidiary of the Group, was selected in 2007 by the department of Hauts-de-Seine to plan, deploy and operate a Fiber To The Home ("FTTH") high-capacity fiber network throughout the department under a public service concession arrangement (*Délégation de Service Public*—DSP) known as DSP 92. A DSP is a form of public-private partnership under French law, pursuant to which a public authority entrusts private entities to operate a public service in return for remuneration that is based on the revenue generated by the service in question.

The terms of the service arrangement signed between Sequalum and the department of Hauts-de-Seine require Sequalum to construct the network—completing construction by 2015—and maintain and operate the network to a specified standard for 25 years. At the end of the 25th year, the service arrangement will end.

Sequalum provides construction services to the department of Hauts-de-Seine in exchange for an intangible asset, i.e. a right to collect revenue from the network users. In accordance with IAS 38 and IFRIC 12, Sequalum recognizes the intangible asset at cost, net of grants, i.e. the fair value of the consideration transferred to acquire the asset, which is the fair value of the consideration received or receivable for the construction services delivered.

Main characteristics of the agreement:

Control and regulation of prices	Origin of revenues	Subsidy granted by grantor	Residual value	End of agreement	Accounting model
Rates are defined in the service agreement	Users	59 million euro subsidy to finance the construction	The network will be returned to the grantor with no indemnity, except for some assets (*actifs de reprise*)	Contract will end after 25 years	Intangible assets

2.12 Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Land is not depreciated. Buildings and premises are amortized on a straight-line basis over 20 years.

2 Significant accounting policies (Continued)

When property, plant and equipment include significant components with different useful lives, the components are recorded and amortized separately. With respect to network and technical equipment, depreciation is calculated on a straight-line basis. The main depreciation periods are as follows:

Network and technical equipment	Method	Duration
Network hubs	Straight line	10 to 15 years
Optical cables	Straight line	15 to 30 years
Engineering facilities	Straight line	20 to 40 years
Connections	Straight line	5 years
Digital terminals	Straight line	3 to 5 years
Furniture	Straight line	5 to 10 years
Fixtures and fittings	Straight line	8 to 10 years
Transport equipment	Straight line	2 to 5 years
Office equipment	Straight line	3 to 5 years
Computer equipment	Straight line	3 to 5 years

Gains or losses on disposal of property, plant and equipment are the difference between the profit from the disposal and the carrying amount of the asset and are recognized in the caption "Other operating income/expenses" of the consolidated statement of income.

2.13 Lease arrangements

Leases are classified as finance leases whenever the terms of the lease substantially transfer the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Amounts due from lessees under finance leases are recognized as receivables in the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the term of the lease.

The Group as lessee

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss. Contingent rentals are expensed in the period in which they are incurred.

Operating lease payments are expensed on a straight-line basis over the term of the lease, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are expensed in the period in which they are incurred. In the event that incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2 Significant accounting policies (Continued)

2.14 *Impairment of goodwill and non-current* assets

Whenever events or changes in the economic environment indicate a risk of impairment of goodwill, or other intangible assets, property, plant and equipment and assets in progress, the Group re-examines the value of these assets. In addition, goodwill, other intangible assets with indefinite useful lives and intangible assets in progress are subject to annual impairment testing during the second half of each fiscal year.

This testing is performed in order to compare the recoverable amount of an asset or a Cash Generating Unit ("**CGU**") with its carrying amount.

An asset's or CGU's recoverable amount is the greater of its fair value less costs to sell or its value in use. The recoverable amount is determined for each individual asset, unless the asset does not generate cash inflows that are largely independent of those derived from other assets or groups of assets. In that case, the recoverable amount is determined for the CGU to which the asset belongs.

A CGU is the smallest identifiable group of assets that generate cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The CGUs for the Group are "B2C Operations," "B2B Operations" and "Wholesale Services."

The value in use of each asset or group of assets is determined as the present value of future cash flows (discounted cash flow method or "DCF") by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtainable from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption "Depreciation and amortization" of the statement of income. Only impairment losses recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful lives and property, plant and equipment may be reversed.

2.15 *Financial* assets

The Group classifies financial assets in four categories: available-for-sale; loans and receivables; held-to-maturity; and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets in accordance with IAS 1.

Purchases and sales of all financial assets are recognized at the settlement date.

Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is sold or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is reclassified in profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in companies that are not included in the scope of consolidation. Fair value corresponds to the quoted price for listed securities. For non-listed securities, the Group values financial assets at historical cost, less any impairment losses, when a reliable estimate of fair value cannot be made using valuation techniques in the absence of an active market.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from equity to profit or loss. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a

2 Significant accounting policies (Continued)

material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed.

Available-for-sale financial assets are included in non-current assets unless management intends to dispose of the investment within 12 months of the date of the statement of financial position.

Loans and receivables

Loans and receivables are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest method.

This category mainly includes trade and other receivables.

If there is objective evidence that an impairment loss has been incurred, the amount of this loss, measured as the difference between the financial asset's carrying value and its recoverable amount, is recognized in profit or loss. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases.

Held-to-maturity financial assets

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturities that the Group intends and has the ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, using the effective interest method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Group does not classify any financial asset in this category.

Financial assets measured at fair value through profit or loss

These financial assets are measured at fair value, with gains and losses recorded as financial income or expenses.

This category mainly includes:

- assets held for trading that the Group intends to sell in the near future (primarily marketable securities);
- assets voluntarily classified at inception in this category;
- derivative financial assets.

2.16 Inventories

Inventories, mainly set-top boxes and technical equipment, are carried at the lower of cost and net realizable value. Cost is determined using the weighted-average cost method, and includes the acquisition cost of materials.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

2.17 Cash and cash equivalents

Cash consists of cash in bank accounts and deposits.

Cash equivalents consist of highly liquid investments not subject to significant changes in value and with an original maturity date generally less than three months from the time of purchase.

2 Significant accounting policies (Continued)

2.18 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

Equity instruments

An equity instrument is any contract resulting in a residual interest in the assets of an entity after deducting all of its liabilities. The equity instruments issued by the Group are recorded for the proceeds received, net of direct issuance costs.

Financial liabilities

Financial liabilities other than derivative instruments include borrowings under the Senior Facility Agreement ("SFA"), debt related to finance leases, guarantee deposits, advances received and bank overdrafts.

They are measured at amortized cost, using the effective interest method in accordance with IAS 39. The effective interest rate is the internal rate or return that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument. Accrued interest is included in "Current portion of financial liabilities" in the statement of financial position.

2.19 Derivative instruments

Derivatives are initially recognized at fair value on the date of inception of a derivative contract, and are subsequently remeasured at their fair value.

The Group enters into interest rate swaps and caps to manage its interest rate exposure. The objective is to convert variable rate financial instruments into fixed rate financial instruments. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any these derivative instruments are recognized immediately in the statement of income, under financial income and expenses.

2.20 Employee benefits, provisions and contingent liabilities

Provisions are recognized when the Group has a legal obligation (legal, regulatory or contractual) or a constructive obligation, as a result of past events, and it is probable that economic benefits in the form of an outflow of resources will be required to settle the obligation, and when the amount of the obligation can be reliably estimated. Provisions are reviewed at the end of each reporting period, and adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are disclosed in the notes, but are not recognized.

2 Significant accounting policies (Continued)

Employee benefits

The Group provides employee benefits through contributions to defined-contribution plans and defined-benefit plans. The Group recognizes pension costs related to defined-contribution plans as they are incurred in personnel expenses in the statement of income.

Estimates of the Group's pension and end-of-service benefit obligations are calculated annually, in accordance with the provisions of IAS 19 Revised *Employee Benefits* ("**IAS 19R**"), with the assistance of independent actuaries, using the projected unit credit method and considering actuarial assumptions including the probable turnover of beneficiaries, salary increases, expected life expectancy, the probable future length of employees' service and an appropriate discount rate updated annually.

Actuarial gains and losses arising from experience, adjustments and changes in actuarial assumptions are recognized in other comprehensive income.

Litigation

The amount of provisions for litigation is based on the Group's assessment of the level of risk, and depends on its assessment of the basis for the claims.

Restructuring

Provisions for restructuring expenses are recognized when restructuring plans have been finalized and approved by the Group's management, and when the Group has raised a valid expectation among the employees concerned that it will carry out the plan either by starting to implement the plan or announcing its main features. These provisions only include direct expenditure arising from restructuring, notably severance payments, early retirement costs, costs for notice periods not worked and other costs directly related to the closure of facilities.

2.21 *Share-based payment*

The Group has granted options that will be settled as equity instruments. In accordance with IFRS 2, the benefit granted to employees under stock option plans, assessed at the time of the grant of the option, is additional remuneration.

Plans granting instruments settled as equity instruments are measured at the grant date based on the fair value of the equity instruments granted. They are recognized as personnel expenses over the vesting period, taking into account an estimate of the number of options that will vest at the end of the period. In addition, for plans based on non-market performance conditions, the probability of achieving the performance objective is assessed each year and the expense adjusted accordingly.

The fair value of options granted is determined using the Black-Scholes valuation model, which takes into account an annual reassessment of the expected number of exercisable options. The expense recognized is adjusted accordingly.

2.22 *Borrowing costs*

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. The Group notes that it does not take a substantial amount of time to get assets ready for their intended use because of the incremental deployment of the network. IAS 23 *Borrowing Costs* consequently has no impact on the consolidated financial statements.

2.23 *Earnings per share*

Basic earnings per share are calculated by dividing the profit attributable to holders of ordinary shares of the parent by the weighted average number of ordinary shares outstanding during the period, excluding any treasury shares held by the Group.

2 Significant accounting policies (Continued)

Diluted earnings per share are calculated by dividing the profit attributable to holders of ordinary shares of the parent by the weighted average number of ordinary shares outstanding during the period, based on the assumption that all potentially dilutive instruments are converted and that the assumed proceeds from the conversion of these instruments has been used to acquire shares of the Group at the average market price for the period during which these instruments were outstanding.

Potentially dilutive instruments include stock options, if dilutive.

3 Critical accounting judgments and key sources of uncertainty in respect of estimates

The preparation of the consolidated financial statements in accordance with IFRS requires the Group to make a certain number of estimates and assumptions that are realistic and reasonable.

In applying accounting policies during the preparation of the consolidated financial statements described in Note 2, management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

Such estimates are prepared based on the going concern assumption, established using currently available information and in view of the current economic environment. In the prevailing economic environment, changes in facts and circumstances may result in revised estimates or assumptions, which could affect the financial position, results of operations and cash flows of the Group.

The valuation of certain assets and liabilities in the preparation of these financial statements required management to make estimates and assumptions, particularly in respect of:

- *Revenue recognition:* as indicated in Note 2.3, revenue is recognized at the fair value of the consideration received or to be received when the risks and rewards of ownership of a product have been substantially transferred to the buyer or when the service is rendered. With respect to contracts that include installation, connection and set-up fees for residential customers, significant judgments must be made as to whether the recognition criteria set out in IAS 18 should be applied separately and whether installation, set-up and connection should be considered separable services. With respect to service access fees for business customers, revenue is recognized on a straight-line basis over the term of the contract. Accordingly, depending upon how judgment is exercised and how estimates are determined, the timing and amount of revenue recognized can differ significantly.
- *Capitalization of development costs:* the criteria for capitalizing development costs are set out in Note 2.11. Once capitalized, these costs are amortized over the estimated useful lives of the respective products (generally three years). The Group must therefore evaluate the commercial and technical feasibility of its development projects and estimate the useful lives of the products resulting from these projects. Should a product fail to substantiate these assumptions, the Group may be required to impair or write off some of the capitalized development costs in the future. Note 14 provides information on the amount of capitalized costs in the consolidated statement of financial position.
- *Fair value of financial instruments* (see Note 28.3): fair value is determined by reference to the market price at the end of the period. For financial instruments for which there is no active market such as interest rate swaps, which the Group currently uses to hedge its interest rate risk, fair value is estimated based on models that rely on observable market data or by the use of various valuation techniques, such as discounted future cash flows.
- *Recognition of deferred tax assets on unrealized tax loss carryforwards* (see Notes 2.8, 4.1.7 and 12): deferred tax assets relate primarily to tax loss carryforwards. The assets relating to tax loss carryforwards are recognized if it is probable that the Group will generate future taxable profits against which these tax losses can be offset. Evaluation of the Group's capacity to utilize tax loss carry-forwards relies on an in-depth review. The Group analyzes past events, and the positive and

3 Critical accounting judgments and key sources of uncertainty in respect of estimates (Continued)

negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carryforwards. As of December 31, 2013 the Group recognized deferred tax assets in a total amount of 132.7 million euros in respect of loss carryforwards whose future use was deemed probable within the forecast period of five years.

- *Impairment tests* (see Notes 2.10 and 16): the determination of recoverable amounts of the CGUs assessed in the annual impairment test requires an estimate of their fair value less costs to sell as well as their value in use. The assessment of the value in use requires assumptions to be made with respect to the operating cash flows of the CGUs, as well as discount rates.

  The determination of the value in use is based on assumptions such as the weighted average cost of capital and the perpetual growth rate beyond the projection period. These assumptions can vary, potentially causing the recoverable amount to fall below the carrying amount, and as such requiring the recognition of an impairment loss.

  As of December 31, 2013 and 2012, the assumptions used to determine the value in use of the CGUs for which goodwill is allocated were as follows:

CGU "B2C Operations"	2013	2012
Length of forecast period	5 years	8 years
Discount rate	7.30%	7.56%
Growth rate beyond forecast period for terminal value	2.00%	1.75%

CGU "B2B Operations" and "Wholesale"	2013	2012
Length of forecast period	5 years	6 years
Discount rate	7.14%	9.42%
Growth rate beyond forecast period for terminal value	2.00%	1.00%

  The calculation of value in use is based on financial budgets approved by management, the period of which was reduced to five years in 2013 in accordance with the recommendations of IAS 36. Projections in respect of subscribers, revenue, costs, and capital expenditure are based on reasonable and acceptable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers, average revenue per user and the level of upgraded network infrastructure. The projections are based on both past experience and the expected future market penetration of the various products.

4 Significant events

4.1 Year ended December 31, 2013

4.1.1 Constitution of Numericable Group

Numericable Group was established in July 2013 by way of cash contributions in an initial amount of 37 thousand euros.

On November 7, 2013, Numericable Group received, within the framework of the Company's prospective IPO, the contribution of two holding companies incorporated in Luxembourg, Ypso Holding SARL and Altice Lux Holding SARL, the parent companies of Ypso France and Altice B2B France respectively.

The contributions of Ypso and Altice B2B Numericable Group increased the capital of the Company by a total of 1,995,489 thousand euros, breaking down into a 113,772 thousand euro increase in share capital and a 1,881,717 thousand euro increase in additional paid-in capital.

4 Significant events (Continued)

Following the contributions, the Company's share capital accordingly amounted to 113,809 thousand euros, and additional paid-in capital to 1,881,717 thousand euros.

Moreover, during the restructuring of the Group's debt in 2009, during which the Group's shareholders acquired certain loans in respect of SFA Ypso France, Ypso Holding SARL issued securities subscribed by the shareholders, including 132,664,023 subordinated interest preferred equity certificates ("Super PECs") with a nominal value of 1 euro each, the interest on which was capitalized.

Cinven, Carlyle and Altice contributed the Super PECs to Numericable Group on November 7, 2013, within the framework of the legal transactions related to the IPO. This debt was therefore extinguished in exchange for newly issued securities. Subsequently, the expense related to the extinguishment of the debt ("Premium") was recognized as financial expense in the amount of 81.6 million euros. This expense had no impact on the Group's cash position.

4.1.2 IPO and capital increases

On October 25, 2013, the Board of Directors of Numericable Group decided in principle to undertake an initial public offering of the Company on NYSE Euronext Paris.

On November 7, 2013, the Board of Directors:

- priced the IPO at 24.80 euros per share;
- decided to increase share capital by a total amount of 250,000 thousand euros through a public offering (including a 10,081 thousand euro capital increase through the issuance of new shares and 239,919 thousand euros in additional paid-in capital);
- proposed a capital increase reserved for employees, which was ultimately carried out in the amount of 1,034 thousand euros (including a 52 thousand euro capital increase through the issuance of new shares and 982 thousand euros in additional paid-in capital).

Trading on the shares began on November 8, 2013.

The costs incurred in connection with the IPO were fully charged to additional paid-in capital in a total amount of 14,582 thousand euros. These costs, borne entirely by Numericable Group, were accounted for without tax effect.

Following the IPO, the Numericable Group's share capital amounted to 123,942 thousand euros, and additional paid-in capital to 2,108,037 thousand euros. See Note 22.1 for information on the constitution of the share capital of Numericable Group.

4.1.3 Granting of stock option plans

On November 7, 2013, the Board of Directors also adopted a stock option plan in favor of certain officers and employees of Numericable Group.

The plan covers a total of 2,845,229 options for 2,845,229 shares.

As of December 31, 2013, the fair value of options granted was estimated at 9,702 thousand euros. An amount of 640 thousand euros was expensed in 2013 in respect of this plan.

See Note 25.2 for further details on this stock option plan.

4.1.4 Acquisition of Valvision

On 27 June 2013, the Group acquired 100% of the share capital of Valvision, a cable operator operating in eastern France.

4 Significant events (Continued)

The difference between the acquisition price (3,340 thousand euros) and the share of equity acquired (219 thousand euros), representing the acquired customer base, was 3,121 thousand euros. It was fully allocated to "Other intangible assets," and will be amortized over a period of three years.

No additional payment is provided for under the acquisition agreement.

4.1.5 Acquisition of LTI Telecom

On October 31, 2013, the Group acquired 100% of the shares of Invescom, a holding company that owns 100% of LTI, a B2B telecom operator.

The acquisition price amounted to 25,550 thousand euros for a share of equity acquired of 609 thousand euros. No additional payment is provided for under the acquisition agreement.

In view of the date of the acquisition, the allocation of the price to identifiable assets acquired and liabilities assumed had not been finalized as of December 31, 2013. The Company has until September 30, 2014 to finalize this process.

Therefore, the difference of 24,941 thousand euros between the acquisition price and the share of equity as reflected in the accounts of the acquired subgroup was recognized as goodwill as of December 31, 2013 (see Note 13).

4.1.6 Refinancing of Senior Debt

Amendments in July-August 2013

In July and August 2013, the Group amended its Senior Facility Agreements, allowing a large portion of its debt to be rescheduled. This renegotiation also led to a change in certain contractual conditions, including the margin applicable to the Senior Debt of Altice B2B.

This renegotiation of Senior Debt is a simple modification of existing debt. As such, the costs stemming from the renegotiation (6.2 million euros) have been measured at amortized cost in accordance with the effective interest method pursuant to IAS 39.

Refinancing in December 2013

In December 2013, the Group raised a new tranche of Senior Debt in a total amount of 800 million euros (Tranche D). This tranche is repayable by December 31, 2018 and bears interest at Euribor plus a margin of 3.75%.

The Group used the proceeds of this issue (800 million euros) and the proceeds of the capital increase carried out in the context of the public offer (250 million euros) to reimburse some of its existing debt, as follows:

- all of the Senior Debt originally subscribed by Altice B2B France in the amount of 451 million euros;
- all of the 275 million euro bond issue (Tranche C-Two B) subscribed in October 2012;
- part of the 225 million euro bond issue (Tranche C-Two A) subscribed in October 2012 (repayment of 78.8 million euros);
- part of the 360 million euro bond issue (Tranche C-One) subscribed in February 2012 (repayment of 126.1 million euros).

The renegotiation of Senior Debt represents the settlement of existing debt. Accordingly:

- the cost of settling bonds ("Premium") incurred by the Group were recognized in other financial expenses in the amount of 28.0 million euros;

4 Significant events (Continued)

- costs relating to the implementation of the extinguished debt in December 2013, which were originally recorded at amortized cost, has been recognized in other financial expenses in the amount of 15.2 million euros;
- costs relating to the implementation of the new Tranche D (7.25 million euros) have been recognized at amortized cost using the effective interest method in accordance with IAS 39.

Following the refinancing in 2013, the maturity of Senior Debt was as follows as of December 31, 2013 (nominal amounts):

Maturity	2014	2015	2016	2017	2018	2019	Total
in millions of euros	42.6	63.4	102.1	821.0	1,223.2	380.0	2,632.4

4.1.7 Recognition of deferred tax assets

In the year ended December 31, 2013, the Group recognized deferred tax assets in a total amount of 132.7 million euros in respect of loss carryforwards whose future use was deemed probable within the forecast period of five years.

In view of the large amount of unrecognized deficits remaining as of December 31, 2013 (see Note 12.4), all of the deferred tax income recognized in 2013 was recorded in the statement of income, and no deferred tax assets were recorded in respect of actuarial gains and losses recognized in other comprehensive income or capital increase expenses charged to additional paid-in capital.

4.1.8 In-depth inquiry of the European Commission into the transfer of cable infrastructures by certain local authorities

On July 17, 2013 the European Commission signaled that it had decided to open an investigation to verify whether the transfer of public cable infrastructure to Numericable by several French municipalities between 2003 and 2006 was in line with European Union State aid rules. The European Commission expressed doubts as to the compatibility of such aid with EU rules because of the economic advantage conferred on Numericable by virtue of the conditions of the transfer.

As the Group disputes this position, and as the potential risk relating to this investigation cannot be measured reliably, no provision was recorded in the financial statements as of December 31, 2013.

4.1.9 Leaseback of modems

In May 2013 and June 2013, the Group entered into two sale and leaseback contracts with Lease Expansion, in respective amounts of 12.7 million euros and 5.9 million euros for new modems known as "La Box."

The term of the lease is three years for each contract.

4.1.10 Tax audits

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission of proposed adjustments on December 19, 2013. The adjustments stem exclusively from the rejection of the deductibility of certain shareholder services expensed in 2009, 2010 and 2011. A tax contingency provision totaling 11.4 million euros was recorded as of December 31, 2013 to cover the proposed adjustments (income tax, VAT, withholding tax, fines, penalties and default interest).

4 Significant events (Continued)

4.1.11 Lehman Brothers compensation

The Group received two further payments of 4.5 million euros and 2.6 million euros in June 2013 and December 2013 respectively, as part of its claim following the bankruptcy of Lehman Brothers in September 2008 (see Note 28.4).

4.1.12 Cancellation of the 5 million euro fine imposed by ARCEP

In July 2013, the Constitutional Court ruled that the power to sanction held by the French regulator (*Autorité de régulation des communications électroniques et des postes*—ARCEP) did not meet the principles of independence and impartiality required by the Constitution.

On October 21, 2013, the Group obtained the annulment by the Council of State of the penalty imposed by ARCEP on December 20, 2011, which condemned Numericable and NC Numericable to a fine of 5 million euros for non-compliance with the ARCEP decision of November 4, 2010.

The Group recorded the proceeds relative to the annulment of the fine in the financial statements for the year ended December 31, 2013 under "Other operating income" (see Note 9).

4.1.13 Litigation with Free

On December 13, 2013, the Commercial Court of Paris condemned the Group to pay the sum of 6,411 thousand euros to Free as part of a dispute over an advertising campaign run by Numericable that Free claimed harmed its brand and its image (see Note 24.2 for details on the procedure). The Group appealed this decision.

The Group recognised a provision for the entire fine in the consolidated financial statements for the year ended December 31, 2013. The decision having been executed in early January 2014, the provision was classified under "Current provisions" in the consolidated statement of financial position as of December 31, 2013.

4.2 Year ended December 31, 2012

4.2.1 Bond issues

In 2012, the Group issued several bonds to refinance part of its existing financial debt.

In February 2012, the Group issued a 360 million euro bond. The issuer was Numericable Finance & Co. SCA, an unregulated securitization company in the form of a corporate partnership limited by shares incorporated under the laws of the Grand Duchy of Luxembourg. The proceeds of the notes were used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank's (JP Morgan) participation in a loan (the "C-One" Facility Loan), whose sole lender was the bank itself under the Senior Facility Agreement, in favor of the Group, and which allowed it to reimburse certain facilities under the SFA in the amount of 350 million euros.

The notes mature on February 15, 2019 and bear interest at 12.375%. Interests on the notes are paid semiannually on February 15 and August 15 of each year.

In February 2012, the Group also obtained a new Revolving Credit Facility under the SFA. The maximum amount that can be drawn is 65 million euros ("Revolving Credit Facility"). It matures in March 2016. The amount used under this facility bears interest equal to Euribor plus 4.5%. The amount not used under this facility, which amounted to 65 million euros as of December 31, 2013, bears interest equal to a commitment fee of 2.25%.

According to the terms of the amendment of the September 2011 Senior Facility Agreement, maturities of certain lenders' commitments were extended by two years (comprising one-half of Tranche A and the Capex Facility and two-thirds of Tranches B & C). Along with the extension of the maturities, the

4 Significant events (Continued)

amendment changed the margin on the extended tranches and put a new set of financial covenants in place. The September 2011 Senior Facility Agreement became effective on February 15, 2012.

In October 2012, the Group issued another two bonds in amounts of 225 and 275 million euros respectively through the same issuer, Numericable Finance & Co. SCA. The proceeds of the notes were used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank's (JP Morgan) participation in two new loans, the "C-Two A Facility Loan" and the "C-Two B facility Loan," whose sole lender was the Lending Bank itself under the Senior Facility Agreement, in favor of the Group, which allowed it to reimburse certain facilities under the SFA in the amount of 490 million euros.

The "C-Two A facility" amounts to 225 million euros. It matures on February 15, 2019 and bears a fixed interest rate of 8.75% per annum. Interest is paid semiannually on February 15 and August 15 of each year, commencing on February 15, 2013.

The "C-Two B facility" amounts to 275 million euros. It matures in October 2018 and bears a floating interest rate equal to three-month Euribor plus 7.85% per annum. Interest is paid quarterly on January 15, April 15, July 15 and October 15 of each year, commencing on January 15, 2013.

The Group paid 55 million euros in fees in connection with the implementation of these new facilities (C-One, C-Two A and C-Two B) and the amendments relative to the Senior Facility Agreement. This amount includes:

- bond issuance costs of 30.2 million euros, which are amortized over the length of the notes using the effective interest method;
- waiver fees of 17.4 million euros, which are recorded in "Other financial expense" in the consolidated statement of income for the period ended December 31, 2012;
- advisory fees of 7.4 million euros, which are recorded in "Other operating expenses" in the consolidated statement of income for the period ended December 31, 2012.

4.2.2 Purchase of the Nice network

In April 2012, the Group signed an agreement with the city of Nice for the purchase of the cable network of Nice for 20 million euros.

The purchase price repayment is scheduled as follows:

- 2.5 million euros in July 2012 and 2.5 million euros in January 2013;
- the remaining 15 million euros payable over 20 years (0.75 million euros each year from 2013 to 2032), with interest of 4%.

4.2.3 Tax audits

During the third quarter of 2012, the tax audits mentioned in Note 12.5 were extended to fiscal year 2010. Tax penalties related to the fiscal years 2005 to 2009 have been reduced.

As of December 31, 2012, the amount of the provision recognized in relation to these tax audits had not been adjusted, as management believes that the financial risk related to penalties for fiscal year 2010 will represent the same amount as the reductions notified by the administration concerning the penalties for fiscal years 2005 to 2009.

5 Segment information

As stated in Note 2.7, the Group has three operating segments:

- B2B Operations
- B2C Operations
- Wholesale Services

5 Segment information (Continued)

5.1 Statement of income

The following tables provide, for each period presented, the contribution of each segment to the statement of Income (from "Revenue" to "Operating income before depreciation and amortization").

Intra-segments sales have been eliminated under the column "Eliminations."

2013	B2C	B2B	Wholesale	Eliminations	2013 Total
	(in thousands of euros)				
Revenue	869,448	**312,640**	200,794	(68,640)	**1,314,242**
Purchases and subcontracting services	(415,127)	(180,195)	(84,333)	68,640	(611,016)
Staff costs and employee benefits expense	(87,144)	(60,504)	(6,982)	—	(154,631)
Taxes and duties	(20,469)	(8,073)	(5,355)	—	(33,896)
Provisions	(8,616)	(11,567)	(283)	—	(20,466)
Other operating income	65,499	20,763	59	—	86,321
Other operating expense	(18,588)	(1,878)	—	—	(20,466)
Operating income before depreciation and amortization (EBITDA)	385,003	71,186	103,900	—	560,088

2012	B2C	B2B	Wholesale	Eliminations	2012 Total
	(in thousands of euros)				
Revenue	832,568	324,506	211,476	(66,125)	**1,302,425**
Purchases and subcontracting services	(386,060)	(178,420)	(103,766)	66,125	(602,121)
Staff costs and employee benefits expense	(77,592)	(57,186)	(6,697)	—	(141,475)
Taxes and duties	(19,901)	(7,569)	(4,926)	—	(32,396)
Provisions	(4,516)	(1,323)	(380)	—	(6,219)
Other operating income	68,095	21,108	26	—	89,229
Other operating expense	(16,030)	(1,148)	—	—	(17,178)
Operating income before depreciation and amortization (EBITDA)	396,564	99,968	95,733	—	592,265

5.2 *Goodwill*

Goodwill breaks down by segment as follows as of December 31, 2013 and 2012:

Carrying amount	December 31, 2013	December 31, 2012
	(in thousands of euros)	
B2C	984,583	984,583
B2B	499,045	474,103
Wholesale	—	—
Total	1,483,628	1,458,686

5 Segment information (Continued)

5.3 Investments

Investments on property, plant and equipment and intangible assets (net of investment grants received) break down by segment as follows as of December 31, 2013:

	December 31, 2013
	(in thousands of euros)
B2C	165,473
B2B	73,904
Wholesale	80,452
Total	319,829

6 Revenue

Consolidated revenue breaks down by segment as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
B2B revenue	864,589	826,171
B2B revenue	309,646	323,201
Wholesale revenue	140,007	153,053
Total revenues	1,314,242	1,302,425

It is stipulated that all revenues are generated in France.

7 Purchases and subcontracting services

Purchases and subcontracting services break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
TV content, Internet and telephony costs	(315,318)	(332,853)
Outsourcing and purchased services	(98,082)	(90,752)
Advertising	(38,834)	(30,120)
Fees paid to other third parties	(35,991)	(31,936)
Royalties and license fees paid	(12,183)	(12,089)
Rights of way paid	(14,936)	(15,316)
Rental and leasehold charges	(27,023)	(25,790)
Energy	(25,846)	(23,938)
Bad debt expense	(8,000)	(9,173)
Postal expense	(4,389)	(4,378)
Transportation expense	(4,654)	(4,286)
Repair and maintenance expense	(11,830)	(11,911)
Miscellaneous operating expense	(13,930)	(9,579)
Purchases and subcontracting services	(611,016)	(602,121)

8 Personnel expenses

Personnel expenses break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Wages and salaries	(99,947)	(91,343)
Social security charges	(45,923)	(43,889)
Employee profit-sharing	(5,210)	(6,243)
Costs related to the stock option plan[a]	(3,551)	—
Staff costs and employee benefits expense	(154,631)	(141,475)

(a) Includes 2.9 million euros in respect of employer contributions due on the allocation of shares and 0.6 million euros for the cost of the plan recognized in 2013 (see Note 4.1.3).

As of December 31, 2013, the Group employed a total of 2,182 people (of which 2,077 permanent contracts), compared with 1,979 as of December 31, 2012 (of which 1,910 permanent contracts).

The following table breaks down the numbers of permanent contracts by occupational category as of December 31, 2013 and 2012:

Occupational category	December 31, 2013	December 31, 2012
Managers	1,096	1,015
Senior technicians and supervisors	356	322
Operators, employees and technicians (Non Managers)	625	573
Total	2,077	1,910

9 Other operating income

Other operating income breaks down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Own work capitalized[a]	75,853	82,217
Proceeds from sale of assets	5,078	3,817
Other[b]	5,390	3,195
Other operating income	86,321	89,229

(a) Own work capitalized work on the network performed by employees of the Group with a view to upgrading the cable network.

(b) In 2013, this item included the repayment of the 5 million euro fine imposed by ARCEP in 2012. In 2012, this item mainly included various transfers of expenses in the amount of 2.7 million euros.

10 Other operating expense

Other operating expenses break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Net carrying amount of assets sold	(14,741)	(7,382)
Fees paid in connection with refinancing	(4,619)	(7,372)
Management fees paid to shareholders[a]	(1,106)	(2,424)
Miscellaneous operating expenses	—	—
Other operating expense	**(20,466)**	**(17,178)**

(a) Until the date of IPO, after which the agreements were terminated.

11 Finance costs, net

Net finance costs broke down as follows as of December 31, 2013 and 2012:

	Note	December 31, 2013	December 31, 2012
		(in thousands of euros)	
Interest income received on cash and cash equivalents		111	106
Other financial income	11.1	9,593	4,220
Financial income		9,704	**4,326**
Change in fair value of interest rate derivatives		—	—
Interest expense on financing determined using the effective interest method		(184,839)	(183,057)
Interest relative to gross financial debt		**(184,839)**	**(183,057)**
Other financial expense	11.2	(148,513)	(32,699)
Finance costs, net		**(323,648)**	**(211,430)**

11.1 Other financial income

As of December 31, 2013, other interest income broke down primarily as follows:

- Payments received within the framework of the compensation sought after the bankruptcy of Lehman Brothers in September 2008 (see Note 28.4) in the amount of 7.1 million euros (compared with 2.8 million euros in 2012);
- Reversals of provisions for financial risks and charges in the amount of 1.9 million euros.

11.2 Other interest expense

As of December 31, 2013, other interest expense broke down primarily as follows:

- the cost of settling bonds ("Premium") incurred by the Group in the amount of 28 million euros through the reimbursement of the Senior Facilty Agreement as explained in Note 4.1.6 above;
- the costs incurred with respect to the settlement of SuperPecs in the amount of 81 million (without impact on the Group's cash position as this debt was extinguished through the issuance of shares in the context of the IPO as explained in Note 4.1.1 above);
- the unamortized portion of costs related to the debt settled in December 2013 (initially measured at amortized cost) in the amount of 15.2 million euros;

11 Finance costs, net (Continued)

- the amortization of fees paid for the establishment of funding still in place at end-2013 in the amount of 8.3 million euros;
- penalties for late customer deployments in the amount of 4 million euros.

As of December 31, 2012, other interest expense broke down primarily as follows:

- early repayment of penalties paid in connection with debt refinancing in the amount of 17.4 million euros;
- amortization of fees paid for the establishment of funding in the amount of 6.2 million euros valued using the effective interest method;
- default interest in the amount of 5.6 million euros.

12 Income tax

12.1 Income tax expense

Income tax expense breaks down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Current tax expense/income	130	(2,486)
Deferred tax expense/income	132,662	—
Tax expense/income	132,792	(2,486)

12.2 Reconciliation between the effective tax rate and the theoretical tax rate

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Net income (loss) before tax	(68,086)	88,912
Less: Share of net income (loss) of associates	484	199
	67,602	89,111
Corporate tax rate in France	38%	34.43%
Income tax expense calculated at 38%	25,689	(30,681)
Reconciliation of income tax expense		
Deferred tax assets	132,662	—
Effect of revenue that is exempt from taxation and effect of expenses that are not deductible in determining taxable profit(1)	(26,231)	(13,315)
Effect of unused tax losses and tax offsets not recognized as deferred tax assets	—	41,083
Tax credits	673	420
Effect of other differences	—	8
Income tax expense recognized in profit or loss	132,792	(2,486)
Effective tax rate(2)	(196.43)%	2.79%

---

(1) Consists primarily of interest expense not deductible under thin capitalization rules (15.2 million euros as of December 31, 2013, compared with 9.9 million euros as of December 31, 2012).

(2) The effective tax rate in 2013 was negative taking into account deferred tax assets during the year.

12 Income tax (Continued)

In view of the large amount of unrecognized tax losses remaining as of December 31, 2013 (see Note 12.4), the deferred tax income recognized in 2013 in respect of tax loss carryforwards whose future use is considered probable within the five-year forecast period was recorded in the statement of income, and no deferred tax assets were recorded in respect of actuarial gains and losses, which are recognized in other comprehensive income, or capital increase expenses, which are charged to additional paid-in capital.

12.3 Current tax assets and liabilities

Current tax assets as of December 31, 2013 amounted to 3.4 million euros, corresponding to installments of income tax and competitiveness and employment tax credits (CICE), for which the Group must request reimbursement.

The income tax payable is classified in "Current tax liabilities," and amounts to 71 thousand euros and 2,604 thousand euros as of December 31, 2013 and 2012 respectively.

12.4 Unrecognized deferred tax assets

Aggregate unused tax loss carryforwards amounted to 2,316 million euros as of December 31, 2013, representing a theoretical tax asset of 876 million euros. A deferred tax asset of 132.7 million euros was recognized as of December 31, 2013.

Total net tax loss carryforwards break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Ypso France and its subsidiaries[1]	1,857,400	1,852,028
Altice B2B France and its subsidiaries	413,401	402,544
Ypso Holding Lux	45,561	256,173
Total tax loss carryforwards	**2,316,362**	**2,510,745**
Deferred tax assets calculated at the standard rate	**876,217**	**851,103**
Of which deferred tax assets recognized	*132,662*	—
Of which deferred tax assets not recognized	*743,555*	*851,103*

---

(1) Including tax losses contested by the tax authorities (56 million euros as of December 31, 2013).

12.5 Tax audits

Certain subsidiaries of the Group, Ypso France, NC Numericable (including Numericable and Est Videocommunication, merged in 2013) were subject to a tax audit by the French tax authorities for the fiscal years ended from December 31, 2007 to December 31, 2010. As a result, a tax contingency provision in the amount of 24,9 million euros was recognized as of December 31, 2013 (compared with 25.1 million euros as of December 31, 2012) to cover the risk represented by this audit.

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission of proposed adjustments on December 19, 2013. The adjustments focus exclusively on the rejection of the deductibility of certain shareholder services expensed in 2009, 2010 and 2011. A tax contingency provision totaling 11.4 million euros was recorded as of December 31, 2013 to cover the proposed adjustments (income tax, VAT, withholding tax, fines, penalties and default interest).

The total tax contingency provision was 36.3 million euros as of December 31, 2013, compared with 25.1 million euros as of December 31, 2012.

13 Goodwill

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Net carrying amount		
Balance at beginning of year	1,458,686	1,458,638
Additional goodwill recognized during the period(1)	24,942	48
Balance at end of year(2)	**1,483,628**	**1,458,686**

---

(1) The additional goodwill of 24.9 million euros recognized as of December 31, 2013 was attributable to the acquisition of LTI Telecom (described in Note 4.1.5). The allocation of the acquisition price is provisional, and will be finalized within 12 months of the date of acquisition. The goodwill was allocated to the B2B Operations CGU.

(2) Goodwill breaks down as follows:

Carrying amount	December 31, 2013	December 31, 2012
	(in thousands of euros)	
B2C Operations	984,583	984,583
B2B Operations	499,045	474,103
Total	1,483,628	1,458,686

14 Other intangible assets

Net carrying amount					
Balance as of January 1, 2012	3,341	327,285	1,259	14,170	346,056
Balance as of December 31, 2012	2,606	307,262	7,340	8,976	326,187

(a) Rights of use represent the majority of "rights of use, patents and licenses." They reflect the rights to use civil engineering installations and infrastructure built by the incumbent operator, France Telecom, as well as investments made through the DSP.

(b) Other intangible assets primarily include customer lists (including the customers of Valvision, acquired in 2013, see Note 4.1.4) and capitalized production within the framework of IT projects relating to the network.

* As explained in note 2.11, the Group applied IFRIC 12 with respect to the contract entered into in relation to the public service concession arrangement with the department of Hauts-de-Seine (DSP 92).

The application of this principle had the following impacts on the 2012 consolidated statement of financial position:

- Recognition of the net carrying amount of 17.2 million euros classified in "Other intangible assets" (26.6 million euros of investments less 9.5 million euros of grants received as of December 31, 2011);
- Recognition of 26.4 million euros of capital expenditure in 2012 in "Rights of use, patents and licenses" (38.0 million euros of investments less 11.5 million euros of grants received in 2012).

In addition, 26.4 million euros of capital expenditure in relation to the public service concession arrangement with the department of Hauts-de-Seine (DSP 92). This amount is classified in investing activities in the consolidated statement of cash flows.

As of December 31, 2013, the total amount of investments (net of subsidies) made under DSP 92 and classified as intangible assets amounted to 71.8 million euros.

15 Property, plant and equipment (Continued)

The carrying amount of assets classified as finance leases breaks down as follows:

	December 31, 2013	December 31, 2012
	(In thousands of euros)	
Land	1,029	1,029
Buildings	6,558	6,868
Network and technical equipment	53,048	31,632
Other	79	160
	60,714	39,689

16 Impairment testing

16.1 Allocation of goodwill between cash-generating units ("CGU")

In accordance with IAS 36 *Impairment of Assets* ("IAS 36"), goodwill has been allocated to two CGUs: "B2C Operations" (mainly NC Numericable) and "B2B Operations" (mainly Completel SAS and LTI Telecom).

16.2 Key assumptions used to determine the recoverable amount of the CGUs

Impairment testing of goodwill is done within the cash-generating units defined above. In accordance with IAS 36 *Impairment of Assets*, impairment testing is performed by comparing the carrying amount with the recoverable amount. The recoverable amount is determined based on the value in use using a discounted cash flow model.

The determination of the value in use is established using cash flow projections based on financial budgets approved by senior management covering a planning period of five years.

Projections of subscribers, revenue, costs and capital expenditure are based on reasonable and acceptable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers and the level of expenditure on network infrastructure upgrades. The projections are based on both past experience and the expected future market penetration of the various products.

As mentioned in Note 3, the determination of the value in use is based on assumptions such as the weighted average cost of capital and the growth rate beyond the projection period. These assumptions can vary, potentially causing the recoverable amount to fall below the carrying amount, and as such the recognition of an impairment loss.

No impairment was recognized for either of the periods presented.

The determination of the value in use is based on the following estimates as of December 31, 2013 and 2012:

CGU "B2C Operations"	2013	2012
Length of forecast period	5 years	8 years
Discount rate applied to cash flow projections	7.30%	7.56%
Perpetual growth rate used to calculate terminal value	2.00%	1.75%

In terms of the sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by approximately 143 million euros. Likewise, a change of plus or minus 0.25% in the perpetual growth rate would increase or decrease the recoverable amount by approximately 116 million euros.

16 Impairment testing (Continued)

As of December 31, 2013, the amounts by which the key assumptions would have to change for the recoverable amount to equal the carrying amount were as follows:

- Increase in WACC from 7.30% to 8.73%;
- Reduction in the perpetual growth rate from 2.00% to 0.12%;
- Reduction in gross margin (calculated based on internal reporting) from an average of 50.7% to an average of 46.0% over the five-year period.

CGU "B2B Operations"	2013	2012
Length of forecast period	5 years	6 years
Discount rate applied to cash flow projections	7.14%	9.42%
Growth rate beyond projection period for terminal value	2.00%	1.00%

In terms of the sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by approximately 74 million euros. Likewise, a change of plus or minus 0.25% in the perpetual growth rate would increase or decrease the recoverable amount by approximately 56 million euros.

As of December 31, 2013, the amounts by which the key assumptions would have to change for the recoverable amount to equal the carrying amount were as follows:

- Increase in WACC from 7.14% to 10.62%;
- Reduction in the perpetual growth rate from 2.00% to-3.70%;
- Reduction in gross margin (calculated based on internal reporting) from an average of 38.3% to an average of 32.1% over the five-year period.

17 Investments in associates

The Group exercises significant influence over Alsace Connexia Participation, an associate consolidated under the equity method. Alsace Connexia Participation's initial shareholding structure was as follows: 38.14% held by Ypso France, 38.15% by LD Collectivités and 23.71% by Sogetrel Réseaux. In 2009, LD Collectivités bought the interest held by Sogetrel Réseaux, giving it a controlling interest (61.86%) in Alsace Connexia Participation.

Alsace Connexia Participation owns a 70% stake in Alsace Connexia, which has been granted a public service concession by the regional authority of Alsace to design, build, fund, operate and market telecommunications infrastructure in the region over a 15-year period. The concession contract took effect on February 3, 2005.

The following tables provide information on the net assets and operating results of Alsace Connexia Participation:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Net assets[1]	7,614	8,888
Share of net assets	2,893	3,378

17 Investments in associates (Continued)

	2013	2012
	(in thousands of euros)	
Revenues (Alsace Connexia)	14,463	13,050
Net income (loss)	(1,274)	(524)
Share of net income (loss)	(484)	(199)

---

(1) No goodwill is recognized in net assets.

18 Other current and non-current financial assets

	Current		Non-current	
	December 31, 2013	December 31, 2012	December 31, 2013	December 31, 2012
	(in thousands of euros)			
Derivative instruments(1)	—	—	—	5
Investments in entities that are not consolidated(2)	—	—	35	35
Other financial assets(3)	4,020	4,034	7,228	6,791
Total financial assets	4,020	4,034	7,263	6,831

---

(1) As indicated in Note 28.4, the Group held until the end of 2012 interest rate cap contracts that allowed it to limit its exposure to interest rates, but these instruments were not considered as hedging instruments within the meaning of IAS 39. Consequently, changes in the fair value of these derivative instruments were recognized immediately in the statement of income under financial income (expense), the instruments in question being directly related to the implementation of the management of the Group's interest rate risk, even though they do not qualify for hedge accounting under IAS 39.

These interest-rate derivatives are presented as non-current financial assets because they are not held for trading purposes, but under a non-qualifying hedge accounting relationship.

(2) Investments in entities that are not consolidated and are classified as available-for-sale financial assets include Câble Toulousain de Vidéocommunication, Médiamétrie Expansion, Rennes Cité Média and TV7 Bordeaux. These companies are not included in the scope of consolidation due to the Group's lack of control or influence over them.

(3) As of December 31, 2013 and 2012 other financial assets include 4 million euros of cash pledged within the framework of DSP 92 (classified as current, see also Note 2.11). Remaining amounts correspond to deposits made by the Group for building leases.

19 Inventories

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Gross amount	50,858	46,808
Impairment losses	(1,290)	(1,199)
Net carrying amount	**49,568**	**45,609**

Inventories are primarily comprised of set-top boxes used by customers to receive programming distributed via digital channels. The amount of impairment recognized to bring inventories down to their recoverable amount was not material in fiscal 2013 or 2012.

20 Trade receivables and other receivables

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Trade receivables	309,998	272,864
Impairment losses	(33,371)	(27,167)
Trade receivables, net	**276,627**	**245,697**
Advances and down payments	2,181	2,211
Tax and social security receivables	84,826	141,806
Prepaid expenses	32,256	18,025
Other receivables	6,998	9,632
Trade receivables and other receivables, net	**402,888**	**417,371**

Trade receivables disclosed above are measured at amortized cost. Due to their short-term maturity, fair value and amortized cost are a proxy for the nominal amount of trade receivables.

Trade receivables are primarily from B2C customers, a large number of customers spread across diverse geographical areas.

B2C Customers

The average credit term for residential customers is five days. No interest is charged on outstanding balances. As of December 31, 2013, excluding some specific cases, the Group had depreciated 81% of B2C customer receivables that were over 90 days past due, based on historical experience implying that 19% of receivables over 90 days past due are recoverable. Provisions on residential customer receivables due between 0 and 90 days are also depreciated on a case-by-case basis, based on historic collection data and analysis of the customer's financial situation.

B2B Customers

As of December 31, 2013, the Group had depreciated 60% of the B2B customer receivables that were over 90 days past due, based on historical experience implying that 40% of receivables over 90 days past due are recoverable.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due at the end of the reporting period but against which the Group has not recognized a provision for doubtful accounts because there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral or other credit enhancements against these balances, nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

Ageing of past due receivables

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Not due	92,610	121,232
0-90 days	67,888	62,825
> 90 days	149,508	88,808
Total	**309,998**	**272,864**

The concentration of credit risk is limited due to the customer base being large and unrelated. No customer represents more than 5% of the total balance of trade receivables.

20 Trade receivables and other receivables (Continued)

Change in impairment losses for trade receivables is as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Balance at beginning of year	(27,167)	(26,770)
Impairment during the year	(12,961)	(9,322)
Losses on irrecoverable receivables	8,000	8,925
Reversal of impairment losses	—	—
Receivables classified as held for sale	—	—
Business combinations	(1,243)	—
Balance at end of year	(33,371)	(27,167)

21 Cash and cash equivalents

Cash and cash equivalents presented in the consolidated statement of cash flows include cash on hand and short-term deposits. Reconciliation between cash and cash equivalents presented in the consolidated statement of cash flows and cash and cash equivalents presented in the consolidated statement of financial position is presented below:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Cash	101,365	7,996
Cash equivalents	—	—
Cash and cash equivalents presented in the consolidated statement of financial position	101,365	7,996
Cash from discontinued operations	—	—
Bank overdrafts classified as financial liabilities in the consolidated statement of financial position	—	—
Cash and cash equivalents presented in the consolidated statement of cash flows	101,365	7,996

As of December 31, 2013 and 2012, the Group had no cash equivalents.

22 Equity

As of December 31, 2013, Numericable Group's share capital, based on the number of shares issued at that date, amounted to 123,942,012 euros, comprising 123,942,012 ordinary shares with a par value of 1 euro each.

22.1 *Change in share capital*

The share capital broke as follows as of December 31, 2013:

Date	Transaction	Shares issued
August 2013	Constitution through cash contributions	37,000
November 2013	In-kind contributions from shareholders	113,772,229
November 2013	Capital increase by public offering	10,080,645
November 2013	Capital increase reserved for employees	52,138
Total as of December 31, 2013		123,942,012

22 Equity (Continued)

22.2 *Treasury shares*

The Group did not implement a share buyback program in 2013 or 2012.

Accordingly, it did not hold any treasury shares as of December 31, 2013 or December 31, 2012.

22.3 *Earnings per share*

	2013	2012
	(in thousands of euros)	
Net income used for calculating basic earnings per share	64,550	86,377
Impact of dilutive instruments:		
Stock option plans[2]	—	—
Net income used for calculating diluted earnings per share	64,550	86,377

The following table shows the weighted average number of ordinary shares used for calculating basic and diluted earnings per share:

	December 31, 2013	December 31, 2012
	(number of shares)	
Weighted average number of ordinary shares outstanding[1]	115,271,326	113,772,229
Impact of dilutive instruments:		
Stock option plans[2]	—	—
Weighted average number of shares outstanding—diluted	115,271,326	113,772,229

---

(1) The weighted average number of ordinary shares used in calculating earnings per share corresponds, until the date of the IPO, to the number of shares issued in exchange for contributions (see Note 22.1 "Change in share capital"). Shares issued as part of the public offering and capital increase reserved for employees were prorated.

(2) Stock options granted in 2013 (2,845,229 options) are non-dilutive in view of the average share price between the grant date and the balance sheet date, and the valuation ot the plan.

22.4 *Dividends*

The Group did not pay dividends to its shareholders in 2013 or 2012.

23 Financial liabilities

Financial liabilities break down as follows:

		Current		Non-current		Total	
	Note	12/31/2013	12/31/2012	12/31/2013	12/31/2012	12/31/2013	12/31/2012
				(in thousands of euros)			
Financial liabilities under Senior Facility Agreements	23.1	42,575	93,187	2,589,784	2,707,498	2,632,359	2,800,685

Deposits received from customers	23.3	—	—	51,932	44,517	51,932	44,517
Bank overdrafts		—	—	—	—	—	—
Total financial liabilities		64,249	114,732	2,701,894	2,926,343	2,766,143	3,041,075

23.1 Financial liabilities under Senior Facility Agreements

Senior Facility agreement granted to Ypso

The Group entered into a Senior Facility Agreement ("SFA") dated June 6, 2006 (as amended March 2, 2007, December 9, 2009, September 8, 2011, July 31, 2013 and November 22, 2013) with BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch, and Morgan Stanley Bank International Limited as the Mandated Lead Arrangers, BNP Paribas as Agent and Security Agent, and others lenders. In addition, certain subsidiaries of the Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors within the SFA.

The SFA contains financial covenants that may affect the interest rates to be paid by the Group as well as the applicable margins on the SFA (see details below).

In 2012, the Group issued three bonds to refinance a portion of its current Senior Debt under the SFA. The issuer was Numericable Finance & Co. SCA, a Luxembourg company. The proceeds from the bonds were used by Numericable Finance & Co. to fund three new loans issued if favor of the Group by the Lending Bank (JP Morgan) under the Senior Facility Agreement:

- a C-One facility of 360 million euros;
- a C-Two A facility of 225 million euros;
- a C-Two B facility of 275 million euros.

In December 2013, the Group raised a new tranche of Senior Debt in a total amount of 800 million euros (Tranche D). This tranche is repayable by December 31, 2018 and bears interest at Euribor plus a margin of 3.75%.

The Group used the proceeds of this issue (800 million euros) and the proceeds of the capital increase carried out in the context of the public offer (250 million euros) to reimburse some of its existing debts, as follows:

- all of the Senior Debt originally subscribed by Altice B2B France in the amount of 451 million euros;

23 Financial liabilities (Continued)

- all of the 275 million euro bond issue (Tranche C-Two B) subscribed in October 2012;
- part of the bond issue of 225 million euros (Tranche C-Two A) subscribed in October 2012 (repayment of 78.8 million euros)—the balance of this bond amounted to 146.3 million euros as of December 31, 2013;
- part of the bond issue of 360 million euros (Tranche C-One) subscribed in February 2012 (repayment of 126.1 million euros)—the balance of this bond amounted to 234.1 million euros as of December 31, 2013.

The table below summarizes the various tranches in place under the Senior Debt contract as of end-December 2013, their maturity, the applicable margin and the outstanding amount of the debt as of December 31, 2013:

Facility	Maturity	Margin/ Coupon(1)	Nominal (December) 2013(2)
A2 and capex 2	June 2015	E + 3.875%	51.9
B1	June 2014	E + 3.50%	11.2
B2	June 2016	E + 4.75%	106.5
B3	December 2017	E + 4.75%	672.1
C1	December 2015	E + 4.00%	36.0
C2	December 2017	E + 5.25%	42.3
C3	December 2017	E + 4.75%	110.9
C4	December 2018	E + 5.00%	426.8
D	December 2018	E + 3.75%	800.0
C-One (Bond)	February 2019	12.375%	234.1
C-Two A (Bond)	February 2019	8.750%	146.3

---

(1) Euribor ("E") + margin applicable to the facility;

(2) Nominal amount expressed in millions of euros as of December 31, 2013, excluding accrued interest and the impact of the effective interest rate.

Guarantees and Security

The Term Facilities are guaranteed irrevocably and unconditionally on a joint and several basis by each guarantor (Ypso France SAS and its subsidiaries) under the Senior Facility Agreement, subject to certain legal limitations.

The Term Facilities are secured by various security interests, such as a pledge on the shares of Ypso France SAS and its subsidiaries.

Covenants

The availability of the senior facilities mentioned in Note 23.1 is not dependent upon the Group's credit ratings, but is conditioned on its compliance with financial covenants related to the capacity of the Group to generate sufficient cash to repay its net debt. Accordingly, the Senior Facility Agreement contains customary operating and financial covenants, subject to certain agreed exceptions, including covenants restricting the ability of the Group to, among other things:

- amalgamate, merge or consolidate with any other company or be the subject of any reconstruction or materially change the nature of the business of the Group as a whole;
- sell, transfer, lease out, lend or otherwise dispose of any of its assets or agree to do so;
- enter into a material transaction that is not on an arm's length basis and for full market value;

23 Financial liabilities (Continued)

- make acquisitions or investments;
- open or maintain an account with a bank or other financial institution providing like services other than a bank or credit institution entitled to engage in banking transactions in France, Belgium or Luxembourg;
- allot or issue shares or securities;
- change the end of its fiscal year.

The Senior Facility Agreement also requires the Group to comply with the following financial covenants:

- a maximum ratio of consolidated total net borrowings to annualized EBITDA;
- a minimum ratio of consolidated cash flows to consolidated total interest expense;
- a minimum ratio of annualized EBITDA to consolidated total net cash interest payable; and
- a maximum level of capital expenditures per fiscal year.

Compliance is tested quarterly and audited annually as of December 31 when the consolidated financial statements of Ypso France prepared in accordance with French GAAP are released. Since the SFA was established, the Group has complied every year with the financial covenants set out in the agreement.

As agreed under the SFA, the covenants are calculated on the basis of financial aggregates determined from the consolidated accounts drawn up by Ypso France in accordance with French GAAP and not IFRS. Accordingly, the EBITDA used to calculate the covenant is different from that presented in the Group's consolidated statement of income.

23.2 Perpetual subordinated notes ("TSDI")

In 2006, 23.65 million euros of perpetual subordinated notes ("*Titres Subordonnés à Durée Indéterminée*"—"TSDI") were issued by a subsidiary of the Group, NC Numericable, to a single subscriber, GDF Suez (Vilorex) (excluding capitalized interest). The proceeds of this borrowing were to be used to finance the construction of connectors in towns in the southern part of the SIPPEREC ("*Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication*"), a group of cities located in the Paris metropolitan area. The perpetual subordinated notes bear interest at a rate of 7% per annum. Interest on the notes is capitalized. Interest amortization is conditional. The total accrued interest payable on the notes amounted to 14 million euros and 11.6 million euros as of December 31, 2013 and 2012 respectively, and is classified as non-current in the table above in Note 23.

The instrument includes a contractual obligation to deliver cash (including interest) when cash inflows arising from revenues allow the Group to reimburse the notes. Pursuant to this contract, the payment of interest and the reimbursement of the debt are contingent upon the level of cash inflows generated; however, the Group does not have an unconditional right to avoid delivering cash. As a consequence, the instrument is recognized as a financial liability at amortized cost in accordance with IAS 32.

23.3 Deposits received from customers

Deposits received from customers amounted to 51.9 million euros and 44.5 million euros as of December 31, 2013 and 2012 respectively. Deposits are made when customers receive equipment from the Company, and are reimbursed when customers terminate their subscriptions if the customers have paid all outstanding invoices and have returned the equipment.

23 Financial liabilities (Continued)

23.4 *Other financial liabilities*

As of December 31, 2013, other financial liabilities included various bank borrowings by Numericable against several banks (mainly *Caisse d'Epargne d'Alsace-Lorraine*) in the amount of 1,648 thousand euros and by Completel against various banks in the amount of 609 thousand euros.

As of December 31, 2012, other financial liabilities also included the debt of Ypso Holding Lux SARL against shareholders in the amount of 128,962 thousand euros, which was settled in 2013 as part of contributions to Numericable Group.

24 Provisions and contingent liabilities

The breakdown and change in provisions for the years ended December 31, 2013 and 2012 are as follows:

	January 1, 2013	Change in scope	Increase	Utilization	Reversal	Reclassification	December 31, 2013
				(in thousands of euros)			
Provisions for retirement benefits	8,455	157	1,556	—	—	—	10,168
Provisions for litigation with employees	4,068	40	1,309	(1,409)	(29)	—	3,979
Provisions for commercial litigation	18,043	—	6,646	(5,245)	(2,071)	—	17,373
Provisions for tax contingencies	25,096	38	18,250	(7,087)	—	—	36,297
Other[1]	10,720	76	1,876	(96)	(349)	—	12,227
Total	66,382	311	29,637	(13,837)	(2,449)	—	80,044
Current portion	2,409	—	6,161	(2,409)	—	250	6,411
Non-current portion	63,973	311	23,476	(11,428)	(2,449)	(250)	73,633

---

[1] Mainly provisions for risks relating to the cost of customers failing to return equipment.

	January 1, 2012	Increase	Utilization	Reversal	Reclassification	December 31, 2012
			(in thousands of euros)			
Provisions for retirement benefits	6,101	2,357	—	(3)	—	8,455
Provisions for litigation with employees	3,604	1,183	(719)	—	—	4,068
Provisions for commercial litigation	21,935	6,252	(8,829)	(1,315)	—	18,043
Provisions for tax contingencies	26,977	212	(2,093)	—	—	25,096
Other	13,227	1,395	(3,902)	—	—	10,720
Total	71,845	11,399	(15,543)	(1,318)	—	66,382
Current portion	8,998	—	(8,998)	—	2,409	2,409
Non-current portion	62,847	11,399	(6,545)	(1,318)	(2,409)	63,973

The Group is involved in legal and administrative proceedings that have arisen in the ordinary course of its business.

24 Provisions and contingent liabilities (Continued)

A provision is recorded by the Group when there is a sufficient probability that such disputes will lead to costs that the Group will bear and when the amount of these costs can be reasonably estimated. Certain companies of the Group are involved in a certain number of disputes related to the ordinary activities of the Group. Only the most significant disputes and proceedings in which the Group is involved are described below.

The Group is not aware of any governmental, legal or arbitration proceedings (including any proceedings of which the Group is aware, which are pending or threatened) other than those mentioned below in this section that may have or have had in the last 12 months significant effects on the financial position or profitability of the Company or the Group.

24.1 Tax audits

The French tax authorities have conducted audits of various companies of the Group since 2005 with respect to the VAT rates applicable to our multiple-play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, while Internet and telephony services are subject to a 19.6% VAT rate. When marketing multiple-play offerings, the Group allocates a price reduction compared with the price the Group would charge for its services on a stand-alone basis. This price reduction is primarily applied to its Internet and telephony services, because such services are newer products. As a result, the VAT charged to the subscribers was lower than the VAT that would have been charged if the Group had deemed the price reduction to apply primarily to the television portion of its packages.

The French tax authorities assert that these price reductions should have been calculated pro rata of the stand-alone prices of each of the services (television, broadband Internet, fixed and/or mobile telephony) included in the multiple-play packages of the Group and proposed adjustments for fiscal years 2006 to 2010.

The Group has formally challenged the tax assessments for the fiscal years from 2006 to 2009. The Group also referred the matter to the Ministry of Finance in December 2011 and sought a comprehensive settlement of the adjustments made by the tax administration in respect of the various Group companies for the period 2006-2009. Following this request, the tax administration lowered the amounts of adjustments for 2008 and 2009 by including in its calculation a limitation based on the 50/50 rule applicable on composite VAT, which was in force from 2008 to 2010. The new amounts of adjustments, totaling 17.1 million euros (excluding penalties of 40%) for the period 2006-2009, were communicated to the Group end of August 2012.

Furthermore, in 2012, the tax authorities also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013, calculated in the same manner as for fiscal years 2007 to 2009, in a total amount of 6.1 million euros (excluding penalties of 40%). The Group replied on August 21, 2013, challenging the proposed adjustments. The tax administration sent replies to the Group's observations in late October 2013, pursuant to which it maintains its adjustments. To date, the 2011 and subsequent years have not been subject to VAT audits on the Numericable scope. The tax administration has also demanded payment for the 2006 adjustment on NC Numericable (approximately 2 million euros of the 17.1 million euros mentioned above for the 2006-2009 period). The Group asked for a payment deferral and filed a complaint in September 2012, which was rejected by the tax administration on June 27, 2013. The Group filed an additional request on August 20, 2013.

VAT rules applicable to multiple-play packages changed starting January 1, 2011.

As of December 31, 2012, a tax contingency provision of 24.9 million euros (compared with 25.1 million euros as of December 31, 2012) was recognized to cover all the risks related to VAT (excluding penalties of 40%, which would amount to 7.1 million euros) related to the adjustments notified for fiscal years 2006 to 2010 (i.e. 23.5 million euros). The Group replied on August 21, 2013, challenging the proposed adjustments.

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission on December 19, 2013 of proposed adjustments. The adjustments focus on the challenge of charges for services provided to the companies in 2009, 2010 and 2011. A tax contingency provision covering all adjustments considered (income tax, VAT, withholding tax, penalties, surcharges and default interest) in the amount of 11.4 million euros was recorded as of December 31, 2013. In addition, the proposed adjustment results in a reduction of tax loss carryforwards in the amount of 28.5 million euros. The Group challenged all adjustments on February 17, 2014.

As of December 31, 2013, a tax contingency provision of 36.3 million was recognized to cover all the risks related to VAT (excluding penalties of 40%, which represents 7.1 million euros) related to the adjustments notified for fiscal years 2006-2010 (i.e. 24.9 million euros) and the risks associated with the challenging of charges for services under the adjustments notified for fiscal years 2009-2011 (11.4 million euros).

24.2 Commercial disputes

24.2.1 In-depth inquiry of the European Commission into the transfer of cable infrastructures by certain local authorities

On July 17, 2013 the European Commission signaled that it had decided to open an investigation to verify whether the transfer of public cable infrastructure between 2003 and 2006 by several French municipalities to Numericable was consistent with European Union State aid rules. In announcing the opening of this in-depth investigation, the European Commission indicated that it believes that the sale of public assets to a private company without proper compensation gives it an economic advantage not enjoyed by its competitors, and that it therefore constitutes state aid within the meaning of the rules of the European Union. It argues that the transfer free of charge of the cable networks and ducts by 33 French municipalities in favor of Numericable confers a benefit of this type and, as such, state aid. The European Commission has expressed doubts about the compatibility of the alleged aid with the rules of the European Union.

The Group firmly denies the existence of any state aid. In addition, the decision to open an investigation concerns a relatively small number of network connections (200,000), the majority of which have not been migrated to EuroDocsis 3.0 and accordingly only allow access to a limited number of the Group's television services. The European Commission's decision of July 17, 2013 was published in the Official Journal of the European Union on September 17, 2013. Since then, discussions have continued within the framework of the procedure in respect of observations of third parties as well as those of the parties to the proceedings as to the allegation of the existence of aid and its extent, with the Group firmly challenging the existence of any state aid.

24.2.2 Litigation with Orange relating to IRUs

The Group entered into four non-exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004 and December 21, 2004, in connection with the acquisition by the Group of certain companies operating cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to the Group by Orange through these non-exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a term of 20 years.

Following ARCEP's decision 2008-0835 of July 24, 2008, Orange published, on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators can roll out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms that the Group enjoys under the Orange IRUs. As a result, Orange asked the Group to comply with the general rules regarding access to Orange's ducts for the purpose of maintaining and upgrading its network. This issue was litigated, and both ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010 and June 23, 2011 respectively. Numericable appealed the decision before the French Supreme Court (*Cour de Cassation*), which upheld, for the most part, the decision of the Paris Court of Appeal.

Moreover, on October 21, 2011, ARCEP initiated penalty proceedings against Numericable, arguing that it had not complied with its November 4, 2010 decision. Consequently, in December 2011, Numericable and Orange signed amendments to the IRUs in order to comply with the November 4, 2010 ARCEP decision and to align the operating procedures set out in the IRUs with the procedures set out in the Orange generic technical and commercial offer.

In the meantime, the penalty proceedings initiated by ARCEP were not stopped by the execution of the amendments to the IRUs, and Numericable was fined 5.0 million euros on December 20, 2011 for noncompliance with ARCEP's November 4, 2010 decision. The fine was paid in full during fiscal 2012. Numericable filed an appeal against the decision before the Council of State. Within the framework of this appeal, Numericable having raised a question of Constitutional law, referred to the Constitutional Court, on the compliance with the Constitution of Article L. 36-11 of the CPCE, which sets out ARCEP's powers. On July 5, 2013, the Constitutional Court found in Numericable's favor and invalidated paragraphs 1 to 12 of Article L. 36-11 of the CPCE, on the basis of which ARCEP's December 20, 2011 decision to impose the aforementioned penalty was made. Numericable asked the Council of State to take the conclusions of this decision into consideration and accordingly to cancel ARCEP's December 20, 2011 decision. On October 21, 2013, the Council of State annulled the penalty imposed by ARCEP on December 20, 2011, which had condemned Numericable and NC Numericable to a fine of 5 million euros for non-compliance with ARCEP's November 4, 2010 ruling.

Lastly, Numericable initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010 claiming damages of 2.7 billion euros for breach and modification of the IRUs by Orange. On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed the Group's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. Numericable appealed this decision before the Paris Court of Appeal and claimed the same amount of damages. Orange, in turn, claims that the proceedings materially impaired its brand and image, and claims damages of 50 million euros. The Commercial Court of Paris is expected to hear this case during the second quarter of 2014.

24.2.3 Litigation with Free relating to an advertising campaign

A claim was filed against NC Numéricable before the Commercial Court of Paris by telecommunication operator Free on August 3, 2011 in relation to the launch of the mobile offer by the Group in spring 2011 through an advertising campaign entitled "*La révolution du mobile continue*."

Free, which used the term "revolution" to refer to its launch of mobile phone services and whose latest offering was named the "Freebox Revolution," argues that Numericable's campaign led to customer confusion and damaged its brand and image. The case is currently pending before the Paris Commercial Court. Free is claiming damages of 10.0 million euros. After the hearing, the Court asked for an opinion from the French competition authority ("*Direction générale de la concurrence, de la consommation et de la répression des fraudes*"—DGCCRF) related to the reality of the assertions of Free with regard to the laws governing advertising. The DGCCRF returned an opinion in which it indicated that the questions raised by Free did not constitute a fault under the applicable law. However, on December 13, 2013, the Commercial Court of Paris condemned NC Numericable to pay Free the sum of 6,391,000 euros. NC Numericable appealed this decision. As the decision is enforceable and the amount was paid in early 2014, the risk was fully provisioned as of December 31, 2013.

24 Provisions and contingent liabilities (Continued)

24.2.4 Litigation with several editors of value-added services (AVS)

On February 19, 2013, five companies editing value-added telephone services offering their services to the public through premium numbers (0899), jointly assigned Completel before the Commercial Court of Nanterre. The plaintiffs asked for the condemnation of Completel to pay 350,000 euros in repayment of sums corresponding to deductions made by Completel from the sums collected on their behalf. Completel made these deductions in response to practices by these companies that it considers contrary to the agreements between these companies and Completel, as well as ethical standards in the industry. They also sought payment of damages in a total amount of 12 million euros in compensation for the prejudice allegedly suffered as a result of the withholding of money by Completel.

Furthermore, in November 2012, Completel, having decided in November 2012 to put an end to this activity, suspended certain repayments and applied various contractual penalties on companies selling this type of value-added telephony services. Some of these companies assigned Completel before various Commercial Courts and sought an order for the payment of the amounts withheld by Completel or the cancellation of penalties applied by Completel. The overall claim amounts to approximately 400,000 euros, mainly representing sums collected for these companies.

24.2.5 Dispute with the Ligue de Football Professionnel

In a submission to the Commercial Court of Nanterre dated April 26 2013, the Professional Football League ("*Ligue de Football Professionnel*"—LFP) argued that Numericable had abused its dominant position in breach of its obligation of non-discrimination against the LFP when it was in charge of the production of the CFoot channel. The LFP requested 4.1 million euros in damages in compensation for the prejudice. More particularly, the LFP criticized Numericable for the low level of remuneration for the marketing of the CFoot channel compared with the remuneration of certain sports channels sold in packages. A hearing on the matter is expected in 2014.

24.2.6 Action by Colt, Free and Orange before the General Court of the European Union concerning the DSP 92 project

Colt, Free, and Orange, in three separate proceedings against the European Commission, filed a request with the General Court of the European Union for the cancellation of the final decision of the European Commission dated September 30, 2009 (Decision No. C (2009) 7426), which held that the compensation of 59 million euros granted within the framework of the public service concession for the establishment and operation of a high-capacity electronic communications network in the department of Hauts de Seine does not constitute state aid within the meaning of the rules of the European Union. The Group is not party to this proceeding. Its subsidiary Sequalum is acting as the civil party, as well as the French state and the department of Hauts de Seine. In three rulings dated September 16, 2013, the General Court of the European Union rejected the requests of the three applicants and confirmed the aforementioned decision of the European Commission. Free and Orange have appealed to the Court of Justice of the European Union.

24.2.7 Complaint of Bouygues Telecom

In late October 2013, the Group received a claim from Bouygues Telecom on the "white label" contract concluded between the two companies on May 14, 2009, initially for five years and extended once for an additional five years for the supply to Bouygues Telecom of double- and triple-play broadband offers. In its letter, Bouygues Télécom claimed damages totaling 53 million euros as a result of this contract. Bouygues Telecom alleges a prejudice that justifies, according to Bouygues Telecom, damages including (i) an amount of 17.3 million euros due to an alleged pre-contractual fraud (provision of incorrect information prior to the conclusion of the contract), (ii) an amount of 33.3 million euros as a result of alleged failure by Group companies in the execution of the contract and (iii) an amount of 2.4 million euros to repair the alleged damage to Bouygues Telecom's image. The Group considers

24 Provisions and contingent liabilities (Continued)

these claims unfounded both in fact and in contractual terms, and rejects both the allegations of Bouygues Telecom and the amount of damages claimed. It nevertheless intends to continue regular discussions between the parties regarding the implementation of this contract, for which Bouygues Telecom is requesting modifications in the context of its claim. Notwithstanding this claim, which has not been brought before the courts, the parties have continued their day-to-day cooperation in conditions identical to those prevailing before October 2013. The contract, which runs until 2019, generated 37.3 million euros in revenues in 2012, 49.6% of total white label B2C revenues of 75.3 million euros and 2.8% of the Group's total revenues.

24.2.8 Investigation of DSP 92 by the Regional Auditor of Ile-de-France

In mid-November 2013, a number of press articles reported that the Regional Auditor of Ile-de-France had opened an investigation into the management of the department of Hauts-de-Seine between 2004 and 2007. The articles reported that the investigation would focus primarily on the DSP 92 project awarded to Numericable, and in particular the granting of 59 million euros in consideration for public service costs for the establishment and operating of a high-capacity electronic communications network in Hauts de Seine. The Group has no information as to the object or the timing of the investigation, and as such to its exact nature or its potential impact on the Group. However, the Group notes, as indicated above, that DSP 92 has been validated by French administrative courts, by the European Commission and by the General Court of the European Union, before which action against the DSP 92 contract has successively been brought, and that the Court of Auditors has no power to act against a non-governmental entity.

24.2.9 Litigation with employees

The Group is involved in litigation with a certain number of employees, a large part of which is due to the last merger period in 2006-2007, involving UPC-Noos, which gave rise to adjustments and harmonization in practices leading to disputes until 2009. The overall risk for this litigation is approximately 4 million euros. Most of this litigation consists of the challenge by an employee of the grounds for or the form of his or her dismissal.

25 Employee benefits

25.1 Provisions for retirement benefits

In France, the employees of the Group benefit from a general pension plan. Accordingly, the Group contributes to mandatory social security plans. This regime is considered to be a defined-contribution plan within the meaning of IAS 19. The employees of the Group are covered by the Telecom Industry Collective Bargaining Agreement ("*Convention Collective Nationale des Télécommunications*," which determines the amount of the pension due to the employee upon retirement).

The rights to conventional retirement benefits vested by employees were evaluated individually, based on various parameters and assumptions such as the employee's age, position, length of service in the Group and salary, according to the terms of their employment agreement.

25 Employee benefits (Continued)

25.1.1 Assumptions used for defined-benefit plans

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Discount rate	3.0%	3.0%
Expected salary increase rate	3.0%	3.0%
Inflation rate	2.0%	2.0%
Turnover—managers (mean)	9.0%	7.0%
Turnover—other employees (mean)	18.0%	15.0%

The turnover rate can vary significantly depending on length of service.

25.1.2 Components of Net Periodic Benefit (Cost)

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Service cost	881	713
Interest cost	253	287
Expected return on plan assets	—	—
Recognition of actuarial net (gain) loss	458	1,496
Past service cost	—	—
Amounts recognized due to plan combinations	157	—
Curtailments/Settlements	(36)	(57)
Expense in respect of post-employment benefits	1,714	2,439
Including losses (gains) recognized in other comprehensive income	458	1,496
Percentage of present value of plan liabilities	4.5%	17.7%

Actuarial gains and losses arising from experience, adjustments and changes in actuarial assumptions are recognized directly in other comprehensive income.

25.1.3 Change in defined-benefit obligations

	December 31, 2013	December 31, 2012
	(in thousands of euros)

Defined benefit obligation—end of year	10.168	8.455

25.2 Stock option plans

On November 7, 2013, the Board of Directors adopted a stock option plan in favor of certain officers and employees of Numericable Group.

25 Employee benefits (Continued)

The plan covers a total of 2,845,229 options for 2,845,229 shares. The exercise price of the option is 24.80 euros per share (the price set at the Company's IPO).

The plan has a term of eight years from November 7, 2013 until November 7, 2021.

The exercise of options is subject to conditions of presence and performance (based on consolidated revenue and EBITDA—Capex).

The vesting occurs in three periods:

- 50% in November 2015;
- 25% in November 2016;
- 25% in November 2017;

As of December 31, 2013, the fair value of options was estimated at 9,702 thousand euros. An amount of 640 thousand euros was expensed in 2013 in respect of this plan.

The main assumptions used for the valuation of the plan are listed in the table below:

	Stock options—November 2013
Unit fair value at the grant date	3.41
Share price at the grant date	24.80
Exercise price of the option	24.80
Anticipated volatility (weighted average)	25%
Expiry date (maturity)	November 2021
Anticipated dividends	4%
Risk-free interest rate (government bonds)	0.75%

26 Other non-current liabilities

	December 31, 2013	December 31, 2012
	(In thousands of euros)	
Non-current deferred revenue (more than one year)	97,429	105,791
Non-current trade payables	4,874	5,175
Non-current tax and social security payables	282	300
Other non-current liabilities	**102,585**	**111,266**

Deferred revenue at the end of the reporting period mainly represents unrecognized network lease revenue.

For certain arrangements entered into with its non-residential customers, the Group receives up-front cash payments, namely in relation to indefeasible right of use arrangements ("IRUs") and connection fees. For these arrangements, the revenue is generally recognized over the duration of the lease contract.

The non-current part of deferred revenue disclosed in the above table corresponds to revenue that will be recognized in more than one year.

The current-part of deferred revenue (i.e. revenue to be recognized in less than one year) is presented in "Trade payables and other liabilities."

27 Trade payables and other liabilities

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Current trade payables	513,979	416,183
Trade payables—acquisition of assets	78,494	87,145
Advances and down payments received	20,464	19,884
Current accounts payables	49	21,219
Liabilities related to tax and duties	24,987	87,358
Corporate and social security contributions	54,412	45,871
Current deferred revenue (less than one year)	57,441	45,319
Other payables	7,592	3,054
Trade payables and other liabilities	757,418	726,033

28 Financial instruments

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the basis of measurement, and the basis for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in Notes 2.15 and 2.19.

28.1 Fair value of financial instruments

Valuation techniques and assumptions applied to measure fair value for derivative instruments

The fair values of derivative instruments are calculated using market prices. When such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Interest rate swaps are measured at the present value of estimated future cash flows, discounted based on the applicable yield curves derived from market interest rates.

In accordance with the amendments to IFRS 7, the Group classifies its financial instruments measured at fair value into three levels (the fair value hierarchy).

- Level 1 fair value measurements are those derived from market prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than market prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Levels of fair value are presented in the tables below.

Fair value measurement other financial assets

Due to their short-term nature, the fair value of cash and cash equivalents, trade receivables and other current receivables and trade payables and other liabilities, is a proxy for the net carrying amount.

Investments in entities not included in the combination are unlisted equity securities. As a result, their fair value cannot be measured reliably, and these investments are accordingly measured at cost.

Financial guarantees and collateral

Under the SFA, the Group's assets have been pledged as collateral to bank lenders.

28 Financial instruments (Continued)

28.2 Financial assets

		December 31, 2013—Financial assets				
	Level of fair value	Available for sale	Loans and receivables	Designated at fair value through profit and loss	Held to maturity	Total financial assets
		(in thousands of euros)				
Trade receivables and other receivables	2	—	402,888	—	—	402,888
Investments in associates	3	2,893	—	—	—	2,893
Non-current financial assets	2	35	7,228	—	—	7,263

Investments in associates	3	3,377	—	—	—	3,377
Non-current financial assets	2	35	6,791	—	5	6,831
Current financial assets	2	—	4,034	—	—	4,034
Derivative instruments		—	—	—	—	—
Cash and cash equivalents	1	—	—	7,996	—	7,996
Financial assets		3,412	428,196	7,996	5	439,609

28.3 Financial liabilities

Except for interest-rate derivatives, financial liabilities are measured at amortized cost, which is the amount at which the financial liability is measured at initial recognition less principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and less any reduction for impairment or irrecoverability.

Interest-rate derivatives held to maturity are measured at fair value through profit and loss.

Bonds are traded on the Irish Stock Exchange, market prices as of December 31, 2013 are as follows:

- Tranche C-One, coupon 12.375%, maturing February 2019: 122.83;
- Tranche C-TwoA, coupon 8.75%, maturing February 2019: 113.94.

28.4 Financial risk management objectives

Objective of the Corporate Treasury function

The Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal reports that analyze exposures by degree and magnitude of risks. These risks include market risk (primarily interest rate risk since the Group's activities do not expose it to risks of changes in foreign currency exchange rates), credit risk and liquidity risk. The Group

28 Financial instruments (Continued)

seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The Group does not hold or trade in financial instruments, including derivative financial instruments, for speculative purposes.

Interest rate risk management

The Group is exposed to interest rate risk because the Group borrows funds, mostly at floating interest rates. The risk is managed by the Group, when deemed appropriate, through the use of interest rate swaps and interest rate caps. Even though the Group does not apply IAS 39 in terms of hedge accounting, hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied, in compliance with the requirements of the SFA.

The Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point decrease is used when reporting interest rate risk internally to key management personnel. This represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been roughly 50 basis points higher (lower) and all other variables were held constant, the Group's net income (loss) for the year ended December 31, 2013 would have decreased (increased) by 12 million euros. This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

Interest rate swap contracts

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the fair value of issued fixed rate debt and the cash flow exposures on the issued variable rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract.

The Group did not hold any swap contracts during the years ended December 31, 2013 and 2012.

Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group.

Financial instruments that could potentially subject the Group to concentrations of counterparty risk consist primarily of trade receivables, cash and cash equivalents, investments and derivative financial instruments. Overall, the carrying amount of financial assets recognized in the financial statements, which is net of impairment losses, represents the Group's maximum exposure to credit risk.

As mentioned in Note 20, the Group considers that it has extremely limited exposure to concentrations of credit risk with respect to trade accounts receivable due to its large and diverse customer base (residential and public institutions) operating in numerous industries and located across France. In addition, the maximum value of the counterparty risk on these financial assets is equal to their

28 Financial instruments (Continued)

recognized net carrying amount. An analysis of credit risk on net trade receivables past due is provided in Note 20.

The Group's policy is to invest its cash, cash equivalents and marketable securities with financial institutions and industrial groups with a long-term rating of A-/A3 or above.

However, in September 2008, Lehman Brothers filed for bankruptcy. Part of the Group's financial liabilities was hedged by interest rate swaps entered into with Lehman Brothers. As a result of the bankruptcy, Lehman Brothers defaulted on the swaps. There is currently a claim with Lehman Brothers for a total amount of approximately 11.2 million euros. In 2012, the Group received a first payment 2.8 million euros in relation to this claim. In 2013, the Group received two further installments in a total amount of 7.1 million euros. As such a contingent gain of 1.3 million euros remains for the Group, but has not been recognized as of December 31, 2013.

Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-, medium- and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods (excluding amortized costs and future interests). The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Group may be required to pay.

	December 31, 2013			
	Less than 1 year	1-5 years	More than 5 years	Total
	(in thousands of euros)			
Financial liabilities under Senior Facility Agreements	47,341	2,226,717	380,380	2,654,438
Perpetual subordinated notes	—	—	37,695	37,695

Total financial liabilities	**120,090**	**1,922,098**	**1,026,156**	**3,068,344**

The Group considers that its available cash and cash equivalents and the anticipated cash flows from operations are sufficient to cover its operating expenses, capital expenditure and its financial debt requirements for the next twelve months.

29 Related party transactions

The majority shareholders of the Group are a group of investment and private equity firms: Altice, Cinven and Carlyle.

Balances and transactions between entities forming the Group have been eliminated in preparing the consolidated financial statements and are not disclosed herein. Details of transactions between the Group and other related parties are disclosed below.

29.1 Trading and financing transactions

During the year, group entities entered into the following trading transactions with related parties that are not members of the Group:

	Purchase of goods and services		Amounts owed by related parties		Amounts owed to related parties	
	2013	2012	2013	2012	2013	2012
			(in thousands of euros)			
Shareholders						
Cinven	474	610	—	—	639	—
Altice	181	1,214	—	—	—	—
Carlyle	450	600	—	—	900	450
Associate						
Alsace Connexia Participation SAS	—	—	2,280	2,235	—	—

Management fees have been paid to the shareholders (Cinven, Altice and Carlyle) in relation to certain management, financing and advisory services provided (1,106 thousands euros in 2013 and 2,424 thousand euros in 2012). These contracts ended on September 30, 2013 within the framework of the IPO.

Moreover, as mentioned in Note 4.1.1, during the restructuring of the Group's debt in 2009, in which the Group's shareholders acquired certain loans in respect of SFA Ypso France, Ypso Holding SARL issued securities subscribed by the shareholders, including 132,664,023 subordinated interest preferred equity certificates ("Super PECs") with a nominal value of 1 euro each, the interest on which was capitalized.

Cinven, Carlyle and Altice contributed the Super PECs to Numericable Group on November 7, 2013, within the framework of the legal transactions related to the IPO. This debt was therefore extinguished in exchange for newly issued securities. Consecutively, the expense related to the extinguishment of the debt ("Premium") was recognized as financial expense in the amount of 81.6 million euros. This charge had no impact on the Group's cash position.

29.2 Related-party relationships

(1) Relationships with shareholders

Relationships with Altice

Altice owns cable networks in the French West Indies (Antilles), and the Group pays call termination charges to these networks for calls made by subscribers of its network to subscribers of networks in the West Indies. Conversely, the Group receives call termination charges for calls made by subscribers of these networks to subscribers of the Group.

Finally, Altice owns Auberimmo, which is a company that rents infrastructures to the Group. Auberimmo has a sole client, Completel SAS, which is a member of the Group. Rents invoiced in 2013 amounted to 1,132 thousand euros, compared with 1,081 thousand euros in 2012.

Relationships with Carlyle

Sagemcom, one of the Group's key suppliers of set-top boxes, was acquired by funds managed by Carlyle on August 17, 2011.

NC Numericable and Completel also signed a contract for services with B&B Hotels and Econonich (together, "Group B&B Hotels"), acquired by Carlyle Group in 2010, on December 31, 2013. The contract was concluded for a period of five years, after which the parties will meet for a possible contract extension. Under the terms of the contract, NC Numericable and Completel have committed to provide the following services:

- access to broadband internet;
- creation of an IP network on all relevant sites;
- security services;
- fixed telephony services;
- TV services; and
- various other cross-cutting services.

(2) Relationships with Coditel, an entity owned by Altice and by other parties unrelated to the Group

As part of the sale of Coditel Belgium and Coditel Luxembourg in June 2011, the Group entered into a service agreement and a trademark license agreement with Coditel Holding S.A. to ensure the continuity of its operations.

29 Related party transactions (Continued)

Service agreement

On June 30, 2011, Numericable SAS entered into a service agreement (the "Coditel Service Agreement") with Coditel. Pursuant to the Coditel Service Agreement, the Group will continue to provide Coditel with all the services it provided prior to its sale, including:

- VOD platform services and VOD content services;
- television, IP and voice engineering services;
- support and assistance in purchasing hardware and devices needed for its operations, in particular set-top boxes and software, modems, routers and mobile handsets, and also television and VOD content;
- delivery of television channels signals and existing data flows over the Group's backbone;
- upgrade of Coditel's billing software; and
- continued support of Coditel's systems currently located in the Group's premises or currently supported from the Group's systems.

In consideration of the services provided, Coditel agreed to pay the Group a total of 100,000 euros per year. In addition, Coditel will pay the Group 10% of its monthly VOD revenues.

Trademark License Agreement

On June 30, 2011, Coditel and Numericable also entered into a trademark license agreement (the "Trademark Agreement"). Pursuant to the Trademark Agreement, the Group will provide Coditel with a license to use the "Numericable" trademark, registered under Ma14502, exclusively in Belgium and Luxembourg in relation to the offering, promotion and commercialization of television, Internet and telephone products and services. The license fee is included in the annual fee of 100,000 euros under the Service Agreement. The Trademark Agreement terminates automatically on June 30, 2017, upon termination of all services under the Service Agreement or upon expiry of the Service Agreement.

29.3 Compensation of key management personnel

Compensation of members of the Executive Committee amounted to 2,226 thousand euros and 2,100 thousand euros in 2013 and 2012 respectively. This amount includes only short-term benefits such as salaries, wages and bonuses.

The Group has also recorded 303 thousand euros as of December 31, 2013 for retirement benefits (general regime) for Executive Committee members.

Lastly, the expense related to stock option plan (employer contribution + IFRS 2 expense) represents 3,409 thousand euros for members of the Executive Committee for 2013 (nil in 2012).

30 Lease arrangements

30.1 The Group as lessor

Finance leases

The Group has not any contracted finance leases as a lessor.

Operating leases

Operating leases relate to the investment property owned by the Group and leased to other companies in the telecommunications industry, with lease terms of between 15 to 30 years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

30 Lease arrangements (Continued)

Future revenues related to these leases (recorded in deferred income) break down as follows:

	Future minimum amount of rents	
	December 31, 2013	December 31, 2012
	(In thousands of euros)	
Not later than 1 year	53,930	45,318
Later than 1 year and not later than 5 years	42,224	40,930
More than 5 years	54,997	64,545
Total	151,151	150,793

30.2 The Group as lessor

Finance leases

The Group has entered into various finance leases related to property, for which the lease term is generally between 20 and 30 years, and office equipment, for which the lease term is 4 years.

The main finance lease arrangements relate to network equipment bought from Cisco and the property lease for the headquarters offices of the Group in Champs-sur-Marne, for which the Group has an option to purchase the property at the end of the lease term at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable.

All leases are denominated in euros. Certain property lease arrangements stipulate that the annual payments will be set at a fixed amount at the beginning of the lease, but will be increased in line with the inflation rate in subsequent years (i.e. a percentage increase).

	Minimum lease payments		Present value of minimum lease payments	
	December 31, 2013	December 31, 2012	December 31, 2013	December 31, 2012
	(in thousands of euros)			
Not later than 1 year	22,100	11,685	21,257	11,302
Later than 1 year and not later than 5 years	21,069	13,883	19,246	12,830
More than 5 years	1,342	721	989	595
	44,510	26,288	41,492	24,728
Less future finance charges	(3,018)	(1,560)	—	—
Present value of minimum lease payments	41,492	24,728	41,492	24,728
Financial liabilities related to finance leases—current portion			21,257	11,302
Financial liabilities related to finance leases—non-current portion			20,235	13,426

The interest rate inherent in the leases is fixed at the contract date for the entire lease term. The average effective interest rate contracted is approximately 3.96% and 3.24% per annum for 2013 and 2012 respectively.

Operating leases

The Group also has property and vehicle lease commitments under operating leases. The lease term for property under operating leases is generally 3, 6 or 9 years, a standard lease term for commercial real estate in France. The lease term for vehicle under operating lease is 3 years.

As part of the networks business, leases involving equipment and network IRUs (rights of use of the local loop, backbone) or other rental contracts (rights of way) were not considered material.

30 Lease arrangements (Continued)

In connection with its entertainment business activities, the Group has also entered into operating leases and agreements to purchase TV programs.

As of December 31, 2013, non-cancellable operating lease commitments amounted to:

	December 31, 2013
	(in thousands of euros)
Not later than 1 year	10,381
Later than 1 year and not later than 5 years	34,798
More than 5 years	12,978
	58,156

31 Non-current assets held for sale and discontinued operations

None.

32 Commitments and contractual obligations

32.1 Commitments given

Guarantees in relation to the Senior Facility Agreement

As part of the SFA entered into by the subsidiaries of the Group, the following commitments were given to the lending banks:

- Compliance with financial covenants;
- Stable tax consolidation scope;
- Compliance with conditions governing the acquisition, disposal, use and control of assets.

All the assets of the Group's subsidiaries have been pledged to the banks.

Commitments in relation to business operations

The Group is committed to build 75,000 connectors for a total amount of 4.5 million euros on behalf of the city of Le Havre, France.

To operate telecommunications networks, the Group needs licenses, authorizations or rights of use to infrastructure in the public and private domain. Consequently, the Group generally pays fees to the public administration in charge of managing the infrastructure (local authorities) or to the owners. In the course of its normal business activities, the Group has also entered into outsourcing contracts, particularly for certain network maintenance services.

Lease commitments in relation to business operations

As disclosed in Note 30, the Group has entered into various lease arrangements.

32 Commitments and contractual obligations (Continued)

Contractual obligations

The following table sets out the maturity of financial commitments in respect of borrowings and leases entered into by the Group (see the corresponding Notes):

	Note	< 1 year	Maturity 1-5 years	> 5 years	Total December 31, 2013
			(in thousands of euros)		
Loans and financial liabilities	23	64,249	2,283,075	418,818	2,766,142
Operating leases	30	10,381	34,798	12,978	58,157
Total		74,630	2,317,873	431,796	2,824,299

32.2 Commitments received

The Group has received a commitment of a total amount of 25 million euros from GDF Suez to subscribe to perpetual floating rate notes, which will provide financing for the construction of the Sipperec network. The Group has already received 23.8 million euros in principal from GDF Suez as of December 31, 2013.

33 Events after the end of the reporting period

33.1 Liquidity contract signed with Exane BNP Paribas

In early 2014, the Group signed a liquidity contract with Exane BNP Paribas in order to improve the liquidity of its securities and the regularity of their prices on NYSE Euronext Paris. A liquidity account of 3 million euros has been opened to allow Exane BNP Paribas to make transactions under the terms of the liquidity contract.

33.2 Granting of a new stock option plan

On January 10, 2014, the Board of Directors adopted a stock option in favor of certain officers and employees of Numericable Group.

This plan covers a total of 287,618 options for 287,618 shares.

The exercise price is 27.62 per share.

33.3 Exclusive talks with Vivendi for the acquisition of SFR

On March 14th, 2014, the board of directors of Vivendi announced that it entered into exclusive talks with Altice, the majority shareholder of Numericable Group, for a period of three weeks, in order to discuss the possible acquisition of its subsidiary SFR.

Rapport d'audit du Commissaire aux Comptes sur les comptes combinés des exercices clos les 31 décembre 2012, 2011 et 2010

Au Président-Directeur Général de Numericable Group,

En notre qualité de Commissaire aux Comptes de Numericable Group (la "**Société**") et en application du règlement (CE) n° 809/2004, nous avons effectué un audit des comptes combinés de l'ensemble décrit dans la note 1.5, joints au présent rapport et constitués d'un état de la situation financière combiné aux 31 décembre 2012, 2011 et 2010, d'un compte de résultat combiné, d'un état combiné du résultat global, d'un tableau des flux de trésorerie combiné et d'un tableau de variation des capitaux propres combinés pour chacun des exercices de 12 mois clos à ces dates ainsi qu'un résumé des principales méthodes comptables et d'autres informations explicatives (collectivement, les "**Comptes Combinés**").

Les Comptes Combinés ont été établis sous la responsabilité du Conseil d'Administration de la Société dans le contexte de l'introduction en bourse envisagée des actions de Numericable Group et dans le cadre de la restructuration envisagée des activités d'Ypso France SAS et d'Altice B2B SAS sous Ypso France SAS. Il nous appartient, sur la base de notre audit, d'exprimer une opinion sur ces Comptes Combinés.

Nous avons effectué notre audit selon les normes d'exercice professionnel applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les Comptes Combinés ne comportent pas d'anomalies significatives. Un audit consiste à vérifier, par sondages ou au moyen d'autres méthodes de sélection, les éléments justifiant des montants et informations figurant dans les Comptes Combinés. Il consiste également à apprécier les principes comptables suivis, les estimations significatives retenues et la présentation d'ensemble des Comptes Combinés. Nous estimons que les éléments que nous avons collectés sont suffisants et appropriés pour fonder notre opinion.

Member of Deloitte Touche Tohmatsu Limited

A notre avis, les Comptes Combinés établis pour les besoins du prospectus présentent sincèrement, dans tous leurs aspects significatifs et au regard du référentiel IFRS tel qu'adopté dans l'Union européenne, le patrimoine et la situation financière de l'ensemble combiné aux 31 décembre 2012, 2011 et 2010 ainsi que le résultat de ses opérations et de ses flux de trésorerie pour chacun des exercices clos à ces dates.

Sans remettre en cause l'opinion exprimée ci-dessus, nous attirons votre attention sur :

- la base de préparation indiquée en Note 1.4, qui décrit notamment au paragraphe "Base de combinaison", la méthode comptable retenue pour la combinaison des deux groupes placés sous contrôle commun, en l'absence de disposition spécifique à cet égard dans le référentiel IFRS tel qu'adopté dans l'Union européenne ;

- la Note 1.6 qui expose les éléments sur lesquels se fonde la direction de la Société dans son évaluation de la capacité de l'ensemble combiné à faire face à ses besoins de trésorerie en 2013 et du maintien du principe de continuité de l'exploitation pour l'établissement des Comptes Combinés.

Neuilly-sur-Seine, le 6 septembre 2013

Le Commissaire aux Comptes

Deloitte & Associés

Christophe Saubiez

ETAT COMBINE DES AUTRES ELEMENTS DU RESULTAT GLOBAL

(en milliers d'euros)	2012	2011	2010
Résultat net attribuable aux propriétaires de l'entité	**84 881**	**194 859**	**58 039**
Réserves de conversion	-	-	-
Variation de juste valeur des actifs financiers disponibles à la vente	-	-	-
Ecarts actuariels	-	-	-
Impôt sur éléments reconnus directement dans les capitaux propres	-	-	-
Autres éléments du résultat global attribuable aux propriétaires de l'entité	**84 881**	**194 859**	**58 039**

Conformément à la norme IAS 1 *Présentation des états financiers (2007)* (**IAS 1**), le Groupe Combiné, tel que défini en note 1, présente un état combiné des autres éléments du résultat global.

Toutefois, dans la mesure où le Groupe Combiné exerce ses activités exclusivement en France, la devise fonctionnelle et de présentation de toutes les entités du Groupe Combiné est l'euro. Par conséquent, aucune réserve de conversion n'a été constatée aux 31 décembre 2012, 2011 et 2010.

Les actifs financiers disponibles à la vente sont composés d'investissements divers dans des entités non cotées et qui ne sont pas incluses dans la combinaison (voir note 17) et dont la juste valeur ne peut pas être mesurée de manière fiable. Ces investissements n'étant pas significatifs, ils sont évalués au coût historique et, par conséquent, aucune variation de juste valeur n'est reflétée dans l'état combiné du résultat global.

Comme mentionné en note 2.20, le Groupe Combiné comptabilise les gains et pertes actuariels directement dans le compte de résultat. Par conséquent, aucun écart actuariel n'est comptabilisé directement en capitaux propres.

1 Bases de préparation des états financiers combinés

1.1 Présentation des deux groupes formant Numericable Group

Numericable Group (la « **Société** ») est une société anonyme de droit français, dont le siège social est situé en France et créée en aout 2013. Dans le cadre de l'admission des actions de la Société sur Euronext Paris, la Société recevra l'apport de deux entités constituées au Luxembourg, Ypso Holding S.à.r.l et Altice Lux Hold S.à.r.l., qui sont des holdings, respectivement sociétés-mères d'Ypso France SAS et d'Altice B2B France SAS. Ypso Holding S.à.r.l, Ypso France SAS et ses filiales sont ci-après désignées « Ypso », Altice Lux Hold S.à.r.l., Altice B2B France SAS et ses filiales sont ci-après désignées « Altice B2B ».

Ypso France SAS

Ypso France SAS, qui englobe l'activité commerciale Numericable, est un fournisseur français de services de télévision par câble au travers de bouquets de chaines de télévision numériques haut de gamme, accessibles aux ménages bénéficiant d'une connexion dite « triple play » au réseau câblé. Ypso France SAS fournit également des services Internet à large bande passante au marché français résidentiel et des services de téléphonie fixe et mobile.

Altice B2B France SAS

A travers de Completel SAS, sa principale entité opérationnelle, Altice B2B France SAS gère le plus grand réseau alternatif *« FFTO »* français (pour « fiber-to-the-office », « fibre-pour-le-bureau ») et constitue le troisième réseau alternatif *Digital Subscriber Line* (« DSL ») français. En reliant directement les sites des clients professionnels aux réseaux de fibres et DSL, Completel SAS fournit à la clientèle professionnelle une offre de services complète qui comprend le transfert de données et l'Internet à très haut débit, des services de télécommunications, ainsi que des solutions de convergence et de mobilité.

1.2 Description du contexte

Ypso et Altice B2B (collectivement les « **Deux Groupes** » ou le « **Groupe Combiné** ») sont actuellement des entités sous contrôle commun. Le contrôle des Deux Groupes est assuré par les fonds d'investissement privés Carlyle, Cinven et Altice. L'objectif des états financiers combinés est de présenter une image fidèle de la situation financière et des actifs et passifs des Deux Groupes, par combinaison des valeurs historiques des actifs, des passifs et des éléments de produits et charges pour chaque exercice présenté dans les états financiers combinés. En conséquence, les états financiers combinés reflètent les actifs, passifs, revenus, charges et flux de trésorerie historiques qui étaient relatifs aux sous-groupes Ypso et Altice B2B, lesquels forment au 31 décembre 2012, 2011 et 2010 deux groupes distincts.

Les états financiers combinés ont été préparés pour les exercices clos les 31 décembre 2012, 2011 et 2010 (collectivement les « Comptes Combinés ») dans le cadre du projet d'admission à la cotation des actions de Numericable Group (l'« **Offre** »), afin de refléter la combinaison des Deux Groupes.

1.3 Déclaration de conformité et référentiel comptable applicable aux Comptes Combinés

Les Comptes Combinés pour les exercices clos les 31 décembre 2012, 2011 et 2010, qui se composent d'un bilan combiné, d'un compte de résultat combiné, d'un état combiné du résultat global, d'un tableau des flux de trésorerie combiné, d'un tableau de variation combiné des capitaux propres combinés et des notes annexes afférentes, ont été préparés conformément aux normes comptables internationales *International Financial Reporting Standards* (« **IFRS** ») telles que publiées par l'International Accounting Standards Board

(« **IASB** ») et adoptées dans l'Union Européenne au 31 décembre 2012. Ces normes internationales comprennent les normes IAS (*International Accounting Standards*), IFRS (*International Financial Reporting Standards*) et leurs interprétations (SIC et IFRIC).

Les Comptes Combinés ont été arrêtés par le Conseil d'Administration de la Société en date du 6 septembre 2013.

1.4 Bases de préparation des Comptes Combinés

Etats financiers IFRS.

Pour la préparation des Comptes Combinés, les principes comptables en vigueur au 31 décembre 2012 ont été appliqués pour tous les exercices présentés dans ces Comptes Combinés.

Ypsos France et Altice B2B France préparent des comptes consolidés distincts, en accord avec les règles et principes comptables français, en application des Règlements n° 99.02 et n° 2005.10 du Comité de la Réglementation Comptable et conformément aux dispositions prévues par les contrats de financement établis avec les banques le 6 juin 2006 et modifiés ultérieurement les 18 juillet 2006, 2 mars 2007 et 24 juin 2008.

Afin de se conformer à ses obligations en matière de reporting liées à l'émission d'obligations à haut rendement (*high yield notes* telles que définies en note 4.1.1), Ypso France SAS prépare également des comptes consolidés conformément aux IFRS.

Lors de la préparation des Comptes Combinés, les états financiers consolidés d'Altice B2B France préparés conformément aux principes comptables français ont été convertis en IFRS et cette conversion a conduit à l'identification des ajustements suivants :

- Les frais d'accès aux service des clients professionnels ont été étalés sur la période d'engagement contractuel, en accord avec la norme IAS 18 *Produits des activités ordinaires ;*
- En IFRS, certains contrats de location d'équipements et de matériels de bureau qualifiés de contrats de location simple ont été analysés comme des contrats de location-financement, en application des critères définis par IAS 17 *Contrats de location* et ont fait l'objet d'un retraitement ;
- En accord avec l'exemption prévue par IFRS 1 *Première application des normes d'information financière internationales*, les opérations de regroupement d'entreprises ayant eu lieu avant le 1er janvier 2010 n'ont pas été retraités et aucun amortissement des écarts d'acquisition n'a été comptabilisé dans les comptes IFRS à compter de cette date ;
- En IFRS, les coûts de transaction (incluant les coûts d'émission des instruments de dette) qui sont directement imputables à l'acquisition ou l'émission d'un passif financier sont déduits de la valeur comptable du passif financier. Les coûts d'émission de dette sont amortis sur la durée de la dette selon la méthode du taux d'intérêt effectif (par opposition à l'imputation directe en charge financière selon les principes comptables français) ;
- Les variations de juste valeur des instruments dérivés de taux d'intérêt (i.e. swaps de taux) ont été directement comptabilisées dans le compte de résultat combinés dans les produits et charges financiers en IFRS alors qu'en principes comptables français, ces instruments sont considérés comme des engagements hors bilan. Les instruments dérivés sur taux d'intérêt apparaissent dans le bilan combiné en IFRS en autres actifs et passifs financiers ;
- Le crédit d'impôt recherche est déterminé sur la base d'un certain montant de dépenses de personnel de R&D éligibles qui sont capitalisées conformément à IAS 38 *Immobilisations incorporelles* (« **IAS 38** »). En conséquence, le montant de crédit d'impôt recherche a été étalé de manière proportionnelle sur la durée de vie des coûts capitalisés, soit 3 ans ;
- Certaines charges et certains produits exceptionnels ont été reclassés dans les rubriques du résultat d'exploitation avant amortissements et dépréciations (« **EBITDA** ») et du résultat financier, en fonction de leur nature, dans le compte de résultat combiné IFRS.

Evénements postérieurs à la clôture.

Les Comptes Combinés de Numericable Group ont été préparés sous la responsabilité du Président d'Ypso et d'Altice B2B et arrêtés par le Conseil d'Administration de la Société le 6 septembre 2013 sur la base et en cohérence avec les estimations reflétées dans les comptes consolidés d'Ypso et d'Altice B2B arrêtés au 31 décembre 2012, respectivement les 10 avril 2013 et 18 avril 2013 par le Président d'Ypso et d'Altice B2B. Par conséquent, aucun ajustement n'a été reflété dans les Comptes Combinés pour tout événement postérieur au 18 avril 2013, dans l'objectif de refléter exactement la situation présentée dans les comptes consolidés d'Ypso et Altice B2B à partir desquels les Comptes Combinés sont préparés comme indiqué ci-après, à l'exception des ajustements liés à la conversion en IFRS des états financiers d'Altice B2B préparés conformément aux principes comptables français.

Bases de la combinaison.

Les Comptes Combinés ont été préparés à partir des données et livres comptables ayant servi à la préparation des comptes consolidés des sous-groupes Ypso et Altice B2B au titre des exercices clos les 31 décembre 2012, 2011 et 2010.

Toutes les transactions, tous les soldes, tous les revenus et toutes les charges internes entre les Deux Groupes ont été éliminés afin de préparer les Comptes Combinés, y compris les transactions entre Ypso et Altice B2B et leurs filiales respectives.

Comme décrit ci-dessus, la combinaison des Deux Groupes est considérée comme un regroupement d'entités sous le contrôle commun de Carlyle, Cinven et Altice et les Comptes Combinés reflètent le cumul à la valeur comptable des états financiers d'Ypso et Altice B2B conformément aux principes suivants :

- Conformément à IAS 8 *Méthodes comptables, changements d'estimations comptables et erreurs*, paragraphe 10, la Direction de la Société a exercé son jugement afin de définir et appliquer une politique comptable produisant des informations pertinentes et reflétant la substance économique de la transaction. Par conséquent, la méthode de l'acquisition telle que mentionnée dans IFRS 3 *Regroupements d'entreprises* (« **IFRS 3** ») n'a pas été utilisée pour refléter la combinaison des Deux Groupes. En l'absence de dispositions spécifiques dans le référentiel IFRS pour les transactions entre entités sous contrôle commun, et compte tenu des dispositions en matière de réorganisations et de transactions entre entités sous contrôle commun développées par les normalisateurs américains et britanniques (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* ainsi que SEC Regulation S-X Article 3A – *Consolidated and Combined Financial Statements*) et britanniques (FRS 6 *Acquisitions and mergers*), les principes applicables à la réorganisation des groupes dans ces deux référentiels ont été retenus et appliqués pour la préparation des Comptes Combinés.
- Ainsi, les Comptes Combinés ont été préparés en agrégeant les états financiers consolidés d'Ypso et d'Altice B2B pour les exercices clos les 31 décembre 2012, 2011 et 2010, à leur valeur comptable historique :
  - Les actifs, passifs, revenus et charges des Deux Groupes, tels qu'extraits des livres comptables des sous-groupes respectifs Ypso et Altice B2B, ont été intégralement agrégés à leur valeur comptable historique et n'ont pas été réévalués ;
  - Les participations ne donnant pas le contrôle ont été maintenues, dans le bilan combiné, à leur valeur comptable, car elles reflétaient initialement la détention de 0,6% de Completel Europe NV (une filiale consolidée par intégration globale dans les comptes consolidés d'Altice B2B France), qui a été rachetée par Altice B2B France pour approximativement 5 millions d'euros en 2010 ;
  - Les capitaux propres combinés ont été obtenus en agrégeant les capitaux propres consolidés des sous-groupes Ypso et Altice B2B ;

- Aucun écart d'acquisition n'a été constaté et les actifs et passifs nets ont été agrégés à leur valeur comptable historique ; toutefois, les soldes historiques d'écarts d'acquisition des Deux Groupes ont été maintenus à leur valeur comptable dans les Comptes Combinés ;
- Les impacts des transactions entre les Deux Groupes sur les actifs, passifs, revenus et charges pour les périodes présentées ont été éliminés ;
- Les dettes subordonnées souscrites envers les actionnaires ultimes et figurant au passif d'Ypso Holding et Altice B2B Lux ont été classées directement en capitaux propres dans la mesure où elles sont destinées à être apportées à Numericable Group par les actionnaires dans le cadre de la réorganisation envisagée et ensuite capitalisées.

Concernant la présentation des informations comparatives, l'information comparative au titre de l'exercice 2010 a été ajustée pour refléter le cumul au début du premier exercice présenté, soit au 1^er^ janvier 2010, date à laquelle les deux Groupes étaient sous contrôle commun.

1.5 Liste des entités incluses dans la combinaison

Filiales

Les entités formant la Combinaison sont des sociétés dans lesquelles les Deux Groupes ont une participation majoritaire à travers Ypso et Altice B2B, c'est-à-dire des entités dans lesquelles les Deux Groupes ont le pouvoir de diriger les politiques financières et opérationnelles pour tirer des avantages de leurs activités, et sont incluses dans la combinaison. Le contrôle est démontré quand le Groupe Combiné a le pouvoir, direct ou indirect, de diriger les politiques financières et opérationnelles d'une entreprise afin de tirer des avantages de son activité. Les états financiers des filiales sont inclus dans les Comptes Combinés à partir de la date où le contrôle est effectif, jusqu'à la date où l'exercice de ce contrôle cesse. Les participations ne donnant pas le contrôle sont reflétées séparément dans le tableau de variation combiné des capitaux propres du Groupe Combiné.

Participations

Les participations sur lesquelles le Groupe Combiné exerce une influence notable, mais pas de contrôle ni de contrôle conjoint, sont comptabilisées suivant la méthode de la mise en équivalence. Ces participations sont comptabilisées en « Titres mis en équivalence ». Par influence notable, on entend le pouvoir de participer aux décisions financières et opérationnelles de la société dans laquelle des participations ont été prises, mais sans contrôle exclusif ni contrôle conjoint sur ces décisions. Initialement, ces titres mis en équivalence sont comptabilisés au coût historique. La quote-part de résultat de la période est présentée dans la ligne « Résultat des sociétés mises en équivalence » du compte de résultat combiné, à partir de la date à laquelle l'influence notable débute jusqu'à celle où cette influence notable cesse.

Aux 31 décembre 2012, 2011 et 2010, les Comptes Combinés résultent de la combinaison des entités suivantes :

Société et forme juridique de la constitution	**Siège social**	**Méthode de consolidation aux 31 décembre 2012, 2011 et 2010**	**Pourcentage de contrôle**			**Pourcentage de prise d'intérêt**		
			2012	**2011**	**2010**	**2012**	**2011**	**2010**

(1) Le Groupe Combiné a acquis, en janvier 2012, les actions de Sequalum Participation qui étaient détenues par Eiffage (15,78%). Après cette opération, le Groupe Combiné détenait 95% de Sequalum Participation.

(2) Les entités Altitude Telecom, B3G SA et B3G Online ont été fusionnées en 2011 dans Completel SAS.

1.6 Hypothèse de continuité d'exploitation

Le Groupe Combiné a été formé par une série d'acquisitions, essentiellement financées par des emprunts externes. De plus, la construction et la modernisation ultérieure du réseau ont requis des investissements substantiels. Ces deux facteurs expliquent la structure financière du Groupe Combiné et la proportion importante des passifs financiers par rapport au total des capitaux propres combinés, ainsi que la charge financière significative liée au coût de l'endettement.

A l'heure actuelle, le Groupe Combiné assure le service de sa dette et finance ses investissements à travers les liquidités nettes générées par ses activités opérationnelles. En outre, les accords passés par le Groupe Combiné dans le cadre de ses contrats de crédit obligent le Groupe Combiné à se conformer à certains ratios de liquidité et à maintenir certains niveaux de liquidité.

Par ailleurs, comme expliqué en Note 32, le Groupe Combiné a procédé en juillet et en août 2013 au refinancement de ses Dettes Senior ce qui a permis au Groupe Combiné de rééchelonner une grande partie de sa dette financière.

Dans ces conditions et sur la base des prévisions de trésorerie mises à jour, la Direction du Groupe Combiné considère que celui-ci sera en mesure de financer ses besoins de liquidités au cours de la période de douze mois à compter de l'arrêté des Comptes Combinés pour les exercices clos le 31 décembre 2012, 2011 et 2010 ainsi que de procéder au paiement des intérêts et des remboursements de sa dette financière au cours de cette période.

Par conséquent, les Comptes Combinés du Groupe Combiné pour les exercices clos le 31 décembre 2012, 2011 et 2010 ont été préparés dans l'hypothèse de continuité d'exploitation.

2 Principes comptables significatifs

2.1 Principes de préparation des Comptes Combinés

Normes et interprétations appliquées par le Groupe Combiné au 31 décembre 2012

Hormis les principes de combinaison décrits dans la note 1, les principes comptables de comptabilisation et d'évaluation suivis pour préparer les Comptes Combinés au 31 décembre 2012 sont les mêmes que ceux suivis pour les états financiers consolidés d'Ypso, établis conformément aux normes IFRS. Des ajustements ont été nécessaires pour convertir les états financiers consolidés d'Altice B2B (établis conformément aux principes comptables français) aux IFRS (voir la note 1.4).

Comme indiqué dans la note 1, les Comptes Combinés sont établis en comformité avec les normes comptables internationales IFRS telles qu' adoptées par l'Union européenne (**UE**), dont l'application est obligatoire depuis le 31 décembre 2012. Les principes de comptabilisation et d'évaluation définis dans les normes comptables internationales IFRS telles qu'adoptée par l'Union européenne ont été appliqués pour la préparation des Comptes Combinés. Ils sont disponibles sur le site Web suivant :

http://ec.europa.eu/internal_market/accounting/ias/index_en.htm

Les normes et interprétations adoptées par l'Union européenne dont l'application est obligatoire au 31 décembre 2012, sont similaires aux normes et interprétations publiées par l'International Accounting Standards Board (« **IASB** »), à l'exception du détourage de la norme IAS 39 *Instruments financiers - Comptabilisation et évaluation* (« **IAS 39** ») et les normes et interprétations ci-dessous, qui ont été adoptées par l'UE, mais dont l'application n'était pas obligatoire au 31 décembre 2012. Cependant, ces normes et interprétations ne sont pas applicables au Groupe Combiné au 31 décembre 2012. Par conséquent, les Comptes Combinés sont établis également en conformité avec les normes et interprétations IFRS, telles que publiées par l'IASB.

Les textes d'application obligatoire à compter du 1er janvier 2012 n'ont pas eu d'impact significatif sur les Comptes Combinés à cette date.

Textes d'application obligatoire postérieurement au 31 décembre 2012 et non appliqués par anticipation

Les normes et interprétations suivantes ont été publiées par l'IASB et l'IFRS Interpretations Committee, et adoptées par l'UE à la date d'établissement des Comptes Combinés, mais elles ne sont pas encore obligatoires. Le Groupe Combiné a donc décidé de ne pas les appliquer de façon anticipée.

- IAS 27 (révisée en 2011) *Etats financiers individuels* (applicable au 1er janvier 2014 au plus tard pour le Groupe Combiné) (« **IAS 27 révisée** »)

Cette norme définit les dispositions relatives à la comptabilisation et aux informations à fournir des états financiers individuels, qui sont des états financiers préparés par une société mère, ou un investisseur d'une coentreprise ou d'une entreprise associée, lorsque ces investissements sont comptabilisés à leur coût d'acquisition ou en conformité avec IAS 39. La norme établit également le traitement comptable des dividendes, ainsi que d'autres obligations d'information à publier.

- IAS 28 (révisée en 2011) *Participations dans des entreprises associées et des coentreprises* (applicable au 1er janvier 2014 au plus tard pour le Groupe Combiné) (« **IAS 28 révisée** »)

Cette norme est relative à la comptabilisation selon la méthode de la mise en équivalence des entités sous influence notable et sous contrôle conjoint (*joint ventures*).
Certaines clarifications ont été apportées pour la comptabilisation des variations des pourcentages d'intérêts (sans prise ou perte de contrôle des filiales). Les informations à fournir sont désormais couvertes par IFRS 12 *Informations à fournir sur les intérêts détenus dans d'autres entités.*

- IFRS 10 *Etats financiers consolidés* (applicable au 1er janvier 2014 au plus tard pour le Groupe Combiné) (« **IFRS 10** »)

IFRS 10 remplace SIC 12 *Consolidation – Entités ad hoc* et IAS 27 pour la partie relative aux états financiers consolidés. Cette norme traite de la consolidation d'entités qu'elles soient des filiales ou des entités ad hoc, pour lesquelles elle redéfinit la notion de contrôle, base de la consolidation.

- IFRS 11 : *Partenariats* (applicable au 1er janvier 2014 au plus tard pour le Groupe Combiné) (« **IFRS 11** »)

IFRS 11 remplace IAS 31 *Participation dans des coentreprises* et l'interprétation SIC 13 *Entités contrôlées conjointement – Apports non monétaires par des coentrepreneurs.*

Cette norme traite de la comptabilisation des accords conjoints. La définition du contrôle conjoint repose sur l'existence d'un accord contractuel et le consentement unanime des parties partageant le contrôle.

Les accords conjoints sont classés en deux catégories (i) les *joint ventures* : chaque partie a un droit dans l'actif net de l'entité, à comptabiliser selon la méthode de la mise en équivalence, méthode déjà appliquée par le Groupe Combiné et (ii) les *joint operations* : chaque partie a des droits directs dans les actifs et des obligations directes sur les passifs de l'entité, à comptabiliser conformément à l'accord contractuel.

- IFRS 12 *Informations à fournir sur les intérêts détenus dans d'autres entités* (applicable au 1er janvier 2014 au plus tard pour le Groupe Combiné) (« **IFRS 12** »)

IFRS 12 remplace les dispositions relatives aux informations à fournir auparavant incluses dans IAS 27, IAS 28 et IAS 31.

Cette norme regroupe et développe les informations à fournir au titres des entités contrôlées, contrôlées conjointement ou sous influence notable et des entités ad hoc non consolidées.

- IFRS 13 *Evaluation de la juste valeur* (applicable au 1er janvier 2013 pour le Groupe Combiné) (« **IFRS 13** »)

IFRS 13 constitue une norme transverse aux autres normes IFRS lorsque celles-ci recourent à la notion de juste valeur en terme d'évaluation et d'information à fournir. Elle définit la juste valeur, présente un cadre pour les évaluations à la juste valeur et précise l'information à fournir sur les modalités d'évaluation à la juste valeur, comprenant notamment la hiérarchie des évaluations à la juste valeur actuellement incluse dans IFRS 7 *Instruments financiers : Informations à fournir.*

- IAS 19 (révisée en 2011) *Avantages du personnel* (applicable au 1er janvier 2013 au plus tard pour le Groupe Combiné) (« **IAS 19** »)

Les principaux changements résultant de cette révision sont les suivants :

- comptabilisation des écarts actuariels au poste « Autres éléments du résultat global », ce qui entraînera un changement de méthode comptable car le Groupe Combiné comptabilise au 31 décembre 2012 les écarts actuariels directement au compte de résultat ; et
- la modification du mode de calcul de la composante financière, avec la suppression du rendement attendu des autres actifs de couverture, ce qui ne devrait pas avoir d'effet significatif sur les comptes du Groupe Combiné ;
- comptabilisation immédiate des coûts des services passés non acquis en résultat, ce qui ne devrait pas avoir d'effet significatif sur les comptes du Groupe Combiné.

Les autres amendements et interprétations non encore adoptés au 31 décembre 2012 par le Groupe Combiné sont les suivants :

- Amendements d'IAS 1 *Présentation des autres éléments du résultat global* et *Etats financiers* individuels (applicable au 1er janvier 2013 pour le Groupe Combiné)

- IFRIC 20 *Frais de découverture engagés pendant la phase de production d'une mine à ciel ouvert* (applicable au 1^er^ janvier 2013 pour le Groupe Combinét) (« **IFRIC 20** »)
- Amendements d'IFRS 7 *Informations à fournir – Compensation des actifs et passifs financiers* (applicable au 1^er^ janvier 2013 pour le Groupe Combiné)
- Amendements d'IAS 32 *Compensation des actifs et passifs financiers* (applicable au 1^er^ janvier 2013 pour le Groupe Combiné)
- o Amendements d'IAS 12 *Impôts différés : recouvrement des actifs sous-jacents* (applicable au 1^er^ janvier 2013 pour le Groupe Combiné)
- o Amendements d'IFRS 1 *Hyperinflation grave et suppression des dates d'application fermes pour les nouveaux adoptants* (applicable au 1^er^ janvier 2013 pour le Groupe Combiné)

La Direction évalue actuellement l'impact potentiel de l'application de ces normes, interprétations et amendements sur le compte de résultat combiné, l'état combiné de la situation financère, le tableau des flux de trésorerie combiné et le contenu des notes annexes des Comptes Combinés mais à ce stade, n'anticipe pas d'impact significatif lié à l'application de ces normes, interprétations et amendements.

Les Comptes Combinés sont établis selon la convention du coût historique, à l'exception de certaines catégories d'actifs et passifs recensés ci-dessous :

- instruments financiers dérivés comptabilisés à leur juste valeur ;
- actifs financiers à la juste valeur par le biais du compte de résultat;
- actifs financiers disponibles à la vente comptabilisés à leur juste valeur.

2.2 Méthode de conversion

Les Comptes Combinés sont présentés en euros – monnaie fonctionnelle et de présentation des Deux Groupes. Toutes les données financières sont arrondies au millier d'euros le plus proche.

Les opérations en devises sont initialement comptabilisées dans la monnaie fonctionnelle au taux de change en vigueur à la date de l'opération. A la date de clôture, les actifs et passifs monétaires libellés dans une devise sont convertis dans la monnaie fonctionnelle au taux de change en vigueur à la date en question. Tous les écarts de change sont enregistrés. Les actifs et passifs non monétaires évalués d'après leur coût historique dans une devise sont convertis aux taux de change en vigueur aux dates des opérations initiales. Les différences de change correspondantes sont comptabilisées dans le compte de résultat.

2.3 Chiffre d'affaires

Le chiffre d'affaires du Groupe Combiné est constitué des principaux éléments suivants :

- Abonnements TV, Internet haut débit, services de câble de base, téléphonie et frais d'installation facturés aux particuliers et aux clients professionnels.
- Services de transmission de données, Internet à très haut débit, services de télécommunications, solutions de convergence et de mobilité facturés aux clients professionnels.
- Services de mise à disposition de l'infrastructure réseau, dont des contrats de droit d'usage irrévocable (*indefeasible right of use* ou IRU) ou bande passante sur notre réseau, à d'autres opérateurs de télécommunications et services d'entretien associés.

Le chiffre d'affaires comprend la juste valeur de la contrepartie reçue ou à recevoir pour la vente de biens et services dans le cadre des activités ordinaires du Groupe Combiné. Les produits sont présentés après déduction de la taxe sur la valeur ajoutée, et des remises, rabais et ristournes, et élimination des ventes intragroupes entre entités comprises dans le périmètre de combinaison.

Les produits sont comptabilisés et présentés comme suit, conformément à IAS 18 *Produits des activités ordinaires* (IAS 18) :

- Les produits des abonnements aux services de câble de base, de télévision numérique à péage, d'Internet et de téléphonie sont comptabilisés de manière linéaire sur la durée d'abonnement, tandis que les produits des appels téléphoniques sont comptabilisés lorsque le service est rendu.

- Lorsqu'un client bénéficie d'une promotion sur un abonnement (par exemple, au moyen d'une remise sur le tarif d'abonnement ou d'une période d'abonnement gratuit) sans rapport avec sa consommation et ses achats passés, le total des produits à facturer fait l'objet d'une comptabilisation linéaire pendant la durée de validité d'un éventuel contrat de fourniture de biens et services après la période promotionnelle. Si la promotion n'est pas conditionnée à la souscription d'un contrat comportant une durée d'engagement, le groupe comptabilise les produits pendant la période promotionnelle à hauteur de la contrepartie reçue ou à recevoir, car la prorogation du contrat n'est pas garantie.

- Les frais d'installation et de configuration (y compris le raccordement au réseau) des particuliers sont comptabilisés en chiffre d'affaires lorsque le service est rendu, si la contrepartie reçue est inférieure aux coûts directs de vente engagés afin de nouer la relation contractuelle.

- Les frais d'accès aux services des clients professionnels facturés lors du raccordement du client avec un équipement ou un servicesont comptabilisés en produits constatés d'avance, puis le produit constaté d'avance correspondant est repris en résultat sur la durée de vie estimée du client, sur base de données statistiques. Il est généralement étalé sur la période d'engagement contractuel.

- Le produit associé aux capacités de transmission par câble terrestre mises à disposition dans le cadre de contrats d'IRU fait l'objet d'une comptabilisation linéaire sur la durée du contrat.

2.4 Produits constatés d'avance

Pour certains contrats avec des clients professionnels, le Groupe Combiné perçoit des paiements d'avance (contrats d'IRU et frais de raccordement au réseau). Le produit est alors généralement comptabilisé de manière linéaire sur la durée du contrat de location. A la cloture de l'exercice, le produit constaté d'avance correspond au produit de la location du réseau non encore comptabilisé en chiffre d'affaires.

2.5 Résultat d'exploitation avant amortissements et dépréciations

Le sous-total « Résultat d'exploitation avant amortissements et dépréciations » ou « EBITDA » est présenté dans le compte de résultat combiné car la Direction a considéré pertinent de présenter, au compte de résultat, un sous-total au sein du résultat d'exploitation pour mieux comprendre la performance financière du Groupe et qui exclut les éléments sans effet sur la trésorerie, tels que les amortissements et les dépréciations, accroissant ainsi la valeur prédictive des états financiers.

Par ailleurs, l'EBITDA est un indicateur utilisé par la Direction en interne pour mesurer la performance opérationnelle et financière, prendre des décisions d'investissement et d'allocation des ressources et évaluer les performances de l'équipe dirigeante.

Le sous-total EBITDA n'est pas nécessairement comparable à des indicateurs à l'appellation similaire présentés par d'autres entreprises. Il ne saurait se substituer au résultat d'exploitation, car les effets des amortissements et des dépréciations qui en sont exclus pèsent sur le résultat d'exploitation, qui est également présenté au compte de résultat combiné conformément à IAS 1.

2.6 Charges et produits financiers

Les charges et produits financiers sont principalement constitués des éléments suivants :

- charges d'intérêts et autres frais liés à des activités de financement comptabilisées selon la méthode du coût amorti ainsi que les variations de juste valeur des instruments dérivés de taux d'intérêt qui ne peuvent pas etre qualifiés comme des instruments de couverture au sens de la norme IAS 39 *Instruments financiers : Comptabilisation et évaluation* (« **IAS 39** ») et qui figurent au poste « Coût de l'endettement brut » dans le compte de résultat combiné ;

- produits d'intérêts liés à la trésorerie et aux équivalents de trésorerie ;

L'effet d'actualisation des provisions liées aux régimes de retraite sont comptabilisées dans le compte de résultat combiné, au poste « Charges de personnel ».

2.7 Informations sectorielles

Selon IFRS 8 *Secteurs opérationnels*, les informations sectorielles doivent être présentées sur la même base que celle utilisée pour le reporting interne. Etant donné que le Groupe Combiné entend communiquer ses résultat et réaliser son reporting sur cette base à l'avenir, trois secteurs opérationnels ont été identifiés :

- Activités B2C
- Activités B2B
- Services de vente en gros ou *Wholesale*

Activités B2C

Le Groupe Combiné propose aux particuliers et aux clients professionnels des abonnements TV, l'accès à Internet haut débit, des services de câble de base, de la téléphonie et des services d'installation payants.

Activités B2B

Le Groupe Combiné propose aux clients professionnels une palette complète de services : transmission de données, Internet très haut débit, services de télécommunications, solutions de convergence et de mobilité, en raccordant directement leurs installations à des réseaux fibre et DSL.

Services de vente en gros ou *Wholesale*

Le Groupe Combiné commercialise des services de mise à disposition de l'infrastructure réseau, notamment des contrats d'IRU ou de la bande passante sur son réseau, à d'autres opérateurs de télécommunications, ainsi que les services d'entretien associés.

2.8 Impôt sur les sociétés

La charge d'impôt sur les sociétés comprend l'impôt exigible et les impôts différés. La charge d'impôt est constatée au compte de résultat combiné, sauf si elle est liée à des éléments constatés en capitaux propres, auquel cas elle est comptabilisée en capitaux propres.

La dette d'impôt sur les sociétés correspond à l'impôt à payer au titre de l'exercice, d'après les taux adoptés ou quasi adoptés à la date de clôture, et aux régularisations d'impôts au titre des exercices précédents.

Les différences existant entre la valeur fiscale des actifs et passifs et leur valeur comptable constituent des différences temporaires donnant lieu à la comptabilisation d'un impôt différé. En revanche, les différences temporaires suivantes n'entraînent pas la comptabilisation d'un impôt différé : (i) la comptabilisation initiale de l'écart d'acquisition, (ii) la comptabilisation initiale des actifs ou des passifs dans le cadre d'une opération autre qu'un regroupement d'entreprises sans effet sur le bénéfice comptable et imposable, et (iii) des participations dans des filiales, co-entreprises et entreprises associées dès lors que le Groupe Combiné contrôle la date à laquelle les différences temporelles s'inverseront et qu'il est probable que ces différences ne s'inverseront pas dans un avenir prévisible.

Les entreprises comprises dans la combinaison comptabilisent un passif d'impôt différé sur les dividendes que lesdites entreprises ont prévu de distribuer.

L'impôt différé est calculé au taux qui devrait être applicable aux différences temporaires lors de leur reversement, conformément aux règles en vigueur à la date de clôture.

Les actifs et passifs d'impôt différé sont compensés s'il existe un droit légal de compenser les actifs et passifs d'impôts exigibles, et s'ils sont liés à des impôts sur les sociétés prélevés par la même administration fiscale sur la même entité imposable, ou sur différentes entités imposables, lorsque le contribuable a l'intention de régler le montant net de ses actifs et passifs d'impôt exigible ou que lesdits actifs et passifs seront liquidés simultanément.

Les impôts différés sont revus à chaque clôture pour tenir compte notamment des changements de législation fiscale et des perspectives de recouvrement des différences temporelles déductibles. Un actif d'impôt différé n'est comptabilisé que dans la mesure où il est probable que le Groupe disposera de bénéfices futurs imposables sur lesquels cet actif pourra être imputé dans un horizon prévisible ou, au-delà, d'impôts différés passifs de même maturité.

2.9 Subventions publiques et subventions d'investissement

Les entités du Groupe Combiné peuvent recevoir des subventions publiques et des subventions d'investissement sous forme de financement direct ou indirect de projets d'investissement, assuré dans la plupart des cas par les collectivités territoriales. Ces subventions sont déduites du coût des actifs concernés et sont comptabilisées dans le compte de résultat combiné en fonction du rythme de consommation des avantages économiques futurs attendus.

2.10 Ecarts d'acquisition et regroupements d'entreprises

Les regroupements d'entreprises sont comptabilisés en fonction de la méthode de l'acquisition. Les actifs, passifs et passifs éventuels de l'entreprise acquise, qui répondent aux critères d'IFRS 3, sont comptabilisés à leur juste valeur à la date d'acquisition, à l'exception des actifs non courants (ou des groupes destinés à être cédés) classés comme détenus en vue de la vente selon la norme IFRS 5 *Actifs non courants détenus en vue de la vente et activités abandonnées*, qui doivent être comptabilisés à la valeur la plus faible entre leur valeur comptable et leur juste valeur diminuée des coûts de la vente.

La contrepartie versée correspond à la juste valeur, à la date d'acquisition, des actifs cédés, des engagements souscrits ou des passifs repris, et des instruments de capitaux propres émis par le Groupe Combiné en échange du contrôle de l'entreprise acquise. L'écart d'acquisition créé par le regroupement d'entreprises est égal à la différence entre la somme de la contrepartie versée, la valeur de toute participation ne donnant pas le contrôle encore détenue par un tiers après le regroupement, et, le cas échéant, la juste valeur à la date d'acquisition de la participation détenue précédemment par l'acquérant dans la cible, moins l'écart entre les actifs identifiables acquis et les passifs repris à la date d'acquisition. Cet écart d'acquisition apparaît à l'actif du bilan combiné. Lorsqu'il en résulte une différence négative, elle est immédiatement comptabilisée en résultat.

Les coûts annexes directement attribuables à une acquisition donnant le contrôle sont comptabilisés en charges pour les périodes au cours desquelles les coûts sont engagés, à l'exception des coûts d'émission des titres d'emprunt ou de capitaux propres qui doivent être comptabilisés selon les normes IAS 32 *Instruments financiers : Présentation* (« **IAS 32** ») et IAS 39.

Lorsque l'écart d'acquisition est calculé de façon provisoire à la cloture de l'exercice pendant lequel l'acuqisition a été effectuée, toute régularisation de cette valeur provisoire effectuée dans les douze mois qui suivent l'acquisition est comptabilisée en contrepartie de l'écart d'acquisition.

Dans le cas de prises de participation ne donnant pas le contrôle (autrement dit, des participations ne donnant pas le contrôle dans une filiale qui fait déjà l'objet d'un regroupement), le Groupe Combiné affecte l'intégralité de la différence entre le prix payé et la quote-part dans les actifs nets acquise aux capitaux propres conformément à la norme IAS 27 (telle que révisée en 2008), sans réévaluation des actifs et passifs repris.

Les écarts d'acquisition provenant de l'acquisition de filiales ou de co-entreprises sont présentés séparément dans le bilan combiné. Les pertes de valeur relatives à ces écarts d'acquisition sont présentées sur la ligne « Amortissements et dépréciations » du compte de résultat combiné.

Les écarts d'acquisition provenant de l'acquisition d'entreprises associées sont inclus dans la valeur comptable de la participation. Les pertes de valeur relatives à ces écarts d'acquisition sont enregistrées dans la ligne « Résultat des sociétés mises en équivalence ».

Les écarts d'acquisition ne sont pas amortis mais font l'objet d'un test de dépréciation dès l'apparition d'indices de pertes de valeur et au minimum une fois par an selon les modalités et hypothèses décrites en note 15.

Après leur comptabilisation initiale, les écarts d'acquisition sont inscrits à leur coût diminué des pertes de valeur constatées.

2.11 Immobilisations incorporelles

Principes de comptabilisation et d'évaluation

La valeur des immobilisations incorporelles est égale à leur coût moins les amortissements et dépréciations cumulées. Le coût correspond à tous les coûts directement imputables et nécessaires à l'achat, à la création, à la fabrication et à la mise en service de l'actif. Les immobilisations incorporelles sont principalement constituées des IRU, des brevets, des logiciels achetés et des applications développées en interne.

Les IRU correspondent au droit d'utilisation d'une partie des capacités d'un câble de transmission terrestre ou sous-marin octroyé pour une durée déterminée. Les IRU sont comptabilisés comme des actifs lorsque le Groupe Combiné possède un droit spécifique d'une partie identifiée de l'actif sous-jacent (généralement, de la fibre optique ou une bande de fréquences exclusive), et que la durée de ce droit correspond à la majeure partie de la durée d'utilité de l'actif sous-jacent. Ils sont amortis sur la durée la plus courte entre la durée d'utilisation attendue et la durée du contrat (entre 3 et 20 ans).

Les brevets font l'objet d'un amortissement linéaire pendant la période d'utilisation prévue (en règle générale, moins de 10 ans).

Les logiciels font l'objet d'un amortissement linéaire pendant la durée d'utilité attendue (en règle générale, moins de 3 ans).

Le coût d'acquisition d'une immobilisation incorporelle développée en interne correspond aux frais de personnel supportés dès lors que l'immobilisation incorporelle répond aux critères de la norme IAS 38. Une immobilisation incorporelle issue du développement d'un projet interne est comptabilisée si une entité peut démontrer que toutes les conditions suivantes sont remplies :

- La faisabilité technique permettant l'achèvement de l'immobilisation incorporelle de sorte qu'il soit possible de l'utiliser ou de la vendre.
- Son intention d'achever l'immobilisation incorporelle et de l'utiliser ou de la vendre.
- Sa capacité à utiliser ou à vendre l'immobilisation incorporelle.
- La capacité de l'immobilisation incorporelle à apporter des avantages économiques futurs probables.

L'entité peut notamment démontrer l'existence d'un marché pour la production de l'immobilisation incorporelle ou l'immobilisation incorporelle elle-même ou, si elle va être utilisée en interne, son utilité.

- La disponibilité des ressources techniques, financières et autres pour achever la conception de l'immobilisation incorporelle, puis pour l'utiliser ou la vendre.
- Sa capacité à mesurer avec exactitude les charges imputables à l'immobilisation incorporelle pendant sa conception.

L'incorporation dans le coût de l'actif cesse lorsque le projet est terminé et que l'actif est prêt à être utilisé. Le coût d'une immobilisation incorporelle générée en interne issue de la phase de développement d'un projet informatique interne fait l'objet d'un amortissement linéaire pendant la durée d'utilité attendue (en règle générale, moins de 3 ans).

Accords conclus avec les collectivités locales

Pour mettre en place et gérer son réseau, la société a conclu des accords avec des collectivités locales et des organismes représentatifs dans le cadre de différents cadres juridiques (Plan Câble, loi relative à la liberté de communication de 1986, etc.). Plusieurs de ces accords octroient des droits exclusifs à l'opérateur et définissent des obligations en matière de fourniture, de programmation, de politique de prix et de redevance à verser pour les services de télévision locaux. Certains constituent des concessions de service public avec des clauses de « retour des biens », en vertu de laquelle la propriété des installations techniques et des ouvrages de génie civil est restituée aux collectivités locales à la fin de la concession.

Les directives sur les télécoms de l'UE (2002), appelées « Paquet Télécom », établissent le principe de la libre concurrence entre les opérateurs du marché des télécommunications, obligeant les organismes de réglementation nationaux à garantir des conditions de concurrence équitables, sans accorder de droits exclusifs ou spéciaux pour l'installation et l'exploitation de réseau. La loi française du 9 juillet 2004, qui transpose le Paquet Télécom, exigeait la mise en conformité des contrats existants d'ici à fin juillet 2007 au plus tard, afin de supprimer les clauses accordant des droits exclusifs et de garantir une utilisation partagée des ouvrages de génie civil.

Seule une minorité des accords noués avec les collectivités locales est susceptible d'appartenir à la catégorie des concessions de service public lorsque ces accords ont été conclus. Par conséquent, IFRIC 12 *Accords de concession de services* n'est pas applicable, sauf dans le cas du contrat de délégation du service public signé avec le département des Hauts-de-Seine (*Délégation de Service Public 92).*

Contrat de concession de service public noué avec le département des Hauts-de-Seine

Sequalum, entité comprise dans le Groupe Combiné, a été sélectionnée en 2007 par le Conseil Général des Hauts-de-Seine afin de planifier, déployer et exploiter un réseau de fibre à très haut débit *Fiber To The Home* (FTTH) dans l'ensemble du département dans le cadre d'une Délégation de Service Public (DSP) appelée DSP 92. Une DSP est une forme de partenariat public-privé de droit français en vertu duquel une collectivité confie à des entités privées l'exploitation d'un service public moyennant une redevance proportionnelle aux recettes générées par l'exploitation du service en question.

Conformément au contrat de prestation de service signé entre Sequalum et le Conseil Général des Hauts-de-Seine, Sequalum doit construire le réseau (la construction doit être achevée dans un délai de 6 ans), puis assurer l'entretien et l'exploitation du réseau en respectant une norme spécifique pendant 25 ans. A la fin de la 25^{e} année, l'accord prendra fin.

Sequalum prend en charge la construction pour le compte du département des Hauts-de-Seine en échange d'une immobilisation incorporelle (c'est-à-dire le droit de collecter des recettes auprès des utilisateurs du réseau). Conformément à IAS 38, Sequalum comptabilise l'immobilisation incorporelle au coût (la juste valeur de la contrepartie versée pour acquérir l'actif), soit la juste valeur de la contrepartie reçue ou à recevoir pour les prestations de services de construction.

Principales caractéristiques de l'accord :

Tarifs réglementés	**Origine du chiffre d'affaires**	**Subvention octroyée par le concédant**	**Valeur résiduelle**	**Fin du contrat**	**Modèle comptable**
Les tarifs sont fixés dans le contrat de services	Utilisateurs	Subvention de 59 millions d'euros pour financer la construction	Le réseau sera restitué au concédant sans indemnité, à l'exception de certains actifs (actifs de reprise)	Le contrat prend fin après 25 ans	Immobilisations incorporelles/créance financière

2.12 Immobilisations corporelles

La valeur des immobilisations corporelles est égale à leur coût d'acquisition diminué des amortissements et dépréciations cumulés.

Les terrains ne font pas l'objet d'amortissements. Les bâtiments et les locaux font l'objet d'un amortissement linéaire sur 20 ans.

Les composants significatifs des immobilisations corporelles et dont la durée d'utilité est différente font l'objet d'une comptabilisation et d'un amortissement séparés. Concernant le réseau et le matériel technique, les amortissements et les dépréciations sont calculés linéairement et les principales durées sont les suivantes :

Réseau et équipements techniques	***Méthode***	***Durée***
Nœuds du réseau	Linéaire	10 à 15 ans
Câbles optiques	Linéaire	15 à 30 ans
Installations d'ingénierie	Linéaire	20 à 40 ans
Liaisons	Linéaire	5 ans
Terminaux numériques	Linéaire	3 à 5 ans
Mobilier	Linéaire	5 à 10 ans
Agencements	Linéaire	8 à 10 ans
Equipements de transport	Linéaire	2 à 5 ans
Equipements de bureau	Linéaire	3 à 5 ans
Equipements informatiques	Linéaire	3 à 5 ans

La plus-value ou moins-value lors de la cession d'une immobilisation corporelle, qui correspond à l'écart entre le produit constaté au titre de la cession et la valeur comptable de l'immobilisation, est comptabilisée parmi les « Autres produits ou charges opérationnels » au compte de résultat combiné.

2.13 Contrats de location

Tout contrat de location transférant au locataire la quasi-totalité des avantages et risques inhérents à la propriété d'un actif est comptabilisé comme un contrat de location-financement. Dans tous les autres cas, il s'agit de contrats de location simple.

Lorsque le Groupe Combiné est le bailleur

Les montants dus par les locataires dans le cadre des contrats de location-financement sont comptabilisés comme des créances pour le montant de l'investissement net du Groupe Combiné dans les contrats de location. Le produit des contrats de location-financement est affecté aux périodes comptables afin d'obtenir un taux de rendement périodique constant sur l'investissement net du Groupe Combiné restant dû pour les contrats de location.

Le produit des contrats de location simple est comptabilisé de façon linéaire sur la durée du contrat correspondant. Les coûts directs initiaux supportés lors de la négociation et de la signature du contrat de location simple sont ajoutés à la valeur comptable de l'actif loué et comptabilisé en linéaire sur la durée du contrat de location.

Lorsque le Groupe Combiné est le locataire

Les actifs détenus dans le cadre de contrats de location-financement sont initialement comptabilisés comme des actifs du Groupe Combiné à leur juste valeur au début du contrat ou, à la valeur actuelle des paiements minimum au titre du contrat, si elle est inférieure. La dette correspondante vis-à-vis du bailleur figure dans le bilan en tant qu'obligation liée au contrat de location-financement. Les paiements liés au contrat de location sont répartis entre les charges financières et la réduction de l'obligation liée au contrat de manière à obtenir un taux d'intérêt constant sur le solde restant dû de la dette. Les charges financières sont immédiatement comptabilisées en résultat. Les loyers conditionnels sont comptabilisés comme des charges pour les périodes concernées.

Les paiements liés à un contrat de location simple sont comptabilisés linéairement en charges pendant la durée du contrat, sauf si une autre base systématique est plus représentative de la consommation dans le temps des avantages économiques de l'actif loué. Les loyers conditionnels en rapport avec des contrats de location simple sont comptabilisés en charges pour les périodes concernées. Si des incitations à la location sont versées pour la signature de contrats de location simple, ils figurent en dettes. L'avantage cumulé des incitations est comptabilisé linéairement sous forme de réduction des charges de location, sauf si une autre base systématique est plus représentative de la consommation dans le temps des avantages économiques de l'actif loué.

2.14 Dépréciation d'actifs

A chaque fois que des événements ou des évolutions de l'environnement économique font peser un risque de dépréciation sur les écarts d'acquisition, ou sur d'autres immobilisations incorporelles, corporelles ou bien sur des immobilisations en cours, le Groupe Combiné réexamine leur valeur. En outre, l'écart d'acquisition, les autres immobilisations incorporelles à durée d'utilité indéterminée et les immobilisations incorporelles en cours sont soumis à un test de dépréciation annuel au cours du deuxième semestre de chaque exercice.

L'objet du test de dépréciation est de comparer la valeur recouvrable d'un actif ou d'une unité génératrice de trésorerie (« **UGT** ») à sa valeur comptable.

La valeur nette de réalisation d'un actif ou d'une UGT correspond à la valeur la plus élevée entre sa valeur d'utilité et sa juste valeur après déduction des coûts de vente. Elle est calculée pour chaque actif, à moins que l'actif en question ne génère pas d'entrées de trésorerie largement indépendantes de celles relatives aux autres actifs ou groupes d'actifs. Dans ce cas, elle est calculée pour l'unité génératrice de flux trésorerie à laquelle est rattaché l'actif. Une unité génératrice de trésorerie correspond au plus petit groupe identifiable d'actifs qui génère des entrées de trésorerie dans une large mesure indépendantes de celles d'autres actifs ou groupes d'actifs, que sont, pour le Groupe Combiné, « Activités B2C », « Activités B2B » et « Wholesale ».

La valeur d'utilité de chaque actif ou groupe d'actifs correspond à la valeur actualisée des flux de trésorerie futurs (méthode des flux de trésorerie actualisés) qui est calculée en utilisant un taux d'actualisation après impôt pour chaque actif ou groupe d'actifs.

La juste valeur moins les frais de vente correspond au montant que l'on peut obtenir de la vente de l'actif ou du groupe d'actifs lors d'une transaction de gré à gré entre des parties bien informées et consentantes, moins les frais de vente.

Une dépréciation est enregistrée au poste « Amortissements et dépréciations » du compte de résultat combiné si la valeur comptable d'un actif excède sa valeur nette de réalisation. Seules les dépréciations d'actifs autres que l'écart d'acquisition, telles que celles relatives aux immobilisations incorporelles, aux immobilisations incorporelles à durée d'utilité indéterminée et aux immobilisations corporelles, peuvent être reprises.

2.15 Actifs financiers

Le Groupe Combiné classe les actifs financiers selon quatre catégories : actifs disponibles à la vente, prêts et créances, titres détenus jusqu'à l'échéance et actifs financiers à la juste valeur par le biais du résultat net. Ils sont répartis entre actifs courants et actifs non courants conformément à IAS 1.

L'achat et la vente de tous les actifs financiers sont comptabilisés à la date de règlement.

Actifs financiers disponibles à la vente

Les actifs financiers disponibles à la vente sont initialement comptabilisés à la juste valeur augmentée des frais de transaction directement imputables à l'acquisition ou à la sortie de l'actif financier. Par la suite, ils sont comptabilisés à la juste valeur. Les profits et pertes liés aux variations de la juste valeur sont directement imputés aux capitaux propres jusqu'à cession ou dépréciation des titres. Les produits ou pertes cumulés sont recyclés dans le résultat de la période considérée.

Les actifs financiers disponibles à la vente sont principalement composés des actions d'entreprises qui ne font pas partie du Groupe Combiné. La juste valeur correspond au cours des titres cotés ou, dans le cas de titres non cotés, au coût historique, déduction faite de toute dépréciation, lorsque la juste valeur ne peut être évaluée de manière fiable au moyen des techniques habituelles, en l'absence d'un marché actif.

En présence d'indices objectifs d'une dépréciation des actifs disponibles à la vente, la dépréciation cumulée comptabilisée en capitaux propres est recyclée en résultat. Ces indices sont notamment une baisse des flux de trésorerie attendus de ces actifs (par exemple, si l'émetteur rencontre de graves difficultés), une baisse considérable de la rentabilité attendue ou une baisse prolongée de la juste valeur du titre. Les dépréciations d'instruments de capitaux propres classés parmi les actifs disponibles à la vente qui sont recyclées dans le résultat ne sont jamais reprises.

Les actifs financiers disponibles à la vente figurent dans l'actif non courant, à moins qu'il soit prévu de les céder dans les 12 mois qui suivent l'établissement du bilan combiné.

Prêts et créances

Les prêts et créances sont initialement comptabilisés à la juste valeur augmentée des frais de transaction directement imputables à l'acquisition. Après la comptabilisation initiale, ils sont évalués au coût amorti en utilisant la méthode du taux d'intérêt effectif.

Cette catégorie est principalement composée des créances clients.

En présence d'indices objectifs d'une dépréciation, celle-ci est calculée et correspond à l'écart entre la valeur comptable des actifs financiers et leur valeur nette de réalisation et la différence est comptabilisée en résultat. Les dépréciations peuvent être reprises en cas de hausse ultérieure de la valeur nette de réalisation de l'actif.

Actifs financiers détenus jusqu'à l'échéance

Les actifs financiers détenus jusqu'à l'échéance présentent des paiements fixes ou déterminables et une échéance fixe et le Groupe Combiné a l'intention et la capacité de les conserver jusqu'à échéance. Ils sont évalués au coût amorti en utilisant la méthode du taux d'intérêt effectif.

On apprécie s'il existe un indice quelconque montrant qu'un actif a subi une dépréciation.

Aucun actif financier n'est classé dans cette catégorie.

Actifs financiers comptabilisés à la juste valeur par résultat

Ces actifs financiers sont évalués à leur juste valeur et les variations sont comptabilisées au compte de résultat.

Cette catégorie est essentiellement composée des éléments suivants :
- actifs détenus à des fins de transaction qui seront vendus dans un futur proche (principalement des titres négociables) ;
- actifs volontairement classés dans cette catégorie dès l'origine ;
- instruments dérivés actifs.

2.16 Stocks

Les stocks, principalement composés de décodeurs et de matériel technique, sont valorisés à leur coût d'acquisition ou à leur valeur nette de réalisation, si celle-ci est inférieure. Le coût d'acquisition est calculé selon la méthode du coût moyen pondéré. Il comprend les frais d'acquisition des matériels.

La valeur nette de réalisation correspond au prix de vente estimé dans un contexte d'activité normale, après déduction des coûts nécessaires à la réalisation de la vente.

2.17 Trésorerie et équivalents de trésorerie

La trésorerie correspond aux espèces détenues sur des comptes bancaires et sous forme de dépôts.

Les équivalents de trésorerie sont constitués de placements très liquides dont la valeur est peu susceptible de changer et dont l'échéance initiale se situe généralement à moins de trois mois de la date d'achat.

2.18 Passifs financiers

Les passifs financiers autres que les instruments dérivés comprennent les emprunts dans le cadre de la dette senior du *Senior Facility Agreement*, les dettes liées aux contrats de location-financement, les dépôts de garantie, les avances reçues et les découverts bancaires.

Ils sont évalués au coût amorti en utilisant la méthode du taux d'intérêt effectif, conformément à IAS 39. Le taux d'intérêt effectif correspond au taux de rendement interne utilisé pour l'actualisation exacte des flux de trésorerie futurs pendant la durée du passif financier. Les commissions et les frais liés à l'émission d'obligations sont inclus dans le calcul du taux d'intérêt effectif tout au long de la durée de vie attendue de l'instrument. Les intérêts cumulés figurent au poste passifs financiers courants dans le bilan combiné.

2.19 Instruments dérivés

Les instruments dérivés sont initialement comptabilisés à la juste valeur à la date où le contrat correspondant est conclu, puis réévalués à la juste valeur.

Des swaps de taux d'intérêt et des caps permettent de gérer l'exposition aux taux d'intérêt. L'objectif est de convertir des instruments financiers à taux d'intérêt variable en instruments à taux fixe. Ces contrats ne sont pas éligibles à la comptabilité de couverture telle que définie par IAS 39, car il n'existe aucune appellation ou documentation sur une quelconque relation de couverture lorsqu'ils sont conclus. Les variations de la juste valeur de ces instruments dérivés sont comptabilisées immédiatement en résultat parmi les produits ou les charges financières.

2.20 Avantages du personnel, provisions et passifs éventuels

Des provisions sont constituées lorsque le Groupe Combiné a une obligation légale (en vertu de la législation, de la réglementation ou d'un contrat) ou implicite résultant d'événements passés, et qu'il est probable qu'une sortie de ressources générant des avantages économiques sera nécessaire pour répondre à l'obligation (dont le montant peut être estimé de manière fiable). Les provisions sont réévaluées à la fin de chaque période comptable et font l'objet d'une régularisation afin de correspondre à la meilleure estimation.

Un passif éventuel est une obligation potentielle résultant d'événements passés et dont l'existence ne sera confirmée que par la survenance (ou non) d'un ou plusieurs événements futurs incertains qui ne sont pas totalement sous le contrôle de l'entité ou une obligation actuelle résultant d'événements passés, mais qui n'est pas comptabilisée, car il n'est pas probable qu'une sortie de ressources représentatives d'avantages économiques sera nécessaire pour éteindre l'obligation ou car le montant de l'obligation ne peut être évalué avec une fiabilité suffisante. Le montant de l'obligation est, dans ce cas, mentionnée en annexe, mais n'est pas comptabilisé.

Avantages du personnel

Le Groupe Combiné participe à des régimes d'avantages du personnel à cotisations définies et à prestations définies. Les coûts relatifs à un régime de retraite à cotisations définies sont présentés en charges de personnel au compte de résultat combiné, et comptabilisés lorsqu'il sont supportés.

Les obligations du Groupe Combiné relatives aux indemnités de départ à la retraite et aux prestations de fin de contrat sont estimées annuellement, conformément aux dispositions de l'IAS 19 *Avantages du personnel* (« **IAS 19** ») avec l'aide d'actuaires indépendants, en utilisant la méthode des unités de crédit projetées et en tenant compte des hypothèses actuarielles, notamment la rotation probable des bénéficiaires, les hausses de salaire, l'espérance de vie prévue et la durée d'emploi probable des salariés, et d'un taux d'actualisation adéquat mis à jour annuellement.

Les résultats actuariels découlant des variations des hypothèses actuarielles sont comptabilisés au compte de résultat combiné.

Litiges

Le montant des provisions pour litiges se fonde sur l'évaluation du niveau de risque et du bien-fondé des demandes.

Restructuration

Les provisions relatives aux coûts de restructuration sont comptabilisées lorsque la version finale du plan de restructuration est approuvée par la Direction et lorsque le Groupe Combiné a créé, chez les personnes concernées, une attente fondée qu'il mettra en œuvre la restructuration, soit en commençant à exécuter le plan, soit en leur annonçant ses principales caractéristiques. Ces provisions ne comprennent que les charges directement liées à la restructuration, notamment les indemnités de licenciement, les coûts des départs en préretraite, les coûts des préavis non effectués et les autres coûts directement liés à la fermeture des installations.

2.21 Coûts d'emprunt

Les coûts d'emprunt liés à l'acquisition, à la construction ou à la production d'actifs éligibles sont comptabilisés comme faisant partie du coût de l'actif en question. Il est précisé que le délai de mise en service est relativement court en raison du déploiement progressif du réseau. L'application de la norme IAS 23 *Coûts d'emprunt* n'a donc pas d'impact sur les Comptes Combinés.

3 Principes comptables significatifs et principales sources d'incertitude relatives aux estimations

L'établissement des Comptes Combinés préparés conformément aux normes comptables internationales IFRS implique que le Groupe procède à un certain nombre d'estimations et retienne certaines hypothèses, jugées réalistes et raisonnables.

Ainsi, l'application de principes comptables pour la préparation des Comptes Combinés décrits dans la note 2 implique des décisions, des estimations et des hypothèses qui ont une influence sur les montants des actifs et des passifs, mais aussi des produits et des charges.

Ces estimations sont préparées sur la base du principe de continuité d'exploitation, d'après les informations disponibles, en tenant compte de l'environnement économique du moment. Dans le contexte économique actuel, certains faits et circonstances pourraient donc conduire à des changements de ces estimations ou hypothèses, ce qui affecterait la situation financière, le compte de résultat et les flux de trésorerie du Groupe Combiné.

La valorisation de certains actifs et passifs lors de la préparation de ces Comptes Combinés se fonde notamment sur certaines hypothèses, en particulier pour les éléments suivants :

- Comptabilisation du chiffre d'affaires : comme indiqué dans la note 2.3, le chiffre d'affaires est comptabilisé à la juste valeur de la contrepartie reçue ou à recevoir lorsque des risques et avantages significatifs liés à la propriété d'un produit ont été transférés à l'acheteur ou lorsque la prestation de service a été rendue. En ce qui concerne les contrats avec des particuliers qui incluent des frais d'installation, de raccordement au réseau et de configuration, l'appréciation des critères de comptabilisation d'IAS 18 nécessite d'avoir recours au jugement notamment pour déterminer si l'installation, la configuration et le raccordement au réseau constituent un service à comptabiliser de manière séparée. En ce qui concerne les frais d'accès au service pour les clients professionnels, la durée de vie statistique du client est estimée et le produit est généralement comptabilisé linéairement pendant la durée d'engagement contractuel, qui est calculé d'après des données statistiques historiques dès l'entrée en vigueur du contrat. En fonction des décisions prises et des estimations, le rythme et les montants des produits comptabilisés pourraient différer sensiblement.

- Capitalisation des coûts de développement : les critères de capitalisation des coûts de développement sont exposés dans la note 2.11. Une fois capitalisés, ils sont ensuite amortis sur la durée d'utilité estimée des produits concernés (généralement 3 ans). Le Groupe Combiné doit donc évaluer la faisabilité commerciale et technique des programmes de développement et estimer la durée d'utilité des actifs ainsi conçus. Si ces hypothèses sont ensuite invalidées, il est parfois nécessaire de déprécier ou décomptabiliser certains des coûts de développement capitalisés et incorporés au coût de l'actif. La note 13 présente le montant des coûts capitalisés et incorporés au coût de l'actif dans le bilan combiné.

- Juste valeur des instruments financiers (voir la note 27.3) : la juste valeur est calculée d'après le cours publié à la clôture de la période. Lorsqu'il n'existe aucune cotation sur un marché actif (par exemple, pour les swaps de taux d'intérêt utilisés actuellement afin de couvrir le risque de taux d'intérêt), la juste valeur est calculée selon des modèles reposant sur des données observables des marchés ou différentes techniques d'évaluation, telles que la valeur actuelle des flux de trésorerie futurs.
- Comptabilisation des actifs d'impôt différé sur déficits reportables (voir les notes 2.8 et 11) : les actifs d'impôt différé concernent principalement des déficits fiscaux reportables non réalisés et des différences temporelles déductibles entre les valeurs comptabilisées et les bases fiscales des actifs et des passifs. Les actifs relatifs aux reports de pertes fiscales sont comptabilisés s'il est probable que le Groupe Combiné enregistre ultérieurement des bénéfices imposables sur lequel ces déficits fiscaux pourront être imputés. Un examen approfondi est nécessaire pour évaluer la capacité du Groupe Combiné à utiliser les déficits fiscaux reportables. Les événements passés, ainsi que les éléments positifs et négatifs de certains facteurs économiques qui peuvent peser sur l'activité du Groupe Combiné dans un avenir proche sont analysés afin de calculer la probabilité d'utilisation future des déficits fiscaux reportables. Aux 31 décembre 2012, 2011 et 2010, les pertes importantes cumulées au cours des derniers exercices ont amené la Direction à considérer qu'il était peu probable qu'il y ait un bénéfice imposable futur sur lequel imputer les déficits fiscaux reportables non utilisés. L'application de ce principe a conduit à l'absence de comptabilisation d'un actif d'impôt différé aux 31 décembre 2012, 2011 et 2010.
- Tests de dépréciation (voir les notes 2.10 et 15) : le calcul des valeurs recouvrables des unités génératrices de trésorerie lors du test de dépréciation annuel implique d'estimer leur juste valeur après déduction des coûts de vente et leur valeur d'utilité. Pour évaluer la valeur d'utilité, la Direction s'appuie sur des hypothèses relatives aux flux de trésorerie de l'exploitation des unités génératrices de trésorerie, ainsi que les taux d'actualisation.

  Le calcul de la valeur d'utilité se fonde sur des hypothèses telles que le taux d'actualisation et le taux de croissance à l'infini au-delà de la période de projection. Ces hypothèses peuvent évoluer et se traduire par une baisse de la valeur comptable en-deçà de la valeur recouvrable, ce qui entraînerait la constatation d'une dépréciation.

  Au 31 décembre 2012, 2011 et 2010, les hypothèses utilisées pour calculer la valeur d'utilité des unités génératrices de trésorerie auxquelles l'écart d'acquisition a été affecté étaient les suivantes :

CGU « Opérations B2C »	**2012**	**2011**	**2010**
Durée de la période de projection	8 ans	8 ans	8 ans
Taux d'actualisation	7,56%	8,18%	8,02%
Taux de croissance hors période de projection pour la valeur finale	1,75%	1,75%	1,50%

CGU « Opérations B2B » et « Wholesale»	**2012**	**2011**	**2010**
Durée de la période de projection	6 ans	6 ans	6 ans
Taux d'actualisation	9,42%	10,25%	9,77%
Taux de croissance à l'infini hors période de projection pour la valeur finale	1,00%	1,00%	1,00%

Le calcul de la valeur d'utilité repose sur des projections des flux de trésorerie d'après les budgets financiers approuvés par la Direction pour des périodes respectives de 6 et 8 ans. La période de projection relativement longue pour l'estimation des flux de trésorerie futurs est justifiée par la relation contractuelle de longue durée avec les clients. Les projections relatives au nombre d'abonnés, au chiffre d'affaires, aux coûts et aux investissements sont fondées sur des hypothèses raisonnables et acceptables déterminées par la Direction. Les hypothèses principales comprennent les prévisions de nombre d'abonnés et le niveau d'investissement d'amélioration des infrastructures de réseaux. Les projections sont fondées aussi bien sur l'expérience passée que sur le taux de pénétration anticipé pour les différents produits.

4 Evénements significatifs de la période

4.1 Exercice clos le 31 décembre 2012

4.1.1 Emissions obligataires

En 2012, Ypso France SAS a procédé à plusieurs émissions obligataires afin de refinancer une partie de sa dette financière existante.

En février 2012, Ypso France SAS a émis des obligations à hauteur de 360 millions d'euros. L'émetteur était Numericable Finance & Co. S.C.A. (société de titrisation non réglementée constituée sous forme de société en commandite par actions de droit luxembourgeois). Les produits de cette émission ont permis à Numericable Finance & Co. de financer le rachat de l'intégralité de la part de la banque prêteuse (JP Morgan) dans un prêt (le prêt « C-One ») dont le seul prêteur était la banque elle-même dans le cadre du Senior Facility Agreement, au profit d'Ypso France SAS, qui a ainsi été en mesure de rembourser certains prêts du Senior Facility Agreement à hauteur de 350 millions d'euros.

L'échéance des obligations se situe le 15 février 2019 et elles portent intérêt à 12,375%. Les coupons sont payés semestriellement le 15 février et le 15 août de chaque année.

En février 2012, Ypso France SAS a également obtenu une nouvelle ligne de crédit revolving (dénommée *Revolving Credit Facility*) dans le cadre de du *Senior Facility Agreement*; elle met à disposition du groupe Ypso un montant maximum de 65 millions d'euros. Son échéance se situe en mars 2016. La part utilisée de cette ligne porte intérêt au taux Euribor plus une marge de 4,5%. La part non utilisée, soit 65 millions d'euros (au 31 décembre 2012), porte un intérêt égal à une commission d'engagement de 2,25%.

Aux termes de la modification et du retraitement du *Senior Facility Agreement* de septembre 2011, l'échéance des engagements de certains prêteurs a été reportée de deux ans (soit 50% de la tranche A et des Capex Facilities et 2/3 des tranches B et C). En outre, le niveau de marge pour les tranches ayant fait l'objet de la prorogation a été modifié et de nouveaux « covenants » financiers ont été mis en place. Le *Senior Facility Amendment and Restatement* de septembre 2011 est entré en vigueur le 15 février 2012.

En octobre 2012, Ypso France SAS a procédé à deux autres émissions obligataires de 225 et 275 millions d'euros respectivement par le biais du même émetteur, Numericable Finance & Co. Les produits de cette émission ont permis à Numericable Finance & Co. de financer le rachat de l'intégralité de la part de la banque prêteuse (JP Morgan) dans deux nouveaux prêts (le prêt « C-Two A » et le prêt « C-Two B ») dont le seul prêteur était la banque prêteuse elle-même dans le cadre du *Senior Facility Agreement*, au profit de Ypso France SAS, qui a ainsi été en mesure de rembourser certains prêts de la Dette Senior à hauteur de 490 millions d'euros.

Le prêt « C-Two A » porte sur un montant de 225 millions d'euros. Son échéance se situe le 15 février 2019 et il porte un intérêt annuel de 8,75%. Les coupons sont payés semestriellement le 15 février et le 15 août de chaque année, à partir du 15 février 2013.

Le prêt « C-Two B » porte sur un montant de 275 millions d'euros. Son échéance se situe en octobre 2018 et il porte un intérêt variable égal au taux Euribor plus 7,85% par an. Les coupons sont payés trimestriellement le 15 janvier, le 15 avril, le 15 juillet et le 15 octobre de chaque année, à partir du 15 janvier 2013.

Ypso France SAS a payé 55 millions d'euros de frais pour la mise en place de ces prêts (C-One, C-Two A et C-Two B) et des modifications correspondantes du *Senior Facility Agreement*. Ce montant comprend :

- les coûts des émissions obligataires d'un montant de 30,2 millions d'euros qui sont amortis sur la durée des obligations en utilisant la méthode du taux d'intérêt effectif (soit un coût de financement supplémentaire de 3,8 millions d'euros en 2012, comme indiqué la note 10) ;

- les pénalités d'abandon de crédit (*waiver fees*) pour un montant de 17,4 millions d'euros enregistrées au poste « Autres charges financières » du compte de résultat combiné pour la période close le 31 décembre 2012 ;
- les commissions et honoraires de conseil pour un montant de 7,4 millions d'euros enregistrées au poste « Autres charges financières » du compte de résultat combiné pour la période close le 31 décembre 2012.

4.1.2 Rachat du réseau de Nice

En avril 2012, le Groupe Combiné a signé un accord avec la municipalité de Nice en vue du rachat du réseau câblé de la ville pour une valeur de 20 millions d'euros.

Le paiement du prix d'achat est effectué comme suit :

- 2,5 millions d'euros en juillet 2012 et 2,5 millions d'euros en janvier 2013 ;
- le solde de 15 millions d'euros est payable sur 20 ans (0,75 million d'euros chaque année de 2013 à 2032) avec un intérêt annuel de 4%.

4.1.3 Contrôles fiscaux

Au cours du troisième trimestre 2012, les contrôles fiscaux mentionnés à la note 11.5 ont été étendus à l'exercice 2010. Les redressements relatifs aux exercices 2005 à 2009 ont été réduites.

Au 31 décembre 2012, le montant de la provision comptabilisée en rapport avec ces contrôles fiscaux n'a pas été réévalué car le risque financier lié aux redressements pour l'exercice 2010 sera probablement équivalent aux réductions consenties par l'administration pour les redressements portant sur les exercices 2005 à 2009.

4.2 Exercice clos le 31 décembre 2011

4.2.1 Cession de Coditel Belgium et de Coditel Luxembourg

En 2010, le processus de cession des filiales Coditel Belgium et Coditel Luxembourg a été initié par la Direction. Le 19 mai 2011, le Groupe Combiné a conclu un accord de cession des actions de ces filiales avec Altice, l'un de ses actionnaires, Deficom et Apax Partners, des parties non liées afin de céder ses activités en Belgique et en Luxembourg. Toutes les actions restantes de Coditel Belgium et Coditel Luxembourg ont été transférées le 30 juin 2011 à Coditel Holding S.A., entité située au Luxembourg et détenue par Altice, Deficom et Apax MidMarket. Les produits de la vente de Coditel s'élèvent à environ 369 millions d'euros.

Conformément à la norme IFRS 5, cette cession a été traduite comme suit dans les Comptes Combinés :

- Les résultats de Coditel Belgium et de Coditel Luxembourg sont présentés séparément au compte de résultat combiné en « Résultat net des activités en cours de cession » pour les exercices 2010 et 2011 ;
- les flux de trésorerie de Coditel Belgium et de Coditel Luxembourg sont présentés séparément au tableau des flux de trésorerie combiné en « Flux de trésorerie des activités cédées ou en cours de cession » pour 2010 et de 2011.

Les effets de l'application de la norme IFRS 5 sont détaillés dans la note 30.

4.2.2 Restructuration

En 2011, la fusion entre Altitude Telecom et Completel SAS a débouché sur un plan de restructuration qui concernait environ 135 personnes.

Les coûts de ce plan s'élevaient à 4 millions d'euros en 2011 et une provision de 4 millions d'euros a été enregistrée au 31 décembre 2011 afin de faire face à toutes les charges prévues pour 2012.

4.3 Exercice clos le 31 décembre 2010

4.3.1 Acquisition d'Altitude Telecom

Le 29 décembre 2010, le Groupe Combiné a acquis toutes les actions d'Altitude Telecom, opérateur de réseau présent principalement dans l'ouest de la France. Le rachat, qui portait sur un montant d'environ 58 millions d'euros, a été principalement financé par un nouvel emprunt dans le cadre du *Senior Facility Agreement*, la « tranche C », pour un montant de 45 millions d'euros.

Cette opération s'est traduite par un écart d'acquisition de 49 millions d'euros en 2010.

4.3.2 Contrôles fiscaux

Comme expliqué dans la note 11.5, des filiales du Groupe Combiné (Ypso France SAS, NC Numericable SAS, Numericable SAS, Est Videocommunication et Completel SAS) ont fait l'objet de contrôles par l'administration fiscale française. En 2010, ces contrôles fiscaux ont été étendus aux exercices situés entre le 31 décembre 2007 et le 31 décembre 2009.

5 Informations sectorielles

Comme expliqué dans la note 2.7, le Groupe Combiné a recensé trois secteurs opérationnels :
- Activités B2B
- Activités B2C
- Wholesale

Les tableaux suivants présentent, pour chaque période, la contribution de chaque secteur aux postes du compte de résultat combiné (de la rubrique Chiffre d'affaires jusqu'à la rubrique Résultat d'exploitation avant amortissements et dépréciations).

Les ventes intrasectorielles ont été éliminées sous la colonne « Eliminations ».

Exercice 2012 (en milliers d'euros)	**B2C**	**B2B**	**Wholesale**	**Eliminations**	**Total 2012**

6 Chiffre d'affaires

Le chiffre d'affaires par nature se décompose de la manière suivante :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Chiffres d'affaires B2C	826 171	830 299	832 566
Chiffres d'affaires B2B	323 201	328 235	252 573
Chiffre d'affaires Wholesale	153 053	148 323	123 556
Chiffre d'affaires total	**1 302 425**	**1 306 856**	**1 208 695**

7 Achats externes

Les achats externes se composent pour l'essentiel des éléments suivants :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Coûts du contenu télévisuel, de l'Internet et de la téléphonie	(332 853)	(345 603)	(324 751)
Sous-traitance et achats de services	(90 752)	(91 908)	(70 129)
Marketing	(30 120)	(30 993)	(22 197)
Honoraires	(31 936)	(31 962)	(31 619)
Redevances et licences versées	(12 089)	(12 810)	(14 031)
Droits de passage versés	(15 316)	(15 983)	(14 241)
Loyers et charges locatives	(25 790)	(26 224)	(20 900)
Energie	(23 938)	(22 789)	(19 868)
Créances douteuses	(9 173)	(10 048)	(9 993)
Frais postaux	(4 378)	(4 676)	(5 158)
Frais de transport	(4 286)	(4 643)	(3 155)
Frais de réparation et de maintenance	(11 911)	(13 321)	(10 577)
Charges opérationnelles diverses	(9 579)	(10 736)	(11 184)
Achats externes	**(602 121)**	**(621 696)**	**(557 803)**

8 Autres produits opérationnels

Les autres produits opérationnels se composent pour l'essentiel des éléments suivants :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Production immobilisée [a]	82 217	64 002	52 537
Produits de cessions d'actifs	3 817	5 042	8 142
Autres [b]	3 195	11 368	3 645
Autres produits opérationnels	**89 229**	**80 412**	**64 324**

(a) La production immobilisée concerne des travaux sur le réseau effectués par des employés du Groupe Combiné en vue de l'accroissement des activités de modernisation du réseau câblé.

(b) En 2011, ce poste incluait une amende de 10 millions d'euros payée par France Télécom. En mars 2011, le Tribunal de Paris a condamné France Télécom en raison d'entraves à la concurrence sur le marché de l'ADSL en 2001 et 2002.

9 Autres charges opérationnelles

Les autres charges opérationnelles se composent pour l'essentiel des éléments suivants :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Valeur nette comptable des actifs cédés	(7 382)	(10 003)	(11 500)
Honoraires payées dans le cadre des opérations de refinancement	(7 372)	(3 526)	(1 050)
Frais de gestion payées à nos actionnaires	(2 424)	(11 509)	(14 651)
Charges opérationnelles diverses	-	(39)	(133)
Autres charges opérationnelles	**(17 178)**	**(25 077)**	**(27 334)**

Des frais de gestion ont été payés à nos actionnaires Altice, Cinven et Carlyle en échange de la prestation de certains services de gestion, de financement et de conseil.

10 Résultat financier

Les résultats financiers aux 31 décembre 2012, 2011 et 2010 peuvent être analysés comme suit :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Produits d'intérêt reçus sur trésorerie et équivalents de trésorerie	106	479	635
Autres produits d'intérêt	4 220	729	173
Produits d'intérêt	**4 326**	**1 208**	**808**
Variation de la juste valeur des instruments dérivés	-	26 982	48 468
Charges d'intérêt sur financement, déterminées sur la base du taux d'intérêt effectif	(183 057)	(204 326)	(223 530)
Intérêts financiers relatifs à la dette financière brute	**(183 057)**	**(177 343)**	**(175 062)**
Autres charges financières	(32 699)	(9 883)	(4 162)
Résultat financier	**(211 430)**	**(186 019)**	**(178 416)**

Au 31 décembre 2012, les autres charges financières peuvent être ventilées comme suit :

- Waiwer Fee relatifs au refinancement de la dette de 17,4 millions d'euros ;
- amortissement des frais payés pour la mise en place des nouveaux prêts (C-One, C-Two A et C-Two B) à hauteur de 3,8 millions d'euros évalués selon la méthode du taux d'intérêt effectif ;
- provisions pour risques financiers à hauteur de 1,9 million d'euros.

Au 31 décembre 2012, les autres produits d'intérêts incluent principalement le premier paiement de 2,8 millions d'euros reçu dans le cadre de l'indemnisation demandée après la faillite de Lehman Brothers en septembre 2008 (voir la note 27.3).

11 Impôts sur les sociétés

11.1 Charge d'impôts sur les sociétés

La charge d'impôts sur les sociétés se décompose comme suit :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Charge d'impôts courants	(2 486)	(13 387)	(3 841)
Charge d'impôts différés	-	-	-
Charge d'impôts	**(2 486)**	**(13 387)**	**(3 841)**

11.2 Réconciliation entre le taux effectif d'impôt et le taux théorique d'impôt

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Résultat net avant impôt	87 416	82 385	30 401
A déduire : Résultat des sociétés mises en équivalence	199	309	(368)
	87 615	82 694	30 033
Taux d'impôt sur les sociétés en France	34,43%	34,43%	34,43%
Charge d' impôts calculée au taux de 34,43%	**(30 166)**	**(28 471)**	**(10 340)**
Réconciliation des charges d'impôts			
Effet des revenus exonérés d'impôt et effet des dépenses non déductibles sur le bénéfice avant impôt (1)	(13 830)	(8 696)	24 724
Effet des déficits fiscaux non reconnus comme impôt différé actif	41 083	23 731	(18 438)
Crédit d'impôt recherche (ou « CIR »)	420	54	322
Effet des autres différences	8	(3)	(107)
Charges d' impôts comptabilisées en résultat	**(2 486)**	**(13 387)**	**(3 840)**
Taux effectif d'impôt(2)	2,84%	16,19%	12,79%

Le taux d'imposition de référence pour les rapprochements de 2012, 2011 et 2010 ci-dessus est le taux d'impôt sur les sociétés de 34,43 % payable par les entreprises en France sur les bénéfices imposables en vertu du code des impôts en vigueur.

(1) Concernant le 31 décembre 2012, il correspond principalement aux charges d'intérêts non déductibles selon les règles de capitalisation restreinte (9,9 millions d'euros).

(2) La réduction du taux effectif d'impôt entre 2011 et 2012 s'explique principalement par le fait que l'augmentation de la provision liée aux contrôles fiscaux (voir la note 11.5) en 2011 a été enregistrée en impôt sur les sociétés (10 millions d'euros).

11.3 Actifs et passifs d'impôt courants

Les actifs d'impôt exigibles aux 31 décembre 2012, 2011 et 2010 n'étaient pas significatifs.

L'impôt sur les sociétés exigible, qui figure au poste « Passifs d'impôt courants », s'élève respectivement pour les exercices clos les 31 décembre 2012, 2011 et 2010 à 2 604 milliers d'euros, 3 448 milliers d'euros et 194 milliers d'euros.

11.4 Impôts différés actifs non reconnus

Au 31 décembre 2012, les déficits fiscaux reportables cumulés s'élevaient à 2 302 millions d'euros, ce qui représentait un actif d'impôt de 790 millions d'euros. L'actif d'impôt correspondant aux déficits fiscaux reportables n'a pas été comptabilisé dans les Comptes Combinés, car sa récupération dépend des bénéfices futurs qui sont incertains.

Le total des déficits fiscaux reportables peut être ventilé comme suit :

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Ypso France et ses filiales	1 852 028	1 846 090	1 819 782
Altice B2B France et ses filiales	402 544	448 713	492 449
Ypso Holding Lux et Altice B2B Lux	47 785	235 890	235 328
Total des déficits fiscaux reportablesire	**2 302 357**	**2 530 693**	**2 547 559**
Impôt différé actif non reconnu	**790 212**	**859 028**	**864 864**

Il inclut des pertes contestées par l'administration fiscale (56 millions d'euros au 31 décembre 2012).

11.5 Contrôles fiscaux

Certaines filiales du Groupe Combiné, Ypso France SAS, NC Numericable SAS, Numericable SAS, Est Videocommunication et Completel SAS font l'objet d'un contrôle fiscal par l'administration fiscale française pour les exercices clos du 31 décembre 2007 au 31 décembre 2010. Par conséquent, une provision pour risque fiscal d'un montant de 25,1 millions d'euros est comptabilisé au 31 décembre 2012 (27,0 millions d'euros au 31 décembre 2011 et 15,7 millions d'euros au 31 décembre 2010).

12 Ecarts d'acquisition

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Montant comptabilisé, net			
Solde au début de l'exercice	1 458 638	1 458 585	1 618 485
Ecarts d'acquisition reconnus au cours de la période (1)	48	53	50 295
Cession de Coditel	-	-	(210 195)
Solde à la clôture de l'exercice (2)	**1 458 686**	**1 458 638**	**1 458 585**

(1) En 2010, l'écart d'acquisition supplémentaire de 50,3 millions d'euros s'explique principalement par l'acquisition d'Altitude Telecom (comme indiqué dans la note « Evénements significatifs ») pour un montant de 49,4 millions d'euros.

En janvier 2012, le groupe a acquis les actions de Sequalum Participation détenues par Eiffage (15,78%). Suite à cette opération, le groupe détient 95% du capital de Sequalum Participation. Le prix d'achat était de 6 mille euros pour une quote part de capitaux acquise négative de 41 mille euros. Cette opération a engendré la comptabilisation d'un écart d'acquisition supplémentaire de 48 mille euros en 2012.

Le Groupe Combiné est le résultat d'une série d'acquisitions. Ainsi, au 31 décembre 2012, l'écart d'acquisition peut être ventilé comme suit :

Valeur nette comptable (en milliers d'euros)	
Activités B2C	984 583
Activités B2B	474 103
Total	**1 458 686**

La rubrique « Droits d'usage, brevets et licences » est principalement constitutée de droits d'usage. Ceux-ci correspondent principalement aux droits d'utilisation de l'infrastructure et des installations de génie civil construites par l'opérateur historique France Telecom.

(*) Comme expliqué dans la note 2.11, le Groupe Combiné a appliqué l'interprétation de la norme IFRIC 12 en 2012 en ce qui concerne le contrat de délégation du service public signé avec le département des Hauts-de-Seine (Délégation de Service Public 92).

L'application de cette interprétation a eu les incidences suivantes sur le bilan combiné:

- Reclasement de la valeur nette comptable à fin 2011 en « Autres Immobilisations incorporelles » pour 17,2 millions d'euros (26,6 millions d'euros d'investissements moins 9,5 millions d'euros de subventions reçues au 31 décembre 2011)
- Comptabilisation de 26,4 millions d'euros d'investissements en 2012 dans la rubrique « Droits d'usage, brevets et licences » (38,0 millions d'euros d'investissements moins 11,5 millions d'euros de subventions reçues en 2012)

Ces investissement d'un montant de 26,4 millions d'euros au titre de 2012 réalisés dans le cadre du contrat de délégation du service public signé avec le département des Hauts-de-Seine (Délégation de Service Public 92) sont classés parmi les activités d'investissement dans le tableau des flux de trésorerie combiné.

Autres	160	108	200
	39 689	**34 213**	**27 604**

15 Tests de dépréciation

15.1 Allocation de l'écart d'acquisition entre les unités génératrices de trésorerie (« UGT »)

Conformément à la norme IAS 36 *Dépréciations d'actifs* (« **IAS 36** »), l'écart d'acquisition a été réparti entre deux UGT. La première, « Activités B2C », comprend les filiales opérationnelles de la société Ypso, à savoir Numericable, NC Numericable et Est Videocommunication. La seconde, « Activités B2B », correspond à la principale entité opérationnelle de la société Altice, à savoir Completel SAS.

15.2 Principales hypothèses retenues pour déterminer la valeur recouvrable des UGT

Le test de dépréciation de l'écart d'acquisition a été réalisé sur la base des unités génératrices de trésorerie définies ci-dessus. Conformément à la norme IAS 36 relative à la dépréciation des actifs, le test de dépréciation est réalisé en comparant la valeur comptable et la valeur recouvrable. La valeur recouvrable est déterminée à partir de la valeur d'utilité calculée selon la méthode des flux de trésorerie actualisés.

La valeur d'utilité est déterminée en utilisant des projections de trésorerie fondées sur des budgets financiers validés par la Direction et portant sur des périodes respesctives de 8 ans pour l'UGT B2C et de 6 ans pour l'UGT B2B. La période de projection relativement longue pour l'estimation des flux de trésorerie futurs est justifiée par la relation contractuelle de longue durée avec les clients.

Les projections en matière de nombre d'abonnés, de chiffre d'affaires, de coûts et d'investissements sont fondées sur des hypothèses raisonnables et correspondent aux meilleures estimations de la direction. Les principales hypothèses sont relatives aux nombre d'abonnés et au niveau de dépenses d'amélioration des infrastructures du réseau. Les projections sont fondées aussi bien sur l'expérience passée que sur le taux de pénétration anticipé pour les différents produits.

Comme indiqué dans la note 3, l'établissement de la valeur d'utilité dépend d'hypothèses en matière de taux d'actualisation et de taux de croissance à l'infini. Ces hypothèses peuvent évoluer, ce qui pourrait se traduire par une baisse de la valeur recouvrable en-deçà de la valeur comptable, ce qui entraînerait la constatation d'une dépréciation.

Aucune dépréciation n'a été constatée au 31 décembre 2012, 2011 et 2010.

La valeur d'utilité est déterminée à partir des estimations suivantes aux 31 décembre 2012, 2011 et 2010 :

CGU « Opérations B2C »	**2012**	**2011**	**2010**
Durée de la période de projection	8 ans	8 ans	8 ans
Taux d'actualisation appliqué aux projections des flux de trésorerie	7,56%	8,18%	8,02%
Taux de croissance à l'infini (« GTP ») utilisé pour le calcul de la valeur terminale	1,75%	1,75%	1,50%

En termes de sensibilité des montants recouvrables, une variation à la hausse ou à la baisse de 0,25% du taux d'actualisation se traduirait par une diminution / augmentation de la valeur recouvrable d'environ 145 millions d'euros. De même, une variation à la hausse ou à la baisse de 0,25% du taux de croissance à l'infini se traduirait par une augmentation / diminution de la valeur recouvrable d'environ 100 millions d'euros.

Au 31 décembre 2012, la valeur recouvrable serait égale à la valeur comptable si les principales hypothèses évoluaient comme suit :

- augmentation du taux d'actualisation de 7,56% à 10,60%;
- diminution du taux de croissance à l'infini de 1,75% à -3,62% ;
- Baisse de la marge brute de 10,1%, de 49,4% en moyenne à 39,3% en moyenne.

CGU « Opérations B2B »	**2012**	**2011**	**2010**
Durée de la période de projection	6 ans	6 ans	6 ans
Taux d'actualisation appliqué aux projections des flux de trésorerie	9,42%	10,25%	9,77%
Taux de croissance à l'infini (« GTP ») utiliés pour le calcul de la valeur terminale	1,00%	1,00%	1,00%

En termes de sensibilité des montants recouvrables, une variation à la hausse ou à la baisse de 0,25% du taux d'actualisation se traduirait par une dimunution / augmentation de la valeur recouvrable d'environ 60 millions d'euros. De même, une variation à la hausse ou à la baisse de 0,25% du taux de croissance à l'infini se traduirait par une augmentation / une diminution de la valeur recouvrable d'environ 40 millions d'euros.

Au 31 décembre 2012, la valeur recouvrable serait égale à la valeur comptable si les hypothèses principales évoluaient comme suit:

- augmentation du taux d'actualisation de 9,42% à 18,75%;
- diminution du taux de croissance à l'infini de 1% à -26,25% ;
- baisse de la marge brute de 38,9% en moyenne à 24,4% en moyenne.

16 Titres mis en équivalence

Le Groupe Combiné exerce une influence notable sur Alsace Connexia Participation, une filiale intégrée selon la méthode de la mise en équivalence. Alsace Connexia Participation était à l'origine détenue à 38,14% par Ypso France, à 38,15% par LD Collectivités et à 23,71% par Sogetrel Réseaux. En 2009, LD Collectivités a acquis la participation de Sogetrel Réseaux, et détient désormais une participation majoritaire (61,86%) dans Alsace Connexia Participation.

Alsace Connexia Participation possède une participation de 70% dans Alsace Connexia. Cette dernière est titulaire d'un contrat de délégation de service public qui lui a été attribué par la Région Alsace, pour la conception, la réalisation, le financement, l'exploitation et la commercialisation d'une infrastructure de télécommunications sur la région pour une période de 15 ans. Le contrat de concession est entré en vigueur le 3 février 2005.

Le tableau ci-après détaille les actifs nets et les résultats opérationnels d'Alsace Connexia Participation :

(en milliers d'euros)	31 décembre 2012	31 décembre 2011	31 décembre 2010
Actif net	8 888	9 413	10 227
Quote-part de l'actif net	3 378	3 577	3 886

(en milliers d'euros)	2012	2011	2010
Chiffre d'affaires (Alsace Connexia)	13 050	12 027	12 674
Résultat net	(524)	(815)	968
Quote-part de résultat	(199)	(310)	368

17 Autres actifs financiers courants et non courants

(en milliers d'euros)	Courants			Non courants		
	31 décembre 2012	**31 décembre 2011**	**31 décembre 2010**	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Instruments dérivés	-	-	-	5	313	2 380
Participations dans des entités qui ne sont pas comprises dans la combinaison	-	-	-	35	52	71
Autres actifs financiers	4 034	42	249	6 791	7 396	4 920
Total des actifs financiers	**4 034**	**42**	**249**	**6 831**	**7 761**	**7 371**

Comme indiqué dans la note 27.3, le Groupe Combiné dispose de contrats de cap de taux qui lui permettent de limiter son exposition aux taux d'intérêts mais ces instruments ne sont pas considérés comme des instruments de couverture au sens de la norme IAS 39. En conséquence, les variations de juste valeur de ces instruments dérivés sont constatées immédiatement dans le compte de résultat en résultat financier car ces instruments sont directement liés à l'application de la politique de gestion des risques de taux d'intérêt du Groupe, même s'ils ne sont considérés comme des instruments de couverture au sens de la norme IAS 39.

Ces instruments dérivés sont classés dans les actifs financiers non courants car ils ne sont pas détenus dans le but principal de les revendre, mais détenus à des fins de couverture du risque de taux.

En 2009, le Groupe Combiné a conclu des contrats de cap de taux, dont l'objectif est d'obtenir une compensation financière dans le cas où le taux d'intérêt dépasserait un seuil prédéterminé (*strike*). Ces caps de taux sont évalués à leur juste valeur et classés comme actifs financiers non courants pour un montant de 5 milliers d'euros au 31 décembre 2012 et 313 milliers d'euros au 31 décembre 2011.

Les participations dans des entités qui ne sont pas comprises dans la combinaison et classées comme actifs disponibles à la vente incluent notamment Câble Toulousain de Videocom, Médiamétrie Expansion, Rennes Cité Média et TV7 Bordeaux. Ces sociétés ne sont pas comprises dans le périmètre de combinaison car le Groupe n'a pas de contrôle ou d'influence notable sur celles-ci.

Au 31 décembre 2012, les autres actifs financiers incluent un gage de 4 millions d'euros accordé dans le cadre de la DSP 92 (voir note 2.11). Le solde correspond à des dépôts de garantie versés par le Groupe Combiné notamment dans le cadre des locations de bâtiments.

18 Stocks

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Valeur brute	46 808	40 033	35 035
Provision pour dépréciation	(1 199)	(1 035)	(1 035)
Valeur nette comptable	**45 609**	**38 998**	**33 843**

Les stocks sont principalement composés de modems et décodeurs utilisés par les clients pour la réception des programmes. Le montant des dépréciations constatées pour ramener les stocks à leur valeur recouvrable est non significatif pour les exercices 2012, 2011 et 2010.

19 Créances clients

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Créances clients	272 864	248 239	242 379
Provision pour dépréciation	(27 167)	(26 770)	(33 069)
Créances clients, nettes	**245 697**	**221 469**	**209 310**
Avances et acomptes	2 211	2 090	4 691
Comptes courants	50	50	2 075
Créances fiscales et sociales	141 806	117 961	117 358
Charges constatées d'avance	18 025	8 15S	9 019
Autres créances	9 582	13 256	14 637
Créances clients et autres créances, nettes	**417 371**	**362 981**	**357 090**

Les créances clients présentées ci-dessus sont classées sont évaluées au coût amorti. Les créances clients ayant une échéance courte, leur juste valeur et leur coût amorti sont équivalents à leur valeur nominale. Les créances clients sont principalement liées aux clients individuels (B2C), qui constituent un très grand nombre de clients répartis dans un grand nombre de zones géographiques.

Clients B2C

Le délai moyen de règlement des clients individuels est de 5 jours. Aucun intérêt de retard n'est appliqué aux créances impayées. Au 31 décembre 2012, le Groupe Combiné a provisionné les créances individuelles échues à plus de 90 jours à hauteur de 81% sur la base du taux de recouvrement historiquement observé sur ces créances qui s'élève à 19%. Les créances clients individuelles échues entre 0 et 90 jours sont également provisionnées sur la base de l'historique de recouvrement et d'une analyse de la situation financière du client.

Clients B2B

Au 31 décembre 2012, le Groupe Combiné a provisionné les créances clients B2B échues à plus de 90 jours à hauteur de 60% sur la base du taux de recouvrement historiquement observé sur ces créances qui s'élève à 40%.

Les créances clients présentées dans le tableau ci-dessus incluent des créances impayées à la clôture de l'exercice (se référer également à l'échéancier des créances clients ci-dessous), qui n'ont pas été provisionnées en l'absence de variation significative du risque de crédit et dans la mesure où les sommes sont toujours considérées comme recouvrables. Le Groupe ne dispose pas d'assurance crédit sur ces créances et ne peut légalement pas compenser ces créances avec les montants que le Groupe Combinés doit à la contrepartie.

Echéances des créances clients

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Non exigible	121 232	101 927	73 809
0-90 jours	62 825	43 983	53 739
> 90 jours	88 808	102 329	114 831
Total	**272 864**	**248 239**	**242 379**

La concentration du risque de crédit est limitée étant donné que la base de clients est vaste et disparate. Aucun client ne représente plus de 5% du total des créances clients.

La variation de la provision pour dépréciation des créances clients est comme suit:

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Solde au début de l'exercice	**(26 770)**	**(33 068)**	**(32 558)**
Dotation de l'exercice	(9 322)	-	(6 435)
Pertes sur créances irrécouvrables	8 925	4 395	3 746
Reprise de provision pour dépréciation	-	1 903	-
Créances classées dans les actifs déstinés à être cédés	-	-	2 924
Regroupements d'entreprises	-	-	(745)
Solde à la clôture de l'exercice	**(27 167)**	**(26 770)**	**(33 068)**

20 Trésorerie et équivalents de trésorerie

La trésorerie et les équivalents de trésorerie présentés dans le tableau des flux de trésorerie combiné incluent les disponibilités et dépots à court-terme. La réconciliation entre la position de trésorerie présentée dans le tableau des flux de trésorerie combiné et la trésorerie présentée dans la rubrique « Trésorerie et équivalents de trésorerie » du bilan combiné est comme suit:

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Disponibilités	7 996	40 580	30 897
Equivalents de trésorerie	-	-	-
Trésorerie et équivalents de trésorerie présentés dans le bilan combiné	**7 996**	**40 580**	**30 897**
Trésorerie des activités cédées ou en cours de cession	-	-	3 656
Découverts bancaires comptabilisés en dettes financières dans le bilan combiné	-	-	-
Trésorerie et équivalents de trésorerie présentés dans le tableau des flux de trésorerie combiné	**7 996**	**40 580**	**34 553**

Aux 31 décembre 2012, 2011 et 2010, aucun équivalent de trésorerie n'était détenu par le Groupe Combiné.

21 Capitaux propres combinés

Aux 31 décembre 2012, 2011 et 2010, et au 1er janvier 2010, les capitaux propres combinés correspondent à l'addition des capital sociaux et des réserves consolidées des deux sous-groupes Ypso et Altice B2B.

21.1 Dividendes

Le Groupe Combiné n'a pas distribué de dividendes à ses actionnaires au cours des exercices 2012, 2011 et 2010. Le Groupe Combiné ne prévoit pas de distribuer de dividendes en 2013.

21.2 Gestion du risque en matière de capital

Le Groupe Combiné gère ses ressources en capital de manière à assurer la pérennité de l'activité de ses entités opérationnelles et le meilleur rendement possible pour les actionnaires, en optimisant son endettement et ses fonds propres, notamment via des remboursements anticipés de sa dette financière. La stratégie globale du Groupe Combiné est restée inchangée de 2010 à 2012.

La structure financière du Groupe Combiné se compose de l'endettement net (passifs financiers tels que détaillés à la note 22 minorés de la trésorerie et des équivalents de trésorerie) et des fonds propres du Groupe Combiné (qui incluent les réserves ainsi que les capitaux propres attribuables aux participations ne donnant pas le contrôle tels que détaillés dans le tableau combiné de variations des capitaux propres).

22 Passifs financiers

Les passifs financiers se décomposent de la manière suivante :

(en milliers d'euros)		Courants			Non courants		
	Note	31 décembre 2012	31 décembre 2011	31 décembre 2010	31 décembre 2012	31 décembre 2011	31 décembre 2010

Compte tenu des renégociations réalisées en juillet et août 2013 et comme décrit à la note 32, l'échéancier des passifs financiers dans le cadre du *Senior Facility Agreement* a été modifié.

22.1 Passifs financiers dans le cadre du Senior Facility Agreement

Senior Facility Agreement accordé à Ypso

Le Groupe Combiné a conclu un contrat dit *Senior Facility Agreement* (« **SFA** ») en date du 6 juin 2006 (amendé le 18 juillet 2006, le 28 juillet 2006 et le 2 mars 2007, amendé par courrier daté du 24 juin 2008, amendé le 9 décembre 2009 et le 8 septembre 2011 et amendé par courrier daté du 12 janvier 2012, accepté par l'agent le 24 janvier 2012 et amendé par courrier daté du 25 septembre 2012, accepté par l'agent le 12 octobre 2012) auprès de BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch et Morgan Stanley Bank International Limited, en tant que chefs de file, BNP Paribas en tant qu'agent et *security agent* et d'autres prêteurs. Certaines filiales du Groupe Combiné se sont portées garantes dans le cadre du SFA, chacune assumant, dans certaines limites, les obligations des autres emprunteurs et garants dans le cadre du SFA.

Le montant initialement mis à disposition dans le cadre du SFA était de 3 225 millions d'euros. Au 31 décembre 2012, le solde dû s'élevait à 2 347 millions d'euros.

Des engagements financiers (*covenants*) sont attachés au SFA et pourraient avoir un impact sur les taux d'intérêt supportés par le Groupe Combiné ainsi que sur les marges applicables au SFA (voir détails ci-dessous).

Senior Facility Agreement accordé à Altice B2B

Le Groupe Combiné a conclu un *Senior Facility Agreement* (« **SFA** ») en date du 29 août 2007, amendé le 12 mars 2008, le 12 août 2008, le 30 septembre 2009, le 10 décembre 2010 et le 28 février 2011 auprès de CALYON, en tant que chef de file et *security agent* et d'autres prêteurs. Certaines filiales du Groupe Combiné se sont portées garantes dans le cadre du SFA, chacune assumant, dans certaines limites, les obligations des autres emprunteurs et garants dans le cadre du SFA.

Le montant initialement mis à disposition dans le cadre du SFA était de 551 millions d'euros. Au 31 décembre 2012, le solde dû s'établissait à 453 millions d'euros.

Des engagements financiers (*covenants*) sont attachés au SFA et pourraient avoir un impact sur les taux d'intérêt supportés par le Groupe Combiné ainsi que sur les marges applicables au SFA (voir détails ci-dessous).

Refinancement de la dette en 2012

En 2012, comme indiqué en note 4.1.1 « Evénements significatifs de la période », le Groupe Combiné a émis trois emprunts obligataires pour refinancer une partie de sa dette à court terme dans le cadre des SFA. L'émetteur des obligations est Numericable Finance & Co. S.C.A. (société de titrisation non réglementée constituée sous forme de société en commandite par actions de droit luxembourgeois).

Le produit des émissions obligataires a été utilisé par Numericable Finance & Co. pour financer trois nouveaux emprunts auprès de la banque prêteuse (JP Morgan) dans le cadre du *Senior Facility Agreement* à destination d'Ypso France SAS :

- une tranche « C-One » de 360 millions d'euros ;
- une tranche « C-Two A » de 225 millions d'euros ;
- une tranche « C-Two B » de 275 millions d'euros.

En 2012, le *Senior Facility Amendment and Restatement* conclu en septembre 2011 est entré en vigueur. Celui-ci divise chaque tranche en deux. Les tranches non prorogées et prorogées sont respectivement nommées Facility I et Facility II. Les tranches prorogées et non prorogées ont des maturités différentes (les tranches prorogées ont une maturité de deux ans de plus que les tranches non prorogées) et des prix différents (voir tableau ci-dessous).

Tranche	Maturité
A (Recap) I	15 juin 2013
A (Recap) II	6 juin 2015
A (Acq) I	15 juin 2013
A (Acq) II	6 juin 2015
B (Recap) I	15 juin 2014
B (Recap) II	6 juin 2016
B (Acq) I	15 juin 2014
B (Acq) II	6 juin 2016
C (Recap) I	31 décembre 2015
C (Recap) II	31 décembre 2017
C (Acq) I	31 décembre 2015
C (Acq) II	31 décembre 2017
Capital Investment I	15 juin 2013
Capital Investment II	6 juin 2015
Additional Revolving Facility	31 mars 2016 au plus tôt

Garanties et caution

Les tranches sont garanties sans condition et de façon irrévocable, conjointement et individuellement par chacun des garants dans le cadre du *Senior Facility Agreement*, sous réserve de certaines limites légales.

Les tranches sont garanties par des sûretés réelles, notamment un nantissement des actions d'Ypso France SAS, d'Altice B2B France et de certaines de leurs filiales.

Covenants

La mise à disposition des tranches senior mentionnées à la Note 22.1 ne dépend pas des notes de crédit du groupe combiné, mais de son respect des *covenants* financiers liés à la capacité du groupe Ypso à générer suffisamment de trésorerie pour rembourser sa dette nette. En conséquence, le *Senior Facility Agreement* comprend des engagements opérationnels et financiers, avec des exceptions particulières, notamment des engagements limitant la capacité du groupe combiné à :

- s'associer, fusionner ou intégrer toute autre personne, faire l'objet d'une refonte ou modifier de manière significative la nature de l'activité du groupe combiné dans son ensemble ;
- céder, transférer, louer, prêter ou renoncer à tout ou partie de ses actifs, ou signer un accord à ces fins ;
- entreprendre des transactions importantes non liées aux conditions commerciales normales et ce pour la totalité de la valeur marchande ;
- réaliser des acquisitions ou des investissements ;
- ouvrir ou conserver tout compte auprès d'une banque ou d'une institution financières proposant des services autres que ceux d'une banque ou institution de crédit autorisée à entreprendre des transactions bancaires en France, en Belgique ou au Luxembourg ;
- allouer ou émettre des actions ou des titres ;
- modifier la date de clôture de l'exercice.

Le *Senior Facility Agreement* oblige également le groupe combiné à se conformer aux engagements financiers suivants :

- un ratio maximum de dette nette consolidée rapporté à l'excédent brut d'exploitation (EBITDA) annualisé ;
- un ratio minimum de trésorerie consolidée rapporté au service de la dette;
- un ratio minimum d'EBITDA annualisé rapporté à la charge d'intérêts consolidée et
- un niveau maximum d'investissements annuel.

Le respect des engagements est vérifié tous les trimestres et un audit annuel au 31 décembre est réalisé lors de la préparation des comptes consolidés établis conformément aux principes comptables français. Depuis la mise en œuvre du SFA, le groupe combiné a toujours respecté les engagements financiers prévus par celui-ci.

Comme prévu dans le cadre du SFA, les covenants sont calculés sur la base d'agrégats financiers déterminés conformément aux principes comptables français, et non pas aux normes IFRS. En conséquence, l'EBITDA annualisé utilisé pour le caclul des covenant est différent de celui présenté dans le compte de résultat consolidé du groupe Ypso.

L'EBITDA annualise est calculé en additionnant les EBITDA des deux derniers trimestres et en multipliant le résultat par deux. Il ne peut donc pas être réconcilié avec l'EBITDA présenté dans les comptes consolidés préparés par le groupe Ypso.

22.2 Titres Subordonnés à Durée Indéterminée

En 2006, un montant de 23,7 millions d'euros a été émis sous la forme de Titres Subordonnés à Durée Indéterminée (« **TDSI** ») par NC Numericable, une filiale du Groupe Combiné, à destination d'un seul souscripteur, GDF Suez Groupe (Vilorex)(interets capitalisés exclus). Les fonds issus de cet emprunt sont destinés à financer la construction de prises des villes comprises dans la plaque sud du SIPPEREC (*Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication*), un regroupement de villes situées dans l'agglomération parisienne. L'emprunt est rémunéré à un taux d'intérêt annuel de 7% appliqué sur le montant non amorti des TSDI. Les intérêts des titres sont capitalisés. Le remboursement est soumis à conditions. Le montant total des intérêts courus sur les TSDI s'élevait respectivement à 11,6 millions d'euros et 9,2 millions d'euros aux 31 décembre 2012 et 2011 et ont été classés dans les passifs financiers non courants dans le tableau figurant en note 22.

L'instrument contient une obligation contractuelle de remboursement en numéraire (intérêts inclus) dans le cas où les cash flows générés par l'activité permettraient au Groupe Combiné de rembourser le prêt. En vertu des stipulations du contrat, le paiement des intérêts et le remboursement de la dette dépendent du niveau de trésorerie généré mais le Groupe Combiné ne dispose pas de droit inconditionnel qui lui permettrait d'éviter le remboursement. En conséquence, l'instrument est considéré comme un passif financier évalué au coût amorti conformément à la norme IAS 32.

22.3 Dépôts de garantie reçus de clients

Les dépôts de garantie reçus de clients représentent respectivement 44,5 millions d'euros, 42,9 millions d'euros et 50,7 millions d'euros aux 31 décembre 2012, 2011 et 2010. Ces dépôts sont versés par les clients lorsqu'ils reçoivent les équipements fournis par le Groupe Combiné. Ce dépôt leur est remboursé à la fin de la période contractuelle si les factures et le matériel renvoyé. A la cloture de chaque exercice, les dépôts de garantie sont comptabilisés dans les passifs non courants.

22.4 Autres passifs financiers

Au 31 décembre 2012, 2011 et 2010, les autres passifs financiers sont principalement composés de :

- La dette d'Ypso Holding Lux S.à.r.l. à l'égard des actionnaires pour un montant de 128 962 milliers d'euros. Il est prévu que cette dette subordonnée envers les actionnaires soit remboursée dans son intégralité dans le cadre de l'admission aux négociations sur Euronext Paris des actions de la Société;
- La dette de Numericable à l'égard de plusieurs banques (principalement envers la *Caisse d'Epargne d'Alsace-Lorraine*) pour 2 374 milliers d'euros.

23 Provisions et passifs éventuels

La décomposition et l'évolution des provisions pour les exercices clos au 31 décembre 2012, 2011 et 2010 sont comme suit:

(en milliers d'euros)	1er janvier 2012	Dotation	Utilisation	Reprise	Reclass.	31 décembre 2012
Provisions pour retraites	6 101	2 357	-	(3)	-	8 455
Provisions pour litiges prudhommaux	3 604	1 183	(719)	-	-	4 068
Provisions pour litiges commerciaux	21 935	6 252	(8 829)	(1 315)	-	18 043
Provisions pour risques fiscaux	26 977	212	(2 093)	-	-	25 096
Autres	13 227	1 395	(3 902)	-	-	10 720
	71 845	11 399	(15 543)	(1 318)	-	66 382

* Voir note 11.5.

(en milliers d'euros)	1er janvier 2011	Dotation	Utilisation	Reprise	Reclass. *	31 décembre 2011
Provisions pour retraites	5 545	576	-	(20)	-	6 101
Provisions pour litiges prudhommaux	7 789	749	(689)	(3 495)	(750)	3 604
Provisions pour litiges commerciaux	865	11 441	(215)	(2 068)	11 912	21 935
Provisions pour risques fiscaux	16 224	10 861	(108)	-	-	26 977
Autres	18 254	6 135	-	-	(11 162)	13 227
	48 677	29 762	(1 012)	(5 583)	-	71 845

* ce reclassement réalisé en 2011 porte principalement sur des risques commerciaux qui étaient classés dans la rubrique « Autres » au 1er janvier 2011 et qui ont été reclassés dans la rubrique « Provisions pour litiges commerciaux » fin 2011.

(en milliers d'euros)	1er janvier 2010	Dotation	Utilisation	Annulation	Reclass.	Cession de Coditel	31 décembre 2010
Provisions pour retraites	10 697	1 078	-	(21)	1	(6 210)	5 545
Provisions pour litiges prudhommaux	6 396	3 598	(1 003)	(1 411)	209	-	7 789
Provisions pour litiges commerciaux	9 219	197	(162)	(5 102)	(3 287)	-	865
Provisions pour risques fiscaux	13 045	4 959	-	(1 395)	-	(385)	16 224
Autres	7 841	9 558	(1 373)	-	3 078	(851)	18 253
	47 198	19 390	(2 538)	(7 929)	1	(7 446)	48 677

Le montant des provisions est principalement non courant aux 31 décembre 2012, 2011 et 2010.

Le Groupe Combiné est impliqué dans des procédures judiciaires, administratives ou réglementaires dans le cours normal de son activité.

Une provision est enregistrée par le Groupe Combiné dès lors qu'il existe une probabilité suffisante que de tels litiges entraînent des coûts à la charge du Groupe Combiné et que le montant de ces coûts peut être raisonnablement estimé. Certaines sociétés du Groupe Combiné sont parties à un certain nombre de contentieux liés aux activités ordinaires du Groupe. Seuls les procédures et litiges les plus significatifs auxquels le Groupe Combiné est partie sont décrits ci-après.

Le Groupe Combiné n'a pas connaissance d'autres procédures gouvernementales, judiciaires ou d'arbitrage (y compris toute procédure dont le Groupe a connaissance, qui est en suspens ou dont le Groupe est menacé) que celles mentionnées ci-dessous au présent paragraphe, susceptibles d'avoir ou ayant eu au cours des douze derniers mois des effets significatifs sur la situation financière ou la rentabilité de la Société ou du Groupe.

23.1 Litiges fiscaux

L'administration fiscale française a procédé à des vérifications sur diverses sociétés du Groupe Combiné depuis 2005 en ce qui concerne les taux de TVA applicables aux offres multi-play du Groupe Combiné. En droit fiscal français, les services de télévision sont assujettis à un taux de TVA à 5,5%, qui a été porté à 7% à compter du 1er janvier 2012, tandis que les services internet et de téléphonie sont soumis à un taux de TVA de 19,6%. Lors de la commercialisation d'offres multi-play, le Groupe Combiné applique une réduction de prix par rapport au prix auquel il facturerait ces services sur une base individuelle. Le Groupe impute cette réduction de prix principalement sur la part du prix de ses offres multi-play correspondant aux services internet et de téléphonie, parce que ces services ont été plus récemment inclus dans le catalogue d'offres du Groupe Combiné. Par conséquent, la TVA facturée aux abonnés multi-play du Groupe Combiné est inférieure à celle qui leur serait facturée si la réduction de prix devait s'imputer principalement sur la part du prix de ses offres multi-play correspondant aux services de télévision ou au prorata sur l'ensemble des services.

L'administration fiscale française considère que ces réductions de prix auraient dû être imputées au prorata sur le prix individuel de chacun des services (télévision, internet haut débit, téléphonie fixe et/ou mobile) inclus dans les offres multi-play du Groupe et a adressé des propositions de rectification en ce sens pour les exercices 2006 à 2010.

Le Groupe Combiné a formellement contesté les redressements fiscaux relatifs aux exercices 2006 à 2009. Le Groupe a par ailleurs saisi le Ministère des Finances en décembre 2011 et a sollicité un règlement d'ensemble des rectifications opérées par l'administration concernant les différentes sociétés du Groupe Combiné pour la période 2006 à 2009. Suite à ces demandes, l'administration a revu à la baisse les montants des redressements pour les années 2008 et 2009 en incluant dans son calcul une limitation basée sur la règle du 50/50 applicable sur la TVA composite qui était en vigueur de 2008 à 2010. Les nouveaux montants des redressements s'élevant à 17,3 millions d'euros (hors pénalités de 40%) pour la période 2006 - 2009 ont été communiqués au Groupe Combiné fin août 2012.

En parallèle, en 2012, l'administration fiscale a initié une procédure de vérification du Groupe Combiné pour l'exercice 2010, dans les mêmes conditions et pour les mêmes raisons que les vérifications décrites ci-dessus dont le Groupe Combiné a fait l'objet dans le passé. Ces procédures ont donné lieu à l'établissement de propositions de rectifications fin juin 2013, calculées à l'identique de 2007 à 2009, pour un montant total de 6,1 millions d'euros (hors pénalités de 40%). Le Groupe Combiné a contesté les rectifications opérées fin août 2013.

L'administration a également mis en recouvrement le rappel de l'année 2006 sur NC Numericable (soit environ 2 millions d'euros). Le Groupe Combiné a demandé un sursis de paiement et déposé une réclamation en septembre 2012 qui a été rejetée par l'administration fiscale le 27 juin 2013. Le Groupe Combiné a introduit une requête introductive d'instance en date du 20 août 2013.

Au 31 décembre 2012, une provision fiscale pour un montant total de 25,1 millions d'euros a été comptabilisée couvrant essentiellement la totalité des risques TVA (hors pénalités de 40% dont le montant s'élève à 7,1 millions d'euros) au titre des rectifications notifiées portant sur les exercices 2006 à 2010 (soit 23,5 millions d'euros) Le Groupe a répondu le 21 août 2013 pour contester les rectifications proposées) L'année 2011 ne fait pas l'objet d'un contrôle.

Les règles de TVA applicables aux offres multiplay ont changé à compter du 1er janvier 2011.

23.2 Litiges civils et commerciaux

23.2.1 Litige avec Orange concernant certains IRUs

Le Groupe Combiné a conclu quatre IRUs non-exclusifs avec Orange, les 6 mai 1999, 18 mai 2001, 2 juillet 2004 et 21 décembre 2004, dans le cadre de l'acquisition par le Groupe Combiné de certaines entreprises exploitant des réseaux câblés construits par Orange. Ces réseaux câblés sont accessibles uniquement grâce aux installations de génie civil d'Orange (principalement ses conduits) qui sont mises à la disposition du Groupe Combiné par Orange aux termes de ces IRUs non-exclusifs. Chacun de ces IRUs couvre une zone géographique différente et a été conclu pour une durée de 20 ans.

En application de la décision de l'ARCEP numéro 2008-0835 du 24 juillet 2008, Orange a publié, le 15 septembre 2008, une offre technique et tarifaire d'accès aux infrastructures de génie civil constitutives de la boucle locale filaire à destination des opérateurs de télécommunications permettant aux opérateurs de déployer leurs propres réseaux de fibre optique dans les conduits d'Orange. Les termes de cette offre technique et tarifaire obligatoire sont plus restrictifs que ceux dont le Groupe Combiné bénéficiait aux termes des IRUs qu'il a conclus avec Orange. Orange a ensuite demandé à Numericable de suivre les procédures générales d'accès aux installations de génie civil d'Orange, pour le maintien et l'amélioration de son réseau. Cette affaire a été portée devant l'ARCEP (le 4 novembre 2010) et la Cour d'appel de Paris (le 23 juin 2011) qui ont chacune statué en faveur d'Orange. Numericable a formé un pourvoi en cassation et, le 25 septembre 2012, la Cour de cassation, pour l'essentiel, a confirmé la décision de la Cour d'appel de Paris.

Par ailleurs, le 21 octobre 2011, l'ARCEP engagé une procédure de sanction à l'encontre de Numericable en raison du non-respect par Numericable de la décision de l'ARCEP du 4 novembre 2010. Par conséquent, en décembre 2011, Numericable a conclu des avenants aux IRUs avec Orange afin de se conformer à la décision de l'ARCEP du 4 novembre 2010 et d'aligner les procédures d'exploitation prévues au titre des IRUs avec les procédures définies dans l'offre technique et tarifaire générale publiée par Orange.

La conclusion des avenants aux IRUs n'a toutefois pas suspendu la procédure de sanction initiée par l'ARCEP et, le 20 décembre 2011, Numericable a été condamné à payer une amende de 5,0 millions d'euros pour non-respect de la décision de l'ARCEP du 4 novembre 2010. Numericable a déposé un recours devant le Conseil d'Etat à l'encontre de cette décision. La procédure est toujours en cours devant le Conseil d'Etat. Aucun calendrier de procédure n'a été établi à ce jour. Dans le cadre de ce recours, Numericable a soulevé une question préjudicielle de constitutionalité, renvoyée devant le Conseil constitutionnel, sur la conformité à la constitution de l'Article L. 36-11 du CPCE qui prévoit les pouvoirs de sanction de l'ARCEP. Le 5 juillet 2013, le Conseil constitutionnel a fait droit à la demande de Numericable et a invalidé les alinéas 1 à 12 de l'Article L. 36-11 du CPCE sur le fondement desquels la décision de sanction de l'ARCEP du 20 décembre 2011 mentionnée ci-dessus a été rendue. Numéricable a demandé au Conseil d'Etat de tirer les conséquences de cette décision et d'annuler, en conséquence, la décision de l'ARCEP du 20 décembre 2011.

En parallèle, Numericable a assigné Orange devant le tribunal de commerce de Paris le 7 octobre 2010 et demande sa condamnation au paiement de la somme de 2,7 milliards d'euros à titre de dommages et intérêts pour le préjudice résultant de la violation et la modification des IRUs par Orange. Le 23 avril 2012, le tribunal de commerce de Paris s'est prononcé en faveur d'Orange et a rejeté les demandes en dommages et intérêts de Numericable, estimant qu'il n'y avait pas de différences significatives entre les procédures d'exploitation d'origine et les nouvelles procédures d'exploitation imposées à Numericable par Orange aux termes de son offre technique et tarifaire générale publiée le 15 septembre 2008. Numericable a interjeté appel de cette décision devant la Cour d'appel de Paris et demande le même montant de dommages et intérêts. Orange, de son côté, soutient que cette procédure a affecté de manière significative sa marque et son image et demande la condamnation de Numericable au paiement de la somme de 50 millions d'euros à titre de dommages et intérêts. La Cour d'Appel de Paris devrait rendre sa décision pendant le second trimestre de l'année 2014.

23.2.2 Litige avec Free concernant l'annonce d'une offre mobile

Une action a été intentée le 3 août 2011 à l'encontre de Numericable et NC Numericable devant le tribunal de commerce de Paris par l'opérateur de télécommunications Free concernant le lancement de l'offre mobile de Numericable au printemps 2011 au travers d'un évènement annoncé comme « La révolution du mobile continue ».

Free, qui a utilisé le terme « révolution » pour désigner ses services de téléphonie mobile et dont la dernière offre porte le nom de « Freebox Révolution », affirme, entre autres, que la campagne de Numericable a créé de la confusion chez les consommateurs et a porté atteinte à sa marque et à son image. Par deux assignations, Free demande la condamnation de Numericable et NC Numericable au paiement d'une somme globale s'élevant à 10 millions d'euros à titre de dommages et intérêts. La procédure est toujours en cours devant le tribunal de commerce de Paris. A l'issue des plaidoiries, le tribunal a sollicité un avis de la direction générale de la concurrence, de la consommation et de la répression des fraudes (DGCCRF) concernant la réalité des allégations de Free au regard du droit de la publicité. La DGCCRF a rendu un avis dans lequel elle indique considérer que les points soulevés par Free ne constituent pas une publicité mensongère ou irrégulière non-conforme au droit de la publicité applicable. Le jugement du tribunal de commerce de Paris devrait être rendu au cours du second semestre 2013.

23.2.3 Litige avec Orange concernant des factures impayées

Par assignation du 6 septembre 2011, Orange a assigné Numericable devant le tribunal de commerce de Paris. Orange invoque le non-paiement par Numericable de factures pour un montant de 3,1 millions d'euros. Ces factures concernent l'occupation par Numericable de l'infrastructure physique d'Orange entre 2005 et 2007, suite à la cession par Orange de ses réseaux câblés à Numericable. Numericable soutient qu'Orange l'a empêché de sortir de ces infrastructures et que, par conséquent, les factures litigieuses ne sont pas dues. Par assignation du 1er février 2012, Orange a assigné Numericable devant le tribunal de commerce de Paris et, sur un fondement identique, demandé sa condamnation au paiement de la somme de 543 000 euros. Ces procédures sont toujours en cours devant le tribunal de commerce de Paris. Aucune date d'audience de plaidoirie n'est fixée à ce jour.

23.2.4 Litiges avec divers éditeurs de services à valeur ajoutée (SVA)

Par assignations groupées en date du 10 février 2013, cinq sociétés éditrices de services téléphoniques à valeur ajoutée qui proposent leurs services au public au moyen de numéros surtaxés (0899) de Completel, ont assigné Completel devant le tribunal de commerce de Nanterre et demandé sa condamnation au paiement de la somme globale de 350 000 euros à titre de remboursement de sommes correspondant à des retenues prélevées par Completel sur les sommes perçues pour leur compte. Completel a procédé à ces retenues en réponse aux pratiques de ces sociétés qu'elle estime contraires aux contrats conclus entre ces sociétés et Completel ainsi qu'aux règles déontologiques du secteur. Elles sollicitent en outre le versement de dommages et intérêts d'un montant global de 12 millions d'euros en réparation du préjudice prétendument subi à raison de la rétention des sommes par Completel.

Par ailleurs, Completel ayant décidé en novembre 2012 de mettre un terme à cette activité, elle a suspendu certains reversements et appliqué diverses pénalités contractuelles à des sociétés commercialisant ce type de services téléphoniques à valeur ajoutée. Certaines de ces sociétés ont assigné Completel devant divers tribunaux de commerce et demandé sa condamnation au paiement des sommes retenues par Completel ou la suppression des pénalités appliquées par Completel. Le montant global montant réclamé s'élève à environ 900 000 euros dont 850 000 euros de sommes perçues pour le compte des éditeurs.

23.2.5 Litige avec Orange concernant l'accès au marché de l'ADSL

Le 5 aout 2010, Completel a assigné Orange devant le tribunal de commerce de Paris et demandé sa condamnation au paiement de la somme d'environ 500 millions d'euros à titre de dommages et intérêts en réparation de son préjudice résultant de pratiques anticoncurrentielles alléguées d'Orange qui auraient retardé la mise en place du dégroupage et l'accès au marché du DSL pour les concurrents d'Orange pendant les années 1999 à 2003. Le 13 décembre 2011, le tribunal de commerce de Paris a rejeté les demandes de Completel. Completel a interjeté appel de ce jugement. La décision de la Cour d'appel de Paris devrait intervenir dans le courant de l'année 2014.

23.2.6 Litiges prud'homaux

Le Groupe est impliqué dans un certain nombre de litiges prud'homaux dont une part importante résulte de la dernière période de fusion survenue en 2006-2007, avec UPC-NOOS, qui a donné lieu, jusqu'en 2009, à des ajustements et harmonisations des pratiques sociales qui ont pu être conflictuels. Le Groupe encourt un risque global de condamnation d'environ 4 millions d'euros pour l'ensemble de ces contentieux. L'essentiel de ces contentieux consiste en une contestation par le salarié des motifs et ou de la forme de son licenciement.

24 Avantages du personnel

En France, les salariés du Groupe Combiné bénéficient d'un régime général de retraite. Le Groupe Combiné reverse ainsi à l'état les cotisations sociales dues dans le cadre de ces régimes généraux. Ce régime est considéré comme un régime à contribution définie tel que défini par la norme IAS 19. Les salariés du Groupe Combiné sont rattachés à la Convention Collective Nationale des Télécommunications, qui est utilisée pour calculer le montant de l'indemnité de retraite dûe lors du départ en retraite du salarié.

Les indemnités de départ à la retraite ont été évalués individuellement, sur la base de plusieurs paramètres et hypothèses, notamment l'âge, le poste occupé, l'ancienneté et le salaire, conformément à leur contrat de travail.

24.1 Hypothèses employées pour les plans de prestations définis

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Taux d'actualisation	3,0%	4,75%	4,75%
Taux de croissance des salaires	3,0%	3,0%	3,0%
Taux d'inflation	2,0%	2,0%	2,0%
Taux de rotation des cadres (moyenne)	7,0%	7,0%	7,0%
Taux de rotation des autres employés (moyenne)	15,0%	15,0%	15,0%

Le taux de rotation peut fortement varier en fonction de l'ancienneté.

24.2 Composantes de la charge

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Coût des services rendus	713	660	555
Charge d'intérêt	287	263	221
Rendement attendu des actifs du plan	-	-	-
Reconnaissance des écarts actuariels	1 496	(244)	281
Coût des services passés	-	-	-
Regroupements d'entreprise	-	22	58
Réductions/Paiements	(57)	(145)	-
Charge au titre des avantages postérieurs à l'emploi	**2 439**	**556**	**1 115**
Perte (Gain) actuariels	1 496	(244)	281
Exprimé en pourcentage de la valeur actuelle des engagements de retraites	17,7%	(4,0)%	5,1%

Les gains et pertes actuariels découlant des variations des hypothèses actuarielles sont comptabilisés directement dans le compte de résultat combiné de l'exercice au cours duquel ils ont été constatés.

L'effet d'actualisation des provisions pour indemnités de départ à la retraite sont comptabilisées dans le compte de résultat dans la rubrique « Charges de personnel ».

24.3 Variation de l'engagement

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Engagement au titre des régimes à prestations définies à l'ouverture de l'exercice	**6,101**	**5,545**	**3,936**
Coût des services rendus	713	660	555
Charge d'intérêt	287	263	221
Apports versés	-	-	-
Ecarts actuariels	1 496	(244)	281
Prestations versées	(87)	-	-
Coût des services passés	-	-	-
Regroupement d'entreprises	-	22	58
Réductions/Paiements	(57)	(145)	-
Engagement au titre des régimes à prestations définies à la clôture de l'exercice	**8,455**	**6,101**	**5,545**

25 Autres passifs non courants

(en milliers d'euros)	**31 décembre 2012**	**31 décembre 2011**	**31 décembre 2010**
Produits constatés d'avance (à plus d'un an)	105 791	94 777	101 402
Dettes fournisseurs non courantes	5 175	5 906	6 634
Dettes fiscales et sociales non courantes	300	300	2 303
Autres passifs non courants	**111 266**	**100 983**	**110 339**

A la clôture de l'exercice, les produits constatés d'avance sont principalement constitués du chiffre d'affaires non reconnu provenant de la location du réseau.

Dans le cadre de certains contrats conclus avec des clients B2B, le Groupe Combiné reçoit des paiements d'avance relatifs à des contrats d'IRU et des frais d'accès aux services. Le chiffre d'affaires relatif à ces contrats est généralement étalé sur la durée du contrat.

La part non courante des produits constatés d'avance présentés dans le tableau ci-dessus correspond au chiffre d'affaires qui sera reconnu dans plus d'un an à compter de la date clôture.

La part courante des produits constatés d'avance (c'est-à-dire qui sera constatée dans les douze mois suivants la clôture de l'exercice) est classée dans la rubrique « Dettes fournisseurs et autres dettes » comme indiqué en note 26.

26 Dettes fournisseurs et autres dettes

(en milliers d'euros)	31 décembre 2012	31 décembre 2011	31 décembre 2010
Dettes fournisseurs courantes	416 183	424 334	392 170
Dettes fournisseurs d'immobilisation	87 145	65 640	69 492
Avances et acomptes reçus	19 884	30 564	34 703
Comptes courants	21 219	13 062	232
Dettes fiscales	87 358	64 353	58 927
Dettes sociales	45 871	39 937	38 490
Produits constatés d'avance (à moins d'un an)	45 319	37 574	36 189
Autres dettes	3 054	23 206	53 670
Dettes fournisseurs et autres dettes	**726 033**	**698 670**	**639 282**

27 Instruments financiers

Les principales règles et méthodes comptables adoptées (critères de reconnaissance, méthodes d'évaluation et méthodes de reconnaissance des produits et charges) pour chaque classe d'actifs financiers, de passifs financiers et d'instruments de capitaux propres sont détaillées dans les notes 2.15 et 2.19.

27.1 Juste valeur des instruments financiers

Méthodes d'évaluation et hypothèses appliquées afin de déterminer la juste valeur des instruments dérivés

La juste valeur des instruments dérivés est calculée à l'aide de prix de marchés. Lorsque de tels cours ne sont pas disponibles, une analyse des flux de trésorerie actualisés est menée, en utilisant la courbe d'intérêt applicable pour la durée des instruments dans le cas de produits dérivés sans option, et des modèles d'évaluation des options dans le cas d'instruments dérivés optionnels. La juste valeur des swaps de taux d'intérêt est mesurée à la valeur actuelle des flux futurs de trésorerie estimés et actualisée selon les courbes de taux applicables dérivées des taux d'intérêts de marché.

Conformément aux amendements apportés à la norme IFRS 7, le Groupe Combiné classe ses instruments financiers évalués à la juste valeur selon trois niveaux (la hiérarchie de la juste valeur).

- Niveau 1 : l'évaluation de la juste valeur est dérivée de prix de marché (non ajustés) issus de marchés actifs pour des actifs ou passifs identiques.
- Niveau 2 : l'évaluation de la juste valeur est dérivée de données autres que les prix de niveau 1, qui sont observables pour l'actif ou le passif, soit directement (par exemple des prix), soit indirectement (par exemple, des éléments dérivant du prix).
- Niveau 3 : l'évaluation de la juste valeur est dérivée de techniques d'évaluation incluant des données sur l'actif ou le passif qui ne sont pas fondées sur des données observables sur le marché (informations non observables).

Des évaluations de niveau 2 ont été utilisées pour les dérivés de taux d'intérêt. Il n'y a pas d'instruments financiers significatifs pour lesquels des évaluations de niveau 1 ou de niveau 3 aient été utilisées et aucun transfert d'instruments financiers n'a eu lieu entre les différents niveaux.

Evaluation de la valeur des autres actifs financiers

Compte tenu de leur courte échéance, la juste valeur de la trésorerie et des équivalents de trésoreries, des créances commerciales et autres actifs courants, des dettes commerciales et autres passifs courants est très proche de leur valeur nette comptable.

Les participations dans des entités non incluses dans le Groupe Combiné sont des titres non cotés. De ce fait, leur juste valeur ne peut pas être mesurée de manière fiable et ils sont donc évalués à leur coût d'acquisition.

Garanties financières

Dans le cadre du *Senior Facility Agreement*, les actifs du Groupe ont été donnés en garantie aux banques prêteuses.

27.2 Actifs financiers

	31 décembre 2012				
			Actifs financiers à la juste valeur au compte de résultats

27.3 Passifs financiers

A l'exception des instruments dérivés, les passifs financiers sont évalués à leur coût amorti, qui correspond à la valeur estimée du passif financier au moment de sa comptabilisation initiale, minorée des remboursements en principal, et minorée ou majorée de l'amortissement cumulé, déterminé selon la méthode du taux d'intérêt effectif, provenant de tout écart entre ce montant initial et le montant à la date de maturité, et déduction faite de toute provision pour dépréciation ou irrécouvrabilité.

Les instruments dérivés détenus à des fins de négoce sont évalués à la juste valeur dans le compte de résultat.

27.4 Objectifs de gestion des risques financiers

Objectif de la fonction de trésorerie du Groupe Combiné

Le service trésorerie du Groupe Combiné, commun aux sous-groupes Ypso et Altice B2B, fournit des services, coordonne l'accès aux marchés financiers nationaux et internationaux, évalue et gère les risques financiers liés aux activités du Groupe Combiné par le biais de rapports de risques internes, qui analysent l'exposition aux différents risques financiers. Ces risques comprennent les risques de marché (principalement les risques de taux d'intérêt, puisque les activités du Groupe Combiné ne l'exposent pas aux risques de change), les risques de crédit et les risques de liquidité. L'objectif du Groupe Combiné est de limiter ces risques au maximum en utilisant des instruments financiers dérivés pour couvrir les risques d'exposition. Le Groupe Combiné ne dispose d'aucun instrument financier, dérivés inclus, ni n'opère de transaction sur ceux-ci, à des fins spéculatives.

Le service trésorerie présente tous les mois un rapport à la direction du Groupe Combiné qui supervise les risques et les mesures adoptées pour limiter l'exposition aux risques.

Gestion des risques liés au taux d'intérêt

Le Groupe Combiné est exposé aux risques lies au taux d'intérêt car il emprunte des fonds, la plupart du temps à un taux d'intérêt variable. Le Groupe Combiné limite ces risques en concluant des contrats de swap de taux d'intérêt et des contrats de cap de taux. Bien que le Groupe Combiné n'applique pas les dispositions de la norme IAS 39 en matière de comptabilité de couverture, la stratégie de couverture est régulièrement revue de manière à l'adapter à l'évolution prévisible des taux d'intérêt, de manière à garantir une stratégie de couverture la plus efficace possible, conformément aux exigences du SFA.

L'exposition du Groupe Combiné aux taux d'intérêt sur les actifs et passifs financiers est détaillée dans le paragraphe intitulé « Gestion du risque de liquidité » de la présente note.

Analyse de la sensibilité au taux d'intérêt

L'analyse de sensibilité présentée ci-après a été réalisée sur la base de l'exposition aux taux d'intérêt des instruments dérivés et non dérivés à la clôture de l'exercice. Pour les dettes à taux variables, l'analyse a été réalisée en estimant que le solde à rembourser à la clôture de l'exercice était constant sur l'ensemble de l'exercice. Une hausse ou une baisse de 50 points de base est utilisée pour la présentation interne du risque de taux d'intérêt à la direction. Il s'agit de l'estimation de la Direction en matière d'évolution possible des taux d'intérêt.

Si les taux d'intérêt avaient varié à la baisse (ou à la hausse) de l'odre de 50 points de base, toutes choses égales par ailleurs, le résultat net du Groupe Combiné au 31 décembre 2012 aurait été majoré (ou minoré) de 13 millions d'euros. Cette variation découle principalement de l'exposition du Groupe Combiné aux taux d'intérêt sur la partie de ses emprunts à taux variable.

Contrats de swap de taux d'intérêt

Dans le cadre des contrats de swap de taux d'intérêt, le Groupe Combiné échange un taux d'intérêt variable contre un taux fixe pour un montant notionnel donné. Ces contrats permettent au Groupe Combiné de limiter le risque d'évolution du taux d'intérêt sur la juste valeur de la dette à taux fixe et l'exposition au risque sur flux de trésorerie relatifs aux dettes à taux variable. A la clôture de l'exercice, la juste valeur des swaps de taux est déterminée en actualisant les flux de trésorerie futurs avec les courbes d'intérets à la clôture de l'exercice et le risque de crédit inhérent au contrat.

Gestion du risque de crédit

Le risque de crédit désigne le risque que la contrepartie ne respecte pas ses obligations contractuelles, ce qui se traduirait par une perte financière pour le Groupe Combiné.

Les instruments financiers qui pourraient augmenter le risque de crédit sont principalement les créances clients, la trésorerie et les équivalents de trésorerie, les investissements et les instruments financiers dérivés. L'exposition maximale du Groupe Combiné au risque de crédit correspond à la valeur comptable des actifs financiers comptabilisés dans le bilan combiné, nets des dépréciations comptabilisées.

Comme indiqué dans la note 19, le Groupe Combiné estime qu'il a une exposition extrêmement limitée à la concentration du risque de crédit pour ce qui concerne les créances clients en raison à la fois du nombre et de la diversité des clients (clients individuels et institutions publiques) qui opèrent de surcroit dans des secteurs d'activité variés et sont localisés partout en France. Le risque maximal de crédit sur ces actifs financiers équivaut à leur valeur nette comptable. L'analyse du risque de crédit sur les créances clients nettes échues est mentionnée en note 19.

Le Groupe Combiné est attaché à investir sa trésorerie, ses équivalents de trésorerie ainsi que ses titres négociables dans des institutions financières ou des groupes industriels disposant d'une note de crédit « A-/A3 » au minimum. Le Groupe Combiné a conclu des contrats de taux d'intérêt avec des institutions financières de premier plan et estime que le risque que ces contreparties fassent défaut est extrêmement bas, car leurs notes de crédit sont surveillées et que leur exposition financière à d'autres institutions financières est limitée.

Pourtant, en septembre 2008, la banque Lehman Brothers a fait faillite. Une partie des passifs financiers du Groupe Combiné étaient couverts par des contrats de swap de taux d'intérêt conclus avec Lehman Brothers. A la suite de sa faillite, Lehman Brothers a fait défaut sur ces swaps. Le Groupe Combiné a formulé une demande de remboursement auprès de Lehman Brothers pour un montant total d'environ 11,2 millions d'euros. En 2012, le Groupe Combiné a reçu une première tranche de 2,8 millions d'euros dans le cadre de cette demande. Le solde de 8,4 millions d'euros représente un gain potentiel pour le Groupe Combiné mais n'a pas été constaté dans les comptes clos au 31 décembre 2012.

Gestion du risque de liquidité

La gestion du risque de liquidité relève en premier lieu de la responsabilité de la Direction, qui a établi un cadre approprié de gestion du risque de liquidité pour faire face aux besoins en financements à court, moyen et long terme du Groupe Combiné. Le Groupe Combiné gère ses liquidités en maintenant un niveau adéquat de liquidités, de facilités de crédit, en supervisant en permanence les prévisions de flux de trésorerie et les flux réels de trésorerie, et en adaptant les profils de maturités des actifs et passifs financiers.

Les tableaux ci-après présentent les maturités contractuelles auxquelles les passifs financiers du Groupe Combiné devront faire l'objet de remboursements. Les tableaux ont été construits à partir des flux de trésorerie non actualisés pour les passifs financiers sur la base de la date d'exigibilité de remboursement. Les tableaux incluent les flux de trésorerie liés au remboursement du capital. La date de maturité contractuelle correspond à la date la plus à laquelle le Groupe Combiné pourrait etre contraint rembourser le passif.

	31 décembre 2012			
(en milliers d'euros)	Moins de un an	1-5 ans	Plus de 5 ans	Total

Le Groupe Combiné considère que sa trésorerie disponible et la trésorerie opérationnelle anticipée qui sera générée par l'activité opérationnelle sont suffisants pour couvrir ses dépenses, ses investissements et les engagements financiers liés à sa dette pour les douze prochains mois.

28 Transactions avec les parties liées

Les actionnaires ultimes du Groupe Combiné sont les fonds d'investissement privés Altice, Cinven et Carlyle.

Les soldes bilanciels et flux réciproques entre les entités du Groupe Combiné ont été éliminés lors de la préparation des Comptes Combinés. Les détails des transactions entre le Groupe Combiné et les autres parties liées sont présentés ci-dessous.

28.1 Opérations de financement et prestations de services

Au cours de l'exercice, les entités du Groupe Combiné ont conclu les transactions suivantes avec des parties liées qui ne font pas partie du périmètre de combinaison :

(en milliers d'euros)	*Prestations de services*			*Montants dus par les parties liées*			*Montants dus aux parties liées*		
	2012	**2011**	**2010**	**2012**	**2011**	**2010**	**2012**	**2011**	**2010**

Sociétés affiliées									
Alsace Connexia Participation SAS	-	-	-	2 235	2 574	2 518	-	-	-

Des management fees ont été versés aux actionnaires (Cinven, Altice and Carlyle) en lien avec certains services de gestion, de financement et de conseils fournis (pour respectivement 2 424 milliers d'euros, 11 509 millieurs d'euros et 14 651 milliers d'euros en 2012, 2011 et 2010).

Les actionnaires du Groupes Combiné ont également fourni plusieurs financements via des dettes subordonnées.

28.2 Relations avec les parties liées

(1) Relations avec les actionnaires du Groupe Combiné

Relations avec Altice

Le 30 juin 2011, le Groupe Combiné a cédé ses filiales Coditel Belgium et Coditel Luxembourg à un consortium d'investisseurs, parmi lesquels Altice, pour un montant de 369,2 millions d'euros.

Par ailleurs, Altice détient des réseaux câblés dans les Antilles françaises et le Groupe Combiné reverse des frais de terminaisons d'appel à ces réseaux pour les appels émis par les abonnés de son réseau à destination des abonnés des réseaux Antillais. Le Groupe Combiné perçoit à l'inverse des frais de terminaison d'appel pour les appels émis par les abonnés de ces réseaux à destination des abonnés du Groupe Combiné.

Enfin, Altice détient la société Auberimmo qui loue des infrastructures au Groupe Combiné. Auberimmo a pour seul client Completel SAS, membre du Groupe Combiné.

Relations avec Carlyle

Sagemcom, l'un de nos principaux fournisseurs de décodeurs, a été acheté par des fonds gérés par Carlyle le 17 août 2011.

(2) Relations avec Coditel, entité détenue par Altice ainsi que par d'autres parties non liées au Groupe Combiné

Dans le cadre de la cession de Coditel Belgium et de Coditel Luxembourg en juin 2011, le Groupe Combiné a conclu un accord de service et un accord de licence de marque avec Coditel Holding S.A. afin de garantir la poursuite de l'activité de ces sociétés.

Accord de service

Le 30 juin 2011, Numericable SAS a conclu un accord de service avec Coditel ("Coditel Services Agreement"). Selon les termes de l'accord, le Groupe Combiné continue de fournir à Coditel tous les services qu'il fournissait avant sa cession, incluant:

- services de plateforme de vidéo à la demande et services de contenu de vidéo à la demande ;
- services d'ingénierie de voix, d'IP et télévisuels ;
- assistance technique pour l'achat de matériel et appareils nécessaire à son activité, notamment décodeurs, logiciels, modems, routeurs et combinés de téléphonie mobile, ainsi que contenus de télévision et de vidéo à la demande ;
- livraison de signaux de chaînes de télévision et de flux de données existants le réseau du Groupe Comniné;
- mise à jour du logiciel de facturation de Coditel ; et
- poursuite de l'assistance aux systèmes Coditel actuellement situés dans les locaux du Groupe Combiné ou actuellement assistés par les systèmes du Groupe Combiné.

En contrepartie des services fournis, Coditel a accepté de verser au Groupe Combiné un montant total de 100.000 euros par an. En outre, Coditel doit reverser au Groupe Combiné 10% de son chiffre d'affaires mensuel généré par les vidéos à la demande.

Accord de licence de marque

Le 30 juin 2011, Coditel et Numericable ont également conclu un accord de licence de marque ("Trade Mark Agreement"). Selon les termes de l'Accord de licence de marque, le Groupe Combiné fournit une licence à Coditel pour l'utilisation de la marque « Numericable », enregistré sous Ma14502, exclusivement en Belgique et au Luxembourg en lien avec l'offre, la promotion et la commercialisation de produits et services de téléphonie, d'Internet et télévisuels. Les frais de licence sont inclus dans les 100.000 euros annuels de l'Accord de service. L'Accord de licence prend fin de manière automatique au 30 juin 2017, à la fin de tous les services couverts par l'Accord de service ou à l'échéance de l'Accord de services.

28.3 Rémunération de la Direction

La rémunération des membres du Comité exécutif s'est élevée respectivement à 2 100 milliers d'euros, 2 039 milliers d'euros et 2 325 milliers d'euros au cours de l'exercice 2012, 2011 et 2010. Ce montant ne comprend que les avantages à court terme comme les salaires, traitements et bonus.

Le Groupe Combiné ne propose pas de paiement à base d'actions et le montant total des avantages postérieurs à l'emploi accordés à la Direction est non significatif.

29 Contrats de location

29.1 Lorsque le Groupe Combiné est bailleur

Location financement

Le Groupe Combiné n'a pas conclu de contrat de location financement en tant que bailleur.

Location simple

La location simple se rapporte principalement aux infrastructures du réseau détenues par le Groupe Combiné et louées à d'autres sociétés du secteur des télécommunications, sur des durées comprises entre 15 et 30 ans. Tous les contrats de location contiennent des clauses de révision de marché dans le cas où le preneur exercerait son option de renouvellement. Le preneur ne dispose d'aucune option d'achat à l'issue du bail.

Les revenus futurs relatifs à ces contrats de location simple sont comme suit:

(en milliers d'euros)	Montant des futur minimum des loyers		
	31 décembre 2012	31 décembre 2011	31 décembre 2010
A un an au plus	45 318	38 815	35 459
Plus d'un an et moins de 5 ans	40 930	30 621	34 848
Plus de 5 ans	64 545	62 381	64 214
	150 793	**131 817**	**134 521**

29.2 Lorsque le Groupe Combiné est locataire

Location financement

Le Groupe Combiné a conclu divers accords de location financement liés à des biens immobiliers, pour lesquels le bail est généralement d'une durée de 20 à 30 ans et liés à des équipements de bureau pour lesquels le bail est généralement d'une durée de 4 ans.

Le principal contrat de location financement se rapporte à des équipements de réseau achetés à Cisco et à la location de l'immeuble occupé par le Groupe Combiné à Champs-sur-Marne pour lequel le Groupe Combiné dispose d'une option d'achat à l'issue du bail, à un prix qui devrait être suffisamment inférieur à la juste valeur à la date où l'option pourra être exercée.

Tous les contrats sont libellés en euros. Certains contrats de location financement immobilière spécifient qu'au début du bail, les paiements annuels seront fixés à un montant donné, mais qu'au cours des années suivantes, ce montant sera augmenté à un taux d'inflation (soit un pourcentage d'augmentation).

(en milliers d'euros)	Versements locatifs minimum		Valeur actuelle des versements locatifs minimum	
	31 décembre 2012	31 décembre 2011	31 décembre 2012	31 décembre 2011
Un an au plus tard	11 685	20 219	11 302	19 529
Plus d'un an et moins de 5 ans	13 883	7 229	12 830	6 621
Plus de 5 ans	721	928	595	753
	26 288	**28 376**	**24 728**	**26 903**

Passifs financiers liés aux contrats de location-financement – part non courante			13 426	7 374

Le taux d'intérêt implicite du contrat de location est fixé à la date de signature du contrat et ce pour l'ensemble de la durée du contrat. Le taux d'intérêt effectif annuel moyen s'élève à environ 3,24% et 3,53% respectivement pour 2012 et 2011.

Location simple

Le Groupe Combiné a également des engagements de location simple concernant des véhicules et biens immobiliers. La durée pour ces contrats de location simple est généralement de 3, 6 ou 9 ans, soit une durée standard de bail immobilier commercial en France. Le contrat de location pour les véhicules est d'une durée de 3 ans.

Les contrats de location d'IRU (droits irrévocables d'utilisation de boucle ou de réseau) d'équipement et de réseaux ou les autres contrats de location (droits de passage) pour lesquels le Groupe Combiné est preneur sont considérés comme non significatif.

Dans le cadre de ses activités de divertissement, le Groupe Combiné a également conclu des accords de location et d'achat de programmes télévisés.

Au 31 décembre 2012, les engagements de location simple non résiliables s'élevaient à :

(en milliers d'euros)	31 décembre 2012
Un an au plus tard	5 554
Plus d'un an et moins de 5 ans	19 513
Plus de 5 ans	5 717

31 Engagements et obligations contractuelles

31.1 Engagements contractés

Garanties liées au Senior Facility Agreement

Dans le cadre du *Senior Facility Agreement* conclu par les filiales du Groupe Combiné, les engagements suivants ont été donnés aux banques prêteuses :

- Respect des engagements financiers ;
- Maintien d'un périmètre d'intégration fiscale stable ;
- Respect des conditions concernant l'acquisition, la cession, l'utilisation et le contrôle des actifs.

Tous les actifs des filiales du Groupe ont été nantis auprès des banques.

Engagements liés à l'activité opérationnelle

Le Groupe Combiné s'est engagé à construire 75.000 prises pour un montant total de 4,5 millions d'euros pour la ville du Havre.

Pour opérer des réseaux de télécommunication, le Groupe Combiné a besoin de licences, d'autorisations ou de droits d'usage des infrastructures du domaine public ou privé. Le Groupe Combiné paie donc généralement des droits à l'administration publique responsable de la gestion des infrastructures ou au propriétaire privé. Dans le cadre de ses activités commerciales normales, le Groupe Combiné a par ailleurs conclu des accords de sous-traitance, en particulier pour certains services de maintenance de réseau.

En 2010, le Groupe Combiné a conclu plusieurs accords d'exploitation de réseau mobile virtuel (*MVNO*) pour la transmission de voix et de données avec Bouygues Telecom, en vertu desquels le Gruope Combiné fournit des services de téléphonie mobile à des clients individuels sous sa propre marque mais via le réseau national de Bouygues Telecom. Les accords liés aux services de transmission de voix arrivent à échéance en 2017 et ceux liés à la transmission de données arrivent à échéance en 2013. Ces contrats seront automatiquement renouvelés en l'absence d'une notification contraire de l'une ou l'autre des parties dans le respect d'un préavis de six mois avant la date d'expiration du contrat. Selon les termes financiers de ces contrats, nous sommes dans l'obligation de verser une somme fixe à Bouygues Telecom correspondant au niveau minimum de consommation des services pertinents de transmission de données et de voix par nos clients finaux.

Engagements de location liés aux activités opérationnelles

Comme indiqué en note 29, le Groupe Combiné a conclu divers accords de location.

Obligations contractuelles

		Maturité		Total
(en milliers d'euros)	< 1 an	1 – 5 ans	> 5 ans	31 décembre 2012

Total	**120 286**	**1 923 953**	**1 027 620**	**3 071 859**

31.2 Engagements reçus

Le Groupe Combiné a reçu un engagement d'un montant total de 25 millions d'euros de GDF Suez pour la souscription à des obligations à taux variable à durée indéterminée (TSDI), qui financeront la construction du réseau Sipperec. Au 31 décembre 2012, le Groupe Combiné a déjà perçu 23,8 millions d'euros en principal de GDF Suez.

Dans le cadre de la cession de NC Numéricâble au 31 mars 2005 par les groupes France Télécom, TDF et Vivendi/Canal+, les cédants ont accordé des garanties spécifiques jusqu'en 2014 au Groupe Combiné, comprenant notamment les risques fiscaux et sociaux ainsi que les risques spécifiques liés aux réseaux plan câble exploités par NC Numéricâble.

32 Evénements postérieurs à la clôture

Refinancement de la dette en juillet 2013

En juillet et en août 2013, le Groupe Combiné a amendé ses Dettes Senior ce qui a permis au Groupe Combiné de rééchelonner une grande partie de sa dette financière.

Le nouvel échéancier des Dettes Senior est comme suit:

Maturité	**2013**	**2014**	**2015**	**2016**	**2017**	**2018**	**2019**	**Total**
En millions d'euros	41,7	26,3	63,1	102,2	1 246,7	698,4	584,4	2 762,8

Pour mémoire, l'échéancier des Dettes Senior, avant les opérations de refinancement opérées en juillet et août 2013 était comme suit :

Maturité	**2013**	**2014**	**2015**	**2016**	**2017**	**2018**	**2019**	**Total**
En millions d'euros	54,0	125,0	453,9	808,7	465,2	271,6	584,4	2 762,8

Dans le cadre du refinancement d'août 2013, le Groupe Combiné a également obtenu une nouvelle ligne de crédit revolving (dénommée *Revolving Credit Facility*) de 24 millions d'euros. Ainsi, le montant total disponlble au titre de ces lignes de crédit est porté à 89 millions d'euros.

Enquête approfondie de la Commission européenne sur la cession par certaines collectivités d'infrastructures câblées

Le 17 juillet 2013, la Commission européenne a indiqué avoir décidé d'ouvrir une enquête approfondie afin de déterminer si la cession d'infrastructures câblées publiques opérée entre 2003 et 2006 par plusieurs collectivités territoriales françaises à Numericable était conforme aux règles de l'Union Européenne en matière d'aides d'Etat. La Commission européenne a exprimé à ce stade des doutes sur la compatibilité de l'aide que représenterait l'avantage économique conféré selon elle à Numericable, à raison des conditions de cette cession.

Numericable Group

Statutory Auditor's Report on the Numericable Group Combined Financial Statements for each of the three years ended December 31, 2012, 2011 and 2010

To the Chairman and Chief Executive Officer of Numericable Group,

In our capacity as statutory auditor of Numericable Group (the "**Company**") and in accordance with Regulation (EC) No 809/2004, we have audited the accompanying combined financial statements of the group described in Note 1.5, which comprise the combined statement of financial position of the Company as of December 31, 2012, 2011 and 2010, the combined statement of income, the combined statement of comprehensive income, the combined statement of cash flows and the combined statement of changes in equity for each of the three years then ended and a summary of significant accounting policies and other explanatory notes (together the "**Combined Financial Statements**").

The Combined Financial Statements have been established under the responsibility of the Board of Directors of the Company in the context of the contemplated initial public offering of the shares of Numericable Group and in connection with the contemplated restructuration of the Ypso France SAS and Altice B2B France SAS operations under Ypso France SAS. Our responsibility is to express an opinion on the Combined Financial Statements based on our audit.

We conducted our audit in accordance with professional standards applicable in France. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Combined Financial Statements are free from material misstatement. An audit involves performing procedures, using sampling techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the Combined Financial Statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the Combined Financial Statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the Combined Financial Statements prepared for the purpose of the prospectus give a true and fair view of the assets and liabilities and of the financial position of the combined group as at December 31, 2012, 2011 and 2010 and the results of the operations and of its cash flows for each of the three years then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Without qualifying our opinion, we draw your attention to:

- The basis of preparation in Note 1.4, which describes notably in section "Basis of combination", the accounting method used for the combination of the two groups being under common control in the absence of specific guidance under IFRS as adopted by the European Union;
- The fact set out in Note 1.6 to the Combined Financial Statements which discloses the facts upon which management of the Company has based its evaluation of the ability of the combined group to meet its financing needs in 2013 and the reason supporting the continuing use of the going concern principle for preparing the Combined Financial Statements.

Neuilly-sur-Seine, September 6, 2013
The statutory auditor
Deloitte & Associés

Christophe Saubiez

Tax on items recognized directly in equity	-	-	-
Total other comprehensive income/(loss) attributable to owners of the entity	**84,881**	**194,859**	**58,039**

In accordance with IAS 1 *Presentation of financial statements (2007)* (IAS 1), the Combined Group, as defined in Note 1, presents a statement of other comprehensive income. However, as the Combined Group operates only in France, the functional and presentation currency of all the entities within the Combined Group is the euro. As a result, no cumulative translation adjustment has been recognized as of December 31, 2012, 2011 and 2010.

Available-for-sale financial assets are comprised of various investments in entities not comprised in the combination, that are not listed (see Note 17) for which fair value cannot be measured reliably. Due to the fact that these investments are not material, these investments are measured at cost and accordingly, no unrealized gain/loss is recognized in the statement of other comprehensive income.

As mentioned in Note 2.20, the Combined Group recognizes actuarial gains and losses immediately through income. Accordingly, there are no actuarial gains and losses recognized directly in equity.

1 Basis of preparation of the combined financial statements

1.1 Presentation of the Two Groups forming Numericable Group

Numericable Group (the "Company") is a limited company under French law, whose head office is located in France and has been formed in August 2013. In relation to the admission of the shares of the Company on Euronext Paris, the Company will receive the contribution of two entities incorporated in Luxembourg, Ypso Holding S.à.r.l and Altice Lux Hold S.à.r.l., which are holding companies that are respectively parent companies of Ypso France SAS and Altice B2B France SAS. Ypso Holding S.à.r.l, Ypso France SAS and its subsidiaries are hereafter referred to as "Ypso" and Altice Lux Hold S.à.r.l., Altice B2B France SAS and its subsidiaries are hereafter referred to as "Altice B2B".

Ypso France SAS

Ypso France SAS, which operates the Numericable business, is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. Ypso France SAS also provides French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Altice B2B France SAS

Altice B2B France SAS, through its main operational entity, Completel SAS, operates the largest alternative fiber-to-the-office, or FTTO, network in France, constituting the third alternative Digital Subscriber Line ("DSL") network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

1.2 Description of the context

Ypso and Altice (collectively the "Two Groups" or the "Combined Group") are currently entities under common control. The Two Groups are ultimately controlled by three private equity funds Carlyle, Cinven and Altice. The purpose of the combined financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical bases in the assets, liabilities and results of operations and cash flows for each period presented in the combined financial statements. Accordingly, the combined financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Ypso and Altice B2B, which are separate legal groups at December 31, 2012, 2011 and 2010.

The combined financial statements have been prepared for the three-year period ended December 31, 2012, 2011 and 2010 (collectively the "Combined Financial Statements") in conjunction with the contemplated initial public offering of the shares of Numericable Group (the "Offering"). It is expected that Ypso will acquire 100% of the share capital of Altice B2B (the "Combination") in order to reflect the combination of the Two Groups.

1.3 Statement of compliance

The combined financial statements of Numericable Group include a combined statement of financial position as of December 31, 2012, 2011 and 2010, a combined statement of income, a combined statement of comprehensive income, a combined statement of cash flows and a combined statement of changes in equity for each of the three years in the period ended December 31, 2012 and the underlying Notes. The combined financial statements have been prepared in compliance with International Financial Reporting Standards

(“**IFRS**”) as published by the International Accounting Standards Board (“**IASB**”) and as adopted by the European Union at December 31, 2012.

The Combined Financial Statements were approved by the Board of Directors on September 6, 2013.

1.4 Basis of presentation of the Combined Financial Statements

IFRS financial statements.

For the purpose of preparing the Combined Financial Statements, accounting principles effective as of December 31, 2012 have been applied to all years presented in these Combined Financial Statements.

Ypso France and Altice B2B France prepare separate consolidated financial statements in accordance with the accounting rules and principles generally accepted in France (“**French GAAP**”), in application of Regulations n° 99.02 and n° 2005.10 of the Accounting Regulations Board, in connection with the financing agreement entered into with the banks on June 6, 2006 and subsequently amended on July 18, 2006, March 2, 2007 and June 24, 2008.

Ypso France SAS also prepares consolidated financial statements in accordance with IFRS to comply with its reporting requirements in relation to the issuance of the Ypso High-Yield Notes (as defined in Note 4.1.1).

In preparing the Combined Financial Statements, Altice B2B France prepared consolidated financial statements in accordance with French GAAP and converted them to IFRS which resulted in the following adjustments:

- Connection fees for business clients have been amortized over the contractual engagement period in accordance with IAS 18 *Revenue*;
- Under IFRS, certain lease arrangements relating to offices and equipment have been analyzed as finance leases as a result of applying the criteria defined under IAS 17 *Leases*. Under French GAAP, these lease arrangements were analyzed as operating leases and need to be reclassified as finance leases under IFRS;
- In accordance with the exemption provided for in IFRS 1 *First-time adoption of IFRS*, past business combinations that occurred prior to January 1, 2010 have not been restated and no amortization of goodwill has been recognized under IFRS;
- Under IFRS, transaction costs (including debt issuance costs) that are directly attributable to the acquisition or issue of a financial liability are deducted from the liability’s carrying value. Debt issuance costs are amortized over the debt term using the effective interest method (as opposed to the immediate recognition of a financial expense under French GAAP);
- Changes in the fair value of interest-rate derivative instruments have been recognized immediately in the combined statement of income within financial income and expenses under IFRS whereas under French GAAP, these interest rate swaps are considered as off-balance sheet commitments. Changes in fair value of interest rate derivatives are reported as other assets and liabilities under IFRS;
- The research tax credit is determined based on a certain amount of qualifying R&D staff costs, which are capitalized under IAS 38 *Intangible Assets* (“**IAS 38**”). As a result, the amount of research tax credit has been recognized ratably over the useful life of the capitalized costs, that is 3 years;
- Certain non-recurring income and expenses have been reclassified to EBITDA and/or financial income in the combined statement of income under IFRS.

Subsequent events.

The Combined Financial Statements of Numericable Group were prepared under the responsibility of the Chairman of Ypso and Altice B2B and approved by the Board of Directors of the Company on September 6, 2013. The preparation of the Combined Financial Statements is consistent with estimates reflected in the consolidated financial statements of Ypso and Altice B2B as of December 31, 2012, which were respectively authorized for issue on April 10, 2013 and April 18, 2013 by the Chairman. With the exception of the adjustments made in connection with the conversion of the consolidated financial statements of Altice B2B from French GAAP to IFRS, no adjustment has been reflected in the Combined Financial Statements for any subsequent events since April 18, 2013 to reflect exactly the position that was presented in the consolidated financial statements of the Ypso and Altice for which the Combined Financial Statements are being prepared as disclosed hereafter with the exception of the adjustments made in connection with the conversion in IFRS of the Financial Statements of Altice B2B prepared in accordance with French GAAP.

Basis of combination.

The Combined Financial Statements were prepared using the accounting records that were used to prepare the consolidated financial statements of the Ypso and Altice B2B sub-groups for the year ended December 31, 2012, 2011 and 2010.

All intra-group balances and transactions have been eliminated in preparing the Combined Financial Statements, including the transactions between Ypso and Altice B2B and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Carlyle, Cinven and Altice and the Combined Financial Statements reflects the combination of Ypso and Altice using the following methods and principles:

- o In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* ("IFRS 3"), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation*. and SEC Regulation S-X Article 3A – *Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Combined Financial Statements.

- o Likewise, the Combined Financial Statements were prepared by aggregating the separate consolidated financial statements of Ypso and Altice B2B at their historical book value:
  - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Ypso and Altice B2B sub-groups and fully aggregated at their historical book value without being revalued;
  - Preexisting non-controlling interests have been maintained at their book value in the combined statements of financial position. They primarily represent the 0.6% ownership in Completel Europe NV (a subsidiary fully consolidated in the consolidated financial statements of Altice B2B France) that was repurchased by Altice B2B France for approximately €5 million in 2010;
  - The combined equity has been determined by aggregating the consolidated equity of the sub-groups Ypso and Altice;

- No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Combined Financial Statements;
- The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated;
- Subordinated debt instruments from ultimate shareholders, which are recorded in the liabilities of Ypso Holding and Altice B2BLux, have been classified directly in equity as they will be contributed to Numericable Group by the shareholders as a result of the contemplated reorganization and then be converted into share capital.

With respect to the presentation of comparative information, the comparative information for 2010 has been adjusted to reflect the combination at the beginning of the earliest period presented, that is, January 1, 2010, date as of which both Groups were under common control.

1.5 List of entities comprised in the Combination

Subsidiaries

Entities forming the Combined Group are companies in which the Two Groups have a controlling interest through Ypso or Altice, that is, entities in which the Two Groups have the power to govern financial and operational policies in order to obtain benefits from their operations. Control exists when the Combined Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the Combined Financial Statements from the date that control commences until the date that control ceases. Non-controlling interests in subsidiaries are identified separately from the Combined Group's equity therein.

Associates

Investments in which the Combined Group exercises significant influence, but not control or joint control, are accounted for under the equity method. Such investees are referred to as "associates" throughout these Combined Financial Statements. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. Associates are initially recognized at cost. The Combined Financial Statements include the Combined Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

As of 31 December 2012, 2011 and 2010, the Combined Financial Statements result from the combination of the following entities:

Company and legal form of incorporation	**Registered office**	**Consolidation method as of December 31 2012, 2011 and 2010**	**Percentage of control**			**Percentage of interest**

B3G NV	Netherlands	Full consolidation	100%	100%	100%	100%	100%	100%

(1) The Combined Group acquired in January 2012 the shares of Sequalum Participation that were held by Eiffage (15.78%). After this operation, the Combined Group owned 95% of Sequalum Participation.

(2) The entities Altitude Telecom, B3G SA and B3G Online were merged in 2011 in Completel SAS.

1.6 Going concern assumption

The Combined Group was formed by a series of acquisitions, mainly funded through external borrowings. In addition, the construction and subsequent modernization of the network have required substantial investments. These two factors explain the structure of the statement of financial position and the proportion of financial liabilities in relation to total equity as well as the significant amount of amortization expense and net finance cost.

Currently, the Combined Group services its debt and funds its investments through net cash from operations. Furthermore, the Combined Group's covenants under its facility agreements require the Combined Group to comply with certain liquidity ratios and to maintain certain cash levels.

Furthermore, as explained in Note 32, the Combined Group amended its Senior Facility Agreements in July and August 2013 which allowed the Combined Group to reschedule a large portion of its debt.

Under these conditions and given the updated cash flow projections, management believes that the Combined Group will be able to finance its cash requirements for the next twelve months from the date of approval of the Combined Financial Statements for the three years ended December 31, 2012 and meet its financial debt obligations during the period.

As a result, the Combined Financial Statements of the Combined Group for the three years ended December 31, 2012 have been prepared on a going concern basis.

2 Significant accounting policies

2.1 Accounting principles governing the preparation of the Combined Financial Statements

Standards and interpretations applied by the Combined Group as of December 31, 2012

With the exception of the principles used for the combination, as disclosed in Note 1, the accounting policies for recognition and measurement used in preparing the Combined Financial Statements at December 31, 2012 are the same as those used in the previous consolidated financial statements of Ypso under IFRS. Adjustments have been recognized to convert the consolidated financial statements of Altice B2B (prepared under French GAAP) to IFRS (see Note 1.4).

As mentioned in Note 1, the Combined Financial Statements have been prepared in accordance with International Financial Reporting Standards ("**IFRS**") as adopted by the European Union ("**EU**") with mandatory application as of December 31, 2012. The recognition and measurement principles of International Financial Reporting Standards as adopted by the European Union have been applied in preparing the Combined Financial Statements. They are available on the following website:

http://ec.europa.eu/internal_market/accounting/ias/index_en.htm

Standards and interpretations adopted by the European Union with mandatory application as of December 31, 2012 are similar to the standards and interpretations published by the International Accounting Standards Board ("**IASB**"), with the exception of the carve-out of IAS 39 *Financial Instruments: Recognition and Measurement* ("**IAS 39**") and the below standards and interpretations adopted by the EU but not yet mandatory in EU as of December 31, 2012. However, those standards and interpretations are not applicable to the Combined Group. As a result, the Combined Financial Statements comply with International Financial Reporting Standards as published by the IASB.

The standards and interpretations applicable from January 1, 2012 have no significant effect on the Combined Financial Statements as of date

Standards and interpretations compulsory after December 31, 2012 and not early adopted by the Combined Group

The following are standards and interpretations that have been issued by the IASB and the IFRS Interpretations Committee and adopted by the EU at the date of preparation of these Combined Financial Statements but that are not yet mandatory. The Combined Group has not elected an earlier application:

- IAS 27 (revised 2011): Separate Financial Statement (applicable on or after January 1, 2014 for the Combined Group) ("**IAS 27**")

This standard outlines the accounting and disclosure requirements for 'separate financial statements', which are financial statements prepared by a parent, or an investor in a joint venture or associate, where those investments are accounted for either at cost or in accordance with IAS 39 *Financial Instruments: Recognition and Measurement*. The standard also outlines the accounting requirements for dividends and contains numerous disclosure requirements.

- IAS 28 (revised 2011): *Investments in Associates and Joint Ventures* (applicable on or after January 1, 2014 for the Combined Group) ("**IAS 28**")

This standard relates to the accounting for joint ventures and associates under the equity method.
Some clarifications have been included with respect to the accounting for changes in ownership interests (with or without loss of control) whereas disclosures are now covered by IFRS 12.

- IFRS 10: *Consolidated Financial Statements* (applicable on or after January 1, 2014 for the Combined Group) ("**IFRS 10**")

IFRS 10 supersedes SIC-12 and IAS 27 for the part relating to the consolidated financial statements. This standard deals with the consolidation of subsidiaries and structured entities, and redefines control which is the basis of consolidation.

- IFRS 11: *Joint Arrangements* (applicable on or after January 1, 2014 for the Combined Group) ("**IFRS 11**").

IFRS 11 supersedes IAS 31 and SIC-13.

This standard deals with the accounting for joint arrangements. The definition of joint control is based on the existence of an arrangement and the unanimous consent of the parties which share the control.

There are two types of joint arrangements (i) *joint ventures*: the joint venturer has rights to the net assets of the entity to be accounted for using the equity method, which is the method already applied by the Combined Group; and (ii) *joint operations*: the parties to joint operations have direct rights to the assets and direct obligations for the liabilities of the entities which should be accounted for as arising from the arrangement.

- IFRS 12: *Disclosure of interest in Other Entities* (applicable on or after January 1, 2014 for the Combined Group) ("**IFRS 12**")

IFRS 12 supersedes disclosures previously included in IAS 27, IAS 28 and IAS 31.

This standard groups and develops all the disclosures related to subsidiaries, joint ventures, associates, consolidated and unconsolidated structured entities.

- IFRS 13: *Fair value Measurement* (applicable for annual periods beginning on or after January 1, 2013) ("**IFRS 13**")

IFRS 13 is a single source of fair value measurement and disclosure requirements for use across IFRSs. It defines fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurements, including the fair value hierarchy already set out in IFRS 7.

- IAS 19 *(revised 2011): Employee Benefits* (applicable on or after January 1, 2013 for the Combined Group) ("**IAS 19**")

The main changes are:

- the recognition of actuarial gains and losses through Other Comprehensive Income, which will result in a change in accounting principles as the Combined Group recognizes actuarial gains and losses through income as at December 31, 2012 ; and
- the modification of the calculation of the finance cost component, due to the removal of the expected return on plan assets, which is not expected to have a material effect on the Combined Group's financial statements;
- the immediate expense of non-vested past service costs which has no expected material effect to date on the Combined Group's financial statements.

The other amendments and interpretations not yet adopted by the Combined Group as at December 31, 2012 are as follows:

- Amendments to IAS 1- Presentation of Items of Other Comprehensive Income and Separate *Financial Statements* (applicable on January 1, 2013 for the Combined Group)

- IFRIC 20, *Stripping Costs in the Production Phase of a Surface Mine* (applicable on January 1, 2013 for the Combined Group) (**"IFRS 20"**)

- Amendments to IFRS 7 *Disclosures – Offsetting Financial Assets and Financial* Liabilities (applicable on January 1, 2013 for the Combined Group)

- Amendments to IAS 32 *Offsetting Financial Assets and Financial Liabilities* (applicable on January 1, 2013 for the Combined Group)

- Amendments to IAS 12 *Deferred Tax – Recovery of Underlying Assets* (for annual periods beginning on January 1, 2013 for the Combined Group)

- Amendments to IFRS 1 *Severe Hyperinflation and Removal of Fixed Dates for First-Time Adopters* (applicable on January 1, 2013 for the Combined Group)

Management is currently assessing the potential impact of the application of these standards and amendments on the combined statement of income, the combined statement of financial position, the combined statement of cash flows and the content of the notes to the Combined Financial Statements but at this stage does not anticipate any material effect related to the application of these standards, interpretations and amendments.

The Combined Financial Statements have been prepared according to the historical cost principle, with the exception of certain assets and liabilities detailed below:

- derivative financial instruments measured at fair value;
- financial assets at fair value through profit and loss measured at fair value;
- available-for-sale financial assets measured at fair value.

2.2 Foreign Currency Translation Adjustments

The Combined Financial Statements are presented in euros, the functional and presentation currency of the Two Groups. All financial data are rounded to the nearest thousand of euro.

Foreign currency transactions are initially recorded in the functional currency at the exchange rate prevailing at the date of the transaction. At the closing date, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the exchange rate prevailing on that date. All foreign currency differences are expensed. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of initial transaction. All foreign currency differences are recognized in profit and loss.

2.3 Revenue

Revenue from the Combined Group's activities is mainly composed of:

- TV subscriptions (TV), broadband Internet, basic cable services, telephony and installations fees. invoiced to residential and business clients.

- Data transmission and very high speed Internet services, telecommunications services, convergence and mobility solutions, invoiced to business clients.

- Network infrastructure-based services, including indefeasible rights of use ("IRUs") arrangements or bandwidth capacity on our network, to other telecommunications operators and offer related maintenance services.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Combined Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales between entities comprised in the scope of combination.

Revenue is recognized and presented as follows, in accordance with IAS 18 *Revenue* (IAS 18):

- Revenues from subscriptions for basic cable services, digital TV pay, internet and telephony are recognized on a straight-line basis over the subscription period; revenues from telephone calls are recognized when the service is rendered.

- When a promotion not related to a customer's past consumption and purchases (such as subscription rate discount, service free period) is offered to a customer in relation to a subscription, the Combined Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract provided that the Combined Group has the enforceable and contractual right to deliver the products after the promotional free month period to the customer. If a promotion is not related to the subscription for a contract including a non-cancellable period, the company recognizes revenues during the promotion period up to the consideration received or receivable, as the customer's continuance is not assured.

- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship.

- Service access fees for business clients, when the access to the services is provided and they are associated to equipment or a service, are deferred and the revenue is recognized along the estimated client lifetime duration. They generally spread over the contractual engagement period.

- The revenue related to transmission capacity on terrestrial cables under IRUs arrangements are recognized on a straight-line basis over the life of the contract.

2.4 Deferred revenue

For certain arrangements entered into with its non-residential customers, the Combined Group receives up-front cash payments, namely in relation to indefeasible right of use arrangements and connection fees. For these arrangements, the revenue is generally recognized ratably over the term of the lease contract. Deferred revenue at the end of the reporting period represents unrecognized network lease revenue.

2.5 Operating Income before depreciation and amortization

The Combined Group has included the subtotal "Operating income before depreciation and amortization" or "EBITDA" on the face of the combined statement of income because management believes that this subtotal is useful as it provides a measure of operating results that excludes non-cash elements such as depreciation and amortization, thus enhancing the predictive value of the financial statements.

Furthermore, EBITDA is an indicator used internally by management to measure the operational and financial results, to make decisions with respect to investments and allocation of resources, and to assess the performance of management personnel.

The subtotal EBITDA may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the combined financial statements in accordance with IFRS 1.

2.6 Finance costs

Finance costs primarily comprise:

- interest charges and other expenses paid for financing operations recognized at amortized costs and changes in the fair value of interest rate derivative instruments that do not qualify as hedges according to IAS 39, which are classified in "Interest relative to gross financial debt" in the combined statements of income;
- interest income relating to cash and cash equivalents;

Impact of discounting provisions for retirement benefits is recognized in operating income in "Staff costs and employee benefits expense" with the related charges.

2.7 Segment information

IFRS 8 *Operating Segments* requires segment information to be presented on the same basis as the one used for internal reporting purposes. As the Combined Group intends to report on that basis in the future, the three following operating segments have been identified:

- B2C operations
- B2B operations
- Wholesale services

B2C operations

The Combined Group provides residential and business clients with TV subscriptions services, broadband Internet, basic cable services, telephony and installations fees.

B2B operations

The Combined Group provides business customers with a comprehensive service offering, which includes data transmission and very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

Wholesale services

The Combined Group sells network infrastructure-based services, including IRUs or bandwidth capacity on its network, to other telecommunications operators and offer related maintenance services.

2.8 Income taxes

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (i) the initial recognition of goodwill, (ii) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and (iii) investments in subsidiaries, branches and associates when the Combined Group is able to control the timing of the reversal of the temporary difference and when it is probable that the temporary difference will not reverse in the foreseeable future.

Accordingly, for companies included in the scope of combination, a deferred tax liability may be recognized in the amount of taxes payable on planned dividend distributions by these companies.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred taxes are reviewed at each reporting date to take into account changes in fiscal legislation and perspectives of recovering deductible temporary differences. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized in a predictable horizon.

2.9 Government grants and investment subsidies

Entities of the Combined Group may receive non-repayable government grants and investment subsidies in the form of direct or indirect funding of capital projects, mainly provided by local and regional authorities. These grants are deducted from the cost of the related assets and recognized in the combined statement of income, based on the pattern in which the related asset's expected future economic benefits are consumed.

2.10 Goodwill and Business Combinations

Business combinations are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 are recognized at their fair value at acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* (IFRS 5) and measured at the lower of their carrying amount and fair value less cost to sell.

The consideration transferred corresponds to the fair value, at the date of acquisition, of assets given, liabilities incurred or assumed, and equity instruments issued by the Combined Group in exchange for control of the acquiree. The goodwill arising from a business combination is equal to the difference between the sum of the consideration paid, the value of any non-controlling interest that remains outstanding after the business combination and, where applicable, the acquisition-date fair value of the acquirer's previously-held equity interest in the target, minus the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed. This goodwill is recognized in assets in the combined statement of financial position. When the difference is negative, it is directly accounted in net income.

The secondary costs directly attributable to an acquisition giving the control are recorded in expenses in the period during which the costs are incurred, except for the borrowing costs which must be recorded according to standards IAS 32 *Financial Instruments: Presentation* (" IAS 32 ") and IAS 39.

When goodwill is determined provisionally at the end of the period in which the combination is effected any adjustments to those provisional values within twelve months of the acquisition date are recognized in goodwill.

With respect to the acquisition of non-controlling interests (i.e. non-controlling interest in a subsidiary that is already included in the scope of combination), the Combined Group fully allocates the difference between the price paid and the share in net assets acquired to equity in accordance with IAS 27 (2008), with no revaluation of the assets and liabilities acquired.

Goodwill resulting from the acquisition of subsidiaries or joint ventures is presented separately in the Combined Statement of Financial Position. Impairment relative to this goodwill is presented on the line "Depreciation and amortization" of the Combined Statement of Income.

Goodwill resulting from the acquisition of associates is included in the book value of the participation. Impairment relative to this goodwill is presented on the line "Share in net income (loss) of associates".

Goodwill is not amortized but is subject to an impairment test whenever there is any indication that an asset may be impaired and at least once a year according to the methods and hypotheses described in Note 15.

After initial recording, goodwill is recorded at cost less recorded accumulated impairment losses.

2.11 Intangible assets

Recognition and measurement principles

Intangible assets are measured at cost less accumulated depreciation and accumulated impairment losses. Cost comprises all directly attributable costs necessary to buy, create, produce, and prepare the asset to be capable of operating. Intangible assets consist mainly of indefeasible rights of use, patents, acquired and internally generated software.

IRUs correspond to the right to use a portion of the capacity of a terrestrial or submarine transmission cable granted for a fixed period. IRUs are recognized as an asset when the Combined Group has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life. They are depreciated over the shorter of the expected period of use and the life of the contract between 3 and 20 years.

Patents are amortized on a straight-line basis over the expected period of use, generally not exceeding 10 years.

Software is amortized on a straight-line basis over its expected useful life which generally does not exceed 3 years.

The cost of an internally generated intangible asset is the sum of personnel expenditures incurred from the date the intangible asset first meets the recognition criteria of IAS 38. An intangible asset arising from the development phase of an internal project shall be recognized if, and only if, an entity can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention to complete the intangible asset and use or sell it;

- its ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
  Among other things, the entity can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset;
- its ability to measure reliably the expenditures attributable to the intangible asset during its development.

Capitalization of costs ceases when the project is finalized and the asset is available for use. The cost of an internally generated intangible asset arising from the development phase of an IT internal project is amortized on a straight-line basis over its expected useful life which generally does not exceed 3 years.

Conformity with agreements entered into with local authorities

To set up and operate its networks, the company has entered into various agreements with the local authorities and representative bodies under successive legal frameworks (French cable network plan, Freedom of Communication Act of 1986, etc.). Many of these agreements convey exclusive rights to the operator and also lay down obligations in terms of local television service provision, programming, pricing policy, and the associated license fees payable. Some of the agreements are public service concessions with "return property" clauses, whereby ownership of the technical plant and civil engineering work reverts to the local authorities at the end of the concession.

The EU Telecoms Directives of 2002, referred to as the "Telecoms Package", set forth the principle of open competition among operators in the telecommunications market, requiring national regulatory authorities to enforce fair competition conditions, without granting exclusive or special rights for setting up and operating networks. The French law of July 9, 2004, which transposed the Telecoms Package into French law, required existing agreements to be brought into compliance by the end of July 2007 at the latest, in order to remove all exclusive rights clauses and ensure the shared use of public civil engineering infrastructure.

The Combined Group believes that only a minority of the agreements entered into with the local authorities were classified as public service concessions when concluded and that IFRIC 12 does not apply, with the exception of the contract entered into in relation to the public service delegation arrangement with the department of Hauts-de-Seine (*Délégation de Service Public 92).*

Service Concession agreement entered into with the department of Hauts-de-Seine

Sequalum, a subsidiary of the Combined Group, was selected in 2007 by the district of Hauts-de-Seine to plan, deploy and operate a Fiber To The Home ("FTTH") very-high-speed fiber network throughout the district under a Délégation de Service Public ("DSP"), called DSP 92. A DSP is a form of public-private partnership under French law pursuant to which a public authority entrusts private entities to operate a public service in return for remuneration that is based on the results of operations of the service in question.

The terms of the service arrangement signed between Sequalum and the department of Hauts-de-Seine require Sequalum to construct the network — completing construction within 72 months — and maintain and operate the network to a specified standard for 25 years. At the end of the 25th year, the service arrangement will end.

Sequalum provides construction services to the department of Hauts-de-Seine in exchange for an intangible asset, ie a right to collect revenue from the network users. In accordance with IAS 38, Sequalum recognizes the intangible asset at cost, i.e. the fair value of consideration transferred to acquire the asset, which is the fair value of the consideration received or receivable for the construction services delivered.

Main characteristics of the agreement are:

Control and regulation of prices	**Origin of the revenue**	**Subsidy granted by the grantor**	**Residual value**	**End of the agreement**	**Accounting model**
Rates are defined in the service agreement	Users	€59 million subsidy to finance the construction	Network will be returned to the grantor with no indemnity, except for some assets (actifs de reprise)	Contract will end after 25 years	Intangible asset / financial receivable

2.12 Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Land is not depreciated. Buildings and premises are amortized on a straight-line basis over 20 years.

When property, plant and equipment include significant components with different useful lives, they are recorded and amortized separately. With respect to network and technical equipment, amortization and depreciation are calculated on a straight-line basis and the main amortization and depreciation periods are as follows:

Network and technical and equipment	*Method*	*Duration*
Network hubs	Straight line	10 to 15 years
Optical cables	Straight line	15 to 30 years
Engineering facilities	Straight line	20 to 40 years
Connections	Straight line	5 years
Digital terminals	Straight line	3 to 5 years
Furniture	Straight line	5 to 10 years
Fixtures and fittings	Straight line	8 to 10 years
Transport equipment	Straight line	2 to 5 years
Office equipment	Straight line	3 to 5 years
Computer equipment	Straight line	3 to 5 years

Gains or losses on disposal of property, plant and equipment are calculated as the difference between the profit from the disposal and the carrying amount of the asset and are recognized as other operating income or expenses.

2.13 Lease arrangements

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Combined Group as lessor

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Combined Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Combined Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

The Combined Group as lessee

Assets held under finance leases are initially recognized as assets of the Combined Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss. Contingent rentals are recognized as expenses in the period in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred. In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.14 Impairment of goodwill and non-current assets

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, or other intangible assets, property, plant and equipment and assets in progress, the Combined Group re-examines the value of these assets. In addition, goodwill, other indefinite life intangible assets and intangible assets in progress are all subject to an annual impairment test during the second semester of each fiscal year.

This test is performed in order to compare the recoverable amount of an asset or a Cash Generating Unit ("CGU") to its carrying amount.

An asset's or CGU's recoverable amount is the higher of its fair value less costs to sell and its value in use. Recoverable amount is determined for each individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the CGU to which the asset belongs. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets, which are, for the Combined Group, "B2C operations", "B2B operations" and "Wholesale services"

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or "DCF") by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtainable from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

Where the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption "Depreciation and amortization" in the statement of income. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment may be reversed.

2.15 Financial assets

The Combined Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1.

Purchases and sales of all financial assets are accounted for at the settlement date.

Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in companies that are not included in the combination. Fair value corresponds to the quoted price for listed securities or, for non-listed securities, the group values financial assets at historical cost, less any impairment losses, when a reliable estimate of fair value cannot be made using valuation techniques in the absence of an active market.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from equity to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

Available-for-sale financial assets are included in non-current asset unless management intends to dispose of the investment within 12 months of the statements of position date.

Loans and receivables

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has been incurred, the amount of this loss, measured as the difference between the financial asset's carrying value and its recoverable amount is recognized in profit or loss. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

Held-to-maturity financial assets

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Combined Group has a positive intent and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, using the effective interest rate method.

They are reviewed for impairment on an individual basis if there is any indication they may be impaired. The Combined Group does not classify any financial asset in this category.

Financial assets measured at fair value through profit or loss

These financial assets are measured at fair value with gains and losses recorded as financial income or expenses.

This category mainly includes:
- assets held for trading which the Combined Group intends to sell in the near future (primarily marketable securities);
- assets voluntarily classified at inception in this category;
- derivative financial assets.

2.16 Inventories

Inventories, mainly set-top boxes, other 'TV boxes' and technical equipment, are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method and includes expenditures incurred in acquiring the inventories.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

2.17 Cash and cash equivalents

Cash consists of cash in banks and deposits.

Cash equivalents consist of highly liquid investments not subject to significant changes in value and with an original maturity date of generally less than three months from the time of purchase.

2.18 Financial Liabilities

Financial liabilities other than derivative instruments include borrowings under the Senior Facility Agreement ("SFA"), debt related to finance leases, guarantee deposits, advances received, bank overdrafts.

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument. The accrued interests are included in "Current portion of financial liabilities" in the statement of financial position.

2.19 Derivatives

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value.

The Combined Group enters into interest rate swaps and caps to manage its interest rate exposure. The objective is to convert variable interest rate financial instruments into fix interest rate financial instruments. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any these derivative instruments are recognized immediately in the statement of income within financial income and expenses.

2.20 Employee benefits, provisions and contingent liabilities

Provisions are recognized when the Combined Group has a legal obligation (legal, regulatory or contractual) or a constructive obligation, as a result of past events, and it is probable that economic benefits in the form of outflow of resources will be required to settle the obligation and the obligation can be reliably estimated. Provisions shall be reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. A contingent liability is not recognized, but disclosed.

Employee benefits

The Combined Group participates in employee benefit plans through defined contribution plans, and defined benefit plans. The Combined Group accounts for pension costs related to defined contribution plans as they are incurred within personnel expenses in the statement of income.

Estimates of the Combined Group's pension and end-of-service benefit obligations are calculated annually, in accordance with the provisions of IAS 19 *Employee Benefits* (IAS 19), with the assistance of independent actuaries, using the projected unit credit method and considering actuarial assumptions including the probable tum-over of beneficiaries, salary increases, the expected average life span, the probable future length of the employees' service and an appropriate discount rate updated annually.

Actuarial gains and losses arising from experience, adjustments and changes in actuarial assumptions are recognized in profit and loss when they are incurred.

Litigations

The amount of provisions for litigation is based on the Combined Group's assessment of the level of risk and depends on its assessment of the basis for the claims.

Restructuring

Provisions for restructuring costs are recognized when the restructuring plans have been finalized and approved by the Combined Group's management, and when the Combined Group has raised a valid expectation, that it will carry out the plan either by starting to implement the plan or announcing its main features to employees affected by it. These provisions only include direct expenditures arising from the restructuring, notably severance payments, early retirement costs, costs for notice periods not worked and other costs directly linked with the closure of the facilities.

2.21 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to the Combined Group, it does not take a substantial amount of time to get ready for the intended use because of the incremental deployment of the network. IAS 23 *Borrowing Costs* has consequently no impact on the Combined Financial Statements.

3 Critical accounting judgements and key sources of estimation uncertainty

The preparation of the Combined Financial Statements in accordance with IFRS implies that the Group makes a certain number of estimates and assumptions that are realistic and reasonable.

In applying accounting policies during the preparation of the Combined Financial Statements, which are described in Note 2, management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

Such estimates are prepared based on the going concern assumption, established using currently available information and the current economic environment. In the actual economic environment, changes in facts and circumstances may result in revised estimates or assumptions, which could affect the financial position, results of operations and cash flows of the Group.

The preparation of these financial statements require management to make estimates and assumptions. Items subject to such estimates and assumptions mainly include:

- Revenue recognition: As indicated in Note 2.3, revenue under IAS 18 is measured at the fair value of the consideration received or to be received when the Combined Group has transferred the significant risks and rewards of ownership of a product to the buyer or when service is rendered. With respect to contracts that includes installation, connection and set-up fees for residential customers, significant judgment is required to determine whether the recognition criteria set forth in IAS 18 should be applied separately and whether installation, set-up and connection should be considered a separable service. With respect to service access fees for business clients, management estimates the statistical client lifetime duration and generally recognizes revenue ratably over the contractual engagement period, which is estimated at the inception of the arrangement based on historical information. Accordingly, depending upon how judgment is exercised and how estimates are determined, the timing and amount of revenue recognized could differ significantly.

- Capitalization of development costs: the criteria for capitalizing development costs are set out in Note 2.11. Once capitalized, these costs are amortized over the estimated useful lives of the respective products (generally 3 years). The Combined Group must therefore evaluate the commercial and technical feasibility of these development projects and estimate the useful lives of the products resulting from the projects. Should a product fail to substantiate these assumptions, the Combined Group may be required to impair or write off some of the capitalized development costs in the future. Note 13 provides information on the amount of capitalized costs in the combined statement of financial position.

- Fair value of financial instruments (see Note 27.3): fair value is determined by reference to the published market price at period end. For financial instruments for which there is no published market price in an active market such as the interest-rate swaps, which the Combined Group currently uses to hedge its interest rate risk, fair value is then estimated based on models that rely on market observable data or by the use of various valuation techniques, such as present value of future cash flows.

- Recognition of deferred tax assets on unrealized tax loss carryforward (see Notes 2.8 and 11): deferred tax assets relate primarily to tax loss carryforwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carryforwards are recognized if it is probable that the Combined Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Combined Group analyzes past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carryforwards. As of December 31, 2012, 2011 and 2010, in evaluating whether deferred tax assets should be recognized, management considered the weight of one form of negative evidence being a significant amount of cumulative losses in recent years and concluded that it is not probable that future taxable profit will be available against which the unused tax loss carryforward can be utilized. The application of this recognition principle has not resulted in any deferred tax asset recognized as at December 31, 2012, 2011 and 2010.

- Impairment tests (see Notes 2.10 and 15): the determination of recoverable amounts of the CGUs assessed in the annual impairment test requires an estimate of their fair value net of disposal costs as well as their value in use. The assessment of the value in use requires assumptions to be made with respect to the operating cash flows of the CGUs as well as the discount rates.

  The determination of the value in use is based on assumptions such as the weighted average cost of capital and the growth rate beyond the projection period. These assumptions can vary, which may result in the recoverable amount to decrease below the carrying amount, and therefore, to the recognition of an impairment charge.

  As of December 31, 2012, 2011 and 2010, the assumptions used to determine the value in use of the CGUs for which goodwill is allocated were as follows:

CGU "B2C operations"	2012	2011	2010
Length of projection period	8 years	8 years	8 years
Weighted average cost of capital	7.56%	8.18%	8.02%
Growth rate beyond projection period for terminal value	1.75%	1.75%	1.50%

CGU "B2B operations" and "Wholesale"	2012	2011	2010
Length of projection period	6 years	6 years	6 years
Weighted average cost of capital	9.42%	10.25%	9.77%
Growth rate beyond projection period for terminal value	1.00%	1.00%	1.00%

The determination of the value in use has been determined by using cash flow projections based on financial budgets approved by senior management covering a planning period of respectively 6 and 8 years. The relatively long projection period for estimating future cash flows is justified by the long contractual relationship with the customers. The projections of subscribers, revenue, costs, and capital expenditures are based on reasonable and supportable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers and the level of upgraded network infrastructure. The projections are based on both past experience and expected future market penetration with the various products.

4 Significant events for the period

4.1 Year ended December 31, 2012

4.1.1 Bond Issuances

In 2012, Ypso France SAS issued several bonds in order to refinance part of its existing financial debt.

In February 2012, Ypso France SAS issued a €360 million bond. The issuer was Numericable Finance & Co. S.C.A. (an unregulated securitization company in the form of a corporate partnership limited by shares incorporated under the laws of the Grand Duchy of Luxembourg). The proceeds from the notes have been used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank's (JP Morgan) participation in a loan (the "C-One" Facility Loan) whose sole lender was the bank itself under the Senior Facility Agreement to Ypso France SAS and which allowed Ypso France SAS to reimburse certain facilities under the SFA for €350 million.

The notes mature on February 15, 2019 and bear interest of 12.375%. Interests on the notes are paid semiannually on February 15 and August 15 of each year.

In February 2012, Ypso France SAS also obtained a new Revolving Credit Facility under the SFA for which the maximum amount that can be drawn is €65 million ("Revolving Credit Facility"). The revolving Credit Facility matures in March 2016. The used amount under this facility bears interest equal to Euribor plus 4.5%. The unused amount under this facility, which amounts to €65 million as of December 31, 2012, bears interest equal to a commitment fee of 2.25%.

According to the terms of the September 2011 Senior Facility Amendment and Restatement, maturities of certain lenders' commitments were extended by two years (comprising 50% of A and Capex Facilities and 2/3rd of B & C Facilities). Along with the extension of the maturities, the September 2011 Senior Facility Amendment and Restatement changed the margin level for the extended tranches and put a new set of financial covenants in place. The September 2011 Senior Facility Amendment and Restatement became effective on February 15th, 2012.

In October 2012, Ypso France SAS issued two other bonds for respectively € 225 million and € 275 million through the same issuer, Numericable Finance & Co. S.C.A. The proceeds from the notes have been used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank's (JP Morgan) participation in two new loans, the "C-Two A Facility Loan" and the "C-Two B facility Loan", whose sole lender was the Lending Bank itself under the Senior Facility Agreement to Ypso France SAS and which allowed Ypso France SAS to reimburse certain facilities under the SFA for €490 million.

The "C-Two A facility" amounts to €225 million. It matures on February 15, 2019 and bears a fixed interest rate of 8.75% per annum. Interests are paid semiannually on February 15 and August 15 of each year, commencing on February 15, 2013.

The "C-Two B facility" amount to €275 million. It matures in October 2018 and bears a floating interest rate equal to three-month EURIBOR plus 7.85% per annum. Interests are paid quarterly on January 15, April 15, July 15 and October 15 of each year, commencing on January 15, 2013.

Ypso France SAS paid €55 million in fees in connection with the implementation of these new facilities (C-One Facility, C-Two A Facility and C-Two B Facility) and the relative amendments to the Senior Facility Agreement. This amount includes:

- Bond issuance costs of €30.2 million which are amortized over the length of the notes using the effective interest rate method (this represents an additional finance cost of €3.8 million in 2012 as disclosed in Note 10);
- Waiver fees of €17.4 million which are recorded in "Other financial expense" in the combined statement of income for the period ended December 31, 2012;
- Advisory fees of €7.4 million which are recorded in "Other operating expenses" in the combined statement of income for the period ended December 31, 2012.

4.1.2 Purchase of the network of Nice

In April 2012, the Combined Group signed an agreement with the city of Nice in order to purchase the cable network of Nice for a value of €20 million.

The purchase price repayment is scheduled as follows:

- €2.5 million were paid in July 2012 and €2.5 million in January 2013;
- The remaining €15 million are payable over 20 years (€0.75 million each year from 2013 to 2032) with interest of 4%.

4.1.3 Tax audits

During the third quarter of 2012, the tax audits mentioned in Note 11.5 have been extended to fiscal year 2010. In the meantime, tax penalties related to the fiscal years 2005 to 2009 have been reduced.

As of December 31, 2012, the amount of provision recognized in relation to these tax audits has not been adjusted as management believes that the financial risk related to penalties for fiscal year 2010 will represent the same amount as the reductions notified by the administration conceming the penalties for fiscal years 2005 to 2009.

4.2 Year ended December 31, 2011

4.2.1 Disposal of Coditel Belgium and Coditel Luxembourg

In 2010, the management of Ypso France engaged in the sale of two subsidiaries: Coditel Belgium and Coditel Luxembourg. On May 19, 2011, the Group thus entered into a share purchase agreement with Altice, Deficom and Apax Partners to dispose of its activities in Belgium and Luxembourg. As a result, all of the outstanding shares in Coditel Belgium and Coditel Luxembourg were transferred on June 30, 2011 to Coditel Holding S.A., an entity based in Luxembourg, owned by Altice, Deficom and Apax MidMarket upon completion of the transaction. The proceeds from the sale of Coditel amounted to approximately €369 million.

In accordance with IFRS 5:

- the results of Coditel Belgium and Coditel Luxembourg are presented separately in the statements of income under "Net income resulting from discontinued operations" for all the periods presented;
- the cash flows from Coditel Belgium and Coditel Luxembourg are presented separately in the 2010 and 2011 statements of cash flows under "Net cash flow from discontinued operations" for all the periods presented.

The impact of the application of IFRS 5 is further detailed in Note 30.

4.2.2 Restructuring

In 2011, the merger between Altitude Telecom and Completel SAS led to a restructuring plan involving approximately 135 persons.

The costs related to this plan amounted to €4 million in 2011 and an additional provision of €4 million was recorded at December 31, 2011 in order to face all the expenses that the Combined Group planned to bear in 2012.

4.3 Year ended December 31, 2010

4.3.1 Purchase of Altitude Telecom

On December 29, 2010, the Combined Group acquired 100% of the shares of Altitude Telecom, a network operator mainly located in the West of France. The price of the transaction was approximately €58 million and was mainly financed through a new debt under the SFA, the "C Facility", for an amount of €45 million.

This operation generated an additional goodwill of €49 million in 2010.

4.3.2 Tax audits

As explained in Note 11.5, certain subsidiaries of the Combined Group (Ypso France SAS, NC Numericable SAS, Numericable SAS, Est Videocommunication and Completel SAS) are subject to tax audits by the French tax authorities.

In 2010, these tax audits have been extended from December 31, 2007 to December 31, 2009.

5 Segment information

As explained in Note 2.7, the Combined Group identified three operating segments which are:

- B2B operations
- B2C operations
- Wholesale services

The following tables provide, for each period presented, the contribution of each segment to the Combined Statements of Income (from "Revenue" to "Operating income before depreciation and amortization").

Intra-segments sales have been eliminated under the column "Eliminations".

FY 2012 - (in thousands of euros)	**B2C**	**B2B**	**Wholesale**	**Eliminations**	**FY 2012 Total**
Revenue	832,568	324, 506	211,476	(66,125)	1,302,425

6 Revenue

Revenue by nature breaks down as follows:

	Years Ended December 31,		
(in thousands of euros)	2012	2011	2010
B2C revenues	826,171	830,299	832,566
B2B revenues	323,201	328,235	252,573
Wholesale revenues	153,053	148,323	123,556
Total revenues	1,302,425	1,306,856	1,208,695

7 Purchases and subcontracting services

Purchases and subcontracting services are primarily comprised of the following:

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
TV Content, Internet and Telephony costs	(332,853)	(345,603)	(324,751)
Outsourcing and purchased services	(90,752)	(91,908)	(70,129)
Advertising fees	(30,120)	(30,993)	(22,197)
Fees paid to other third parties	(31,936)	(31,962)	(31,619)
Royalties and license fees paid	(12,089)	(12,810)	(14,031)
Rights of way paid	(15,316)	(15,983)	(14,241)
Rental and leasehold charges	(25,790)	(26,224)	(20,900)
Energy	(23,938)	(22,789)	(19,868)
Bad debt expense	(9,173)	(10,048)	(9,993)
Postal expenses	(4,378)	(4,676)	(5,158)
Transportation expenses	(4,286)	(4,643)	(3,155)
Repair and maintenance expenses	(11,911)	(13,321)	(10,577)
Miscellaneous operating expense	(9,579)	(10,736)	(11,184)
Purchases and subcontracting services	(602,121)	(621,696)	(557,803)

8 Other operating Income

Other operating income is primarily comprised of the following:

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Own work capitalized [a]	82,217	64,002	52,537
Proceeds from sale of assets	3,817	5,042	8,142
Other [b]	3,195	11,368	3,645
Other operating income	89,229	80,412	64,324

(a) Own work capitalized relates to network projects staffed by in-house employees resulting from increased upgrade activity of the cable footprint.

(b) In 2011, a fine of €10 million was paid by France Telecom as a result of a civil action enforced by the Court of Paris in March 2011 due to restrictive trade practices on the ADSL market in 2001 and 2002.

9 Other operating expenses

Other operating expenses are primarily comprised of the following:

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Net book value of assets sold	(7,382)	(10,003)	(11,500)
Fees paid in connection with refinancing	(7,372)	(3,526)	(1,050)
Management fees paid to our shareholders	(2,424)	(11,509)	(14,651)
Miscellaneous operating expense	-	(39)	(133)
Other operating expense	(17,178)	(25,077)	(27,334)

Management fees have been paid to our shareholders, Altice, Cinven and Carlyle, in relation to certain management, financing and advisory services provided.

10 Finance costs, net

Finance costs, net as of December 31, 2012, December 31, 2011 and 2010 can be analyzed as follows:

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Interest income received on cash and cash equivalents	106	479	635
Other interest income	4,220	729	173
Interest Income	4,326	1,208	808
Change in fair value of interest rate derivatives	-	26,982	48,468
Interest expense on financing determined using the effective interest rate	(183,057)	(204,326)	(223,530)
Interest relative to gross financial debt	(183,057)	(177,343)	(175,062)
Other financial expenses	(32,699)	(9,883)	(4,162)
Finance costs, net	(211,430)	(186,019)	(178,416)

As of December 31, 2012, other financial expenses mainly included:

- Waiver fees of €17.4 million paid in connection with the refinancing of the debt;
- Amortization expense of €3.8 million calculated using the effective interest method related to fees paid in connection with the implementation of the new facilities (C-One Facility, C-Two A Facility and C-Two B Facility).
- Provisions for financial risks of €1.9 million.

As of December 31, 2012, other interest income mainly includes a first payment of €2.8 million received regarding the Claim with Lehman Brothers following the bankruptcy of Lehman Brothers in September 2008 (see Note 27.3).

11 Income tax

11.1 Income tax expense

Income tax expense is comprised of the following:

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Current income tax expense	(2,486)	(13,387)	(3,841)
Deferred income tax expense	-	-	-
Income tax expense	(2,486)	(13,387)	(3,841)

11.2 Reconciliation between the effective tax rate and the theoretical tax rate

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Net income (loss) before tax	87,416	82,385	30,401
Less: Share in net income (loss) of equity affiliates	199	309	(368)
	87,615	82,694	30,033
Corporate tax rate in France	34.43%	34.43%	34.43%
Income tax expense calculated at 34.43%	(30,166)	(28,471)	(10,340)
Reconciliation of income tax expense			
Effect of revenue that is exempt from taxation and effect of expenses that are not deductible in determining taxable profit (1)	(13,830)	(8,696)	24,724
Effect of unused tax losses and tax offsets not recognized as deferred tax assets	41,083	23,731	(18,438)
Research tax credit (commonly known as the "CIR")	420	54	322
Effect of other differences	8	(3)	(107)
Income tax expense recognized in profit or loss	(2,486)	(13,387)	(3,840)
Effective tax rate (2)	2.84%	16.19%	12.79%

The tax rate used for the 2012, 2011 and 2010 reconciliations above is the corporate tax rate of 34.43% payable by corporate entities in France on taxable profits under tax law in that jurisdiction.

(1) For fiscal year 2012, amount mainly represents non-deductible interest expenses of €9.9 million as a result of the thin capitalization rules.

(2) The decrease in the effective tax rate from fiscal year 2011 to fiscal year 2012 is mainly due to the increase in the provision for tax audits (see Note 11.5) in 2011 of €10 million being recorded in income tax expense.

11.3 Current tax assets and liabilities

Tax refund receivables were not material as of December 31, 2012, December 31, 2011 and 2010.

The income tax payable is classified in "Current tax liabilities" and amounts to €2,604 thousand, €3,448 thousand and €194 thousand as of December 31, 2012, 2011 and 2010 respectively.

11.4 Unrecognized deferred tax assets

Aggregate unused loss carryforwards at December 31, 2012 amounted to €2,302 million representing a tax asset of €790 million. The tax asset for loss carryforwards was not recognized in the financial statements as its recovery depends on future earnings, which are uncertain.

The total net tax loss carryforward breaks down as follows:

(in thousands of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Ypso France and its subsidiaries	1,852,028	1,846,090	1,819,782
Altice B2B France and its subsidiaries	402,544	448,713	492,449
Ypso Holding Lux and Altice B2B Lux	47,785	235,890	235,328
Total tax loss carryforwards	2,302,357	2,530,693	2,547,559
Unrecognized deferred tax assets	790,212	859,028	864,864

Total tax loss carryforward includes a loss contested by the tax authorities (€56 million as of December 31, 2012).

11.5 Tax audits

Certain subsidiaries of the Combined Group, Ypso France SAS, NC Numericable SAS, Numericable SAS, Est Videocommunication and Completel SAS are subject to a tax audit by the French tax authorities for fiscal years ended from December 31, 2007 to December 31, 2010. As a result, a tax contingency for an amount of €25.1 million is recognized as of December 31, 2012 (€27 million as of December 31, 2011 and €15.7 as of December 31, 2010).

12 Goodwill

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Carrying amount, net:			
Balance as of the beginning of the year	1,458,638	1,458,585	1,618,485
Additional goodwill recognized during the period (1)	48	53	50,295
Disposal of Coditel	-	-	(210,195)
Balance as of the end of the year (2)	1,458,686	1,458,638	1,458,585

(1) In 2010, the additional goodwill of €50.3 million is mainly due to the acquisition of Altitude Telecom (as disclosed in the significant events) for €49.4 million.

In January 2012, the Group acquired the shares of Sequalum Participation that were held by Eiffage (15.78%). After this operation, the Group owned 95% of Sequalum Participation. The purchase price was €6 thousand for a negative equity value of (€41) thousand. Thus, this operation resulted in the recognition of an additional goodwill of €48 thousand.

The Combined Group is the result of a series of acquisitions.

As at December 31, 2012, goodwill breaks down as follows:

Net book value (in thousands of euros)	
B2C Operations	984,583
B2B Operations	474,103
Total	1,458,686

13 Other intangible assets

(in thousands of euros)	Capitalized development costs	Usage rights, patents and licenses	Commercial rights	Other intangible assets	Total

Usage rights represent the majority of the "usage rights, patents and licenses" balances. They reflect the rights to use the civil engineering installations and infrastructure built by the historical operator, France Telecom.

(*) As explained in note 2.11, the Combined Group applied IFRIC 12 in 2012 with respect to the contract entered into in relation to the public service delegation arrangement with the department of Hauts-de-Seine (Délégation de Service Public 92).

The application of this principle had the following impacts on the 2012 combined statement of financial position:

- Recognition of the net book value of €17.2 million classified in "Other intangible assets" (€26.6 million of investments less €9.5 million of grants received at December 31, 2011);
- Recognition of €26.4 million of capital expenditures in 2012 in "Usage rights, patents and licenses" (€38.0 million of investments less €11.5 million of grants received in 2012).

In addition, €26.4 million of capital expenditures have been incurred in relation to the public service delegation arrangement with the department of Hauts-de-Seine (Délégation de Service Public 92) and are classified in investing activities in the combined statements of cash flows.

Other	160	108	200
	39,689	34,213	27,604

15 Impairment test

15.1 Allocation of goodwill to the cash-generating units ("CGU")

In accordance with IAS 36 *Impairment of assets* ("IAS 36"), goodwill has been allocated to two CGUs. The first CGU, "B2C operations" includes the operational subsidiaries from the Ypso group, namely Numericable, NC Numericable and Est Videocommunication. The second CGU, "B2B operations", corresponds to the main operating entity of the Altice group, Completel SAS.

15.2 Key assumptions used to determine the recoverable amount of the CGUs

The impairment test of goodwill is done based on the respective cash generating units defined above. In accordance with IAS 36 *Impairment of Assets*, the impairment test is performed by comparing the carrying amount with the recoverable amount. The recoverable amount is determined based on the value in use using a discounted cash flow approach.

The determination of the value in use has been established by using cash flow projections based on financial budgets approved by senior management covering a planning period of respectively 8 years (CGU B2C) and 6 years (CGU B2B). The relatively long projection period for estimating future cash flows is justified by the long contractual relationship with the customers.

The projections of subscribers, revenue, costs, and capital expenditures are based on reasonable and supportable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers and the level of upgraded network infrastructure. The projections are based on both past experience and expected future market penetration with the various products.

As mentioned in Note 3, the determination of the value in use is based on assumptions such as the weighted average cost of capital and the growth rate beyond the projection period. These assumptions can vary, which may result in the recoverable amount to decrease below the carrying amount, and therefore to the recognition of an impairment charge.

No impairment has been recognized for any of the periods presented.

The determination of the value in use is based on the following estimates as of December 31, 2012, 2011 and 2010:

CGU "B2C operations"	2012	2011	2010
Length of projection period	8 years	8 years	8 years
Discount rate applied to the cash flow projections	7.56%	8.18%	8.02%
Growth rate beyond ("GTP") projection period for terminal value	1.75%	1.75%	1.50%

In terms of sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by approximately €145 million. Likewise, a change of plus or minus 0.25% in the GTP rate would increase or decrease the recoverable amount by approximately €100 million.

As of December 31, 2012, the amounts by which the key assumptions would have to change for the change to result in the recoverable amount equaling the carrying amount are as follows:

- WACC increase from 7.56% to 10.60%;
- GTP rate decrease point from 1.75% to -3.62%;
- Gross margin fall by 10.1% from an average gross margin of 49.4% to an average gross margin of 39.3%.

CGU "B2B operations"	2012	2011	2010
Length of projection period	6 years	6 years	6 years
Discount rate applied to the cash flow projections	9.42%	10.25%	9.77%
Growth rate beyond projection period for terminal value	1.00%	1.00%	1.00%

In terms of sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by roughly €60 million. Likewise, a change of plus or minus 0.25% in the GTP rate would increase or decrease the recoverable amount by approximately €40 million.

As at December 31, 2012, the amounts by which the key assumptions would have to change where the change would result in the recoverable amount equaling the carrying amount are as follows:

- WACC increase from 9.42% to 18.75%;
- GTP rate decrease from 1% to -26.25%;
- Gross margin fall from an average gross margin of 38.9% to an average gross margin of 24.4%.

16 Investment in associates

The Combined Group exercises significant influence over Alsace Connexia Participation, an associate accounted for under the equity method of accounting. Alsace Connexia Participation was initially owned 38.14% by Ypso France, 38.15% by LD Collectivités and 23.71% by Sogetrel Réseaux. In 2009, LD Collectivités bought the equity interest held by Sogetrel Réseaux and now holds a controlling interest (61.86%) in Alsace Connexia Participation.

Alsace Connexia Participation owns a 70% stake in Alsace Connexia, which has been granted a public service concession by the regional authority of Alsace to design, build, fund, operate and market telecommunications infrastructure in the region over a 15-year period. The concession contract took effect on February 3, 2005.

The following tables provide information on the net assets and operating results of Alsace Connexia Participation:

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Net assets	8,888	9,413	10,227
Share of net assets of Ypso France SAS	3,378	3,577	3,886

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Turnover (Alsace Connexia)	13,050	12,027	12,674
Net income (loss)	(524)	(815)	968
Share of net income (loss) of Ypso France SAS	(199)	(310)	368

17 Other current and non-current financial assets

(in thousands of euros)	Current			Non-current		
	December 31, 2012	December 31, 2011	December 31, 2010	December 31, 2012	December 31, 2011	December 31, 2010
Interest-rate derivatives	-	-	-	5	313	2,380
Investments in entities that are not comprised in the combination classified as available-for-sale	-	-	-	35	52	71
Other financial assets	4,034	42	249	6,791	7,396	4,920
Total financial assets	**4,034**	**42**	**249**	**6,831**	**7,761**	**7,371**

As disclosed in Note 27.3, the Combined Group enters into interest rate caps to manage its interest rate exposure but these derivatives do not qualify as hedges for accounting purposes according to IAS 39. Accordingly, changes in the fair value of any of these derivative instruments are recognized immediately in the statement of income as part of finance costs, net as these interest-rate derivatives are directly related to the application of our interest rate risk management policy even though they do not qualify for hedge accounting under IAS 39.

Such interest-rate derivatives are presented as non-current financial assets because they are not held primarily for trading purposes, designated under a non-qualifying hedge accounting relationship.

In 2009, the Combined Group entered into interest rate options, referred to as caps in order to compensate if interest rates rise above a predetermined rate (strike rate). Caps are measured at their fair values and classified as a non-current financial asset for €5 thousand as of December 31, 2012 and €313 thousand as of December 31, 2011.

The investments in entities not comprised in the combination and classified as available-for-sale financial assets are related to equity interests held by the Combined Group in entities not comprised in the combination such as Cable Toulousain de Videocom, Médiamétrie Expansion, Rennes Cité Média and TV7 Bordeaux. These companies are not included in the combination due to the Combined Group's lack of control or influence over them.

As at December 31, 2012, other financial assets include €4 million of cash pledged in the context of the DSP 92 (see Note 2.11). Remaining amounts correspond to deposits made by the group (building leases,...).

18 Inventories

(in thousands of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Gross value	46,808	40,033	35,035
Valuation allowance	(1,199)	(1,035)	(1,035)
Net book value	45,609	38,998	33,843

Inventories are primarily comprised of set-top boxes used to receive programming distributed via digital channels. The amount of inventory write-downs to net realizable value recognized is immaterial for 2012, 2011 and 2010.

19 Trade receivables and other receivables

(in thousands of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Trade receivables	272,864	248,239	242,379
Valuation allowance	(27,167)	(26,770)	(33,069)
Trade receivables, net	245,697	221,469	209,310
Advances and down payments	2,211	2,090	4,691
Current accounts receivable	50	50	2,075
Tax and social security receivables	141,806	117,961	117,358
Prepaid expenses	18,025	8,155	9,019
Other current receivables	9,582	13,256	14,637
Trade receivables and other receivables, net	417,371	362,981	357,090

Trade receivables disclosed above are classified as loans and receivables and are therefore measured at amortized cost. Due to their short-term maturity, fair value and amortized cost approximate the nominal amount of trade receivables. Trade receivables are primarily from our B2C customers, a large number of customers, spread across diverse geographical areas.

B2C Customers

The average credit term for residential customers is 5 days. No interest is charged on outstanding balances. As of December 31, 2012, the Combined Group has reserved 81% of the B2C customers receivables that were over 90 days past due. This reserve was estimated considering that historically only 19% of receivables that are over 90 days past due are recoverable. Allowances for doubtful accounts are recognized against trade receivables that are between 0 and 90 days past due based on estimated uncollectible amounts which are determined based upon to the counterparty's past default experience and an analysis of the counterparty's current financial position.

B2B Customers

As at December 31, 2012, the Combined Group has reserved 60% of the B2B customers' receivables that were over 90 days past due based on historical experience evidencing that 40% of receivables that are past due beyond 90 days are collectable.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due at the end of the reporting period but against which the Combined Group has not recognized an allowance for doubtful accounts because there has not been a significant change in credit quality and the amounts are still considered collectable. The Combined Group does not hold any collateral or other credit enhancements against these balances nor does it have a legal right of offset against any amounts owed by the Combined Group to the counterparty.

Ageing of past due receivables

(in thousands of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Not due	121,232	101,927	73,809
0-90 days	62,825	43,983	53,739
>90 days	88,808	102,329	114,831
Total	272,864	248,239	242,379

The concentration of credit risk is limited due to the customer base being large and unrelated. There is no customer which represents more than 5% of the total balance of trade receivables.

Change in valuation allowance for trade receivables is as follows:

(in thousands of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Balance as of the beginning of the year	(26,770)	(33,068)	(32,558)
Additional allowance	(9,322)	-	(6,435)
Bad debt expense	8,925	4,395	3,746
Reversal of valuation allowance	-	1,903	-
Receivables classified as held for sale	-	-	2,924
Business combinations	-	-	(745)
Balance as of the end of the year	(27,167)	(26,770)	(33,068)

20 Cash and cash equivalents

Cash and cash equivalents presented in the combined statements of cash flows include cash on hand and short-term deposits. Reconciliation between cash and cash equivalents presented in the combined statements of cash flows and cash and cash equivalents presented in the combined statements of financial position is presented below:

(in thousands of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Cash on hand	7,996	40,580	30,897
Cash equivalents	-	-	-
Cash and cash equivalents presented in the combined statements of financial position	7,996	**40,580**	30,897
Cash from discontinued operations	-	-	3,656
Bank overdrafts classified as financial liabilities in the combined statements of financial position	-	-	-
Cash and cash equivalents presented in the combined statements of cash flows	7,996	**40,580**	34,553

As of December 31, 2012, 2011 and 2010, the Combined Group had no cash equivalents.

21 Invested equity

As of December 31, 2012, 2011, 2010 and January 1, 2010, the invested equity consisted of the sum of the individual share capital amounts and consolidated reserves of the Ypso and Altice B2B sub-groups.

21.1 Dividends

During the years ended December 31, 2012, 2011 and 2010, the Combined Group did not distribute dividends to its shareholders. The Combined Group does not expect to distribute dividends in 2013.

21.2 Capital risk management

The Combined Group manages its capital to ensure that entities in the Combined Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of debt and equity balances, especially through early repayments of debt. The Combined Group's overall strategy remains unchanged from 2010 to 2012.

The capital structure of the Combined Group consists of net debt (financial liabilities as detailed in Note 22 offset by cash and cash equivalents) and equity of the Combined Group (including reserves, retained earnings and non-controlling interests as detailed above and in the combined statements of changes in equity).

22 Financial liabilities

Total financial liabilities are comprised of:

(in thousands of euros)		Current			Non-current		
	Note	December 31, 2012	December 31, 2011	December 31, 2010	December 31, 2012	December 31, 2011	December 31, 2010
Financial liabilities under Senior Facility Agreements	22.1	93,187	170,300	186,453	2,707,498	2,701,109	2,953,503
Perpetual subordinated notes	22.2	-	-	-	35,208	32,880	30,710
Financial liabilities under finance leases	29.2	19,432	19,967	9,618	7,886	9,631	14,776
Other financial liabilities	22.4	2,113	1,297	1,097	131,234	125,359	118,316

Total financial liabilities		114,732	191,564	218,748	2,926,343	2,912,981	3,174,526

The schedule of financial liabilities under the *Senior Facility Agreement* has been modified as a result of the renegotiations that occurred in July and August 2013 as described in note 32.

22.1 Financial liabilities under Senior Facility Agreements

Senior Facility agreement granted to Ypso

The Combined Group entered into a Senior Facility Agreement dated June 6, 2006 (as amended and restated on July 18, 2006, July 28, 2006 and March 2, 2007, as amended by a letter dated June 24, 2008, as amended and restated on December 9, 2009 and September 8, 2011 and as amended by a letter dated January 12, 2012 and accepted by the Agent on January 24, 2012 and amended most recently by a letter dated September 25, 2012 and accepted by the Agent on October 12, 2012) with BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch and Morgan Stanley Bank International Limited, as the Mandated Lead Arrangers, BNP Paribas as Agent and Security Agent and others lenders (the "Senior Facility Agreement" or the "SFA"). In addition, certain subsidiaries of the Combined Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors under the SFA.

The initial amount available under the SFA was €3,225 million. The outstanding balance on this loan amounts to €2,347 million as of December 31, 2012.

The SFA contains financial covenants, which may affect the interest rates to be paid by the Combined Group as well as the applicable margins on the SFA (see details below).

Senior Facility agreement granted to Altice

The Combined Group entered into a Senior Facility Agreement dated August 29, 2007 (as amended and restated on March 12, 2008, on August 12, 2008, on September 30, 2009, on December 10, 2010 and on

February 28, 2011) with CALYON as Mandated Lead Arranger and Security Agent and others lenders (the "Senior Facility Agreement" or the "SFA"). In addition, certain subsidiaries of the Combined Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors under the SFA.

The initial amount available under the SFA was €551 million. The outstanding balance on this loan amounts to €453 million as of December 31, 2012.

The SFA contains financial covenants, which may affect the interest rates to be paid by the Combined Group as well as the applicable margins on the SFA (see details below).

Refinancing of the debt in 2012

In 2012, as disclosed in the Significant Events note, the Group issued three bonds in order to refinance part of its existing short-term debt under the SFA. The issuer of the bonds is Numericable Finance & Co. S.C.A. (an unregulated securitization company in the form of a corporate partnership limited by shares incorporated under the laws of the Grand Duchy of Luxembourg).

The proceeds from the notes have been used by Numericable Finance & Co. to fund three new loans issued by the Lending Bank (JP Morgan) under the Senior Facility Agreement to Ypso France SAS :

- a C-One facility of €360 million;
- a C-Two A facility of €225 million;
- a C-Two B facility of €275 million.

In 2012, the September 2011 Senior Facility Amendment and Restatement became effective. This Amendment and Restatement split all the Facilities in two, with non-extended and extended facilities referred to Facility I and Facility II respectively. Extended and non-extended facilities have different maturity dates (extended facilities maturities are two year later than the ones of the non-extended maturities) and a different pricing (see table below).

Facility	Maturity
A (Recap) I	June 15, 2013
A (Recap) II	June 6, 2015
A (Acq) I	June 15, 2013
A (Acq) II	June 6, 2015
B (Recap) I	June 15, 2014
B (Recap) II	June 6, 2016
B (Acq) I	June, 15, 2014
B (Acq) II	June 6, 2016
C (Recap) I	December 31, 2015
C (Recap) II	December 31, 2017
C (Acq) I	December 31, 2015
C (Acq) II	December 31, 2017
Capital Investment I	June 15, 2013
Capital Investment II	June 6, 2015
Additional Revolving Facility	No earlier than March 31, 2016

Guarantees and Security

The Term Facilities are guaranteed irrevocably and unconditionally on a joint and several bases by each guarantor under the Senior Facility Agreement, subject to certain legal limitations.

The Term Facilities are secured by various security interests, such as a pledge over the shares of Ypso France SAS and certain of its subsidiaries.

Covenants

The availability of the senior facilities mentioned in Note 22.1 is not dependent upon the Combined Group's credit ratings but rather is conditioned upon its compliance with a financial covenant related to the capacity of the Combined Group to generate sufficient cash to repay its net debt. Accordingly, the Senior Facility Agreement contains customary operating and financial covenants, subject to certain agreed exceptions, including covenants restricting the ability of the Combined Group to, among other things:

- amalgamate, merge or consolidate with any other person or be the subject of any reconstruction or materially change the nature of the business of the Combined Group as a whole;
- sell, transfer, lease out, lend or otherwise dispose of any of its assets or all or any part of its undertaking or agree to do so;
- enter into a material transaction that would not be on an arm's length basis and for full market value;
- make acquisitions or investments;
- open or maintain an account with a bank or other financial institution providing like services other than a bank or credit institution entitled to engage in banking transactions in France, Belgium or Luxembourg;
- allot or issue shares or securities;
- change the end of its fiscal year.

The Senior Facility Agreement also requires the Combined Group to comply with the following financial covenants:

- a maximum ratio of consolidated total net borrowings to annualized EBITDA;
- a minimum ratio of consolidated cash flows to consolidated total debt service;
- a minimum ratio of annualized EBITDA to consolidated total net cash interest payable; and
- a maximum level of capital expenditures per fiscal year.

Compliance is tested quarterly and audited annually as of December 31 when we release our consolidated financial statements under French GAAP. Since the SFA was established, the Combined Group has complied every year with the financial covenants included in the agreement.

As required under the SFAs, the covenants are based on financial measures that are determined in accordance with French GAAP and not IFRS and, as a result, the definition of "Annualized EBITDA" set forth in the SFA is different from the EBITDA as it appears in the combined statement of income in accordance with IFRS.

Annualized EBITDA is calculated by adding EBITDA for the last two quarters and multiplying the result by two, and thus cannot be reconciled with EBITDA disclosed in the financial statements prepared under French GAAP.

22.2 Perpetual subordinated notes ("TSDI")

In 2006, €23.7 million of perpetual subordinated notes ("Titres Subordonnés à Durée Indéterminée" or "**TSDI**") were issued by a subsidiary of the Combined Group, NC Numericable to a single subscriber, the GDF Suez Group (Vilorex) (excluding capitalized interest). The proceeds of this borrowing are to be used for financing the construction of connectors in towns in the southern part of the SIPPEREC ("Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication"), which is a group of cities located in the Paris metropolitan area. The perpetual subordinated notes bear interest at a rate of 7% per annum. Interest on the notes is capitalized. Interest amortization is conditional. The total accrued interest payable on the notes amounted to €11.6 million and €9.2 million as of December 31, 2012 and 2011, respectively, and has been classified as non-current in the table above in Note 22.

The instrument includes a contractual obligation to deliver cash (including interest) when cash inflows arising from revenues allow the Combined Group to reimburse the notes according to the terms of the contract. Pursuant to this contract, the payment of interest and the reimbursement of the debt are contingent upon the level of cash inflows generated; however, the Combined Group does not have an unconditional right to avoid delivering cash. As a consequence, the instrument is recognized as a financial liability at amortized cost according to IAS 32.

22.3 Deposits received from customers

Deposits received from customers amount to €44.5 million, €42.9 million and €50.7 million as of December 31, 2012, 2011 and 2010 respectively. These deposits are made when customers receive equipment from the company and are reimbursed when customers terminate their subscriptions only if the customers have paid all outstanding invoices and have returned the equipment. For each year end, the guarantee deposits were recorded as items due within more than one year.

22.4 Other financial liabilities

As of December 31, 2012, other financial liabilities are mainly comprised of the following:

- Debt of €128,962 thousand owed by Ypso Holding Lux S.a.r.l. to the shareholders. This subordinated shareholder debt is planned to be entirely reimbursed when the shares of the Company are admitted for negotiations on Euronext Paris.
- Debt of €2,374 thousand owed by Numericable to several banks (mainly *Caisse d'Epargne d'Alsace-Lorrraine*).

23 Provisions and contingent liabilities

The nature and change in provisions for the years ended December 31, 2012, 2011 and 2010 are as follows:

(in thousands of euros)	January 1, 2012	Increase	Utilization	Reversal	Reclass.	December 31, 2012
Provisions for retirement benefits	6,101	2,357	-	(3)	-	8,455
Provisions for litigation with employees	3,604	1,183	(719)	-	-	4,068
Provisions for commercial litigation	21,935	6,252	(8,829)	(1,315)	-	18,043
Tax contingencies*	26,977	212	(2,093)	-	-	25,096

Provisions are primarily non-current as of December 31, 2012, 2011 and 2010.

The Combined Group is involved in legal and administrative proceedings that have arisen in the ordinary course of business.

A provision is recorded by the Combined Group when there is a sufficient probability that such disputes will lead to costs that the Combined Group will bear and when the amount of these costs can be reasonably estimated. Certain companies of the Combined Group are involved in a certain number of disputes in the ordinary activities of the Combined Group. Only the most significant disputes and proceedings in which the Combined Group is involved are described below.

Other than as discussed below, the Combined Group does not expect the legal proceedings in which it is involved, or with which it has been threatened, to have a material adverse effect on its business or on its combined financial position.

23.1 Tax matters

The French tax authorities have conducted audits on various companies of the Combined Group since 2005 with respect to the VAT rates applicable to our multiple-play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, while Internet and telephony services are subject to a 19.6% VAT rate. When marketing multiple-play offerings, the Combined Group allocates a price reduction compared to the price the Group would charge for its services on a stand-alone basis. This price reduction is primarily applied to its Internet and telephony services, because such services are newer products. As a result, the VAT charged to the subscribers was lower than the VAT that would have been charged if the Combined Group had deemed the price reduction to apply primarily to the television services portion of our packages.

The French tax authorities assert that these price reductions should have been computed pro rata of the stand-alone prices of each of the services (television, broadband Internet, fixed and/or mobile telephony) included in the multiple-play packages of the Group and proposed adjustments for fiscal years 2006 to 2010.

The Combined Group has formally contested the tax adjustments for fiscal years 2006 to 2009. The Combined Group asked the Ministry of Finance in December 2011 for a settlement of all the rectifications proposed by the Administration for all the companies of the Combined Group for fiscal years 2006 to 2009. Further to these requests, the tax authorities revised downwards the amounts of rectifications for fiscal years 2008 and

2009 by including in its calculation a limitation based on the 50/50 rule applicable on the composite VAT which was effective from 2008 to 2010. The new amounts of rectifications, amounting to €17.3 million (except penalties of 40%) for fiscal years 2006 to 2009, were communicated to the Combined Group at the end of August 2012.

Furthermore, in 2012, the Tax authorities have also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013, calculated in the same manner as for fiscal years 2007 to 2009, for a total amount of €6.1 million (except penalties of 40%). The Combined Group contested the proposed assessments at the end of August 2013.

The Tax authorities also placed into collection the rectification of fiscal year 2006 on NC Numericable (approximately €2 million). The Combined Group asked for a payment deferral and deposited a complaint in September 2012 which was rejected by the Tax authorities on June 27, 2013. The Combined Group filed an additional request on August 20, 2013.

As of December 31, 2012, a tax provision of €25.1 million was recognized, including all the risks related to VAT (except the penalties of 40% which represents €7.1 million) related to the reassessments notified for fiscal years 2006 to 2010 (i.e. €23.5 million). The Group contested the proposed notifications on August 21, 2013. Fiscal year 2011 is not subject to a tax audit.

VAT rules applicable to multiple-play packages changed starting January 1, 2011.

23.2 Commercial disputes

23.2.1 Dispute with Orange relating to certain IRUs

The Combined Group entered into four non-exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004 and December 21, 2004, in connection with the acquisition by the Combined Group of certain companies which operated cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to the Combined Group by Orange through these non-exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a term of 20 years. Following the ARCEP's decision 2008-0835 of July 24, 2008, Orange published on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators can roll-out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms that the Combined Group benefit from under the Orange IRUs. As a result, Orange requested the Combined Group to comply with the general rules regarding accessing Orange's ducts for the purpose of maintaining and upgrading its network. This issue was litigated and both the ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010 and June 23, 2011, respectively. We appealed the decision before the French Supreme Court (Cour de Cassation) but it upheld, for the most significant part, the decision of the Paris Court of Appeal on September 25, 2012.

Moreover, on October 21, 2011, the ARCEP initiated penalty proceedings against the Combined Group, arguing that it had not complied with its November 4, 2010 decision. Consequently, in December 2011, the Combined Group executed Orange amendments to the IRUs in order to comply with the November 4, 2010 ARCEP decision and to align the operating procedures set forth in the IRUs with the procedures set forth in the Orange generic technical and commercial offer.

In the meantime, the penalty proceedings initiated by the ARCEP were not stopped by the execution of the amendments to the IRUs and we were sentenced on December 20, 2011 to a fine of €5.0 million for noncompliance with the ARCEP November 4, 2010 decision. The Combined Group appealed this decision before the Conseil d'Etat. The case is still pending. Within the framework of this appeal, Numericable raised a constitutionality question, that was sent back to the Constitutional Council, on the conformity with the

Constitution of the Article L. 36-11 of the CPCE which plans the powers of penalty of the ARCEP. On July 5, 2013, the Constitutional Council granted Numericable's request and invalidated paragraphs 1 to 12 of the Article L. 36-11 of the CPCE on the foundation of which the decision of penalty of the ARCEP of December 20, 2011 mentioned above was returned. Numericable asked the Council of State to give effect to this decision and to accordingly invalidate the decision of the ARCEP of December 20, 2011.

Lastly, Numericable initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010 claiming damages of €2.7 billion for breach and modification of the IRUs by Orange.
On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed the Combined Group's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. Numericable appealed this decision before the Paris Court of Appeal and claimed the same amount of damages. Orange, in turn, claims that the proceedings materially impaired its brand and image and claims damages of €50 million. The Paris Court of Appeal is expected to render its decision during the second quarter of 2014.

23.2.2 Dispute with Free relating to the advertising of mobile services

On August 3, 2011, a claim was filed against Numericable SAS and NC Numéricable before the Commercial Court of Paris by telecommunication operator Free in relation to the launch of the mobile offer by the Combined Group in spring 2011 through an advertising campaign entitled "The mobile revolution".

Free, who used the term "revolution" to refer to its initial launch of mobile phone services and whose latest offering was named the "Freebox Revolution", argues that our campaign led to customer confusion and damaged its brand and image. Free claims damages of €10.0 million. The case is currently pending before the Paris commercial court. After the hearing, the Court asked for an opinion of the "direction générale de la concurrence, de la consommation et de la répression des fraudes (DGCCRF)" as to whether the assertions of Free were justified with regards to the laws of advertising. The DGCCRF issued an opinion in which it indicated that the questions raised by Free did not constitute a fault under unfair competition law. The ruling of the Commercial Court of Paris is expected during the second half of 2013.

23.2.3 Dispute with Orange relating to unpaid invoices

Orange filed a claim against Numericable before the Paris Commercial Court on September 6, 2011. Orange claimed that invoices in the amount of €3.1 million remained unpaid. These invoices related to physical infrastructure occupied by Numericable between 2005 and 2007, following the sale by Orange of its cable networks for Numericable. Numericable argued that Orange prevented the Combined Group from moving out of these infrastructures and therefore that the litigation's invoices were not due. Orange filed another claim against Numericable before the Paris Commercial Court on February 1, 2012 and, for similar grounds, claiming that invoices in the amount of €0.5 million remained unpaid. These cases are still pending before the Paris Commercial Court. The date of the hearing has not been settled yet.

23.2.4 Disputes with various providers of value-added services (VAS)

By related complaints dated February 10th, 2013, five providers of value-added telephony services which offer their services to the public through surcharged numbers (0899), commenced litigation against Completel before the Commercial Court of Nanterre. Those companies asked for the condemnation of Completel to the payment of €350,000 for the repayment of sums corresponding to restraints made by Completel from the amounts it collected on their behalf.

Completel withheld these amounts in response to the practices of these these companies which in Completel's view violate their agreements with Completel as well as the industry's ethics rules. They seek damages of a global amount of €12 million.

Furthermore, in November 2012, Completel decided to terminate this activity, and suspended certain repayments and applied various contractual penalties to companies marketing this kind of value-added telephony services. Some of these companies assigned Completel before several Commercial Courts and asked for its condemnation to the payment of the sums retained by Completel and/or the cancellation of the penalties applied by Completel. The global claim amounts to approximately €900 000, including €850,000 in amounts collected on behalf of these companies.

23.2.5 Dispute with Orange relating to access to the DSL market

On August 5, 2010, Completel filed a claim against Orange before the Paris Commercial Court, claiming damages of approximately €500 million resulting from anticompetitive practices from Orange which would have delayed the access to the DSL market for the competitors of Orange during the years 1999 to 2003. On December 13, 2011, the Paris Commercial Court rejected the request of Completel. Completel appealed this decision. The decision of the Paris Court of Appeal should intervene during the course of the year 2014.

23.2.6 Labor disputes

The Group is involved in a certain number of labor disputes, of which a significant amount result from the last period of substantial mergers in 2006-2007 involving UPC-Noos, which until 2009 gave rise to potentially contentious adjustments and harmonization in labor practices . The claims related to these disputes could amount to approximately €4 million. These disputes largely consist of employees contesting the reasons or the form of their dismissals.

24 Employee benefits

In France, employees of the Combined Group benefit from a retirement indemnity plan. Accordingly, the Combined Group participates in mandatory social security plans organized at the state level, for which contributions expenses correspond to the contributions due to the French state. The plan is considered to be a defined contribution plan as defined in IAS 19. Employees of the Combined Group are covered by the Telecom Industry Branch Social Agreement ("Convention Collective Nationale des Télécommunications", which determines the amount of retirement indemnity to be paid to the employee upon retirement).

The rights to conventional retirement benefits vested by employees were evaluated individually, based on various parameters and assumptions such as the employee's age, position, length of service in the Combined Group and salary, according to the terms of their employment agreement.

24.1 Assumptions used for defined benefit plans

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Discount rate	3.0%	4.75%	4.75%
Expected salary increase rate	3.0%	3.0%	3.0%
Inflation rate	2.0%	2.0%	2.0%
Turnover – managers (mean)	7.0%	7.0%	7.0%
Turnover – other employees (mean)	15.0%	15.0%	15.0%

The turnover rate can vary significantly depending on length of service.

24.2 Components of Net Periodic Benefit (Cost)

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Service cost	713	660	555

Interest cost	287	263	221
Expected return on plan assets	-	-	-
Recognition of actuarial net (gain) loss	1,496	(244)	281
Past service cost	-	-	-
Amounts recognized due to plan combinations	-	22	58
Curtailments/Settlements	(57)	(145)	-
Net periodic (benefit) cost	2,439	556	1,115
Experience loss (gain) on plan liabilities	1,496	(244)	281
Percentage of present value of plan liabilities	17.7%	(4.0)%	5.1%

Actuarial gains and losses arising from changes in actuarial assumptions are recognized in profit and loss when they are incurred.

Impact of discounting provisions for retirement benefits is recognized in operating income in "Staff costs and employee benefits expense" with the related charges.

24.3 Change in defined benefit obligation

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Defined benefit obligation – beginning of year	6,101	5,545	3,936
Service cost	713	660	555
Interest cost	287	263	221
Contributions paid	-	-	-
Amortization of actuarial net gain (loss)	1,496	(244)	281
Benefits paid	(87)	-	-
Past service cost	-	-	-
Amounts recognized due to plan combinations	-	22	58
Curtailments/Settlements	(57)	(145)	-
Defined benefit obligation – end of year	8,455	6,101	5,545

25 Other non-current liabilities

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Non-current deferred revenue (more than one year)	105,791	94,777	101,402
Non-current trade payables	5,175	5,906	6,634
Non-current tax and social security payables	300	300	2,303
Other non-current liabilities	111,266	100,983	110,339

Deferred revenue at the end of the reporting period mainly represents unrecognized network lease revenue.

For certain arrangements entered into with its non-residential customers, the Combined Group receives up-front cash payments, namely in relation to indefeasible right of use arrangements ("IRUs") and connection fees. For these arrangements, the revenue is generally recognized reliably over the duration of the lease contract.

The non-current part of deferred revenue disclosed in the above table corresponds to revenue that will be recognized in more than one year.

The current-part of deferred revenue (i.e. revenue to be recognized in less than one year) is presented in "Trade payables and other payables".

26 Trade payables and other payables

(in thousands of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Trade payables - general	416,183	424,334	392,170
Trade payables – acquisition of assets	87,145	65,640	69,492
Advances and down payments received	19,884	30,564	34,703
Current accounts payables	21,219	13,062	232
Liabilities related to tax and duties	87,358	64,353	58,927
Corporate and social security contributions	45,871	39,937	38,490
Current deferred revenue (less than one year)	45,319	37,574	36,189
Other payables	3,054	23,206	53,670
Trade payables and other payables	726,033	698,670	639,282

27 Financial Instruments

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in Notes 2.15 and 2.19.

27.1 Fair value of financial instruments

Valuation techniques and assumptions applied to measure fair value for derivative instruments

The fair values of derivative instruments are calculated using quoted prices. When such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

In accordance with the amendments to IFRS 7, the Combined Group classifies its financial instruments measured at fair value into three levels (the fair value hierarchy):

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Level 2 fair value measurements have been used for interest-rate derivatives. There are no significant financial instruments for which level 1 or level 3 measurements have been used and no transfer of financial instruments between levels have occurred.

Fair value measurement other financial assets

Due to their short-term nature, the fair value of cash and cash equivalents, trade receivables and other current receivables and trade payables and other payables, approximates the net carrying amount.

Investments in entities not included in the combination are unquoted equity securities. As a result, their fair value cannot be measured reliably and accordingly, these investments are measured at cost.

Financial guarantees and collaterals

Under the SFA, the assets of the Combined Group have been given as collateral to the bank lenders.

27.2 Financial assets

	December 31, 2012				
			Financial assets at fair value through profit and loss		
(in thousands of euros)	Available-for-sale	Loans and receivables	Designated at fair value through profit and loss	Held for trading	Total Assets
Non-current financial assets	35	6,791	-	5	6,831
Trade receivables and other receivables	-	442,020	-	-	442,020
Interest-rate derivatives	-	-	-	-	-
Cash and cash equivalents	-	7,996	-	-	7,996
Financial assets	35	456,807	-	5	456,847

	December 31, 2011				
			Financial assets at fair value through profit and loss		
(in thousands of euros)	Available-for-sale	Loans and receivables	Designated at fair value through profit and loss	Held for trading	Total Assets
Non-current financial assets	52	7,396	-	313	7,761
Trade receivables and other receivables	-	362,981	-	-	362,981
Interest-rate derivatives	-	-	-	-	-
Cash and cash equivalents	-	40,580	-	-	40,580
Financial assets	52	410,957	-	313	411,322

	December 31, 2010				
			Financial assets at fair value through profit and loss		

(in thousands of euros)	Available-for-sale	Loans and receivables	Designated at fair value through profit and loss	Held for trading	Total Assets
Non-current financial assets	71	4,920	-	2,380	7,371
Trade receivables and other receivables	-	357,090	-	-	357,090
Interest-rate derivatives	-	-	-	-	-
Cash and cash equivalents	-	30,897	-	-	30,897
Financial assets	71	392,907	-	2,380	395,358

27.3 Financial liabilities

Except for interest-rate derivatives, financial liabilities are measured at amortized cost, which is the amount at which the financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility.

Interest-rate derivatives held for trading are measured at fair value through profit and loss.

27.4 Financial risk management objectives

Objective of the Corporate Treasury function

The Combined Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Combined Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (primarily interest rate risk since the Combined Group's activities does not expose it to risks of changes in foreign currency exchange rates), credit risk and liquidity risk. The Combined Group seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The Combined Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Corporate Treasury function reports monthly to the Group's chief operating decision maker, which monitors risks and policies implemented to mitigate risk exposures.

Interest rate risk management

The Combined Group is exposed to interest rate risk because the Combined Group borrows funds, mostly at floating interest rates. The risk is managed by the Combined Group through the use of interest rate swap contracts and caps interest rate contracts. Even though the Combined Group does not apply IAS 39 in terms of hedge accounting, hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied, in compliance with the requirements of the SFA.

The Combined Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Combined Group's net income (loss) for the year ended December 31, 2012 would decrease/increase by €13 million. This is mainly attributable to the Combined Group's exposure to interest rates on its variable rate borrowings.

Interest rate swap contracts

Under interest rate swap contracts, the Combined Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Combined Group to mitigate the risk of changing interest rates on the fair value of issued fixed rate debt and the cash flow exposures on the issued variable rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract.

Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Combined Group.

Financial instruments that could potentially subject the Combined Group to concentrations of counterparty risk consist primarily of trade receivables, cash and cash equivalents, investments and derivative financial instruments. Overall, the carrying amount of financial assets recognized in the financial statements, which is net of impairment losses, represents the Combined Group's maximum exposure to credit risk.

As mentioned in Note 19, the Combined Group considers that it has an extremely limited exposure to concentrations of credit risk with respect to trade accounts receivable due to its large and diverse customer base (residential and public institutions) operating in numerous industries and located across France. In addition, the maximum value of the counterparty risk on these financial assets is equal to their recognized net book value. An analysis of credit risk on net trade receivables past due is provided in Note 19.

The Combined Group's policy is to invest its cash, cash equivalents and marketable securities with financial institutions and industrial groups with a long-term rating of A-/A3 or above. The Combined Group's enters into interest rate contracts with leading financial institutions and currently believes that the risk of these counterparties defaulting is extremely low, since their credit ratings are monitored and financial exposure to any one financial institution is limited.

However, in September 2008, Lehman Brothers filed for bankruptcy. Part of the Combined Group's financial liabilities was hedged by interest rate swaps entered into with Lehman Brothers. As a result of the bankruptcy, Lehman Brothers defaulted on the swaps. There is currently a claim with Lehman Brothers for a total amount of approximately €11.2 million. In 2012, the Combined Group received a first payment €2.8 million in relation to this claim. Thus a contingent gain of €8.4 million remains for the Company but has not been recognized as at December 31, 2012.

Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Combined Group's short-, medium- and long-term funding and liquidity management requirements. The Combined Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Combined Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Combined Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Combined Group may be required to pay.

	December 31, 2012			
(in thousands of euros)	Less than 1 year	1-5 years	5+ years	Total
Financial liabilities under Senior Facility Agreements	93,187	1,851,552	855,946	2,800,686

The Combined Group considers that its available cash and cash equivalent balances and the expected operating cash flows to be generated are sufficient to cover its operating expenses, capital expenditures and its financial debt requirements for the next twelve months.

28 Related party transactions

The ultimate shareholders of the Combined Group are a group of investment and private equity firms: Altice, Cinven and Carlyle.

Balances and transactions between entities forming the Combined Group have been eliminated in preparing the Combined Financial Statements and are not disclosed herein. Details of transactions between the Combined Group and other related parties are disclosed below.

28.1 Trading and financing transactions

During the year, group entities entered into the following trading transactions with related parties that are not members of the Combined Group:

(in thousands of euros)	*Purchase of goods and services*			*Amounts owed by related parties*			*Amounts owed to related parties*		
	2012	2011	2010	2012	2011	2010	2012	2011	2010
Shareholders									
Cinven	610	622	641	-	-	-	-	185	748
Altice	1,214	10,287	13,410	-	-	-	-	-	2,091
Carlyle	600	600	600	-	-	-	450	-	875
Associate									
Alsace Connexia Participation SAS	-	-	-	2,235	2,574	2,518	-	-	-

Management fees have been paid to the shareholders (Cinven, Altice and Carlyle) in relation to certain management, financing and advisory services provided (€2,424 thousands in 2012 compared to €11,509 thousands in 2011 and €14,651 thousands in 2010).

The shareholders of the Combined Group also provided several subordinated shareholder financings.

28.2 Related party relationships

(1) Relationships with our Shareholders

Relationships with Altice

On June 30, 2011, we completed the sale of Coditel Belgium and Coditel Luxembourg to a consortium of investors, including Altice, for a purchase price of €369.2 million.

Altice owns cable networks in the French West Indies (*Antilles*). We pay telephony termination fees to such networks for the calls originating from our subscribers to subscribers of such networks, and receive telephony termination fees from such networks for the calls originating from their subscribers to our subscribers.

Finally, Altice owns Auberimmo which is a company that rents infrastructures to the Combined Group. Auberimmo has a sole client, Completel SAS which is a member of the Combined Group.

Relationships with Carlyle

Sagemcom, one of our key suppliers of set-top boxes, was acquired by funds managed by Carlyle on August 17, 2011.

(2) Relationships with Coditel

As part of the sale of Coditel Belgium and Coditel Luxembourg in June 2011, we entered into a services agreement and a trademark license agreement with Coditel Holding S.A. to ensure the continuity of its operations

Services Agreement

On June 30, 2011, Numericable SAS entered into a services agreement (the "Coditel Services Agreement") with Coditel. Pursuant to the Coditel Services Agreement, we will continue to provide Coditel with all the services we were providing prior to its sale, including:

- VOD platform services and VOD content services;
- television, IP and voice engineering services;
- support and assistance in purchasing hardware and devices needed for its operations, in particular set-top boxes and software, modems, routers and mobile handsets, and also television and VOD content;
- delivery of television channels signals and existing data flows over our backbone;
- upgrade of Coditel's billing software; and
- continued support of Coditel's systems currently located in our premises or currently supported from our systems.

In consideration of the services provided, Coditel agreed to pay to us a total of €100,000 per year. In addition, Coditel will pay to us 10% of its monthly VOD revenues.

Trade Mark License Agreement

On June 30, 2011, Coditel and Numericable also entered into a trademark license agreement (the "Trade Mark Agreement"). Pursuant to the Trade Mark Agreement, we will provide Coditel with a license to use our trademark "Numericable", registered under Ma14502, exclusively in Belgium and Luxembourg in relation to the offering, promotion and commercialization of television, Internet and telephone products and services. The license fee is included in the €100,000 annual fee under the Services Agreement. The Trade Mark Agreement terminates automatically on June 30, 2017, upon termination of all services under the Services Agreement or upon expiry of the Services Agreement.

28.3 Compensation of key management personnel

Compensation of directors and other members of key management personnel (i.e. members of our Executive Committee) during the year was €2,100 thousands, €2,039 thousands and €2,325 thousands for 2012, 2011 and 2010 respectively. These amounts only comprise short-term benefits such as wages, salaries and bonuses.

The Combined Group does not offer any share-based arrangement and employment benefits related to key management personnel are insignificant in aggregate.

29 Leases arrangements

29.1 The Combined Group as a lessor

Finance leases

The Combined Group has not contracted finance leases as a lessor,

Operating leases

Operating leases relate to the investment property owned by the Combined Group and leased to other companies in the telecommunications industry, with lease terms of between 15 to 30 years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

Future minimum rental income under non-cancellable operating leases is as follows:

(in thousands of euros)	Future minimum rental income		
	December 31, 2012	December 31, 2011	December 31, 2010
Not later than 1 year	45,318	38,815	35,459
Later than 1 year and not later than 5 years	40,930	30,621	34,848
Later than 5 years	64,545	62,381	64,214
	150,793	131,817	134,521

29.2 The Combined Group as a lessee

Finance leases

The Combined Group entered into various finance leases related to property, for which the lease term is generally between 20 and 30 years, and office equipment, for which the lease term is 4 years.

The most significant finance lease arrangements relate to network equipment bought from Cisco and to the property lease for the headquarters offices of the Combined Group in Champs-sur-Marne for which the Combined Group has an option to purchase the property at the end of the lease term at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable.

All leases are denominated in euros. Certain property lease arrangements specify that at the beginning of the lease the annual payments will be set at a fixed amount, but in future years will be increased by a rate of inflation (i.e. a percentage increase).

(in thousands of euros)	Minimum lease payments		Present value of minimum lease payments	
	December 31, 2012	December 31, 2011	December 31, 2012	December 31, 2011
Not later than 1 year	11,685	20,219	11,302	19,529
Later than 1 year and not later than 5 years	13,883	7,229	12,830	6,621
Later than 5 years	721	928	595	753
	26,288	28,376	24,728	26,903

Less future finance charges	(1,560)	(1,473)	-	-
Present value of minimum lease payments	24,728	26,903	24,728	26,903
Financial liabilities related to finance leases – current portion			11,302	19,529
Financial liabilities related to finance leases – non-current portion			13,426	7,374

The interest rate inherent in the leases is fixed at the contract date for the entire lease term. The average effective interest rate contracted is approximately 3.24% and 3.53% per annum for 2012 and 2011 respectively.

Operating leases

The Combined Group also has property and vehicle lease commitments under operating leases. The lease term for property under operating leases is generally 3, 6 or 9 years, a standard lease term for commercial real estate in France. The lease term for vehicle under operating lease is 3 years.
As part of the networks business, leases involving equipment and networks IRUs (usage rights on local loop, backbone) or other rental contracts (rights of way) were not considered material.
In connection with its entertainment business activities, the Combined Group has also entered into operating leases and agreements to purchase TV programs.

As of December 31, 2012, non-cancellable operating lease commitments amounted to:

(in thousands of euros)

	December 31, 2012
Not later than 1 year	5,554
Later than 1 year and not later than 5 years	19,513
Later than 5 years	5,717
	30,784

30 Non current assets held for sale and discontinued operations

This section provides details of the contents of the items relating to the activities of the Combined Group in Belgium and Luxembourg classified as discontinued operations as reported in the Combined Statement of Income and Combined Statement of Cash Flows. As explained in Note 4, discontinued operations correspond to the Coditel subsidiaries in Belgium and Luxembourg.

Details of statement of income items included in discontinued operations in 2011 and 2010 are as follows:

(in thousands of euros)	**2011** 6 months	**2010** 12 months
Revenue	31,978	62,256
Operating Income	16,525	42,290
Finance costs, net	(4,074)	(7,800)
Profit (loss) of discontinued operations before tax	12,451	34,490
Income tax expense	(1,296)	(3,252)
Net income (loss)	11,154	31,237
Proceeds from the sale of Coditel	118,486	-

Fees paid in connection with the sale of Coditel	(3,580)	-
Net income (loss) from discontinued operations	**126,059**	**31,237**

As at December 31, 2010, assets and liabilities held for sale were presented separately on the face of the statement of financial position and may be analyzed as follows:

(in thousands of euros)			
ASSETS		**EQUITY AND LIABILITIES**	
Goodwill	210,195	**TOTAL EQUITY**	**59,122**
Other intangible assets	1,852	Non-current portion of financial liabilities	156,735

Capital expenditures	(4,776)	(9,696)
Proceeds from disposal of tangible and intangible assets	19	147
Decrease (increase) in loans and other non-current financial assets	-	17
Net cash provided (used) by investing activities	**(4,758)**	**(9,532)**
Cash received from the sale of Coditel	350,184	
Issuance of debt	1,101	2,654
Repayment of debt	(186,684)	(17,035)
Interest paid	(4,105)	(7,828)
Net cash provided (used) by financing activities	**160,497**	**(22,209)**
Net cash flow from discontinued operations	**156,258**	**15,196**

31 Commitments and contractual obligations

31.1 Commitments given

Guarantees in relation to the Senior Facility Agreement

As part of the SFA entered into by the subsidiaries of the Combined Group, the following commitments were given to the lending banks:

- Compliance with financial covenants;
- Stable tax consolidation scope;
- Compliance with conditions governing the acquisition, disposal, use and control of assets.

All the assets of the Combined Group's subsidiaries have been pledged to the banks.

Commitments in relation to business operations

The Combined Group is committed to build 75,000 connectors for a total amount of €4.5 million on behalf of the city of Le Havre, France.

To operate telecommunications networks, the Combined Group needs licenses, authorizations or usage rights to infrastructure in the public and private domain. Consequently, the Combined Group generally pays fees to the public administration in charge of managing the infrastructure (local authorities) or to the owners. In the course of its normal business activities, the company has also entered into outsourcing contracts, particularly for certain network maintenance services.

In 2010, the Combined Group entered into several long-term MVNO agreements for voice and data transmission with Bouygues Telecom, pursuant to which we provide mobile telephony services to residential customers under our own brand but through the nationwide network of Bouygues Telecom. The agreements relating to voice transmission services are due to expire in 2017 and those relating to data transmission services are due to expire in 2013, and each of these will be automatically renewed unless otherwise notified by either party with six months' notice prior to their respective initial expiry dates. Pursuant to the financial terms of each of these agreements, we are under obligation to pay Bouygues Telecom a flat fee corresponding to a minimum level of consumption by our end-customers of the relevant voice or data transmission services.

Lease commitments in relation to business operations

As disclosed in Note 29, the Combined Group has entered into various lease arrangements.

Contractual obligations

(in thousands of euros)	< 1 year	Maturity 1 – 5 years	> 5 years	Total December 31, 2012
Loans and financial liabilities	114,732	1,904,440	1,021,903	3,041,075
Operating leases arrangements	5,554	19,513	5,717	30,784
Total	120,286	1,923,953	1,027,620	3,071,859

31.2 Commitments received

The Combined Group has received a commitment of a total amount of €25 million from GDF Suez to subscribe to perpetual floating rate notes, which will provide financing for the construction of the Sipperec network. The Combined Group has already received €23.8 million in principal from GDF Suez as at December 31, 2012.

Within the framework of the transfer of NC Numericable on March 31, 2005 by the groups France Télécom, TDF and Vivendi / Canal+, the transferors granted specific guarantees until 2014 to the Combined Group, including in particular fiscal and social risks as well as specific risks connected to cable networks exploited by NC Numéricable.

32 Events after the end of the reporting period

Refinancing of the debt in July 2013

In July and August 2013, the Combined Group amended its debt under the Senior Facility Agreements which allowed the Combined Group to reschedule a large portion of its debt.

The new scheduling of the debt under Senior Facility Agreements is as follows:

Maturity	2013	2014	2015	2016	2017	2018	2019	Total
in millions of euros	41.7	26.3	63.1	102.2	1,246.7	698.4	584.4	2,762.8

The scheduling of the debt under Senior Facility Agreements before the refinancing which occurred in July and August 2013 was as follows:

Maturity	2013	2014	2015	2016	2017	2018	2019	Total
in millions of euros	54.0	125.0	453.9	808.7	465.2	271.6	584.4	2,762.8

As part of the refinancing of the debt of August 2013, the Combined Group also obtained a new Revolving Credit Facility (the *Revolving Credit Facility)* of €24 million. Thus, the total available under the revolving facilities amounts to €89 million.

In-depth inquiry of the European Commission into transfer of cable infrastructures by certain local authorities

On July 17, 2013 the European Commission indicated that it decided to open an investigation to verify whether the transfer of public cable infrastructure between 2003 and 2006 by several French municipalities to Numericable was in line with European Union State aid rules. At this stage, the European Commission has doubts that such aid could be found compatible with EU rules because of the economic advantage that would have resulted from these transfers, depending on their conditions.

Rapport d'audit des commissaires aux comptes sur les Comptes Combinés des sociétés SFR, SIG 50 et de leurs filiales, relatifs aux exercices clos les 31 décembre 2013, 2012 et 2011

Au Président du directoire,

En notre qualité de commissaires aux comptes de la société Vivendi S.A. et en réponse à votre demande, dans le cadre de la mise en œuvre, le cas échéant, du projet de séparation des activités Médias et Télécoms du groupe Vivendi, nous avons effectué un audit des comptes combinés des sociétés SFR, SIG 50 et de leurs filiales (ci-après « le Groupe ») relatifs aux exercices clos les 31 décembre 2013, 2012 et 2011 (ci-après « les Comptes Combinés ») tels qu'ils sont joints au présent rapport.

Ces Comptes Combinés ont été établis sous la responsabilité de votre directoire. Il nous appartient, sur la base de notre audit, d'exprimer une opinion sur ces comptes.

Nous avons effectué notre audit selon les normes d'exercice professionnel applicables en France ; ces normes requièrent la mise en œuvre de diligences permettant d'obtenir l'assurance raisonnable que les Comptes Combinés ne comportent pas d'anomalies significatives. Un audit consiste à vérifier, par sondages ou au moyen d'autres méthodes de sélection, les éléments justifiant des montants et informations figurant dans les comptes combinés. Il consiste également à apprécier les principes comptables suivis, les estimations significatives retenues, et la présentation d'ensemble des comptes. Nous estimons que les éléments que nous avons collectés sont suffisants et appropriés pour fonder notre opinion.

A notre avis, les Comptes Combinés présentent sincèrement, dans tous leurs aspects significatifs et au regard du référentiel IFRS tel qu'adopté dans l'Union européenne, le patrimoine et la situation financière du Groupe, aux 31 décembre 2013, 2012, 2011, ainsi que le résultat de ses opérations pour chacun des exercices écoulés.

Sans remettre en cause l'opinion exprimée ci-dessus, nous attirons votre attention sur la note « Base de préparation » de l'annexe qui expose notamment le contexte, le périmètre de la combinaison et les conventions retenues pour l'établissement des Comptes Combinés.

(a) Détail dans l'état de résultat global

Les notes annexes font partie intégrante des états financiers combinés

Notes annexes aux comptes combinés

Base de préparation

Les présents comptes combinés ont été établis par Vivendi en sa qualité d'actionnaire de contrôle des sociétés SFR et SIG 50, dans le cadre de la mise en œuvre, le cas échéant du projet de séparation des activités Médias et Télécoms du groupe Vivendi.

Ils ont été établis sur la base des éléments comptables des sociétés SFR et SIG 50 et de leurs filiales, tels qu'arrêtés au titre de leurs exercices clos le 31 décembre 2011, 2012 et 2013 et préparés pour les besoins de l'établissement des comptes consolidés du groupe Vivendi.

Ces comptes combinés de SFR et SIG 50 et de leurs filiales ont été arrêtés par le Directoire de Vivendi réuni le 8 avril 2014.

Contexte

Comme ils en ont régulièrement informé les actionnaires en 2012 et 2013, le Directoire et le Conseil de surveillance de Vivendi ont engagé une revue des orientations stratégiques du groupe. En 2013, Vivendi a vendu la majorité de sa participation dans Activision Blizzard et a conclu un accord définitif avec Etisalat pour la cession de ses titres dans Maroc Telecom. Le Groupe a décidé de se concentrer sur ses activités de médias et de contenus qui occupent des places de leader et bénéficient d'un marché du numérique en pleine croissance. Il s'est renforcé dans Canal+ France, dont il détient désormais 100 % du capital. Vivendi travaille également à la reconfiguration de SFR. L'opérateur enregistre les premiers effets positifs de son plan de transformation, reprenant tout à la fois l'avantage sur le plan commercial et réduisant ses coûts. Un accord de mutualisation d'une partie de son réseau mobile avec Bouygues Telecom a été conclu, ce qui lui permettra de proposer à ses clients une meilleure couverture et une qualité de service renforcée. Sur ces bases, le Groupe entend positionner le futur Vivendi comme un acteur dynamique des médias et des contenus. Avec SFR, il a la volonté de participer à la recomposition du secteur des télécommunications en France en explorant activement toutes les opportunités.

Le 26 novembre 2013, le Conseil de surveillance a validé la pertinence du projet de séparation du groupe en deux sociétés distinctes : d'une part, un nouveau Groupe de médias international basé en France, avec des positions très fortes dans la musique (où il est le leader mondial), dans le cinéma en Europe, dans la télévision payante en France, en Afrique, au Vietnam et en Pologne ainsi que dans l'internet et les services associés au Brésil ; d'autre part les activités de téléphonie France.

Présentation de l'activité de téléphonie en France

L'activité de téléphonie en France comprend principalement :

- l'activité de téléphonie de SFR S.A. en France qui développe des services mobile, fixe, Internet ou de télévision auprès des clients grand public, professionnels, entreprises, collectivités et opérateurs. SFR S.A. opère en France métropolitaine, ainsi qu'à la Réunion et à Mayotte,
- les activités de distribution en France de produits et services de télécommunications.

Afin de présenter l'information financière historique du groupe au titre des exercices 2013, 2012 et 2011, des comptes combinés ont été établis.

Périmètre de la combinaison

L'ensemble qui constitue le nouveau groupe autonome (dénommé ci-après « le groupe »), n'a pas d'existence juridique propre préalablement à la séparation, mais est constitué d'entités sous contrôle commun de Vivendi.

Au 1er janvier 2011, le groupe est principalement constitué des sociétés suivantes :

- les entités détenues directement ou indirectement par SFR S.A. et ses filiales,
- la participation de Vivendi, au travers de la société SIG 50, dans les activités de distribution de produits et services de télécommunication, en raison de leur attachement opérationnel à l'activité du groupe.

Ainsi, le périmètre de combinaison exclut la société SPT, détenue par SFR S.A. et détentrice de Maroc Telecom.

Le périmètre de combinaison est présenté dans la Note 27 – Liste des entités combinées.

Modalités de traitement de la holding SPT détenant la participation dans Maroc Telecom :

- les titres de SPT ont été annulés en contrepartie d'une diminution des capitaux propres,
- les dividendes reçus de SPT, nets des retenues à la source, ont été présentés dans la variation des capitaux propres et dans le tableau des flux de trésorerie, en diminution des dividendes versés par SFR S.A. à Vivendi S.A.

Conventions retenues pour l'établissement des comptes combinés

Les opérations de regroupement d'entités sous contrôle commun telles qu'envisagées, ont été comptabilisées dans les comptes combinés du groupe aux valeurs comptables historiques. Les présents comptes combinés historiques du groupe ont été établis sur la base des valeurs figurant dans les états financiers consolidés de Vivendi retraitées des ajustements de consolidation et des incidences comptables des opérations d'acquisition d'intérêts dans l'activité de téléphonie France par Vivendi.

En l'absence de texte IFRS spécifique traitant des comptes combinés, le groupe a défini les principes et convention de combinaison présentés ci-après. Le niveau d'endettement net retenu dans ces comptes combinés reflète l'endettement et ses niveaux de rémunération historiques vis-à-vis du groupe vivendi ou des tiers des entités incluses dans le périmètre des comptes combinés.

Opérations réciproques entre le groupe et les autres entités du groupe Vivendi

Tous les soldes relatifs aux opérations courantes entre les entités du groupe et les autres entités du groupe Vivendi ont été présentés au bilan comme des comptes de tiers actifs ou passifs dans les comptes combinés.

Tous les prêts et emprunts entre les entités du groupe et les autres entités du groupe Vivendi ont été présentés comme des actifs ou passifs financiers dans les comptes combinés.

Les opérations avec les autres entités du groupe Vivendi sont présentées en Note 24 – Opérations avec les parties liées.

Résultat par action

Le groupe combiné n'étant pas juridiquement constitué à cette date, le nombre d'actions en circulation n'est pas déterminable. Par voie de conséquence, aucun résultat par action n'est présenté dans les états financiers combinés.

Impôts sur les sociétés

Les impôts différés comptabilisés au titre des déficits reportables ont été déterminés en prenant en compte l'effet de l'intégration fiscale mise en place au sein de Vivendi.

Les résultats fiscaux des sociétés de ce périmètre ont été pris en compte dans le cadre du régime d'intégration fiscal mis en place par Vivendi, en application des dispositions de l'article 223-A du Code général des impôts. En application de la convention d'intégration fiscale, les déficits constatés pendant la période d'appartenance à l'intégration fiscale, et jusqu'au 31 décembre 2013, resteront la propriété de Vivendi. En conséquence, aucun impôt différé actif n'a été reconnu au titre de ces déficits dans les comptes combinés présentés.

Note 1. Principes comptables

1.1. Cadre général

En application du règlement européen 1606/2002 du 19 juillet 2002, la base de préparation ci-avant décrit comment le référentiel IFRS tel qu'adopté par l'Union européenne a été appliqué pour la préparation des comptes combinés historiques aux 31 décembre 2011, 31 décembre 2012 et 31 décembre 2013.

Le nouvel ensemble que constitue le groupe n'a jamais établi de comptes IFRS, ni publié d'états financiers au titre des exercices précédents.

Dès lors, en tant que premier adoptant, le groupe a établi ses états financiers combinés relatifs à l'exercice clos le 31 décembre 2013 conformément aux dispositions de la norme IFRS 1 – *Première adoption des Normes internationales d'information financière*.

À l'égard d'une filiale devenant premier adoptant après sa Société mère, la norme IFRS 1 donne le choix pour l'évaluation des actifs et passifs au sein du bilan d'ouverture de la filiale :

- soit d'évaluer les actifs et passifs aux valeurs comptables telles qu'elles ressortent de la contribution de la filiale aux états financiers consolidés historiques de la Société mère, après retraitement des ajustements liés aux procédures de consolidation et aux incidences liées au traitement du regroupement d'entreprises au cours de laquelle la société mère a acquis la filiale ;
- soit d'évaluer les actifs et les passifs aux valeurs comptables établies selon les dispositions de la norme IFRS 1 appliquée à la date de transition de la filiale aux IFRS. Dans ce cas, les options d'IFRS 1 appliquées par la filiale peuvent être différentes de celles retenues par la mère.

Conformément à la possibilité offerte par IFRS 1, le groupe a choisi d'établir ses premiers états financiers combinés IFRS sur la base des valeurs comptables de ses actifs et passifs tels qu'ils ressortent dans sa contribution aux états financiers consolidés historiques de Vivendi, compte tenu de la date de transition de Vivendi aux IFRS, après élimination des ajustements liés aux procédures de consolidation du groupe Vivendi et aux incidences des regroupements d'entreprises au cours desquels Vivendi a acquis des intérêts dans SFR et dans les activités de distribution en France.

Ainsi les dispositions transitoires de première adoption retenues par le groupe sont identiques à celles appliquées par le groupe Vivendi lors de la transition aux normes IFRS, soit :

- Regroupements d'entreprises : non retraitement des regroupements d'entreprises réalisés par les entités du groupe combiné antérieurement au 1er janvier 2004, date de transition aux IFRS du groupe Vivendi ;
- Avantages du personnel : constatation au 1er janvier 2004 des écarts actuariels non encore comptabilisés en contrepartie des capitaux propres consolidés ;
- Paiements sur la base d'actions : option pour l'application rétrospective de la norme IFRS 2 à compter du bilan d'ouverture au 1er janvier 2004. Ainsi, tous les plans pour lesquels des droits restaient à acquérir au 1er janvier 2004 sont comptabilisés selon la norme IFRS 2.
- Montant cumulé des différences de conversion : transfert en réserves consolidées des écarts de conversion au 1^er^ janvier 2004, relatifs à la conversion en euros des comptes d'entités ayant une devise étrangère comme monnaie de fonctionnement.

L'exemption offerte par la norme IFRS 1 permettant de réévaluer au 1er janvier 2004 certaines immobilisations incorporelles et certaines immobilisations corporelles à leur juste valeur n'avait, quant à elle, pas été retenue par le groupe Vivendi lors de la transition aux IFRS.

Normes, amendements de normes et interprétations en vigueur
Les états financiers combinés au 31 décembre 2013 du groupe ont été établis conformément aux normes IFRS (*International Financial Reporting Standards*) telles qu'adoptées dans l'UE (*Union européenne*), et conformément aux normes IFRS telles que publiées par l'IASB (*International Accounting Standards Board*) et d'application obligatoire au 31 décembre 2013.
Le groupe a appliqué dans ses états financiers combinés de l'exercice 2013 de nouvelles normes et amendements tels qu'adoptés par l'Union européenne et d'application obligatoire au 1er janvier 2013.

Il s'agit de :

- Amendements à la norme IAS 1 – *Présentation des états financiers : présentation des autres éléments du résultat global*, ont été publiés par l'IASB le 16 juin 2011, adoptés dans l'UE le 5 juin 2012, et publiés au Journal officiel de l'UE le 6 juin 2012. Ils traitent de la présentation des autres éléments du résultat global (nommés « charges et produits comptabilisés en autres éléments du résultat global » dans le tableau du résultat global combiné) qui sont désormais regroupés selon leur recyclage ou non au compte de résultat.
- Amendements à la norme IAS 19 – *Avantages du personnel*, ont été publiés par l'IASB le 16 juin 2011, adoptés dans l'UE le 5 juin 2012, et publiés au Journal officiel de l'UE le 6 juin 2012. Les principes comptables et les méthodes d'évaluation relatifs aux régimes d'avantages du personnel sont présentés en Note 1.3.15 – Régimes d'avantages au personnel.
- Norme IFRS 13 – *Évaluation de la juste valeur*, relative à la définition de la notion de juste valeur en termes d'évaluation et d'informations à fournir, a été publiée par l'IASB le 12 mai 2011, adoptées dans l'UE le 11 décembre 2012, et publiée au Journal officiel de l'UE le 29 décembre 2012. Son application n'a pas d'incidence matérielle, ni sur les méthodes d'évaluation utilisées par le groupe, ni sur les informations communiquées en notes annexes.
- Amendements à différentes normes IFRS contenus dans le texte d'Améliorations annuelles Cycle 2009-2011 ont été publiés par l'IASB en mai 2012, adoptés dans l'UE le 27 mars 2013, et publiés au Journal officiel de l'UE le 28 mars 2013.

Le groupe a par ailleurs décidé d'appliquer par anticipation dans ses états financiers combinés au 31 décembre 2013 les nouvelles normes relatives aux méthodes de consolidation : IFRS 10 – *États financiers consolidés*, IFRS 11 – *Partenariats*, IFRS 12 – *Informations à fournir sur les intérêts détenus dans d'autres entités*, et IAS 28 – *Participations dans des entreprises associées et des coentreprises*, publiées par l'IASB le 12 mai 2011, adoptées dans l'UE le 11 décembre 2012 et publiées au Journal officiel de l'UE le 29 décembre 2012. Elles sont d'application obligatoire à compter du 1er janvier 2014 dans l'Union Européenne.

Les principes relatifs aux méthodes de combinaison introduits par ces nouvelles normes sont présentés ci-après dans la Note 1.3.2 – Méthodes de combinaison.

Nouvelles normes IFRS et interprétations IFRIC publiées mais non encore entrées en vigueur
Parmi les autres normes IFRS et interprétations IFRIC émises par l'IASB/l'IFRS IC, mais non encore entrées en vigueur, pour lesquelles le groupe n'a pas opté pour une application anticipée, et qui sont susceptibles de concerner le groupe, figure principalement l'interprétation IFRIC 21 – *Droits ou taxes*, publiée par l'IFRS IC le 20 mai 2013, dont la date d'application obligatoire n'est pas encore connue à ce jour, l'UE n'ayant pas encore adopté cette interprétation. L'application de cette interprétation pourrait conduire, le cas échéant, à modifier l'analyse du fait générateur de la reconnaissance du passif.
Le processus de détermination par le groupe des impacts potentiels de l'application de cette interprétation sur les états financiers combinés et le contenu des notes annexes aux états financiers combinés est en cours.
Par ailleurs, le groupe suit l'évolution de la norme IFRS 9 – *Instruments financiers* visant à remplacer IAS 39. Le Board de l'IASB a provisoirement décidé de décaler la date d'entrée en vigueur de la norme (initialement prévue en 2015), sans se prononcer sur une autre date.

1.2. Présentation des états financiers combinés

1.2.1. Compte de résultat combiné

Les principales rubriques présentées dans le compte de résultat combiné du groupe sont le chiffre d'affaires, le résultat opérationnel, le résultat financier, la quote-part de résultat net des sociétés mises en équivalence, l'impôt sur le résultat et le résultat net.

Le résultat opérationnel est le résultat du processus d'exploitation après prise en compte des dotations nettes aux amortissements et provisions et des éléments non récurrents, classés en autres charges et produits opérationnels.

Les autres charges et produits opérationnels regroupent notamment les coûts de restructuration, les dotations aux amortissements des actifs incorporels acquis dans le cadre de regroupement d'entreprises, les résultats de cession des immobilisations incorporelles et corporelles ainsi que les autres charges et produits non récurrents à caractère non financier.

Le résultat financier, est composé des charges d'intérêts sur les emprunts, des produits d'intérêts de la trésorerie, ainsi que des autres charges et produits financiers (notamment, effet de désactualisation des actifs et des passifs).

1.2.2. Autres éléments du résultat global

Les autres éléments du résultat global sont principalement les écarts de conversion, les variations de juste valeur des instruments de couverture de flux de trésorerie (change et taux), les écarts actuariels sur les avantages postérieurs à l'emploi, ainsi que les effets d'impôts liés.

Ces éléments sont classés en fonction de leur nature et sont répartis entre les éléments qui seront recyclables ultérieurement en résultat net et ceux qui ne le seront pas.

1.2.3. Bilan combiné

Les actifs et passifs dont la maturité est inférieure au cycle d'exploitation, généralement égal à 12 mois, sont classés en actifs ou passifs courants. Si leur échéance excède cette durée, ils sont ainsi généralement classés en actifs ou passifs non courants sauf les impôts différés qui sont classés en toutes circonstances en actifs et passifs non courants.

1.2.4. Tableau des flux de trésorerie

Flux nets de trésorerie des activités opérationnelles

Pour déterminer le flux net des activités opérationnelles, le résultat net est retraité des éléments sans incidence sur la trésorerie, et de la variation nette du besoin en fonds de roulement opérationnel. Ce résultat net est par ailleurs aussi retraité de l'impôt courant et différé, et de l'ensemble des composantes du résultat financier. Les flux nets de trésorerie provenant des activités opérationnelles excluent aussi la variation nette du besoin en fonds de roulement lié aux immobilisations corporelles et incorporelles.

Flux nets de trésorerie des activités d'investissement

Les flux nets de trésorerie des activités d'investissement intègrent notamment les acquisitions et cessions d'immobilisations corporelles, incorporelles et financières, la variation nette du besoin en fonds de roulement lié aux immobilisations corporelles et incorporelles ainsi que les flux de trésorerie provenant de l'obtention ou de la perte de contrôle dans une filiale.

Flux nets de trésorerie des activités de financement

Les flux nets de trésorerie des activités de financement intègrent notamment les souscriptions et remboursements d'emprunts, la variation de la dette envers Vivendi S.A., les dividendes versés, les augmentations de capital et le coût du financement, ainsi que toutes les incidences sur la trésorerie des autres éléments liés aux activités financières.

1.2.5. Performance opérationnelle du groupe

Le groupe considère que l'EBITDA et le CFFO constituent des indicateurs pertinents des performances opérationnelles du groupe.

EBITDA
Le groupe considère l'EBITDA, mesure à caractère non comptable, comme une mesure de la performance. Il met en évidence le profit généré par l'activité du groupe indépendamment des conditions de financement, des contraintes fiscales (impôts sur les sociétés) et de l'obsolescence de l'outil d'exploitation (dotations nettes aux amortissements et provisions). Tel que défini par le groupe, il correspond au résultat opérationnel retraité des autres produits et charges opérationnels et des dotations nettes aux amortissements et provisions sur les immobilisations incorporelles et corporelles.

CFFO
Le groupe considère le CFFO, mesure à caractère non comptable, comme un indicateur pertinent des performances opérationnelles du groupe. Le CFFO correspond notamment aux flux nets de trésorerie provenant des activités opérationnelles du Tableau des Flux de Trésorerie (TFT) après déduction des investissements nets de cession et de variation de BFR y afférente et corrigé des décaissements de l'impôt sur les sociétés.

1.2.6. Information sectorielle

L'évolution de l'activité du groupe entraînant la convergence accrue des activités de téléphonie mobile et de services Internet haut débit et fixe conduit la direction du groupe à suivre les opérations de façon globale et unifiée. Le principal décideur opérationnel, vérifie les résultats et les plans opérationnels, et décide de l'affectation des ressources à l'échelle du groupe. Le groupe a donc identifié un seul secteur opérationnel répondant aux critères de la norme IFRS 8.
De même, considérant que la quasi-totalité de l'activité du groupe est réalisée sur le territoire français un seul axe géographique est retenu.
Cette présentation pourrait être modifiée à l'avenir, en fonction de l'évolution des activités du groupe et des critères opérationnels.

1.3. Principes de préparation des états financiers combinés

1.3.1. Recours à des estimations

L'établissement des états financiers combinés conformément aux normes IFRS requiert que le groupe procède à certaines estimations et retienne certaines hypothèses, qu'il juge raisonnables et réalistes. Même si ces estimations et hypothèses sont régulièrement revues, en particulier sur la base des réalisations passées et des anticipations, certains faits et circonstances peuvent conduire à des changements ou des variations de ces estimations et hypothèses, ce qui pourrait affecter la valeur comptable des actifs, passifs, capitaux propres et résultat du groupe.

Les principales estimations et hypothèses utilisées concernent l'évaluation des postes suivants :

- provisions : estimation du risque, effectuée au cas par cas, étant précisé que la survenance d'évènements en cours de procédure peut entraîner à tout moment une réappréciation de ce risque (Cf. Notes 1.3.14 et 18),
- avantages au personnel : hypothèses mises à jour annuellement, telles que la probabilité du maintien du personnel dans le groupe jusqu'au départ en retraite, l'évolution prévisible de la rémunération future, le taux d'actualisation et le taux d'inflation, table de mortalité (Cf. Notes 1.3.15 et 19),
- écarts d'acquisition : immobilisations incorporelles à durée de vie indéfinie et immobilisations en cours : hypothèses mises à jour annuellement, dans le cadre des tests de perte de valeur, relatives à la détermination des unités génératrices de trésorerie (UGT), des flux de trésorerie futurs et des taux d'actualisation (Cf. Notes 1.3.6 et 8).
- impôts différés : estimations pour la reconnaissance des impôts différés actifs mises à jour annuellement telles que les résultats fiscaux futurs du groupe ou les variations probables des différences temporelles actives et passives (Cf. Notes 1.3.16 et 6),

- chiffre d'affaires : identification des éléments séparables d'une offre packagée et allocation en fonction des justes valeurs relatives de chaque élément ; durée d'étalement des revenus liés aux frais d'accès au service selon la nature du produit et la durée du contrat ; présentation du revenu en net ou brut selon que le groupe agit en qualité d'agent ou principal. (Cf. Note 1.3.4 et 4.1).
- Immobilisations incorporelles et corporelles : estimation de la durée d'utilité basée notamment sur l'obsolescence effective des immobilisations et sur l'utilisation qui en est faite (Cf. Notes 1.3.7 et 9 ; 1.3.8 et 10)

1.3.2. Méthodes de combinaison

La liste des entités combinées est présentée à la Note 27 – Liste des sociétés combinées.

Entités contrôlées
Le nouveau modèle de contrôle, introduit par la norme IFRS 10 en remplacement de la norme IAS 27 révisée – *États financiers consolidés et individuels* et de l'interprétation SIC 12 – *Entités ad hoc*, est fondé sur les trois critères suivants à remplir simultanément afin de conclure à l'exercice du contrôle par la société mère :

- la société mère détient le pouvoir sur la filiale lorsqu'elle a des droits effectifs qui lui confèrent la capacité actuelle de diriger les activités pertinentes, à savoir les activités ayant une incidence importante sur les rendements de la filiale. Le pouvoir peut être issu de droits de vote existants et / ou potentiels et / ou d'accords contractuels. Les droits de vote doivent être substantiels, *i.e.* leur exercice doit pouvoir être mis en œuvre à tout moment, sans limitation et plus particulièrement lors des prises de décision portant sur les activités significatives. L'appréciation de la détention du pouvoir dépend de la nature des activités pertinentes de la filiale, du processus de décision en son sein et de la répartition des droits des autres actionnaires de la filiale ;
- la société mère est exposée ou a droit à des rendements variables en raison de ses liens avec la filiale qui peuvent varier selon la performance de celle-ci. La notion de rendement est définie largement, et inclut les dividendes et autres formes d'avantages économiques distribués, la valorisation de l'investissement, les économies de coûts, les synergies, etc… ;
- la société mère a la capacité d'exercer son pouvoir afin d'influer sur les rendements. Un pouvoir qui ne conduirait pas à cette influence ne pourrait pas être qualifié de contrôle.

Ces entités sont combinées selon la méthode de l'intégration globale.

Méthode de l'intégration globale
Elle consiste à intégrer dans les comptes combinés les éléments du bilan, du compte de résultat et du tableau des flux de trésorerie des entreprises contrôlées au sens IFRS 10, effectuer les retraitements éventuels, éliminer les opérations et comptes les concernant réciproquement ainsi que les résultats internes et répartir les capitaux propres et le résultat entre les intérêts de la société mère et les intérêts ne donnant pas le contrôle.
Le compte de résultat combiné inclut les résultats des filiales acquises au cours de l'exercice à compter de la date de leur acquisition. Les résultats des filiales cédées au cours de la même période sont pris en compte jusqu'à leur date de cession.
Les intérêts ne donnant pas le contrôle dans l'actif net des filiales sont présentés sur une ligne distincte des capitaux propres intitulée « Intérêts ne donnant pas le contrôle ». Ils comprennent le montant des intérêts ne donnant pas le contrôle à la date de prise de contrôle et la part des intérêts ne donnant pas le contrôle dans la variation des capitaux propres depuis cette date. Sauf accord contractuel qui indiquerait une allocation différente, les résultats négatifs des filiales sont systématiquement répartis entre capitaux propres attribuables aux propriétaires de la société mère et intérêts ne donnant pas le contrôle sur la base de leurs pourcentages d'intérêt respectifs, et cela même si ces derniers deviennent négatifs.

Partenariats
La norme IFRS 11 – *Partenariats,* qui remplace la norme IAS 31 – *Participations dans des coentreprises* et l'interprétation SIC 13 – *Entités contrôlées en commun - Apports non monétaires*

par des co-entrepreneurs, a pour objectif d'établir les principes d'information financière pour les entités qui détiennent des intérêts dans des entreprises contrôlées conjointement (ou partenariats). Dans un partenariat, les parties sont liées par un accord contractuel leur conférant le contrôle conjoint de l'entreprise. L'entité qui est partie à un partenariat doit donc déterminer si l'accord contractuel confère à toutes les parties, ou à un groupe d'entre elles, le contrôle collectif de l'entreprise. L'existence d'un contrôle conjoint est ensuite déterminée dans le cas où les décisions concernant les activités pertinentes requièrent le consentement unanime des parties qui contrôlent collectivement l'entreprise.

Les partenariats sont classés en deux catégories :

- Les entreprises communes (ou activités conjointes) : il s'agit de partenariats dans lesquels les parties qui exercent un contrôle conjoint sur l'entreprise ont directement des droits sur les actifs, et des obligations au titre des passifs liés, relatifs à celle-ci. Ces parties sont appelées « coparticipants ». Le coparticipant comptabilise 100 % des actifs / passifs, charges / produits de l'entreprise commune détenus en propre, ainsi que la quote-part des éléments détenus conjointement. Ces partenariats concernent les contrats de co-investissements signés par le groupe.
- Les coentreprises : il s'agit de partenariats dans lesquels les parties qui exercent un contrôle conjoint sur l'entreprise ont des droits sur l'actif net de celle-ci. Ces parties sont appelées « co-entrepreneurs ». Chaque co-entrepreneur comptabilise son droit dans l'actif net de l'entité selon la méthode de la mise en équivalence (Cf. paragraphe spécifique à la méthode de mise en équivalence).

Entreprises associées

Les entreprises associées dans lesquelles le groupe détient une influence notable sont mises en équivalence par le groupe (Cf. paragraphe spécifique à la méthode de mise en équivalence).
L'influence notable est présumée exister lorsque le groupe détient, directement ou indirectement, 20 % ou davantage de droits de vote d'une entité, sauf à démontrer clairement que ce n'est pas le cas. L'existence d'une influence notable peut être mise en évidence par d'autres critères tels qu'une représentation au Conseil d'administration ou à l'organe de direction de l'entité détenue, une participation au processus d'élaboration des politiques, l'existence d'opérations significatives avec l'entité détenue ou l'échange de personnels dirigeants.

Méthode de la mise en équivalence

Selon la méthode de la mise en équivalence, les participations dans les entreprises associées et les coentreprises sont inscrites au bilan à leur coût d'acquisition, y compris écarts d'acquisition et coûts de transaction. Les compléments de prix initialement évalués à la juste valeur et les ajustements ultérieurs sont comptabilisés dans le coût de l'investissement, lorsque leurs paiements peuvent être mesurés avec une fiabilité suffisante.
La part du groupe dans le résultat des entreprises associées et coentreprises est reconnue dans le compte de résultat alors que sa part dans les mouvements de réserves postérieurs à l'acquisition est reconnue en réserves. Les mouvements postérieurs à l'acquisition sont portés en ajustement de la valeur de l'investissement. La quote-part du groupe dans les pertes enregistrées par une entreprise associée et une coentreprise est constatée dans la limite de l'investissement réalisé, sauf si le groupe a une obligation légale ou implicite de soutien envers cette entreprise.
Tout excédent du coût d'acquisition sur la quote-part du groupe dans la juste valeur nette des actifs, passifs et passifs éventuels identifiables de l'entreprise associée constaté à la date d'acquisition constitue un écart d'acquisition. Ce dernier est compris dans la valeur comptable de la participation et est pris en considération dans le test de dépréciation relatif à cet actif.

1.3.3. Méthodes de conversion des éléments en devise

Conversion des transactions en devises

Les opérations en monnaies étrangères sont initialement enregistrées dans la monnaie fonctionnelle de l'entité au taux de change en vigueur à la date d'opération. À la date de clôture, les actifs et passifs monétaires libellés en monnaies étrangères sont convertis dans la monnaie fonctionnelle aux taux en vigueur à la date de clôture. Tous les écarts sont enregistrés en résultat de la période.

Conversion des états financiers des sociétés étrangères
Les états financiers des sociétés étrangères dont la monnaie fonctionnelle n'est pas l'euro sont convertis en euros :

- au taux de change de clôture pour le bilan ;
- au taux moyen de l'exercice pour le compte de résultat et le tableau des flux de trésorerie.

Les différences de conversion en résultant sont portées directement dans un poste spécifique des capitaux propres « Écarts de conversion ». Lors des cessions ultérieures des investissements nets libellés en devise étrangère, le montant cumulé des écarts de change différés figurant dans les capitaux propres, relatif à cette activité à l'étranger, est constaté en résultat.

1.3.4. Chiffre d'affaires

Le chiffre d'affaires du groupe est reconnu dès lors qu'il est probable que les avantages économiques futurs bénéficieront au groupe et que ces produits peuvent être évalués de manière fiable.
Le chiffre d'affaires du groupe est constitué principalement de ventes d'équipement, de prestations de services et de locations d'infrastructures de télécommunications.

Ventes d'équipement
Les produits issus de la vente de terminaux sont reconnus en chiffre d'affaires lors du transfert à l'acquéreur des risques et avantages inhérents à la propriété.

Éléments séparables d'une offre commerciale packagée
Le chiffre d'affaires provenant des packs téléphoniques est comptabilisé comme une vente à éléments multiples. Le chiffre d'affaires provenant de la vente de terminaux (téléphones portables et autres) est constaté lors de l'activation de la ligne, net des remises accordées au client via les points de vente et des frais de mise en service.
Les autres coûts d'acquisition et de rétention, constitués notamment des primes non associées à des ventes de terminaux dans le cadre de packs téléphoniques et des commissions versées aux distributeurs sont enregistrées en charges administratives et commerciales.
Lorsque des éléments de ces transactions ne peuvent être identifiés ou analysés comme séparables d'une offre principale, ils sont considérés comme liés et les revenus associés sont reconnus dans leur globalité sur la durée du contrat ou la durée attendue de la relation client.

Prestations de services
Les produits d'abonnement d'accès à Internet ou de souscription à des forfaits de téléphonie (fixe ou mobile) sont comptabilisés de manière linéaire sur la durée de la prestation correspondante.
Le groupe vend certains abonnements téléphoniques au forfait pour lesquels les minutes de communication d'un mois donné peuvent être reportées sur le mois suivant en l'absence de consommation effective. Les minutes reportables sont comptabilisées pour la part du chiffre d'affaires qu'elles représentent dans l'abonnement téléphonique, lors de la consommation effective de ces minutes ou lors de leur péremption.
Le chiffre d'affaires relatif aux communications entrantes et sortantes ainsi que le hors forfait est enregistré lorsque la prestation est rendue.
Le chiffre d'affaires généré par les coupons vendus aux distributeurs et par les cartes prépayées Mobile est enregistré au fil de la consommation du client final, à partir de l'activation de ces coupons et cartes. Le reliquat non utilisé est enregistré en revenu différé à la clôture. Le produit est en tout état de cause, reconnu à la date de fin de validité des cartes ou lorsque la consommation du coupon est statistiquement improbable.
Les ventes de services aux abonnés gérées par le groupe pour le compte de fournisseurs de contenus (principalement les numéros spéciaux et SMS+) sont comptabilisées en brut, ou nettes des reversements aux fournisseurs de contenus selon les critères IAS 18 et notamment lorsque ces derniers ont la responsabilité du contenu et déterminent la tarification de l'abonné.

Les frais d'accès au service ou frais d'installation facturés principalement à des clients opérateurs et entreprises lors de la mise en œuvre de services de type connexion ADSL, service de bande passante ou de connectivité IP sont étalés sur la durée attendue de la relation contractuelle et de la fourniture du service principal.

Le chiffre d'affaires lié aux services commutés est reconnu au fur et à mesure de l'acheminement du trafic.

Le chiffre d'affaires provenant des services de bande passante, de connectivité IP, d'accès local à haut débit et de services de télécommunications est comptabilisé au fur et à mesure des services rendus aux clients.

Accès à des infrastructures de télécommunications

Le groupe foumit l'accès à ses infrastructures de télécommunication à ses clients opérateurs au moyen de différents types de contrats : la location, les contrats d'hébergement ou la concession de droits irrévocables d'usage (ou "IRU" Indefeasible Right of Use). Les contrats d'IRU concèdent l'usage d'un bien (fourreaux, fibres optiques ou bande passante) sur une durée définie généralement longue, le groupe restant propriétaire du bien. Les produits générés par les contrats de locations, les contrats d'hébergement dans les Netcenters et les IRU d'infrastructures sont étalés sur la durée des contrats correspondants, sauf lorsque ces demiers sont qualifiés de location financière ; dans ce cas, l'équipement est alors considéré comme vendu à crédit.

Dans le cas des IRU et parfois des locations ou des contrats de services, la prestation est payée d'avance la première année. Ces prépaiements, non remboursables, sont alors enregistrés en produits constatés d'avance et amortis sur la durée contractuelle attendue. La durée d'amortissement est comprise entre 10 et 25 ans pour les IRU et entre 1 et 25 ans pour les locations et les contrats de services.

Ventes d'infrastructures

Le groupe réalise pour le compte de certains clients la construction d'infrastructures. La durée moyenne des travaux étant inférieure à un an, la prise en compte du chiffre d'affaires se fait au moment du transfert de propriété. Le chiffre d'affaires relatif aux ventes d'infrastructures est pris en compte lors du transfert de propriété. Lorsqu'il est estimé qu'un contrat sera déficitaire, une provision pour contrat déficitaire est constatée.

Programmes de fidélisation

En application de l'interprétation IFRIC 13, le groupe procède à l'évaluation de la juste valeur de l'avantage incrémental octroyé dans le cadre de ces programmes de fidélisation. Au titre des périodes présentées, cette juste valeur étant non significative, aucun chiffre d'affaires n'a été différé à ce titre.

1.3.5. Coûts des ventes, coûts commerciaux et de distribution

Les coûts des ventes sont constitués des achats de marchandises (y compris les achats de terminaux), des coûts d'interconnexion, des coûts du réseau ainsi que de la quote-part des frais de personnel et d'impôts et taxes rattachés.

Les coûts commerciaux et de distribution représentent les coûts de publicité et de marketing, les coûts commerciaux, ainsi que les coûts de fidélisation et de gestion de clientèle. Ils sont constatés en charges dans l'exercice au cours duquel ils sont encourus.

1.3.6. Écarts d'acquisition et regroupements d'entreprises

Regroupements d'entreprises réalisés à partir du 1er janvier 2009

Les regroupements d'entreprises sont comptabilisés selon la méthode de l'acquisition.

Le prix d'acquisition aussi appelé « contrepartie transférée » pour l'acquisition d'une filiale est la somme des justes valeurs des actifs transférés et des passifs assumés par l'acquéreur à la date d'acquisition et des instruments de capitaux propres émis par l'acquéreur. Le prix d'acquisition comprend les compléments éventuels du prix évalués et comptabilisés à leur juste valeur, à la date d'acquisition.

Les compléments de prix sont enregistrés initialement à leur juste valeur et les variations de valeur intervenant ultérieurement sont systématiquement comptabilisées en contrepartie du résultat.
Les coûts directs liés à l'acquisition sont enregistrés en charges dans la période au cours de laquelle ils sont encourus.

À la date d'acquisition, l'écart d'acquisition est évalué comme étant la différence entre :

- la juste valeur de la contrepartie transférée, augmentée du montant des participations ne donnant pas le contrôle dans l'entreprise acquise, et
- le solde net des montants, à la date d'acquisition, des actifs identifiables acquis et des passifs assumés évalués à la juste valeur.

L'évaluation initiale du prix d'acquisition et des justes valeurs des actifs acquis et passifs assumés doit être finalisée dans un délai de 12 mois à compter de la date d'acquisition et tout ajustement est comptabilisé sous forme de correction rétroactive de l'écart d'acquisition. Au-delà de cette période de douze mois, tout ajustement est enregistré directement au compte de résultat. Lors de chaque regroupement d'entreprises, le groupe peut opter pour une comptabilisation de la fraction d'intérêts non acquise:

- soit à sa juste valeur à la date d'acquisition avec, en conséquence, la comptabilisation d'un écart d'acquisition sur cette fraction non acquise (méthode dite du « goodwill » complet) ;
- soit sur la base de sa quote-part dans l'actif net identifiable de l'acquise évalué à la juste valeur, ce qui conduit à ne reconnaître que l'écart d'acquisition attribuable aux propriétaires de la maison mère (méthode dite du « goodwill » partiel).

Si l'écart d'acquisition est négatif, il est constaté en profit directement au compte de résultat.

Les écarts d'acquisition ne sont pas amortis mais font l'objet d'un test de dépréciation dès l'apparition d'indices de pertes de valeur et au moins une fois par an à la date de clôture.
Ultérieurement, l'écart d'acquisition est évalué à son montant d'origine, diminué le cas échéant du cumul des pertes de valeur enregistrées (Cf. Note 8.3 – Tests de dépréciation des écarts d'acquisition).
En outre, les principes suivants s'appliquent aux regroupements d'entreprises :

- en cas de regroupement d'entreprises réalisé par étapes, l'acquéreur doit réévaluer à sa juste valeur à la date d'acquisition toute participation antérieurement détenue et comptabiliser l'éventuel profit ou perte en résultat ;
- en cas d'acquisition d'une participation complémentaire dans une filiale, le groupe comptabilise la différence entre le prix d'acquisition et la valeur comptable des intérêts minoritaires en variation des capitaux propres attribuables aux actionnaires.

Regroupements d'entreprises réalisés avant le 1er janvier 2009
Conformément aux dispositions de la norme IFRS 1, le groupe a choisi de ne pas retraiter les regroupements d'entreprises antérieurs au 1er janvier 2004. IFRS 3, dans sa version publiée par l'IASB en mars 2004, retenait déjà la méthode de l'acquisition. Ses dispositions diffèrent cependant de celles de la norme révisée sur les principaux points suivants :
- les intérêts minoritaires sont évalués sur la base de leur quote-part dans l'actif net identifiable de l'entité acquise, et l'option d'évaluation à la juste valeur n'existe pas,
- les ajustements éventuels du prix d'acquisition sont comptabilisés dans le coût d'acquisition uniquement si leur occurrence est probable et que les montants peuvent être évalués de façon fiable,
- les coûts directement liés à l'acquisition sont comptabilisés dans le coût du regroupement,
- en cas d'acquisition d'une participation complémentaire dans une filiale combinée, le groupe comptabilise la différence entre le coût d'acquisition et la valeur comptable des intérêts minoritaires acquis en écart d'acquisition.

1.3.7. Immobilisations incorporelles

Immobilisations incorporelles acquises

Les immobilisations incorporelles acquises séparément sont comptabilisées à leur coût historique diminué du cumul des amortissements et du cumul des éventuelles pertes de valeur.

Les immobilisations incorporelles acquises dans le cadre d'un regroupement d'entreprises sont comptabilisées à leur juste valeur à la date d'acquisition. Postérieurement à la comptabilisation initiale, le modèle du coût historique est appliqué à ces immobilisations incorporelles.

Licences d'exploitation

Les licences d'exploitation sur le territoire français de services de téléphonie sont comptabilisées pour le montant fixe payé lors de l'acquisition de la licence. La part variable des redevances liées aux licences qui s'élève à 1 % du chiffre d'affaires généré par ces activités ne peut être déterminée de manière fiable et est ainsi comptabilisée en charges de la période durant laquelle elle est encourue.

- La licence UMTS est comptabilisée à son coût historique et est amortie selon le mode linéaire depuis l'ouverture du service intervenue en juin 2004 et ce jusqu'à la fin de la période d'octroi du droit (août 2021), correspondant à sa durée d'utilisation attendue ;
- la licence GSM, renouvelée en mars 2006, est comptabilisée à la valeur actualisée à 4 % de la redevance annuelle fixe de 25 millions d'euros et est amortie selon le mode linéaire depuis cette date et ce jusqu'à la fin de la période d'octroi du droit (mars 2021), correspondant à sa durée d'utilisation attendue ;
- la licence LTE est comptabilisée à son coût historique et est amortie selon le mode linéaire à partir de la date d'ouverture du service jusqu'à la fin de la période d'octroi du droit. La licence concernant la bande 2,6 GHz, acquise en octobre 2011, est amortie depuis fin novembre 2012 (fin d'octroi : octobre 2031). La licence concernant la bande 800 MHz, acquise en janvier 2012, a été mise en service le 3 juin 2013 et sera amortie sur une durée restante de 18 ans (fin d'octroi : janvier 2032).

Autres immobilisations incorporelles acquises

Les frais de recherche de sites pour les antennes relais sont capitalisés et amortis en fonction de leur durée d'utilité, soit principalement dix ans, correspondant à la durée moyenne estimée d'un bail.

Les investissements réalisés dans le cadre de concessions ou de délégations de service public, et liés au déploiement du réseau de télécommunications, sont comptabilisés en immobilisations incorporelles conformément à l'interprétation IFRIC 12. Le « modèle incorporel » prévu par cette interprétation s'applique lorsque le concessionnaire reçoit un droit à facturer les usagers du service public et que le concessionnaire est payé en substance par l'usager. Ces immobilisations incorporelles sont amorties sur la durée la plus courte entre la durée d'utilité estimée des catégories d'immobilisations considérées et la durée de la concession.

Les immobilisations incorporelles sont également constituées des droits de passage ou droits d'accès obtenus. L'amortissement est généralement calculé selon la méthode linéaire sur la durée la plus faible entre la durée contractuelle et 30 ans.

Les frais de connexion DSL (frais d'accès au service ou FAS) facturés par l'opérateur de boucle locale lors de la mise en œuvre du dégroupage d'un client sont immobilisés et amortis sur la durée estimée de consommation des avantages économiques attendus entre deux et quatre ans.

Immobilisations incorporelles générées en interne

Les immobilisations incorporelles générées en interne sont comptabilisées à leur coût historique diminué du cumul des amortissements et du cumul des éventuelles pertes de valeur.

Les coûts de recherche sont comptabilisés en charges lorsqu'ils sont encourus. Les dépenses de développement sont activées lorsque les conditions suivantes sont remplies :

- l'achèvement de l'immobilisation est techniquement réalisable ;
- le groupe a l'intention d'achever l'immobilisation et de la mettre en service ou en vente ;
- le groupe dispose des ressources techniques et financières pour achever l'immobilisation ;

- le groupe a la capacité de mettre l'immobilisation en service ou en vente ;
- la rentabilité du projet est raisonnablement considérée comme assurée ;
- le groupe a la capacité d'évaluer de façon fiable les dépenses attribuables à l'immobilisation.

Les marques et parts de marché générées en interne ne sont pas reconnues en tant qu'immobilisations incorporelles.
Les coûts de développement de logiciels informatiques capitalisés représentent les coûts encourus lors du développement en interne des produits. Les coûts de développement de logiciels informatiques sont capitalisés dès lors que la faisabilité technique a été établie et qu'ils sont considérés comme recouvrables.
Les frais directs internes et externes engagés pour développer des logiciels à usage interne sont capitalisés durant la phase de développement de l'application. Les coûts de la phase de développement de l'application comprennent généralement la configuration du logiciel, le codage, l'installation et la phase de test. Les coûts des mises à jour importantes et des améliorations donnant lieu à des fonctionnalités supplémentaires sont également activés. Ces coûts capitalisés sont amortis sur quatre à huit ans.

Les dépenses ultérieures relatives aux immobilisations incorporelles sont activées seulement si elles augmentent les avantages économiques futurs associés à l'actif spécifique correspondant. Les autres dépenses sont comptabilisées en charges lorsqu'elles sont encourues.

Coûts d'emprunts
Le mode de déploiement par étapes des immobilisations incorporelles ne conduisant généralement pas à une longue période de préparation, le groupe ne capitalise pas, en général, les coûts d'emprunts encourus pendant l'acquisition ou la production des immobilisations incorporelles.

1.3.8. Immobilisations corporelles

Les immobilisations corporelles sont comptabilisées à leur coût historique diminué du cumul des amortissements et du cumul des éventuelles pertes de valeur. Le coût historique inclut le coût d'acquisition ou le coût de production, les coûts directement attribuables pour disposer de l'immobilisation dans son lieu et dans ses conditions d'exploitation, et l'estimation des coûts relatifs au démantèlement et à l'enlèvement de l'immobilisation et à la remise en état du site sur lequel elle est installée, à raison de l'obligation encourue. En outre, les coûts d'emprunt attribuables à un actif dont la période de construction est supérieure à un an sont capitalisés comme un élément du coût de cet actif.
A contrario, les coûts ultérieurs d'entretien (réparations et maintenances) de l'immobilisation corporelle sont comptabilisés en résultat. Les autres dépenses ultérieures qui contribuent à augmenter la productivité ou la durée de vie de l'immobilisation, sont portées à l'actif.
Lorsqu'une immobilisation corporelle comprend des composants significatifs ayant des durées de vie différentes, ils sont comptabilisés et amortis de façon séparée. L'amortissement est calculé de manière linéaire sur la durée de vie utile de l'actif.
Dans le cas particulier des immeubles de type Netcenters, la base amortissable tient compte d'une valeur résiduelle à l'issue de la durée d'utilité.
Les immobilisations corporelles comprennent principalement les équipements de réseaux.

Les durées d'utilisation sont les suivantes :

Constructions et bâtiments techniques	15 à 25 ans
Agencements et mobiliers	5 à 10 ans
Matériels et outillages industriels	5 ans
Box et frais d'accès	4 ans
Équipements du réseau :	

- Fibre optique / FTTH	50 ans
- Pylônes	20 ans
- Autres équipements de réseau	4 à 8 ans
Matériels divers	3 à 5 ans

Les durées d'utilité estimées sont revues régulièrement et les changements dans les estimations sont comptabilisés, le cas échéant, de manière prospective.

La charge d'amortissement est enregistrée dans le coût des ventes, les coûts commerciaux et de distribution ou les frais généraux selon la fonction des actifs auxquels elle se rapporte.

Les matériels et équipements de télécommunications sont des investissements fortement sujets aux évolutions technologiques : des mises au rebut ou amortissements accélérés peuvent être constatés si le groupe doit procéder à des mises au rebut prématurées de certains matériels techniques ou s'il est amené à revoir la durée d'utilisation prévisionnelle de certaines catégories d'équipement.

Les frais de liaisons et raccordements sont classés en immobilisations corporelles. Ces frais sont amortis sur leur durée d'utilité, soit huit ans.

Les contrats commerciaux de fourniture de capacités de télécommunications du groupe sont analysés au regard de l'interprétation IFRIC 4 - *Déterminer si un accord contient un contrat de location* :

- Les contrats de concession de droits irrévocables d'usage (ou « IRU » : Indefeasible Right of Use) concèdent l'usage d'un bien sur une durée définie. Les contrats d'« IRU » qui octroient un droit d'usage spécifique d'une partie déterminée de l'actif sous-jacent sous forme de fibres ou de longueurs d'ondes dédiées sont traités comme des contrats de location. Les coûts des contrats d'« IRU » sont immobilisés si la durée du droit octroyé couvre la majeure partie de la durée de vie de l'actif sous-jacent et amortis sur leur durée contractuelle ;
- Certains contrats commerciaux de fourniture de capacités sont qualifiés de contrats de prestations de services, ceci compte tenu généralement de l'absence de mise à disposition d'un actif spécifique ; les redevances contractuelles sont alors comptabilisées en charges sur la période.

Déploiement FTTH

La décision n° 2009-1106 de l'Autorité de Régulation des Communications électroniques et des Postes (ARCEP) en date du 22 décembre 2009 encadre le déploiement de la fibre optique dans les zones très denses en instituant des règles de co-investissement entre les opérateurs de téléphonie. Les offres de référence publiées par les opérateurs conformément aux dispositions de cette décision sont traitées en IFRS par l'application de la norme IFRS 11 – *Partenariats.* Ainsi, lorsque le groupe est co-investisseur *ab initio,* seule sa quote-part d'actif est conservée en immobilisation corporelle et lorsque le groupe est investisseur *a posteriori*, l'IRU ou le droit d'usage est enregistré en immobilisation corporelle. Le même traitement s'applique pour le co-investissement dans les zones moyennement denses définies par l'ARCEP.

Contrats de location financement

Les contrats de location d'immobilisations corporelles pour lesquels sont transférés au groupe la quasi-totalité des risques et des avantages inhérents à la propriété légale sont considérés comme des contrats de location-financement.

Les immobilisations corporelles ainsi financées sont comptabilisés en actif corporel avec inscription en contrepartie d'une dette financière. Les actifs financés par des contrats de location financement sont capitalisés pour la valeur actualisée des paiements futurs ou la valeur de marché si elle est inférieure, et la dette correspondante est inscrite en «emprunts et autres passifs financiers». Ces actifs sont généralement amortis de façon linéaire sur leur durée d'utilité estimée, correspondant à la durée applicable à des immobilisations de même nature, ou, si la durée du contrat de location est plus courte que la durée d'utilité du bien loué et s'il n'est pas raisonnablement certain que la propriété du bien sera transférée au preneur à la fin du contrat, sur la durée du contrat.

Remise en état des sites

Le groupe a l'obligation contractuelle de remettre en état les sites du réseau (mobile et fixe) à l'échéance du bail, en cas de non renouvellement de celui-ci. En raison de cette obligation, l'activation des coûts de remise en état des sites a été calculée sur la base :

- d'un coût moyen unitaire de remise en état de sites,
- d'hypothèses sur la durée de vie de l'actif de démantèlement, et
- d'un taux d'actualisation.

Subventions d'investissement

Les subventions d'investissement reçues sont comptabilisées au bilan en déduction des immobilisations qu'elles ont permis de financer. Ces subventions d'investissement sont comptabilisées en résultat au même rythme que les amortissements des immobilisations financées.

1.3.9. Perte de valeur des écarts d'acquisition, immobilisations corporelles et incorporelles

Le groupe réexamine la valeur des écarts d'acquisition, des autres immobilisations incorporelles, des immobilisations corporelles et des immobilisations en cours chaque fois que des évènements ou modifications d'environnement de marché indiquent un risque de perte de valeur de ces actifs. En outre, les écarts d'acquisition, les immobilisations incorporelles à durée de vie indéfinie et les immobilisations incorporelles en cours sont soumis à un test de perte de valeur au cours du quatrième trimestre de chaque exercice.

Le test de dépréciation consiste à comparer la valeur recouvrable d'un actif immobilisé ou d'une unité génératrice de trésorerie à sa valeur nette comptable. Si la valeur recouvrable d'un actif ou d'une unité génératrice de trésorerie (UGT) est inférieure à sa valeur nette comptable, cette dernière est ramenée à la valeur recouvrable et la perte de valeur est immédiatement comptabilisée au compte de résultat en autres charges opérationnelles. Dans la situation d'un test de dépréciation d'écart d'acquisition affecté à une UGT ou groupe d'UGT, la perte de valeur est imputée, en premier lieu, sur la valeur comptable de l'écart d'acquisition, puis sur les autres actifs au prorata de leurs valeurs comptables.

Une UGT est le plus petit groupe identifiable d'actifs qui génère des entrées de trésorerie largement indépendantes des entrées de trésorerie générées par d'autres actifs ou groupes d'actifs. Si un actif ne génère pas d'entrées de trésorerie largement indépendantes de celles d'autres actifs ou groupes d'actifs, la valeur recouvrable est déterminée par unité génératrice de trésorerie.

La direction du groupe suit le retour sur investissement de ses acquisitions globalement au niveau du groupe. Cette entité opérationnelle correspond à l'unique UGT au niveau de laquelle les tests de dépréciation sont réalisés.

La valeur recouvrable est déterminée comme la plus élevée entre la valeur d'utilité et la juste valeur diminuée des coûts de cession.

La valeur d'utilité de chaque actif ou groupe d'actifs est déterminée par actualisation de ses flux de trésorerie futurs (méthode dite des *Discounted Cash Flows* ou DCF), en utilisant des prévisions de flux de trésorerie cohérents avec le budget et le plan d'affaires les plus récents approuvés par la direction sur des périodes allant de 1 à 6 ans. Les taux de croissance utilisés pour l'évaluation de l'UGT sont ceux retenus dans le cadre de l'élaboration du budget et du plan d'affaires de l'UGT. Pour les périodes subséquentes, les taux sont estimés par le groupe par extrapolation à partir des taux retenus pour les budgets et plans d'affaires. Ces taux n'excèdent pas le taux de croissance moyen à long terme pour les marchés dans lesquels le groupe opère. Les taux d'actualisation retenus reflètent les appréciations actuelles par les acteurs de marché de la valeur temps de l'argent et des risques spécifiques à chaque actif ou groupe d'actifs.

La juste valeur diminuée des coûts de cession correspond au montant qui pourrait être obtenu de la vente de l'actif ou d'un groupe d'actifs dans des conditions de concurrence normale entre des parties bien informées et consentantes, diminué des coûts de cession. Ces valeurs sont déterminées à partir d'éléments de marché (comparaison avec des sociétés cotées similaires, avec la valeur

attribuée à des actifs ou sociétés similaires lors d'opérations récentes ou des cours boursiers) ou à défaut à partir des flux de trésorerie actualisés.
Les pertes de valeur enregistrées au titre des immobilisations corporelles et incorporelles (hors écarts d'acquisition) peuvent être reprises ultérieurement, si la valeur recouvrable redevient supérieure à la valeur nette comptable, dans la limite de la perte de valeur initialement comptabilisée déduite des amortissements qui auraient été comptabilisés le cas échéant. En revanche, les pertes de valeur enregistrées au titre des écarts d'acquisition sont irréversibles.

1.3.10. Actifs financiers non dérivés

En application des dispositions prévues par la norme IAS 39, les actifs financiers sont classés suivant l'une des quatre catégories suivantes

- les actifs à la juste valeur par le résultat,
- les actifs détenus jusqu'à échéance,
- les prêts et créances,
- les actifs disponibles à la vente.

En application des dispositions prévues par la norme IFRS 7, l'information fournie dans les notes annexes au titre des instruments financiers permet :

- le rapprochement avec les postes présentés dans le bilan,
- d'évaluer l'importance des instruments financiers au regard de la situation et de la performance financières du groupe,
- d'évaluer la nature et l'ampleur des risques découlant des instruments financiers auxquels le groupe est exposé à la date de clôture.

Les achats et ventes d'actifs financiers sont comptabilisés à la date de transaction, date à laquelle le groupe est engagé dans l'achat ou la vente d'actifs. Un actif financier est décomptabilisé si les droits contractuels sur les flux de trésorerie liés à cet actif financier arrivent à expiration ou si cet actif est transféré.
Lors de la comptabilisation initiale, les actifs financiers sont inscrits au bilan à leur juste valeur augmentée des coûts de transaction directement attribuables à l'acquisition ou à l'émission de l'actif (sauf pour la catégorie des actifs financiers évalués à leur juste valeur par résultat, pour lesquels ces coûts de transaction sont comptabilisés en résultat).
La détermination de la juste valeur des principaux actifs et passifs financiers existant au bilan du groupe est détaillée en Note 23 – Instruments financiers.
Un actif financier est qualifié de courant lorsque l'échéance des flux de trésorerie attendus de l'instrument est inférieure à un an.

Actifs financiers à la juste valeur par le résultat

Il s'agit d'actifs financiers négociés afin d'être revendus à très court terme, détenus à des fins de transaction.
Les profits et pertes provenant de la variation de juste valeur sur des actifs financiers classés dans cette catégorie sont comptabilisés en résultat dans la période où ils surviennent.
Les principaux actifs financiers à la juste valeur par le résultat comprennent des OPCVM.
Ces actifs sont majoritairement classés au bilan en trésorerie et équivalents de trésorerie.

Actifs financiers détenus jusqu'à échéance

Les actifs financiers détenus jusqu'à échéance sont des actifs financiers non dérivés, autres que les prêts et créances, assortis de paiements déterminés ou déterminables et d'une échéance fixée, que le groupe a l'intention et la capacité de conserver jusqu'à cette échéance. Après leur comptabilisation initiale, ils sont évalués au coût amorti selon la méthode du taux d'intérêt effectif.
Les principaux actifs financiers détenus jusqu'à l'échéance comprennent notamment les actifs financiers liés aux opérations de Qualified Technology Equipment (QTE) soldés en 2012. Ces actifs sont classés au bilan en actifs financiers non courants.

Prêts et créances

Les prêts et créances sont des actifs financiers non dérivés à paiements déterminés ou déterminables qui ne sont pas cotés sur un marché actif. Ces actifs sont comptabilisés au coût amorti selon la méthode du taux d'intérêt effectif.
Cette catégorie comprend principalement les créances clients et autres créances détaillées dans la Note 14 – Créances clients et autres créances ainsi que les autres actifs tels que les dépôts de garantie et les avances aux sociétés mises en équivalence évoquées dans la Note 12 – Autres actifs courants et non courants.

Les créances clients et autres créances sont initialement inscrites au bilan à leur juste valeur qui correspond en général à leur valeur nominale compte tenu de leur maturité courte sauf si l'effet d'actualisation est significatif.
S'agissant des créances clients sur les offres commerciales du groupe, une partie des créances échues fait l'objet de dépréciations en fonction des règles définies par le service recouvrement et contentieux. Les taux de dépréciation retenus sont différentiés selon les catégories de clients et/ou d'offres, et sont régulièrement mis à jour des dernières tendances constatées et notamment en tenant compte des résultats observés en matière de recouvrement. Les autres créances sont dépréciées, le cas échéant, en fonction de l'évaluation du risque de non-recouvrement.

Actifs financiers disponibles à la vente
Les actifs financiers disponibles à la vente regroupent les actifs financiers non dérivés qui sont désignés comme étant disponibles à la vente ou ne sont pas affectés aux autres catégories d'actifs financiers.
Les actifs financiers disponibles à la vente sont comptabilisés à la juste valeur. Les profits et pertes sur actifs financiers disponibles à la vente sont enregistrés en autres éléments du résultat global jusqu'à ce que l'investissement soit décomptabilisé ou jusqu'à ce qu'il soit démontré que l'investissement a perdu tout ou partie de sa valeur de façon durable et significative, date à laquelle le profit ou la perte cumulé, enregistré jusqu'alors en charges et produits comptabilisés directement en capitaux propres, est transféré dans le compte de résultat.
Cette catégorie comprend les titres de participation non combinés. Ces actifs sont classés au bilan en actifs financiers non courants.

Dépréciation des actifs financiers non dérivés
Une perte de valeur est constatée sur un actif ou un groupe d'actifs financiers s'il existe une indication objective de perte de valeur résultant d'un ou plusieurs évènements intervenus après la comptabilisation initiale de l'actif et que ces évènements ont un impact négatif sur les flux de trésorerie futurs estimés de l'actif financier ou du groupe d'actifs financiers.
La perte de valeur d'un actif financier évalué au coût amorti correspond à la différence entre sa valeur comptable et la valeur des flux de trésorerie futurs estimés, actualisée au taux d'intérêt effectif d'origine.
La perte de valeur d'un actif financier disponible à la vente est calculée par référence à sa juste valeur actuelle.
Un test de dépréciation est réalisé, sur une base individuelle, pour chaque actif financier significatif. Les autres actifs sont testés par groupes ayant des caractéristiques de risques de crédit similaires.
Les pertes de valeur sont comptabilisées en résultat. S'agissant des actifs disponibles à la vente, en cas de perte de valeur, le cumul des variations négatives de juste valeur antérieurement comptabilisées en capitaux propres est transféré en résultat.
La perte de valeur est reprise, si la reprise peut être objectivement liée à un évènement survenant après sa comptabilisation. Pour les actifs financiers évalués au coût amorti et les actifs financiers disponibles à la vente qui représentent des instruments de taux, la reprise est comptabilisée en résultat. Pour les actifs financiers disponibles à la vente qui représentent des instruments de capitaux propres, la reprise est comptabilisée directement en capitaux propres.
Les pertes de valeur relatives aux actifs comptabilisés au coût ne sont pas réversibles.

1.3.11. Stocks

Les stocks sont composés principalement de packs (mobiles associés à un droit d'accès aux services SFR), de mobiles nus, de box ADSL et d'accessoires.
Les stocks sont évalués au plus faible de leur coût et de leur valeur nette de réalisation. Le coût comprend principalement les coûts d'achat et les autres coûts d'approvisionnement. Il est calculé selon la méthode du coût moyen pondéré. La valeur nette de réalisation est le prix de vente estimé dans le cours normal de l'activité, diminué des coûts estimés nécessaires pour réaliser la vente.

1.3.12. Trésorerie et équivalents de trésorerie

La rubrique «Trésorerie et équivalents de trésorerie » comprend les soldes en banque, les OPCVM monétaires qui satisfont aux spécifications de la position AMF n°2011-13 et les placements à court terme très liquides, assortis d'une échéance à l'origine inférieure ou égale à trois mois, facilement convertibles en un montant connu de trésorerie et qui sont soumis à un risque négligeable de variation de valeur.
Les valeurs mobilières de placement sont évaluées à leur juste valeur par résultat.

1.3.13. Passifs financiers non dérivés

Les passifs financiers comprennent des emprunts obligataires, la dette envers Vivendi S.A., des engagements d'achat de participations ne donnant pas le contrôle, et les autres emprunts tels que les billets de trésorerie, les prêts syndiqués et les dettes au titre des opérations de location financement. Les passifs financiers comprennent également les autres passifs financiers non dérivés.

Emprunts

Les emprunts souscrits par le groupe sont initialement enregistrés à la juste valeur diminués des frais directement attribuables à ces emprunts. Postérieurement à la comptabilisation initiale, ils sont évalués au coût amorti selon la méthode du taux d'intérêt effectif. Les primes et frais d'émission d'emprunts sont présentés au passif du bilan en diminution du montant nominal de la dette. Selon cette méthode, la charge d'intérêt est comptabilisée de manière actuarielle sur la durée de l'emprunt.

Autres passifs financiers non dérivés

Les autres passifs financiers non dérivés comprennent les dettes fournisseurs et autres dettes. Elles sont évaluées à leur juste valeur lors de leur comptabilisation initiale qui, dans la plupart des cas, correspond à la valeur nominale compte tenu de leur échéance courte, puis au coût amorti.

Instruments financiers dérivés

Le groupe utilise divers instruments financiers dérivés pour couvrir son exposition au risque de variation des cours de change. Ils comprennent des contrats fermes de change à terme. L'ensemble des instruments financiers dérivés est comptabilisé au bilan à sa juste valeur dès la date de transaction puis réévalué à sa juste valeur à chaque clôture.
Les principaux instruments de couverture et la détermination de la juste valeur instruments dérivés sont détaillés en Note 23 – Instruments financiers.

1.3.14. Provisions

Des provisions sont comptabilisées lorsqu'à la fin de la période concernée, le groupe a une obligation légale, réglementaire, contractuelle ou implicite résultant d'évènements passés, qu'il est probable qu'une sortie de ressources représentatives d'avantages économiques soit nécessaire pour éteindre l'obligation et que le montant peut être évalué de façon fiable.
Si l'effet de la valeur temps est significatif, les provisions sont déterminées en actualisant les flux futurs de trésorerie attendus à un taux d'actualisation avant impôt qui reflète les appréciations actuelles par le marché de la valeur temps de l'argent. Si aucune estimation fiable du montant de l'obligation ne peut être effectuée, aucune provision n'est comptabilisée et une information est donnée en annexe.

Les provisions incluent pour l'essentiel :

- les provisions destinées à couvrir les litiges, contentieux des activités du groupe, dont l'estimation du montant est fondée sur l'appréciation du niveau de risque au cas par cas. La survenance d'événements en cours de procédure peut entraîner à tout moment une réappréciation de l'estimation de ces provisions ;
- les provisions pour restructuration, qui sont constituées dès lors que la restructuration a fait l'objet d'une annonce et d'un plan détaillé ou d'un début d'exécution. Ces provisions ne sont en général pas actualisées du fait de leur caractère court terme ;
- les provisions pour remise en état des sites, qui sont évaluées sur la base du nombre de sites concernés, d'un coût moyen unitaire de remise en état de site et des hypothèses sur la durée de vie de l'actif de démantèlement et du taux d'actualisation. Lorsqu'un site fait l'objet d'un démantèlement, la provision correspondante est reprise ;
- les provisions au titre des avantages au personnel sont détaillées dans le paragraphe ci-après.

1.3.15. Régimes d'avantages au personnel

En vertu d'obligations résultant de la législation française ou d'accords d'entreprise, le groupe offre à ses salariés des prestations de retraite pouvant prendre la forme de versement d'une indemnité lors du départ en retraite du salarié ou de pensions.

Concernant les régimes à prestations définies, un passif net est comptabilisé au bilan. Ce passif est déterminé par des actuaires indépendants selon la méthode des unités de crédit projetées. Cette méthode repose sur des hypothèses mises à jour annuellement, telles que la probabilité du maintien du personnel dans le groupe jusqu'au départ en retraite, l'évolution prévisible de la rémunération future et des contributions associées, et un taux d'actualisation approprié.

Dans le cadre du financement de ces régimes, le groupe a souscrit des contrats d'assurance visant à externaliser en partie ou totalement ces engagements.

Si ces actifs de couverture excèdent les engagements comptabilisés, un actif financier est généré dans la limite de la valeur actualisée des remboursements futurs et des diminutions de cotisations futures attendues.

Le groupe comptabilise de facto des actifs et des passifs au titre des retraites, ainsi que la charge nette correspondante sur toute la durée estimée de service des employés. Les écarts actuariels relatifs aux avantages postérieurs à l'emploi sont reconnus en totalité en « Autres éléments du résultat global » lors la période de survenance.

Le coût des régimes est comptabilisé en résultat opérationnel à l'exception du coût de la désactualisation et du rendement théorique des actifs du régime qui sont comptabilisés en autres charges et produits financiers.

Le coût des services passés, généré par les modifications et les réductions de régime, est comptabilisé immédiatement et en intégralité au compte de résultat.

1.3.16. Impôts

Le groupe calcule ses impôts sur le résultat conformément aux législations fiscales en vigueur dans les pays où les résultats sont imposables.

La charge d'impôt courante est calculé sur la base des législations fiscales adoptées ou quasi adoptées à la date de clôture des comptes dans les pays où le groupe exerce ses activités et génère des revenus imposables. Le management évalue périodiquement les positions fiscales prises au regard de la réglementation fiscale applicable dès lors qu'elle est sujette à interprétation, et détermine le cas échéant, les montants qu'il s'attend à verser aux autorités fiscales.

Les différences existant à la date de clôture entre la valeur fiscale des actifs et passifs et leur valeur comptable au bilan constituent des différences temporelles. En application de la méthode bilancielle du report variable, ces différences temporelles donnent lieu à la comptabilisation :

- d'actifs d'impôt différé, lorsque la valeur fiscale d'un actif est supérieure à sa valeur comptable et lorsque la valeur fiscale d'un passif est inférieure à sa valeur comptable (situation correspondant à une économie future d'impôt attendue) ;

- ou de passifs d'impôt différé, lorsque la valeur fiscale d'un actif est inférieure à sa valeur comptable et lorsque la valeur fiscale d'un passif est supérieure à sa valeur comptable (situation correspondant à une taxation future attendue).

Les actifs et passifs d'impôt différé sont déterminés sur la base des taux d'impôt et réglementations fiscales dont l'application est attendue sur l'exercice au cours duquel l'actif sera réalisé ou le passif réglé. Ces estimations sont revues à la clôture de chaque exercice, en fonction de l'évolution éventuelle des taux d'impôt applicables.

Des actifs d'impôt différé sont comptabilisés pour toutes différences temporelles déductibles, déficits fiscaux reportables et crédits d'impôt non utilisés, dans la mesure où il est probable qu'un bénéfice imposable sera disponible. La valeur comptable des actifs d'impôt différé est revue à la clôture de chaque exercice et, le cas échéant, réévaluée ou réduite, pour tenir compte de perspectives plus ou moins favorables de réalisation d'un bénéfice imposable disponible permettant leur utilisation. Pour apprécier la probabilité de réalisation d'un bénéfice imposable disponible, il est notamment tenu compte de l'historique des résultats des exercices précédents, des prévisions de résultats futurs, des éléments non récurrents qui ne seraient pas susceptibles de se renouveler à l'avenir. De ce fait, l'évaluation de la capacité du groupe à utiliser ses impôts différés actifs repose sur une part de jugement importante. Si les résultats fiscaux futurs du groupe s'avéraient sensiblement différents de ceux anticipés, le groupe serait alors dans l'obligation de revoir à la hausse ou à la baisse la valeur comptable des actifs d'impôt différé, ce qui pourrait avoir un effet significatif sur le bilan et le résultat du groupe.

Pour mémoire, le traitement des impôts différés liés aux résultats fiscaux des sociétés incluses dans le périmètre d'intégration fiscale de Vivendi est détaillé au chapitre « Impôts sur les sociétés » de la base de préparation des comptes combinés.

Les actifs et passifs d'impôt différé sont compensés lorsque les deux conditions suivantes sont réunies :

- le groupe a juridiquement le droit de compenser les actifs et passifs d'impôt courant, et
- les actifs et passifs d'impôt différé ont trait à des impôts relevant d'une même juridiction fiscale.

Les impôts relatifs aux éléments reconnus directement en autres éléments du résultat global sont comptabilisés en autres éléments du résultat global et non dans le compte de résultat.

1.3.17. Rémunérations payées en actions

Avec pour objectif d'aligner l'intérêt des dirigeants et des salariés sur celui des actionnaires en leur donnant une incitation supplémentaire à améliorer les performances de l'entreprise et à accroître le cours de l'action sur le long terme, Vivendi a mis en place, au profit des dirigeants et salariés du groupe, des plans de rémunération fondés sur l'action Vivendi (plans d'achat d'actions, plans d'attribution d'actions de performance, plans d'attribution gratuite d'actions) ou d'autres instruments de capitaux propres dérivés de la valeur de l'action Vivendi (options de souscription d'actions), dénoués par livraison d'actions. Le directoire et le conseil de surveillance de Vivendi ont approuvé l'attribution de ces plans. Par ailleurs, pour les options de souscription d'actions et les actions de performance, ils ont fixé les critères de performance qui déterminent leur attribution définitive. En outre, tous les plans attribués sont soumis à condition de présence à la date d'acquisition des droits.

La quote-part des plans relatifs aux salariés du groupe a fait l'objet d'une refacturation de Vivendi S.A. à SFR S.A.

Comptabilisation des instruments

Les rémunérations fondées sur des instruments de capitaux propres et réglées en instruments de capitaux propres sont comptabilisées comme des charges de personnel à hauteur de la juste valeur des instruments attribués par contrepartie d'un compte fournisseur.

La juste valeur des instruments attribués a été estimée et figée à la date d'attribution à l'aide d'un modèle binomial, reposant sur des hypothèses mises à jour à la date d'évaluation telles que la volatilité estimée du titre concerné et un taux d'actualisation correspondant au taux d'intérêt sans risque ainsi que le taux de dividendes estimé. La durée de vie estimée d'une option est calculée comme la moyenne entre la durée d'acquisition des droits et la durée de vie contractuelle de l'instrument.

1.3.18. Résultat par action

Le résultat de base par action est obtenu en divisant le résultat net de la période par le nombre moyen pondéré d'actions en circulation au cours de la période.

Le résultat dilué par action est obtenu en divisant le résultat net de la période par le nombre moyen pondéré d'actions en circulation au cours de la période ajusté de l'effet de tous les instruments dilutifs existants.

1.3.19. Engagements contractuels, actifs et passifs éventuels

Sur une base annuelle, le groupe établit un recensement détaillé de l'ensemble des obligations contractuelles, engagements financiers et commerciaux et obligations conditionnelles auxquelles il est partie ou exposé. De manière régulière, ce recensement est actualisé par les services compétents et revu par la direction du groupe.

Note 2. Principaux mouvements de périmètre

Exercice 2011

La Poste Telecom

SFR et La Poste ont créé en 2011 une filiale commune, la Poste Telecom, détenue respectivement à 49 % et 51 % ; cette filiale est un opérateur mobile virtuel sur le marché de détail de la téléphonie mobile, qui propose un ensemble de services de téléphonie mobile, qui sont commercialisés sous la marque La Poste Mobile, grâce au réseau de points de vente de La Poste. Cette société est mise en équivalence dans les comptes combinés du groupe.

Exercice 2012

Numergy

Le 31 août 2012, SFR a créé avec Bull et la Caisse des Dépôts et Consignations, la société Numergy ; SFR détient 46,7 % de son capital. Numergy propose, à l'ensemble des acteurs économiques, des infrastructures informatiques capables d'héberger des données et des applications accessibles à distance et sécurisées (« services de *cloud computing* »). Cette société est mise en équivalence dans les comptes combinés du groupe.

Note 3. Information sectorielle

Comme indiqué dans la base de préparation des comptes combinés présentée en introduction de la Note 1 – Principes comptables, le groupe n'a identifié qu'un seul secteur opérationnel répondant aux critères de la norme IFRS 8 – *Segments opérationnels.*

Information géographique

Considérant par ailleurs que l'activité du groupe est réalisée sur le territoire français, un seul axe géographique est retenu.

Information sur les principaux clients

Aucun client ne représente plus de 10% du chiffre d'affaires du groupe.

Note 4. Résultat opérationnel

Le détail des éléments inclus dans le résultat opérationnel est présenté en Note 1.3.4 – Chiffres d'affaires, 1.3.5 – Coût des ventes, coûts commerciaux et de distribution et 1.2.1 – Compte de résultat combiné.

4.1. Détail du chiffre d'affaires

(en millions d'euros)	2013	2012	2011
Ventes de biens	540	516	568
Ventes de services	9 658	10 772	11 615
Chiffre d'affaires	**10 199**	**11 288**	**12 183**

4.2. Autres charges et produits opérationnels

(en millions d'euros)	2013	2012	2011
Autres produits opérationnels	**2**	**11**	**14**
Amortissement des bases abonnés reconnues lors de regroupements d'entreprises (a)	(66)	(66)	(67)
Coûts de restructuration (b)	(93)	(187)	(12)
Autres	(10)	(17)	(6)
Autres charges opérationnelles	**(169)**	**(270)**	**(84)**

(a) L'amortissement des bases abonnés reconnues lors de regroupements d'entreprises représente notamment l'amortissement de la base abonnés reconnue lors de l'acquisition du groupe Neuf Cegetel en 2008 (Cf. Note 9 – Immobilisations incorporelles).

(b) Les coûts de restructuration concernent principalement le plan de départs volontaires lancé par SFR en 2012. Le groupe a continué en 2013 son plan de transformation pour adapter son organisation à l'évolution du marché et préserver sa capacité d'investissement dans le très haut-débit fixe et mobile. Le plan de départs volontaires s'est clôturé en août 2013 portant sur 873 emplois.

4.3. Frais de personnel et effectif moyen

(en millions d'euros, sauf effectif)	2013	2012	2011
Effectif moyen annuel en équivalent temps plein	**13 870**	**14 277**	**14 455**
Dont UES SFR (a)	9 106	9 524	9 529
Dont autres entités combinées	4 764	4 753	4 926
Traitement et salaires (b)	(734)	(652)	(632)
Charges sociales	(301)	(294)	(271)
Frais de personnel capitalisés	88	79	76
Salaires et charges	**(947)**	**(867)**	**(828)**
Rémunérations payées en actions (c)	(27)	(32)	(23)
Régimes d'avantages au personnel (d)	6	(4)	(3)
Autres frais de personnel (e)	(109)	(153)	(170)
Frais de personnel	**(1 077)**	**(1 056)**	**(1 025)**

(a) L'UES signifie l'unité économique et sociale.

(b) La variation 2013 versus 2012 provient essentiellement du plan de départs volontaires.

(c) Refacturé en totalité par Vivendi (Cf. Note 17 – Rémunérations fondées sur des instruments de capitaux propres).

(d) Coût des services rendus liés aux régimes de retraite dont le détail est présenté en Note 19 – Avantages postérieurs à l'emploi.

(e) Les autres frais de personnel comprennent la participation des salariés aux résultats, l'intéressement, les taxes assises sur les salaires et les autres avantages au personnel (œuvres sociales...).

Note 5. Résultat financier

Le coût net du financement étant présenté directement dans le compte de résultat, les autres produits et charges financiers sont détaillés ci-après :

(en millions d'euros)	2013	2012	2011
Autres produits financiers (a)	**2**	**2**	**8**
Variation de valeur des instruments dérivés	-	0	(40)
Effet de désactualisation lié aux dettes (b)	(7)	(10)	(11)
Effet de désactualisation lié aux provisions (c)	(6)	(5)	(5)
Variation des provisions sur actifs financiers	(1)	(9)	(0)
Autres	(10)	(10)	(12)
Autres charges financières	**(24)**	**(34)**	**(70)**

(a) Les autres produits financiers comprennent notamment des intérêts moratoires, des produits divers de gestion bancaire et des intérêts sur avance long terme aux sociétés mises en équivalence et non combinées.

(b) Concerne notamment la dette liée à la licence GSM.

(c) Concerne principalement la provision pour avantages postérieurs à l'emploi et la provision pour remise en état des sites présentées en Note 18 – Provisions.

Note 6. Impôt sur les sociétés

Pour information, certaines sociétés appartiennent à un groupe fiscalement intégré au sens des dispositions des articles 223 A du CGI et suivants:

- SFR S.A., depuis 2011 et, depuis 2012, quelques filiales détenues à plus de 95 % sont filiales du groupe fiscalement intégré dont Vivendi est la société tête du groupe. L'impôt dont est redevable chaque société membre est acquitté auprès de cette dernière, seule redevable vis-à-vis de l'administration fiscale.
- CID S.A. a constitué un groupe d'intégration fiscale depuis le 1^er^ janvier 2010 avec les filiales qu'elle détient à plus de 95 %. CID est également seule redevable de l'impôt sur les sociétés du groupe dont elle est la société mère.

6.1. Composantes de l'impôt sur les sociétés

(en millions d'euros)	2013	2012	2011
Charge d'impôt			
Courante	(282)	(559)	(566)
Différée	(33)	43	31
Impôt sur les sociétés au compte de résultat	**(315)**	**(516)**	**(535)**
Impôt sur les sociétés décaissé	**(299)**	**(537)**	**(643)**

6.2. Preuve d'impôt

(en millions d'euros)	2013	2012	2011
Résultat net	426	752	1 400
Neutralisation :			
Impôt sur les résultats	(315)	(516)	(535)
Résultat net des activités cédées ou en cours de cession	-	-	-
Résultat des activités avant impôt	**742**	**1 267**	**1 935**
Taux d'imposition légal en France	38,0%	36,1%	36,1%
Impôt théorique	**(282)**	**(458)**	**(699)**
Réconciliation entre l'impôt théorique et l'impôt réel :			
Différences permanentes (a)	(22)	(40)	(4)
Crédits d'impôt / Rappels d'impôts	(2)	(1)	4
Appréciation de l'activation d'impôts différés (b)	(5)	(7)	169
Résultat des sociétés mises en équivalence	(5)	(10)	(6)
Impôt sur les sociétés	**(315)**	**(516)**	**(535)**
Taux effectif d'impôt	42,5%	40,7%	27,6%

(a) Comprend notamment l'impact de la réintégration de 15 % des intérêts financiers calculés sur les sommes mises à la disposition du groupe et les déficits fiscaux remontés à Vivendi dans le cadre du régime d'intégration fiscale.

(b) Au 12 décembre 2011, un montant de 452 millions d'euros de déficits fiscaux a été transféré à SFR S.A. dans le cadre de la fusion avec VTI. Ces déficits fiscaux qui n'étaient pas reconnus, ont été consommés en totalité sur l'exercice 2011. L'impact sur le rapprochement entre l'impôt théorique et l'impôt effectif à fin 2011 s'élève à 163 millions d'euros.

6.3. Variation des impôts différés par nature

La variation des impôts différés des exercices 2011 à 2013 est détaillée en fonction des bases d'impôts différés dans les tableaux présentés ci-après.

Exercice 2013

(en millions d'euros)	Ouverture	Compte de résultat	Autres	Clôture
Impôts différés actifs				
Déficits fiscaux	65	8	(0)	73
Provisions pour risques et charges	134	(45)	3	92
Immobilisations incorporelles et corporelles	105	10	(0)	115
Autres	67	(7)	(0)	60
Compensation (a)	(136)	-	12	(124)
Impôts différés actifs bruts	**235**	**(34)**	**15**	**216**
Actifs non reconnus				
Déficits fiscaux	(61)	(9)	0	(69)
Autres	(17)	(3)	(0)	(20)

Immobilisations incorporelles et corporelles	(151)	17	0	(133)
Autres	(46)	21	2	(24)
Compensation (a)	195	-	(38)	157
Impôts différés passifs	**(2)**	**38**	**(36)**	**(0)**
Impôts différés actifs (passifs), nets	**98**	**31**	**(21)**	**108**

(a) Conformément à la Norme IAS 12, les actifs et passifs d'impôts différés d'une même entité fiscale sont compensés dans la mesure où ils sont liés à des impôts sur le résultat prélevés par la même autorité fiscale ; l'entreprise a un droit juridiquement exécutoire de compenser les actifs et les passifs d'impôt exigible.

Note 7. Résultat par action

Le groupe combiné n'étant pas juridiquement constitué à cette date, le nombre d'actions en circulation n'est pas déterminable. Par voie de conséquence, aucun résultat par action n'est présenté dans les états financiers combinés.

Note 8. Écarts d'acquisition

8.1. Écarts d'acquisition

(en millions d'euros)	2013	2012	2011
Écarts d'acquisition, bruts	5 194	5 194	5 194
Perte de valeur	(6)	(6)	(6)
Écarts d'acquisition	**5 188**	**5 188**	**5 188**

Ce montant comprend notamment le goodwill généré sur l'écart d'acquisition de Neuf Cegetel soit 4 837 millions d'euros.

8.2. Variation des écarts d'acquisition nets

(en millions d'euros)	2013	2012	2011
Valeur brute en début de période	**5 194**	**5 194**	**5 212**
Acquisitions	0	1	-
Cessions	-	-	(18)
Valeur brute en fin de période	**5 194**	**5 194**	**5 194**
Pertes de valeur en début de période	(6)	(6)	(6)
Variation	-	-	-
Pertes de valeur en fin de période	(6)	(6)	(6)
Valeur nette en fin de période	**5 188**	**5 188**	**5 188**

8.3. Tests de dépréciation des écarts d'acquisition

Le retour sur investissement des acquisitions est suivi au niveau du groupe, seul secteur opérationnel sur lequel sont réalisés les tests de dépréciation.

Principales hypothèses retenues pour déterminer les valeurs recouvrables

La valeur recouvrable est déterminée au moyen des méthodes usuelles d'évaluation, en particulier la valeur d'utilité, fondée sur l'approche DCF.

À cet égard, pour l'année 2013, les prévisions de flux de trésorerie et les paramètres financiers utilisés sont les plus récents validés par la direction du groupe et mis à jour afin de tenir compte du fort impact sur le chiffre d'affaires des politiques tarifaires décidées par le groupe dans un contexte concurrentiel exacerbé, partiellement compensé par des économies de coûts conformes aux attentes dans le cadre du plan de transformation de l'entreprise, tout en maintenant un niveau élevé des investissements, notamment du fait de leur accélération dans le très haut débit mobile.

La prévision repose sur le plan d'affaires 2014 - 2019 établi par la direction qui a été extrapolé sur cinq années supplémentaires.

Les hypothèses retenues pour les taux d'actualisation et le taux de croissance à l'infini sont détaillées dans le tableau ci-dessous :

	2013	2012	2011
Base retenue pour la valeur recouvrable	Valeur d'utilité	Valeur d'utilité	Valeur d'utilité
Méthodologie	DCF & comparables	DCF & comparables	DCF
Taux d'actualisation après impôts	7,30%	7,30%	7,00%
Taux de croissance à l'infini	0,5%	0,5%	1,0%

Sur la base de ces hypothèses, la direction du groupe, avec l'aide d'évaluateurs indépendants, a mis en œuvre un test de dépréciation des écarts d'acquisition, et conclu que la valeur recouvrable du groupe excédait sa valeur comptable au 31 décembre 2013. Le groupe n'a donc constaté aucune perte de valeur au 31 décembre 2013 ni au cours des périodes précédentes présentées.

Sensibilité des valeurs recouvrables

Sur les périodes analysées, la valeur recouvrable serait égale à la valeur comptable si les hypothèses principales évoluaient comme suit :

	Taux d'actualisation		Taux de croissance à l'infini		Flux de trésorerie
	Taux retenu (en %)	Augmentation du taux d'actualisation nécessaire afin que la valeur recouvrable soit égale à la valeur comptable (en nombre de points)	Taux retenu (en %)	Diminution du taux de croissance à l'infini nécessaire afin que la valeur recouvrable soit égale à la valeur comptable (en nombre de points)	Diminution des flux de trésorerie nécessaire afin que la valeur recouvrable soit étale à la valeur comptable (en %)
2013	7,30%	0,60 pt	0,50%	- 1,25 pt	-10%
2012	7,30%	3,00 pt	0,50%	- 7,00 pt	-34%
2011	7,00%	5,30 pt	1,00%	- 14,03 pt	-51%

Note 9. Immobilisations incorporelles

9.1. Immobilisations incorporelles par nature

La décomposition des immobilisations incorporelles par nature est la suivante :

	2013			2012			2011		
(en millions d'euros)	Brut	Amts & pertes de valeur	Net	Brut	Amts & pertes de valeur	Net	Brut	Amts & pertes de valeur	Net
Logiciels acquis	2 061	(1 737)	323	1 967	(1 653)	314	1 870	(1 527)	343
Logiciels créés en interne	2 695	(1 854)	841	2 438	(1 629)	810	2 135	(1 417)	719
Licences (a)	2 505	(620)	1 885	2 505	(503)	2 002	1 244	(430)	814
Bases clients (b)	562	(476)	86	562	(410)	152	562	(344)	218
Autres (c)	1 532	(736)	796	1 451	(646)	805	1 541	(516)	1 024
	9 355	**(5 424)**	**3 931**	**8 923**	**(4 841)**	**4 082**	**7 352**	**(4 235)**	**3 117**

(a) Le montant brut comprend notamment :
- la licence UMTS pour 619 millions d'euros (acquise en 2001 pour la fourniture de services de téléphonie mobile de troisième génération en France) et les nouvelles fréquences, acquises en juin 2010 pour 300 millions d'euros, amortissables sur une durée de 20 ans ;

- la licence GSM pour 278 millions d'euros. En mars 2006, l'État a accordé à SFR S.A. le droit de poursuivre pendant 15 ans l'exploitation de cette licence. La licence est comptabilisée pour sa valeur actuarielle (Cf. Note 1.3.7 – Immobilisations incorporelles) ;
- la licence LTE pour 150 millions d'euros acquise en octobre 2011 dans le cadre de l'attribution des fréquences 4G dans la bande 2,6 Ghz et pour 1 065 millions d'euros acquise en janvier 2012 dans le cadre de l'attribution des fréquences 4G dans la bande 800 Mhz.

(b) Comprend :

- la base abonnés Neuf Cegetel telle que valorisée lors de l'acquisition, soit 464 millions d'euros,
- la base abonnés FrNet2 telle que valorisée lors de l'acquisition, soit 98 millions d'euros.

(c) Intègrent principalement les frais de recherche de sites, les contrats de concessions (IFRIC 12), les droits de passage et les frais d'accès aux services.

9.2. Variation des immobilisations incorporelles nettes

L'analyse de la variation des immobilisations incorporelles est la suivante :

(en millions d'euros)	2013	2012	2011
Solde en début de période	**4 082**	**3 117**	**3 077**
Amortissements et pertes de valeur	(729)	(709)	(661)
Acquisitions	586	1 685	718
Cessions / Mises au rebut	(4)	(4)	(6)
Mouvements de périmètre	0	-	(5)
Autres	(4)	(8)	(5)
Solde en fin de période	**3 931**	**4 082**	**3 117**

La licence concernant la bande 800 MHz a été mise en service le 3 juin 2013 et sera amortie sur une durée restante de 18 ans (fin d'octroi : janvier 2032).

9.3. Détail des dotations nettes aux amortissements et aux pertes de valeur

Les variations d'amortissements et de pertes de valeur sont incluses par destination dans les différents éléments du résultat opérationnel.

Elles concernent :

(en millions d'euros)	2013	2012	2011
Logiciels acquis	(144)	(162)	(178)
Logiciels créés en interne	(229)	(215)	(194)
Licences	(117)	(73)	(72)
Bases clients	(66)	(66)	(67)
Autres immobilisations incorporelles	(172)	(193)	(151)
	(729)	**(709)**	**(661)**

Les projets des services du Réseau et les projets de développement des systèmes d'information sont éligibles à la capitalisation des coûts pour leurs phases de développement. Le montant capitalisé en immobilisations incorporelles s'élève à 249 millions d'euros en 2013 contre 263 millions d'euros en 2012 et 264 millions d'euros en 2011.

Note 10. Immobilisations corporelles

10.1. Immobilisations corporelles par nature

La décomposition des immobilisations corporelles par nature est la suivante :

	2013			2012			2011		
(en millions d'euros)	Brut	Amts & pertes de valeur	Net	Brut	Amts & pertes de valeur	Net	Brut	Amts & pertes de valeur	Net
Terrains	78	(1)	76	98	(1)	97	84	(1)	83
Constructions	2 900	(1 614)	1 286	2 744	(1 563)	1 182	1 938	(1 083)	855
Installations techniques	5 326	(3 267)	2 058	5 237	(3 207)	2 030	5 532	(3 310)	2 221
Immobilisations en cours	301	-	301	315	-	315	284	-	284
Autres	2 397	(1 587)	810	2 218	(1 374)	844	2 168	(1 367)	801
	11 002	**(6 470)**	**4 532**	**10 613**	**(6 145)**	**4 468**	**10 005**	**(5 762)**	**4 244**

Les constructions sont composées principalement de l'hébergement des sites techniques, de bâtiments et de leurs agencements respectifs. Les installations techniques comprennent essentiellement les équipements de réseau (radio, commutation, administration réseau, cœur de réseau) et les transmissions.

Les immobilisations corporelles en cours comprennent notamment des équipements et des infrastructures réseau.

10.2. Variation des immobilisations corporelles nettes

L'analyse de la variation des immobilisations corporelles est la suivante :

(en millions d'euros)	2013	2012	2011
Solde en début de période	**4 468**	**4 244**	**4 041**
Amortissements et pertes de valeur	(932)	(868)	(914)
Acquisitions / Augmentation	1 079	1 080	1 127
Cessions	(21)	(17)	(15)
Mouvements de périmètre	(61)	12	(1)
Autres	(2)	17	6
Solde en fin de période	**4 532**	**4 468**	**4 244**

10.3. Détail des dotations nettes aux amortissements et aux pertes de valeur

Les variations d'amortissements et de pertes de valeur sont incluses par destination dans les différents éléments du résultat opérationnel.

Elles concernent :

(en millions d'euros)	2013	2012	2011
Constructions	(118)	(115)	(124)
Installations techniques	(395)	(393)	(420)
Autres immobilisations corporelles	(419)	(361)	(369)
	(932)	(868)	(914)

10.4. Immobilisations corporelles financées par des contrats de location-financement

Le détail des immobilisations financées par des contrats de location financement, inclus dans le poste « Immobilisations corporelles », est le suivant :

(en millions d'euros)	2013	2012	2011
Terrains	5	5	5
Constructions	90	90	90
Installations techniques, matériel et outillage	176	176	176
Immobilisations corporelles financées par des contrats de location financement	**270**	**270**	**270**

Le montant des loyers minimum restant à payer au titre des immobilisations corporelles financées par des contrats de location financement est détaillé ci-après :

(en millions d'euros)	2013	2012	2011
A moins d'un an	3	4	9
De deux à cinq ans	7	8	12
Au-delà de cinq ans	1	3	4
Loyers minimum à payer non actualisés	**11**	**15**	**25**

Note 11. Titres mis en équivalence

11.1. Principaux titres mis en équivalence

En millions d'euros	2013	2012	2011
Numergy (a)	95	103	-
La Poste Telecom (b)	-	-	17
Autres entreprises associées	23	19	24
Entreprises associées	**119**	**123**	**41**
Synerail (c)	-	-	-
Foncière Rimbaud (d)	33	15	7
Coentreprises	**33**	**15**	**7**
	152	**138**	**49**

(a) SFR, Bull et la Caisse des Dépôts ont créé la société Numergy, qui proposera des infrastructures informatiques capables d'héberger des données et des applications, accessibles à distance et sécurisées soit des services de « *cloud computing* » (Cf. Note 2 – Mouvements de périmètre).
La quote-part du groupe d'un montant de 105 millions d'euros n'est libérée qu'à hauteur de 25 %. La dette pour la part non libérée figure au passif pour un montant de 79 millions d'euros (Cf. Note 22 – Autres passifs courants et non courants).

(b) SFR et La Poste ont créé La Poste Telecom, détenue respectivement à 49 % et 51 %. Cette filiale est un opérateur mobile virtuel sur le marché de détail de la téléphonie mobile sous la marque La Poste Mobile (Cf. Note 2 – Mouvements de périmètre).
La valeur négative des titres mis en équivalence de la Poste Telecom a été ramenée à zéro par contrepartie des provisions pour risques et charges pour un montant de 14 millions d'euros à fin 2013.

(c) Le 18 février 2010, un groupement constitué avec SFR, Vinci et AXA (à hauteur de 30 % chacune) et TDF (10 %) a signé avec Réseau Ferré de France le contrat de partenariat public-privé GSM-R. Ce contrat, d'une durée de 15 ans et d'un montant global d'un milliard d'euros, consiste à assurer le financement, la construction, l'exploitation et la maintenance d'un réseau de télécommunication numérique qui permettra d'assurer les communications (voix et données) entre les trains et les équipes de régulation au sol en mode conférence. Il sera déployé progressivement sur 14 000 km de lignes ferroviaires traditionnelles et à grande vitesse en France. La valeur négative des titres mis en équivalence de Synerail a été ramenée à zéro par contrepartie des provisions pour risques et charges pour un montant de 5 millions d'euros à fin 2013.

(d) SFR et Vinci Immobilier, filiale du Groupe Vinci ont quatre filiales communes à parité égale, Foncière Rimbaud 1, Foncière Rimbaud 2, Foncière Rimbaud 3 et Foncière Rimbaud 4 dans le cadre de la construction du siège social de SFR, à Saint-Denis. Ce projet, qui pourra évoluer dans le temps, sera réalisé en deux tranches dont les travaux s'échelonneront jusqu'à fin 2015. La première tranche de bâtiments (d'une surface de 74 000 m²) portée par Foncière Rimbaud 1 et Foncière Rimbaud 2 a été livrée fin 2013. La deuxième tranche portée par Foncière Rimbaud 3 et Foncière Rimbaud 4 est en cours de construction.
Les Foncière Rimbaud 3 et 4 intégrées globalement ont été mises en équivalence à compter d'avril 2013.

Les pourcentages de détention de ces principales sociétés mises en équivalences sont indiqués en Note 27 – Liste des entités combinées.

11.2. Informations financières condensées

Les informations financières condensées relatives aux sociétés mises en équivalence significatives sont présentées dans les tableaux suivants.

	Numergy		La Poste Telecom		
(en millions d'euros)	2013	2012	2013	2012	2011
Chiffre d'affaires	1	-	147	141	76
Résultat Net (a)	(18)	(3)	(19)	(19)	(62)
Capitaux propres	204	222	(62)	(43)	(24)
Trésorerie (-)/Dette nette (+)	(20)	(56)	48	34	27
Total Bilan	208	228	36	42	58

(a) Dont dépréciation du fonds de commerce de La Poste Telecom comptabilisée en 2011 mais remontée post consolidation (27 millions d'euros).

(en millions d'euros)	Synerail 2013	2012
Chiffre d'affaires	153	119
Résultat Net	2	1
Capitaux propres	(16)	(26)
Trésorerie (-)/Dette nette (+)	288	148
Total Bilan	344	221

Note 12. Autres actifs courants et non courants

(en millions d'euros)	2013	2012	2011
Actifs opérationels non courants	**79**	**78**	**1**
Avances aux sociétés mises en équivalence et non combinées	65	38	34

Actifs financiers non courants	**106**	**83**	**148**
Total autres actifs non courants	**185**	**161**	**149**
Autres actifs courants	**2**	**2**	**2**

(a) En 2011, comprend 53 millions d'euros de QTE correspondant aux dépôts assurant le préfinancement des commissions d'arrangement des contrats de location / sous location mis en place en 2001 par Neuf Cegetel. Le dernier contrat QTE a fait l'objet d'un remboursement anticipé en décembre 2012.

Note 13. Stocks

(en millions d'euros)	2013	2012	2011
Stocks de terminaux et équipements	259	256	364
Autres	2	7	13
Stocks - valeur brute	**262**	**263**	**377**
Total dépréciations	**(22)**	**(18)**	**(21)**
Stocks - valeur nette	**240**	**245**	**356**

Les stocks de terminaux comprennent des stocks en consignation auprès des distributeurs pour un montant de 122 millions d'euros en 2013 (132 millions d'euros en 2012 et 151 millions d'euros en 2011).

Note 14. Créances clients et autres créances

(en millions d'euros)	2013	2012	2011
Créances clients	2 147	2 225	2 349
Dépréciation des créances douteuses (a)	(465)	(477)	(398)
Créances clients nettes	**1 681**	**1 748**	**1 951**
Fournisseurs débiteurs	228	276	283
Créances sociales et fiscales (b)	529	407	681
Charges constatées d'avance	103	105	88
État impôts sur les sociétés	3	6	7
Autres créances	14	0	4
Créances clients et autres créances	**2 558**	**2 544**	**3 015**

(a) Le groupe estime qu'il n'y a pas de risque significatif de recouvrement des créances échues non provisionnées (Cf. Note 23.6 – Risques de crédit et de contrepartie - paragraphe Créances clients et autres créances).

(b) À fin 2013, les créances sociales et fiscales se composent notamment des éléments suivants :
- Taxe sur la valeur ajoutée : 355 millions d'euros
- Contribution économique territoriale (CET) : 71 millions d'euros
- Taxe sur les communications électroniques (TCE – Copé) : 61 millions d'euros
- Taxe sur les services de télévision (TST – COSIP) : 26 millions d'euros

Note 15. Trésorerie et équivalents de trésorerie

(en millions d'euros)	2013	2012	2011
Disponibilités	297	187	165
Équivalents de trésorerie	98	79	63
Trésorerie et équivalents de trésorerie	**394**	**267**	**228**

Note 16. Informations relatives aux capitaux propres

Dividendes versés aux actionnaires au cours des exercices 2011, 2012 et 2013 :

Les dividendes versés au titre de l'exercice 2010 se sont élevés à 1 000 millions d'euros. Ces dividendes ont été versés sous forme d'acompte en janvier 2011.

Les dividendes versés au titre de l'exercice 2011 se sont élevés à 1 423 millions d'euros. Ces dividendes ont été versés sous forme d'acompte, en juin 2011, pour un montant de 454 millions d'euros et pour le solde, en avril 2012, pour un montant de 968 millions d'euros.

Les dividendes versés au titre de l'exercice 2012 se sont élevés à 982 millions d'euros. Ces dividendes ont été versés en mars 2013.

Le groupe ne prévoit pas de distribuer de dividendes au titre de l'exercice 2013.

Gestion du risque en matière de capital :

La structure financière du groupe se compose des emprunts et dettes financières, de la trésorerie et équivalents de trésorerie et des fonds propres du groupe, qui incluent les réserves ainsi que les capitaux propres attribuables aux intérêts ne donnant pas le contrôle tels que détaillés dans le tableau de variations des capitaux propres.

Note 17. Rémunérations fondées sur des instruments de capitaux propres

17.1. Plans attribués par Vivendi aux salariés de SFR

17.1.1. Caractéristiques des différents plans attribués par Vivendi

Vivendi a mis en place des plans de rémunération fondés sur l'action Vivendi destinés aux salariés de SFR.

Au cours des exercices 2012 et 2011, Vivendi avait attribué des plans d'options de souscription d'actions et d'actions de performance, quel que soit le lieu de résidence fiscal des bénéficiaires, et un plan d'attribution gratuite d'actions réservé aux salariés de l'ensemble des filiales françaises du groupe.

En 2013, le Conseil de surveillance, sur proposition du Directoire et de la direction générale et après avis du Comité des ressources humaines, a décidé que l'intégralité des attributions serait effectuée sous forme exclusive d'actions de performance, quel que soit le lieu de résidence fiscal des bénéficiaires.

Par ailleurs, en 2013, 2012 et 2011, Vivendi a attribué des plans de souscription d'actions réservés à ses salariés et retraités (plans d'épargne groupe et à effet de levier).

Les principes retenus pour l'estimation et la comptabilisation de la valeur des instruments attribués sont décrits dans la Note 1.3.18 – Rémunérations payées en actions. En particulier, le taux d'intérêt sans risque appliqué est le rendement des Obligations Assimilables du Trésor (OAT) français dont l'échéance correspond à la durée de vie résiduelle estimée de l'instrument à la date d'évaluation et le taux de dividendes estimé à la date d'attribution est fondé sur la politique de distribution de dividende de Vivendi.

Pour mémoire, la volatilité retenue pour valoriser les plans d'options de souscription d'actions attribués par Vivendi en 2012 et 2011 était calculée comme la moyenne pondérée de (a) 75 % de la volatilité historique du titre Vivendi calculée sur une période de 6,5 ans et (b) 25 % de la volatilité implicite déterminée à partir des dérivés cotés (options de vente et d'achat) dans un marché liquide et ayant une maturité supérieure ou égale à six mois.

Instruments dénoués par émission d'actions

L'attribution définitive des instruments dénoués par émission d'actions, à l'exception du plan d'attribution gratuite d'actions de 2012, est soumise à la réalisation de critères de performance incluant un indicateur extérieur à la société, suivant en cela les recommandations de l'AFEP et du MEDEF. La réalisation des objectifs qui sous-tendent les conditions de performance est arrêtée par le Conseil de surveillance, sur proposition du Comité des ressources humaines.

La valeur des instruments dénoués par émission d'actions est estimée et figée à la date d'attribution. Pour les principaux plans d'actions de performance, d'options de souscription d'actions et d'attribution gratuite d'actions de 2013, 2012 et 2011, les hypothèses de valorisation retenues sont les suivantes :

	2013	2012		2011
Date d'attribution	22 février	16 juillet (a)	17 avril	13 avril
Données à la date d'attribution :				
Prix d'exercice de l'option (en euros) (b)	na	na	13,63	19,93
Cours de l'action (en euros)	14,91	15,75	12,53	20,56
Volatilité retenue	na	na	27%	25%
Taux de dividendes estimé	6,71%	6,35%	7,98%	7,30%
Coefficient de réalisation des objectifs (c)	100%	na	100%	100%

na : non applicable.

(a) Vivendi a procédé à une attribution gratuite de 50 actions à chaque salarié de l'ensemble des filiales françaises du groupe, y compris SFR (cf. *infra*).

(b) Conformément aux dispositions légales, le nombre et le prix d'exercice des options de souscription d'actions ainsi que le nombre de droits à actions de performance au titre des plans en cours, ont été ajustés afin de tenir compte de l'incidence, pour les bénéficiaires, des distributions par prélèvements sur les réserves suivantes :

- attribution le 9 mai 2012 d'une action gratuite pour 30 actions détenues à chaque actionnaire ;
- distribution le 17 mai 2013 du dividende au titre de l'exercice 2012.

Ces ajustements n'ont pas d'incidence sur le calcul de la charge comptable relative aux plans d'options de souscription d'actions et d'actions de performance concernés.

(c) À compter de 2012, la réalisation des objectifs qui sous-tendent les conditions de performance est appréciée sur deux ans (chaque année sur deux ans pour les plans attribués en 2011). L'attribution définitive est effective en fonction de la réalisation des critères de performance suivants :

- indicateur interne (70 %) : marge d'EBITA en fonction des résultats des deux derniers exercices cumulés pour les plans attribués en 2013 et 2012 (comparé au résultat net ajusté (45 %) et cash-flow des opérations (25 %) pour les plans attribués en 2011) ;
- indicateurs externes (30 %) : évolution du cours de l'action Vivendi appréciée sur deux ans par rapport à l'indice Dow Jones Stoxx Telecom (21 % pour les plans attribués en 2013 et 2012, comparé à 18 % pour les plans attribués en 2011) et par rapport à l'indice Media constitué d'un panel préétabli (9 % pour les plans attribués en 2013 et 2012, comparé à 12 % pour les plans attribués en 2011).

L'attribution définitive des options de souscription d'actions et des actions de performance du 17 avril 2012 est devenue effective au 31 décembre 2013. Leur acquisition reste soumise à une condition de présence à la date d'acquisition.

Concernant les options de souscription d'actions et actions de performance du 13 avril 2011, l'attribution définitive est devenue effective au 31 décembre 2012.

Plans d'attribution d'actions de performance fondés sur la valeur de Vivendi

Les droits des plans d'attribution d'actions de performance attribués en 2013, 2012 et 2011 seront acquis à l'issue d'une période de deux ans. La comptabilisation de la charge est par conséquent étalée linéairement sur cette période. Les actions de performance attribuées restent indisponibles pendant une période de quatre ans suivant la date d'attribution. Toutefois, les actions attribuées étant des actions ordinaires, de même catégorie que les actions ordinaires composant le capital social de Vivendi S.A., le salarié actionnaire bénéficie par conséquent, au terme de la période d'acquisition des droits de deux ans, des dividendes et droits de vote attachés à l'ensemble de ses actions. La charge de personnel comptabilisée correspond à la valeur des instruments perçus par le bénéficiaire, qui est égale à la valeur des actions à recevoir diminuée de la valeur actualisée des dividendes non perçus sur la période d'acquisition des droits.

Le 22 février 2013, 717 milliers d'actions de performance ont été attribuées, comparé à 552 milliers d'actions le 17 avril 2012 et 492 milliers d'actions le 13 avril 2011. Après prise en compte du coût de l'incessibilité, soit 8,3 % du cours de l'action au 22 février 2013 (7,1 % au 17 avril 2012 et 4,5 % au 13 avril 2011), la juste valeur de l'instrument attribué était de 11,79 euros, comparé à 9,80 euros par action au 17 avril 2012 et 16,84 euros au 13 avril 2011, soit une juste valeur globale de 8 millions d'euros (5 millions d'euros en 2012 et 8 millions d'euros en 2011).

Plans d'options de souscription d'actions fondés sur la valeur de Vivendi

Les droits des plans d'options de souscription d'actions attribués en 2012 et 2011 seront acquis à l'issue d'une période de trois ans et expirent à l'issue d'une période de dix ans (durée de vie estimée de 6,5 années). La comptabilisation de la charge déterminée à la date d'attribution est étalée linéairement sur la durée d'acquisition des droits. En 2013, Vivendi n'a pas attribué d'options de souscription d'actions. Le 17 avril 2012, 495 milliers d'options de souscription d'actions ont été attribuées, comparé à 610 milliers d'options le 13 avril 2011. Avec un taux d'intérêt sans risque de 2,35 % (3,21 % en 2011), la juste valeur de l'instrument attribué était de 0,96 euro, comparé à 2,16 euros par option au 13 avril 2011, soit une juste valeur globale de 0,5 million d'euros (1,3 million d'euros en 2011).

Plan d'attribution gratuite de 50 actions

Le 16 juillet 2012, Vivendi a mis en œuvre un plan d'attribution gratuite de 50 actions par salarié de l'ensemble des filiales françaises du groupe, y compris SFR. Ces actions seront créées à l'issue d'une période de deux ans, soit le 17 juillet 2014, sous condition de présence à cette date et sans conditions de performance. Ainsi, la comptabilisation de la charge est étalée linéairement sur cette période. Les actions resteront indisponibles pendant une nouvelle période de deux ans. Toutefois, les actions attribuées étant des actions ordinaires, de même catégorie que les actions ordinaires composant le capital social de Vivendi S.A., le salarié actionnaire bénéficie par conséquent, au terme de la période d'acquisition des droits de deux ans, des dividendes et droits de vote attachés à l'ensemble de ses actions.

Le 16 juillet 2012, 500 milliers d'actions ont été attribuées gratuitement. Après prise en compte du coût de l'incessibilité, soit 9,3 % du cours de l'action au 16 juillet 2012, la juste valeur de l'instrument attribué était de 12,40 euros, soit 6 millions d'euros au global.

Plans d'épargne groupe et plans à effet de levier souscrits par les salariés de SFR

Vivendi propose aussi des plans d'achat d'actions (plan d'épargne groupe et plan à effet de levier) qui permettent à la quasi-totalité des salariés de SFR, ainsi qu'aux retraités, d'acquérir des actions Vivendi dans le cadre d'augmentations de capital réservées. Ces actions, soumises à certaines restrictions concernant leur cession ou leur transfert, sont acquises par les salariés avec une décote d'un montant maximal de 20 % par rapport à la moyenne des cours d'ouverture de l'action lors des 20 jours de bourse précédant la date du Directoire de Vivendi qui a décidé de l'augmentation de capital (date d'attribution). La différence entre le prix de souscription des actions et le cours de l'action à la date d'octroi (qui correspond à la date de fin de la période de souscription) constitue l'avantage accordé aux bénéficiaires. En outre, Vivendi tient compte d'une décote d'incessibilité, au titre des restrictions concernant la cession ou le transfert des actions durant une période de cinq années, qui vient en réduction de la valeur de l'avantage accordé aux salariés. La valeur des plans d'achat d'actions est estimée et figée à la date d'octroi.

Pour les plans d'épargne groupe et plans à effet de levier souscrits en 2013,2012 et 2011, les hypothèses de valorisation retenues sont les suivantes :

	2013	2012	2011
Date d'octroi des droits	28 juin	25 juin	23 juin
Prix de souscription (en euros)	12,10	10,31	15,27
Données à la date d'octroi :			
Cours de l'action (en euros)	14,55	13,57	18,39
Décote faciale	16,82%	24,02%	16,97%
Taux de dividendes estimé	6,87%	7,37%	8,16%
Taux d'intérêt sans risque	1,19%	1,37%	2,44%
Taux d'emprunt 5 ans in fine	6,08%	6,51%	6,15%
Taux de frais de courtage (repo)	0,36%	0,36%	0,36%

Pour le plan d'épargne groupe, 1 505 milliers d'actions ont été souscrites en 2013 (comparé à 1 541 milliers d'actions souscrites en 2012 et 1 381 milliers d'actions souscrites en 2011). Après prise en compte du coût d'incessibilité de 15,2 % du cours de l'action à la date d'octroi (15,3 % en 2012 et 10,0 % en 2011), la juste valeur de l'avantage par action souscrite le 28 juin 2013 s'est élevée à 0,24 euro, comparé à 1,18 euro par action souscrite le 25 juin 2012 et 1,28 euro par action souscrite le 23 juin 2011.

Le plan à effet de levier permet à la quasi-totalité des salariés et retraités de SFR de souscrire des actions Vivendi *via* une augmentation de capital réservée en bénéficiant d'une décote à la souscription et de recevoir *in fine* de la plus-value (déterminée selon les modalités prévues au règlement des plans) attachée à 10 actions pour une action souscrite. Un établissement financier mandaté par Vivendi assure la couverture de cette opération.

En 2013, 6 225 milliers d'actions ont été souscrites pour le plan à effet de levier (comparé à 6 591 milliers d'actions souscrites en 2012 et 4 537 milliers d'actions souscrites en 2011). Après prise en compte du coût d'incessibilité après effet de levier de 1,5 % (inchangé par rapport à 2012 et 1,0 % en 2011), la juste valeur de l'avantage par action souscrite le 28 juin 2013 s'est élevée à 2,23 euros, comparé à 3,05 euros par action souscrite le 25 juin 2012 et 2,94 euros par action souscrite le 23 juin 2011.

En 2013, la charge constatée au titre du plan d'épargne groupe et du plan à effet de levier s'élève à 14 millions d'euros (contre 22 millions d'euros en 2012 et 15 millions d'euros en 2011).

17.1.2. Opérations sur les plans SFR en cours fondés sur la valeur de Vivendi intervenues depuis le 1er janvier 2011

Instruments dénoués par émission d'actions

na : non applicable

(a) Le cours moyen de l'action Vivendi aux dates d'exercices des options de souscription s'établissait à 16,71 euros (comparé à 16,50 euros pour les options exercées en 2012 et 20,85 euros pour les options exercées en 2011).

(b) La valeur intrinsèque totale des options de souscription d'actions en cours est de 17 millions d'euros.

(c) La durée résiduelle moyenne avant émission des actions de performance est de 0,8 année.

Au titre du plan d'attribution gratuite de 50 actions de 2012, le solde des actions s'élève à 455 milliers au 31 décembre 2013 (474 milliers au 31 décembre 2012). Au cours de l'exercice 2013, 19 milliers d'actions ont été annulées (26 milliers en 2012).

Informations relatives aux options de souscription d'actions en cours au 31 décembre 2013 :

	Options en cours			Options acquises

Provisions non courantes	*173*	*11*	*(34)*	*(1)*	*7*	*156*

(a) Régimes d'avantages au personnel : Cf. Note 19 – Avantages postérieurs à l'emploi.

(b) Restructuration : Cf. Note 4.2 – Autres charges et produits opérationnels.

(c) Frais de remise en état des sites : le groupe a l'obligation de remettre en état les sites techniques de son réseau à l'échéance du bail en cas de non renouvellement de celui-ci ou en cas de rupture anticipée.

(d) Litiges et autres : sont incluses notamment des provisions dont le montant et la nature ne sont pas détaillés car leur divulgation pourrait être de nature à porter préjudice au groupe. Les provisions pour litiges couvrent les risques afférents aux procédures contentieuses engagées à l'encontre du groupe. Tous les contentieux provisionnés sont actuellement en attente d'audience ou de plaidoirie devant un tribunal. La part non utilisée des provisions comptabilisées à l'ouverture correspond à des contentieux qui se sont soldés par des sommes, versées par le groupe, moins importantes que celles provisionnées.

Les tableaux des exercices antérieurs sont présentés ci-dessous :

	2012					
(en millions d'euros)	Ouverture	Dotations	Utilisations	Reprises et changements d'estimation	Autres variations	Clôture
Régimes d'avantages au personnel	50	7	(0)	(1)	15	72

Note 19. Avantages postérieurs à l'emploi

Tous les salariés du groupe bénéficient d'indemnités de fin de carrière en fonction de la convention collective de la société à laquelle ils sont rattachés.

19.1. Hypothèses utilisées pour l'évaluation

La dette actuarielle est évaluée selon les hypothèses suivantes :

	2013	2012	2011
Taux d'actualisation	3,00%	3,25%	4,50%
Taux d'augmentation des salaires	2,75%	2,75%	2,75%

Les hypothèses démographiques sont spécifiques à chaque société. Le taux d'actualisation est basé sur les taux « iBoxx € Corporates AA ».

Le produit d'intérêts des actifs de couverture est déterminé sur la base du taux d'actualisation.

Ces actifs de couverture sont investis dans le fonds général Cardif composé principalement d'obligations.

19.2. Analyse des engagements nets au titre des retraites et de prestations complémentaires

L'analyse de la variation des engagements nets est présentée dans les tableaux ci-dessous :

Évolution de la valeur des engagements

(en millions d'euros)	2013	2012	2011
Valeur des engagements en début d'exercice	73	52	48
Coût des services rendus	7	5	5
Coût de l'actualisation	2	2	2
Prestations de la période	(0)	(0)	(1)
Réduction de régime (a)	(12)	(1)	-
Liquidation de régime	-	-	(0)
Modification du régime	-	-	(1)
Écarts actuariels (gains)/pertes	7	15	(0)
Valeur des engagements en fin d'exercice	**77**	**73**	**52**
Dont engagements non financés	*76*	*71*	*50*
Dont engagements financés totalement ou partiellement	*0*	*2*	*2*

La réduction de régime de 12 millions d'euros en 2013 correspond à l'impact du plan de départs volontaires lancé par SFR en 2012 (Cf. Note 4.2 – Autres charges et produits opérationnels).

Évolution des actifs de couverture

(en millions d'euros)	2013	2012	2011
Juste valeur des actifs de couverture en début d'exercice	3	3	3
Prestations versées par le fonds	-	-	(1)
Écarts actuariels (gains)/pertes sur rendement	-	0	-
Rendement attendu des fonds de couverture	0	0	0
Juste valeur des actifs de couverture en fin d'exercice	**3**	**3**	**3**

Passif net comptabilisé

(en millions d'euros)	2013	2012	2011
Passif net comptabilisé en début d'exercice	(70)	(49)	(45)
Charge de la période	(9)	(7)	(5)
Prestations en diminution de l'engagement	0	0	0
Réduction de régime	12	1	-
Liquidation de régime	-	-	0
Écarts actuariels gains/(pertes) en résultat global	(7)	(15)	0
Passif net comptabilisé en fin d'exercice	(74)	(70)	(49)

Valeur des engagements, juste valeur des actifs et sous-couverture financière sur 3 exercices

(en millions d'euros)	2013	2012	2011
Valeur des engagements	77	73	52
Juste valeur des actifs de couverture	3	3	3
Sous-couverture financière	74	70	49

Sensibilités au taux d'actualisation

Une hausse de 50 points de base du taux d'actualisation attendu en 2013 (respectivement une baisse de 50 points de base) se serait traduite par une diminution de 7 millions d'euros de l'engagement (respectivement une augmentation de 7 millions d'euros).

19.3. Analyse de la charge comptabilisée au compte de résultat

La charge comptabilisée au titre des régimes à prestations définies se décompose de la manière suivante :

(en millions d'euros)	2013	2012	2011
Coût des services rendus	7	5	5
Coût de l'actualisation	2	2	2
Rendement attendu des fonds de couverture	(0)	(0)	(0)
Coût des services passés	-	-	(1)
Charge de l'exercice	9	7	**5**
Réduction de régime	(12)	(1)	-
Liquidation de régime	-	-	(0)
Charge totale	(3)	6	**5**

19.4. Écarts actuariels comptabilisés en résultat global

(en millions d'euros)	2013	2012	2011
Écarts actuariels d'expérience	1	-	2
Écarts actuariels d'hypothèses	6	14	(2)
Écarts actuariels comptabilisés en résultat global	7	**15**	-
Écarts actuariels cumulés en capitaux propres	**21**	**14**	-

Le montant des écarts actuariels 2013 relatifs à l'actif de couverture est non significatif. Le montant relatif aux engagements est détaillé comme suit :

(en millions d'euros)	Total	Engagement	
Écarts actuariels d'expérience	1	1	1,0%
Écarts actuariels d'hypothèses	6	6	7,7%
Total	7	7	

19.5. Allocation des actifs en couverture des engagements

L'allocation des actifs de couverture est présentée dans le tableau ci-après :

	2013	2012	2011
Actions	12,6%	11,4%	11,8%
Obligations	80,7%	78,2%	81,5%
Immobilier	6,7%	6,5%	6,1%
Autres	0,0%	3,9%	0,6%
Total	**100,0%**	**100,0%**	**100,0%**

Hormis les placements dans l'immobilier, tous ces actifs sont cotés.

19.6. Échéancier des avantages postérieurs à l'emploi

Le montant estimé (en valeur nominale) des prestations à verser dans les dix prochaines années est le suivant :

en millions d'euros	A moins d'un an	De deux à cinq ans	De six à dix ans	Total
Prestations estimées à verser	0	2	12	**14**

Note 20. Emprunts et dettes financières

20.1. Analyse de la charge comptabilisée au compte de résultat

(en millions d'euros)	2013	2012	2011
Dette actionnaire (a)	1 200	1 200	3 700
Emprunt obligataire (b)	-	300	300
Titrisation de créances (c)	-	-	422
Dette relative aux locations-financement	8	11	15
Autres dettes financières	40	50	53
Emprunts et dettes financières non courants	**1 248**	**1 561**	**4 490**
Dette actionnaire (a)	7 472	6 409	1 761
Emprunt obligataire (b)	300	-	996
Concours bancaires	50	66	48
Dette relative aux locations-financement	3	4	9
Autres dettes financières (d)	20	27	83
Emprunts et dettes financières courants	**7 846**	**6 506**	**2 896**
Emprunts et dettes financières	**9 094**	**8 067**	**7 385**

(a) Dette actionnaire : cette catégorie correspond aux dettes financières contractées auprès de Vivendi sous la forme de :

- compte-courant de trésorerie : Il s'agit d'une avance en compte courant consentie au groupe par Vivendi en juin 2011. Cette ligne est tirée respectivement à hauteur de 7,5 milliards d'euros, 4,9 milliards d'euros et 1,8 milliards d'euros aux 31 décembre 2013, 2012 et 2011. Cette avance est libellée pour la quasi-totalité en euros. Le taux d'intérêt, qui était fixé selon les conditions de marché, est fixe depuis le 1er janvier 2013 (2,79%) ;
- prêt d'actionnaire : Il s'agit de prêts ou facilités de crédit conclus entre le groupe et Vivendi ;
    - o La facilité de Crédit Revolver conclue en janvier 2011 pour 1 milliard d'euros, portant intérêt au taux Euribor+2,5% est arrivée à échéance en 2012,
    - o La facilité de Crédit Revolver d'un montant de 1,5 milliard d'euros, conclue en juin 2009, au taux d'intérêt Euribor+2,5% est arrivée à maturité en juin 2013,
    - o Le prêt conclu en décembre 2011 pour 1,2 milliard d'euros, portant intérêt au taux Euribor+0,825% dont l'échéance est juin 2015 est toujours en vigueur au 31 décembre 2013 ;

(b) Emprunt obligataire (net du coût amorti) : le groupe a émis un emprunt obligataire de 300 millions d'euros en juillet 2009, dont l'échéance est le 9 juillet 2014, et qui porte intérêt au taux de 5%. Un autre emprunt, issu de plusieurs émissions obligataires de 2005 à 2009 pour un total de 1 milliard d'euros, a été intégralement remboursé à l'échéance en juillet 2012.

(c) Un programme de titrisation de créances a été mis en place en 2011. Ce programme a été soldé par anticipation en juin 2012.

(d) Les billets de trésorerie ont été intégralement remboursés en 2012.

20.2. Ventilation par nature de taux d'intérêt de la valeur de remboursement des emprunts et dettes financières

(en millions d'euros)	2013		2012		2011	
Ventilation par nature de taux d'intérêt :						
Taux d'intérêt fixe (après couverture)	7 769	85%	300	4%	1 296	18%
Taux d'intérêt variable	1 324	15%	7 767	96%	6 090	82%
Total	**9 094**		**8 067**		**7 385**	

20.3. Ventilation par maturité des flux de trésorerie futurs liés aux emprunts et aux dettes financières

Le tableau ci-dessous représente un échéancier des flux de trésorerie contractuels des emprunts et dettes financières, y compris les coupons d'intérêt, sur une base non actualisée. Les intérêts à payer sont calculés sur la base de la dette au 31 décembre 2013. Les taux d'intérêt variables sont les taux applicables au 31 décembre 2013.

Le taux d'intérêt effectif moyen sur l'exercice 2013 est de 2,80 %

		2013		
		Echéancier des décaissements		
(en millions d'euros)	**Valeur comptable**	A moins d'un an	De deux à cinq ans	Au-delà de cinq ans

Autres dettes financières	110	70	33	7
Emprunts et dettes financières	**9 094**	**7 846**	**1 239**	**9**

Note 21. Dettes fournisseurs et autres dettes

(en millions d'euros)	2013	2012	2011
Dettes fournisseurs	2 878	2 943	3 114
Clients créditeurs	622	512	478
Dettes fiscales et sociales (a)	846	1 028	1 100
Produits constatés d'avance	524	630	710
État impôt sur les sociétés	3	9	6
Autres	1	13	4
Dettes fournisseurs et autres dettes	**4 874**	**5 136**	**5 412**

(a) À fin 2013, les dettes fiscales et sociales se composent notamment des éléments suivants :

- Taxe sur la valeur ajoutée à payer : 331 millions d'euros
- Dettes sociales : 338 millions d'euros
- Contribution économique territoriale (CET) : 77 millions d'euros
- Taxe sur les communications électroniques (TCE – Copé) : 54 millions d'euros
- Taxe sur les services de télévision (TST – COSIP) : 24 millions d'euros

Note 22. Autres passifs courants et non courants

(en millions d'euros)	2013	2012	2011
Produits différés	309	339	346
Licence GSM	136	154	172

Dettes fournisseurs et autres dettes	21				5 136		5 136	5 136
Autres passifs non courants	22				597		597	597
Autres passifs financiers courants	22				17		17	17

Pour mémoire, au 31 décembre 2011

(en millions d'euros)	Note	Actifs/ passifs évalués à la juste valeur par résultat	Actifs disponibles à la vente	Prêts et créances	Actifs/ passifs au coût amorti	Dérivés qualifiés de couverture	**Total valeur nette comptable**	**Juste valeur**
Actifs								
Autres actifs financiers non courants	12	8	20	120			148	148
Instruments dérivés	12					0	0	0
Autres actif financiers courants	12	2					2	2
Autres actifs opérationnels non courants	12				1		1	1
Créances clients et autres créances	14				3 015		3 015	3 015
Trésorerie et équivalents de trésorerie	15	228					228	228
Passifs								
Emprunts et dettes financières non courants	20				4 490		4 490	4 504
Emprunts et dettes financières courants	20				2 895		2 895	2 907
Instruments dérivés	20							
Engagement d'achat des interêts minoritaires	12	1					1	1
Dettes fournisseurs et autres dettes	21				5 412		5 412	5 412
Autres passifs non courants	22				633		633	633
Autres passifs financiers courants	22				3		3	3

La valeur comptable des créances d'exploitation et autres créances, de la trésorerie et équivalents de trésorerie et des dettes fournisseurs et autres dettes est quasiment égale à leur juste valeur compte tenu de la courte échéance de ces instruments.

La juste valeur des emprunts et dettes financières est calculée soit à partir du prix de marché pour l'emprunt obligataire, soit, pour le reste de la dette, par actualisation des flux futurs contractuels compte tenu des conditions de marché au 31 décembre de chaque année.

Méthode de valorisation des instruments financiers à la juste valeur au bilan

Conformément à la norme IFRS 7, les actifs et passifs financiers évalués à la juste valeur sont classés par hiérarchie d'évaluations à la juste valeur des instruments financiers (niveau 1 à 3), comme suit :

- la juste valeur des instruments financiers échangés sur des marchés actifs (par exemple, les OPCVM monétaires) est basée sur le prix de marché coté à la date de clôture. Cette méthode d'évaluation est qualifiée de niveau 1 dans la hiérarchie définie par la norme IFRS 7 ;

- la juste valeur des instruments financiers qui ne sont pas négociés sur des marchés actifs (par exemple les swaps de taux) est déterminée grâce à des techniques d'évaluation. Les hypothèses utilisées sont observables soit directement (c'est-à-dire telles que des prix) ou indirectement (c'est-à-dire déterminées à partir de prix). Cette méthode d'évaluation est qualifiée de niveau 2 dans la hiérarchie définie par la norme IFRS 7 ;

- la juste valeur des instruments classés en niveau 3 (par exemple, les actifs disponibles à la vente) est déterminée selon une technique de valorisation non fondée sur des données de marché observable.

Les tableaux ci-dessous présentent la méthode de valorisation retenue pour les actifs et passifs financiers évalués à la juste valeur au 31 décembre de chaque année.

	2013			
(en millions d'euros)	Juste valeur	Niveau 1	Niveau 2	Niveau 3

23.2. Gestion des risques financiers et instruments financiers dérivés

Dans le cadre de ses activités, le groupe est exposé à plusieurs types de risques financiers : de marché, de crédit (ou de contrepartie), ainsi que de liquidité. Les risques de marché sont définis comme les risques de fluctuation des flux de trésorerie futurs d'instruments financiers en fonction de l'évolution des marchés financiers. Pour le groupe, les risques de marché peuvent ainsi affecter essentiellement les taux d'intérêt et les positions de change, en l'absence de placements significatifs sur les marchés d'actions.

Dans le cadre de son appartenance au Groupe Vivendi au 31 décembre 2013, le groupe suit la politique groupe en matière de gestion des risques financiers et instruments financiers dérivés, qui est gérée de façon centralisée par la direction des financements et de la trésorerie de Vivendi.

Le groupe est amené à utiliser des instruments dérivés pour gérer son exposition aux risques de marché, la valorisation de ces instruments est non significative sur les périodes présentées.

La valorisation liée au risque de crédit des instruments dérivés est calculée à partir des probabilités de défaut historiques issues des calculs d'une agence de notation de premier plan, auxquelles est appliqué un taux de recouvrement. Au 31 décembre 2013, l'impact lié à l'ajustement préconisé par IFRS 13 n'est pas significatif.

23.3. Risque de taux d'intérêt

L'exposition du groupe au risque de taux d'intérêt est liée à son endettement financier net à taux variable.

Au 31 décembre 2013 et au 31 décembre 2012, cette exposition n'était pas couverte par des instruments dérivés de taux.

Analyse de sensibilité au risque de taux

L'analyse de sensibilité sur les flux d'intérêts pour les instruments à taux variable a été déterminée en tenant compte de l'ensemble des flux variables des instruments financiers. L'analyse est réalisée en supposant que les montants de dettes et d'instruments financiers au bilan au 31 décembre 2013 restent constants sur une année. Pour les besoins de cette analyse, toutes les autres variables, en particulier les cours de change, sont supposées rester constantes.

Une variation de 50 points de base des taux d'intérêt à la date de clôture aurait eu pour conséquence une augmentation (diminution) du coût d'endettement à hauteur de 7 millions d'euros.

23.4. Risque de change

Pour couvrir ses achats en devise liés notamment à l'acquisition d'équipement télécoms, le groupe utilise des contrats d'achats à terme qu'il achète auprès de la direction des financements et de la trésorerie du groupe Vivendi.

Au 31 décembre 2013, le groupe détenait des instruments de couverture de change pour un montant notionnel de 115 millions de dollars américains (USD). La totalité des contrats sont des achats à terme de dollars américains (USD) avec une maturité comprise entre 1 et 7 mois.

Les contrats à terme sont qualifiés en couverture de flux de trésorerie. L'inefficacité sur la période est non significative.

L'exposition résiduelle du groupe après couverture aux fluctuations de l'USD est peu significative sur l'exercice. Au 31 décembre 2013, l'exposition au risque de change du bilan du groupe sur l'USD s'élève à 2 millions d'euros et est totalement couverte.

Analyse de sensibilité au risque de change

Au 31 décembre 2013, une variation instantanée de 10 % de l'euro par rapport au dollar, aurait, à raison des actifs et passifs inscrits au bilan, un impact non significatif sur le résultat de change du groupe. Pour les besoins de cette analyse, toutes les autres variables et en particulier les taux d'intérêt, sont supposées rester constantes

23.5. Risque de liquidité

Le groupe gère le risque de liquidité en surveillant continuellement les prévisions de flux de trésorerie et les flux de trésorerie réels. Au 31 décembre 2013, la flexibilité financière du groupe est assurée par le compte-courant mis à disposition par Vivendi.

Un échéancier de liquidité est détaillé en Note 20.3 – Ventilation par maturité des flux de trésorerie futurs liés aux emprunts et aux dettes financières

23.6. Risque de crédit et de contrepartie

Les actifs financiers qui génèrent potentiellement pour le groupe un risque de crédit sont essentiellement :

- les placements de trésorerie,
- les créances clients et autres créances.

L'exposition maximale des actifs financiers au risque de crédit correspond à leur valeur nette comptable.

Placements de trésorerie et instruments dérivés

Le groupe réalise ses placements de trésorerie (les OPCVM monétaires qui satisfont aux spécifications de la position AMF n° 2011-13, et les autres placements à court terme très liquides, d'une échéance à l'origine inférieure ou égale à trois mois) auprès de contreparties bancaires de premier rang.

Au 31 décembre 2013 :

- les placements de trésorerie sont réalisés avec des contreparties qui bénéficient de notes de crédits élevées,
- les instruments dérivés, achats à terme de dollars sont achetés auprès de la trésorerie de Vivendi et non pas directement auprès de partenaires bancaires.

Créances clients et autres créances

La concentration du risque de contrepartie lié aux créances clients est limité car le portefeuille clients du groupe est très diversifié et peu concentré compte tenu du nombre élevé de clients, notamment sur l'activité Grand Public, avec plusieurs millions de clients particuliers.

Sur l'activité Entreprise, les 20 principaux clients représentent moins de 3 % du chiffre d'affaires du groupe.

Sur l'activité Opérateurs, le chiffre d'affaires est plus concentré, les clients les plus importants étant les opérateurs de télécommunication (tels que Orange, Bouygues Telecom, Free Mobile,...) pour lesquels le risque est modéré compte tenu de l'équilibre des flux d'interconnexions. Orange, le premier client opérateur est également le premier fournisseur du groupe.

Note 24. Opérations avec les parties liées

Les parties liées du groupe comprennent :

- L'ensemble des entreprises incluses dans le périmètre de combinaison, qu'elles soient intégrées globalement ou mises en équivalence,
- La société Vivendi S.A. et les entités qu'elle consolide (le « groupe Vivendi »),
- Le groupe Vodafone jusqu'au 16 juin 2011, date à laquelle Vodafone a cédé sa participation de 44 % dans SFR S.A. à Vivendi S.A.,
- L'ensemble des membres du comité exécutif de SFR S.A.,
- L'ensemble des entreprises dans lesquelles un membre du comité exécutif a le contrôle, participe au contrôle conjoint, exerce une influence notable ou est l'un des principaux dirigeants.

Les transactions entre les entreprises intégrées globalement dans le périmètre de combinaison ont été éliminées lors de la préparation des comptes combinés. Les détails des opérations entre le groupe et les autres parties liées sont présentés ci-dessous.

24.1. Rémunérations des dirigeants

Les dirigeants du groupe combiné incluent les membres du comité exécutif de sa principale entité SFR S.A.

Le tableau ci-dessous présente la rémunération allouée aux personnes qui sont à la clôture, ou qui ont été au cours des exercices présentés, membres du comité exécutif.

(en millions d' euros)	2013	2012	2011
Avantages à court terme (a)	5	6	6
Avantages posterieurs à l'emploi (b)	1	1	2
Rémunération en actions (c)	3	4	3
Rémunération des dirigeants	**8**	**10**	**11**

(a) Inclut les salaires bruts, part fixe et part variable, la participation ainsi que les avantages en nature comptabilisés au cours de l'exercice. La part variable inclut les bonus, provisionnés à la clôture de l'exercice. Le bonus 2013 des mandataires sociaux sera arrêté ultérieurement de manière définitive par le Conseil de Surveillance de Vivendi S.A. sur proposition du Comité des Ressources Humaines de Vivendi S.A.

(b) Correspond au coût des services rendus.

(c) Charge enregistrée au compte de résultat au titre des plans d'options sur titres et des offres réservées aux salariés.

24.2. Les entreprises associées et les coentreprises

Les entreprises associées et les coentreprises, mises en équivalence, sont présentées en Note 11 – Titres mis en équivalence.

Les transactions avec les parties liées résumées ci-dessous concernent les principales opérations courantes réalisées avec les entreprises associées et les coentreprises.

(en millions d'euros)	**Entreprises associées**			**Coentreprises**		
	2013	2012	2011	2013	2012	2011
Actif	**66**	**54**	**52**	**53**	**24**	**22**

Engagements hors bilan	**56**	**79**	**70**	**569**	**319**	**303**
Opérationnels	-	-	-	413	228	228
Financiers	56	79	70	86	58	50
Nantissements	-	-	-	70	34	25

Les principales transactions avec les sociétés mises en équivalence concernent :

- La Poste Telecom dans le cadre des activités de téléphonie,
- Numergy dans le cadre des prestations relatives au *« cloud computing »,*
- Synerail dans le cadre du Partenariat Public-Privé GSM-R,
- Foncière Rimbaud (1 à 4) avec le groupe Vinci dans le cadre de la construction du siège social de SFR S.A.

(Cf. Note 11 – Titres mis en équivalence)

24.3. Les actionnaires historiques

De 2011 à 2013, les principales opérations avec le groupe Vivendi et le groupe Vodafone sont les suivantes :

Financement par Vivendi S.A.

(en millions d' euros)	2013	2012	2011
Au passif du bilan			
Dette actionnaire (a)	8 673	7 609	5 461
Au compte de résultat			
Intérêts liés à la dette actionnaire	(212)	(170)	(87)

(a) Le détail de la dette actionnaire est présenté en Note 20 – Emprunts et dettes financières.

Prestations facturées par Vivendi S.A.

(en millions d' euros)	2013	2012	2011
Frais de siège	(15)	(28)	(26)
Avantages au personnel	(26)	(32)	(23)
Mise a disposition du personnel	(7)	(6)	(6)
Prestations facturées par Vivendi	**(48)**	**(66)**	**(55)**

Opérations réalisées avec le groupe Vodafone du 1er janvier au 16 juin 2011

Coopération avec Vodafone : Vodafone et SFR S.A. ont conclu en 2003 un accord qui leur a permis d'intensifier leur coopération et d'amplifier leurs économies d'échelle dans plusieurs domaines : le développement et le lancement de nouveaux produits et services, le renforcement des synergies opérationnelles, notamment en matière d'achats (notamment informatiques et technologiques) et le partage d'expertise.
SFR S.A. a comptabilisé une charge d'un montant de 21 millions d'euros au titre de cet accord au 30 juin 2011.
Le contrat de coopération avec Vodafone a été maintenu suite à la sortie de Vodafone du capital de SFR S.A. mais n'entre plus dans le cadre des opérations liées.

Flux d'interconnexion avec les filiales du groupe Vodafone : Dans le cadre de la refacturation des flux (« roaming in » et « roaming out »), le groupe a enregistré au 30 juin 2011 un produit de 23 millions d'euros et une charge de 13 millions d'euros vis-à-vis du groupe Vodafone.

Autres opérations réalisées avec les filiales du groupe Vivendi

(en millions d' euros)	2013	2012	2011
Total produits	25	24	13
Total charges	(49)	(61)	(57)

Les groupes Canal +, UMG et Maroc Telecom sont consolidés dans le groupe Vivendi. Ces opérations entrent dans le cadre de l'activité courante du groupe.

Note 25. Engagements contractuels

Les engagements contractuels significatifs pris et ou reçus par le groupe sont détaillés ci-après :

25.1. Engagements liés aux immobilisations

Le montant des engagements contractuels pour l'acquisition d'immobilisations corporelles et incorporelles s'élèvent à 889 millions d'euros au 31 décembre 2013. Ce montant inclut des engagements liés au déploiement de réseaux de télécommunications.

L'échéancier de ces engagements est le suivant :

(en millions d'euros)	Paiements futurs minimaux	Échéancier A moins d'un an	De deux à cinq ans	Au-delà de cinq ans	2012	2011
Engagements liés aux DSP	72	27	22	23	262	336
Engagements liés aux ZMD (a)	216	19	99	99	8	-
Autres investissements (b)	600	582	19	-	702	1 776
Engagements d'investissements	**888**	**628**	**139**	**122**	**972**	**2 112**

(a) Engagements liés au déploiement du FTTH (Fiber To The Home) au sein des Zones Moyennement Denses (ZMD).

(b) En 2011, le montant inclut l'engagement d'acquisition de la licence LTE pour un montant de 1 065 millions d'euros.

25.2. Engagements liés aux licences de télécommunications

	Engagements donnés	Montant	Échéance
(a)	Licence UMTS sur le territoire français	1 % du chiffre d'affaires réalisé	2021-2030
(a)	Licence GSM sur le territoire français	1 % du chiffre d'affaires réalisé	2021
(a)	Licence LTE sur le territoire français	1 % du chiffre d'affaires réalisé	2031-2032
(b)	Couverture réseau 3G	Non chiffré	2013
(c)	Couverture réseau 4G	Non chiffré	2023-2027

	Engagements reçus	Montant	Échéance
(a)	Autorisations d'exploitation de réseaux et de fournitures de services de télécommunications sur le territoire français	Non chiffré	2021/2032

(a) Le groupe est titulaire d'autorisations d'exploitation de ses réseaux et de fourniture de services de télécommunications sur le territoire français aux conditions financières suivantes :

- paiement d'une part fixe soit enregistrée en dette (GSM), soit réglée au moment de l'attribution (UMTS et LTE),
- paiement d'une part variable correspondant à 1 % du chiffre d'affaires généré par ces licences.

(Cf. Note 1.3.7 – Immobilisations incorporelles et Note 9 – Immobilisations incorporelles).

(b) En date du 30 novembre 2009, l'ARCEP a appelé le groupe à respecter, au plus tard le 31 décembre 2013, ses obligations de déploiement de réseaux UMTS, à savoir un taux de couverture de 99,3 % de la population métropolitaine.
Au 31 décembre 2013, avec 99,3 % de la population couverte, le groupe a rempli ses obligations de couverture.

(c) Dans le cadre de l'attribution du premier bloc de fréquences LTE d'octobre 2011, le groupe s'est engagé à respecter les obligations de déploiement en très haut débit mobile suivant le calendrier de couverture ci-dessous :

- 25 % de la population métropolitaine au 11 octobre 2015,
- 60 % de la population métropolitaine au 11 octobre 2019,
- 75 % de la population métropolitaine au 11 octobre 2023.

Ces obligations de couverture peuvent être satisfaites par l'utilisation des fréquences à 2,6 GHz ou par l'utilisation d'autres fréquences dont le groupe est titulaire.

Par la décision n°2012-0039 de l'ARCEP en date du 17 janvier 2012, le groupe s'est vu attribuer 2*10 MHz dans la bande 800 MHz pour un montant de 1 065 millions d'euros. Les engagements liés à cette attribution sont les suivants :

- Le groupe s'est engagé à respecter les obligations de déploiement en très haut débit mobile suivantes :
    - couverture de 98 % de la population métropolitaine au 17 janvier 2024 et 99,6 % de la population métropolitaine au 17 janvier 2027 ;
    - couverture dans la zone de déploiement prioritaire (environ 18 % de la population métropolitaine et 63 % du territoire) : le groupe doit couvrir 40 % de la population de cette zone de déploiement prioritaire au 17 janvier 2017 et 90 % de la population de cette même zone au 17 janvier 2022 ;
    - couverture au niveau départemental : le groupe doit couvrir 90 % de la population de chaque département au 17 janvier 2024 et 95 % de la population de chaque département au 17 janvier 2027.

- SFR et Bouygues Telecom ont une obligation mutuelle de partage de réseau ou de partage de fréquences dans la zone de déploiement prioritaire.

- Le groupe a une obligation d'accueil en itinérance de Free Mobile dans la zone de déploiement prioritaire lorsque celui-ci aura couvert 25 % de la population française avec son propre réseau à 2,6 GHz et s'il n'a pas signé d'accord d'itinérance nationale avec un autre opérateur.

- Le groupe doit couvrir conjointement avec les autres titulaires de la bande 800 MHz les centres bourgs identifiés par les pouvoirs publics dans le cadre du programme « zones blanches » (au-delà de 98 % de la population) dans un délai maximal de 15 ans.

25.3. Engagements liés aux contrats de location simple

Le montant des loyers futurs minimaux pour les contrats de location simple est détaillé dans le tableau ci-après :

		Échéancier				
(en millions d'euros)	Loyers futurs minimaux	A moins d'un an	De deux à cinq ans	Au-delà de cinq ans	2012	2011
Terrains	5	0	2	3	4	5
Constructions	1 842	287	899	656	1 701	1 560
Dont locaux administratifs	*566*	*61*	*206*	*299*	*521*	*585*
Dont loyers techniques	*1 273*	*226*	*692*	*356*	*1 181*	*952*
Autres	159	44	67	48	146	168
Locations	**2 006**	**331**	**968**	**707**	**1 851**	**1 732**
Constructions	(216)	(40)	(101)	(75)	(109)	(41)
Dont loyers techniques	*(216)*	*(40)*	*(101)*	*(75)*	*(109)*	*(41)*
Sous-locations	**(216)**	**(40)**	**(101)**	**(75)**	**(109)**	**(41)**
Total Net	**1 790**	**291**	**867**	**632**	**1 742**	**1 691**

Le montant total des loyers futurs techniques comprend des droits de passage et des loyers liés au droit d'utilisation des fibres optiques. Le montant des loyers nets comptabilisés au titre des exercices 2013, 2012 et 2011 s'élèvent respectivement à 284 millions d'euros, 276 millions et 277 millions d'euros.

Les loyers futurs de location-financement sont présentés dans la Note 10.3 – Immobilisations corporelles

25.4. Engagements liés à des contrats long-terme

Les engagements liés aux contrats long-terme concement principalement des contrats de maintenance du réseau de télécommunication.

(en millions d'euros)	Paiements futurs minimaux 2013	Échéancier A moins d'un an	 De deux à cinq ans	 Au-delà de cinq ans	2012	2011
Engagements donnés	178	62	79	37	172	63
Engagements reçus	(127)	(14)	(50)	(63)	-	(80)
Total	**51**	**48**	**29**	**(25)**	**172**	**(17)**

25.5. Autres engagements

	(en millions d'euros)	2013	Échéance	2012	2011
(a)	Caution solidaire et garanties bancaires GSM-R	105	Suivant construction	92	66
	Autres cautions et garanties bancaires	65	2026	64	90
(b)	Engagements d'achats de titres	16	2026	16	18
	Nantissements	84	2017	51	46
	Engagements donnés	**269**		**223**	**219**
	Autres garanties et cautions bancaires	(1)		(1)	(1)
	Engagements reçus	**(1)**		**(1)**	**(1)**

(a) Il s'agit du Partenariat Public-Privé (PPP) entre les groupes SFR, Vinci, AXA et TDF avec Réseau Ferré de France (R.F.F.). (Cf. Note 11 – Titres mis en équivalence).

(b) Le groupe s'est engagé dans des promesses unilatérales de rachat des intérêts d'un partenaire financier minoritaire au sein de certaines entités. Ces promesses peuvent uniquement être exercées dans le cas où les entités du groupe ne respecteraient pas les engagements contractuels pris lors de la conclusion des pactes associés.

25.6. Droits individuels à la formation des salariés

La loi n° 2004-391 du 4 mai 2004, relative à la formation professionnelle et au dialogue social, a ouvert, pour les salariés en CDI, un droit individuel à formation d'une durée de 20 heures minimum par an, cumulable sur un période de six ans, mais plafonné à 120 heures. Le volume cumulé d'heures de formation correspondant aux droits acquis au titre du DIF à fin 2013, 2012 et 2011 est estimé respectivement à 1 184 635 heures, 1 194 180 heures et 1 117 215 heures.

25.7. Actifs et passifs éventuels

Suite au succès de l'Offre Publique d'Achat Simplifiée (OPAS) de juin 2008 qui a permis au groupe de détenir 96,41 % de Neuf Cegetel, le groupe a procédé au Retrait Obligatoire des titres Neuf Cegetel encore en circulation sur le marché. Les fonds correspondant à l'indemnisation des actions Neuf Cegetel qui n'auront pas été réclamés par les établissements dépositaires pour le compte des ayants droit, seront conservés chez CACEIS Corporate Trust pendant dix ans à compter de la date de mise en œuvre du retrait obligatoire (24 juin 2008) et versés à la Caisse des Dépôts et Consignations à l'expiration de ce délai. Ces fonds pourront être réclamés à tout moment par les ayants droit sous réserve de la prescription trentenaire au profit de l'État.

Note 26. Litiges

Dans le cours normal de ses activités, SFR est mis en cause dans un certain nombre de procédures judiciaires, gouvernementales, arbitrales et administratives.

Les charges qui peuvent résulter de ces procédures ne sont provisionnées que lorsqu'elles sont probables et que leur montant peut être, soit quantifié, soit estimé dans une fourchette raisonnable. Dans ce dernier cas, le montant provisionné correspond à notre meilleure estimation du risque. Le montant des provisions retenu est fondé sur l'appréciation du niveau de risque au cas par cas, étant précisé que la survenance d'événements en cours de procédure peut entraîner à tout moment une réappréciation de ce risque.
À la connaissance de la société, il n'existe pas d'autre litige, arbitrage, procédure gouvernementale ou judiciaire ou fait exceptionnel (y compris toute procédure, dont l'émetteur a connaissance, qui est en suspens ou dont il est menacé) susceptible d'avoir ou ayant eu au cours des douze derniers mois une incidence significative sur la situation financière, le résultat, l'activité et le patrimoine de la société et du groupe, autres que ceux décrits ci-dessous.

Sont mentionnés dans la présente note tous les litiges SFR significatifs en demande et en défense.

Plainte de Bouygues Telecom contre SFR et Orange concernant le marché des terminaisons d'appel et de téléphonie mobile

Le Conseil de la concurrence a été saisi d'une plainte de Bouygues Telecom contre SFR et Orange pour de prétendues pratiques anticoncurrentielles sur les marchés des terminaisons d'appel et de téléphonie mobile (« ciseaux tarifaires »). Le 15 mai 2009, l'Autorité de la concurrence a décidé de surseoir à statuer et a renvoyé le dossier pour complément d'instruction. SFR a été auditionnée par le rapporteur le 13 décembre 2010. Le 18 août 2011, SFR a reçu une notification de griefs faisant état de pratiques de différentiation tarifaire abusive. Le 13 décembre 2012, l'Autorité de la concurrence a condamné SFR à une amende de 66 millions d'euros. SFR a fait appel de cette décision. L'affaire a été plaidée devant la Cour d'appel de Paris le 20 février 2014.
A la suite de la décision de l'Autorité de la concurrence du 13 décembre 2012, les sociétés Bouygues Telecom, OMEA et El Telecom (NRJ Mobile) ont assigné SFR devant le Tribunal de commerce en réparation du préjudice subi. Elles demandent respectivement des dommages et intérêts de 623,6 millions d'euros, 67,9 millions d'euros et 28,6 millions d'euros, demandes dont SFR conteste vivement le bien-fondé et le montant qui, de l'avis de Vivendi, ne saurait, en tout état de cause, excéder 250 millions d'euros au total. En attente de la décision de la Cour d'appel de Paris, la procédure de conciliation en cours entre Bouygues Telecom et SFR devant le Tribunal de commerce est suspendue.

Plainte contre Orange devant l'Autorité de la Concurrence (NRA ZO)

Le 9 décembre 2009, SFR et SFR Collectivités ont déposé une plainte auprès de l'Autorité de la Concurrence contre Orange pour des pratiques abusives.
À la suite de cette plainte, SFR a assigné Orange devant le tribunal de commerce de Paris (NRA ZO) en réparation du préjudice subi.

Assignation de SFR contre Orange devant le tribunal de commerce de Paris (terminaison d'appel - départ d'appel)
Le 22 février 2010, SFR a assigné Orange et a demandé l'annulation du prix de la prestation de départ d'appel d'Orange pour la période 2006-2007 et a demandé d'y substituer un tarif inférieur de 2 % pour 2006 et 15 % pour 2007.

Plainte d'Orange Réunion, Orange Mayotte et Outre-mer Telecom contre SRR
Les sociétés Orange Réunion, Orange Mayotte et Outremer Télécom ont saisi l'Autorité de la concurrence le 6 juin 2009 concemant des pratiques de différenciation tarifaire on-net/off-net mises en œuvre par SRR sur le marché de téléphonie mobile à Mayotte et à La Réunion.
À la suite de cette décision, Outremer Telecom a assigné SFR et SRR devant le tribunal de commerce de Paris le 17 juin 2013 sur le marché Grand Public et le marché Entreprises en réparation du préjudice qu'elle prétend avoir subi du fait des pratiques dénoncées dans sa saisine de l'ADLC. Le sursis à statuer a été accordé. SRR a reçu la notification de griefs le 12 juillet 2013 concemant les pratiques sur le marché Grand Public et l'a acceptée. Le montant de l'amende est en-cours de détermination par l'ADLC.

Plainte contre Orange devant l'Autorité de la Concurrence.
Le 9 août 2010, SFR a déposé une plainte auprès de l'Autorité de la Concurrence contre Orange pour des pratiques anticoncurrentielles mises en œuvre sur le marché des services de téléphonie mobile à destination des professionnels.

Assignation d'Orange contre SFR devant le tribunal de commerce de Paris (dossier débordements)
Par assignation du 10 août 2011, Orange a demandé au tribunal de commerce de Paris de faire injonction à SFR de cesser immédiatement ses pratiques de « débordements » abusifs et condamner SFR à payer la somme de 309,5 millions d'euros au titre des pénalités fixées conventionnellement. Il est reproché à SFR d'avoir intentionnellement organisé le débordement sur le réseau d'Orange aux fins d'optimisation économique de son propre réseau (sous-dimensionnement des commandes de « BPN »). Par jugement du 10 décembre 2013, le tribunal a condamné SFR à verser à Orange la somme de 22,1 millions d'euros. SFR et Orange ont fait appel de la décision.

SFR contre Orange : abus de position dominante sur le marché des résidences secondaires
Le 24 avril 2012, SFR a assigné Orange devant le tribunal de commerce de Paris pour des pratiques constitutives d'un abus de position dominante sur le marché de détail des services de téléphonie mobile à destination de la clientèle non-résidentielle et lui demande une somme comprise entre 122 millions d'euros et 129 millions d'euros en réparation de son préjudice.
Le 12 février 2014, le tribunal de commerce de Paris a condamné Orange à verser à SFR la somme de 51,4 millions d'euros pour abus de position dominante sur le marché des résidences secondaires.

Free contre SFR : concurrence déloyale pour non-respect des dispositions inhérentes au crédit à la consommation au titre d'une offre avec subvention
Le 21 mai 2012, Free a assigné SFR devant le tribunal de commerce de Paris. Free conteste le modèle de subventionnement des offres SFR « Carrées » vendues par Intemet de juin 2011 à décembre 2012 en prétendant qu'il s'agirait d'un mécanisme de crédit à la consommation et, qu'à ce titre, SFR se serait rendue coupable de pratiques déloyales en ne respectant pas les dispositions inhérentes au crédit à la consommation et notamment l'information préalable des clients. Free sollicitait notamment du tribunal de commerce de Paris la condamnation de SFR à procéder à l'information de ses clients et l'allocation de dommages et intérêts à hauteur de 29 millions d'euros. Le 15 janvier 2013, le tribunal de commerce déboutait Free de l'ensemble de ses demandes et allouait à SFR la somme de 0,3 million d'euros de dommages et intérêts. Le 31 janvier 2013, Free a fait appel de cette décision.

UFC contre SFR : clauses abusives
Le 7 juin 2012, l'UFC a assigné SFR devant le tribunal de grande instance de Paris au motif que les conditions générales d'utilisation de SFR La Carte contiendraient des clauses abusives. L'UFC a demandé la suppression de ces clauses et des dommages et intérêts.

SFR contre Orange (dossier ZND)
Le 26 novembre 2012, SFR a saisi l'Autorité de la Concurrence concernant des pratiques d'abus de position dominante sur le marché de détail de l'accès à l'internet haut débit dans les zones non-dégroupées.

Assignation CLCV contre SFR
Le 7 janvier 2013, l'association de consommateur CLCV a assigné SFR devant le tribunal de commerce de Paris.
CLCV considère comme abusives un certain nombre de clauses contenues dans les conditions générales d'abonnement de SFR, ainsi que des autres opérateurs de téléphonie. Elle sollicite également l'allocation d'une indemnité réparatrice du préjudice collectif.

Contentieux transfert des centres relation clientèle de Toulouse, Lyon et Poitiers
À la suite des transferts des centres de relation clientèle de Toulouse et Lyon à la société Infomobile et celui de Poitiers à une société filiale du groupe Bertelsmann, des anciens salariés de ces sites ont intenté des actions auprès des Conseils de Prud'hommes de chaque ville afin de voir sanctionner une prétendue exécution déloyale du contrat de travail, pour fraude aux dispositions de l'article L. 1224-1 du Code du travail ainsi qu'aux dispositions légales inhérentes au licenciement pour motif économique. Les décisions intervenues en 2013 demeurent hétérogènes puisque la Cour d'Appel de Toulouse a sanctionné les groupes SFR et Téléperformance dans la moitié des dossiers alors que les juridictions de Lyon et Poitiers rendent des décisions favorables à SFR. Les dossiers sont à des stades différents de la procédure : Conseil des Prud'hommes, Cour d'Appel et Cour de Cassation.

Litiges distribution dans le réseau des indépendants (Grand Public et SFR Business Team)
SFR, à l'instar des entreprises recourant à un modèle de distribution indirect, fait face à des recours émanant de ses distributeurs et de façon quasi systématique de la part de ses anciens distributeurs. Ces contentieux récurrents s'articulent autour des notions de rupture brutale de la relation contractuelle, abus de dépendance économique et/ou demande de requalification en agent commercial ; Mais également et, plus récemment, autours de demandes de requalification du statut du gérant en contrat de gérant succursaliste et de requalification en contrat SFR des salariés des points de ventes. SFR, après avoir subi trois arrêts défavorables de la Cour de Cassation quant au statut de gérant succursaliste, bénéficie de récents succès devant les différentes Cours d'Appel. Sur les volets requalifications des contrats de travail et commerciaux de ces litiges, hormis quelques rares exceptions, SFR, bénéficie d'une jurisprudence favorable.

Au 31 décembre 2011, il subsistait une société de droit hollandais (SPADIX BV) spécifiquement créée dans le cadre des opérations de location / sous-location réalisées en 2001 et dans laquelle le groupe combiné ne détenait aucune participation. Cette société est sortie du périmètre en 2012.

Note 28. Événements post-clôture

SFR et Bouygues ont signé le 31 janvier 2014 un accord stratégique de mutualisation. Les deux opérateurs vont déployer sur une zone correspondant à 57 % de la population un nouveau réseau d'accès mobile partagé. Cet accord va permettre aux deux opérateurs d'améliorer leur couverture mobile et de réaliser des économies significatives dans le temps. L'accord de mutualisation entre en vigueur dès sa signature avec la création d'une société commune et devrait aboutir à la finalisation du réseau cible fin 2017. Cet accord n'a aucun impact sur les comptes arrêtés au 31 décembre 2013. Dans l'attente de sa mise en œuvre, cet accord représente pour SFR un engagement net reçu de l'ordre de 460 millions d'euros, qui porte sur l'ensemble de la durée à long terme de l'accord.

Le 13 février 2014, Vivendi a annoncé l'entrée en négociations exclusives avec le groupe Belgacom en vue de l'acquisition de 100 % des titres du Groupe Telindus France. Le Groupe Telindus est l'un des principaux acteurs du marché français de l'intégration télécom et de l'ICT (Information and Communication Technology) et est le premier distributeur Cisco en France. Telindus France a vocation à venir renforcer le pôle télécom français de Vivendi au côté de SFR qui renforcera ainsi considérablement sa présence sur le marché connexe de l'intégration télécom et permettra d'offrir de nouveaux services à ses clients entreprises en complément des offres de SFR Business Team.

Dans le cadre de son activité de délégation de service public (DSP) depuis 2004 sur le département de l'Oise, le groupe s'est engagé à lancer un nouveau projet « Oise THD » pour l'exploitation et la commercialisation de 280 000 prises FTTH. La signature du contrat devrait intervenir courant mars 2014. Le total de cet engagement devrait s'élever à 125 millions d'euros sur 15 ans.

Statutory auditors' report on the Combined Financial Statements of the companies SFR, SIG 50 and subsidiaries for the years ended 31 December 2013, 2012 and 2011

To the Chairman of the Management Board,

In our capacity as Statutory Auditors of Vivendi S.A. and in response to your request, in the framework of the implementation, if applicable, the unbundling project of Media and Telecoms activities of Vivendi Group, we have audited the Combined Financial Statements of the companies SFR, SIG 50 and subsidiaries (hereinafter 'the Group') for the years ended December 31, 2013, 2012 and 2011 (hereinafter 'the Combined Financial Statements') as attached to this report.

These Combined Financial Statements have been approved by your Management Board. Our role is to express an opinion on these statements, based on our audit.

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Combined Financial Statements are free of material misstatement. An audit involves performing procedures, using sampling techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the Combined Financial Statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made, as well as the overall presentation of the Consolidated Financial Statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the Combined Financial Statements present fairly in all material respects the financial position of the Group as at 31 December 2013, 2012, 2011 and of its financial performance for each of the years then ended, in all material aspects and in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union.

Without qualifying our opinion above, we draw your attention to note "Basis of preparation" which describes the particular context, the scope of combination and accounting policies used in the preparation of the Combined Financial Statements.

Paris La Defense, April 11, 2014

(a) Details in the statement of comprehensive income

The Accompanying Notes are an integral part of the Combined Financial Statements

Notes to the Combined Financial Statements

Basis of Preparation

These combined financial statements have been prepared by Vivendi, in its capacity of controlling shareholder of the companies SFR and SIG 50, in the context of potential implementation of the plan to separate the Media and Telecoms businesses of the Vivendi Group.

They have been drawn up on the basis of the accounting data of the companies SFR and SIG 50 and their subsidiaries, as approved for their financial years ending on December 31, 2011, 2012 and 2013, and prepared for the purpose of preparing the consolidated accounts of the Vivendi Group.

These combined financial statements of SFR and SIG 50 and their subsidiaries were approved by the Management board of Vivendi at its meeting on April 8th 2014.

Context

As they informed the shareholders regularly in 2012 and 2013, Vivendi's Management Board and Supervisory Board have instigated a review of the Group's strategic orientations. In 2013, Vivendi sold the majority of its interest in Activision Blizzard and finalized an agreement with Etisalat for the sale of its shares in Maroc Telecom. The Group decided to concentrate on its media and content businesses, which are in leader positions and are benefiting from a strongly growing digital market. It has strengthened its interest in Canal+ France, in which it now holds 100% of the share capital. Vivendi is also working on the reconfiguration of SFR. The operator is experiencing the first positive effects of its transformation plan, reflecting its benefits at a commercial level while reducing its costs. A network sharing agreement has been concluded with Bouygues Telecom, on part of the mobile network, which will enable it to offer its customers better coverage and improved quality of service. On these bases the Group intends to position the future Vivendi as a dynamic player in media and content. With SFR, it wishes to participate in the reshaping of the telecommunications sector in France by actively exploring all opportunities.

On November 26, 2013, the Supervisory Board approved the appropriateness of the plan to separate the Group into two separate companies: firstly, a new international media group based in France, with very strong positions in music (where it is the worldwide leader), in movies in Europe, in pay-TV in France, Africa, Vietnam and Poland, and in Internet and associated services in Brazil; and secondly the **Telecoms business France**. The decision to implement this plan could be made shortly and, if applicable, submitted to the General Shareholders' Meeting of June 24, 2014.

Presentation of Telecoms business in France

Telephony business in France comprises mainly:

- the telephony business of SFR SA in France, which is developing mobile, fixed-line, internet and television services with consumers and with business, corporate, community and operator clients. SFR SA operates in mainland France, as well as in La Réunion and Mayotte,
- the business of distributing telecommunications services and products in France.

In order to present the historic financial information of the Group for financial years 2013, 2012 and 2011, combined accounts have been drawn up.

Combination scope

The arrangement that constitute the new autonomous group (hereinafter referred to as the "Group") has no independent legal existence prior to the separation, and is made up of entities under the common control of Vivendi.

As of January 1, 2011, the Group principally comprised the following companies:

- the entities held directly and indirectly by SFR SA and its subsidiaries,
- the interest of Vivendi, through SIG 50, in the businesses of distribution of telecommunications products and services, owing to their operational attachment to the business of the Group.

The scope of combination thus excludes the company SPT, held by SFR SA and holder of Maroc Telecom.

The combination scope is presented in Note 27 – List of Entities Combined.

Accounting for related to the holding company SPT owning the interest in Maroc Telecom:

- the shares of SPT were cancelled in return for a reduction in equity,
- the dividends received from SPT, net of withholding tax were presented in the Changes in Equity and in the Cash Flow statements, reducing the dividends paid by SFR SA to Vivendi SA.

Conventions used when preparing the combined accounts

The combination of entities under common control as envisaged were recorded in the combined financial statements of the Group at historic book values. These historic combined financial statements of the Group were drawn up on the basis of the values presented in Vivendi's Consolidated Financial Statements, restated for consolidation adjustments and the accounting impact of operations to acquire stakes in the France telephony business by Vivendi.

In the absence of a specific IFRS text dealing with combined financial statements, the Group defined the principles and conventions for combination presented hereunder.

The net debt level accepted in these combined financial statements reflects the debt level and its historic compensation levels with regard to the Vivendi Group or third parties of the entities included in the combined accounts.

Intercompany transactions between the Group and the other entities of the Vivendi Group

All balances relative to current operations between the entities of the Group and the other entities of the Vivendi Group have been presented on the balance sheet as third party asset or liability accounts in the combined accounts.

All loans and borrowing between the entities of the Group and the other entities of the Vivendi Group have been presented as financial assets or liabilities in the combined accounts.

The operations with the other entities of the Vivendi Group are presented in Note 24 – Transactions with Related Parties.

Earnings per share

As the combined group is not legally constituted on this date, the number of shares in circulation cannot be established. Consequently, no earnings per share are presented in the Combined Financial Statements.

Income tax

The deferred taxes recorded as tax loss carry-forwards were determined by taking into account the effect of the tax consolidation implemented within Vivendi.

The tax results of the companies included in the tax consolidation perimeter have been taken into account as part of the tax consolidation arrangements implemented by Vivendi, pursuant to the provisions of Article 223-A of the General Tax Code. Pursuant to the tax consolidation convention, carry-forward losses recorded during the period of tax consolidation, and up to December 31, 2013, will remain the property of Vivendi. Consequently, no deferred tax asset has been recognized in respect of these carry-forwards in the combined financial statements presented.

Note 1. Accounting Principles

1.1. General framework

Pursuant to European Regulation 1606/2002 of July 19, 2002, the basis for preparation set out above describes how the International Financial Reporting Standards (IFRS) as adopted by the European Union were applied to prepare the historic combined financial statements as of December 31, 2011, December 31, 2012 and December 31, 2013.

The new Group has never prepared IFRS financial statements, nor has it published financial statements for previous financial years.

Consequently, as a first-time adopter, the Group has prepared its combined financial statements for the financial year ended December 31, 2013 in accordance with IFRS 1 – *First-Time Adoption of International Financial Reporting Standards.*

Under IFRS 1, if a subsidiary adopts IFRS after its parent company, the assets and liabilities in the subsidiary's opening balance sheet may be measured:

- either at the carrying amounts based on the subsidiary's contribution to the parent company's historic consolidated financial statements, after restating adjustments relating to the consolidation and to the impacts of accounting for the business combination as a result of which the parent acquired the subsidiary; or
- at the carrying amounts as determined in accordance with IFRS 1, applied at the date of the subsidiary's transition to IFRS. In this case, the IFRS 1 options applied by the subsidiary may differ from those applied by the parent.

In compliance with the option available under IFRS 1, the Group has chosen to draw up its first IFRS combined financial statements on the basis of the carrying amounts of its assets and liabilities as per its contribution to Vivendi's historic financial statements, taking account of the date of Vivendi's transition to IFRS, after eliminating adjustments relating to the Vivendi group consolidation and to the impacts of accounting for the business combinations as a result of which Vivendi acquired interests in SFR and in distribution activities in France.

The transitional provisions for first-time adoption used by the Group are therefore identical to those applied by the Vivendi group upon its transition to IFRS, i.e.:

- Business combinations: business combinations carried out by Group entities prior to January 1, 2004 (the date of Vivendi's transition to IFRS) are not restated.
- Employee benefits: any unrecognized actuarial gains and losses existing at January 1, 2004 are recognized within consolidated equity.
- Share-based payment: IFRS 2 was retrospectively applied as from the opening balance sheet at January 1, 2004. Accordingly, all share-based payment plans for which the rights had not yet vested at January 1, 2004 are recognized in accordance with IFRS 2.

- Cumulative translation differences: gains and losses resulting from the translation into euros of the financial statements of subsidiaries with a functional currency other than the euro were transferred to consolidated reserves as of January 1, 2004.

Vivendi chose not to adopt the exemption available under IFRS 1 allowing certain intangible assets and property, plant and equipment to be remeasured at fair value on its transition to IFRS.

Standards, amendments and interpretations in force

The combined financial statements of the Group as of December 31, 2013 were drawn up in compliance with IFRS as adopted in the European Union (EU) and in compliance with IFRS as published by the International Accounting Standards Board (IASB), effective as of December 31, 2013.

In its 2013 combined financial statements, the Group applied the following new standards and amendments adopted by the European Union with a mandatory effective date of January 1, 2013:

- Amendments to IAS 1 – *Presentation of Financial Statements: Presentation of Items of Other Comprehensive Income*, published by the IASB on June 16, 2011, adopted by the EU on June 5, 2012, and published in the EU Official Journal on June 6, 2012. These amendments deal with the presentation of other comprehensive income ("income and expenses recognized in other comprehensive income" in the combined statement of comprehensive income), which are now shown according to whether or not they are to be subsequently reclassified to the income statement.
- Amendments to IAS 19 – *Employee Benefits*, published by the IASB on June 16, 2011, adopted by the EU on June 5, 2012, and published in the EU Official Journal on June 6, 2012. The accounting principles and basis of measurement for employee benefits are presented in Note 1.3.15 – Employee benefits.
- IFRS 13 – *Fair Value Measurement*, providing a definition of fair value in terms of measurement and prescribing required fair value disclosures, published by the IASB on May 12, 2011, adopted by the EU on December 11, 2012, and published in the EU Official Journal on December 29, 2012. Its application has no material impact on the bases of measurement used by the Group or on the information disclosed in the notes to its financial statements.
- Amendments to various IFRS standards contained in the Annual Improvements to IFRS 2009-2011, published by the IASB in May 2012, adopted by the EU on March 27, 2013, and published in the EU Official Journal on March 28, 2013.

In its combined financial statements as of December 31, 2013, the Group decided to early adopt the new standards on consolidation: IFRS 10 – *Consolidated Financial Statements*, IFRS 11 – *Joint Arrangements*, IFRS 12 – *Disclosure of Interests in Other Entities*, and IAS 28 – *Investments in Associates and Joint Ventures*, published by the IASB on May 12, 2011, adopted by the EU on December 11, 2012, and published in the EU Official Journal on December 29, 2012. These standards are effective as of January 1, 2014 in the European Union.

The principles relative to methods of combination introduced by these new standards are presented below in Note 1.3.2 – Basis of combination.

New IFRS standards and IFRIC interpretations published but not yet in force

The other main IFRS standards and IFRIC interpretations issued by the IASB/IFRS IC but not yet in force, which the Group has not early adopted and which are likely to affect the Group, include IFRIC 21 – *Levies*, published by the IFRS IC on May 20, 2013. The effective date of IFRIC 21 is not yet known since it has not yet been adopted by the EU. The application of this interpretation could lead to changes in the timing of recognition of liabilities for taxes.

The Group is in the process of analyzing the potential impacts of IFRIC 21 on its combined financial statements and on the contents of the notes to the combined financial statements.

Furthermore, the Group is monitoring changes to IFRS 9 – *Financial Instruments*, which is intended to replace IAS 39. The IASB has provisionally decided to defer the mandatory effective date of the standard (initially planned for 2015), without deciding on another date.

1.2. Presentation of the combined financial statements

1.2.1. Combined income statement

The principal captions presented in the combined income statement are revenues, operating profit, financial income (expenses), share of profit of associates (companies accounted for under the equity method), income tax and profit.

Operating profit is the result of operations after taking account of net depreciation and amortization expense, additions to provisions, and non-recurring items, classified under other operating income and expenses.

Other operating income and expenses mainly cover restructuring costs, amortization charged against intangible assets acquired in a business combination, gains and losses on the sale of intangible assets and property, plant and equipment, and other non-financial non-recurring income and expenses.

Financial income (expenses) comprises interest expense on loans, interest income generated by cash and cash equivalents, and other financial income and expenses (in particular, the effect of unwinding the discount on assets and liabilities).

1.2.2. Combined other comprehensive income

Other comprehensive income consists principally of translation adjustments, changes in the fair value of cash flow hedging instruments (foreign exchange and interest rate hedges), actuarial gains and losses on post-employment benefits, and the effects of related taxes.

These items are classified according to their nature and shown separately according to whether or not they will be subsequently reclassified to income.

1.2.3. Combined balance sheet

Assets and liabilities with a maturity shorter than the operating cycle, i.e., generally 12 months, are classified under current assets and liabilities. Assets and liabilities maturing after 12 months are generally classified within non-current items, except for deferred taxes which are always classified within non-current items.

1.2.4. Combined statement of cash flows

Net cash flow from (used in) operating activities

To determine the net cash flow from (used in) operating activities, profit is restated for items with no cash impact and for the net change in working capital. Profit is also restated for current and deferred taxes, and for all components of financial income and expenses. Net cash flow from (used in) operating activities also excludes the net change in working capital linked to intangible assets and property, plant and equipment.

Net cash flow from (used in) investing activities

Net cash flow from (used in) investing activities includes acquisitions and sales of intangible assets, property, plant and equipment and financial fixed assets; the net change in working capital linked to intangible assets and property, plant and equipment; and cash flow derived from the gain or loss of control of a subsidiary.

Net cash flow from (used in) financing activities

Net cash flow from (used in) financing activities includes increases and decreases in loans, changes in amounts owed to Vivendi SA, dividends paid, capital increases and borrowing costs, as well as all cash flow impacts of other financing activities.

1.2.5. Group operational performance

The Group considers EBITDA and cash flow from operations (CFFO) to be relevant indicators of the Group's operational performance.

EBITDA

The Group considers EBITDA, a non-accounting indicator, to be a measure of performance. EBITDA shows the profit generated by the Group's activities independently of financing conditions, taxes (corporate income tax) and the obsolescence of plant and equipment (net depreciation/amortization expense and provisions). EBITDA as defined by the Group corresponds to operating profit restated for other operating income and expenses and for net depreciation and amortization expense and provisions for impairment of intangible assets and property, plant and equipment.

CFFO

The Group considers CFFO, a non-accounting measurement, to be a relevant indicator of the Group's operating performance. CFFO chiefly relates to the net cash flow derived from operating activities in the statement of cash flows (SCF), after deducting investments net of disposals and changes in the related working capital, and before deducting corporate income tax payments.

1.2.6. Segment information

In light of prevailing trends in the Group's business resulting in the increased convergence of mobile telephony and high-speed telephony and fixed internet services, Group management monitors operations in a comprehensive, unified manner. The chief operating decision-maker verifies results and operating plans and decides on the allocation of resources at Group level. The Group has identified a single operating segment meeting the criteria of IFRS 8.

Similarly, since virtually all of the Group's business is carried out on French territory, a single geographic segment has been identified.

This presentation could be modified in the future to reflect developments in the Group's businesses and operating criteria.

1.3. Basis of preparation of the combined financial statements

1.3.1. Use of estimates

Preparation of the combined financial statements in compliance with IFRS requires the Group to make certain estimates and assumptions that it deems reasonable and realistic. Even though these estimates and assumptions are regularly reviewed, particularly on the basis of past experience and forecasts, certain facts and circumstances may lead to changes in these estimates and assumptions, which could affect the carrying amount of the Group's assets, liabilities, equity and profit.

The main estimates and assumptions used relate to the measurement of:

- Provisions: risks are estimated on a case-by-case basis, on the understanding that developments in current events may require the risks to be reassessed at any time (see Notes 1.3.14 and 18).
- Employee benefits: assumptions are updated annually, such as the probability that employees will remain employed by the Group up to their retirement, expected changes in future compensation, discount rate and inflation rate, and life expectancy (see Notes 1.3.15 and 19).
- Goodwill: intangible assets with indefinite useful lives and fixed assets under construction: assumptions are updated annually within the framework of impairment tests and relate to cash-generating units (CGUs), future cash flows and discount rates (see Notes 1.3.6 and 8).
- Deferred taxes: estimates concerning the recognition of deferred tax assets are updated annually on the basis of the Group's expected future taxable income or probable changes in temporary differences for assets and liabilities (see Notes 1.3.16 and 6).
- Revenues: the separable elements of a bundled offer must be identified and allocated according to the fair values of each component; the period over which revenues linked to costs of accessing services should be recognized is to be determined based on the type of product and duration of the contract; and revenues are to be presented either on a net or gross basis according to whether the Group acts as agent or principal (see Notes 1.3.4 and 4.1).

- Intangible assets and property, plant and equipment: estimates of useful lives are based in particular on the effective obsolescence of fixed assets and the use made of those assets (see Notes 1.3.7 and 9, and Notes 1.3.8 and 10).

1.3.2. Basis of combination

The list of combined entities is presented in Note 27 – List of combined companies.

Controlled entities

The new model of control introduced by IFRS 10 to replace the revised IAS 27 – *Consolidated and Separate Financial Statements* and interpretation SIC 12 – *Consolidation – Special Purpose Entities*, is based on the following three criteria, which must be met simultaneously to conclude that control is exercised by the parent company:

- The parent company holds power over the investee when it has effective rights giving it the current ability to direct the relevant activities of the investee, namely activities which have a significant impact on the investee's profitability. Power may result from existing and/or potential voting rights and/or contractual agreements. Voting rights must be substantial, i.e., they must be able to be exercised at any time without limitation, and particularly in connection with decisions relating to key activities. The assessment of whether or not an entity exercises control depends on the nature of the investee's relevant activities, the investee's decision-making process, and the distribution of rights of other shareholders of the investee.
- The parent company is exposed to, or has rights, to variable returns from its involvement with the investee, which may vary according to the investee's performance. The concept of returns is defined broadly, and includes dividends and other types of economic benefit distributed, changes in the value of the investment, cost savings, synergies, etc.
- The parent company has the capacity to exercise its power in order to influence the returns. Power which does not lead to such influence over these returns cannot be defined as control.

Controlled entities are combined in accordance with the full consolidation method.

Full consolidation method

This consists of including in the combined financial statements the asset, liability, income, expense and cash flow items of the companies controlled within the meaning of IFRS 10; making the necessary restatements; and eliminating intragroup transactions and accounts along with intragroup gains and losses. Equity and profit are allocated between the portion attributable to owners of the parent company and the portion attributable to non-controlling interests.

The combined income statement includes the results of subsidiaries acquired during the financial year as from the date of their acquisition. The results of subsidiaries sold during the same period are taken into account up to the date of their sale.

Non-controlling interests in the net assets of the subsidiaries are presented on a separate line of equity under "Non-controlling interests". They include the amount of non-controlling interests at the date control was acquired and the share of non-controlling interests in changes in equity as from this date. Except in the case of a contractual agreement specifying otherwise, losses of subsidiaries are systematically divided between equity attributable to owners of the parent company and non-controlling interests, on the basis of their respective percentages of interest, even if these are negative.

Joint Arrangements

IFRS 11 – *Joint Arrangements,* which replaces IAS 31 – *Interests in Joint Ventures* and interpretation SIC 13 – *Jointly Controlled Entities – Non-Monetary Contributions by Venturers*, aims to establish the principles for financial reporting by entities with interests in jointly controlled companies (joint arrangements).

In a joint arrangement, the parties are bound by a contractual agreement that gives them joint control of the arrangement. An entity that is party to an arrangement must therefore determine whether the contractual agreement gives all or certain parties joint control of the arrangement. The existence of joint control is then determined if decisions concerning the relevant activities require the unanimous consent of the parties jointly controlling the arrangement.

Joint arrangements are classified into two categories:

- Joint operations: these are joint arrangements whereby the parties that have joint control over the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangements. Those parties are called joint operators. The joint operator recognizes the full amount of its assets, liabilities, income and expenses, including the share of any such elements held jointly. These arrangements concern joint investment contracts signed by the Group.
- Joint ventures: these are joint arrangements whereby the parties that have joint control of the arrangements have rights to the net assets of the arrangement. Those parties are called joint venturers. Each venturer accounts for its interest in the net assets of the venture in accordance with the equity accounting method (see the section dealing specifically with the equity accounting method).

Associates

Associates over which the Group exercises significant influence are accounted for by the Group under the equity method (see the section dealing specifically with the equity accounting method).

Significant influence is presumed to exist when the Group holds, directly or indirectly, 20% or more of the voting rights of an entity, except where it is clearly demonstrated that this is not the case. Significant influence can also be indicated by representation on the board of directors or on the management board of the entity held, by participation in its policy-making process, by material transactions with the entity, or by interchange of managerial personnel between the Group and the entity.

Equity accounting method

According to the equity accounting method, interests in associates and joint ventures are recorded on the balance sheet at their cost of acquisition, including goodwill and transaction costs. Earn-outs initially measured at fair value and subsequent adjustments are recorded as part of the cost of the investment, when their payment can be measured with sufficient reliability.

The Group's share in the profit or loss of associates and joint ventures is recognized in the income statement, and its share in movements of reserves after the acquisition is recognized in reserves. Movements after the acquisition are recorded as an adjustment to the value of the investment. The Group's share in the losses recorded by an associate and joint venture is recorded to the extent of its investment, except where the Group has a legal or implicit obligation to support the company.

Goodwill is recognized if the acquisition cost exceeds the Group's share in the net fair value of the associate's identifiable assets, liabilities, and contingent liabilities at the date of acquisition. Goodwill is included in the carrying amount of the investment and is taken into consideration in the impairment test relative to this asset.

1.3.3. Foreign currency translation

Translation of foreign currency transactions

Transactions in foreign currency are initially recorded in the functional currency of the entity at the exchange rate in force on the transaction date. At the end of the reporting period, monetary assets and liabilities denominated in foreign currency are translated into the functional currency at the closing exchange rate. All resulting translation differences are taken to profit or loss for the period.

Translation of financial statements of foreign companies

The financial statements of foreign companies whose functional currency is not the euro are translated into euros as follows:

- balance sheet items are translated at the closing exchange rate;
- income statement and cash flow items are translated at the average exchange rate for the financial year.

The resulting translation adjustments are recorded directly in "Cumulative translation adjustments" under equity. When the net investments in foreign operations are subsequently sold, the related cumulative translation differences carried in equity are taken to profit or loss.

1.3.4. Revenues

Group revenues are recognized as soon as future economic benefits are likely to flow to the Group and the revenues can be measured reliably.
Group revenues principally comprise sales of equipment, provision of services and rental of telecommunications equipment.

Sales of equipment
Proceeds from the sale of handsets are recognized in revenues when the risks and rewards inherent to ownership are transferred to the buyer.

Separable elements of a bundled offer
Revenues from telephone packages are recorded as a sale with multiple components. Revenues from sales of handsets (mobile phones and other) are recorded upon activation of the line, net of discounts granted to the customer via the points of sale and the costs of activation.
Other acquisition and retention costs, consisting in particular of premiums not associated with sales of handsets as part of telephone packages and commissions paid to distributors, are recorded in administrative and commercial expenses.
When elements of these transactions cannot be identified or analyzed separately from the main offer, they are considered as related elements and the associated revenues are recognized in full over the duration of the contract or the expected duration of the customer relationship.

Provision of services
Revenues from internet access subscriptions or telephone call plans (fixed or mobile) are recorded on a straight-line basis over the duration of the corresponding service.
The Group sells certain telephone subscriptions based on plans under which the call minutes for a given month can be carried over to the next month if they are not used. The minutes carried over are recorded based on the proportion of total telephone subscription revenues they represent, when the minutes are used or when they expire.
Revenues relative to incoming and outgoing calls and off-plan calls are recorded when the service is provided.
Revenues generated by vouchers sold to distributors and by prepaid mobile cards are recorded each time use is made by the end customer, as from when the vouchers and cards are activated. Any unused portion is recorded in deferred revenues at the end of the reporting period. Revenues are in any case recognized upon the expiry date of the cards, or when the use of the vouchers is statistically unlikely.
Sales of services to subscribers managed by the Group on behalf of content providers (principally special numbers and SMS+) are recorded on a gross basis, or net of repayments to the content providers in accordance with IAS 18, and in particular when the content providers are responsible for the content and determine the pricing applied to the subscriber.
The costs of access to the service or installation costs principally billed to operator and corporate clients in relation to ADSL connection services, bandwidth services, and IP connectivity services, are recognized over the expected duration of the contractual relationship and the provision of the principal service.
Revenues linked to switched services are recognized each time traffic is routed.
Revenues from bandwidth, IP connectivity, high-speed local access and telecommunications services are recorded as and when the services are delivered to the customers.

Access to telecommunications infrastructures
The Group provides its operator clients with access to its telecommunications infrastructures by means of different types of contracts: rental, hosting contracts or concessions of Indefeasible Rights of Use ("IRU"). The IRU contracts grant the use of an asset (ducting, fiber optic or bandwidth) for a specified – generally long – period. The Group remains the owner of the asset.

Proceeds generated by rental contracts, hosting contracts in Netcenters, and infrastructure IRUs are recognized over the duration of the corresponding contracts, except where these are defined as a finance lease, in which case the equipment is considered as having been sold on credit.
In the case of IRUs, and sometimes rentals or service agreements, the service is paid in advance in the first year. These prepayments, which are non-refundable, are recorded in prepaid income and amortized over the expected term of the related agreements. Amortization is provided over a period of between 10 years and 25 years for IRUs and between 1 year and 25 years for rentals and service agreements.

Sales of infrastructure
The Group builds infrastructure on behalf of certain clients. Since the average duration of the construction work is less than one year, the revenues are taken into account when ownership is transferred. Revenues relative to sales of infrastructures are taken into account when ownership is transferred. A provision is recognized when any contracts are expected to prove onerous.

Loyalty programs
Pursuant to interpretation IFRIC 13, the Group measures the fair value of the incremental benefit granted under loyalty programs. Since this fair value was not material for the periods presented, no revenues have been deferred in this respect.

1.3.5. Cost of sales, and commercial and distribution costs

Cost of sales comprises the purchase cost of goods acquired (including handsets), interconnection costs, network costs and the share of personnel costs and related taxes and duties.
Commercial and distribution costs represent advertising and marketing costs, commercial costs, and customer loyalty and management costs, and are recorded in expenses as incurred.

1.3.6. Goodwill and business combinations

Business combinations after January 1, 2009
Business combinations are recorded under the acquisition method.
The acquisition price (also called “consideration transferred”) of a subsidiary is the sum of the fair values of the assets transferred and the liabilities assumed by the purchaser on the date of acquisition and the equity instruments issued by the purchaser. The acquisition price includes any earn-outs recognized and measured at acquisition-date fair value.

Earn-outs are recorded initially at fair value, with subsequent changes in fair value taken to profit or loss.
Any costs directly attributable to the acquisition are recorded in expenses in the period in which they are incurred.

At the date of acquisition, goodwill is determined as the difference between:
- the fair value of the consideration transferred, plus any non-controlling interest in the company acquired; and
- the net balance of identifiable assets acquired and liabilities assumed at their acquisition-date fair value.

The initial valuation of the acquisition price and the fair values of the assets acquired and liabilities assumed must be finalized within 12 months of the date of acquisition (measurement period), and any adjustment is recorded as a retroactive adjustment to goodwill. Beyond the measurement period, adjustments are recorded directly in profit or loss. For each business combination, the Group can decide whether to recognize the share of non-controlling interests:
- at fair value on the date of acquisition, whereby goodwill is recognized on these non-controlling interests (full goodwill method); or

- on the basis of its share in the net identifiable assets of the acquired company measured at fair value, whereby only goodwill attributable to owners of the parent company is recognized (partial goodwill method).

Negative goodwill is recorded directly in profit or loss on the income statement.

Goodwill is not amortized but is tested for impairment whenever there is an indication that it may be impaired, and at least once a year at the reporting date. Subsequently, goodwill is measured at its original amount, less any cumulative impairment losses recorded (see Note 8.3 – Goodwill impairment tests).

The following principles apply to business combinations:

- In the event of a business combination carried out in stages (step acquisition), the purchaser must remeasure any previously-held equity interest at its fair value on the date of acquisition, and record the resulting gain or loss in the income statement.
- In the event of the acquisition of an additional interest in a subsidiary, the Group records the difference between the acquisition price and the carrying amount of the non-controlling interests within changes in equity attributable to owners of the parent.

Business combinations prior to January 1, 2009

In compliance with IFRS 1, the Group has chosen not to restate business combinations that took place prior to January 1, 2004. The acquisition method of accounting for business combinations was already accepted by IFRS 3 as published by the IASB in March 2004. However, there are several key differences with the revised standard:

- Minority (non-controlling) interests are measured on the basis of their share in the net identifiable assets of the entity acquired and no fair value option exists.
- Any adjustments to the acquisition price are recorded in the cost of the acquisition only if they are likely to occur and the amounts can be measured reliably.
- Costs directly attributable to the acquisition are recorded as part of the cost of the combination.
- In the event of the acquisition of an additional interest in a combined subsidiary, the difference between the cost of the acquisition and the carrying amount of the minority (non-controlling) interests acquired is recorded in goodwill.

1.3.7. Intangible assets

Intangible assets acquired

Intangible assets acquired separately are recorded at their historical cost less accumulated amortization and impairment losses.

Intangible assets acquired as part of a business combination are recorded at their fair value on the date of acquisition. After initial recognition, intangible assets are recorded at historical cost.

Operating licenses

Operating licenses for telephony services on French territory are recorded based on the fixed amount paid upon acquisition of the license. The variable portion of the license fees, amounting to 1% of the revenues generated by these activities, cannot be reliably measured and is therefore recorded in expenses for the period in which it is incurred.

- The UMTS license is recorded at its historical cost and is amortized on a straight-line basis as from June 2004 (when the service starts) until the end of the licensing period (August 2021), which is its expected useful life.
- The GSM license, renewed in March 2006, is recorded at present value based on 4% of the annual fixed fee of €25 million and is amortized on a straight-line basis from this date until the end of the licensing period (March 2021), which is its expected useful life.
- The LTE license is recorded at its historical cost and is amortized on a straight-line basis as from the date the service starts until the end of the licensing period. The license concerning the 2.6 GHz band, acquired in October 2011, has been amortized since the end of November 2012 (end of licensing period: October 2031). The license concerning the 800 MHz band,

acquired in January 2012, was activated on June 3, 2013 and will be amortized over a residual period of 18 years (end of licensing period: January 2032).

Other intangible assets acquired

The costs of identifying sites for relay antennas are capitalized and amortized over their useful life, which is generally ten years and corresponds to the estimated average duration of a lease.
Investments made in the context of concessions or public service contracts, and linked to the rollout of the telecommunications network, are recorded in intangible assets in accordance with interpretation IFRIC 12. The "intangible asset" model stipulated by this interpretation applies when the concession holder receives a right to bill users of the public service and the concession holder is essentially paid by the user. These intangible assets are amortized over the shorter of the estimated useful life of the categories of assets in question and the duration of the concession.
Intangible assets also comprise rights of way or access rights obtained. Amortization is generally calculated on a straight-line basis over the shorter of the contractual term and 30 years.
DSL connection costs (service access costs or SAC) billed by the local network operator on setting up unbundling for a customer are capitalized and amortized over the estimated period in which the economic benefits are expected to be consumed, i.e., between two and four years.

Intangible assets generated internally

Intangible assets generated internally are recorded at their historical cost less accumulated amortization and impairment losses.

Research costs are expensed as incurred. Development expenses are capitalized when the Group can demonstrate all of the following:

- the technical feasibility of completing the asset;
- its intention to complete the asset and use or sell it;
- the availability of adequate technical and financial resources to complete the asset;
- its ability to use or sell the asset;
- how the intangible asset will generate probable future economic benefits;
- its ability to measure reliably the expenditure attributable to the intangible asset during its development.

Trademarks and market shares generated internally are not recognized as intangible assets.
Capitalized development costs relating to computer software represent the costs incurred in developing products in-house. Development costs relating to computer software are capitalized when the technical feasibility can be demonstrated and the costs are considered to be recoverable.
Internal and external direct costs incurred to develop software for internal use are capitalized during the software's development phase. The costs resulting from the software's development phase generally include configuration of the software, coding, installation and testing. The costs of major upgrades and improvements that result in additional functionalities are also capitalized. These capitalized costs are amortized over four to eight years.

Subsequent expenses relative to intangible assets are capitalized only if they increase the future economic benefits associated with the corresponding specific asset. Other costs are expensed as incurred.

Borrowing costs

Since the method of rolling out intangible assets in stages does not generally involve a long period of preparation, the Group does not generally capitalize the borrowing costs incurred during the acquisition or production of intangible assets.

1.3.8. Property, plant and equipment

Property, plant and equipment are recorded at their historical cost less accumulated depreciation and impairment losses. Historical cost includes acquisition or production cost, any costs directly attributable to bringing the asset to the necessary location and condition, and the estimated costs of dismantling and removing the item and restoring the site on which it is located, to the extent of the obligations incurred. Borrowing costs that are directly attributable to assets requiring over one year to be ready for their intended use are capitalized as part of the cost of property, plant and equipment.

However, subsequent upkeep costs (repairs and maintenance) relating to property, plant and equipment are recorded in profit or loss. Other subsequent expenditure that helps to increase the productivity or useful life of the asset are recorded as part of the cost of that asset.

When an item of property, plant and equipment consists of significant components with different useful lives, the components are recorded and depreciated separately. Depreciation is calculated on a straight-line basis over the useful life of the asset.

In the specific case of Netcenter buildings, the depreciable amount takes account of a residual value at the end of the useful life.

Property, plant and equipment principally comprise network equipment.

Useful lives are as follows:

Buildings, incl. technical buildings	15 to 25 years
Fixtures, fittings and furniture	5 to 10 years
Equipment and industrial tools	5 years
Set-top boxes and access costs	4 years
Network equipment:	
- Fiber optic/FTTH	50 years
- Pylons	20 years
- Other network equipment	4 to 8 years
Miscellaneous equipment	3 to 5 years

The estimated useful lives are regularly reviewed and any changes to estimates are recorded on a prospective basis.

Depreciation expense is recorded in either cost of sales, commercial and distribution costs, or general expenses according to the function of the asset to which it relates.

Telecommunications equipment and hardware are investments which are largely affected by technological developments: retirements or accelerated depreciation may be recorded if the Group has to retire certain technical models earlier than expected or if it has to review the estimated useful life of certain categories of equipment.

The costs of links and connections are classified as property, plant and equipment. These costs are depreciated over their useful life, i.e., eight years.

Commercial contracts under which the Group supplies telecommunications capacity are analyzed in light of interpretation IFRIC 4 – *Determining Whether an Agreement Contains a Lease*:

- Indefeasible Rights of Use ("IRU") contracts grant the use of an asset over a specified term. IRU contracts that grant a specific right of use over a determined part of the underlying asset in the form of fibers or dedicated wavelengths are treated as leases. IRU contract costs are capitalized if the duration of the right granted is for the majority of the useful life of the underlying asset, and are depreciated over the term of the contract.
- Some commercial contracts to provide capacity are defined as service agreements since in general no specific asset is made available in such contacts. Contractual fees are recorded in expenses over the period.

FTTH rollout

Decision No. 2009-1106 of the *Autorité de Régulation des Communications Electroniques et des Postes* (ARCEP) [French Post and Electronic Communications Regulation Authority] dated

December 22, 2009 governs the rollout of fiber optic in very densely populated areas by creating joint investment rules for telephone operators. The reference offers published by the operators in compliance with the provisions of this decision are covered by IFRS, specifically IFRS 11 – *Joint Arrangements*. Thus, when the Group is joint investor from the outset, only its share of the assets is kept in property, plant and equipment, and when it is an investor *a posteriori*, the IRU or right of use is recorded in property, plant and equipment. The same treatment is applied to joint investments in less dense populated areas as defined by the ARCEP.

Finance lease agreements

Lease agreements for property, plant and equipment for which substantially all risks and rewards inherent to ownership are transferred to the Group are considered as finance lease agreements.

Property, plant and equipment acquired under finance leases are recorded in property, plant and equipment with a matching entry to a liability account. Assets acquired under finance leases are capitalized based on the lower of the present value of future lease payments and market value, and the corresponding liability is recorded in "Borrowing and other financial liabilities". These assets are generally depreciated on a straight-line basis over their estimated useful life, corresponding to the useful life applied to assets of the same type owned outright, or, if the duration of the lease is shorter than the useful life of the asset leased and if it is not reasonably certain that ownership of the asset will be transferred to the lessee at the end of the lease term, over the duration of the lease.

Site dismantling and restoration

The Group has a contractual obligation to dismantle and restore the sites of its mobile and fixed network upon expiry of a lease, if the lease is not renewed. In light of this obligation, site restoration costs are capitalized on the basis of:

- an average unit cost of restoring sites;
- assumptions concerning the lifespan of the dismantling asset; and
- a discount rate.

Investment subsidies

Investment subsidies received are recorded on the balance sheet as a deduction from the property, plant and equipment to which they relate. Investment subsidies are taken to profit or loss in line with the depreciation charged against the assets financed.

1.3.9. Impairment of goodwill, property, plant and equipment and intangible assets

The Group reviews the carrying amount of goodwill, other intangible assets, property, plant and equipment and assets under construction each time events or changes in the market environment indicate that they may be impaired. Goodwill, intangible assets with indefinite useful lives and intangible assets under development are tested for impairment in the fourth quarter of each financial year.

The impairment test consists of comparing the recoverable amount of a fixed asset or cash-generating unit (CGU) with its carrying amount. If the recoverable amount of an asset or CGU is less than its carrying amount, the carrying amount is written down to the recoverable amount and the impairment loss is immediately recorded in the income statement under other operating expenses. In testing goodwill allocated to a CGU or group of CGUs for impairment, the impairment loss is charged first to the carrying amount of goodwill and then to the other assets pro rata to their carrying amount.

A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows generated by other assets or groups of assets. If an asset does not generate cash inflows that are largely independent of cash inflows generated by other assets or groups of assets, recoverable amount is determined by reference to cash-generating units.

Group management monitors the return on investment relating to its acquisitions on an aggregate basis at Group level. This operating entity is the only CGU at the level of which the impairment tests are carried out.

Recoverable amount is determined as the higher of value in use and fair value less costs to sell.
The value in use of each asset or group of assets is determined using the discounted cash flows method (DCF), based on cash flow projections consistent with the most recent budget and business plan approved by management over periods spanning one to six years. The growth rates used to value the CGU are those used when preparing the CGU's budget and the business plan. For subsequent periods, the growth rates are estimated by the Group by extrapolating the rates used in the budgets and business plans. These rates do not exceed the medium- to long-term growth rates for the markets in which the Group operates. The discount rates used reflect current assessments by market participants of the time value of money and the risks specific to each asset or group of assets.
Fair value less costs to sell corresponds to the amount that could be obtained from the sale of an asset or group of assets between knowledgeable, willing parties in an arm's length transaction, less the costs of the sale. These amounts are determined by reference to market data (comparison with similar listed companies, with the value attributed to similar assets or companies during recent transactions, or stock market prices) or otherwise using the discounted cash flow method.
Impairment losses recorded against property, plant and equipment and intangible assets (excluding goodwill) may be reversed at a later date if the recoverable amount becomes once again higher than the carrying amount. However, the increased carrying amount attributable to the reversal of the impairment loss shall not exceed the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods. Impairment losses recorded against goodwill are irreversible.

1.3.10. Non-derivative financial assets

In accordance with IAS 39, financial assets are classified in one of the following four categories:

- assets at fair value through profit or loss;
- held-to-maturity assets;
- loans and receivables;
- financial assets available for sale.

In accordance with IFRS 7, the information provided in the notes to the financial statements concerning financial instruments enables:

- the items to be reconciled with those presented in the balance sheet;
- the importance of financial instruments to be assessed in light of the Group's situation and financial performance;
- the nature and extent of the Group's exposure to risks arising on financial instruments to be assessed at the end of the reporting period.

Purchases and sales of financial assets are recorded at the transaction date, which is the date on which the Group has committed to the purchase or sale of assets. A financial asset is derecognized if the contractual rights to the related cash flows expire or if the asset is transferred.
At the time of initial recognition, financial assets are recorded on the balance sheet at their fair value, plus any transaction costs directly attributable to the acquisition or issuance of the asset (except for financial assets at fair value through profit or loss, for which transaction costs are recorded in profit or loss).
The fair value of the principal financial assets and liabilities on the Group's balance sheet was calculated as detailed in Note 23 – Financial instruments.
A financial asset is defined as current when the maturity of the cash flows expected to derive from the instrument is less than one year.

Financial assets at fair value through profit or loss

These are financial assets held for trading purposes and intended to be resold in the near term.
Gains and losses resulting from changes in the fair value of financial assets in this category are recorded in profit or loss in the period in which they occur.
The main financial assets at fair value through profit or loss include UCITS.
The large majority of these assets are classified on the balance sheet under cash and cash equivalents.

Held-to-maturity financial assets

Financial assets held until maturity are non-derivative financial assets other than loans and receivables that have fixed or determinable payments and fixed maturity and which the Group has the intention and ability to hold to maturity. After their initial recognition, they are carried at amortized cost using the effective interest rate method.

The main held-to-maturity financial assets include financial assets linked to the Qualified Technology Equipment (QTE) operations settled in 2012. These assets are classified on the balance sheet as non-current financial assets.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments which are not listed on an active market. These assets are recognized at amortized cost using the effective interest rate method.

This category principally includes trade accounts receivable and other receivables detailed in Note 14 – Trade accounts receivable and other receivables, along with the other assets such as guarantee deposits and advances to associates mentioned in Note 12 – Other current and non-current assets.

Trade accounts receivable and other receivables are initially recorded on the balance sheet at their fair value. Due to their fairly short maturities, the fair value of these items generally corresponds to their nominal value, except when the impact of discounting is material.

Trade accounts receivable resulting from the Group's commercial offers include certain past-due receivables that have been impaired according to the rules defined by the Recovery and Litigation department. The impairment rates used differ according to the category of clients and/or offers, and are regularly updated to reflect the latest trends and in particular, recovery history. Where applicable, impairment may be recognized against other receivables based on the estimated risk of non-recovery.

Financial assets available for sale

Financial assets available for sale include non-derivative financial assets which are designated as available for sale or are not allocated to other categories of financial assets.

Financial assets available for sale are recorded at their fair value. Gains and losses on financial assets available for sale are recorded in other comprehensive income until the investment is derecognized or until it is demonstrated that it has suffered a material and other-than-temporary loss in value, on which date the cumulative gains and losses carried in other comprehensive income are reclassified to the income statement.

This category includes non-combined equity securities. These assets are classified on the balance sheet under non-current financial assets.

Impairment of non-derivative financial assets

An impairment loss is recorded on an asset or a group of financial assets if there is an objective indication of impairment resulting from one or more events occurring after the initial recognition of the asset, and these events have a negative impact on the future cash flows expected to derive from the financial asset or group of financial assets.

Impairment recognized against a financial asset at amortized cost corresponds to the difference between its carrying amount and the present value of the estimated future cash flows, discounted at the effective original interest rate.

Impairment recognized against a financial asset available for sale is calculated by reference to its fair value.

An impairment test is carried out on each material financial asset. Other assets with similar risk characteristics are grouped together for impairment testing purposes.

Impairment losses are recognized in profit or loss. Where impairment is charged against assets available for sale, the cumulative negative changes in fair value previously recognized in equity are transferred to profit or loss.

Impairment is reversed if the reversal can be objectively linked to an event occurring after it was recognized. Reversals of impairment charged against financial assets carried at amortized cost and financial assets available for sale representing interest rate instruments are recognized in profit or loss. Reversals of impairment charged against financial assets available for sale representing equity instruments are recorded directly in equity.

Impairment relative to assets recognized at cost may not be reversed.

1.3.11. Inventories

Inventories principally comprise packs (mobiles associated with a right to access SFR services), individual mobile phones, ADSL boxes and accessories.

Inventories are carried at the lower of cost and net realizable value. Cost principally comprises purchase costs and other supply costs, and is calculated in accordance with the weighted average cost method. Net realizable value is the estimated selling price in the normal course of business, less the estimated costs necessary to complete the sale.

1.3.12. Cash and cash equivalents

The "Cash and cash equivalents" caption includes bank balances, monetary UCITS which meet the specifications of AMF position No. 2011-13 and highly liquid short-term investments with an initial maturity of three months or less, readily convertible into a known amount of cash and subject to an insignificant risk of changes in value.

Marketable securities are carried at fair value through profit or loss.

1.3.13. Non-derivative financial liabilities

Financial liabilities include bond debt, amounts payable to Vivendi SA, commitments to purchase non-controlling interests, and other borrowings such as commercial paper, syndicated loans and finance lease liabilities. Financial liabilities also include other non-derivative financial liabilities.

Borrowings

The loans taken out by the Group are initially recorded at their fair value less any directly attributable costs. Subsequent to initial recognition, they are carried at amortized cost using the effective interest rate method. Issue premiums and issue costs are presented under liabilities on the balance sheet as a deduction of the nominal amount of the liability. Under this method, interest expense is recognized on an actuarial basis over the duration of the loan.

Other non-derivative financial liabilities

Other non-derivative financial liabilities comprise trade accounts payable and other payables, which are carried at their fair value on initial recognition. In light of their fairly short maturities, the fair value of other non-derivative financial liabilities mostly corresponds to their nominal value. These items are subsequently carried at amortized cost.

Derivative financial instruments

The Group uses various derivative financial instruments to hedge its exposure to the risk of changes in foreign exchange rates. These instruments include foreign exchange futures. All derivative financial instruments are recorded on the balance sheet at their fair value at the transaction date and are remeasured to fair value at the end of each reporting period.

The principal hedging instruments and the calculation of the fair value of derivative instruments are detailed in Note 23 – Financial instruments.

1.3.14. Provisions

Provisions are recorded when, at the end of the period, the Group has a legal, regulatory, contractual or implicit obligation resulting from past events; it is probable that an outflow of resources representing economic benefits will be required to settle the obligation; and the amount of the obligation can be measured reliably.

If the effect of the discounting is material, provisions are determined by discounting the expected future cash flows at a pre-tax discount rate which reflects current market assessments of the time value of money. If no reliable estimate of the amount of the obligation can be made, no provision is recorded and information is provided in the notes.

Provisions mainly include:

- provisions intended to cover disputes and litigation arising in the ordinary course of the Group's operations. The estimated amount of these provisions is based on assessment of the level of risk on a case-by-case basis. The occurrence of events during proceedings may require these provisions to be re-estimated at any time;
- provisions for restructuring, which are booked when the restructuring has been announced and a detailed plan has been drawn up or its implementation begun. These provisions are not generally discounted owing to their short-term nature;
- provisions for site dismantling and restoration, which are assessed on the basis of the number of sites in question, an average unit cost of restoring sites and assumptions regarding the useful life of the dismantling asset and discount rate. When a site is dismantled, the corresponding provision is written back;
- provisions for employee benefits, which are detailed in the section below.

1.3.15. Employee benefit schemes

Pursuant to obligations resulting from French legislation and company agreements, the Group offers its employees retirement benefits that can take the form of an indemnity payment upon retirement, or pensions.

For defined benefit schemes, a net liability is recorded on the balance sheet. This liability is determined by independent actuaries using the projected unit credit method. This method is based on assumptions which are updated annually, such as the probability that beneficiaries will continue to be employed by the Group on retirement, expected changes in future compensation and associated contributions, and an appropriate discount rate.

In terms of funding for these schemes, the Group has taken out insurance contracts aimed at outsourcing some or all of its obligations.

If these plan assets exceed the obligations recorded, a financial asset is recognized within the limit of the present value of future repayments and expected reductions in future contributions to the plan.

The Group records de facto employee benefit assets and liabilities together with the corresponding net expense over the entire estimated service lives of employees. Actuarial gains and losses relative to post-employment benefits are recognized in full in "Other comprehensive income" when they arise.

The cost of the schemes is recorded in operating profit, with the exception of the cost of unwinding the discount and the theoretical return on plan assets, which are recorded in other financial income and expenses.

All past service costs relating to plan changes and curtailments are immediately recorded on the income statement.

1.3.16. IncomeTax

The Group calculates its income taxes in compliance with the tax legislation in force in the countries where earnings are taxable.

Current tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable profit. Management periodically evaluates the tax positions taken with regard to applicable tax legislation when this is subject to interpretation, and where appropriate, determines the amounts it expects to pay to the tax authorities.

Differences at the end of the reporting period between the carrying amount of assets and liabilities in the balance sheet and their tax base represent temporary differences. In accordance with the balance sheet liability method, these temporary differences give rise to the recognition of:

- deferred tax assets, when the value of an asset for tax purposes is higher than its carrying amount and when the value of a liability for tax purposes is lower than its carrying amount (expected future tax benefit); or
- deferred tax liabilities, when the value of an asset for tax purposes is less than its carrying amount or when the value of a liability for tax purposes is higher than its carrying amount (expected future tax expense).

Deferred tax assets and liabilities are determined on the basis of the tax rates and tax laws expected to apply in the financial year in which the asset will be realized or the liability settled. These estimates are reviewed at the end of each reporting period in order to reflect any changes to the applicable tax rates.

Deferred tax assets are recorded for all deductible temporary differences, tax loss carryforwards and unused tax credits; to the extent that it is likely taxable profit will be available. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and, where applicable, adjusted to take account of the probability that taxable profit will be available against which they can be utilized. To assess the probability that taxable profit will be available, elements taken into account include the Group's earnings in previous years, future profit forecasts, and non-recurring items that are not likely to recur in the future. Accordingly, any assessment of the Group's ability to utilize its deferred tax assets is largely based on judgment. If the Group's future taxable earnings prove significantly different to those anticipated, the Group would be obliged to adjust the carrying amount of the deferred tax assets and this could have a significant impact on its balance sheet and profit.
The accounting for deferred taxes arising on the taxable earnings of companies included in the scope of Vivendi's tax consolidation is detailed in the "Corporate income tax" paragraph within the section describing the basis for preparing the combined financial statements.

Deferred tax assets and liabilities are offset when the following two conditions are met:
- the Group has a legal right to set off current tax assets and liabilities; and
- the deferred tax assets and liabilities relate to taxes levied by the same tax entity.

Taxes relative to items recognized directly in other comprehensive income are recorded in other comprehensive income and not in the income statement.

1.3.17. Share-based payment

In order to align the interests of directors and employees with those of shareholders by giving them an additional incentive to improve the company's performance and increase the share price over the long term, Vivendi has set up payment plans for Group directors and employees based on the Vivendi share (share purchase plans, performance share plans, free share plans) or other equity-settled equity instruments based on the Vivendi share price (share subscription options). Vivendi's Management Board and Supervisory Board have approved these awards. They have also set performance criteria for the share subscription options and performance shares that determine whether or not these instruments vest. All plans are awarded on condition that the beneficiary continues to be employed by the Group on the vesting date.
The share of plans relative to Group employees is rebilled by Vivendi SA to SFR SA.

Recognition

Equity-settled share-based payment plans are recognized as personnel costs at the fair value of the instruments awarded, with a matching entry to a payables account.
The fair value of the instruments awarded is estimated and fixed at the grant date using a binomial model based on assumptions revised at the measurement date such as the estimated volatility of the shares in question and a discount rate corresponding to the risk-free interest rate and estimated dividend rate. The estimated life of an option is calculated as the average of the vesting period of the rights and the contractual life of the instrument.

1.3.18. Earnings per share

Basic earnings per share is obtained by dividing profit for the period by the weighted average number of shares in circulation during the period.

Diluted earnings per share is obtained by dividing profit for the period by the weighted average number of shares in circulation during the period, adjusted for the effect of all existing diluting instruments.

1.3.19. Contractual commitments, contingent assets and liabilities

Each year, the Group draws up a detailed list of all contractual obligations, financial and commercial commitments and contingent obligations to which it is party or to which it is exposed. This list is regularly updated by the competent departments and reviewed by Group management.

Note 2. Changes in Combination Scope

Financial Year 2011

La Poste Telecom

In 2011, SFR and La Poste created a joint subsidiary, La Poste Telecom, owning 49% and 51% respectively. This subsidiary is a mobile virtual network operator (MVNO) addressing the mass market and providing a wide range of mobile telephone services under the brand La Poste Mobile through the La Poste outlet network. This company is accounted under equity method in the combined financial statements of the Group.

Financial Year 2012

Numergy

On August 31, 2012, SFR together with Bull and the Caisse des Dépôts et Consignations created the company Numergy. SFR holds 46.7% stake. Numergy provides to all economic players IT infrastructures capable of hosting remotely accessed and secure data and applications, i.e."cloud computing" services. This company is accounted under equity method in the combined financial statements of the Group.

Note 3. Segment information

As indicated in the basis of preparation of the combined financial statements presented in the introduction of Note 1 – Accounting Principles, the Group has only identified a single operating segment in compliance with IFRS 8 – *Operating Segments.*

Geographic information

Moreover, as the Group's operations are located in France, a single geographical area is used.

Information on main customers

No customer represents more than 10% of the Group's revenues.

Note 4. Operating Income

The breakdown of the elements included in the operating income is presented in Notes 1.3.4 – Revenues, 1.3.5 – Cost of sales, commercial and distribution costs, and 1.2.1 – Combined income statement.

4.1. Breakdown of Revenues

(in millions of euros)	2013	2012	2011
Sales of goods	540	516	568
Sales of services	9,658	10,772	11,615
Revenues	**10,199**	**11,288**	**12,183**

4.2. Other Operating Income and Expenses

(in millions of euros)	2013	2012	2011
Other operating income	**2**	**11**	**14**
Amortization of customer bases recognized in business combinations (a)	(66)	(66)	(67)
Restructuring costs (b)	(93)	(187)	(12)
Other	(10)	(17)	(6)
Other operating expenses	**(169)**	**(270)**	**(84)**

(a) The amortization of customer bases recognized in business combination represents the amortization of the customer bases recognized at the acquisition of the Neuf Cegetel Group in 2008 (refer to Note 9 – Intangible Assets).

(b) The restructuring costs principally include the voluntary redundancy plan launched by SFR in 2012. In 2013, the Group continued its transformation plan to adapt its business for the changing market environment and maintain its investment in very high-speed fixed and mobile. The voluntary redundancy plan closed in August 2013, and concerned 873 employees.

4.3. Personnel Costs and Average Employee Numbers

(in millions of euros, except number of employees)	2013	2012	2011
Annual average number of full-time equivalents	**13,870**	**14,277**	**14,455**
Of which UES SFR (a)	9,106	9,524	9,529
Of which other combined entities	4,764	4,753	4,926
Salaries and wages (b)	(734)	(652)	(632)
Social security contributions	(301)	(294)	(271)
Capitalized personnel costs	88	79	76
Salaries and related costs	**(947)**	**(867)**	**(828)**

Share-based compensation (c)	(27)	(32)	(23)
Employee benefit (d)	6	(4)	(3)
Other personnel costs (e)	(109)	(153)	(170)
Personnel costs	**(1,077)**	**(1,056)**	**(1,025)**

(a) UES means the social and economic unit.

(b) The 2013 versus 2012 change essentially results from the voluntary redundancy plan.

(c) Re-invoiced in totality by Vivendi (refer to Note 17 – Remunerations based on equity instruments).

(d) Cost of services delivered related to pension schemes, of which the detail is presented in Note 19 – Post-Employment Benefits.

(e) The other personnel costs include profit sharing, performance-based bonuses, social security and related contributions an other employee benefits (such as contributions to employee welfare schemes, etc.).

Note 5. Financial Income

As net financing costs are presented directly in the income statement, other financial income and expenses are detailed hereunder:

(in millions of euros)	2013	2012	2011
Other financial income (a)	**2**	**2**	**8**
Change in value of derivative instruments	-	0	(40)
Effect of undiscounting liabilities (b)	(7)	(10)	(11)
Effect of undiscounting impairment (c)	(6)	(5)	(5)
Change in impairment on financial assets	(1)	(9)	(0)
Other	(10)	(10)	(12)
Other financial expenses	**(24)**	**(34)**	**(70)**

(a) The other financial income mainly includes, default interest, various proceeds of bank management, and interest on long-term advances granted to equity-accounted companies.

(b) Principally concerns the debt related to the license GSM.

(c) Principally concerns the provision for employment benefits plans and the provision for site rehabilitation presented in Note 18 – Provisions.

Note 6. Income Tax

For information, some companies belong to a group integrated under the French Tax Group System for tax purposes as authorized under *Article 223 A du CGI et suivants*:

- SFR S.A., since 2011, and since 2012 a few subsidiaries more than 95% owned, are included in the tax group system, where Vivendi is the head company of the Group. The tax each member company is liable to pay is paid by Vivendi, which is alone liable to the tax authorities.

- CID S.A. formed a tax group system from January 1, 2010 with the subsidiaries more than 95% owned by it. CID is also solely liable for corporate income tax of which it is the parent company.

6.1. Breakdown of income tax

(in millions of euros)	2013	2012	2011
Income tax expense			
Current	(282)	(559)	(566)
Deferred	(33)	43	31
Income tax	**(315)**	**(516)**	**(535)**
Total income tax paid	**(299)**	**(537)**	**(643)**

6.2. Tax proof

(in millions of euros)	2013	2012	2011
Net income	426	752	1,400
Adjustment:			
Income tax	(315)	(516)	(535)
Net income from discontinued operations	-	-	-
Pretax income from continuing operations	**742**	**1,267**	**1,935**
French statutory tax rate	38.0%	36.1%	36.1%
Theoretical income tax	**(282)**	**(458)**	**(699)**
Reconciliation of the theoretical and effective tax rate			
Permanent differences (a)	(22)	(40)	(4)
Tax credits / Additional tax demands	(2)	(1)	4
Assessment of deferred tax assets (b)	(5)	(7)	169
Net income(loss) of equity-accounted affiliates	(5)	(10)	(6)
Income tax	**(315)**	**(516)**	**(535)**
Effective tax rate	42.5%	40.7%	27.6%

(a) Mainly includes, the impact of consolidating 15% of the financial interest calculated on amounts provided to the Group and the tax loss carry-forwards passed on to Vivendi under the Consolidated Global Profit Tax System.

(b) As of December 12, 2011, an amount of €452 million in tax loss carry-forwards was transferred to SFR SA as part of the merger with VTI. These tax loss carry-forwards, which were not recognized, were entirely used up over financial year 2011. The impact on the reconciliation between theoretical income tax and actual income tax at end 2011 amounted to €163 million.

6.3. Changes in Deferred Taxes by Type Changes in deferred tax assets/(liabilities)

The breakdown of deferred tax assets and liabilities by nature for years ended 2011 to 2013 is as follows:

Financial year 2013

(in millions of euros)	Opening Balance	Income statements	Other	Closing Balance
Deferred tax assets				
Tax losses carry forward	65	8	(0)	73
Provisions	134	(45)	3	92
Fixed assets	105	10	(0)	115
Other	67	(7)	(0)	60
Offsetting (a)	(136)	-	12	(124)
Gross deferred tax assets	**235**	**(34)**	**15**	**216**
Unrecognized assets				
Tax losses carry forward	(61)	(9)	0	(69)
Other	(17)	(3)	(0)	(20)
Net deferred tax assets	**157**	**(45)**	**15**	**127**
Deferred tax liabilities				
Fixed assets	(104)	23	(0)	(82)
Other	(33)	(10)	0	(44)
Offsetting (a)	136	-	(12)	124
Deferred tax liabilities	**(1)**	**12**	**(12)**	**(2)**
Net deferred tax assets (liabilities)	**156**	**(33)**	**2**	**125**

Financial Year 2012

(in millions of euros)	Opening Balance	Income statement	Other	Closing Balance
Deferred tax assets				
Tax losses carry forward	61	3	0	65
Provisions	60	69	5	134
Fixed assets	127	(21)	0	105
Other	81	(14)	(0)	67
Offsetting (a)	(157)	-	20	(136)
Gross deferred tax assets	**173**	**36**	**26**	**235**
Unrecognized assets				
Tax losses carry forward	(51)	(9)	-	(61)
Other	(13)	(4)	(0)	(17)
Net deferred tax assets	**109**	**23**	**26**	**157**
Deferred tax liabilities				
Fixed assets	(133)	30	(1)	(104)
Other	(24)	(10)	0	(33)
Offsetting (a)	157	-	(20)	136
Deferred tax liabilities	**(0)**	**20**	**(21)**	**(1)**
Net deferred tax assets (liabilities)	**108**	**43**	**5**	**156**

Financial Year 2011

(in millions of euros)	Opening Balance	Income statement	Other	Closing Balances
Deferred tax assets				
Tax losses carry forward	55	(156)	162	61
Provisions	57	5	(2)	60
Fixed assets	131	(8)	4	127
Other	124	(18)	(25)	81
Offsetting (a)	(195)	-	38	(157)
Gross deferred tax assets	**171**	**(176)**	**178**	**173**
Unrecognized assets				
Tax losses carry forward	(42)	153	(162)	(51)
Other	(29)	17	(1)	(13)
Net deferred tax assets	**100**	**(7)**	**15**	**109**
Deferred tax liabilities				
Fixed assets	(151)	17	0	(133)
Other	(46)	21	2	(24)
Offsetting (a)	195	-	(38)	157
Deferred tax liabilities	**(2)**	**38**	**(36)**	**(0)**
Net deferred tax assets (liabilities)	**98**	**31**	**(21)**	**108**

(a) In accordance with IAS 12, the deferred tax assets and liabilities of the same tax entity are offset insofar as they are related to income taxes levied by the same tax authority. The company has the legal right to offset its tax assets and liabilities.

Note 7. Earnings Per Share

As the combined group was not constituted on this date, the number of shares in circulation is not determinable. Consequently, no earnings per share are presented in the Combined Financial Statements.

Note 8. Goodwill

8.1. Goodwill

(in millions of euros)	2013	2012	2011
Goodwill, Gross	5,194	5,194	5,194
Impairment	(6)	(6)	(6)
Goodwill	**5,188**	**5,188**	**5,188**

This amount includes notably the goodwill generated on the goodwill of Neuf Cegetel, which was €4,837 million.

8.2. Net change in Goodwill

(in millions of euros)	2013	2012	2011
Gross value at opening balance	**5,194**	**5,194**	**5,212**
Acquisitions	0	1	-
Decreases	-	-	(18)
Gross value at closing balance	**5,194**	**5,194**	**5,194**
Impairment losses at opening balance	(6)	(6)	(6)
Change	-	-	-
Impairment losses at closing balance	(6)	(6)	(6)
Net value at end of period	**5,188**	**5,188**	**5,188**

8.3. Goodwill impairment Test

The return on investment of acquisitions is monitored at Group level, the only operating sector on which impairment tests are carried out.

Main assumptions applied to determine the recoverable values

The recoverable value is determined upon the basis of the usual valuation methods, particularly the value in use, based upon the DCF approach.

In this respect, for 2013 the projected cash flow and the financial parameters used are the most recent approved by Management and updated to take account of the strong impact on revenues from the pricing policies decided by the Group in a tougher competitive environment, partially offset by cost savings in line with expectations under the company transformation plan, while maintaining a high level of investments, principally due to the increasing rate of investment in very high-speed mobile.

The projection is based on the 2014-2019 business plan established by Management, which has been projected over five additional years.

The assumptions used for discounting rates and the perpetual growth rate are presented as follows:

	2013	2012	2011
Basis used for recoverable value	Value in use	Value in use	Value in use
Methodology	DCF & comparables model	DCF & comparables model	DCF & comparables model
Discount rate after tax	7.30%	7.30%	7.00%
Perpetual growth rate	0.5%	0.5%	1.0%

On the basis of these assumptions, Management, with the help of independent evaluators, has implemented an impairment test for goodwill, and concluded that the recoverable value of the Group exceeded its book value as of December 31, 2013. The Group therefore did not record any impairment loss as of December 31, 2013 or during the previous periods presented.

Sensitivity of recoverable amounts

Over the periods analyzed, the recoverable amount would be equal to the carrying amount if the main assumptions evolved as follows:

	Discount rate		Perpetual growth rate		Discounted cash flows
	Applied rate (%)	Increase in the discount rate in order for the recoverable amount to be equal the carrying amount (in number of points)	Applied rate (%)	Decrease in the perpetual growth rate in order for the recoverable amount to be equal to the carrying amount (in number of points)	Decrease in the discounted cash flows in order for the recoverable amount to be equal to the carrying amount (%)
2013	7.30%	0.60 pt	0.50%	- 1.25 pt	-10%
2012	7.30%	3.00 pt	0.50%	- 7.00 pt	-34%
2011	7.00%	5.30 pt	1.00%	- 14.03 pt	-51%

Note 9. Intangible Assets

9.1. Intangible Assets by nature

The breakdown of intangible assets by nature is as follows:

	2013		
(in millions of euros)	Gross	Amortization and impairment losses	Net
Acquired software	2,061	(1,737)	323
Software developed internally	2,695	(1,854)	841
Licenses (a)	2,505	(620)	1,885
Customer databases (b)	562	(476)	86
Other (c)	1,532	(736)	796
	9,355	**(5,424)**	**3,931**

(in millions of euros)	2012			2011		
	Gross	Amortization and impairment losses	Net	Gross	Amortization and impairment losses	Net
Acquired software	1,967	(1,653)	314	1,870	(1,527)	343
Software developed internally	2,438	(1,629)	810	2,135	(1,417)	719
Licenses (a)	2,505	(503)	2,002	1,244	(430)	814
Customer databases (b)	562	(410)	152	562	(344)	218
Other (c)	1,451	(646)	805	1,541	(516)	1,024
	8,923	**(4,841)**	**4,082**	**7,352**	**(4,235)**	**3,117**

(a) The gross amount includes notably:
- the UMTS license for €619 million (acquired in 2001 for the provision of third-generation mobile telephone services in France) and the new frequencies, acquired in June 2010 for €300 million, amortizable over 20 years;
- the GSM license for €278 million. In March 2006, the French government granted SFR S.A. the right to continue to operate this license for 15 years. The license is recorded for its present value (refer to Note 1.3.7 – Intangible Assets);
- the LTE license for €150 million acquired in October 2011 under the allocation of 4G frequencies in the 2.6 Ghz band, and for €1,065 million acquired in January 2012 under the allocation of 4G frequencies in the 800 MHz band.

(b) Includes:
- the Neuf Cegetel customer base, valued upon acquisition at €464 million,
- the FrNet2 customer base, valued upon acquisition at €98 million.

(c) Mainly includes site search costs, concession contracts (IFRIC 12), rights of way and service access costs.

9.2. Net Changes in Intangible Assets

The analysis of the change of intangible assets is as follows:

(in millions of euros)	2013	2012	2011
Opening balance	**4,082**	**3,117**	**3,077**
Amortization and impairment losses	(729)	(709)	(661)
Acquisitions	586	1,685	718
Disposals / Write-down	(4)	(4)	(6)
Changes in combination scope	0	-	(5)
Other	(4)	(8)	(5)
Closing balance	**3,931**	**4,082**	**3,117**

The LTE license in the 800 MHz band was activated on June 3, 2013 and will be amortized over a remaining duration of 18 years (end of licensing: January 2032).

9.3. Breakdown of Net Allocations to Amortizations and Impairment Losses

The changes in amortizations and impairment losses are included by destination in the various components of the operating income.

They concern:

(in millions of euros)	2013	2012	2011
Acquired software	(144)	(162)	(178)
Software developed internally	(229)	(215)	(194)
Licenses	(117)	(73)	(72)
Customer bases	(66)	(66)	(67)
Other intangible assets	(172)	(193)	(151)
	(729)	**(709)**	**(661)**

Expenses incurred during the development phases of the Network service projects and the information system development projects are eligible for capitalization. The capitalized amount under intangible assets amounted to €249 million in 2013, as compared with €263 million in 2012 and €264 million in 2011.

Note 10. Tangible Assets

10.1. Property, plant and equipment by nature

The breakdown of Property, plant and equipment is as follows:

	2013		
(in millions of euros)	Gross	Amortization and impairment losses	Net
Land	78	(1)	76
Buildings	2,900	(1,614)	1,286
Equipement and machinery	5,326	(3,267)	2,058
Work in progress	301	-	301
Other	2,397	(1,587)	810
	11,002	**(6,470)**	**4,532**

(in millions of euros)	2012			2011		
	Gross	Amortization and impairment losses	Net	Gross	Amortization and impairment losses	Net
Land	98	(1)	97	84	(1)	83
Buildings	2,744	(1,563)	1,182	1,938	(1,083)	855
Equipement and machinery	5,237	(3,207)	2,030	5,532	(3,310)	2,221
Work in progress	315	-	315	284	-	284
Other	2,218	(1,374)	844	2,168	(1,367)	801
	10,613	**(6,145)**	**4,468**	**10,005**	**(5,762)**	**4,244**

The buildings are principally composed of the hosting of technical sites, buildings and their respective fittings. Technical equipment principally includes network equipment (radio, switching, network administration, network core) and transmissions.

Work in progress, among other things, equipment and network infrastructures.

10.2. Net Changes in Property, plant and equipment

Analysis of the changes in Property, plant and equipment is as follows:

(in millions of euros)	2013	2012	2011
Opening balance	**4,468**	**4,244**	**4,041**
Amortization and write-off	(932)	(868)	(914)
Acquisitions / Increase	1,079	1,080	1,127
Disposal	(21)	(17)	(15)
Changes in combination scope	(61)	12	(1)
Other	(2)	17	6
Closing balance	**4,532**	**4,468**	**4,244**

10.3. Breakdown of Depreciation and Impairment Losses

The changes in depreciation and impairment losses are included by destination in the various components of the operating income.

They concern:

(in millions of euros)	2013	2012	2011
Buildings	(118)	(115)	(124)
Equipment and machinery	(395)	(393)	(420)
Other property, plant and equipment	(419)	(361)	(369)
	(932)	**(868)**	**(914)**

10.4. Property, plant and equipment held under finance leases

The breakdown of property, plant and equipment held under finance leases is as follows:

(in millions of euros)	2013	2012	2011
Lands	5	5	5
Buildings	90	90	90
Technical plant, machinery and equipment	176	176	176
Property, plant and equipment held under finance leases	**270**	**270**	**270**

The minimum future lease payments for Property, plant and equipment held under finance leases is detailed as follows:

(in millions of euros)	2013	2012	2011
Under one year	3	4	9
Two to five years	7	8	12
Over five years	1	3	4
Minimum future lease payments	**11**	**15**	**25**

Note 11. Equity-Accounted Affiliates

11.1. Main Equity-Accounted Affiliates

(in millions of euros)	2013	2012	2011
Numergy (a)	95	103	-
La Poste Telecom (b)	-	-	17
Other associates	23	19	24
Associates	**119**	**123**	**41**
Synerail (c)	-	-	-
Foncière Rimbaud (d)	33	15	7
Joint ventures	**33**	**15**	7
	152	**138**	**49**

(a) SFR, Bull and the Caisse des Dépôts created the company Numergy, which offer secure IT infrastructures capable of hosting remotely accessible and secure data and applications, i.e."cloud computing" services (cf. Note 2 – Changes in consolidation scope). Only 25% of the Group's share (in the total amount of €105 million), has been paid up. The remaining unpaid portion was recognized as Liabilities in the amount of €79 million (cf. Note 22 – Other current and non-current liabilities).

(b) SFR and La Poste created La Poste Telecom, holding 49% and 51% respectively. This subsidiary is a mobile virtual network operator (MVNO) in the retail market under the La Poste Mobile brand name (cf. Note 2 – Changes in Consolidation scope).

The negative value of the equity-accounted associated of La Poste Telecom was recognized at zero with an offsetting entry in provisions for contingencies and liabilities in the amount of €14 million at end 2013.

(c) On February 18, 2010, a consortium formed with SFR, Vinci and AXA (each at 30%) and TDF (10%) signed the GSM-R public/private partnership agreement with Réseau Ferré de France. This agreement, of a duration of 15 years and a total amount of €1 billion, covers the financing, construction, operation and maintenance of a digital telecommunications network that enables to conference mode communications (voice and data) between train drivers and team on the ground. It will be rolled out progressively over 14,000 km of conventional and high-speed railway lines in France. The negative value of the equity-accounted associated of Synerail was recognized at reduced to zero with an offsetting entry in provisions for contingencies and liabilities in the amount of €5 million at end 2013.

(d) SFR and Vinci Immobilier, a subsidiary of Vinci Group, have four equally owned joint subsidiaries, Foncière Rimbaud 1, Foncière Rimbaud 2, Foncière Rimbaud 3 and Foncière Rimbaud 4, within the framework of construction of the registered office of SFR in Saint-Denis. This project, which may change over time, will be undertaken in two stages, and works will be staggered until the end of 2015. The first stage of buildings (surface area of 74,000 m^2) carried by Foncière Rimbaud 1 and Foncière Rimbaud 2 was delivered at end 2013. The second stage carried by Foncière Rimbaud 3 and Foncière Rimbaud 4 is under construction.

Foncière Rimbaud 3 and 4, which used to be fully consolidated, have been equity-accounted since April 2013.

The group % interests of these main equity-accounted affiliates are indicated in Note 27 – List of combined entities.

11.2. Condensed Financial Information

The condensed financial information relative to equity-accounted affiliates is presented in the following tables.

	Numergy		La Poste Telecom		
(in millions of euros)	2013	2012	2013	2012	2011
Revenues	1	-	147	141	76
Net Income (a)	(18)	(3)	(19)	(19)	(62)
Total Equity	204	222	(62)	(43)	(24)
Cash (-) / Net debt (+)	(20)	(56)	48	34	27
Total assets	208	228	36	42	58

(a) Including depreciation of the goodwill of La Poste Telecom recorded in 2011 but communicated to SFR post its consolidation process (€27 million).

	Synerail	
(in millions of euros)	2013	2012
Revenues	153	119
Net Income	2	1
Total Equity	(16)	(26)
Cash (-) / Net debt (+)	288	148
Total assets	344	221

Note 12. Other Current and Non-Current Assets

(in millions of euros)	2013	2012	2011
Non-current operating assets	**79**	**78**	**1**
Advances to equity-accounted and non-combined companies	65	38	34
Non-combined equity securities	12	13	20
Other (a)	29	32	94

Income taxes	3	6	7
Other receivables	14	0	4
Total account receivable and other receivables	**2,558**	**2,544**	**3,015**

(a) The Group considers that there is no significant uncollectibility risk for unprovisioned overdue receivables (refer to Note 23.6 – Credit and counterparty risks – paragraph "Accounts receivable and other receivables").

(b) At end 2013, employee and tax receivables were principally made up of the following elements:
- Value-added tax: €355 million
- Territorial economic tax (CET): €71 million
- Tax on electronic communications (TCE – Copé): €61 million
- Tax on television services (TST – COSIP): €26 million

Note 15. Cash and Cash Equivalents

(in millions of euros)	2013	2012	2011
Cash	297	187	165
Cash equivalents	98	79	63
Cash and cash equivalents	**394**	**267**	**228**

Note 16. Information on Equity

Dividends paid to shareholders during financial years 2011, 2012 and 2013:

The dividends paid for financial year 2010 amounted to €1,000 million. These dividends were paid in the form of an interim dividend in January 2011.

The dividends paid for financial year 2011 amounted to €1,423 million. These dividends were paid in the form of an interim dividend in June 2011 in the amount of €454 million, and the balance in April 2012 in the amount of €968 million.

The dividends paid for financial year 2012 amounted to €982 million. These dividends were paid in March 2013.

The Group does not plan to distribute dividends for financial year 2013.

Management of capital risk:

The financial structure of the Group comprises borrowing and financial debts, cash and cash equivalents and equity, which includes reserves and equity attributable to non-controlling interests as detailed in the statement of change of equity.

Note 17. Remunerations based on Equity Instruments

17.1. Plans allocated by Vivendi to Employees of SFR

17.1.1. Characteristics of the Various Plans Allocated by Vivendi

Vivendi has granted several share-based compensation plans founded on the Vivendi share and intended for employees of SFR.

During 2012 and 2011, Vivendi granted stock option and performance share plans, wherever the fiscal residence of the beneficiaries and bonus share plan for employees of all the group's French subsidiaries.

In 2013, the Supervisory Board decided, upon the recommendation of the Management Board and General Management and the advice of the Human Resources Committee, that all grants would be made in the form of performance shares, wherever the fiscal residence of the beneficiaries.

In addition, in 2013, 2012 and 2011, Vivendi granted stock purchase plans to its employees and retirees (employee stock purchase and leveraged plans).

The accounting methods applied to value and recognize these granted plans are described in Note 1.3.18 – Remunerations paid in shares. More specifically, the risk-free interest rate applied is the rate of French "Obligations Assimilables du Trésor" (OAT) with a maturity corresponding to the expected term of the instrument at the valuation date, and the expected dividend yield at grant date is based on Vivendi's dividend distribution policy.

As a reminder, the volatility applied in valuing the stock option plans granted by Vivendi in 2012 and 2011 was calculated as the weighted average of (a) 75% of the historical volatility of Vivendi shares computed on a 6.5-year period and (b) 25% of the implied volatility based on Vivendi put and call options traded on a liquid market with a maturity of 6 months or more.

Instruments settled by the issuance of shares

The definitive grant of equity-settled instruments, excluding the 2012 bonus share plan, is subject to the satisfaction of performance conditions. Such performance conditions include an external indicator, thus following AFEP and MEDEF recommendations. The objectives underlying the performance conditions are determined by the Supervisory Board upon proposal by the Human Resources Committee.

The value of the equity-settled instruments is estimated and set at grant date. For the main 2013, 2012 and 2011 performance share, stock option and bonus share plans, the applied assumptions were as follows:

	2013	2012		2011
Date of grant	February 22	July 16 (a)	April 17	April 13
Data at grant date:				
Option strike price (in euros) (b)	N/A	N/A	13.63	19.93
Share price (in euros)	14.91	15.75	12.53	20.56
Expected volatility	N/A	N/A	27%	25%
Expected dividend yield	6.71%	6.35%	7.98%	7.30%
Performance conditions achievement rate (c)	100%	N/A	100%	100%

N/A: not applicable.

(a) Vivendi granted 50 bonus shares to the employees of all the group's French subsidiaries, including SFR (refer to *infra*).

(b) In accordance with legal requirements, the number and strike price of stock options, as well as the number of performance shares in connection with outstanding plans, were adjusted to take into account the impact, for the beneficiaries of the following distributions by a withdrawal from reserves:

- on May 9, 2012: grant to each shareholder of one bonus share per 30 shares held; and

- on May 17, 2013: dividend distribution with respect to fiscal year 2012.

These adjustments have no impact on share-based compensation expense related to the relevant stock option and performance share plans.

(c) Since 2012, achievement of the objectives underlying the performance conditions has been assessed over two years (each year over two years for the plans allocated in 2011). The final grant is effective according to fulfillment of the following performance criteria:
- internal indicator (70%): EBITA margin as a function of the cumulative income from the past two fiscal years, for the plans allocated in 2013 and 2012 (compared to the adjusted net income (45%), and cash flow from operations (25%) for the plans allocated in 2011);
- external indicators (30%): performance of Vivendi's share price over two years, according to the Dow Jones Stoxx Telecom index (21% for plans allocated in 2013 and

2012, compared to 18% for the plans allocated in 2011) and according to the Media index comprised of a pre-established panel (9% for plans allocated in 2013 and 2012, compared to 12% for plans allocated in 2011).

- The definitive grant of stock options and performance shares of April 17, 2012 became effective as of December 31, 2013. The acquisition of these instruments is conditional upon active employment at the vesting date.

With regard to stock options and performance shares of April 13, 2011, the final grant became effective as of December 31, 2012.

Performance share plans based on the value of Vivendi

Performance shares granted in 2013, 2012 and 2011 will vest at the end of a two-year period. The compensation cost is therefore recognized on a straight-line basis over the vesting period. Performance shares are available at the end of a four-year period from the date of grant. However, as the shares granted are ordinary shares of the same class as existing shares making up the share capital of Vivendi SA, employee shareholders are entitled to the dividends and voting rights attached to these shares from the end of the two-year vesting period. The recognized compensation cost corresponds to the value of the equity instruments received by the beneficiary, and is equal to the difference between the fair value of the shares to be received and the discounted value of dividends that were not received over the vesting period.

On February 22, 2013, 717,000 performance shares were granted, compared to 552,000 granted on April 17, 2012 and 492,000granted on April 13, 2011. After taking account of a discount for non-transferability, 8.3% of the share price as of February 22, 2013 (7.1% as of April 17, 2012 and 4.5% as of April 13, 2011), the fair value of each granted performance share was €11.79, as compared with €9.80 per share as of April 17, 2012 and €16.84 as of April 13, 2011, corresponding to a global fair value of €8 million (€5 million in 2012 and €8 million in 2011).

Stock option plans based on the value of Vivendi

Stock options granted in 2012 and 2011 will vest at the end of a three-year period and expire at the end of a ten-year period (with a 6.5 year expected term) and the compensation cost determined at grant date is recognized on a straight-line basis over the vesting period. In 2013, Vivendi did not grant any stock options. On April 17, 2012, 495,000 stock options were granted, compared to 610,000 options on April 13, 2011. After taking into account a 2.35% risk-free interest rate (3.21% in 2011), the fair value of each option granted was €0.96 (compared to €2.16 per option as of April 13, 2011), corresponding to a global fair value of €0.5 million (€1.3 million in 2011).

Free allocation plan of 50 shares

On July 16, 2012, Vivendi granted a 50 bonus share plan per employee of all the group's French subsidiaries, including SFR. These shares will be issued at the end of a two-year period, i.e., July 17, 2014, subject to the employee being in active employment at this date and without any performance conditions. The compensation cost is therefore recognized on a straight-line basis over this period. The shares will only be available after another two-year period. However, as the shares granted are ordinary shares of the same class as existing shares making up the share capital of Vivendi SA, employee shareholders will be entitled to the dividend and voting rights relating to these shares from the end of the two year vesting period.

On July 16, 2012, 500,000 bonus shares were granted. After taking into account a discount for non-transferability of 9.3% of the share price on July 16, 2012, the fair value of each granted bonus share was €12.40, a total of €6 million.

Employee stock purchase and leveraged plans subscribed by the employees of SFR
Vivendi also maintains share purchase plans (stock purchase and leveraged plans) that allow substantially all of SFR employees and retirees to purchase Vivendi shares through capital increases reserved to them. These shares, which are subject to certain sale or transfer restrictions, may be purchased by employees with a maximum discount of 20% on the average opening market price for Vivendi shares during the 20 trading days preceding the date of approval of the share capital increase by the Management Board (purchase date). The difference between the subscription price of the shares and the share price on the date of grant (corresponding to the subscription period closing date) represents the benefit granted to the beneficiaries. Furthermore, Vivendi applies a discount for non-transferability in respect of the restrictions on the sale or transfer of the shares during a five-year period, which is deducted from the benefit granted to the employees. The value of the stock purchase plans granted is estimated and fixed at the grant date.
For the employee stock purchase and leveraged plans subscribed in 2013, 2012 and 2011, the applied valuation assumptions were as follows:

For the Group savings plans and leverage plans subscribed in 2013, 2012 and 2011, the valuation assumptions used are as follows:

	2013	2012	2011
Grant date	June 28	June 25	June 23
Subscription price (in euros)	12.10	10.31	15.27
Data at grant date:			
Share price (in euros)	14.55	13.57	18.39
Discount to face value	16.82%	24.02%	16.97%
Expected dividend yield	6.87%	7.37%	8.16%
Risk-free interest rate	1.19%	1.37%	2.44%
5-year interest rate in fine	6.08%	6.51%	6.15%
Repo rate	0.36%	0.36%	0.36%

Under the employee stock purchase plans 1,505,000 shares were subscribed in 2013 (compared to 1,541,000 shares in 2012 and 1,381,000 shares in 2011). After taking into account a 15.2% discount for non-transferability to the share price on the grant date (15.3% in 2012 and 10.0% in 2011), the fair value per subscribed share on June 28, 2013 was €0.24, compared to €1.18 per share subscribed on June 25, 2012 and €1.28 per share subscribed on June 23, 2011.

Under the leveraged plans, virtually all employees and retired employees of SFR were entitled to subscribe for Vivendi shares through a reserved share capital increase, while obtaining a discounted subscription price, and to ultimately receive the capital gain (calculated pursuant to the terms and conditions of the plan) corresponding to 10 shares for one subscribed share. A financial institution mandated by Vivendi hedges this transaction.

In 2013, 6,225,000 shares were subscribed under the leverage plan (compared to 6,591,000 shares subscribed in 2012 and 4,537,000 shares subscribed in 2011). After taking into account a 1.5% discount for non-transferability measured after the leveraged impact (unchanged in relation to 2012 and 1.0% in 2011), the fair value per share subscribed on June 28, 2013 amounted to €2.23, compared with €3.05 per share subscribed on June 25, 2012 and €2.94 per share subscribed on June 23, 2011.

In 2013, the charge recognized with respect to employee stock purchase and leveraged plans amounted to €14 million (as compared with €22 million in 2012 and €15 million in 2011).

17.1.2. Information on outstanding SFR Plans Based on the Value of Vivendi since January 1, 2011

Equity-settled instruments

	Stock options		Performance shares
	Number of outstanding stock options	Weighted average strike price of outstanding stock options	Number of outstanding performance shares
	(in thousands)	(in euros)	(in thousands)
Balance as of December 31, 2010	**12,688**	**21.6**	**538**
Granted	645	19.9	502
Exercised	(25)	13.9	(152)
Cancelled	(377)	20.3	(42)
Balance as of December 31, 2011	**12,931**	**21.5**	**846**
Granted	495	13.6	552

Balance as of December 31, 2012	**13,710**	**20.6**	**1,058**
Granted	-	N/A	817
Exercised	(734) (a)	14.2	(496)
Forfeited	(85)	12.2	-
Cancelled	(16)	18.2	(6)
Adjusted	1,390	19.4	114
Balance as of December 31, 2013	**14,265** (b)	**19.7**	**1,487** (c)
Exercisable as of December 31, 2013	***12,913***	***20.2***	-
Acquired as of December 31, 2013	***12,913***	***20.2***	-

N/A: not applicable

(a) The weighted average share price for Vivendi shares at the dates of exercise for the options was €16.71 (compared to €16.50 for stock options exercised in 2012 and €20.85 for the stock options exercised in 2011).

(b) The total intrinsic value of outstanding stock options was €17 million.

(c) The weighted-average remaining period before issuing shares was 0.8 years.

Regarding the grant of 50 bonus shares in 2012, the remaining number of bonus shares was 455,000 as of December 31, 2013 (474,000 as of December 31, 2012). During 2013, 19,000 shares were cancelled (26,000 in 2012).

Information on stock options as of December 31, 2013 is as follows:

	Outstanding stock options			Vested stock options	
Range of strike price	Number	Weighted average strike price	Weighted average remaining contractual life	Number	Weighted average strike price
	(in thousands)	(in euros)	(in years)	(in thousands)	(in euros)

Non-current provisions	*173*	*11*	*(34)*	*(1)*	*7*	*156*

(a) Staff benefit schemes: refer to Note 19 – Post-employment benefits

(b) Restructuring: refer to Note 4.2 – Other operating income and expenditure

(c) Site renovation costs: the Group is required to renovate the technical sites of its network upon expiry of the lease, in the event of its non-renewal or in the event of early termination.

(d) Litigation and other: this includes, among other things, provisions whose amount and type are not detailed because their disclosure could harm the Group. The provisions made for litigation cover the risks relating to contentious proceedings instigated against the Group. All provisioned litigation is currently awaiting a hearing or pleadings before a court. The unused part of the provisions recognized at opening corresponds to litigations which have been settled with sums, paid by the Group, that are lower than those provisioned.

The tables of the previous financial years are presented below:

	2012					
(in millions of euros)	Opening Balance	Allocations	Utilization	Recoveries and changes of estimates	Other changes	Closing Balance
Staff benefit schemes	50	7	(0)	(1)	15	72
Restructuring	9	170	(0)	-	(8)	170
Site renovation costs	55	3	(3)	-	10	65

Note 19. Post-Employment Benefits

All employees of the Group benefit from severance pay in accordance with the collective agreement of the company to which they are attached.

19.1. Assumptions used for Evaluation

The actuarial debt is evaluated using the following assumptions:

	2013	2012	2011
Discount rate	3.00%	3.25%	4.50%
Salary increase rate	2.75%	2.75%	2.75%

The demographic assumptions are specific to each company. The discount rate is based on the "iBoxx € Corporates AA" rate.

The proceeds of interest on the hedging assets are determined on the basis of the discount rate.

These hedging assets are invested in the general fund Cardif, which is principally composed of bonds.

19.2. Analysis of Net Benefit obligation under Pensions and Post retirement Benefits

The analysis of the change in net benefit obligations is presented in the tables below:

Changes in the value of Benefit obligations

(in millions of euros)	2013	2012	2011
Benefit obligation at the beginning of the year	73	52	48
Current services cost	7	5	5
Interest cost	2	2	2
Benefits for the period	(0)	(0)	(1)
Scheme reduction (a)	(12)	(1)	-
Settlement	-	-	(0)
Curtailment	-	-	(1)
Actuarial differences (profits) / losses	7	15	(0)
Benefit obligation at the end of year	77	73	**52**
Including commitments not financed	*76*	*71*	*50*
Including commitments totally or partially financed	*0*	*2*	*2*

(a) The scheme reduction of €12 million in 2013 corresponds to the impact of the voluntary redundancy scheme launched by SFR in 2012 (refer to Note 4.2 – Other operating income and expenditure).

Changes to fair value of plan assets

(in millions of euros)	2013	2012	2011
Fair value of plan assets at start of year	3	3	3
Benefits paid by the fund	-	-	(1)
Actuarial differences (profits) / losses on return	-	0	-
Return expected from the hedge funds	0	0	0
Fair value of plan assets at end of year	**3**	**3**	**3**

Net liabilities recorded

(in millions of euros)	2013	2012	2011
Net liabilities recorded at start of year	(70)	(49)	(45)
Expenditure for the period	(9)	(7)	(5)
Benefits reducing commitment	0	0	0
Scheme reduction	12	1	-
Scheme settlement	-	-	0
Actuarial differences profits / (losses) in overall earnings	(7)	(15)	0
Net liabilities recorded at end of year	**(74)**	**(70)**	**(49)**

Value of commitments, fair value of assets and financial sub-hedge over 3 financial years

(in millions of euros)	2013	2012	2011
Value of commitments	77	73	52
Fair value of plan assets	3	3	3
Financial sub-hedge	**74**	**70**	**49**

Sensitivities to the discount rate

An increase of 50 base points to the discount rate expected in 2013 (or a fall of 50 base points) would be reflected in a reduction in the commitment of €7 million (or an increase of €7 million).

19.3. Analysis of the Expenditure Recorded on the Income Statement

Expenditure recorded for defined benefit schemes can be broken down as follows:

(in millions of euros)	2013	2012	2011
Current service cost	7	5	5
Interest costs	2	2	2
Expected return on plan assets	(0)	(0)	(0)
Past services cost	-	-	(1)
Expenditure for the financial year	**9**	7	**5**
Scheme reduction	(12)	(1)	-
Scheme settlement	-	-	(0)
Total expenditure	**(3)**	**6**	**5**

19.4. Actuarial Differences Recorded in Overall Earnings

(in millions of euros)	2013	2012	2011
Actuarial differences from experience	1	-	2
Actuarial differences from assumptions	6	14	(2)
Actuarial differences recorded in overall earnings	7	**15**	-
Actuarial differences accumulated in equity	**21**	**14**	-

The amount of the 2013 actuarial differences relative to the hedging assets is not significant. The amount relative to the commitments is detailed as follows:

(in millions of euros)	Total	Commitment	
Actuarial differences from experience	1	1	1.0%
Actuarial differences from assumptions	6	6	7.7%
Total	7	7	

19.5. Allocation of pension plan assets

The allocation of plan assets is presented in the table hereunder:

	2013	2012	2011
Shares	12.6%	11.4%	11.8%
Bonds	80.7%	78.2%	81.5%
Real estate	6.7%	6.5%	6.1%
Other	0.0%	3.9%	0.6%
Total	**100.0%**	**100.0%**	**100.0%**

Apart from real estate investments, all these assets are exchange-listed.

19.6. Schedule of Post-Employment Benefits

The estimated amount (in nominal value) of the benefits to be paid in the next ten years is as follows:

(in millions of euros)	Under one year	Two to five years	Six to ten years	Total
Estimated benefits payable	0	2	12	**14**

Note 20. Borrowing and Financial Debt

20.1. Analysis of the Expenditure Recorded on the Income Statement

(in millions of euros)	2013	2012	2011
Shareholder debt (a)	1,200	1,200	3,700
Bond loan (b)	-	300	300
Securitization of receivables (c)	-	-	422
Debt relative to finance leasing	8	11	15
Other financial debt	40	50	53
Non-current borrowing and financial debt	**1,248**	**1,561**	**4,490**
Shareholder debt (a)	7,472	6,409	1,761
Bond loan (b)	300	-	996
Bank loan	50	66	48
Debt relative to finance leasing	3	4	9
Other financial debt (d)	20	27	83
Current borrowing and financial debt	**7,846**	**6,506**	**2,896**
Borrowing and financial debt	**9,094**	**8,067**	**7,385**

(a) Shareholder debt: this category corresponds to the financial debt contracted with Vivendi in the form of:

- cash current account: this is an advance on current account granted to the Group by Vivendi in June 2011. This facility was drawn respectively to the level of €7.5 billion, €4.9 billion and €1.8 billion as of December 31, 2013, 2012 and 2011. This advance is denominated almost entirely in euros. The interest rate, which was fixed in accordance with market conditions, has remained fixed since January 1, 2013 (2.79%);
- shareholder loan: these are loans or credit facilities entered into between the Group and Vivendi:
  - o The Revolving Credit facility entered into in January 2011 for €1 billion, bearing interest at the Euribor rate + 2.5%, matured in 2012,
  - o The Revolving Credit facility in the sum of €1.5 billion, entered into in June 2009 at the Euribor interest rate + 2.5%, matured in June 2013,
  - o The loan entered into in December 2011 for €1.2 billion, bearing interest at the Euribor rate + 0.825%, maturity of which is June 2015, was still in force as of December 31, 2013;

(b) Bond loan (net of amortized cost): The Group issued a bond loan of €300 million in July 2009, maturity of which is July 9, 2014, bearing interest at the rate of 5%. Another loan, resulting from several bond issues from 2005 to 2009 for a total of €1 billion, was repaid in full upon maturity in July 2012.

(c) A receivables securitization program was set up in 2011. This program was settled ahead of the original due date in June 2012.

(d) The commercial papers were repaid in full in 2012.

20.2. Breakdown by Interest Rate Type of the Repayment Value of Borrowing and Financial Debt

(in millions of euros)	2013		2012		2011	
Breakdown by type of interest rate:						
Fixed interest rate (after hedge)	7,769	85%	300	4%	1,296	18%
Variable interest rate	1,324	15%	7,767	96%	6,090	82%
Total	**9,094**		**8,067**		**7,385**	

20.3. Breakdown by Maturity of Future Cash Flow linked to Borrowing and Financial Debt

The table below is a schedule of the contractual cash flow of borrowing and financial debt, including interest coupons, on a non-discounted basis. The interest payable is calculated on the basis of the debt as of December 31, 2013. The variable interest rates are the rates applicable as of December 31, 2013.

The effective annual percentage rate over the year 2013 is 2.80%.

		2013		
		Schedule of repayments		
(in millions of euros)	**Book value**	Under one year	Two to five years	Over five years
Shareholder debt	8,672	7,472	1,200	-
Bond loan	300	300	-	-
Borrowing relative to leasing	11	3	6	2
Other financial debts	110	70	33	7
Borrowing and financial debts	**9,094**	**7,846**	**1,239**	**9**

Note 21. Trade Accounts Payable and Other Payables

(in millions of euros)	2013	2012	2011
Trade accounts payable	2,878	2,943	3,114
Customer's credit balances	622	512	478
Tax and social contributions (a)	846	1,028	1,100
Short term prepaid income	524	630	710
Income tax	3	9	6
Other	1	13	4
Trade accounts payable and other payables	**4,874**	**5,136**	**5,412**

(a) As of the end of 2013, tax and social contributions can be broken down principally into the following elements:

- Value-added tax payable: €331 million
- Social contributions: €338 million
- Territorial economic tax (CET): €77 million
- Tax on electronic communications (TCE – Copé): €54 million
- Tax on television services (TST – COSIP): €24 million

Note 22. Other Current and Non-Current Liabilities

(in millions of euros)	2013	2012	2011
Deferred income	309	339	346
GSM license	136	154	172
Uncalled share capital (Numergy)	63	63	-
Other (a)	33	41	114
Other non-current liabilities	**540**	**597**	**633**
Uncalled share capital (Numergy)	16	16	-
Other current liabilities	1	1	3
Other current financial liabilities	**17**	**17**	**3**

(a) In 2011, includes €53 million QTE settled early in December 2012 (refer to Note 12 – Other current and non-current assets).

Note 23. Financial Instruments

23.1. Fair Value of Financial Instruments Recorded in the Balance Sheet and Accounting Categories

The table below presents the net carrying value by category and the fair value of the Group's financial instruments as of December 31, of each year.

		2013						
(in millions of euros)	Note	Assets / liabilities at fair value by earnings	Available-for-sale securities	Loans and receivables	Assets / liabilities at amortized cost	Hedge derivatives	Total net carrying value	Fair value
Assets								
Other non-current financial assets	12	8	12	86			106	106
Derivative instruments	12					2	2	2
Other current financial assets	12	0					0	0
Other non-current operating assets	12				79		79	79
Trade accounts receivable and other	14				2,558		2,558	2,558
Cash and cash equivalents	15	394					394	394
Liabilities								
Non-current borrowings and financial debts	20				1,248		1,248	1,248
Current borrowings and financial debts	20				7,844		7,844	7,851
Derivative instruments	20					2	2	2
Trade accounts payable and other	21				4,874		4,874	4,874
Other non-current liabilities	22				540		540	540
Other current financial liabilities	22				17		17	17

For the record, as of December 31, 2012

(in millions of euros)	Note	2012 Assets / liabilities at fair value by earnings	Available–for-sale securities	Loans and receivables	Assets / liabilities at amortized cost	Hedge derivatives	Total net carrying value	Fair value
Assets								
Other non-current financial assets	12	8	13	63			83	83
Derivative instruments	12					2	2	2
Other current financial assets	12	1					1	1
Other non-current operating assets	12				78		78	78
Trade accounts receivable and other	14				2,544		2,544	2,544
Cash and cash equivalents	15	267					267	267
Liabilities								
Non-current borrowings and financial debts	20				1,561		1,561	1,578
Current borrowings and financial debts	20				6,505		6,505	6,505
Derivative instruments	20					2	2	2
Trade accounts payable and other	21				5,136		5,136	5,136
Other non-current liabilities	22				597		597	597
Other current financial liabilities	22				17		17	17

For the record, as of December 31, 2011

(in millions of euros)	Note	2011 Assets / liabilities at fair value through earnings	Available–for-sale securities	Loans and receivables	Assets / liabilities at amortized cost	Hedge derivatives	Total net carrying value	Fair value
Assets								
Other non-current financial assets	12	8	20	120			148	148
Derivative instruments	12					0	0	0
Other current financial assets	12	2					2	2
Other non-current operating assets	12				1		1	1
Trade accounts receivable and other	14				3,015		3,015	3,015
Cash and cash equivalents	15	228					228	228
Liabilities								
Non-current borrowings and financial debts	20				4,490		4,490	4,504
Current borrowings and financial debts	20				2,895		2,895	2,907
Derivative instruments	20							
Commitments to purchase non-controlling interests	12	1					1	1
Trade accounts payable and other	21				5,412		5,412	5,412
Other non-current liabilities	22				633		633	633
Other current financial liabilities	22				3		3	3

The carrying value of the operating receivables and other, cash and cash equivalents and trade accounts payable and other is a reasonable approximation of fair value, due to the short maturity of these instruments.

The fair value of the borrowings and financial debts is calculated either from the market price for the bond loan or, for the rest of the debt, by discounting future contractual flows, taking account of market conditions as of December 31 each year.

Valuation method for financial instruments at fair value on the balance sheet

In compliance with IFRS 7, financial assets and liabilities at fair value are classified according to a fair value hierarchy at fair value of the financial instruments (level 1 to 3) as follows:

- the fair value of financial instruments exchanged in active markets (for example monetary UCITS) is based on the market price listed on the date of closure. This valuation method is described as level 1 in the hierarchy defined by IFRS 7;

- the fair value of financial instruments not traded in active markets (for example rate swaps) is determined using valuation techniques. The assumptions used can be observed either directly (i.e. such as prices) or indirectly (i.e. determined from prices). This valuation method is described as level 2 in the hierarchy defined by IFRS 7;

- the fair value of the instruments classified in level 3 (for example, available–for-sale securities) is determined using a valuation technique not based on observable market data.

The tables below present the method of valuation used for the financial assets and liabilities at fair value as of December 31, of each year.

	2013			
(in millions of euros)	Fair value	Level 1	Level 2	Level 3
Financial assets at fair value				
Other non-current financial assets	20	8		12
of which cash management assets	*8*	*8*		
available-for-sale securities	*12*			*12*
Derivative instruments	2		2	
Other current financial assets	0	0		
Cash and cash equivalents	394	394		
Financial liabilities at fair value				
Derivative instruments	2		2	

For the record, as of December 31, 2012

(in millions of euros)	Fair value	Level 1	Level 2	Level 3
Financial assets at fair value				
Other non-current financial assets	21	8		13
of which cash management assets	8	8		
available-for-sale securities	13			13
Derivative instruments	2		2	
Other current financial assets	1	1		
Cash and cash equivalents	267	267		
Financial liabilities at fair value				
Derivative instruments	2		2	

For the record, as of December 31, 2011

(in millions of euros)	Fair value	Level 1	Level 2	Level 3
Financial assets at fair value				
Other non-current financial assets	28	8		20
of which cash management assets	8	8		
available-for-sale securities	20			20
Derivative instruments	0		0	
Other current financial assets	2	2		
Cash and cash equivalents	228	228		
Financial liabilities at fair value				
Derivative instruments				
Commitments to purchase non-controlling interests	1			1

23.2. Management of Financial Risks and Derivative Financial Instruments

As part of its business, the Group is exposed to several types of financial risks: market risk, credit (or counterparty) risk and liquidity risk. Market risks are defined as the risks of fluctuation in future cash flow of financial instruments that depend on the changes in financial markets. For the Group, market risks may therefore primarily impact interest rates and foreign currency exchange positions, in the absence of significant investment in the stock markets.

As part of the Vivendi Group as of December 31, 2013, the Group follows group policy with regard to management of financial risks and derivative financial instruments, which is centrally managed by Vivendi's Financing and Treasury department.

The Group uses derivative instruments to manage its exposure to market risks. The valuation of these instruments is not significant over the periods presented.

Valuation linked to the credit risk of derivative instruments is calculated from historic probabilities of default, as resulting from the calculations of a leading ratings agency, to which a recovery rate is applied. As of December 31, 2013, the impact of the adjustment recommended by IFRS 13 was not significant.

23.3. Interest Rate Risk

The exposure of the Group to interest rate risk is linked to its net variable rate financial debt level.

As of December 31, 2013 and as of December 31, 2012, this exposure was not hedged by rate derivative instruments.

Sensitivity analysis to interest rate risk

Sensitivity analysis to interest rate changes for variable rate instruments was determined considering all variable rates of financial instruments. The analysis was conducted assuming that the amounts of debts and financial instruments on the balance sheet as of December 31, 2013 will remain constant over a year. For the purposes of this analysis, all other variables, particularly the exchange rates, are assumed to remain constant.

A change of 50 basis points in the interest rate on date of closure would have resulted in an increase (decrease) in the cost of debt of €7 million.

23.4. Foreign Exchange Risk

To hedge its currency purchases, related in particular to the acquisition of telecoms equipment, the Group uses forward contracts which it buys from the Financing and Treasury department of the Vivendi Group.

As of December 31, 2013, the Group held foreign exchange hedge instruments for a notional amount of 115 million US dollars (USD). All contracts are US dollar (USD) forward contracts with a maturity between 1 and 7 months.

The forward contracts are defined as cash flow hedges. Their ineffectiveness over the period is not significant.

The residual exposure of the Group after hedging the USD fluctuations is barely significant over the financial year. As of December 31, 2013, the exposure to foreign exchange risk on the balance sheet of the Group in USD amounts to 2 million, and is completely hedged.

Sensitivity analysis to foreign exchange risk

As of December 31, 2013, an instant change of 10% of the euro in relation to the dollar would, on the assets and liabilities recorded on the balance sheet, have quite a significant impact on the foreign exchange earnings of the Group. For the purposes of this analysis, all other variables, and in particular the interest rates, are assumed to remain constant.

23.5. Liquidity Risk

The Group manages the liquidity risk by continually supervising the cash flow projections and the actual cash flow. As of December 31, 2013, the financial flexibility of the Group was assured by the current account provided by Vivendi.

A liquidity schedule is detailed in Note 20.3 – Breakdown by maturity of future cash flow linked to borrowings and financial debts.

23.6. Credit and Counterparty Risk

The main financial assets potentially generating a credit risk for the Group are:

- cash investments,
- trade accounts receivable and other .

The maximum exposure of the financial assets to the credit risk corresponds to their net carrying value.

Cash investments and derivative instruments

The Group makes its cash investments (monetary UCITS that meet the specifications of AMF position No. 2011-13, and other short-term highly liquid investments with an original maturity less than or equal to three months) with leading banking counterparties.

As of December 31, 2013:

- cash investments are made with counterparties enjoying high credit ratings,
- derivative instruments, forward purchases of dollars, were bought from Vivendi and not directly from banking partners.

Trade accounts receivable and other

The concentration of the counterparty risk related to trade accounts receivable is limited because the client portfolio of the Group is highly diversified and not concentrated, considering the large number of clients, in particular the Retail business, with several million individual customers.

With regard to the B2B business, the 20 main clients represent less than 3% of the Group's revenues.

With regard to the Wholesale business, revenues are more concentrated, with the biggest clients being telecommunications operators (such as Orange, Bouygues Telecom, Free Mobile) whose risk is moderate considering the interconnection flows equilibrium. Orange, the first client operator, is also the first supplier of the Group.

Note 24. Transactions with Related Parties

The related parties of the Group are:

- All companies included in the scope of combination, whether fully integrated or accounted for by the equity method,
- Vivendi S.A. and its consolidated entities (the "Vivendi Group"),
- The Vodafone Group up to June 16, 2011, when Vodafone sold its 44% holding in SFR to Vivendi S.A.,
- All members of the executive committee of SFR S.A.,
- All companies in which a member of the executive committee exercises control, participates in the joint control, exercises a significant influence, or is one of its principal directors.

The transactions between the companies fully integrated within the scope of combination were eliminated when preparing the combined accounts. The breakdown of operations between the Group and the other related parties is presented below.

24.1. Compensation of the Managers

The managers of the combined group include the members of the executive committee of its main entity SFR S.A.

The table below presents the compensation allocated to the people who were, upon closure or during the financial years presented members of the executive committee.

(in millions of euros)	2013	2012	2011
Short-term benefits (a)	5	6	6
Post-employment benefits (b)	1	1	2
Share-based compensation (c)	3	4	3

Compensation of managers	**8**	**10**	**11**

(a) Includes gross salaries, fixed and variable compensations, profit sharing and benefits in kind recorded during the financial year. The variable part includes bonuses provisioned at closure of the financial year. The 2013 bonus for the corporate representatives will be finally approved later by the Supervisory Board of Vivendi S.A. at the recommendation of the Human Resources Committee of Vivendi S.A.

(b) Corresponds to the cost of services delivered.

(c) Expense recorded on the profit and loss account by way of share option plans and offers reserved to employees.

24.2. The Shareholder Companies and Joint Ventures

Shareholder companies and joint ventures, equity-accounted, are presented in Note 11 – Equity-accounted securities.

Transactions with the related parties summarized below concern the principal current operations undertaken with shareholder companies and joint ventures.

(in millions of euros)	Affiliated companies			Joint ventures		
	2013	2012	2011	2013	2012	2011
Assets	**66**	**54**	**52**	**53**	**24**	**22**
Non-current assets	-	-	-	43	18	17
Current assets	66	54	52	10	6	5
Liabilities	**80**	**79**	**15**	**5**	-	-
Current liabilities	18	16	15	5	-	-
Non-current liabilities	63	63	-	-	-	-
Net earnings	**67**	**76**	**77**	**21**	**20**	**17**
Operating income	67	76	77	25	20	17
Operating expenses	-	-	-	(4)	-	-
Off-balance sheet commitments	**56**	**79**	**70**	**569**	**319**	**303**
Operating	-	-	-	413	228	228
Financial	56	79	70	86	58	50
Pledges	-	-	-	70	34	25

The principal transactions with the equity-accounted companies are with:

- La Poste Telecom as part of telephony business,
- Numergy as part of services relative to “cloud computing”,
- Synerail as part of the GSM-R Public / Private Partnership,
- Foncière Rimbaud (1 to 4) with the Vinci Group as part construction of the registered office of SFR S.A.

(refer to Note 11 – Equity-accounted securities)

24.3. The Historic Shareholders

From 2011 to 2013, the principal operations with the Vivendi Group and the Vodafone Group were as follows:

Financing by Vivendi S.A.

(in millions of euros)	2013	2012	2011
Under balance sheet liabilities			
Shareholder debt (a)	8,673	7,609	5,461
On the profit and loss account			
Interest linked to shareholder debt	(212)	(170)	(87)

(a) The breakdown of the shareholder debt is presented in Note 20 – Borrowings and financial debts.

Services billed by Vivendi S.A.

(in millions of euros)	2013	2012	2011
Head office costs	(15)	(28)	(26)
Employee benefits	(26)	(32)	(23)
Staff on secondment	(7)	(6)	(6)
Services billed by Vivendi	**(48)**	**(66)**	**(55)**

Operations carried out with the Vodafone Group from January 1 to June 16, 2011

Cooperation with Vodafone: in 2003, Vodafone and SFR S.A. entered into an agreement which enabled them to intensify their cooperation and increase their scale economies in several areas: development and launch of new products and services, reinforcement of operating synergies, notably with regard to purchasing (notably IT and technology) and the sharing of expertise.
SFR S.A. recorded an expense of €21 million for this agreement as of June 30, 2011.
The cooperation agreement with Vodafone was maintained following Vodafone's exit from the share capital of SFR S.A., but no longer falls within the scope of affiliated operations.

Interconnection flow with subsidiaries of the Vodafone Group: as part of the rebilling of flow ("roaming in" and "roaming out"), on June 30, 2011 the Group recorded an income of €23 million and an expense of €13 million vis-à-vis the Vodafone Group.

Other operations undertaken with subsidiaries of the Vivendi Group

(in millions of euros)	2013	2012	2011
Total income	25	24	13
Total expenses	(49)	(61)	(57)

The Canal +, UMG and Maroc Telecom Groups are consolidated within the Vivendi Group. These operations fall within the current business of the Group.

Note 25. Contractual Commitments

The significant contractual commitments made or received by the Group are detailed hereunder:

25.1. Commitments related to Fixed Assets

The amount of contractual commitments for the acquisition of tangible and intangible assets amounted to €888 million as of December 31, 2013. This amount includes commitments linked to the rollout of telecommunications networks.

The schedule of these commitments is as follows:

		Schedule				
(in millions of euros)	Minimum future payments	Under one year	Two to five years	Over five years	2012	2011
Commitments related to Public Service Concessions	72	27	22	23	262	336
Commitments related to MDPA (a)	216	19	99	99	8	-
Other investments (b)	600	582	19	-	702	1,776
Investment commitments	**888**	**628**	**139**	**122**	**972**	**2,112**

(a) Commitments related to the rollout of the FTTH (Fiber-To-The-Home) within the less dense areas

(b) In 2011, the amount includes the commitment to acquire the LTE license, in the amount of €1,065 million.

25.2. Commitments related to the Telecommunications Licenses

	Commitments given	**Amount**	**Maturity**
(a)	UMTS license on French territory	1% of revenues generated	2021-2030
(a)	GSM license on French territory	1% of revenues generated	2021
(a)	LTE license on French territory	1% of revenues generated	2031-2032
(b)	3G network coverage	Not costed	2013
(c)	4G network coverage	Not costed	2023-2027

	Commitments received	**Amount**	**Maturity**
(a)	Network operating and telecommunications service provision authorizations on French territory	Not costed	2021 / 2032

(a) The Group is the holder of operating authorizations for its networks and for the provision of telecommunications services in France, under the following financial conditions:

- payment of a fixed part, either recorded in debt (GSM) or paid at the time of allocation (UMTS and LTE),
- payment of a variable part corresponding to 1% of the revenues generated by these licenses.

(refer to Note 1.3.7 – Intangible assets; Note 9 – Intangible assets).

(b) On November 30, 2009, the ARCEP called on the Group to comply with its obligations to roll out the UMTS networks no later than December 31, 2013, which were to provide a rate of cover of the metropolitan population of 99.3%.
As of December 31, 2013, with 99.3% of the population covered, the Group had fulfilled its coverage obligations.

(c) Within the framework of allocation of the first block of LTE frequencies in October 2011, the Group undertook to respect the rollout obligations for very high-speed mobile in accordance with the timeline below:

- 25% of the metropolitan population by 11 October 2015,

  - 60% of the metropolitan population by 11 October 2019,
  - 75% of the metropolitan population by 11 October 2023.

These coverage obligations may be met by the use of 2.6 GHz frequencies or through the use of other frequencies held by the Group.

Through Decision No. 2012-0039 of the ARCEP dated January 17, 2012, the Group was allocated 2*10 MHz in the 800 MHz band for the sum of €1,065 million. The commitments linked to this allocation are as follows:

- The Group undertook to fulfill the following obligations for rollout of very high-speed mobile:
  - coverage of 98% of the metropolitan population by January 17, 2024 and 99.6% of the metropolitan population by January 17, 2027;
  - coverage in the priority rollout area (around 18% of the metropolitan population and 63% of the territory): the Group must cover 40% of the population of this priority rollout area by January 17, 2017 and 90% of the population of this same area by January 17, 2022;
  - departmental coverage: the Group must cover 90% of the population of each French département by January 17, 2024 and 95% of the population of each département by January 17, 2027.
- SFR and Bouygues Telecom have a mutual obligation to share the network or share frequencies in the priority rollout area.
- The Group has an obligation to host Free Mobile roaming in the priority rollout area when it has covered 25% of the French population with its own network at 2.6 GHz, and if it has not signed a national roaming agreement with another operator.
- The Group must cover, jointly with the other holders of the 800 MHz band, the town centers identified by the public authorities within the framework of the "white areas" program (above 98% of the population) within a maximum period of 15 years.

25.3. Commitments linked to operating lease agreements

The amount of the minimum future rents for operating lease agreements is detailed in the table hereunder:

(in millions of euros)	Minimum future rents	Schedule Under one year	Schedule Two to five years	Schedule Over five years	2012	2011
Land	5	0	2	3	4	5
Buildings	1,842	287	899	656	1,701	1,560
of which administrative premises	*566*	*61*	*206*	*299*	*521*	*585*
technical premises	*1,273*	*226*	*692*	*356*	*1,181*	*952*
Other	159	44	67	48	146	168
Rentals	**2,006**	**331**	**968**	**707**	**1,851**	**1,732**
Buildings	(216)	(40)	(101)	(75)	(109)	(41)
Of which technical rents	*(216)*	*(40)*	*(101)*	*(75)*	*(109)*	*(41)*
Sub-leases	**(216)**	**(40)**	**(101)**	**(75)**	**(109)**	**(41)**
Net Total	**1,790**	**291**	**867**	**632**	**1,742**	**1,691**

The total amount of future technical rents includes rights of way and rents linked to the use of fiber optics. The amount of the net rents recognized for 2013, 2012 and 2011 respectively is €284 million, €276 million and €277 million.

The future finance leasing rent amounts are presented in Note 10.3 – Tangible assets.

25.4. Commitments related to Long-Term Contracts

Commitments related to long-term contracts principally concern contracts for maintenance of the telecommunications network.

(in millions of euros)	Minimum future payments 2013	Schedule Under one year	Schedule Two to five years	Schedule Over five years	2012	2011
Given commitments	178	62	79	37	172	63
Received commitments	(127)	(14)	(50)	(63)	-	(80)
Total	**51**	**48**	**29**	**(25)**	**172**	**(17)**

25.5. Other Commitments

	(in millions of euros)	2013	Schedule	2012	2011
(a)	GSM-R bank guarantees, joint and several guarantees	105	According to construction	92	66
	Other bank guarantees	65	2026	64	90
(b)	Share purchase commitments	16	2026	16	18
	Pledges	84	2017	51	46
	Given commitments	**269**		**223**	**219**
	Other bank guarantees	(1)		(1)	(1)
	Received commitments	**(1)**		**(1)**	**(1)**

(a) This is the Public / Private Partnership (PPP) between the Groups SFR, Vinci, AXA and TDF with Réseau Ferré de France (RFF). (Refer to Note 11 – Equity-accounted securities).

(b) The Group has made unilateral promises to buy back the stakes of a minority financial partner within certain entities. These promises may only be carried out in the event that the entities of the Group do not respect the contractual commitments made upon entering into the shareholders' agreements.

25.6. Employees' Individual Right to Training (DIF)

Law No. 2004-391 of May 4, 2004 on professional training and social dialogue created, for permanent employees, an individual training entitlement of a minimum of 20 hours per year, which can be accumulated over a period of six years but limited to 120 hours. The total volume of training hours corresponding to the rights acquired under the DIF at end 2013, 2012 and 2011 is estimated respectively at 1,184,635 hours, 1,194,180 hours and 1,117,215 hours.

25.7. Contingent Assets and Liabilities

Following the successful takeover bid of June 2008 which enabled the Group to acquire a 96.41% stake in Neuf Cegetel, the Group initiated a squeeze-out procedure for the outstanding shares of Neuf Cegetel. The amounts set aside as compensation for Neuf Cegetel shares, which have not been claimed by the depositary institutions on behalf of rights holders, will be retained by the CACEIS Corporate Trust for ten years from the initiation date of the squeeze-out procedure(June 24, 2008). After this date they will be transferred to the Caisse des Dépôts et Consignations. These funds may be claimed at any time by rights holders subject to the French government's thirty-year prescription period.

Note 26. Litigation

In the normal course of its business, SFR is subject to various lawsuits, arbitrations and governmental, administrative or other proceedings (collectively referred to herein as "Legal Proceedings").

The costs which may result from these proceedings are only recognized as provisions when they are likely to be incurred, and when the obligation can be reasonably quantified or estimated, in which case, the amount of the provision represents our best estimate of the risk, provided that we may, at any time, reassess such risk if events occur during such proceedings.

To the company's knowledge, there are no Legal Proceedings or any facts of an exceptional nature, including to the company's knowledge, any pending or threatened proceedings in which it is a defendant, which may have or have had during the previous twelve months a significant impact on the company's and on its group's financial position, profit, business and property, other than those described below.

All material Legal Proceedings in which SFR is a plaintiff or a defendant are disclosed in this note.

Complaint of Bouygues Telecom against SFR and Orange concerning the call termination and mobile markets

Bouygues Telecom brought a claim before the French Competition Council against SFR and Orange for certain alleged unfair trading practices on the call termination and mobile markets ("price scissoring"). On May 15, 2009, the French Competition Authority (the "Competition Authority") resolved to postpone its decision on the issue and remanded the case for further investigation. On December 13, 2010, SFR was heard on these allegations by the instructing magistrate. On August 18, 2011, SFR received a notification of grievances in which the Competition Authority noted the existence of abusive price discrimination practices. On December 13, 2012, the Competition Authority fined SFR €66 million. SFR appealed against this decision. The case was argued before the Paris Court of Appeal on February 20, 2014.

Following the decision of the Competition Authority of December 13, 2012, Bouygues Telecom, OMEA and El Telecom (NRJ Mobile) brought a claim before the Paris Commercial Court against SFR for damages suffered. They are seeking damages of €623.6 million, €67.9 million and €28.6 million, respectively. SFR strongly disputes the validity and amount of these claims, which Vivendi believes cannot, in any case, exceed €250 million in total. Pending the decision of the Paris Court of Appeal, the mediation process underway in the Paris Commercial Court between Bouygues Telecom and has been suspended.

Complaint against Orange before the French Competition Authority (NRA ZO)

On December 9, 2009, SFR and SFR Collectivités brought a claim before the French Competition Authority against Orange for unfair practices.
Following the filing of this claim, SFR brought a claim for damages before the Paris Commercial Court of (NRA ZO) against Orange.

Complaint against Orange before the Paris Commercial Court (call termination – call origination)

On February 22, 2010, SFR brought a claim against Orange seeking the rescindment of the Orange call origination charge for the period 2006-2007 and its replacement by a charge that is 2% lower for 2006 and 15% lower for 2007.

Complaint by Orange Réunion, Orange Mayotte and Outremer Telecom against SRR

On June 6, 2009, Orange Réunion, Orange Mayotte and Outremer Télécom notified the French Competition Authority about alleged on-net/off-net pricing discrimination practices implemented by SRR on the mobile market in Mayotte and Réunion.

On September 16, 2009, the French Competition Authority (the "Competition Authority") imposed protective measures on SRR, pending its decision on the merits. Following this decision, on June 17, 2013, Outremer Telecom filed a claim before the Paris Commercial Court against SFR and SRR in respect of the consumer market and the business market for damages it claims to have suffered as a result of the practices reported in the notification to the Competition Authority. The Court has issued a stay of these proceedings. On July 12, 2013, SRR received a notification of grievances concerning its practices on the consumer market and did not contest it. The amount of the fine to be imposed on SRR is currently under review by the Competition Authority.

Complaint against Orange before the French Competition Authority
On August 9, 2010, SFR filed a complaint before the French Competition Authority against Orange for anti-competitive practices on the professional mobile market.

Complaint of Orange against SFR before the Paris Commercial Court (overflow case)

In a complaint filed on August 10, 2011, Orange asked the Paris Commercial Court to compel SFR to immediately stop its practices of unfair "overflow" and to order SFR to pay the sum of €309.5 million in penalties established by mutual agreement. SFR is accused of having deliberately organized the overflow onto the Orange network for the purpose of optimizing the economic performance of its own network (undersizing of "PDB" /["BPN"] commands). On December 10, 2013, the Court ordered SFR to pay €22.1 million to Orange. SFR and Orange have appealed this decision.

SFR against Orange: abuse of dominant position on the secondary residence market

On April 24, 2012, SFR filed a complaint before the Commercial Court of Paris against Orange for practices constituting an abuse of its dominant position on the retail market for mobile telephony services to non-residential customers, and seeking damages of between €122 million and €129 million.
On February 12, 2014, the Commercial Court of Paris ordered Orange to pay €51.4 million to SFR for abuse of its dominant position on the secondary residence market.

Free against SFR: unfair competition for non-compliance with provisions inherent to consumer credit in respect of offers with subsidies

On May 21, 2012, Free filed a complaint before the Paris Commercial Court against SFR. Free is challenging the subsidy model associated with SFR's *Carrée* offerings sold over the Internet from June 2011 to December 2012, claiming that it constitutes a consumer credit mechanism and as such, SFR is guilty of unfair practices, by not respecting the provisions inherent to consumer credit including providing prior information to customers. Free has asked, among other things, that the Paris Commercial Court compel SFR to inform its customers, and to award damages of €29 million. On January 15, 2013, the Paris Commercial Court dismissed all of Free's claims and awarded SFR the sum of €0.3 million in damages. On January 31, 2013, Free appealed this decision.

UFC against SFR: abusive clauses

On June 7, 2012, the French Federal Union of Consumers (UFC) filed a complaint before the Paris Court of First Instance (Tribunal de Grande Instance*)* against SFR alleging that the general conditions of use of SFR's *La Carte* offering contain abusive clauses. The UFC is seeking the removal of these clauses and damages.

SFR against Orange (ZND case)

On November 26, 2012, SFR notified the French Competition Authority about practices constituting an abuse of dominant position on the retail high-speed internet access market in non-unbundled areas.

CLCV summons against SFR

On January 7, 2013, the French consumer protection association, CLCV (Consumption housing and quality of life) filed a complaint before the Paris Tribunal of First Instance against SFR.

The CLCV considers certain clauses contained in the general conditions of subscription of SFR (as well as those of other telephone operators) to be abusive and is seeking the removal of such clauses. It is also seeking compensation for the collective loss.

Employee litigation arising from the transfer of customer relations centers in Toulouse, Lyon and Poitiers

Following the transfer of the customer relations centers located in Toulouse and Lyon to the company Infomobile, and of the center in Poitiers to a subsidiary of the Bertelsmann Group, former employees of these sites filed complaints with the industrial tribunals (Conseils des Prud'hommes) of each of these cities, claiming unfair execution of their employment contracts and fraudulent breach of Article L.1224-1 of the French Labor Code and of the legal provisions relating to dismissal on economic grounds. The findings of the courts on this issue in 2013 were not consistent; the Toulouse Court of Appeal sanctioned the SFR and Téléperformance groups in half the cases, while the courts of Lyon and Poitiers rendered judgments which were favorable to SFR. The cases are at different stages of proceedings: industrial tribunal, Court of Appeal and Supreme Court.

Disputes with independent distributors (Consumers and SFR Business Team)

SFR, like other companies that use an indirect distribution model, faces complaints by its distributors, and almost systematically, by its former distributors. These recurring disputes concern the abrupt termination of the contractual relationship, the abuse of economic dependency and/or requests for reclassification of a distributor as commercial agent, and, more recently, applications for reclassification of a manager as a branch manager and reclassification of the employment contracts of the employees working at these points-of-sale as employment contracts with SFR . Following several adverse rulings of the Supreme Court in relation to the status of branch managers, various Courts of Appeal have recently issued a number of decisions favorable to SFR. With regard to the reclassification of employment and sales contracts in these disputes, apart from a few exceptions, SFR has benefited from favorable case law.

(1) FC = Full combination; EA = Equity-Accounted; nc = not combined

At December 31, 2011, there remained one Dutch company (SPADIX BV) specifically created under the lease / sublease agreements entered into in 2001, in which the combined group has no shareholding. This company departed from the scope of combination in 2012.

Note 28. Subsequent Events

On January 31, 2014, SFR and Bouygues signed a strategic network sharing agreement. The two operators are to roll out a new shared mobile network over an area covering 57% of the population. This agreement will enable both operators to improve their mobile coverage and generate significant savings. The agreement is effective upon signature with the creation of a joint venture, and the shared network is expected to be completed by the end of 2017. This agreement had no impact on the combined financial statements as of December 31, 2013. Pending its implementation, this agreement represents a net commitment received by SFR of approximately €460 million, which applies over the entire duration of the long-term agreement.

On February 13, 2014, Vivendi announced it had entered into exclusive negotiations with the Belgacom Group in order to acquire 100% of the shares of Groupe Telindus France. Groupe Telindus France is one of the leaders in the French telecoms integration and ICT (Information and Communication Technology) market, and is the leading Cisco distributor in France. Telindus France aims to reinforce the Vivendi French telecoms segment alongside SFR, which will thus considerably strengthen its presence on the adjacent market of telecoms integration and will enable to offer new services to its corporate clients in addition to the offers from SFR Business Team.

Within the framework of its public service outsourcing activity since 2004 in Oise dèpartement, the Group has committed to launching a new project "Oise THD" ("Oise Very High Speed Internet") for the operation and marketing of 280,000 FTTH outlets. The contract is to be signed in March 2014. The total commitment should amount to €125 million over 15 years.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders of Orange Dominicana

We have audited the accompanying balance sheets of Orange Dominicana (the "Company") as of December 31, 2013 and 2012, and the related statements of income, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in conformity with International Financial Reporting Standards ("IFRS") as issued by the IASB.

1 Description of business and basis of preparation of the standalone financial statements

1.1 Description of business

Orange Dominicana, S.A. (hereafter called "ODO"), a Company incorporated in accordance with the Dominican Republic laws, began operations on November 13th, 2000. ODO is an indirectly wholly owned subsidiary of Orange S.A., French listed Company.

ODO operates under a service concession agreement for the operation of telecommunications services.

ODO provides consumers, businesses and other telecommunication operators with a wide range of services including mobile telecommunications, data transmission and other value-added services.

1.2 Basis of presentation and purpose of the financial statements

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs).

The principles applied to prepare financial data are based on:

- All standards and interpretations compulsory as of December 31, 2013;
- The recognition and measurement alternatives allowed by the IFRSs:

Standard		Alternative used
IAS 2	Inventories	Measurement of inventories determined by the weighted average unit cost method.
IAS 16	Property, Plant and Equipment	Measurement at amortized historical cost
IAS 38	Intangible Assets	Measurement at amortized historical cost

- The available exemptions regarding the retrospective application of IFRSs at the transition date (January 1, 2004 for ODO):

Standard		IFRS 1 alternative used
IAS 16	Property, Plant and Equipment	Measurement of property, plant and equipment and intangible assets at historical cost
IAS 38	Intangible Assets	

In the absence of any accounting standard or interpretation, management uses its judgment to define and apply an accounting policy that will result in relevant and reliable information, such that the financial statements:

- Present fairly the ODO's financial position, financial performance and cash flows;
- Reflect the economic substance of transactions;
- Are neutral;
- Are prepared on a prudent basis; and
- Are complete in all material respects.

1.3 Standards and interpretations compulsory after December 31, 2012 with no early application elected by ODO.

IFRS 13—Fair value measurement—defines fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurements, including the fair value hierarchy already set out in

1 Description of business and basis of preparation of the standalone financial statements (Continued)

IFRS 7. This standard is applicable prospectively and has no expected effect on the fair value currently measured by ODO.

1.4 Use of estimates and judgment

In preparing ODO's financial statements, the management makes estimates, insofar as many elements included in the financial statements cannot be measured with precision. These estimates are revised if the underlying circumstances evolve or in light of new information or experience. Consequently, estimates made at December 31, 2013 may subsequently be changed.

ODO's management also uses its judgment to define appropriate accounting policies to apply to certain transactions when the current IFRS standards and interpretations do not specifically deal with related accounting issues.

The underlying assumptions used for significant estimates are outlined below:

Estimate		Nature of estimate
Note 2.3	Revenue	Identification of separable components of a bundled offer based on the individual components relative fair value period of straight-line recognition of revenue relating to invoiced service access fees depending onthe nature of product and historical contractual relationship. Reporting of revenue on a net versus gross basis (depending on an analysis of the ODO's involvement as either principal or agent).
Note 2.5	Purchases and other expenses	Provision for claims and litigation: assumptions underlying legal assessment and risk measurement.
Note 2.10.2	Property, plant and equipment, intangible assets	Assessment of assets' useful life based on assessment of the technological, legal or economic environments.
Note 2.11	Income tax ISR	Assumptions used for the computation of the income tax charge to be recorded in the financial statements, together with the technical merit of tax positions. Assumptions used for recognition of deferred tax assets arising.

2 Accounting policies

2.1 Financial statements preparation principle

Income statement

Expenses are presented in the income statement based on their nature.

Operating income corresponds to net income before:

- Finance income;
- Finance costs;
- Income tax (current and deferred taxes).

2 Accounting policies (Continued)

Statement of financial position

Current and non-current items are presented separately in the statement of financial position: assets and liabilities with a term of no more than twelvemonths are classified as current whereas, assets and liabilities with a term of more than twelve months are classified as non-current.

Statement of cash flows

The statement of cash flows is reported using the indirect method starting with the net income and is broken down into three categories:

- Cash flows arising from operating activities (including finance costs and income taxes);
- Cash flows arising from investing activities (mainly purchase and disposal of intangible and tangible assets);
- Cash flows arising from financing activities (dividends paid).

2.2 Foreign operations

The amounts in financial statements are expressed in Dominican pesos. All of the amounts of assets and liabilities in foreign currency are translated into Dominican pesos, at the rate in effect of the date of the financial statements. Transactions of revenues, expenses and others, occurred during current years are translated at the rate in effect on the date of the transaction. Gain and losses resulting from the differences between exchange rates are included as other income (expenses) in the accompanying income statements.

As of December 31, 2013 and 2012, the exchange rates used to exchange the amounts in foreign currency were RD$42.78 and RD$40.25 per US$1.00, respectively for cash, accounts receivable and accounts payable; Euro rate is RD$59.52 and RD$53.78 per €1.00, respectively.

2.3 Revenues

Revenues from ODO's activities are recognized as follows:

2.3.1 Separable components of bundled offers

Certain service offers include two components: an equipment component (e.g. a mobile handset) and a service component (e.g. a talk plan). For the sale of multiple products or services, ODO evaluates all deliverables in the arrangement to determine whether they represent separate units of accounting. A delivered item is considered a separate unit of accounting if (i) it has value to the customer on a standalone basis and (ii) there is objective and reliable evidence of the fair value of the undelivered item(s). The total fixed or determinable amount of the arrangement is allocated to the separate units of accounting based on its relative fair value. However, when an amount allocated to a delivered item is contingent upon the delivery of additional items or meeting specified performance conditions, the amount allocated to that delivered item is limited to the non-contingent amount. This case arises when selling bundled offers that include a handset sold at a discounted price and a telecommunications service contract.

The handset is considered to have value on a standalone basis to the customer, and there is objective and reliable evidence of fair value for the telecommunications service to be delivered. As the amount allocable to the handset generally exceeds the amount received from the customer at the date the handset is delivered, revenue recognized for the handset sale is generally limited to the amount of the arrangement that is not contingent upon the rendering of telecommunication services, i.e. the amount paid by the customer for the handset.

2 Accounting policies (Continued)

For offers that cannot be separated into identifiable components, revenues are recognized in full over the life of the contract. The main example is connection to the service: this does not represent a separately identifiable transaction from the subscription and communications, and connection fees are therefore recognized over the average expected life of the contractual relationship.

2.3.2 Equipment sales

Revenues from mobile sales are recognized when the significant risks and rewards of ownership are transferred to the buyer.

When equipment—associated to the subscription of telecommunication services—is sold by a third party retailer who purchases it from ODO and receives a commission for signing up the customer, the related revenue is:

- Recognized when the equipment is sold to the end-customer;
- Measured by ODO taking into account the best estimate of the retail price and any subsidies granted to the retailer at the time of the sale and passed on to the end-customer in the form of a rebate on the equipment.

2.3.3 Service revenues

Considerations from telephone service are recognized in revenue on a straight-line basis over the subscription period.

Revenue for airtime usage and messaging bý customers is recognized as services are performed, with unbilled revenue resulting from services already provided accrued at the end of each period and unearned revenue from services to be provided in future periods deferred. Revenue from the sale of prepaid credit is deferred until such time as the customer uses the airtime, or the credit expires.

2.3.4 Loyalty programs

Points awarded to customers are treated as a separable component to be delivered in the transaction that triggered the acquisition of points. Part of the invoiced revenue is allocated to these points based on their fair value taking into account an estimated utilization rate, and deferred until the date at which the points are definitively converted into benefits. Fair value is defined as the excess price over the sales incentive that would be granted to any new customer. This principle Is applied for both types of loyalty programs that exist within ODO, those with and those without a contractual renewal obligation.

2.4 Trade receivables

The trade receivables are mainly short-term, bearing no interest rate and measured at original invoice amount.

The valuation allowance on trade receivables is determined as follows:

- **For mobile telephone services:** The allowance is computed based on expected loss rates depending upon their aging. These rates are reviewed and adjusted periodically. When a client is determined to be in bankruptcy or subject to equivalent judicial proceedings, the associated receivables are then excluded from the statistical database and individually written-off;
- **For dealers, wholesalers, interconnection (local and roaming) and carriers:** The impairment loss is determined on a case by case analysis based on the ODO's experience.

2 Accounting policies (Continued)

2.5 Purchases and operating expenses

Subscriber acquisition and retention costs

Subscriber acquisition and retention costs, other than loyalty programs costs, are recognized as an expense for the period in which they are incurred.

Advertising and sponsoring costs

Advertising, promotion, sponsoring, communications and brand marketing costs are expensed as incurred.

Financing expenses

Expenses from commissions, foreign currency exchange and other financing expenses are recorded with charge to the period result.

2.6 Inventories

The inventories comprise mainly mobile handsets either located in ODO's premises or at distributors until the customer service activation.

The inventories are stated at the lower of cost or net realizable value taking into account expected revenues from the sales of mobile phones. Cost corresponds to purchase cost determined using the weighted average cost method.

2.7 Trade payables

Payables are recorded at their nominal value.

2.8 Provisions and contingent liabilities

2.8.1 Provisions

In the ordinary course of business, ODO is involved in certain legal and arbitration proceedings and administrative actions.

The costs which may result from these proceedings are accrued when ODO has a present obligation towards a third party and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of that liability can be quantified or estimated within a reasonable range. The amount of provision recorded is based on a case-by-case assessment of the risk level, and events arising during the course of legal proceedings may require a reassessment of this risk.

2.8.2 Contingent liabilities

Contingent liabilities are:

- Possible obligations that are not recognized because their existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within ODO's control; or
- Present obligations arising from past events that are not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or because the amount of the obligation cannot be measured with sufficient reliability.

2 Accounting policies (Continued)

2.9 Employee benefits

Labor costs are expensed as incurred including social costs contributed by the Company in accordance with the law 87-01.

This law establishes that the employer will contribute to the financing of the contributing regime, as much for old aged insurance; handicaps (AFP) with 7.10% and family health (SFS) with 7.09% based on the wages and the employee will cover 2.87% and 3.04% respectively.

Employees are not provided with postemployment benefits.

2.10Intangible assets, property, plant and equipment

2.10.1 Intangible assets

Intangible assets comprise mainly licenses for software and international telecommunication, frequency rights and Indefeasible Rights of Use (IRUs).

IRUs acquired by ODO correspond to the right to use cable or capacity transmission cable granted for a fixed period. They are recognized as an asset when ODO has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life.

2.10.2 Property, plant and equipments

Property, plant and equipment comprised mainly network equipment.

The gross value of tangible assets corresponds to their acquisition or production cost, including costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Due to 2004 and 2005 hyperinflation in Dominican Republic, ODO restated its 2004 and 2005 financial statements applying IAS 29 *Financial Reporting in Hyperinflationary Economies* and adjusted consequently the gross value of assets with the corresponding balance within Shareholders' equity (i.e. Hyperinflation reserve).

The cost of networks includes design and construction costs. Maintenance and repair costs are expensed as incurred, except where they increase the asset's productivity or extend its useful life.

2.10.3 Depreciation

Assets are depreciated, generally with no residual value, on a basis that reflects the pattern in which their future economic benefits are expected to be consumed. The straight-line basis is usually applied. The

2 Accounting policies (Continued)

useful lives are reviewed annually and are adjusted if current estimated useful lives differ from previous estimates: these changes in accounting estimates are recognized prospectively.

Main assets categories	Useful Lives in Years
Licences	3 - 5
Frequencies	10 - 15
IRU (Indefeasible rights of use)	10 - 15
Buildings	30
Antennas and technical equipment installed (sites)	8 - 28
Other technical equipment	3 - 8
Office material and software	3 - 5
Office furniture and equipment	5 - 10
Leased improvements	10

2.10.4 Dismantling

ODO is required to dismantle equipment and restore sites.

The provision is based on dismantling costs (on a per-unit basis for telephone poles, terminals and public phones, and on a per-site basis for mobile antennae) incurred by ODO to meet its environmental commitments and annual estimated asset dismantling and site restorations. The provision is assessed on the basis of the identified costs for the current financial year, extrapolated for future years using the best estimate of the commitment settlement. It is discounted at a risk-free rate. This estimate is revised annually and adjusted where appropriate against the asset to which it relates.

2.11Financial instruments

The International Financial Reporting Standards (IFRS) require the disclosure of the estimated value of financial instruments, when it is practical to estimate their fair market value. The method and assumptions used to estimate the fair value of the active financial instruments like cash and cash equivalents, trade accounts receivable and payable, consisted in the approximate book value given the short expiration time of these instruments.

2.12Income tax

Current tax is measured by ODO at the amount expected to be paid or recovered from the taxation authorities, based on its interpretation with regard to the application of tax legislation.

Deferred taxes are recognized for all temporary differences between the book values of assets and liabilities and their tax basis, using the liability method. Deferred tax assets are recognized only when their recovery is considered probable.

Deferred tax assets and liabilities are not discounted.

At reporting period end, ODO reviews the recoverable amount of the deferred tax assets.

In accordance with these principles, ODO calculates the tax assets, liabilities and accruals recognized in the statement of financial position based on the technical merits of the positions it defends versus that of the tax authorities.

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the assets will be realized and the liabilities settled on the basis of tax rates in force or substantially in force at the period end.

2.13Cash and cash equivalents

Cash and cash equivalents are defined as cash on hand, demand deposits and short-term investments with original maturity at the date of acquisition of three month or less.

3 Financial risk management

The Company is exposed to the following risks related to the use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

3.1 Credit Risk

It is the risk of financial loss of the company if a client or the counterpart of a financial instrument, do not fulfill its contractual obligations. It comes from Cash and Receivables accounts mainly. This risk is primarily impacted by the quality and characteristics of every client.

The revenues of the Company are the results from the telecommunication services and the sale of mobiles. Accounts receivable arise with the billing to our customers and sales to wholesalers and distributors.

The company estimates the potential losses on the trade receivable accounts and other receivables based on specific components related to individual characteristics for which there is a reserve for bad debt.

3.2 Liquidity Risk

It is the risk that the company does not meet its financial obligations when dues. The policy of the company in regards to the management of the liquidity risk is to have, to the extent possible, sufficient liquidity to redeem all the current liabilities at their corresponding maturities, under normal circumstances as well as in economic crisis also without having to incur in unacceptable losses or risk damaging the company's reputation.

3.3 Market Risk

It is the risk of changes in the market price (or rates) such as exchange rates of foreign currency and interest rates that might have an impact on the net results or the value of the financial instruments owned by the company. The objective of this management is to control the exposure to this risk within acceptable parameters while improving the return of this risk.

The company is exposed to the foreign exchange risk in the purchase of goods and services denominated in dollars (US$) and euros (EUR), which are currencies different from the reporting currency of the company, as well as for keeping assets and liabilities in those currencies without having a financial instrument to cover the exchange risk.

4 Revenues

A detail of revenues as of December 31,2013 and 2012 is as follows:

	2013	2012
Mobile	20,503,053,000	19,436,051,000
Wholesale	1,815,813,000	1,662,445,000
Internet	644,159,000	507,036,000
Equipment	1,151,349,000	866,134,000
Other	290,350,867	282,707,505
	24,404,724,867	22,754,373,505

5 Trade receivables

A detail of the trade receivables as of December 31,2013 and 2012 is as follows:

	2013	2012
Customers (gross)	2,293,630,201	2,424,943,725
Provision for doubtful accounts	(460,743,090)	(487,534,820)
Customers (net of provision)	**1,832,887,111**	**1,937,408,905**

A detail of accounts receivables with an aging as of December 31, 2013 and 2012 is as follows:

	2013	2012
Not due or less than 30 days	1,438,538,202	1,251,365,210
Between 30 and 60 days	238,936,495	654,176,575
Between 60 and 90 days	106,597,280	181,345,679
More than 90 days	509,558,224	338,056,261
	2,293,630,201	**2,424,943,725**

ODO 2012 figures have been restated in order to make possible the comparability between years 2013 and 2012. The restatement consisted in a netting between the trade receivables and the trade payables for an amount of RD$633,372,811.

6 Other receivables

A detail of the other receivables as of December 31, 2013 and 2012 is as follows:

	2013	2012
Advances to suppliers	171,599,490	296,156,659
VAT	216,507,994	158,393,560
Cash pooling—current account	2,566,699,740	135,623,414
Others	17,707,835	39,281,085
	2,972,515,059	**629,454,718**

7 Deferred Income

A detail of deferred income as of December 31, 2013 and 2012 is as follow:

	2013	2012
Prepaid telephone cards	906,677,451	768,069,643
Loyalty program	481,072,839	511,072,839
Monthly fee	119,517,977	130,045,686
Handsets	91,950,897	237,384,310
Sim cards	(1,915,891)	68,415,160
	1,597,303,273	1,714,987,638

8 Cost of equipment sold

The costs of equipment sold comprise purchases of handsets and other Sim and phone cards, as well as all costs directly attributable to them (mainly import duties and freight charges). A detail of cost of equipment sold as of December 31, 2013 and 2012 is as follow:

	2013	2012
Terminals	(3,005,732,352)	(2,691,685,132)
SIM cards	(117,495,603)	(134,380,975)
Import duties and freight costs	(95,833,246)	(123,264,823)
Phone cards	(37,918,765)	(50,750,362)
Accessories	(167,880)	168,291
Other	(1,743,347)	(196,166)

9 Selling, distribution and traffic costs

A detail of the selling, distribution and traffic costs as of December 31, 2013 and 2012 is as follows:

	2013	2012
Selling and distribution costs	(2,280,230,331)	(2,181,628,470)
National voice mobile terminations	(1,798,145,387)	(1,766,511,266)
National voice fixed line terminations	(170,473,269)	(222,273,638)
International terminations	(501,946,684)	(497,571,059)
Data terminations (SMS)	(227,304,467)	(215,589,932)
International roaming	(66,724,930)	(76,658,280)
Other	(1,217,784,156)	(900,958,904)
	(6,262,609,226)	**(5,861,191,549)**

10 Others costs and income

A detail of the other costs and income as of December 31, 2013 and 2012 is as follows:

	2013	2012
Other income	192,711,837	127,281,750
Purchase of services	(442,714,740)	(453,543,414)
Network energy	(509,614,096)	(432,777,929)
Consulting, contractors & prof. serv.	(258,883,238)	(309,892,025)
Bad debt expense	(183,177,721)	(212,931,032)
IT expenses	(169,508,120)	(178,198,199)
Temporary staff / interim net[a]	(77,145,048)	(78,477,569)
Purchases of supplies	(133,406,463)	(137,764,003)
Operating tax	(49,702,291)	(137,062,235)
Other	(712,147,693)	(759,148,594)
	(2,343,587,573)	**(2,572,513,250)**

(a) The temporary labor expenses attributable to the network development are net of costs capitalized (RD$ 89,832,817 and RD$ 71,335,720, respectively for 2013 and 2012).

11 Inventories

As of December 31, 2013 and 2012, inventories are composed of equipments, accessories and prepaid cards and a detail of the same is as follows:

	2013	2012
ODO's warehouse	933,564,620	572,890,663
ODO's distributors (dealers)	100,784,043	310,070,460
	1,034,348,663	**882,961,123**

12 Trade payables

A detail of trade payables as of December 31, 2013 and 2012 is as follows:

	2013	2012
Fixed assets and operating suppliers	1,974,180,451	2,476,250,462
Related companies (see note 24)	327,464,583	314,449,212
Distributors (dealer)	175,108,372	164,294,562
Merchandises suppliers	646,847,845	540,481,470
Others	128,521,664	9,176,095
	3,252,122,915	**3,504,651,801**

ODO 2012 figures have been restated in order to make possible the comparability between years 2013 and 2012. The restatement consisted in a netting between the trade receivables and the trade payables for an amount of RD$633,372,811.

13 Other current liabilities

A detail of the other current liabilities as of December 31, 2013 and 2012 is as follows:

	2013	2012
Taxes and VAT	464,918,913	455,803,544
Staff bonuses	228,037,124	213,293,578
Vacations and other	28,086,482	28,631,492
	721,042,519	**697,728,614**

14 Labor expenses

A detail of labor expenses as of December 31, 2013 and 2012 is as follows:

	2013	2012
Salaries and wages[a]	(766,797,062)	(758,861,075)
Employee profit sharing	(181,597,181)	(167,749,604)
Social contribution	(156,712,236)	(143,296,628)
Others	(128,786,005)	(104,821,663)
	(1,233,892,484)	(1,174,728,970)

---

[a] According to the Company's policies and standards, personnel expenses that work at Network development are capitalized at the project for which such personnel is working. As of December 31, 2013 and 2012 the capitalized amounts for this concept are for RD$296,338,497 and RD$266,039,069, respectively.

15 Intangible assets

A detail of intangible assets as of December 31, 2013 and 2012 is as follows:

	2013				
	Frequencies	Software licenses & IRU	Rights of use corporate solutions	Total	2012
Acquisition cost at beginning of the year	1,192,676,947	4,094,656,072	132,852,964	5,420,185,983	4,782,110,362
Acquisition	—	571,843,256	20,830,486	592,673,742	696,046,488
Disposals	—	(9,204,595)	—	(9,204,595)	(14,352,199)
Reallocations	(1,213,414)	(81,673,682)	—	(82,887,096)	(43,618,668)
	1,191,463,533	4,575,621,051	153,683,450	5,920,768,034	5,420,185,983
Minus:					
Amortization beginning of the year	(593,324,201)	(2,525,276,116)	(89,896,717)	(3,208,497,034)	(2,534,475,883)
Depreciation expense	(164,000,969)	(537,019,777)	(19,951,667)	(720,972,413)	(688,373,350)
Disposals	—	9,204,595	—	9,204,595	14,352,199
Reallocations	1,213,414	111,658,323	—	112,871,737	—
	(756,111,756)	(2,941,432,975)	(109,848,384)	(3,807,393,115)	(3,208,497,034)
	435,351,777	1,634,188,076	43,835,066	2,113,374,919	2,211,688,949

For the period ended December 31, 2013, the reallocations mainly comprise a reclassification between gross value and depreciation due to hyperinflation effect for an amount of MDOP 70. ODO stopped the Hyperinflation restatement in the year 2006.

16 Property, plant and equipments

As of December 31, 2013 and 2012, a detail and movement of property, plant and equipments, is as follows:

	2013						
	Lands	Buildings	Network and transmition equipment	IT infrastructure	Others assets	Total	2012
Acquisition cost at the beginning of the year	158,783,979	1,720,670,474	25,760,775,863	2,159,692,072	188,739,491	29,988,661,879	27,229,194,068
Acquisition	—	138,461,731	2,134,286,957	321,717,199	11,469,338	2,605,935,225	2,941,068,823
Disposals	—	(14,464,500)	(23,727,600)	(4,732,703)	(23,197)	(42,948,000)	(91,446,590)

	160,306,109	1,772,554,811	26,673,210,578	2,352,759,717	196,215,980	31,155,047,195	29,988,661,879
Accumulated depreciation							
Beginning of the year	—	(814,069,448)	(13,670,410,515)	(1,529,631,424)	(101,029,288)	(16,115,140,675)	(13,384,994,371)
Depreciation expense	—	(249,827,873)	(2,283,638,600)	(248,688,454)	(15,136,398)	(2,797,291,325)	(2,820,831,628)
Disposals	—	44,480	23,727,600	4,732,703	23,217	28,528,000	90,685,324
Reallocations	—	70,590,764	1,219,821,688	123,916,851	3,969,652	1,418,298,955	—
	—	(993,262,077)	(14,710,499,827)	(1,649,670,324)	(112,172,817)	(17,465,605,045)	(18,115,140,675)
	160,306,109	779,292,734	11,962,710,751	703,089,393	84,043,163	13,689,442,150	13,873,521,204

For the period ended December 31, 2013, the reallocations mainly comprise a reclassification between gross value and depreciation due to hyperinflation effect for an amount of MDOP 1,461. ODO stopped the Hyperinflation restatement in the year 2006.

17 Non-current liabilities

A detail of the non-current liabilities as of December 31, 2013 and 2012 is as follows:

	2013	2012
Customer deposit	213,025,325	203,084,345
Provisions	259,834,847	343,923,698
ARO provisions	159,247,179	97,667,735
	632,107,351	644,675,778

18 Income Tax

The tax expense shown in the income statement as of December 31, 2013 and 2012 is as follows:

	2013	2012
Current Income Tax	(1,625,181,190)	(1,462,560,892)
Deferred Income Tax	184,181,317	332,500,698
Dividends Credits	—	329,753,087
Tax credits from Law 57-2007 incentives	51,065,771	10,375,360
	(1,389,934,101)	(789,931,748)

The reconciliation between the profit before income tax as per the income statements, and the income tax expense is as follows:

	2013	2012
Profit before income tax	**5,286,960,759**	**4,236,199,291**
29% Income tax rate on profit before income tax	(1,533,218,620)	(1,228,497,795)
Tax effect of:		
Dividends credits	—	329,753,087
Inflation adjustment applied to depreciable fixed assets	180,034,077	168,732,345
Effect of change in tax rate on deferred income tax	(15,882,170)	46,475,938
Adjustment to current tax of prior year	9,418,271	(63,714,428)
Other	(30,285,660)	(42,680,895)
Effective income tax	(1,389,934,101)	(789,931,748)
Effective tax rate	**26.3%**	18.6%

The reconciliation of the income tax payable/receivable as of December 31, 2013 and 2012 is as follows:

	2013	2012
Advances of the period	1,003,996,777	497,442,249
Prior year tax credit carried forward	272,645,963	796,762,816
Tax credit from Law 57-2007 incentives	51,065,771	10,387,949
Credit arising from dividends withholdings	—	329,753,087
Current tax provision	(1,625,181,190)	(1,398,846,464)
	(297,472,679)	**235,499,637**

18 Income Tax (Continued)

The deferred income tax as of December 31, 2013 and 2012 is composed as follows:

	2013		2012	
	Balance Sheet	Income Statement	Balance Sheet	Income Statement
Deferred tax assets				
Provisión for Loyalty Program . . .	129,889,667	8,100,000	137,989,667	15,151,457
Depreciable fixed assets	1,275,118,503	(174,222,770)	1,100,895,733	(257,394,884)

Net deferred tax	1,806,330,478	(184,181,317)	1,622,149,160	(332,500,698)

19 Cash and cash equivalents

A detail of cash and cash equivalents as of December 31, 2013 and 2012 is as follows:

	2013	2012
Cash on hand	1,357,000	944,811
Cash at banks	1,037,568,338	1,158,645,957
	1,038,925,338	1,159,590,768

20 Share capital

The General Assembly of Shareholders decided on December 19, 2012 the capitalization of retained earnings to increase the authorized capital by adding 38,000,000 shares. Therefore the new amount of shares is 58,000,000 at RD$100 each.

As of December 31, 2013 and 2012 the outstanding capital paid is composed by 58,000,000 shares for a total amount of RD$5,800,000,000.

21 Legal reserve

The Commercial Code of the Dominican Republic in its article number 58 provides that the Company appropriate no less than 5% annually of net annual result until the total appropriated amount equals 10% of paid in capital. This reserve cannot be capitalized, transferred to retained earnings or to use to pay dividends.

22 Remittance of dividends

ODO shareholders meeting approved the payment of dividends in May 2013 for a total amount of RD$1,855,350,000.

In November 2012 was enacted the law 253-12 of fiscal reform, establishing that dividend payments will be subject to withholding and payment of 10% of income tax as a unique payment, but not constitute anymore a tax credit for the Company.

23 Foreign currency balances

ODO is exposed to foreign exchange risk due both to its revenues and purchases denominated in US dollars and euros. As a consequence, these foreign operations have a direct effect on the operating, finance income and the trade receivables and payables.

	2013	2012
Revenues:		
DOP	17,802,800,534	16,471,989,318

	3,198,608,785	3,637,115,310

24 Balances and transactions with related parties

The Company made transactions and keeps balances with related parties as part of the normal operations business. Detail of the most significant transactions and balance with related companies as of December 3l, 2013 and 2012 are as follows:

	2013	2012
Balances:		
Accounts receivable[a]	23,797,027	29,223,556
Cash pooling-current account[a]	2,566,699,740	164,846,970
Accounts payable	(327,464,583)	(314,449,212)
Transactions:		
Revenue (traffic, interconnection and other income)	239,872,138	218,902,968
Selling distribution and traffic coast	(87,279,542)	(66,186,204)
Brand fees[b]	(376,940,510)	(351,549,524)
Corporate management fees[c]	(251,550,752)	(231,146,089)
General maintenance and services	(14,988,993)	(9,896,989)
Other operational expenses, net	(66,568,920)	(102,414,970)
Other operational income	195,501	12,636,008

(a) In February 2009, Orange S. A. and ODO signed a centralized treasury management agreement (CTMA). Orange S. A. thus optimizes the Group liquidity .ODO lends or borrows tits cash surplus/needs through a current account with Orange S. A.

The cash pooling accounts bear interest which is calculated on a daily balance and on a daily basis using:

- for the EUR account: EONIA rate for a credit balance and EONIA plus 2.15% margin for a debit balance
- for the USD account: LIBOR Overnight rate for a credit balance and LIBOR Overnight plus 2.15% margin for a debit balance

(b) The utilization of the Orange brand name is defined in a brand license agreement signed with Orange Group and costs a 1.6% fee of the ODO's monthly operating revenue.

(c) Management fees are determined in accordance with an agreement signed with Orange S. A. and are charged using a 1.03% on the monthly contributive operational revenue in 2012.

25 Unrecognized contractual commitments

As at December 31, 2013 and 2012 the contractual commitments are as follows:

Leasing commitments

The Company keeps operating rent agreements with enterprises and physical persons for the concept of commercial offices rent, parking, housing, and signal transmission antennas. Almost always these agreements are automatically renewable and are monthly, quarterly or four-monthly paid. During the years ended as of December 2013 and 2012, the Company paid for this concept the amounts of RD$632,221,641 and RD$563,689,755, respectively. The commitment for 2014 for this concept is an estimated RD$604,992,425.

	1 year	1 to 5 years	over 5 years	Total
Rental commitments by year of expiration	604,992,425	1,405,898,412	433,504,377	2,444,395,214

25 Unrecognized contractual commitments (Continued)

Other purchase and investment commitments

A detail of other purchase and investment commitments as of December 31, 2013 is as follows:

	2013
Other opex commitments	400,809,386
Capex commitments	1,122,622,135
Handset purchase commitments	1,095,445,309

- Other opex commitment are relating to marketing, network, gas distribution and civil engineering.
- Capital expenditures mainly related to network projects.

26 Litigation

As of December 31, 2013, ODO is party of certain judicial procedures with former distributors or dealers, for which no provision is recorded as ODO considers at this stage of the procedure that the claims are without merit.

27 Financial Instruments

The financial risks to which the Company is exposed are presented in the following paragraphs.

Foreign exchange risks

The Company is exposed to risk profit or loss in the fluctuation of the exchange rates of foreign currencies that arise, principally the US dollar and Euro. During the year 2003 an accelerated depreciation of the local currency occurred. Nevertheless since the middle of the year 2005 and 2006, the Dominican currency (DOP) has strengthened in relation to the American dollar and Euro and has been quite stable ever since. As of December 2013 and 2012, the Company has assets and liabilities in US dollars and Euros. See note 23.

Credit risk

As of December 31, 2013, credit risk exposure is very limited. Such risk is that Company cannot recover the accounts receivable. The major credit risk is represented by balance of each financial asset. The Company for controlling the credit risks and collects the balances with local distributors imposes to open letters of credit as a warranty to cover any issue that may come up from those clients.

Liquidity Risk

Management is conscious of the implications of liquidity risk. In that sense, it maintains an adequate cash balance.

28 Fair Value of financial Instruments

A detail of the balances booked and the estimated as fair value of the Company financial instruments as of December 31, 2013 and 2012 is as follow:

	2013		2012	
	Accounting Amount	Fair Value	Accounting Amount	Fair Value
Financial Assets:				
Cash	1,038,925,338	1,038,925,338	1,159,590,768	1,159,590,768

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders of Orange Dominicana

We have audited the accompanying balance sheets of Orange Dominicana (the "Company") as of December 31, 2012 and 2011, and the related statements of income, shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended in conformity with International Financial Reporting Standards ("IFRS") as issued by the IASB.

Notes to the standalone financial statements

Note 1—Description of business and basis of preparation of the standalone financial statements

1.1 Description of business

Orange Dominicana, S.A. (hereafter called "ODO"), a company incorporated in accordance with the Dominican Republic laws, began operations on November 13 2000. ODO is an indirectly wholly-owned subsidiary of Orange S.A., a French listed company.

ODO operates under a service concession agreement for the operation of telecommunications services.

ODO provides consumers, businesses and other telecommunication operators with a wide range of services including mobile telecommunications, data transmission and other value added services.

1.2 Basis of presentation and purpose of the financial statements

These financial statements have been prepared in the context of the proposed sale of ODO by its sole shareholder and for use in any offering documents relating to securities that may be offered by ODO.

They have been prepared in accordance with International Financial Reporting Standards (IFRSs).

The principles applied to prepare financial data are based on:

- all standards and interpretations compulsory as of December 31, 2012;
- the recognition and measurement alternatives allowed by the IFRSs:

Standard		Alternative used
IAS 2	Inventories	Measurement of inventories determined by the weighted average unit cost method
IAS 16	Property, Plant and Equipment	Measurement at amortized historical cost
IAS 38	Intangible Assets	Measurement at amortized historical cost

- the available exemptions regarding the retrospective application of IFRSs at the transition date (January 1, 2004 for ODO):

Standard		IFRS 1 alternative used
IAS 16 and IAS 38	Property, Plant and Equipment and Intangible Assets	Measurement of property, plant and equipment and intangible assets at historical cost

In the absence of any accounting standard or interpretation, management uses its judgment to define and apply an accounting policy that will result in relevant and reliable information, such that the financial statements:

- present fairly the ODO's financial position, financial performance and cash flows;
- reflect the economic substance of transactions;
- are neutral;
- are prepared on a prudent basis; and
- are complete in all material respects.

1.3 Standards and interpretations compulsory after December 31, 2012 with no early application elected by ODO

IFRS 13—Fair value measurement—defines fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurements, including the fair value hierarchy already set out in IFRS 7. This standard is applicable prospectively and has no expected effect on the fair value currently measured by ODO.

Note 1—Description of business and basis of preparation of the standalone financial statements (Continued)

1.4 Use of estimates and judgment

In preparing ODO's financial statements, the management makes estimates, insofar as many elements included in the financial statements cannot be measured with precision. These estimates are revised if the underlying circumstances evolve or in light of new information or experience. Consequently, estimates made at December 31, 2012 may subsequently be changed.

ODO's management also uses its judgment to define appropriate accounting policies to apply to certain transactions when the current IFRS standards and interpretations do not specifically deal with related accounting issues.

The underlying assumptions used for significant estimates are outlined below:

Estimate		Nature of estimate
Note 3.1	Revenue	Identification of separable components of a bundled offer based on the individual components relative fair value Period of straight-line recognition of revenue relating to Invoiced service access fees depending on the nature of product and historical contractual relationship Reporting of revenue on a net versus gross basis (depending on an analysis of the ODO's involvement as either principal or agent)
Note 4	Purchases and other expenses	Provision for claims and litigation: assumptions underlying legal assessment and risk measurement
Note 6	Property, plant and equipment, Intangible assets	Assessment of assets' useful life based on assessment of the technological, legal or economic environments
Note 7	Income tax	Assumptions used for the computation of the income tax charge to be recorded in the financial statements, together with the technical merit of tax positions Assumptions used for recognition of deferred tax assets arising

Note 2—Accounting policies

2.1 Financial statements preparation principle

Presentation

Income statement

Expenses are presented in the income statement based on their nature.

Operating income corresponds to net income before:

- finance income;
- finance costs;
- income tax (current and deferred taxes).

Statement of financial position

Current and non-current items are presented separately in the statement of financial position: assets and liabilities with a term of no more than twelve months are classified as current whereas, assets and liabilities with a term of more than twelve months are classified as noncurrent.

Note 2—Accounting policies (Continued)

Statement of cash flows

The statement of cash flows is reported using the indirect method starting with the net income and is broken down into three categories:

- cash flows arising from operating activities (including finance costs and income taxes);
- cash flows arising from investing activities (mainly purchase and disposal of intangible and tangible assets);
- cash flows arising from financing activities (dividends paid).

Foreign operations

The financial statements are expressed in Dominican pesos.

Monetary assets and liabilities in foreign currency are translated into Dominican pesos at the year-end exchange rate at the end of each reporting period and the resulting translation differences are recorded in:

- in operating income for commercial transactions;
- in finance income or finance costs for financial transactions.

Foreign operations are recorded on initial recognition at the spot exchange rate at the date of the transaction.

2.2 *Revenues*

Revenues

Revenues from ODO's activities are recognized as follows:

Separable components of bundled offers

Certain service offers include two components: an equipment component (e.g. a mobile handset) and a service component (e.g. a talk plan).

For the sale of multiple products or services, ODO evaluates all deliverables in the arrangement to determine whether they represent separate units of accounting. A delivered item is considered a separate unit of accounting if (i) it has value to the customer on a standalone basis and (ii) there is objective and reliable evidence of the fair value of the undelivered item(s). The total fixed or determinable amount of the arrangement is allocated to the separate units of accounting based on its relative fair value. However, when an amount allocated to a delivered item is contingent upon the delivery of additional items or meeting specified performance conditions, the amount allocated to that delivered item is limited to the non-contingent amount. This case arises when selling bundled offers that include a handset sold at a discounted price and a telecommunications service contract. The handset is considered to have value on a standalone basis to the customer, and there is objective and reliable evidence of fair value for the telecommunications service to be delivered. As the amount allocable to the handset generally exceeds the amount received from the customer at the date the handset is delivered, revenue recognized for the handset sale is generally limited to the amount of the arrangement that is not contingent upon the rendering of telecommunication services, i.e. the amount paid by the customer for the handset.

For offers that cannot be separated into identifiable components, revenues are recognized in full over the life of the contract. The main example is connection to the service: this does not represent a separately identifiable transaction from the subscription and communications, and connection fees are therefore recognized over the average expected life of the contractual relationship.

Note 2—Accounting policies (Continued)

Equipment sales

Revenues from mobile sales are recognized when the significant risks and rewards of ownership are transferred to the buyer.

When equipment—associated to the subscription of telecommunication services—is sold by a third party retailer who purchases it from ODO and receives a commission for signing up the customer, the related revenue is:

- recognized when the equipment is sold to the end-customer;
- measured by ODO taking into account the best estimate of the retail price and any subsidies granted to the retailer at the time of the sale and passed on to the end-customer in the form of a rebate on the equipment

Service revenues

Considerations from telephone service are recognized in revenue on a straight-line basis over the subscription period.

Revenue for airtime usage and messaging by customers is recognized as services are performed, with unbilled revenue resulting from services already provided accrued at the end of each period and unearned revenue from services to be provided in future periods deferred. Revenue from the sale of prepaid credit is deferred until such time as the customer uses the airtime, or the credit expires.

Loyalty programs

Points awarded to customers are treated as a separable component to be delivered in the transaction that triggered the acquisition of points. Part of the invoiced revenue is allocated to these points based on their fair value taking into account an estimated utilization rate, and deferred until the date at which the points are definitively converted into benefits. Fair value is defined as the excess price over the sales incentive that would be granted to any new customer. This principle is applied for both types of loyalty programs that exist within ODO, those with and those without a contractual renewal obligation.

Trade receivables

The trade receivables are mainly short-term, bearing no interest rate and measured at original invoice amount.

The valuation allowance on trade receivables is determined as follows:

- for mobile telephone services: the allowance is computed based on expected loss rates depending upon their aging. These rates are reviewed and adjusted periodically. When a client is determined to be in bankruptcy or subject to equivalent judicial proceedings, the associated receivables are then excluded from the statistical database and individually written-off;
- for dealers, wholesalers, interconnection (local and roaming) and carriers: the impairment loss is determined on a case by case analysis based on the ODO's experience.

2.3 Purchases and operating expenses

Subscriber acquisition and retention costs

Subscriber acquisition and retention costs, other than loyalty programs costs, are recognized as an expense for the period in which they are incurred.

Advertising and sponsoring costs

Advertising, promotion, sponsoring, communications and brand marketing costs are expensed as incurred.

Note 2—Accounting policies (Continued)

Inventories

The inventories comprise mainly mobile handsets either located in ODO's premises or at distributors until the customer service activation.

The inventories are stated at the lower of cost or net realizable value taking into account expected revenues from the sales of mobile phones. Cost corresponds to purchase cost determined using the weighted average cost method.

Trade payables

Payables are recorded at their nominal value

Provisions and contingent liabilities

Provisions

In the ordinary course of business, ODO is involved in certain legal and arbitration proceedings and administrative actions.

The costs which may result from these proceedings are accrued when ODO has a present obligation towards a third party and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of that liability can be quantified or estimated within a reasonable range. The amount of provision recorded is based on a case-by-case assessment of the risk level, and events arising during the course ol legal proceedings may require a reassessment of this risk.

Contingent liabilities

Contingent liabilities are:

- possible obligations that are not recognized because their existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within ODO's control; or
- present obligations arising from past events that are not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or because the amount of the obligation cannot be measured with sufficient reliability.

2.4 *Employee benefits*

Labor costs are expensed as incurred including social costs contributed by the Company in accordance with the law 87-01.

Employees are not provided with postemployment benefits.

2.5 *Intangible assets, property, plant and equipment*

Intangible assets

Intangible assets comprise mainly licenses for software and international telecommunication, frequency rights and Indefeasible Rights of Use (IRUs).

IRUs acquired by ODO correspond to the right to use cable or capacity transmission cable granted for a fixed period. They are recognized as an asset when ODO has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life.

Property, plant and equipment

Property, plant and equipment comprised mainly network equipment.

Note 2—Accounting policies (Continued)

The gross value of tangible assets corresponds to their acquisition or production cost, including costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Due to 2004 and 2005 hyperinflation in Dominican Republic, ODO restated its 2004 and 2005 financial statements applying IAS 29 Financial Reporting in Hyperinflationary Economies and adjusted consequently the gross value of assets with the corresponding balance within Shareholders' equity (i.e. Hyperinflation reserve).

The cost of networks includes design and construction costs. Maintenance and repair costs are expensed as incurred, except where they increase the asset's productivity or extend its useful life.

Depreciation

Assets are depreciated, generally with no residual value, on a basis that reflects the pattern in which their future economic benefits are expected to be consumed. The straight-line basis is usually applied. The useful lives are reviewed annually and are adjusted if current estimated useful lives differ from previous estimates: these changes in accounting estimates are recognized prospectively.

Main assets categories	Useful life (in years)
Licences	3–5
Frequencies	10–15
IRU (Indefeasible rights of use)	10–15
Buildings	30
Antennas and technical equipment (sites)	8–28
Other technical equipment	3–8
Office material and software	3–5
Office furniture and equipment	5–10
Leasehold improvements	10

Dismantling

ODO is required to dismantle equipment and restore sites.

The provision is based on dismantling costs (on a per-unit basis for telephone poles, terminals and public phones, and on a per-site basis for mobile antennae) incurred by ODO to meet its environmental commitments and annual estimated asset dismantling and site restorations. The provision is assessed on the basis of the identified costs for the current financial year, extrapolated for future years using the best estimate of the commitment settlement. It is discounted at a risk-free rate. This estimate is revised annually and adjusted where appropriate against the asset to which it relates.

2.6 *Income tax*

Current tax is measured by ODO at the amount expected to be paid or recovered from the taxation authorities, based on its interpretation with regard to the application of tax legislation.

Deferred taxes are recognized for all temporary differences between the book values of assets and liabilities and their tax basis, using the liability method. Deferred tax assets are recognized only when their recovery is considered probable.

Deferred tax assets and liabilities are not discounted.

At reporting period end, ODO reviews the recoverable amount of the deferred tax assets.

In accordance with these principles, ODO calculates the tax assets, liabilities and accruals recognized in the statement of financial position based on the technical merits of the positions it defends versus that of the tax authorities.

Note 2—Accounting policies (Continued)

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the assets will be realized and the liabilities settled on the basis of tax rates in force or substantially in force at the period end.

2.7 *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and cash at banks as well as short-term investments with an original maturity of three months or less from the date of acquisition.

Note 3—Sales

3.1 *Revenues*

Revenues	2012	2011
	In thousand Dominican pesos	
Mobile	19,436,051	18,820,409
Wholesale	1,662,446	1,729,426

The Jaw No.309-12 was enacted on December 7, 2012, with the objective of granting the possibility of a tax amnesty to tax payers regarding the following taxes: income tax, value added tax, asset tax, transfer tax, inheritance tax, property taxes and customs taxes. The main benefits of the tax amnesty include closing fiscal periods up to 2011 for tax audit purposes; waive of penalties regarding existing tax liabilities, including those appealed by the tax payer. Orange did not apply for the tax amnesty.

Note 8—Cash and cash equivalents

Cash and cash equivalents	2012	2011
	In Dominican pesos	
Cash on hand	944,811	1,901,350
Cash at banks	1,158,645,957	1,142,755,184
Total	1,159,590,768	1,144,656,534

Note 9—Equity

9.1 *Share capital*

The shareholders' meeting decided the conversion of the retained earnings into share capital on December 19, 2012. The share capital therefore, increased by 38,000,000 shares, and is now made of 58,000,000 shares each at a par value of RD$100. There are no outstanding shares as of December 31, 2012.

9.2 *Legal reserve*

In accordance with the article 58 of the commercial Code of the Dominican Republic, the legal reserve is annually contributed by 5% of the net income until the total amount equals 10% of paid-in capital. This reserve cannot be capitalized, transferred to retained eamings or to use to pay dividends.

9.3 *Dividends*

ODO's shareholders meeting approved the payment of dividends in April, September and November 2012 for a total amount of RD$469,320,000; 667,760,000 and RD$2,207,700,000 respectively.

Note 9—Equity (Continued)

The Tax Reform Act, No. 253-12, enacted on November 9, 2012 establishes a 10% withholding tax on dividends due by the distributing entity. This new act supersedes the prior regime that consisted in a 29% withholding tax on dividends, which was subsequently refunded as a tax credit to the distributing entity, in the same fiscal period. The dividends paid in April and September 2012 were taxed under the former regime.

Note 10—Foreign currency

ODO is exposed to foreign exchange risk due both to its revenues and purchases denominated in US dollars and euros. As a consequence, these foreign operations have a direct effect on the operating, finance income and the trade receivables and payables.

Breakdown by currency	2012	2011
	In Dominican pesos	
Revenues

Other operating expenses, net	(102,414,970)	(100,489,891)
Other operating income	12,636,008	—

(a) In February 2009, Orange SA and ODO signed a centralized treasury management agreement (CTMA). Orange S.A. thus optimizes the Group liquidity. ODO lends or borrows its cash surplus/needs through a current account with Orange SA. The cash pooling accounts bear interest which is calculated on a daily balance and on a daily basis using:

- for the EUR account: EONIA rate for a credit balance and EONIA plus 2.15% margin for a debit balance
- for the USD account: LIBOR Overnight rate for a credit balance and LIBOR Overnight plus 2.15% margin for a debit balance

(b) The utilization of the Orange brand name is defined in a brand license agreement signed with Orange Group and costs a 1.6% fee of the ODO's monthly operating revenue.

(c) Management fees are determined in accordance with an agreement signed with Orange SA and are charged using a 1.03% on the monthly contributive operational revenue in 2012.

Note 12—Unrecognized contractual commitments

12.1 Leasing commitments

Rental commitments by year of expiration	< 1 year	1–5 years	over 5 years	Total
		In Dominican pesos		
Total	474,094,831	1,100,473,583	400,133,861	1,974,702,275

The Company enters into operating lease agreements in its ordinary course of business (mainly commercial offices and antennas sites).

12.2 Other purchase and investment commitments

Other purchase and investment commitments	2012
	In Dominican pesos
Other opex commitments	458,756,888
Cap ex commitments	965,744,919
Handset purchase commitments	631,578,716

- Other opex commitment are relating to marketing, network, gas distribution and civil engineering.
- Capital expenditures mainly related to network projects.

Note 13—Litigation

As of December 31, 2012, ODO is party to certain judicial procedures with former distributors or dealers, for which no provision is recorded as ODO considers at this stage of the procedure that the claims are without merit.

Note 14—Subsequent events

None.

Note 1 - Nature of the business, basis of preparation and accounting policies

Nature of the business

Altice S.A. (the "Company") is a public limited liability company (*Société Anonyme*) incorporated in the Grand Duchy of Luxembourg whose head office is in Luxembourg and has been formed on January 3, 2014. Upon admission of the Company's shares on Euronext Amsterdam on January 31, 2014, the Company received the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice France S.A. and Altice International S.à r.l.. Altice France S.A. is hereafter referred to as "Altice France" and Altice International S.à r.l. and its subsidiaries are hereafter referred to as "Altice International" or "Altice International Group".

Altice France

Altice France holds shares in Numericable Group, a French group listed on Euronext Paris. Numericable Group is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. They also provide French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Additionally to the Business To Consumer ("B2C") described above and through its main operational entity, Completel S.A.S., Numericable Group operates the largest alternative fiber-to-the-office ("FTTO"), network in France, constituting the third alternative Digital Subscriber Line ("DSL") network in France. Completel S.A.S. provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

Altice International

Altice International offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Where possible, Altice International Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and common knowledge. In addition, the Altice International Group companies aim at sharing skills and best practices across the various operations of Altice International Group.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand ("VoD") and near-video-on-demand ("NVoD"), digital video recorders ("DVR"), high definition ("HD") television services and, in certain areas, exclusive content, purchased or produced. The Altice International Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice International Group also offers broadband Internet access services and fixed-line telephony in all its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

Basis of presentation

The Condensed Consolidated Financial Statements of the Company as of and for the three months ended March 31, 2014 have been prepared in accordance with International Accounting Standard ("IAS") No. 34 "Interim Financial Reporting". They should be read in conjunction with the annual consolidated financial statements and the notes thereto as of and for the year ended December 31, 2013 which have been prepared in accordance with International Financial Reporting Standards as adopted in the European Union ("IFRS").

As Altice France and Altice International, before being contributed to Altice S.A. and after the IPO, were and remained entities under joint control (controlled by Patrick Drahi through Next L.P.), the contribution transactions do not constitute acquisitions within the meaning of IFRS 3 *Business Combinations*. The Group has opted to account for this transaction using the book values, and the Condensed Consolidated Financial Statements disclose the amounts as if the contribution of the equity securities of Altice France and Altice International had occurred before January 1, 2010.

The comparative data presented for the condensed consolidated statements of income, other comprehensive income, changes in equity and cash flows for the three month period from January 1, 2013 to March 31, 2013 for comparison purposes correspond to the condensed combined financial statements of Altice France and the Altice International Group (hereinafter referred to as the "Two Groups"). Such condensed combined consolidated statements have not been subject to an audit or a review in accordance with any International Standards on Auditing or International Standards on Review Engagements.

Before being contributed to Altice S.A. on January 31, 2014, the Two Groups were entities under common control controlled by Next L.P.. Accordingly, the financial information presented for comparative purposes reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice France and Altice International, which formed two separate group as of December 31, 2013.

Accounting policies

The Condensed Consolidated Financial Statements have been prepared on a historical cost basis, except for (i) available for sale financial assets, (ii) derivative financial instruments and (iii) inventories which are measured at the lower of net realizable value or cost. The accounting policies used to prepare the Condensed Consolidated Financial Statements are similar to those described in Note 2 to the Condensed Consolidated Financial Statements as of and for the year ended December 31, 2013.

There were no other significant effects on the Condensed Consolidated Financial Statements as a result of the adoption of any of the below mentioned standards or interpretations.

New standards applied for the first time in the current period

For the period ended March 31, 2014, the Company has applied the following amendments to IAS standards, made compulsory for annual periods beginning on or after January 1, 2014.

- Amendments to IAS 39–Novation of Derivatives and Continuation of Hedge Accounting:

  Under the revised standard, the novation of a hedging instrument should not be considered as an expiration or termination giving rise to the discontinuation of hedge accounting when a hedging derivative is novated. This amendment has no impact on the Condensed Consolidated Financial Statements of the Company, as it does not practice hedge accounting.

- Amendments to IAS 36–Recoverable Amount Disclosures:

  The overall effect of the amendments is to reduce the circumstances in which the recoverable amount of assets or cash-generating units is required to be disclosed, clarify the disclosures required, and to introduce an explicit requirement to disclose the discount rate used in determining impairment (or reversals) where recoverable amount (based on fair value less costs of disposal) is determined using a present value technique. This amendment has no impact on the Condensed Consolidated Financial Statements of the Company.

Significant accounting judgments and estimates used in the preparation of the financial statements

Judgments

In the process of applying the significant accounting policies, the Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the consolidated financial statements.

Estimates and assumptions

The preparation of the Condensed Consolidated Financial Statements requires the Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units (herein after referred to as "CGU" or "CGUs") to which goodwill has been allocated. The value in use calculation requires the Directors to estimate the future cash flows expected to arise from the CGUs and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

Legal claims

In estimating the likelihood of outcome of legal claims filed against the Consolidated Group and its investees, the group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ significantly from these estimates.

Post-employment benefits

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates, expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

Deferred tax asset

Deferred tax assets relate primarily to tax losses carried forward and to deductible temporary differences between reported amounts and the tax basis of assets and liabilities. The assets relating to the tax losses carried forward are recognized if it is probable that the Group will generate future taxable profits against which these tax losses can be offset. Evaluation of the Group's capacity to utilize tax losses carried forward relies on significant judgment. The Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax losses carried forward.

Note 2 – Main changes in the scope of consolidation

2.1 Numericable Group S.A. ("NG")

On February 3, 2014 the Group, through its direct subsidiary Altice France S.A., completed the acquisition of a 10% stake in Numericable Group S.A. (herein after referred to as "NG"), the leading cable operator in France. Prior to the acquisition of the 10% stake, the Group owned a 30% stake in NG (including 2.6% related to options provided to other major shareholders). The acquisition of the additional 10% stake triggered a change in control of NG, with Altice France becoming able to nominate 5 out of 10 board members of Numericable Group, as well as the Chairman of the board, whose vote is considered to be casting in case of a tie.

Since February 3, 2014, NG contributed €217.2 million to the Group revenue and €55.7 million to the Group operating profit for the three months ended March 31, 2014. The options granted to majority shareholders and mentioned above had a fair value of € 0.7 million as of March 31, 2014.

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for the shares of the acquired entity amounted to €317.0 million on a cash free, debt free basis. Additionally, an earn-out, based on the performance of the share price of NG will be paid out to the vendors on a date culminating six months after the initial agreement. As of the date of this report, the earnout has been paid to the vendors and amounted at € 42.1 million euros, thus bringing the total consideration transferred to €359.2 million.

The fair value of the asset acquired at the date of acquisition was determined as follows:

Book value of investment in associate (prior to change in control):	€679.1 million
Variation in investment in associates as of February 3, 2014:	€1.3 million
Gain on step acquisition (resulting from change in control):	€256.3 million
Non-controlling interests (post change in control):	€161.6 million
Total consideration for acquisition of additional shares (including earnout):	€359.1 million
Fair value of NG at acquisition:	€1,457.3 million

The total value of assets transferred in consideration for the values mentioned above amounted to €2,456.6 million, comprising mainly of intangible assets for a net value of €302.6million, property, plant and equipment for a total value of €1,468.7 million, financial assets for a total value of €11.3 million and trade and other receivables for a total amount of €519.1 million. Total liabilities amounted to €3,682.7 million, comprising of €2,842.7 of non-current liabilities and €840.0 million of current liabilities. The residual value of € 2,683.4 million was recognised provisionally as goodwill.

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of NG. The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been recognised as a result of the acquisition as follows:

Total consideration transferred	€1,457.3 million
Fair value of identifiable assets, liabilities and contingent liabilities	€ (1,226.1) million
Goodwill	€2,683.4 million

2.2 Tricom S.A. and Global Interlinks Limited ("Tricom" and "GLX")

On March 12, 2014, the Group, through its indirect subsidiary, Altice Dominican Republic, completed the acquisition of an approximately 87.88% stake in Tricom S.A., a cable and mobile operator with a 4G license based in the Dominican Republic, and Global Interlinks limited, the owner of a submarine cable, through which it sells data and voice transmission services to other operators based in the region (and including its sister concern, "Tricom S.A"). Through this acquisition, the Group expects to consolidate and expand its cable operations in the Caribbean Islands and explore synergies through the vertical integration of its operations in the region and synergies with pre-existing operations in the region.

Since March 12, 2014 Tricom and Global Interlinks contributed €7.6 million in revenue and €1.1 million in operating income to the Group's result for the three months ended March 31, 2014.

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for the shares of the acquired entity amounted to €299.2 million on a cash free, debt free basis.

The total value of assets transferred in consideration for the values mentioned above amounted to €214.8 million, comprising mainly of intangible assets for a net value of €4.4 million, property, plant and equipment for a total value of €133.2 million and trade and other receivables for a total amount of €67.3 million. Total liabilities amounted to €82.7 million, comprising of €40.8 of non-current liabilities and €41.9 million of current liabilities. Additionally, adjustments related to the conversion of the opening balance from US GAAP to IFRS standard led to an increase in fixed assets of €2.8 million, thus increasing the net value of assets transferred to €134.9million. The residual value of €164.3 million was recognised provisionally as goodwill.

The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of Tricom S.A. and Global Interlinks Limited. The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been recognised as a result of the acquisition as follows:

Total consideration transferred	€299.2 million
Fair value of identifiable assets, liabilities and contingent liabilities	€134.9 million
Goodwill	€164.3 million

2.3 Mobius S.A.S. ("Mobius")

On January 15, 2014, the Company, through its subsidiary, Altice Blue Two S.A.S., obtained control over Mobius, a telecommunications operator in the French Overseas Territories (La Reunion), by acquiring 99.9% of the shares and voting interests in the company. This acquisition enables the Group to further expand and consolidate its footprint in the French Overseas Territories.

Since January 1, 2014, Mobius contributed €4.6 million to revenue and €0.1 million to operating income to the Group's results for the three months ended March 31, 2014.

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

- Total consideration paid to the vendors for the shares of the acquired entity amounted to €18.8 million on a cash free, debt free basis.

- The total value of assets transferred in consideration for the values mentioned above amounted to €15.2 million, comprising mainly of intangible assets for a net value of €7.1 million, property, plant and equipment for a total value of €1.2 million, financial assets for a total value of €3.2 million and trade and other receivables for a total amount of €2.9 million. Total liabilities amounted to €13.8 million, comprising of €5.1 of non-current liabilities and €8.7 million of current liabilities. The residual value of €17.4 million was recognised provisionally as goodwill.

- The values of the assets and liabilities assumed have been determined on a provisional basis as being equivalent to the book values in the accounting records of Mobius. The Company is continuously assessing the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been recognised as a result of the acquisition as follows:

Total consideration transferred	€18.8 million
Fair value of identifiable assets and liabilities	€1.4 million
Goodwill	€17.4 million

In summary, the profit and loss of these new subsidiaries for the period from January 1, 2014 to the date of their consolidation into the Group's accounts is given below:

	NG	Tricom
	(in € millions)	
Revenues	108.5	38.7
Purchases and subcontracting services	(51.7)	(11.1)
Gross Profit	56.8	27.6
Other operating expenses	1.5	(4.2)
General and administrative expenses	-	(1.7)
Other sales and marketing expenses	-	(2.2)
Staff costs and employee benefits	(14.0)	(5.3)
Operating profit before depreciation and amortization	44.3	14.1
Depreciation and amortization	(25.6)	(5.1)
Other expenses, net	-	
Management fees	-	(0.8)
Reorganization and non-recurring costs	-	-
Operating profit	**18.8**	**8.2**
Profit / (loss) for the period (including non-controlling interests)	4.6	5.4

2.5 Acquisition of non-controlling interests – Altice Blue Two S.A.S.

In January 2014, the Group entered into discussion with the management of Outremer Telecom (the "OMT Managers"), holders of a 23% stake in Altice Blue Two S.A.S. ("ABT"), the holding company controlling Outremer Telecom, Mobius, WSG and MTVC, to exchange part or all of their existing shares in ABT against new shares to be issued by the Company.

As per the agreement, which was signed on March 13, 2014, the OMT Managers contributed a 17.5% stake held directly in ABT and all their shares held in OMT Ocean 3 S.A.S. (an investment vehicle held by certain members of OMT's senior management and holding a 5.4% stake in ABT), for a base value of € 55.2 million plus two separate earn-out clauses that would become applicable only upon the achievement of certain operational and financial targets and the settlement of certain lawsuits.

Note 3 - Goodwill

Goodwill is reviewed for impairment at each CGU level, annually and whenever changes in circumstances indicate that its carrying amount may not be recoverable. For 2013, goodwill was tested for impairment at the CGU level as of December 31. CGUs are currently determined to coincide with subsidiaries of the Company. The recoverable amounts of the CGUs are determined based on their value in use. The Company determined value in use for the purpose of its impairment testing and, accordingly, did not determine the fair value of the CGUs as the carrying value of the CGUs was lower than their value in use. The key assumptions for the value in use calculations are primarily the pre-tax discount rates, the EBIT margin, the terminal growth rate and the churn rate during the period.

The value in use of the CGUs was determined by estimating cash flows for a period of five years, giving due consideration to the nature of the industry in which each CGU operates. Assumptions for churn rates and EBIT margin were based on historical experience and expectations of future changes in the market. Cash flow forecasts were derived from the most recent financial plans approved by management.

The Board of Directors has determined that there have not been any changes in circumstances indicating that the carrying amount of goodwill may not be recoverable and therefore no updated impairment model analysis has been carried out nor any impairment recorded for the period ended March 31, 2014.

Note 4 – Restricted cash

The decrease in restricted cash is explained by the closing of the Tricom transaction on March 12, 2014. For more details, refer to note 2.2.

The restricted cash is composed of the proceeds of the December 2013 offering and have been used to finance the acquisition of Orange Dominicana in April 2014.

Note 5 – Issued capital and share premium

Issued capital

As at March 31, 2014, total issued capital of the Company amounts to € 2.0 million, and is composed of 204,902,102 outstanding ordinary shares, with a nominal value of € 0.01 each.

The share capital at incorporation amounted to € 0.03 million euros and was increased through successive capital increases, mainly resulting from the contribution of Altice International and Altice France shares to the new Company (representing € 1.5 million and 0.2 million respectively). In addition to this, share capital increase were also recorded following the buyout of minority interests in ABT, the participation of the Directors of the newly acquired entity, Mobius and the contribution in kind of a vendor note held by Valemi Corp.

On January 31, 2014, the Group successfully completed its initial public offering ("IPO") on the Euronext Stock Exchange based in Amsterdam. As part of this offering, the Group raised € 750 million through the issuance of new shares to investors at a price of €28.25 per share.

Additionally, a green shoe option of up to 15% of the total offering was fully exercised and Next L.P. offered additional shares to the public in the IPO.

The fees incurred in connection with the issuance of additional equity instruments have been recognized in equity for a total of €29.7 million, while the fees linked to the placement of existing shares have been recognized in profit and loss under the "Restructuring, non-recurring costs and other expenses" caption.

Share premium

Total share premium of the Group amounted to € 5,786.4 million and results from:

	March 31, 2014
Contribution in kind of Altice International	4,412.1
Contribution in kind of Altice France	558.1
Proceeds from primary offering	749.7
Contribution in kind of Valemi vendor note	6.7
Contribution in kind - Mobius	4.6
Contribution in kind - ABT Minorities	55.2
Total	**5,786.4**

A restructuring of the shareholder debts held by Next L.P. against Altice International and Altice France, was carried out before the IPO. As a result of this restructuring, the shareholder debts were contributed by Next L.P. to Altice S.A., in exchange for new shares issued by the Company.

Valemi Corp S.A., the holder of a vendor note against Altice International (pertaining to the acquisition of MCS and SportV in Q4 2013), contributed this asset to Altice S.A. at its nominal value of € 6.7 million, in exchange for new shares issued by the Company.

For the transactions between the non-controlling shareholders in ABT, please refer to note 2.5 above.

Note 6 – Earnings per shares

	March, 31 2014	March, 31 2013
	(in € millions except as stated otherwise)	
Earnings		
Effect of dilutive potential ordinary shares:	-	-
Earnings for the purposes of diluted EPS	160.9	20.1
EPS on basic shares (in €)	1.16	0.14
Number of shares		
Weighted average number of ordinary shares for basic EPS	138.9	138.9
Effect of dilutive potential ordinary shares:		
Employee investment plan	0.8	0.8
Stock options	6.4	6.4
Shares to be provided to other shareholders (1)	17.4	17.4
Weighted average number of ordinary shares for the purposes of diluted EPS	163.5	163.5
Diluted earnings per share (in €)	0.99	0.12

(1) See note 17 – Acquisition of additional shares in Numericable Group from other minority shareholders

Note 7 – Reserves

A detailed description of the consolidated reserves of the Group is provided below:

	March 31, 2014
	(In millions of euros)
Contribution of Altice France and Altice International	(4,940.0)
Issuance costs	(29.7)
Stock options	2.2
Fair value of available for sale assets	3.4
Employee benefits	(0.2)
Changes in foreign exchange translation	0.1
Transactions with shareholders	2.0
Other variations	(0.3)
Group reserves	(4,962.6)

Group reserves as of March 31, 2014 were primarily composed of the contribution of Altice France and Altice International. As part of the IPO process, Next L.P., the sole shareholder of Altice France and Altice International, decided to contribute the two companies to Altice S.A. at their fair market value. As this is considered to be an operation under common control, the excess value of these shares (over nominal value) was adjusted through the reserves.

Note 8 – Borrowings and other financial liabilities

Total financial liabilities are broken down as follows:

	March 31, 2014	December 31, 2013
	(in millions of euros)	
Bonds	2,887.8	2,527.0
Loans from related parties	-	100.7
Borrowings from financial institutions	3,466.1	1,214.0
Finance leases	37.3	23.4
Other financial liabilities	160.2	105.9
Financial instruments	177.7	142.3
Non-current liabilities	**6,729.1**	**4,113.3**
Bonds	26.3	26.4
Borrowings from financial institutions	32.3	-
Finance leases	34.2	11.4
Other financial liabilities	9.5	4.5
Accrued interest	64.3	33.3
Current liabilities	**166.6**	**75.6**
Total	**6,895.7**	**4,188.9**

Increases in debt for the three month period ended March 31, 2014 were mainly explained by:

- The drawdown of € 20.5 million on the USD 80.0 million revolving credit facility at Altice Financing to finance the acquisition of Mobius S.A.S..
- The issuance of a new debt at Greendata center for a total amount of € 8.2 million in order to finance the construction of an additional datacentre capacities to support commercial development.
- The integration of Numericable Group in the Group accounts. See below.

A brief description of Numericable Group debts, fully integrated into the Group accounts for the period ended March 31, 2014, is provided below:

The Numericable Group entered into a Senior Facility Agreement ("**SFA**") dated June 6, 2006 (as amended March 2, 2007, December 9, 2009, September 8, 2011, July 31, 2013 and November 22, 2013) with BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch, and Morgan Stanley Bank International Limited as the Mandated Lead Arrangers, BNP Paribas as Agent and Security Agent, and others lenders. In addition, certain subsidiaries of the Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors within the SFA.

The SFA contains financial covenants that may affect the interest rates to be paid by the Group as well as the applicable margins on the SFA (see details below).

In 2012, the Numericable Group issued three bonds to refinance a portion of its current Senior Debt under the SFA. The issuer was Numericable Finance & Co. SCA, a Luxembourg company. The proceeds from the bonds were used by Numericable Finance & Co. to fund three new loans issued in favor of the Group by the Lending Bank (JP Morgan) under the Senior Facility Agreement:

- a C-One facility of €360 million;
- a C-Two A facility of €225 million;
- a C-Two B facility of €275 million.

In December 2013, the Numericable Group raised a new tranche of Senior Debt in a total amount of 800 million euros (Tranche D). This tranche is repayable by December 31, 2018 and bears interest at Euribor plus a margin of 3.75%.

The Numericable Group used the proceeds of this issue (800 million euros) and the proceeds of the capital increase carried out in the context of the public offer (250 million euros) to reimburse some of its existing debts, as follows:

- all of the Senior Debt originally subscribed by Altice B2B France in the amount of 451 million euros;
- all of the 275 million euro bond issue (Tranche C-Two B) subscribed in October 2012;
- part of the bond issue of 225 million euros (Tranche C-Two A) subscribed in October 2012 (repayment of 78.8 million euros) – the balance of this bond amounted to 146.3 million euros as of December 31, 2013;
- part of the bond issue of 360 million euros (Tranche C-One) subscribed in February 2012 (repayment of 126.1 million euros) – the balance of this bond amounted to 234.1 million euros as of December 31, 2013.

The table below summarizes the various tranches in place under the Senior Debt contract as of end-December 2013, their maturity, the applicable margin and the outstanding amount of the debt as of December 31, 2013:

Facility	Maturity	Margin/ Coupon (1)	Nominal (December) 2013 (2)
A2 and capex 2	June 2015	E + 3.875%	51.9
B1	June 2014	E + 3.50%	11.2
B2	June 2016	E + 4.75%	106.5
B3	December 2017	E + 4.75%	672.1
C1	December 2015	E + 4.00%	36.0
C2	December 2017	E + 5.25%	42.3
C3	December 2017	E + 4.75%	110.9
C4	December 2018	E + 5.00%	426.8
D	December 2018	E + 3.75%	800.0

(1) Euribor ("E") + margin applicable to the facility;
(2) Nominal amount expressed in millions of euros as of December 31, 2013, excluding accrued interestand the impact of the effective interest rate.

Variations in the debt of Numericable Group S.A. compared to the period ended December 31, 2013 are related mainly to the payment of accrued interests. Interest paid during the three month period ended March 31, 2014 amounted to € 10.9 million. Total outstanding debt (current and non-current) amounted to € 2,622.6 million as of March 31, 2014, including the bonds issued under the facilities C-1 and C-2, as described in section 8.1 below.

8.1 Bonds

Issuer	Fair value in millions of euros March 31, 2014	Coupon	Year of maturity	Carrying amount March 31, 2014	Carrying amount December 31, 2013
Hot Telecom					
- Debentures	294.5	Between 3.9% and 6.9% + Consumer Price Index	2018	265.1	280.1
Altice Financing					
- Senior Secured Notes USD 460 M	352.2	7.875%	2019	306.9	305.1
- Senior Secured Notes EUR 210M	231.6	8.00%	2019	203.0	201.8
- Senior Secured Notes EUR 300M	318.7	6.5%	2022	293.1	292.8
- Senior Secured Notes USD 900M	679.7	6.5%	2022	638.6	637.3
Altice Finco					
- Senior Notes USD 425M	349.2	9.875%	2020	309.5	309.1
- Senior Notes EUR 250M	280.5	9.00%	2023	245.4	245.3
- Senior Notes USD 400M	308.3	8.125%	2024	283.1	282.5
Numericable Group S.A.					
- Senior debt tranche C-One	282.1	12.375%	2019	227.1	-
- Senior debt tranche C-Two	166.4	8.750%	2019	143.3	-
Nominal value of bonds	**3,263.2**			**2,914.1**	**2,554.0**
Of which due within one year	26.3			26.3	26.8
Of which due after one year	3,236.9			2,887.8	2,527.0

8.2 Loans from related parties

As part of the initial public offering of Altice S.A., a restructuring of related party bonds was carried out, following which all existing related party bonds held by Next L.P. and issued by Altice International S.à r.l. and Altice France S.A. were contributed to Altice S.A. by Next L.P., in exchange for shares of Altice S.A.

As per the accounting standards, such instruments, being interest free in nature, had been recorded at their fair value in the consolidated financial statements of the Two Groups. During the IPO process, these instruments were contributed at their nominal value and converted into share capital and share premium of Altice S.A. thus, previous discounting reserves recorded in the accounts of Altice France and Altice International were reversed, thus leading to an adjustment of € (73.2) million to the Group's consolidated reserves.

As of March 31, 2014, no related party loans were outstanding at Altice S.A. level.

Variation in other financial liabilities is explained as follows:

(i) Cancellation of Altice Blue Two put: The minority shareholders of Altice Blue Two exchanged their shares in Altice Blue Two against common shares in Altice S.A. As a result of this exchange, the put agreement in place at Altice Blue Two was cancelled (considered to be unexercised), leading to the reversal of a debt amounting to € 53.2 million.

(ii) Repayment and conversion of vendor notes: Vendor notes held by Altice IV and Valemi Corp were respectively reimbursed and exchanged against common shares of Altice S.A. as part of the IPO, leading to a total decrease in other financial liabilities of € 20.7 million.

(iii) The variation in the fair value of financial instruments (Swap & Forwards contracts) for € 35.4 million from € 142.3 million to € 177.7 million.

8.3 Classification and fair value of financial assets and liabilities

The Group has financial instruments with fair values that are determined by reference to significant unobservable inputs i.e. those that would be classified as level 3 in the fair value hierarchy. There have been no transfers of assets or liabilities between levels of the fair value hierarchy. There are no non-recurring fair value measurements.

The financial instruments that are presented in the condensed consolidated statement of financial position in accordance with their fair value are classified in accordance with groups that have similar characteristics, into hierarchical levels for fair values, as aforesaid, which are determined in accordance with the source of the input that was used for determining the fair value:

- Level 1 - Quoted prices (without adjustments) in an active market for identical assets and liabilities.
- Level 2 - Inputs other than quoted prices that are included in level 1, which can be observed directly or indirectly.

  Level 3 - Inputs that are not based on observable market data (an evaluation technique that does not use observable market data).

As of March 31, 2014, the classification of financial instruments is summarized below:

For the three month period ended March 31, 2014	Recorded Value in Condensed Consolidated Statement of Financial Position	**Level 1** Quoted Prices in active markets for identical assets/liabilities	**Level 2** Significant other observable inputs	**Level 3** Inputs that are not based on observable market data
			(€ in millions)	
Recurring Fair Value Measurements				
Financial assets				
- Wananchi Group	31.9	-	-	31.9
- Partner Communications Co.	8.4	8.4	-	-
- Fiberman S.à r.l.	3.4	-	3.4	-
- Other financial assets at FVTPL	0.2	-	-	0.2
Financial liabilities				
- Other financial liabilities at FVTPL (derivative instruments)	177.7	-	175.8	1.9

As of March 31, 2014, the level 3 classification has been based on the latest capital increase that occurred of the Wananchi Group level.

For the year ended December 31, 2013	Recorded Value in Condensed Consolidated Statement of Financial Position	Level 1 Quoted Prices in active markets for identical assets/liabilities	Level 2 Significant other observable inputs	Level 3 Inputs that are not based on observable market data
			(€ in millions)	
Recurring Fair Value Measurements				
Financial assets				
- Wananchi Group	31.9	-	-	31.9
- Partner Communication Co.	8.4	8.4	-	-
Financial liabilities				
- Other financial liabilities at FVTPL (derivative instruments)	142.3	-	142.3	-

Note 9 – Segmental analysis

9.1 Definitions of segments

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geographical areas is inalienable to Group strategy of managing its different businesses. It has thus been decided by the Board of Directors to analyse the business across geographies and then by activity. The following geographies have been identified:

- Israel
- France
- Belgium and Luxembourg ("Belux")
- Portugal
- French Overseas Territories ("FOT")
- Dominican Republic
- Other (Switzerland, others)

Activities have been split as follows:

- Fixed
- Mobile
- Others (Content/others)

Following the acquisition and full integration of Numericable Group and the acquisition of Tricom S.A., two new geographic segments, France & Dominican Republic, corresponding to the sole geographic zones of operation of the two new entities, were added to the segmental analysis.

In addition, in the context of the anticipated acquisition and integration of the French mobile operator Société Francaise de Radiotéléphone S.A. ("SFR") into the Group, the Board of Directors has decided to amend the presentation of its operational segments, by regrouping Cable and B2B into a single line called 'Fixed', and by maintaining the mobile segment (SFR's activity is mainly mobile based). Other activities such as content, datacenters and holding company operations are classified under others. Such presentation is coherent with the presentation used by the Management of the Group.

The businesses that the Group owns and operates do not show significant seasonality.
There are few operational transactions between the different segments defined by Management above. Intersegment revenues are considered to be non-material by Management and, hence, not in the scope of regular operational reviews. Intersegment revenues represented less than 0.5% of total revenues for the three month periods ended March 31, 2014 and 2013, respectively.
All corporate entities revenues and expenses have been allocated to the segment "Others".

9.2 Segment information

Details regarding revenues, cost of sales and gross profit for our cable, mobile and other segments are as follows. The reconciliation to Profit before income tax (expenses) / benefits is presented below in accordance with the requirements of IFRS 8 (operating segments).

9.3 Definition of EBITDA

In view of the acquisition of a controlling stake in Numericable Group S.A., the initial public offering of the Company and the future integration of SFR, the Company has decided to define the 'Earnings before interest, taxes, depreciation and amortization, or EBITDA' metric, which is a non-GAAP measure that the Company considers to be an important indicator of its cash generating ability and overall profitability. EBITDA also excludes non-recurring costs related to restructuring, non-recurring costs, management fees and other expenses of a non-cash nature or that the Board of Directors considers to be non-relevant to its regular operating activities. A reconciliation between operating profit before depreciation and amortization is presented below in this note.

9.4 Reconciliation between operating income before depreciation and amortisation and EBITDA (In € millions) as at March 31, 2014

	France	Israel	Belgium & Luxembourg	Portugal	French Overseas Territories	Dominican Republic	Others	Total
Operating profit before depreciation, amortization and non-recurring costs	104.3	102.1	12.4	14.7	22.8	2.7	(0.1)	259.1
Expenses related to stock option plan	1.1	-	-	-	-	-	2.2	3.6
French value added tax	1.7	-	-	-	-	-	-	2.7
EBITDA	107.1	102.1	12.4	14.7	22.8	2.0	2.9	264.0

Note 10 – **Equity based** compensation

As part of the listing process, the Group adopted a new remuneration policy and company stock options were issued to executive directors and some senior management of the Group. The expenses associated with the issuance of these stock options were calculated and recorded in accordance with 'IFRS 2 – Stock Options' for the first time during the period ended March 31, 2014.

The options were valued using the Black and Scholes model, considering the modalities of the options as described in the articles and bylaws of the Company. The Company reserved the right to grant options of up to € 250 million upon admission, of which € 220.85 million were granted at IPO under the conditions listed below, as well as further options for an aggregate amount of €100 million for new hires and to promote employees and officers. Additional options worth € 20 million were granted to a member of the management team with conditions at admission different to those described below.

The conditions considered for the valuation of the options are given as follows:

- Options can only be issued on the issue date, defined as (i) the date of admission of Altice SA's shares on Euronext Amsterdam (January 31, 2014) or (ii) the date on which an employee or another person designated by the company becomes eligible to participate in the plan. Participants who will be granted options upon admission will not be eligible to receive more options until the fourth anniversary after the issue date;
- Each option granted will entitle the holder to acquire one ordinary share of the Company;
- Options will vest on a non-linear basis as per the following schedule:
    - A first tranche of 50% vests two years after the allocation of the options;
    - A second tranche of 25% vests three years after the allocation of the options ; and
    - The final tranche of 25% will vest four years after the allocation of the options .
- Vested options can be exercised at any time until the 10th anniversary of the issue date, after which they will be considered to have lapsed;
- The exercise price for the options is either (i) if issued on admission, the offer price of the Company's shares upon admission (€ 28.25) or, (ii) the weighted average price at which the shares are traded on Euronext Amsterdam for a period of six months preceding the issue date.

As of March 31, 2014, options with a nominal value worth €220.85 million had been allotted to different managers of the Company, (representing 7.82 million ordinary shares of Altice S.A. at the offering price at IPO). As of the date of this report, no options had been exercised or lapsed.

Based on these conditions, for the three month period ended March 31, 2014, Altice S.A. recorded € 2.2 million as expenses related to stock options in the line item, 'staff costs and employee benefits'. A stock option plan has also been established by Numericable Group S.A. for its employee and key management personnel, and an expense amounting to € 1.1 million has been recognized for the period ended March 31, 2014.

Note 11 – **Gain on step acquisition** / Investments in associates

On February 3, 2014, Altice France, a direct subsidiary of the Company, completed the acquisition of an additional 10% stake in Numericable Group S.A. (hereafter referred to as NG). This acquisition triggered a change in control of Numericable S.A., with Altice France becoming the largest shareholder in NG, with 5 out of 10 seats on the Board and the ability to name the Chairman. Thus, for the three month period ended March 31, 2014, NG has been fully consolidated into the financial statements of Altice S.A.

As a result of this change, the investment in associates recorded in the accounts of the Company was reversed and the fair value of the investment in Numericable Group S.A. was recorded in the accounts of Altice S.A. as investments in subsidiaries. The difference between the value previously recorded in the financial statements of Altice S.A. and the fair value of the investment (€ 936.6 million) was recorded as a gain on step acquisition in the condensed consolidated statement of income of Altice S.A. for the three months ended March 31, 2014.

Calculation of carrying amount of investment in associates as of February 3, 2014
(in € millions)

Balance as of December 31, 2013	679.1
Increase	1.3
Balance as of February 3, 2014 (a)	680.4

Calculation of fair value of investment in associates as of February 3, 2014
(in € millions)

No. of shares held at change of control	33.9
Observed share price at February 3, 2014	27.6
Fair value of investment on February 3, 2014 (b)	936.6

Gain on step acquisition (b) – (a) = 256.3

Note 13 – Compensation of key management personnel

The compensation given to the key management personnel, in respect of their duties as Chairman of the Board or member of the Board of Altice S.A., for the 3 months period ended March 31, 2014, was €0.6 million and €1.0 million for the 3 month period ended March 31, 2013.

Note 14 – Income tax

The company registered an income tax credit of € 5.1 million for the three month period ended March 31, 2014 compared to income tax expenses of €9.2 million for the three month period ended March 31, 2013. The variation between the two periods mainly pertains to value adjustments on derivatives instruments.

Note 15 – Commitments and contingent liabilities

15.1 Numericable Group S.A.

Commitments and contingent liabilities at the Numericable Group S.A. level were recognized for the first time in the accounts of the Company for the period ended March 31, 2014. Such information is disclosed under two separate sections in the accounts, as described below:

15.1.1 Provisions and contingent liabilities

The Numericable Group (hereafter, "the NG Group") is involved in legal and administrative proceedings that have arisen in the ordinary course of its business.

A provision is recorded by the NG Group when there is a sufficient probability that such disputes will lead to costs that the NG Group will bear and when the amount of these costs can be reasonably estimated. Certain companies of the NG Group are involved in a certain number of disputes related to the ordinary activities of the NG Group. Only the most significant disputes and proceedings in which the NG Group is involved are described below.

The NG Group is not aware of any governmental, legal or arbitration proceedings (including any proceedings of which the NG Group is aware, which are pending or threatened) other than those mentioned below in this section that may have or have had in the last 12 months significant effects on the financial position or profitability of the Company or the NG Group.

15.1.1.1 Tax audits

The French tax authorities have conducted audits of various companies of the NG Group since 2005 with respect to the VAT rates applicable to our multiple-play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, while Internet and telephony services are subject to a 19.6% VAT rate. When marketing multiple-play offerings, the NG Group allocates a price reduction compared with the price the NG Group would charge for its services on a stand-alone basis. This price reduction is primarily applied to its Internet and telephony services, because such services are newer products. As a result, the VAT charged to the subscribers was lower than the VAT that would have been charged if the NG Group had deemed the price reduction to apply primarily to the television portion of its packages.

The French tax authorities assert that these price reductions should have been calculated pro rata of the stand-alone prices of each of the services (television, broadband Internet, fixed and/or mobile telephony) included in the multiple-play packages of the Group and proposed adjustments for fiscal years 2006 to 2010.

The NG Group has formally challenged the tax assessments for the fiscal years from 2006 to 2009. The NG Group also referred the matter to the Ministry of Finance in December 2011 and sought a comprehensive settlement of the adjustments made by the tax administration in respect of the various NG Group companies for the period 2006-2009. Following this request, the tax administration lowered the amounts of adjustments for 2008 and 2009 by including in its calculation a limitation based on the 50/50 rule applicable on composite VAT, which was in force from 2008 to 2010. The new amounts of adjustments, totaling 17.1 million euros (excluding penalties of 40%) for the period 2006-2009, were communicated to the NG Group end of August 2012.

Furthermore, in 2012, the tax authorities also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013, calculated in the same manner as for fiscal years 2007 to 2009, in a total amount of 6.1 million euros (excluding penalties of 40%). The NG Group replied on August 21, 2013, challenging the proposed adjustments. The tax administration sent replies to the NG Group's observations in late October 2013, pursuant to which it maintains its adjustments. To date, the 2011 and subsequent years have not been subject to VAT audits on the Numericable scope. The tax administration has also demanded payment for the 2006 adjustment on NC Numericable (approximately 2 million euros of the 17.1 million euros mentioned above for the 2006-2009 period). The Group asked for a payment deferral and filed a complaint in September 2012, which was rejected by the tax administration on June 27, 2013. The NG Group filed an additional request on August 20, 2013.

VAT rules applicable to multiple-play packages changed starting January 1, 2011.

As of December 31, 2013, a tax contingency provision of 24.9 million euros (compared with 25.1 million euros as of December 31, 2012) was recognized to cover all the risks related to VAT (excluding penalties of 40%, which would amount to 7.1 million euros) related to the adjustments notified for fiscal years 2006 to 2010 (i.e. 23.5 million euros). The NG Group replied on August 21, 2013, challenging the proposed adjustments.

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission on December 19, 2013 of proposed adjustments. The adjustments focus on the challenge of charges for services provided to the companies in 2009, 2010 and 2011. A tax contingency provision covering all adjustments considered (income tax, VAT, withholding tax, penalties, surcharges and default interest) in the amount of 11.4 million euros was set aside December 31, 2013. In addition, the proposed adjustment results in a reduction of tax loss carryforwards in the amount of 28.5 million euros. The NG Group challenged all adjustments on February 17, 2014.

As of December 31, 2013, a tax contingency provision of 36.3 million was recognized to cover all the risks related to VAT (excluding penalties of 40%, which represents 7.1 million euros) related to the adjustments notified for fiscal years 2006-2010 (i.e. 24.9 million euros) and the risks associated with the challenging of charges for services under the adjustments notified for fiscal years 2009-2011 (11.4 million euros). This amount remained unchanged for the period ended March 31, 2014.

15.1.1.2 Commercial disputes

A.) In-depth inquiry of the European Commission into the transfer of cable infrastructures by certain local authorities

On July 17, 2013 the European Commission signaled that it had decided to open an investigation to verify whether the transfer of public cable infrastructure between 2003 and 2006 by several French municipalities to Numericable was consistent with European Union State aid rules. In announcing the opening of this in-depth investigation, the European Commission indicated that it believes that the sale of public assets to a private company without proper compensation gives it an economic advantage not enjoyed by its competitors, and that it therefore constitutes state aid within the meaning of the rules of the European Union. It argues that the transfer free of charge of the cable networks and ducts by 33 French municipalities in favor of Numericable confers a benefit of this type and, as such, state aid. The European Commission has expressed doubts about the compatibility of the alleged aid with the rules of the European Union.

The Group firmly denies the existence of any state aid. In addition, the decision to open an investigation concerns a relatively small number of network connections (200,000), the majority of which have not been migrated to EuroDocsis 3.0 and accordingly only allow access to a limited number of the Group's television services. The European Commission's decision of July 17, 2013 was published in the Official Journal of the European Union on September 17, 2013. Since then, discussions have continued within the framework of the procedure in respect of observations of third parties as well as those of the parties to the proceedings as to the allegation of the existence of aid and its extent, with the Group firmly challenging the existence of any state aid.

B.) Litigation with Orange relating to Indefeasible Right of Uses ("IRUs")

The NG Group entered into four non-exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004 and December 21, 2004, in connection with the acquisition by the Group of certain companies operating cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to the Group by Orange through these non-exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a term of 20 years.

Following ARCEP's decision 2008-0835 of July 24, 2008, Orange published, on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators can roll out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms that the Group enjoys under the Orange IRUs. As a result, Orange asked the Group to comply with the general rules regarding access to Orange's ducts for the purpose of maintaining and upgrading its network. This issue was litigated, and both ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010 and June 23, 2011 respectively. Numericable appealed the decision before the French Supreme Court (*Cour de Cassation*), which upheld, for the most part, the decision of the Paris Court of Appeal.

Moreover, on October 21, 2011, ARCEP initiated penalty proceedings against Numericable, arguing that it had not complied with its November 4, 2010 decision. Consequently, in December 2011, Numericable and Orange signed amendments to the IRUs in order to comply with the November 4, 2010 ARCEP decision and to align the operating procedures set out in the IRUs with the procedures set out in the Orange generic technical and commercial offer.

In the meantime, the penalty proceedings initiated by ARCEP were not stopped by the execution of the amendments to the IRUs, and Numericable was fined 5.0 million euros on December 20, 2011 for noncompliance with ARCEP's November 4, 2010 decision. The fine was paid in full during fiscal 2012. Numericable filed an appeal against the decision before the Council of State. Within the framework of this appeal, Numericable having raised a question of Constitutional law, referred to the Constitutional Court, on the compliance with the Constitution of Article L. 36-11 of the CPCE, which sets out ARCEP's powers. On July 5, 2013, the Constitutional Court found in Numericable's favor and invalidated paragraphs 1 to 12 of Article L. 36-11 of the CPCE, on the basis of which ARCEP's December 20, 2011 decision to impose the aforementioned penalty was made. Numericable asked the Council of State to take the conclusions of this decision into consideration and accordingly to cancel ARCEP's December 20, 2011 decision. On October 21, 2013, the Council of State annulled the penalty imposed by ARCEP on December 20, 2011, which had condemned Numericable and NC Numericable to a fine of 5 million euros for non-compliance with ARCEP's November 4, 2010 ruling.

Lastly, Numericable initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010 claiming damages of 2.7 billion euros for breach and modification of the IRUs by Orange. On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed the Group's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. Numericable appealed this decision before the Paris Court of Appeal and claimed the same amount of damages. Orange, in turn, claims that the proceedings materially impaired its brand and image, and claims damages of 50 million euros. The Commercial Court of Paris is expected to hear this case during the second quarter of 2014.

C.) Litigation with Free relating to an advertising campaign

A claim was filed against NC Numericable before the Commercial Court of Paris by telecommunication operator Free on August 3, 2011 in relation to the launch of the mobile offer by the Group in spring 2011 through an advertising campaign entitled "*La révolution du mobile continue.*"

Free, which used the term "revolution" to refer to its launch of mobile phone services and whose latest offering was named the "Freebox Revolution," argues that Numericable's campaign led to customer confusion and damaged its brand and image. The case is currently pending before the Paris Commercial Court. Free is claiming damages of 10.0 million euros. After the hearing, the Court asked for an opinion from the French competition authority ("*Direction générale de la concurrence, de la consommation et de la répression des fraudes*" – DGCCRF) related to the reality of the assertions of Free with regard to the laws governing advertising. The DGCCRF returned an opinion in which it indicated that the questions raised by Free did not constitute a fault under the applicable law. However, on December 13, 2013, the Commercial Court of Paris condemned NC Numericable to pay Free the sum of 6,391,000 euros. NC Numericable appealed this decision. As the decision is enforceable and the amount was paid in early 2014, the risk was fully provisioned as of December 31, 2013.

This provision booked in relation to the litigation with Free concerning an advertising campaign was fully utilized as of March 31, 2014. The Group set aside the entire fine in the consolidated financial statements for the year ended December 31, 2013 and the decision was executed in early January 2014.

D.) Litigation with several editors of value-added services (AVS)

On February 19, 2013, five companies editing value-added telephone services offering their services to the public through premium numbers (0899), jointly assigned Completel before the Commercial Court of Nanterre. The plaintiffs asked for the condemnation of Completel to pay 350,000 euros in repayment of sums corresponding to deductions made by Completel from the sums collected on their behalf. Completel made these deductions in response to practices by these companies that it considers contrary to the agreements between these companies and Completel, as well as ethical standards in the industry. They also sought payment of damages in a total amount of 12 million euros in compensation for the prejudice allegedly suffered as a result of the withholding of money by Completel.

Furthermore, in November 2012, Completel, having decided in November 2012 to put an end to this activity, suspended certain repayments and applied various contractual penalties on companies selling this type of value-added telephony services. Some of these companies assigned Completel before various Commercial Courts and sought an order for the payment of the amounts withheld by Completel or the cancellation of penalties applied by Completel. The overall claim amounts to approximately 400,000 euros, mainly representing sums collected for these companies.

E.) Dispute with the Ligue de Football Professionnel

In a submission to the Commercial Court of Nanterre dated April 26 2013, the Professional Football League ("*Ligue de Football Professionnel*" – LFP) argued that Numericable had abused its dominant position in breach of its obligation of non-discrimination against the LFP when it was in charge of the production of the CFoot channel. The LFP requested 4.1 million euros in damages in compensation for the prejudice. More particularly, the LFP criticized Numericable for the low level of remuneration for the marketing of the CFoot channel compared with the remuneration of certain sports channels sold in packages. A hearing on the matter is expected in 2014.

F.) Action by Colt, Free and Orange before the General Court of the European Union concerning the DSP 92 project

Colt, Free, and Orange, in three separate proceedings against the European Commission, filed a request with the General Court of the European Union for the cancellation of the final decision of the European Commission dated September 30, 2009 (Decision No. C (2009) 7426), which held that the compensation of 59 million euros granted within the framework of the public service concession for the establishment and operation of a high-capacity electronic communications network in the department of Hauts de Seine does not constitute state aid within the meaning of the rules of the European Union. The Group is not party to this proceeding. Its subsidiary Sequalum is acting as the civil party, as well as the French state and the department of Hauts de Seine. In three rulings dated September 16, 2013, the General Court of the European Union rejected the requests of the three applicants and confirmed the aforementioned decision of the European Commission. Free and Orange have appealed to the Court of Justice of the European Union.

G.) Complaint of Bouygues Telecom

In late October 2013, the Numericable Group received a claim from Bouygues Telecom on the "white label" contract concluded between the two companies on May 14, 2009, initially for five years and extended once for an additional five years for the supply to Bouygues Telecom of double- and triple-play broadband offers. In its letter, Bouygues Telecom claimed damages totaling 53 million euros as a result of this contract. Bouygues Telecom alleges a prejudice that justifies, according to Bouygues Telecom, damages including (i) an amount of 17.3 million euros due to an alleged pre-contractual fraud (provision of incorrect information prior to the conclusion of the contract), (ii) an amount of 33.3 million euros as a result of alleged failure by Group companies in the execution of the contract and (iii) an amount of 2.4 million euros to repair the alleged damage to Bouygues Telecom's image. The Numericable Group considers these claims unfounded both in fact and in contractual terms, and rejects both the allegations of Bouygues Telecom and the amount of damages claimed. It nevertheless intends to continue regular discussions between the parties regarding the implementation of this contract, for which Bouygues Telecom is requesting modifications in the context of its claim. Notwithstanding this claim, which has not been brought before the courts, the parties have continued their day-to-day cooperation in conditions identical to those prevailing before October 2013. The contract, which runs until 2019, generated 37.3 million euros in revenues in 2012, 49.6% of total white label B2C revenues of 75.3 million euros and 2.8% of the Group's total revenues.

H.) Investigation of DSP 92 by the Regional Auditor of Ile-de-France

In mid-November 2013, a number of press articles reported that the Regional Auditor of Ile-de-France had opened an investigation into the management of the department of Hauts-de-Seine between 2004 and 2007. The articles reported that the investigation would focus primarily on the DSP 92 project awarded to Numericable, and in particular the granting of 59 million euros in consideration for public service costs for the establishment and operating of a high-capacity electronic communications network in Hauts de Seine. The Numericable Group has no information as to the object or the timing of the investigation, and as such to its exact nature or its potential impact on the Group. However, the Group notes, as indicated above, that DSP 92 has been validated by French administrative courts, by the European Commission and by the General Court of the European Union, before which action against the DSP 92 contract has successively been brought, and that the Court of Auditors has no power to act against a non-governmental entity.

I.) Litigation with employees

The Numericable Group is involved in litigation with a certain number of employees, a large part of which is due to the last merger period in 2006-2007, involving UPC-Noos, which gave rise to adjustments and harmonization in practices leading to disputes until 2009. The overall risk for this litigation is approximately 4 million euros. Most of this litigation consists of the challenge by an employee of the grounds for or the form of his or her dismissal.

15.1.2 Commitments and contractual liabilities

	< 1 year	Maturity 1-5 years	> 5 years	Total March 31, 2014	Total December 31, 2013
		(in € millions)			
Operating leases	10.2	33.7	11.7	**55.6**	**58.2**
Total	**10.2**	**33.7**	**11.7**	**55.6**	**58.2**

The Numericable Group also has property and vehicle lease commitments under operating leases. The lease term for property under operating leases is generally 3, 6 or 9 years, a standard lease term for commercial real estate in France. The lease term for vehicles under operating lease is 3 years.

As part of the networks business, leases involving equipment and network IRUs (rights of use of the local loop, backbone) or other rental contracts (rights of way) were not considered material.

In connection with its entertainment business activities, the Group has also entered into operating leases and agreements to purchase TV programs.

The maturities of operating leases are provided above.

15.2 Israel

CONTINGENT LIABILITIES

During the routine course of business, lawsuits have been filed against the companies in the Group and various legal proceedings are outstanding against it (hereinafter - The Legal Claims).

In the opinion of the management of the Group, based, inter alia, on legal opinions in respect of the chances of the lawsuits, a fair provision of €10.6 million (NIS 51 million) has been recorded in the Condensed Consolidated financial statements as of March 31, 2014, where provisions are required, in order to cover the exposure as the result of the lawsuits.

In the opinion of the management of the Group, the amount of the additional exposure, in an amount of approximately € 562.8 million (NIS 2.7 billion) (over and above the provisions that have been recorded in these Condensed Consolidated financial statements), as of March 31, 2014, as a result of lawsuits that have been filed against companies in the Group on various matters, is as follows:

- An amount of approximately €375.2 million (NIS 1.8 billion) in respect of claims, in respect of which in the assessment of the Company's management, in reliance on the opinion of its legal advisors, the chances of their being accepted do not exceed 50%.
- An amount of approximately €83.4 million (NIS 0.4 billion) in respect of claims, in respect of which it is not yet possible, at this stage, to make an assessment, the main ones being in connection to applications for the approval of class actions that were presented close to the date of the financial statements.
- An amount of approximately €104.2 million (NIS 0.5 billion) in respect of claims which, in the assessment of the Company's management, in reliance upon the opinions of its legal advisors, their chances of being accepted exceed 50% and in respect of which a provision has been recorded in accordance with the assessment of the managements of the companies in the Group.

The following is an abbreviated summary of the Group's contingent liabilities effective as of March 31, 2014, in accordance with groupings having similar characteristics:

The nature of the lawsuit	The amount of the additional exposure in excess of the provision recorded as of March 31, 2014	The amount of the lawsuits that cannot be assessed and which were presented close to the date of the financial statements (primarily applications for approval as class actions)	Provisions recorded in the financial statements as of March 31, 2014	Provisions recorded in the financial statements as of December 31, 2013	Updating of the expense (income), net in the reporting period
	(€ millions)				
Customers (1)	478.8	82.1	4.2	4.2	-
Copyrights	0.6	-	5.6	6.3	(0.2)
Suppliers	22.3	11.0	0.6	0.4	0.2
Employees (2)	1.5	-	0.2	0.2	-
The merger transaction	49.8	-	-	-	-
Total	553.0	93.2	10.6	11.0	-

(1) The amount includes €0.9 million (NIS 4.5 million) in respect of claims after the balance sheet date.
(2) The amount includes €0.3 (NIS 1.5 million) in respect of claims after the balance sheet date.

15.3 Portugal

As at March 31, 2014, the Oni Group and Cabovisao have bank guarantees given to third parties in order to secure the fulfilment of their obligations under some of their agreements for, respectively, a total amount of €5.6 million and €10.6 million.

As at March 31, 2014, Cabovisao recorded provisions for approximately €5.2 million for fiscal contingencies for withholding taxes. During first quarter 2014, the Instituto do Cinema e do Audiovisual ("ICA") rendered an unfavourable decision regarding the Audiovisual and Cinema taxation for which an amount of €0.9 million was already recorded in the consolidated financial statements as at December 31, 2013.

15.4 Other subsidiaries of the group

Management has not identified any significant changes to the commitments of the other subsidiaries of the group as compared to the period ended December 31, 2013.

Note 16 – Going concern

As of March 31, 2014, the Group had a net current asset position of €449.9 million (mainly due to restricted cash of €962.0 million). During the three month period ended March 31, 2014, the Group recorded a net profit of €178.6 million (€17.3 million as of March 31, 2013), positive cash flow from operations of €230.5 million (€ 65.9 million for the three months ended March 31, 2013), and negative working capital of €513.9 million. The positive cash flow from operations balance was mainly due to strong earnings growth and EBITDA generation. The net gain recorded resulted mainly from the recognition of a non-cash gain on the step acquisition of Numericable Group S.A. for a total amount of € 256.3 million.

The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short DSOs (Days of sales outstanding) and suppliers are paid in the beginning of the following month, thus generating a negative working capital, as evidenced by the difference in the level of receivables and payables (€601.5 million as of March 31, 2014 compared to €1,171.6 million). Payables due the following month are covered by revenues and operating cash (if needed). As of 31 March 2014, the Group had few short term current liabilities with amortization of debts limited to the local bonds in Israel (€ 13.0 million per half year) and on the Altice Financing term loan facility (€ 1.8 million per quarter).

As at March 31, 2014, the Company had a positive equity position of € 1,176.7 million, of which €986.6 million attributable to the equity holders. This positive position results from the initial public offering of shares of Altice S.A. on Euronext Amsterdam, as well as the conversion and contribution of various vendor debts and minority interests stakes into the equity of Altice S.A.

In view of the current financial situation of the Company, Management is confident that the Group will continue to act as a going concern for the next twelve months, given its strong earnings and cash flow generating ability.

The Group had sufficient cash reserves as of March 31, 2014 (€347.2 million) to cover its operational needs. Additionally, the Group had access to revolving credit facilities ("RCF") of up to € 66.7 million.

Note 17– Subsequent events

Acquisition of additional shares in Numericable Group from other minority shareholders

On April 5, 2014, Altice, controlling shareholder of Numericable Group, has entered into an agreement with Carlyle Cable Investment SC (« Carlyle », an affiliate of The Carlyle Group) and CCI (F3) S.à r.l (« Cinven », and affiliate of Cinven), according to which Altice will acquire the entirety of their respective stake in the share capital of Numericable Group (21.32% from Carlyle and 13.27% from Cinven). This acquisition of approximately 34.6% of Numericable Group's share capital will be implemented (i) for up to approx. 14% of the share capital of Numericable Group (6.50% for Cinven and 7.50% for Carlyle) by a sale of shares at a price of € 30.50 per share payable in cash and (ii) for the remainder, by a contribution in kind, remunerated in shares of Altice SA (one share of Numericable Group for 0.97 share of the Company).

Following this transaction, Altice's stake in the share capital and voting rights of Numericable Group will increase from 40% to 74,6%. Altice thereby confirms its intention to raise its stake in Numericable Group by acquiring the participations of Carlyle and Cinven. This acquisition would end, at its completion, the majority concert of these three shareholders, in place since the listing of Numericable Group.

The completion of this transaction is subject to obtaining an exemption from the French Autorité des Marchés Financiers from the obligation to launch a public tender offer on all Numericable Group S.A. shares.

SFR acquisition

On April 6, 2014, the Vivendi group (VIV) announced that it had accepted an offer from NG to acquire the shares of SFR Société Française du Radiotéléphone S.A. and their subsidiaries (hereafter referred to as the "SFR Group" or "SFR"). After the completion of the transaction, Altice S.A. is expected to hold approximately 59.7% of the new Numericable Group (after the above mentioned SFR Acquisition).

Under the terms of the agreement, the details of which are laid out in the appendix, Vivendi will receive €13.5 billion in cash and 20% of the combined SFR - Numericable Group as well as a potential earn-out of €750 million. Vivendi will also at a later stage have the possibility of selling its 20% stake according to set terms.

Orange Dominicana Acquisition

On April 9, 2014, the Company, through its indirect subsidiary Altice Bahamas, completed the acquisition of Orange Dominicana ("ODO"), a mobile and ADSL operator in the Dominican Republic, for approximately $1.4 billion (€1 billion).

ODO has approximately 3.3 million mobile subscribers. In 2013, it had revenue of €446 million and EBITDA of €173 million.

The acquisition of ODO, following the acquisition of cable operator Tricom in March, fits perfectly with Altice's strategy of combining both fixed and mobile assets in order to offer quadruple-play services over state-of-the-art communication networks.

This also strengthens Altice's presence in the Caribbean where it already offers pay-TV, broadband, fixed and mobile telephony services in Martinique, Guadeloupe and French Guyana.

For the three months ended March 31, 2014, Orange Dominicana would have contributed €108.8 million to revenues and € 27.4 million to operating income of the Group, had it been acquired on January 1, 2014.

The total consideration paid to the owners of ODO amounted to € 1,033.9 million, which was paid using the proceeds raised in December 2013.

The total value of assets transferred in consideration for the values mentioned above amounted to € 437.6 million, comprising mainly of intangible assets for a net value of € 35.0 million, property, plant and equipment for a total value of € 229.7 million and trade receivables for a total amount of € 31.5 million. Total liabilities amounted to € 103.5 million, comprising of € 10.9 of non-current liabilities and € 92.7 million of current liabilities, the residual value of € 700.0 million was recognised provisionally as goodwill.

Goodwill will be recognised as a result of the acquisition as follows:

Total consideration transferred	€ 1,033.9 million
Fair value of identifiable assets and liabilities	€ 333.9 million
Goodwill	€ 700.0 million.

Issuance of debt to finance the acquisition of SFR

On April 23, 2014, Altice S.A. announced the issuance of (i) €2,075 million in aggregate principal amount of its 7 1/4% Senior Notes due 2022 ("Senior Euro Notes") and (ii) $2,900 million aggregate principal amount of its 7 3/4% Senior Notes due 2022 ("Senior Dollar Notes" and, together with the Senior Euro Notes, the "Senior Notes"). Following their release from escrow, proceeds of the Senior Notes, together with proceeds from certain future equity financings, will be used to (i) exercise all preferential subscription rights to be allocated to Altice France S.A. ("Altice France"), a wholly-owned subsidiary of Altice S.A., pursuant to the €4,732 million rights issue by Numericable Group S.A. ("Numericable") comprising ordinary shares with preferential subscription rights to its existing shareholders (the "Numericable Rights Issue"), (ii) purchase certain ordinary shares of Numericable from funds affiliated with Carlyle Group and Cinven Ltd., (iii) repay certain existing indebtedness of Altice France, and (iv) pay fees and expenses related thereto. The offering of the Senior Notes has closed on May 8, 2014, and the proceeds from such offering are now held in segregated escrow accounts pending satisfaction of certain escrow release conditions (including the completion of the Numericable Rights Issue).

Additional debt was issued by Numericable Group S.A., a direct subsidiary of Altice S.A., to finance the acquisition of SFR through an offering of (i) $2,400 million aggregate principal amount of its 4⅞% Senior Secured Notes due 2019 (the "2019 Senior Secured Notes"), (ii) €1,000 million aggregate principal amount of its 5⅜% Senior Secured Notes due 2022 (the "Euro 2022 Senior Secured Notes"), (iii) $4,000 million aggregate principal amount of its 6.0% Senior Secured Notes due 2022 (the "Dollar 2022 Senior Secured Notes"), (iv) €1,250 million aggregate principal amount of its 5⅝% Senior Secured Notes due 2024 (the "Euro 2024 Senior Secured Notes"), and (v) $1,375 million aggregate principal amount of its 6¼% Senior Secured Notes due 2024 (the "Dollar 2024 Senior Secured Notes", and together with the 2019 Senior Secured Notes, Euro 2022 Senior Secured Notes, Dollar 2022 Senior Secured Notes, Euro 2024 Senior Secured Notes, the "Senior Secured Notes" and, together with the Senior Notes, the "Notes"). Following their release from escrow, proceeds of the Senior Secured Notes, together with borrowings under a senior secured loan credit facility to be entered into by Numericable on or about April 23, 2014 in an aggregate principal amount equivalent to €3,780 million (equivalent) and the proceeds of the Numericable Rights Issue, will be used by the Numericable to (i) pay cash consideration to Vivendi S.A. to acquire 100% of the capital of SFR (other than 10 shares in SFR not held by Vivendi S.A.) and all of the shares of another subsidiary of Vivendi S.A., SIG 50 (the "Acquisition"), (ii) refinance certain existing indebtedness of Numericable and its subsidiaries, (iii) purchase the shareholder note owed by SFR to Vivendi S.A. and (iv) pay fees and expenses related thereto. The offering of the Senior Secured Notes was closed on May 8, 2014, and the proceeds from such offering will be held in segregated escrow accounts pending satisfaction of certain escrow release conditions (including completion of the Acquisition).

Additional RCF (200 M EUR)

As part of the debt issuance to finance the acquisition of SFR, Altice S.A. obtained an additional revolving credit facility of € 200 million to provide additional liquidity and flexibility to the firm.

Note 18 – Approval of the condensed consolidated financial statements

The condensed consolidated financial statements were approved by the Board of Directors and authorized for issue on May 15, 2014.

REVIEW REPORT OF THE REVISEUR D'ENTREPRISES AGREE ON CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Altice S.A. as of March 31, 2014 and the related condensed consolidated statements of income, other comprehensive income, changes in equity and cash flows for the three month period then ended and the other explanatory notes (collectively, the "Interim Financial Statements"). The Board of Directors is responsible for the preparation and fair presentation of the Interim Financial Statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union. Our responsibility is to express a conclusion on these Interim Financial Statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the entity "ISRE 2410"*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Financial Statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as adopted in the European Union.

Other matter

We draw attention to the fact that the comparative amounts within the Interim Financial Statements relating to the three month period ended March 31, 2013 were not subject to an audit or a review in accordance with ISRE 2410. Our conclusion is not modified in respect of this matter.

To the Board of Directors of
Altice S.A.
3, Boulevard Royal
L-2449 Luxembourg

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

We have audited the accompanying opening balance sheet of Altice S.A. as of January 3, 2014 and a summary of significant accounting policies and other explanatory information (together "the opening balance sheet"). The opening balance sheet has been prepared under the responsibility of the Board of Directors using the basis of preparation described in Note 2.

Board of Directors responsibility for the opening balance sheet

The Board of Directors is responsible for the preparation and fair presentation of this opening balance sheet in accordance with the basis of preparation described in Note 2. This includes determining that the basis of preparation is an acceptable basis for the preparation of the opening balance sheet in the circumstances, and for such internal control as the Board of Directors determines is necessary to enable the preparation of the opening balance sheet that is free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on this opening balance sheet based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the opening balance sheet is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the opening balance sheet. The procedures selected depend on the judgment of the *réviseur d'entreprises agréé's*, including the assessment of the risks of material misstatement of the opening balance sheet, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the opening balance sheet in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the opening balance sheet. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the opening balance sheet presents fairly, in all material respects, the financial position of Altice S.A. as at incorporation on January 3, 2014 in accordance with the basis of preparation described in Note 2.

Basis of accounting

Without modifying our opinion, we draw attention to Note 2 to the opening balance sheet, which describes the basis of preparation. The opening balance sheet is prepared solely for the purpose of inclusion in a Prospectus to be issued by Altice S.A. on or around July 16, 2014 in relation to the proposed offering of its shares and is not suitable for any other purpose.

The accompanying notes form an integral part of this opening balance sheet.

Notes to the opening balance sheet at incorporation
as of January 3, 2014

Note 1 – Corporate information

ALTICE S.A. (hereafter "the Company") is a Luxembourg holding company incorporated on January 3, 2014 as a "Société Anonyme" for an unlimited period of time, subject to general company law. Its registered office is established at 3, boulevard Royal, L-2449 Luxembourg.

The Company's financial year begins on January 1 and ends on December 31 of each year with the exception of the first financial year which began on January 3, 2014 (date of incorporation) and will end on December 31, 2014.

The principal activity of the Company is to carry out all transactions pertaining directly or indirectly to the taking of participating interests in any enterprises in whatever form, as well as the administration, management, control and development of such participating interests, in the Grand Duchy of Luxembourg and abroad.
The Company may particularly use its funds for the setting-up, management, development and disposal of a portfolio consisting of any securities and intellectual property rights of whatever type or origin, participate in the creation, development and control of any enterprises, acquire by way of contribution, subscription, underwriting or by option to purchase and any other way whatsoever, any type of securities and intellectual property rights, realise them by way of sale, transfer, exchange or otherwise, have these securities and intellectual property rights developed. The Company may grant assistance (by way of loans, advances, guarantees or securities or otherwise) to companies or other enterprises in which the Company has an interest or which form part of the group of companies to which the Company belongs (including shareholders or affiliated entities) or any other companies. The Company may further pledge, transfer, encumber or otherwise create security over all or over some of its assets.
The Company may borrow in any form except by way of public offer (to the extent prohibited by any applicable law). It may issue by way of private placement only, notes, bonds and debentures and any kind of debt, whether convertible or not, and/or equity securities.
In general, the Company may likewise carry out any financial, commercial, industrial, movable or real estate transactions, take any measures to safeguard its rights and make any transactions whatsoever which are directly or indirectly connected with its purpose or which are liable to promote their development.

Note 2 – Summary of significant accounting policies

2.1. Basis of preparation

The opening balance sheet of the Company has been prepared in accordance with IAS 1, IAS 12 and IAS 32 of the International Financial Reporting Standards as adopted in the European Union.

Notes to the opening balance sheet at incorporation (cont'd)
as of January 3, 2014

Note 2 - Summary of significant accounting policies (cont. and end)

2.1. Basis of preparation (cont. and end)

The opening balance sheet has been prepared on the historical cost basis. Historical costs are usually based on the fair value of the consideration given in exchange for assets.

The measurement and recognition criteria of the International Financial Reporting Standards applicable to the account balances are included in the opening balance sheet.

The principal accounting policies are set below:

2.1.1. Cash and cash equivalents

Cash and cash equivalents include cash at bank. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

2.1.2. Trade and other payables

Trade and other payables are stated at their nominal value.

2.1.3. Taxation

Income tax expenses represent the sum of the tax currently payable and deferred tax. Taxable profit may differ from profit as reported in the statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Notes to the opening balance sheet at incorporation (cont'd and end)
as of January 3, 2014

Note 3 – Issued capital

The Company's equity is composed of ordinary shares as follows:

	January 3, 2014 EUR
Issued capital:	
31 000 ordinary shares of EUR 1 each	31 000,00

Note 4 – Trade and other payables

This item is composed of amounts due to the notary in connection with expenses incurred at incorporation for an amount of EUR 1 664,58.

Note 5 – Cash and cash equivalents

Cash and cash equivalents consist of the current account with the bank of the company.

Note 6 – Taxation

In the context of the opening balance sheet, no deferred tax asset has been recorded in relation to the loss incurred at incorporation since the Company's ability to crystallise the deferred tax asset amounting to EUR 486 is contingent upon the success of all contemplated funding operations.

Note 7 – Related Party Disclosure

Board of Directors

The Company is managed by a Board of Directors invested with the broadest powers to perform all acts of administration and disposition in compliance with the corporate objects of the Company.

Note 8 – Subsequent events

On January 7, 2014, the Company has published a press release where it announces its intention to float its shares. The success of such a floating would result in the Company being the holding company of its ultimate shareholders' interest in Altice VII S.à r.l. and Altice Six S.A.

Consolidated financial statements for the year ended December 31, 2013

Statement of Director's responsibilities

The Directors are responsible for preparing the Annual Report, including the consolidated financial statements, the consolidated management report and the Corporate Governance Report, in accordance with Luxembourg legal and regulatory requirements ("Company Law"). The Directors are also responsible for ensuring that the Annual Report is published in accordance with Company Law.

Company Law requires the Board of Directors to prepare consolidated financial statements for each financial year. The Directors are required by Regulation (EC)1606/2002 of 19 July 2002 ("IAS Regulation") to prepare the consolidated financial statements in accordance with International Financial Reporting Standards as adopted in the European Union ("IFRSs").

IFRS requires that the consolidated financial statements give a true and fair view of the Company's consolidated financial position, consolidated financial performance and cash flows for each financial year. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's "Framework for the preparation and presentation of financial statements". In doing so, the Directors are responsible for ensuring compliance with all applicable IFRSs so as to ensure that the consolidated financial statements give a true and fair view.

The Directors are also required to properly select and apply accounting policies; present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information; and provide additional disclosures when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Company's financial position and financial performance.

Responsibility statement

We confirm to the best of our knowledge that:

1. The consolidated financial statements of Altice S.A. as at and for the year ended December 31, 2013 presented in this Annual Report and established in conformity with International Financial Reporting Standards as adopted by the European Union, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included within the consolidation taken as a whole.

2. The consolidated management report includes a fair review of the development and performance of the business and position of the Company and the undertakings included within the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

By order of the Board of Directors

Dexter Goei
Chief Executive Officer

Dennis Okhuijsen
Chief Financial Officer

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

To the Shareholders of
Altice S.A.
3, boulevard Royal
L-2449 Luxembourg
Grand-Duchy of Luxembourg

Report on the consolidated financial statements

Following our appointment by the Shareholders, we have audited the accompanying consolidated financial statements of Altice S.A. (the successor entity of Altice Six S.A. and Altice VII S.à r.l.) which comprise the consolidated statement of financial position as at December 31, 2013, and the consolidated statements of income, other comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Responsibility of the Board of Directors for the consolidated financial statements

The Board of Directors is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted in the European Union, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of Altice S.A. (the successor entity of Altice Six S.A. and Altice VII S.à r.l.) as of December 31, 2013, and of its consolidated financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted in the European Union.

Report on other legal and regulatory requirements

The consolidated management report, which is the responsibility of the Board of Directors, is consistent with the consolidated financial statements and includes the information required by the law of December 19, 2002 on the commercial and companies register and on the accounting records and annual accounts of undertakings, as amended with respect to the corporate governance statement.

Cash and cash equivalents at end of year	12	61.6	129.8

The accompanying notes form an integral part of these consolidated financial statements.

1 Notes to the consolidated financial statements

1.1 Presentation of the Two Groups forming Altice Group

Altice S.A.

Altice S.A. (the "Company") is a public limited liability company (*Société Anonyme*) incorporated in the Grand Duchy of Luxembourg whose head office is in Luxemburg and has been formed on January 3, 2014. Upon admission of the Company's shares on Euronext Amsterdam on January 31, 2014, the Company received the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice Six S.A. and Altice VII S.à r.l.. Altice Six S.A. is hereafter referred to as "Altice Six" and Altice VII S.à r.l. and its subsidiaries are hereafter referred to as "Altice VII" or "Altice VII Group". The Company is hence the successor entity of Altice Six and Altice VII (collectively the "Predecessor Entities").

Altice Six

As at December 31, 2013, Altice Six holds shares in Numericable Group, a French group listed on Euronext Paris. Numericable Group is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. They also provide French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Additionally to the Business To Consumer ("B2C") described above and through its main operational entity, Completel S.A.S., Numericable Group operates the largest alternative fiber-to-the-office ("FTTO"), network in France, constituting the third alternative Digital Subscriber Line ("DSL") network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

Altice VII

Altice VII offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Where possible, Altice VII Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and common knowledge. In addition, the Altice VII group companies aim at sharing skills and best practices across the various operations of Altice VII Group.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand (''VoD'') and near-video-on-demand (''NVoD''), digital video recorders (''DVR''), high definition (''HD'') television services and, in certain areas, exclusive content, purchased or produced. The Altice VII Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice VII Group also offers broadband Internet access services and fixed-line telephony in all its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

1.2 Description of the context

Altice Six and Altice VII (collectively the "**Two Groups**", the "**Reporting Entity**" or the "**Consolidated Group**") are as at December, 2013, entities under common control and considered together to be the reporting entity for the purposes of these consolidated financial statements. The Two Groups are ultimately controlled by Patrick Drahi. The purpose of the consolidated financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical bases in the assets, liabilities and results of operations and cash flows for each period presented in the consolidated financial statements.

Accordingly, the consolidated financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice Six and Altice VII, which are separate legal groups as at December 31, 2013.

1.3 Statement of compliance

The Consolidated financial statements of Altice Group include a consolidated statement of financial position as of December 31, 2013, a consolidated statement of income, a consolidated statement of other comprehensive income, a consolidated statement of cash flows and a Consolidated statement of changes in equity for the year ended December 31, 2013 and the underlying Notes. The Consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (**"IFRS"**) as published by the International Accounting Standards Board (**"IASB"**) and as adopted by the European Union.

The Consolidated Financial Statements were approved by the Board of Directors on March 18, 2014.

1.4 Basis of presentation of the consolidated financial statements

The consolidated financial statements were prepared using the accounting records that were used to prepare the financial statements of the Altice Six and Altice VII sub-groups for the year ended December 31, 2013.

All intra-group balances and transactions have been eliminated in preparing the consolidated financial statements, including the transactions between Altice Six and Altice VII and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Patrick Drahi and the Consolidated Financial Statements reflects the combination of Altice Six and Altice VII using the following methods and principles:

- In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* (**"IFRS 3"**), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* and SEC Regulation S-X Article 3A – *Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Consolidated Financial Statements.

- Likewise, the Consolidated Financial Statements were prepared by aggregating the separate financial statements of Altice Six and Altice VII at their historical book value:
    - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Altice Six and Altice VII sub-groups and fully aggregated at their historical book value without being revalued;
    - The invested equity has been determined by aggregating the consolidated equity of the subgroups Altice Six and Altice VII ;
    - No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Consolidated Financial Statements;

The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated except for the operations that relate to associates which are not eliminated.

1.2. Application of new and revised International Financial Reporting Standards (IFRSs)

1.2.1 New and revised IFRSs affecting amounts reported and/or disclosures in the financial statements:

In the current year, the Consolidated Group has applied a number of new and revised IFRSs issued by the International Accounting Standards Board (IASB) and endorsed by the European Union.

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued comprising IFRS 10 Consolidated Financial Statements, IFRS 11 Joint Arrangements, IFRS 12 Disclosure of Interests in Other Entities, IAS 27 (as revised in 2011) Separate Financial Statements and IAS 28 (as revised in 2011) Investments in Associates and Joint Ventures. Subsequent to the issue of these standards, amendments to IFRS 10, IFRS 11 and IFRS 12 were issued to clarify certain transitional guidance on the first-time application of the standards.

In the current year, the Consolidated Group has early applied for the first time IFRS 10, IFRS 11, IFRS 12 and IAS 28 (as revised in 2011) together with the amendments to IFRS 10, IFRS 11 and IFRS 12 regarding the transitional guidance. IAS 27 (as revised in 2011) is not applicable to the Consolidated Group as it deals only with separate financial statements.
The impact of the application of these standards is set out below.

Impact of the application of IFRS 10

IFRS 10 replaces the parts of IAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements and SIC-12 Consolidation — Special Purpose Entities. IFRS 10 changes the definition of control such that an investor has control over an investee when a) it has power over the investee, b) it is exposed, or has rights, to variable returns from its involvement with the investee and c) has the ability to use its power to affect its returns. All three of these criteria must be met for an investor to have control over an investee. Previously, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Additional guidance has been included in IFRS 10 to explain when an investor has control over an investee.

The Directors of the Company made an assessment as at the date of initial application of IFRS 10 (i.e. 1 January 2013) and has not identified any impact in the scope of consolidation linked to application of IFRS 10 on the existing companies that are in the scope of consolidation as at December 31, 2013.

Impact of the application of IFRS 11

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities – Non-Monetary Contributions by Venturers.

IFRS 11 deals with how a joint arrangement should be classified where two or more parties have joint control. There are two types of joint arrangements under IFRS 11: joint operations and joint ventures. These two types of joint arrangements are distinguished by parties' rights and obligations under the arrangements.

Types of Joint Arrangement	Features	Accounting under IFRS 11
Joint venture	Joint ventures have rights to the net assets of the arrangement.	Equity method of accounting – Proportionate consolidation is no longer allowed
Joint operation	Joint operators have rights to the assets and obligations for the liabilities of the arrangement.	Each joint operator recognizes its assets, liabilities, revenue and expenses relating to its interest in joint operation in accordance with the IFRSs applicable to those particular assets, liabilities, revenues and expenses

Under IFRS 11, the existence of a separate vehicle is no longer a sufficient condition for a joint arrangement to be classified as a joint venture whereas, under IAS 31, the establishment of a separate legal vehicle was the key factor in determining whether a joint arrangement should be classified as a jointly controlled entity.

Application of IFRS 11 has no impact on the consolidated financial statements of the Consolidated Group for the year ended December 31, 2013.

Impact of the application of IFRS 12

IFRS 12 is a new disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the application of IFRS 12 has resulted in more extensive disclosures in the consolidated financial statements.

IFRS 13 Fair Value Measurement

The Consolidated Group has applied IFRS 13 for the first time in the current year. IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The scope of IFRS 13 is broad; the fair value measurement requirements of IFRS 13 apply to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except for share-based payment transactions that are within the scope of IFRS 2 Share-based Payment, leasing transactions that are within the scope of IAS 17 Leases, and measurements that have some similarities to fair value but are not fair value (e.g. net realisable value for the purposes of measuring inventories or value in use for impairment assessment purposes).

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions. Fair value under IFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Also, IFRS 13 includes extensive disclosure requirements.

IFRS 13 requires prospective application from 1 January 2013. In addition, specific transitional provisions were given to entities such that they need not apply the disclosure requirements set out in the Standard in comparative information provided for periods before the initial application of the Standard. In accordance with these transitional provisions, the Consolidated Group has not made any new disclosures required by IFRS 13 for the 2012 comparative period. Other than the additional disclosures, the application of IFRS 13 has not had any material impact on the amounts recognised in the consolidated financial statements.

Amendment to IFRS 7 disclosure – Offsetting Financial Assets and Financial Liabilities

The Consolidated Group has applied the amendments to IFRS 7 disclosures – Offsetting financial assets and liabilities for the first time in the current period, The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral pricing agreements) for financial instruments under an enforceable master netting agreement or similar arrangement.

The amendments have been applied retrospectively. As the Consolidated Group does not have an offsetting arrangement in place, the application of the amendments has had no material impact on the disclosures or on the amounts recognised in the consolidated financial statements.

Annual improvements to IFRSs 2009-2011 cycle issued in May 2012

The Annual Improvements to IFRSs 2009-2011Cycle include a number of amendments to various IFRSs. The amendments are effective for annual periods beginning on or after January 1, 2013. Amendments to IFRS include:

Amendments to IAS 16 Property Plant and Equipment; and

Amendments to IAS 32 Finaitcial Instruments: Presentation.

Amendments to IAS 16

The amendments to IAS 16 clarify that spare parts, stand-by equipment and servicing equipment should be classified as property, plant and equipment when they meet the definition of the property, plant and equipment in IAS 16 and as inventory otherwise. This amendment does not have a significant impact on the Consolidated Group's consolidated financial statements.

Amendments to IAS 32

The amendments to IAS 32 clarify that income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction should be accounted for in accordance with IAS 12 income taxes. This amendment does not have a significant impact on the Consolidated Group's consolidated financial statements.

Standards issued but not yet effective

In its financial statements, the Consolidated Group has not anticipated the following standards and interpretations, for which application is not mandatory for periods opened from January 1, 2013. Their impact on the Consolidated Group's financial statements is estimated not to be significant and/or not applicable.

IAS 36 Impairment of Assets: Recoverable Amounts Disclosures for Non-Financial Assets

This standard's objective is to amend the disclosure requirements in IAS 36 Impairment of Assets with regard to the measurement of the recoverable amount of impaired assets that were made as a consequence of issuing IFRS 13 Fair Value Measurement in May 2011.

The Consolidated Group anticipates additional disclosures in relation to the application of this standard.

IAS 39 *Financial Instruments: Recognition and Measurement* and IFRS 9 *Financial Instruments: Novation of derivatives and continuation of hedge accounting*

This standard's objective is to provide an exception to the requirement for the discontinuation of hedge accounting in IAS 39 and IFRS 9 in circumstances when a hedging instrument is required to be novated to a central counterparty as a result of laws or regulations.

The Consolidated Group does not apply hedge accounting and therefore does not expect any impact from the application of this Standard.

2 *Significant accounting policies*

2.1 Significant accounting policies

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

2.2 Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Consolidated Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

2.3 *Basis of consolidation*

The consolidated financial statements incorporate the financial statements of the Reporting Entity and entities (including structured entities) controlled by the Reporting Entity and its subsidiaries, except as disclosed in note 1.6. Control is achieved when the Reporting Entity:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting pattems at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of income and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Consolidated Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Consolidated Group are eliminated in full on consolidation.

All companies in which the Consolidated Group has a controlling interest are fully consolidated. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Consolidated Group's equity therein.

2.4 *Functional currency*

The consolidated financial statements are presented in millions of euros. Euro is the functional of Altice VII and the presentation currency of the Consolidated Group.

The functional currency, which is the currency that best reflects the economic environment in which the Consolidated Group operates and conducts its transactions, is separately determined for each Consolidated Group entity, including an associate accounted for using the equity method, and is used to measure its financial position and operating results.

2.5 *Foreign currency translation*

The presentation currency of the Consolidated Group is euro. In individual companies, transactions in foreign currencies are recorded at the exchange rate at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at year-end rates. Any resulting exchange differences are accounted for in the income statement. On consolidation, assets and liabilities of the Consolidated Group's entities reported in their functional currencies are translated into euro, the Consolidated Group's presentation currency, using the year-end exchange rates. Income and expense items are translated into euro at the annual weighted average exchange rate or at the rate of the date the transaction occurred for significant items.

Differences arising from the translation of opening net assets of the Consolidated Group entities, together with differences arising from the restatement of the net results for the year of the Consolidated Group entities, are recognized in other comprehensive income.

2.6 *Subsidiaries and associates*

2.6.1 Subsidiaries

All companies in which the Consolidated Group has a controlling interest are fully consolidated. Control exists when the Consolidated Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Consolidated Group's equity therein.

2.6.2 Associates

Investments, over which the Consolidated Group exercises significant influence, but not control, are accounted for under the equity method. Such investees are referred to as "associates" throughout these consolidated financial statements.

Significant influence is presumed to exist when the Consolidated Group holds at least 20% of the voting power in the associates. Associates are initially recognized at cost at acquisition date. The Consolidated Financial Statements include the Consolidated Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

As per the provisions of IAS 28 *Investment in associates* the interest income and expenses recorded in the consolidated financial statements of the Consolidated Group on loans with associates have not been eliminated in the consolidated statements of income and therefore are still recorded in the consolidated financial statements.

2.7 *Operating profit before depreciation, amortization and non-recurring costs*

The Consolidated Group has included the subtotal "Operating profit before depreciation, amortization and no-recurring costs" on the face of the consolidated statements of income. The Consolidated Group believes that this subtotal is useful to users of the Consolidated Group's financial statements as it provides them with a measure of the operating results which excludes non-cash elements such as depreciation and amortization as well as non-recurring transactions and management fees, enhancing the predictive value of the Consolidated Group's financial statements and providing information regarding the results of the Consolidated Group's ongoing trading activities and cash-flow generation that allows investors to better identify trends in the Consolidated Group's financial performance.

This non-IFRS measure is used by the Consolidated Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel.

The Consolidated Group's subtotal within operating income may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the consolidated financial statements in accordance with IFRS 1.

2.8 *Revenue recognition*

Revenue from the Consolidated Group's activities is mainly composed of television, broadband Internet, fixed and mobile telephony subscription and installations fees invoiced to residential and business clients.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Consolidated Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales within the group.

Revenues on bundle packages sold by the Consolidated Group are split into and recognised under each individual service sold in the bundle. For example, tripe play package revenues are booked under 'triple play television', 'triple play data' and 'triple play telephony' on a straight-line basis over their subscription period and revenues from telephone calls are recognized in revenue when the service is rendered.

Revenue is recognized as follows, in accordance with IAS 18 *Revenue*:

- Revenues from subscriptions for basic cable services, digital television pay, Internet and telephony (fixed and mobile) are recognized in revenue on a straight-line basis over the subscription period; revenues from telephone calls are recognized in revenue when the service is rendered ;
- When a promotion not related to a customer's past consumption and purchases (such as subscription's rate discount, service free period) is offered to customer in relation to a subscription, the Consolidated Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract ;
- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship. Service access fees for business clients, when they are only allowed access to the services that are sold associated to an equipment or a service, are deferred and the corresponding revenue is recognized along the statistical client lifetime duration and generally spread over the contractual engagement period ; and
- The revenue related to transmission capacity on terrestrial cables under indefeasible rights of use: Indefeasible Rights of Use ("IRU") arrangements are recognized on a straight-line basis over the life of the contract.

Revenues from mobile services resulting from the sale of mobile services:

- Revenues from the sale of equipment includes the sale of mobile devices and ancillary equipment for those devices. The revenues from the sales are recognized where all of the significant risk and yields that are derived from the ownership of the equipment are transferred to the purchaser and the seller does not retain continuing managerial involvement. Generally, the time of the delivery is the time at which ownership is transferred. The charge in respect of terminal equipment is made separately from the monthly charge for the consumption of services, in accordance with the amounts that is denoted in a separate invoice, which reflects the fair value of the terminal equipment, which is not subsidized by the Consolidated Group. In the light of the aforesaid, the Consolidated Group recognizes revenues in respect of the sale of devices on the transfer of the ownership of the devices to its customers. The revenues are recognized on the first day in accordance with its fair value as of that time and the difference between the fair value and the denoted amount of the consideration is recognized as financing income over the course of the period of the installment payments.

Income from credit arrangements

- Revenues deriving from long-term credit arrangements (such as the sale of devices in installments) are recorded on the basis of the present value of the future cash flows (against long-term receivables) and are discounted in accordance with interest rates. The difference between the original amount of the credit and the present value, as aforesaid, is spread over the length of the credit period and recorded as interest income over the length of the credit period.

2.9 *Finance costs*

Finance costs primarily comprise:

- Interest charges and other expenses paid for financing operations recognized at amortized costs ;
- Changes in the fair value of interest rate derivative instruments that do not qualify as hedges for accounting purposes according to "IAS 39" ;
- Interest income relating to cash and cash equivalents; and
- Gains/losses on extinguishment of debt.

2.10 *Income taxes*

Taxes on income in the income statement include current taxes and deferred taxes. The tax expenses or income in respect of current taxes or deferred taxes are recognized in profit or loss unless they relate to items that are recorded directly in equity, in these cases the tax effect is reflected under the relevant equity item.

2.10.1 Current taxes

The current tax liability is measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period as well as adjustments required in connection with the tax liability in respect of previous years.

2.10.2 Deferred taxes

Differences existing at closing between the tax base value of assets and liabilities and their carrying value in the Consolidated Statement of Financial Position give rise to temporary differences. Pursuant to the liability method, these temporary differences result in the accounting of:

- Deferred tax assets, when the tax base value is greater than the carrying value (expected future tax saving),
- Deferred tax liabilities, when the tax base value is lower than the carrying value (expected future tax expense).

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the asset will be realized or the liability settled, based on tax rates (and tax regulations) enacted or substantially enacted by the closing date. They are reviewed at the end of each year, in line with any changes in applicable tax rates.

Deferred tax assets are recognized for all deductible temporary differences, tax loss carry-forwards and unused tax credits, insofar as it is probable that a taxable profit will be available, or when a current tax liability exists to make use of those deductible temporary differences, tax loss carry-forwards and unused tax credits, except where the deferred tax asset associated with the deductible temporary difference is generated by initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For deductible temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax assets are recorded to the extent that it is probable that the temporary difference will reverse in the foreseeable future and that a taxable profit will be available against which the temporary difference can be utilized.

The carrying value of deferred tax assets is reviewed at each closing date, and revalued or reduced to the extent that it is more or less probable that a taxable profit will be available to allow the deferred tax asset to be utilized. When assessing the probability of a taxable profit being available, account is taken, primarily, of prior years' results, forecasted future results, non-recurring items unlikely to occur in the future and the tax strategy. As such, the assessment of the group's ability to utilize tax losses carried forward is to a large extent judgment-based. If the future taxable results of the group proved to differ significantly from those expected, the group would be required to increase or decrease the carrying value of deferred tax assets with a potentially material impact on the Consolidated Statement of Financial Position and Consolidated Income Statement of the Consolidated Group.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability results from goodwill or initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For taxable temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax liabilities are recorded except to the extent that both of the following conditions are satisfied: the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not be reversed in the foreseeable future.

Current tax and deferred tax shall be charged or credited directly to other comprehensive income, and not earnings, if the tax relates to items that are credited or charged directly to other comprehensive income.

2.11 *Goodwill and business combinations*

Business combinations, not occurring under common control, are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 "Business combinations" are recognized at their fair value at acquisition date.

The Consolidated Group recognizes goodwill as of the acquisition date and is measured as the excess of (a) over (b) as follows :

a) The aggregate of:

- The consideration transferred, which generally requires acquisition-date fair value;
- The amount of any non-controlling interests in the acquiree measured;
- In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.

b) The net of the acquisition-date balances of the identifiable assets acquired and the liabilities measured in accordance with IFRS 3.

Any excess of the cost of acquisition over the Consolidated Group's share in the fair value of all identified assets and liabilities is recognized as goodwill.

The goodwill is determined provisionally by the end of the period. The Consolidated Group recognizes any adjustments to those provisional values within twelve months after the acquisition date.

During the measurement period, the acquirer shall recognize adjustments to the provisional amounts as if the accounting for the business combination had been completed at the acquisition date. Thus, the acquirer shall revise comparative information for prior periods presented in financial statements as needed, including making any change in depreciation, amortization or other income effects recognized in completing the initial accounting.

If the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed exceeds the purchase price, a gain is recognized immediately.

Subsequently, goodwill is measured at its initial amount less recorded accumulated impairment losses. Impairment loss for goodwill is recorded in the income statement as a deduction from operating income (account "Depreciation and amortization") and is never reversed subsequently.

Changes in the Consolidated Group's ownership interests in subsidiaries that do not result in the Consolidated Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Consolidated Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Consolidated Group.

For acquisitions under common control, the Consolidated Group does not perform a purchase price allocation. Any difference between the consideration paid and the book value of the net assets acquired is directly attributed to the reserves of the Consolidated Group and no residual goodwill is recorded.

2.12 Other intangible assets

Intangible assets acquired separately are recorded at cost on initial recognition, with the addition of direct acquisition costs. Intangible assets acquired in a business combination are measured at fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses. In our Israeli entity, the costs of producing in-house content is also considered to be an intangible assets and recognized at the cost of production of the shows. Following initial recognition, these intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses.

According to Management, intangible assets have either definite or indefinite useful lives.

Assets with definite useful lives are amortized over their useful lives and assessed for impairment signs which would indicate impairment in value. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least once a year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits that are expected to derive from the asset are treated as a change in an accounting estimate which is treated prospectively. The amortization expenses regarding intangible assets with finite useful lives are recognized in the income statement.

The useful lives of the intangible assets are as follows:

	Duration
Software	3 years
Customer relations	7 to 37 years
Licences	5 years
Customer relations with a defined contractual term	3 years
Subscriber purchase costs	based on average duration of subscriptions

Assets with indefinite useful lives are tested for impairment annually as well as where there is an indication that it may be impaired by comparing their carrying amount with their recoverable amount.

2.13 Impairment of tangible and intangible assets

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, other intangible assets, property, plant and equipment and assets in progress, the Consolidated Group re-examines the value of these assets. In addition, goodwill, other intangible assets with an indefinite useful life, and intangible assets in progress are all subject to an impairment test performed annually.

This test is performed in order to compare the recoverable amount of an asset to its carrying amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the cash-generating unit to which the asset belongs. A Cash Generating Unit ("CGU") is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or "DCF") by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtained from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption "Depreciation and amortization" in the income statement. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment, may be reversed.

2.14 Property, plant and equipment

Property, plant and equipment are presented at cost with the addition of direct purchase costs less accumulated depreciation and accumulated losses on impairment and they do not include routine maintenance expenses. The cost includes spare parts and ancillary equipment that can only be used in connection with the plant and machinery.

Depreciation is calculated using the straight line method over the estimated useful lives of the assets, as follows:

	Duration
Buildings	25 to 50 years
Cables Network	4 to 20 years
Call center (primarly electronic equipment)	5 to 9 years
Converters and modems	7 years
Computers and ancillary equipment	3 to 6 years
Office furniture and equipment	6 to 16 years
Communication network infrastructure	6 to 16 years
Leasehold contracts	see below

Leasehold contracts are depreciated according to the straight line method during the rental period (including the option period for an extension by the Consolidated Group, which it intends to exercise) or the estimated useful lifetime of the improvement.

Elements of a fixed asset item, having a cost that is significant in comparison to the overall cost of the item, are depreciated separately, using the components method. The depreciation is calculated in accordance with the straight line method at annual rates that are considered to be sufficient in order to depreciate the assets over the length of their estimated useful lives.

The useful life, depreciation method and residual value of an asset are reviewed at least annually and any changes are accounted for prospectively as a change in accounting estimate.

2.15 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

2.15.1 The Consolidated Group as lessor

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Consolidated Group's net investment in the leases. Finance lease income is allocated in an accounting periods so as to reflect a constant periodic rate of return on the Consolidated Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Rental income from the leasing of customer premises equipment (set top boxes, modems and decoders) is recognized on a straight-line basis over the term of the subscription held by the client. At the end of the contract or in case of voluntary contract termination by the client, this equipment is repossessed and thus remains in the inventory of the Consolidated Group.

2.15.2 The Consolidated Group as lessee

Assets held under finance leases are initially recognized as assets of the Consolidated Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Consolidated Group's general policy on borrowing costs (see note 2.16 below). Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.16 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to management, it does not take a substantial period of time to get ready for the intended use because of the incremental deployment of the network. This standard has consequently no impact on the consolidated financial statements.

2.17 Government grants

Government grants are not recognized until there is reasonable assurance that the Consolidated Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Consolidated Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Consolidated Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the consolidated statement of financial position and transferred to the income statement on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Consolidated Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

2.18 Financial assets

The Consolidated Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1 "Presentation of financial statements".

Purchases and sales of all financial assets are recognized on a trade date basis.

2.18.1 Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in non-consolidated companies. Fair value corresponds to quote price for listed securities. For non-listed securities, and when a reliable estimate of fair value cannot be made using valuation techniques, the Consolidated Group values financial assets at historical cost, less any impairment losses.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from other comprehensive income to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

2.18.2 Loans and receivables

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has occurred, the amount of this loss, measured as the difference between the financial assets' carrying value and its recoverable amount is recognized in the income statement. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

2.18.3 Held-to-maturity financial assets

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Consolidated Group has both the intention and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, in accordance with the effective interest rate method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Consolidated Group currently does not hold any held to maturity financial assets.

2.18.4 Financial assets measured at fair value through profit or loss

These financial assets are measured at fair value with gains and losses recorded as finance income or costs.

This category mainly includes:

- Assets held for trading which the Consolidated Group intends to sell in the near future (primarily marketable securities);
- Assets voluntarily classified at inception in this category;
- Derivatives financial assets.

2.19 Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories comprises costs of purchase and costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated selling costs.

Cost of inventories is determined using the weighted average cost method.

The Consolidated Group periodically evaluates the condition and age of inventories and makes provisions for slow moving inventories accordingly.

2.20 Cash and cash equivalents

Cash consists of cash in banks and deposits.

Cash equivalents are considered as highly liquid investments, including unrestricted short-term bank deposits with an original maturity of three months or less from the date of acquisition or with a maturity of more than three months, but which are redeemable on demand without penalty and which form part of the Consolidated Group's cash management.

2.21 Restricted cash

Restricted cash is considered to be cash that is dedicated to the repayment of the Consolidated Group's liabilities to banking entities in accordance with the Consolidated Group's credit agreement and therefore amounts that the Consolidated Group cannot use at its discretion.

Restricted cash can also consist of cash held in escrow to finance certain acquisitions (in the period between the agreement to acquire and the actual closing of the acquisition and the transfer of shares and cash and other considerations). Restricted cash may also consist of guarantees provided by different group companies to financial institutions related to financing or other activities. Restricted cash is not considered to be a component of cash and cash equivalents since such balances are not held for the purposes of meeting short term cash commitments.

2.22 Derivatives

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently reassessed at their fair value.

The Consolidated Group enters into interest rate swaps and caps to manage its interest or foreign currency exchange rate exposure. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any of these derivative instruments are recognized immediately in the income statement within financial income and expenses.

2.23 Share based payment arrangements

The Consolidated Group's employees are entitled to remuneration in the form of equity-settled share-based payment transactions and certain employees are entitled to remuneration in the form of cash-settled share-based payment transactions that are measured based on the increase in the Company's share price. These stock options based remunerations mainly concerned the Israeli entity, HOT Telecom and these plans were terminated post the take private of the company in December 2012 and the delisting of all active shares of HOT Telecom on the Tel Aviv stock exchange.

2.24 Financial liabilities

Financial liabilities other than derivative instruments include:

2.24.1 Financial liabilities at amortized cost

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument.

2.24.2 Financial liabilities that are measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities classified as held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on liabilities held for trading are recognized in profit or loss.

Derivatives, including bifurcated embedded derivatives, are classified as held for trading unless they are designated as effective hedging instruments. In the event of a financial instrument that contains one or more embedded derivatives, the entire combined instrument may be designated as a financial liability at fair value through profit or loss only upon initial recognition.

The Consolidated Group assesses whether embedded derivatives are required to be bifurcated from host contracts when the Consolidated Group first becomes party to the contract. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

The fair value of financial instruments that are traded in an active market is determined by reference to quoted market prices at the close of business on the balance sheet date. For financial instruments for which there is no active market, fair value is determined by the use of valuation techniques. Such techniques include evaluation based on transactions that have been executed recently under market terms, reference to the current market value of another instrument, which is substantially the same, discounted cash flow analysis or other valuation models.

2.24.3 Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.24.4 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the value of the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

The Consolidated Group also issued some CPECs (Convertible Preferred Equity Certificates). Details of these subordinated financial instruments are set out in note 17.4.

2.25 Other liabilities

2.25.1 Provisions

A provision in accordance with IAS 37 is recognized in the statement of financial position when the Consolidated Group has a present obligation (legal or implicit) as the result of a past event and it is expected that the use of economic resources will be required in order to settle the obligation and it is possible to reliably estimate it. Where the impact is significant, the provision is measured by discounting the forecasted future cash flows, using a pre-tax interest rate that reflects the expectations of the market in respect of the time frame of the money and in certain cases, the risks that are specific to the liability.

The following types of provisions are recorded in the financial statements:

2.25.2 Legal claims

A provision regarding legal claims is recognized when the Consolidated Group has a present legal commitment or an implicit commitment resulting from a past event; when it is more likely than not that the Consolidated Group will be required to expand economic resources to clear the commitment, when it is possible to estimate it reliably and when the effect of time is significant, the provision is measured according to the present value.

2.25.3 Warranty

The Consolidated Group recognizes a provision for warranty for the sale of its products. The warranty is limited to malfunctions as defined by the Consolidated Group and does not include warranty for damages incurred by the customer.

2.25.4 Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Consolidated Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.25.5 Restructuring

A restructuring provision is recognized when the Consolidated Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Consolidated Group.

2.26 Liabilities for employment benefits

In accordance with the laws and practices of each country in which it operates, the Consolidated Group participates in, or maintains, several employee benefits. There are as follows:

2.26.1 Short-term benefits for employees

Short-term benefits for employees include salaries, vacation pay, sick leave, recuperation pay and employers' deposits for national insurance and are recognized as an expense when the services are provided. A liability in respect of a cash bonus or a profits participation scheme is recognized where the Consolidated Group has a legal or an implicit commitment to pay the said amount in respect of service that has been provided by the employee in the past and where the amount can be reliably estimated.

2.26.2 Post-retirement benefits

In Israel, the Consolidated Group operates a defined benefits plan in respect of the payment of severance pay in accordance with the Israeli Severance Pay Law. According to this law, employees are entitled to receive severance pay if they are dismissed or on their retirement. The liability in respect of the termination of employee-employer relations is measured in accordance with the actuarial value of a forecast unit of entitlement method. The actuarial calculation takes into account increases in salaries in the future and the rate at which employees leave the Consolidated Group and this on the basis of an estimate of the timing of the payment. The amounts are presented on the basis of the discounting of the forecast future cash flows, in accordance with government bonds' interest rates, whose repayment dates are close to the period relating to the liability in respect of severance pay.

The Consolidated Group deposits funds in respect of its severance pay liability in pension funds and insurance companies (hereafter - the plan assets). The plan assets are assets that are held by the employee benefits plan for the long-term or in qualifying insurance policies. The plan assets are not available for use by the Consolidated Group's creditors, and cannot be paid directly to the Consolidated Group.

The liability regarding employee benefits presented in the statement of financial position represents the present value of the defined benefits obligation less the fair value of the plan assets, and the past service costs. Actuarial gains and losses are reflected in the income statement in the period in which they arise, as part of the salary costs.

The Consolidated Group has defined contribution plans pursuant to the Severance Pay Law under which the Consolidated Group pays fixed contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods. Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed simultaneously with receiving the employee's services and no additional provision is required in the financial statements.

2.26.3 Other long-term employee benefits

The Consolidated Group's employees are entitled to benefits and other long-service grants. These benefits are accounted for as other long-term benefits since the Consolidated Group estimates that these benefits will be used and the respective Consolidated Group's obligation will be settled during the employment period and after one year from the end of the reporting period.

The Consolidated Group's net obligation regarding other long-term employee benefits is in respect of the future benefit amount due to employees for services rendered in current and prior periods. This amount of benefits is discounted to its present value and the fair value of the assets relating to this obligation is deducted from said amount. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the Consolidated Group's obligation. The obligation is calculated using the projected unit credit method. Actuarial gains and losses are recognized in profit or loss in the period in which they occur.

2.26.4 Benefits in respect of the termination of employment

Severance pay for employees is reflected as an expense when the Consolidated Group has made an undertaking, with no real possibility of cancellation, for the dismissal of employees before they reach the customary retirement age in accordance with a detailed formal plan. The benefits that are given to the employees who take voluntary retirement when the Consolidated Group has offered the employees a plan that encourages voluntary retirement, it is expected that the offer will be accepted and the number of persons accepting the offer can be reliably estimated.

2.27 Significant accounting judgments and estimates used in the preparation of the financial statements

2.27.1 Judgments

In the process of applying the significant accounting policies, the Consolidated Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the consolidated financial statements.

2.27.2 Estimates and assumptions

The preparation of the consolidated financial statements requires the Consolidated Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

2.27.3 Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

The value in use of each CGU was determined by estimating cash flows for a period of five years for the operating activities. Cash flow forecasts are derived from the most recent business plans approved by the Board of Directors. Beyond the specifically forecasted period of five years, the Company extrapolates cash flows for the remaining years based on an estimated constant growth rate between 1.5-2%. This rate does not exceed the average long-term growth rate for the relevant markets. Discount rates have been computed using WACC approach and range from 6.3% to 11%.

2.27.4 Legal claims

In estimating the likelihood of outcome of legal claims filed against the Consolidated Group and its investees, the group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ from these estimates.

2.27.5 Post-employment benefits

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates, expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

2.27.6 Deferred tax asset

Deferred tax assets relate primarily to tax loss carry forwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carry forwards are recognized if it is probable that the Consolidated Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Consolidated Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Consolidated Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carry forwards.

2.27.7 Discounting of Yield Free Preferred Equity Certificates (YFPEC) and similar instruments

The Consolidated Group has loans with its equity holder which are currently non-interest bearing and therefore considered as not being at arm's length. In determining the present value, a discount rate of 4.76% has been used for YFPECs and a discount rate of 6.79% for the Interest Free Loans (IFLs) issued by the Consolidated Group. YFPECs issued by Altice Six S.A. have been discounted at a rate of 5.3%, representing the effective borrowing rate for Altice Six as of December 31, 2013.

3-Scope of consolidation

3.1 The entities included in the scope of consolidation

Name of subsidiary	Place of incorporation and operation	Method of consolidation		Proportion of ownership interest and voting power held by the Consolidated Group	
		December 31, 2013	December 31, 2012	December 31, 2013	December 31, 2012
Altice Six S.A.	Luxembourg	FC(*)	FC(*)	FC(*)	100%

3.2 Modification of the scope of consolidation

3.2.1 Main acquisitions in 2013

3.2.1.1 Acquisition of OMT

On July 5, 2013 the Consolidated Group obtained control of OMT, a telecommunications operator in the French Overseas Territories, by acquiring 77% of the shares and voting interests in the company. This acquisition enables the Consolidated Group to expand its footprint in the French Overseas Territories.

Since July 5, 2013 OMT contributed EUR 102.1 million to revenue and EUR 13.5 million to operating profit to the Consolidated Group's results for the year ended December 31, 2013.

A purchase price allocation was performed following the acquisition of OMT based on the assumptions described below.

Brand:

The ONLY brand was valued using the royalty relief method over an indefinite useful life and the method was built on the following assumptions :

- Discount rate – 11.4%
- Royalty rate – 1.5%

Clients:

The portfolio of clients has been valued using the excess earnings approach and based upon the following assumption:

- EBIT margin rate: 13.5% for fixed telephone clients, 12.4% for internet clients, 19.3% for mobile clients, 26.4% for B2B clients.
- Attrition rate: 9.7% for fixed telephone clients, 29.2% for internet clients, 48.5% for mobile clients, 16.4% for B2B clients.
- Discount rate: 11.4%
- Perpetuity growth rate: 2%

3.2.1.2 Acquisition of ONI Communication

On August 8, 2013 the Consolidated Group obtained control of ONI, a business to business telecommunications operator in Portugal, by acquiring 100% of the shares and voting interests in the company. This acquisition enables the Consolidated Group to expand its footprint in Portugal and eventually realise synergies with the Consolidated Group's other business within the same country.

Since August 8, 2013 ONI contributed EUR 41.8 million in revenue and EUR 4.9 million in operating loss to the Consolidated Group's result for the year ended December 31, 2013.

A purchase price allocation was performed following the acquisition of ONI based on the assumptions described below.

Brand:

The ONI brand was valued using the royalty relief method over an indefinite useful life and the method was built on the following assumptions :

- Discount rate – 6.5%;
- Royalty rate – 2.0%.

Clients:

The portfolio of clients has been valued using the excess earnings approach and based upon the following assumptions :

- EBIT margin rate: 14.1%;
- Attrition rate: 22.9% for B2B clients;
- Discount rate: 6.5%;
- Perpetuity growth rate: 0%.

3.2.1.3 Integration of content channels

On October 4, 2013 Ma Chaine Sport S.A.S. ("MCS") and SportV S.A. ("SportV"), two exclusive content producing companies based in France and Luxembourg respectively were transferred to the Consolidated Group by Altice IV and Valemi Corp, Altice IV S.A. being considered as a related party as it shares the same controlling shareholder as the Consolidated Group at time of acquisition. In the absence of any specific guidance concerning the accounting for common control transactions within IFRS, no purchase price allocation was performed. These transactions allow the Consolidated Group to pursue a strategy of vertical integration and also provide a more integrated solution to its customers.

Since October 4, 2013, Ma Chaine Sport and SportV contributed EUR 6.4 million in revenue and EUR 0.3 million in operating profit to the Consolidated Group's result for the year ended December 31, 2013.

3.2.2 Change in the Consolidated Group's ownership interest in 2013

3.2.2.1 Acquisition of minority interests in Cabovisao

On April 23, 2013, the Company completed the acquisition of 40% of minority stake held by Apax Partners in its Portuguese subsidiary Cabovisao S.A, through an investment in the holding company of Cabovisao S.A, Altice Portugal.

The total consideration of EUR 105.0 million was paid on April 23, 2013, of which EUR 90.0 million was paid in consideration for the shares acquired and EUR 15.0 million towards the repayment of an existing vendor note. An amount of EUR 9.1 million (being the proportionate share of the carrying amount of the net assets of the entity) has been transferred between non-controlling interests to controlling interest. The difference of EUR 80.9 million between the decrease in the non-controlling interests and the consideration received has been debited from the retained earnings.

3.2.2.2 Disposal of Valvision

On June 6, 2013, the Consolidated Group disposed of its interests in Valvision S.A.S, a cable based service provider in France to Altice VII Bis S.à r.l., a sister concern under common control of the Company's sole shareholder, Next L.P.

The difference of EUR 3.3 million gain generated on this transaction (representing the difference between the net asset value of the entity prior to transfer and the consideration received) has been recognized directly in equity.

3.2.2.3 Acquisition of minority interests in Coditel

Deficom Telecom S.à r.l., a majority owned subsidiary of Altice VII, is the owner of 60% of the outstanding shares of Coditel Holding Lux II and Coditel Management. On November 29, 2013, Altice Holdings S.à r.l. purchase 40% of the interest of Coditel Holding Lux II and Coditel Management held by Codilink S.à r.l. .

The total consideration of EUR 82.5 million was paid on November 29, 2013, of which EUR 30.6 million was paid in consideration for shares and EUR 51.9 million paid as repayment of subordinated debt instruments held by Codilink (the Coditel PECs). An amount of EUR (9.3) million (being the proportionate share of the carrying amount of the net assets of the entity) has been transferred from non-controlling interests to controlling interest. The difference of EUR 39.9 million between the decrease in the non-controlling interests and the consideration received has been debited from the retained earnings.

3.2.2.4 Acquisition of an additional stake in Numericable Group ("NG Group")

In November 2013, concomitantly with the initial public offering of Numericable Group on the Paris Stock Exchange, Altice Six increased its stake in NG group to reach a percentage holding of 27.4% from 24.06%..

3.3 Acquisitions of businesses

Business combinations that occurred during the reporting period are described in note 3.2.

The major classes of assets acquired and liabilities assumed at the acquisition date are:

	Total Business Combinations	OMT	ONI	MCS(1)	SportV(1)
	(in millions of euros)				
Cost of acquisition(2)	280.6	223.3	22.3	23.0	12.0
ASSET					
Intangible assets	154.1	106.7	45.9	1.3	0.2
Property, plant and equipment	122.9	69.5	52.6	0.9	-
Non-current financial assets	1.6	1.6	-	-	-
Inventories	6.3	4.9	1.4	-	
Trade accounts receivable and other	55.7	28.1	19.6	6.0	2.0
Tax receivable	3.0	2.6	0.4	-	-
Cash and cash equivalents	36.3	33.6	0.7	0.3	1.7
Other current assets	13.0	3.2	8.7	0.6	0.5
Total assets	393.0	250.2	129.3	9.1	4.4
EQUITY AND LIABILITIES					
Non-current liabilities	253.1	205.3	47.5	0.3	-
Current liabilities	185.7	115.5	60.8	6.7	2.7
Total liabilities	438.8	320.8	108.3	7.0	2.7
Net assets	(45.9)	(70.6)	21.0	2.1	1.7
Residual goodwill	295.2	293.9	1.3	-	-
Including impact of non-controlling interests on goodwill	*67.7*	*67.7*		-	-

(1) No goodwill is attributed to neither MCS nor SportV as these were deemed by the Board of Directors to be integration under common control and thus any difference in the net asset value and the purchase price is recorded directly in the reserves of the group attributable to the shareholders.

(2) When acquiring OMT, ONI and integrating MCS and Sport, the company did not, (i) pay the vendors of OMT and ONI directly as the cash was transferred directly from the lenders to the sellers' accounts, or to their debt holders in case of refinancing of the acquired entities debts or (ii) did not pay the entire amount in cash (as was the case for MCS and SportV), thus generating vendor notes held by the vendors. The total cash out from the accounts of the company amounted to EUR 13.0 million. These vendor notes were settled in 2014.

The acquisition of a controlling stake in OMT Invest S.A.S ("OMT") and Winreason S.A. ("ONI") are considered to be non-cash transactions, as the consideration paid to the vendors flows directly from the lending parties to final sellers, without transitioning through the company's accounts. Thus, the cost of such transactions is deducted directly from the issuance of debt in the consolidated statement of cash flows.

The main figures of the entity, since the beginning of the year, and until the business combination, are presented as follows:

	OMT	ON1	MCS	SportV
	(in millions of euros)			
Revenues	**96.5**	**59.0**	**13.8**	**4.5**
Cost of sales	(30.1)	(31.2)	(3.4)	(1.1)
Gross Profit	**66.4**	**27.8**	**10.5**	**3.3**
Other operating expenses	(19.8)	(11.2)	(1.4)	-
General and administrative expenses	(6.1)	(5.9)	(1.1)	(0.1)
Other sales and marketing expenses	(7.3)	(1.3)	(0.2)	(0.2)
Operating profit before depreciation, amortization and non-recurring costs	**33.2**	9.4	7.7	**3.0**
Depreciation and amortization	(11.4)	(9.9)	(6.2)	(1.1)
Other expenses, net	(2.0)	(1.7)	(0.5)	-
Management fees	-	-	-	-
Reorganization and non-recurring costs	(0.4)	(0.5)	-	-
Operating profit	**19.4**	**(2.7)**	**1.0**	**1.9**
Profit / (loss) for the period (including non-controlling interests)	**10.9**	**(8.8)**	**0.8**	**1.4**

4-Goodwill

The Company identified six operating segments. As a result, goodwill acquired in business combinations was allocated to these operating segments based on the relative fair values of the cash generating units. Goodwill is allocated as follows to each of the Company's operating segments:

	December 31, 2012	Business combinations	Impairment losses	Changes in foreign currency translation	Disposals	December 31, 2013
			(in millions of euros)

Total Net book value	**911.9**	**-**	**(121.9)**	**0.9**	**790.9**

The carrying amount of goodwill as at December 31, 2013 was EUR 1,100.7 million (December 31, 2012 was EUR 790.9 million).

Goodwill is reviewed at the Consolidated Group of cash-generating unit ("CGU") level for impairment annually and whenever changes in circumstances indicate that its carrying amount may not be recoverable. For 2013, goodwill was tested at the CGU level for impairment as of December 31. The CGU is at the subsidiary level of the Company. The recoverable amounts of the CGUs are determined based on their value in use. The Company determined to calculate value in use for purposes of its impairment testing and, accordingly, did not determine the fair value of the CGUs as the carrying value of the CGUs was lower than their value in use. The key assumptions for the value in use calculations are primarily the pre-tax discount rates, the terminal growth rate and the churn rate during the period. The impairment tests did not result in impairment for any periods presented in these consolidated financial statements, except for EUR 121.9 million in Hot Telecom for the year ended December 31, 2012.

The value in use of the CGUs was determined by estimating cash flows for a period of five years, giving due consideration to the nature of the industry in which each CGU operates. Assumptions for churn rates and EBIT margin were based on historical experience and expectations of future changes in the market. Cash flow forecasts were derived from the most recent financial plans approved by management.

When estimating turnover for purposes of the 2013 impairment test, the Company used a growth rate between (3.6)-6% over the next 5 years. Those estimates were determined on the basis of the analysis of the markets where the Company is active in as well as on the basis of projections provided by external sources.

	Green. ch	Coditel	Hot Mobile
Average long term growth rate in 2012 (in %)........................	2.0	2.0	1.5-2
Average long term growth rate in 2103 (in %)........................	2.0	2.0	2.0

When estimating EBIT margin for purposes of the 2013 impairment test, the Company used a stable ratio of EBIT margin over the next 5 years.

Management estimated discount rates using post-tax rates that reflected current market rates for investments of similar risk. The discount rate for the CGUs was estimated from the weighted average cost of capital ("WACC") of companies which operate a portfolio of assets similar to those of the Company's assets.

	Green ch	Coditel	Cabovisao	Hot Mobile
CGU weighted average post-tax WACC rate used in 2012 (in %)........................	7.0	8.0-8.5	-	10-11
CGU weighted average pre-tax WACC rate used in 2013 (in %)........................	6.5	6.6	6.3	10-11

The results of the goodwill impairment test of 2012 and 2013 for each CGU did not result in an impairment of goodwill as the value in use exceeded the carrying value of the CGU, except for EUR 121.9 million in Hot Telecom for the year ended December 31, 2012.

In validating the value in use determined for the CGU, key assumptions used in the discounted cash-flow model were sensitized to test the resilience of value in use and no impairments were noted in these sensitivity analysis.

	Green.ch	Coditel	Hot Telecom
Recoverable amount	124.4	466.6	1,357.1
Carrying amount	17.8	295.5	477.6
Excess of recoverable amount over carrying amount	106.6	171.1	879.5

The following changes in key assumptions in projected cash flows in every year of the initial five-year period, assuming unchanged values for the other assumptions, would cause the recoverable amount to equal the respective carrying value.In addition, the Company analyzed the sensitivity of the estimated recoverable amounts to the reasonable expected changes in assumptions, assuming unchanged values for the other assumptions:

- Sensitivity of the recoverable amount was tested for a movement of 50 bps in the weighted average cost of capital (WACC), all other assumptions being stable and the impact would be :

- Green.ch: an increase of 50 bps in the WACC decreases the excess of recoverable amount to EUR 90.2 million and therefore no impairment would be required.
- Coditel: an increase of 50 bps in the WACC decreases the excess of recoverable amount to EUR 103.9 million and therefore no impairment would be required.
- HOT Mobile: an increase of 50 bps in the WACC decreases the recoverable amount to EUR 807.2 million and therefore no impairment would be required.

- Sensitivity of the recoverable amount was tested for a movement of 50 bps in the perpetuity growth rates, all other assumptions being stable and the impact would be :

- Green.ch: an increase of 50 bps in the growth rate decreases the excess of recoverable amount to EUR 93 million and therefore no impairment would be required.
- Coditel: an increase of 50 bps in the growth rate decreases the excess of recoverable amount to EUR 66.1 million and therefore no impairment would be required.
- HOT Mobile: an increase of 50 bps in the growth rate decreases the recoverable amount to EUR 825.1 million and therefore no impairment would be required.

The analysis did not result in a scenario whereby a reasonable possible change in the aforementioned key assumptions would result in a recoverable amount for the CGU which is inferior to the carrying value.

5-Intangible assets

	December 31, 2012	Additions and related depreciation and amortization	Disposals	Business Combinations	Changes in foreign currency translation adjustment	Other	December 31, 2013

---

(1) Customer relations have been valued on the basis of the fair value of the existing customers. These are amortized on the basis of the local churn rate.

(2) Subscriber purchase costs were recognized in respect of the costs of acquisition of subscribers (including additional sales commissions). The amortization expenses are linked to the length of the average commitment of the subscribers.

(1) Cable network: the Consolidated Group owns, directly and indirectly through its subsidiaries, cable or fibre network which allow it to supply cable-based pay television, broadband internet and fixed-line telephony services to its subscribers.

(2) Call center represents centralized offices used for the purpose of receiving or transmitting a large volume of administrative, technical or commercial requests by telephone.

(3) Office furniture and equipment refers to furnishings and IT equipment.

(4) The Communication network infrastructure includes the digital technologies for the transmission of multi-channel television services.

The increase in the intangible and tangible assets of the Consolidated Group can mainly be attributed to the acquisition of Outremer Telecom and ONI Telecom during the course of 2013. These increases were slightly offset by the disposal of the Company's interests in Valvision.

7—Investment in associates

The breakdown of the investments in associates is detailed as follows:

(in millions of euros)	December 31, 2013 Consolidated Group's share of profits of associates	 Consolidated Group's investments in associates
Numericable Group S.A.	15.5	679.1
Total	15.5	679.1

(in millions of euros)	December 31, 2012 Consolidated Group's share of profits of associates	 Consolidated Group's investments in associates
Numericable Group S.A. (*)	20.4	81.3
Total	20.4	81.3

Variation in the statement of financial position of investment in associates is shown below:

(in millions of euros)	Balance on December 31, 2012	Share in profit of associates	Loan conversions/ (Disposals)	Balance on December 31, 2013
Numericable Group S.A. (*)	81.3	15.5	582.3	679.1
Total	81.3	15.5	582.3	679.1

(*): The comparatives are for Ypso Holding S.à r.l. and Altice B2B Lux Holding S.à r.l.. 2013 shows the Numericable Group S.A. figures which is the successor entity of Ypso Holding S.à r.l. and Altice B2B Lux Holding S.à r.l..

The Numericable Group S.A. figures are detailed as follows:

(in millions of euros)	December 31, 2013	December 31, 2012 (*)
Current assets	561.3	430,6
Non-current assets	3,398.6	3,199.2
Current liabilities	828.1	1,008.4
Non-current liabilities	2,878.1	3,141.5
Total Equity	253.5	(320,1)
% of interest = 27.4% (24.06%)	69.4	(77,0)
Revenue for the year	1,314.2	-
Profit and loss for the year	64.6	-
Total other comprehensive income	(0.5)	-
Total comprehensive income	64.1	-
% of interest = 27.4%	15.5	-

(*): The comparatives are for Ypso Holding S.à r.l. and Altice B2B Lux Holding S.à r.l.. 2013 shows the Numericable Group S.A. figures which is the successor entity of Ypso Holding S.à r.l. and Altice B2B Lux Holding S.à r.l..

On November 7, 2013, the newly formed Numericable Group S.A. completed its initial public offering. The Numericable Group is considered to be the successor entity of Ypso Holding S.à r.l and Altice B2B Lux Holding S.à r.l.

Effective upon initial public offering of Numericable Group, a restructuring of the capital structure of Ypso Holding S.à r.l and Altice B2B Lux Holding S.à r.l. was undertaken, as a result of which, all shares and loans held by Altice Six S.A. against these entities were converted into common shares of the new entity, Numericable Group S.A..

Altice Six holds 33.9 million of shares of Numericable Group as at December 31, 2013. Based on the share price as of December 31, 2013 (EUR 26.4), the fair value of the investment amounted to EUR 895.9 million. Based on this valuation, it is concluded that the fair value is greater than the carrying value of the investment and therefore no impairment shall be recorded in the consolidated financial statements for the year ended December 31, 2013.

8-Financial assets

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Investments held as available for sale(1)	40.3	6.1
Loans and receivables(2)	3.0	144.8
Other financial assets	5.5	-
Restricted cash(3)	1.8	9.6
Total	50.6	160.5

---

(1) Investment in available for sale financial assets are composed of:
Partner Communications LTD: A subsidiary company, operating through Hot Net Internet Services LTD. (formerly Hot Properties) and Finance LTD. (hereinafter-Hot Net) holds 1 454 663 regular shares in Partner Communications LTD, (hereinafter-Partner), constituting approximately 0,9% of Partner's share capital which is engaged in the provision of mobile communications services and whose shares are traded on stock exchanges in the United States of America, in the United Kingdom and in Israel.

Wananchi Group Holdings Ltd. In February 2013, the Company exercised its right to convert loans and receivables held against Wananchi Group Holdings Ltd. into shares. These notes were initially recorded as a long term trade receivable for the year ended December 31, 2012 and subsequently converted into equity in February 2013. The Board of Directors considers the investment in Wananchi to be available for sale invesment and has injected further funds in Wananchi during the course of the year ended December 31, 2013. Wananchi operates in the fast developing East-African market and given the evolving nature of the business in this region, the Board of Directors considers that the nominal value of its invesment in Wananchi represents the fair value of the investment. As of December 31, 2013, Altice VII held 17.05% of the capital of Wananchi and the Board of Directors is of the opinion that it has no significant influence on the Board of Wananchi.

(2) As of December 31, 2013, this caption includes an additional investment made by the company in Wananchi, in return for which it was issued convertible notes, convertible at the discretion of the holder. The investment amounted to EUR 3.0 million ($4 million equivalent). The decrease compared to December 31, 2012 is explained by :

- the conversion of loans and receivables due from Wananchi to equity

- the conversion of loans and receivables against Ypso Holdings S.à r.l. and Altice B2B Lux Holding S.à r.l..See note 7 for more information.

(3) Restricted cash (see Note 2.21)
As of December 31, 2013 the restricted cash caption contained cash accounts pledged at Cabovisao, HOT and Green.ch held as guarantees to various financial institutions. The decrease in the amount of restricted cash compared to the year ended December 31, 2012, was mainly due to substitution of a guarantee given to Banco Espirito Santo by Cabovisao by an amount of EUR 8.4 million drawn from the Company's guarantee facility.

9-Non-current trade and other receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Prepaid expenses	0.6	0.8
Other receivables[1]	22.2	23.7
Total	22.8	24.6

---

(1) The balance reflects customer's debts in respect of the sale of devices under long-term credit terms (sales in installments). The balance of the debt is presented at its value, as discounted using an interest rate of 5% for a period of up to 36 months, less the current maturities, which are presented under trade receivables.

10-Inventories

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Work in progress	0.1	0.1
Finished/semi-finished goods	12.4	7.1
Total Gross Value	12.5	7.2
Work in progress	-	(0.1)
Finished/semi-finished goods	(1.5)	(1.0)
Total Depreciation	(1.5)	(1.1)
Work in progress	0.1	-
Finished/semi-finished goods	10.9	6.2
Total Net book value	11.0	6.1

Inventories are almost exclusively comprised finished goods corresponding to customer premises equipment (modems, decoders, mobile handsets etc.), which is used in the daily business activity of the Consolidated Group. Management considers that inventory will be fully renewed in the next twelve months.

Movement for allowance for obsolescence of inventory or slow moving inventory:

	December 31, 2012	Business Combinations	Variation	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2013
			(in millions of euros)		
Work in progress (goods)	(0.1)	-	0.1	-	-
Finished/semi-finished goods	(1.0)	-	(0.5)	-	(1.5)
Total Cumulative amortization and depreciation	(1.1)	-	(0.4)	-	(1.5)

	December 31, 2011	Business Combinations	Reversal	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2012
			(in millions of euros)		
Work in progress (goods)	-	(0.1)	-	-	(0.1)
Finished/semi-finished goods	(1.9)	-	0.9	-	(1.0)
Total Cumulative amortization and depreciation	(1.9)	(0.1)	0.9	-	(1.1)

The cost of inventories recognised as an expense consists of EUR 0.4 million (2012: EUR 0.1 million) in respect of write-downs of inventory to net realisable value. This write down mainly concerns the write off of mobile handsets and accessories at OMT to reflect their net recoverable value.

11-Trade and other receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Trade receivables	194.0	150.8
Other receivables	38.2	42.5
Total current trade and other receivables	232.2	193.3
Trade receivables		
Other receivables	22.8	24.6
Total non-current trade and other receivables	22.8	24.6
Total	255.0	223.9

11.1 Trade receivables

	December 31, 2012	Business Combinations	Net increase/(decrease)	Reversal	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2013
		(in millions of euros)				
Trade receivables	175.6	50.0	(6.8)	-	5.5	224.3
Allowance for doubtful debts	(24.8)	-	(10.1)	7.0	(2.4)	(30.3)
Trade receivable, net	150.8	50.0	(16.9)	6.9	3.1	194.0

	December 31, 2011	Business Combinations	Net increase/(decrease)	Reversal	Divestitures, changes in foreign currency translation adjustments and other	December 31, 2012
		(in millions of euros)				
Trade receivables	129.1	5.9	40.4	-	0.1	175.6
Allowance for doubtful debts	(26.4)	-	(3.0)	4.4	0.2	(24.8)
Trade receivable, net	102.7	5.9	37.4	4.4	0.3	150.8

The increase in trade receivables in the year ended December 31, 2013, as compared to the year ended December 31, 2012 is mainly explained by the acquisition of OMT, ONI as well as the integration of MCS and SportV during the course of the year.

11.2 Age of trade receivables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Not yet due	137.1	116.7

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Loans to related party	0.1	13.1
Bank guarantee(1)	-	14.0
Prepaid expenses(2)	20.9	6.3
Other current receivables	17.2	9.1
Total	38.2	42.5

(1) Bank guarantees were provided to the Israeli regulator by HOT mobile in relation with the acquisition of the UMTS mobile license and then subsequently released after the occurrence of certain events. Please see note 32 for details on guarantees given by HOT and HOT mobile.

(2) The increase in prepaid expenses is mainly explained by the acquisition of ONI and the entry of MCS in the Consolidated Group scope during the year ended December 31, 2013. The new entities contributed EUR 4.7 million and EUR 2.6 million to prepaid expenses and mainly concerned prepayments made on long term contracts.

The Consolidated Group provides services on credit for an average of 16 days, 24 days and 96 days in average to its customers in the cable television field, the in-country fixed line communications field and the mobile communication field, respectively. The Consolidated Group routinely evaluates the credit that is provided to its customers, while checking their financial situations; however it does not demand collateral for those debts. The Consolidated Group records a provision for doubtful debts, based on the factors that affect the credit risks of certain customers, past experience and other information.

12-Cash and cash equivalents and current restricted cash

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Term deposits	1.4	5.2
Bank balances	60.2	124.5
Cash and cash equivalents presented in the consolidated statement of cash flows	61.6	129.8
Restricted cash (1)	1,242.8	-
Restricted cash	1,242.8	-

(1) Current restricted cash refers to cash held in escrow accounts on behalf of Altice Finco and Altice Financing S.A., related to the acquisition of Orange Dominicana and Tricom. The Board of Directors expects the transactions to close in the first quarter of 2014, thus ensuring utilization of the cash in less than twelve months following December 31, 2013. As of the date of signing of these accounts, the Tricom acquisition had been successfully closed (See note 35).

13-Invested equity

As of December 31, 2013, the invested equity consists of the sum of the net equity of the Altice Six and Altice VII sub-groups. On January 31, 2014, Altice S.A. listed its shares in an initial public offering on Euronext Amsterdam. The company raised capital in two steps, first through a primary offering of new shares of the listed company, for EUR 750 million and a secondary offering, consisting of the sale of shares held by Next L.P. in Altice S.A., for a total amount of EUR 555 million. Additionally, an over-allotment option, for the maximum authorised amount (upto 15% of the total shares offered), was exercised by Altice S.A. Following the IPO, 25.6% of the share capital of the company is publicly traded, with the rest held by Next L.P and certain Managers.

13.1 Earnings per share:

In the context of these consolidated financial statements, it is not meaningful to present earnings per share in accordance with IAS 33 since the Reporting Entity does not have a legal share capital. Upon completion of its initial public offering, the Company had 202,787,193 shares in issue. The earnings for the year ended December 31, 2013 divided by the number of shares in issue immediately following the initial public offering are equivalent to EUR 0.35 (2012 – EUR (0.69))

(1) Provisions for litigations : For the year ended December 31, 2013, Hot made payments to Tali, AGICOA and ESHKOLOT copyright owners. Total payments amounted to EUR 5.4 million. HOT also recorded additional provisions for litigation based on a class action lawsuit for a total of EUR 2.9 million.

Provisions for litigations are mainly relating to, (i) claims made by associations representing the owners of certain copyrights in Israel, (ii) class action suits filed by certain consumers in Israel and (iii) lawsuits pertaining to the take-private operation performed in December 2012.

More information on these provisions is provided in note 32.. Management considers that all potential risks of cash-outs on such litigations and claims is properly evaluated and represented correctly in the consolidated financial statements for the year ended December 31, 2013.

15-Employee benefits

OMT Invest	15.1	2.2	-
Total		8.2	9.1

15.1 Description of employee benefits by entity

15.1.1 HOT Telecom

(a) Defined Benefit Plans

Employee benefit liabilities

HOT Telecom has several employee benefit plans:

- Short-term employee benefits

Short-term employee benefits are benefits that are forecast to be cleared in full within 12 months of the end of the annual reporting period in which the employees provide the related services. These benefits include salaries, paid annual leave, paid sick leave, recuperation and social security contributions and are recognized as expenses as the services are rendered. A liability in respect of a cash bonus is recognized when the Consolidated Group has a legal or constructive obligation to make such payment as a result of past service rendered by an employee and a reliable estimate of the amount can be made.

- Post-employment benefits

The plans are normally financed by contributions to insurance companies and classified as defined contribution plans or as defined benefit plans.

Since 2011, the Consolidated Group has defined contribution plans pursuant to Section 14 of the Severance Pay Law under which the Consolidated Group pays regular contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods.

Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed concurrently with performance of the employee's services.

In addition, the Consolidated Group has a defined benefit plan in respect of severance pay pursuant to the Severance Pay Law. According to the Law, employees are entitled to receive severance pay upon dismissal or retirement. The liability for termination of employment is measured in accordance with an actuarial evaluation of the projected unit credit. The actuarial calculation takes into account the future salary costs and the rate at which employees leave the Consolidated Group, which is done on the basis of an evaluation of the timing of the payment. The amounts are presented based on discounted expected future cash flows using a discount rate determined by reference to yields on Government bonds with a term that matches the estimated term of the obligation relating to severance pay.

In respect of its severance pay obligation to certain of its employees, the Consolidated Group makes current deposits in pension funds and insurance companies ("the plan assets"). Plan assets comprise assets held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the Consolidated Group's own creditors and cannot be returned directly to the Consolidated Group.

The employee benefit liabilities, which are presented in the statement of financial position, represents the present value of the defined benefit liabilities less the fair value of the plan assets.

Re-measurements of the net liability are reflected under other comprehensive income as they arise.

Actuarial gains and losses are reflected in other comprehensive income.

- Other long-term employee benefits

The Consolidated Group's net obligation in respect of other long-term employee benefits is calculated on the basis of an actuarial valuation and is in respect of the future benefit amount due to employees for services rendered in current and prior periods, taking the rate of expected salary increases into account. This amount of benefits is discounted to its present value. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the Consolidated Group's obligation.

Re-measurements of the net liabilities are reflected in profit or loss in the period in which they arise.

- Termination benefits:

Employee termination benefits are recognized as an expense at the earlier of such time at which the Consolidated Group has committed to terminate employees before the normal retirement date and it is unable to cancel the proposal or where the Consolidated Group recognized costs in respect of a structural change that includes the payment of termination benefits.

The portion of the severance pay payments that is not covered by deposits, is treated by the Consolidated Group as a defined benefit plan in accordance with which a liability is recorded in respect of employee benefits, and the Consolidated Group deposits amounts in central severance pay funds and in appropriate insurance policies in respect of it.

The Consolidated Group has defined contribution plans, in accordance with section 14 of the Israeli Severance Pay Law, in accordance with which the Consolidated Group makes regular payments without it having a legal or implicit commitment to pay additional payments even if sufficient funds have not accumulated in the funds to pay all of the benefits to an employee that relate to the employee's employment in the current period and in previous periods.

Deposits in a defined contribution plan in respect of severance pay or in respect of emoluments are recognized as expense at the time of the deposit in the plan, in parallel to the receipt of the labor services from the employee and no additional provision is required in the financial statements.

17-Borrowings and other financial liabilities

Total financial liabilities are broken down as follows:

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Bonds	2,527.0	1,108.5
Related party bonds(5)	100.7	322.4
Borrowings from financial institutions(1)	1,214.0	257.2
Finance leases(2)	23.4	29.3
Other financial liabilities	105.9	89.4
Financial instruments	142.3	62.5
Non-current liabilities(3)	4,113.3	1,869.4
Bonds	26.4	25.4
Borrowings from financial institutions	-	86.5
Finance leases(2)	11.4	8.7
Other financial liabilities	4.5	-
Loan from related party	-	14.3
Accrued interest	33.3	-
Current liabilities(4)	75.6	134.9
Total	4,188.9	2,004.3

(1) Borrowings from financial institutions mainly comprised of (i) EUR 764.8 million corresponding to the Altice Financing term loan facility, (ii) the Coditel Mezzanine facility for EUR 104.0 million, (iii) Green data center debt for a total of EUR 23.7 million, (iv) EUR 319.7 million Altice Six margin loan

(2) Liabilities related to finance leases were included in the line item 'other financial liabilities' for the year ended December 31, 2012 and have been reclassified for comparative purposes for the year ended December 31, 2013.

(3) Non-current liabilities shown here correspond to the total of the line items, 'borrowings from banking corporations and debentures', 'long term loans from related parties' and 'other financial liabilities' as presented in the consolidated statement of financial position.

(4) Current liabilities shown above correspond to the total of the line items, 'borrowings from banking corporations and debentures','other current liabilities' and 'related party bonds', as presented in the consolidated statement of financial position.

(5) As part of the proposed initial public offering of the newly incorporated Altice S.A., it was decided to redeem the related party preferred equity certificates issued by Altice VII. The redemption proceeds will be contributed by Altice S.A. to Altice VII against shares in Altice VII and related premium.

(1) New notes issued by Altice Finco S.A. and Altice Financing S.A. are held in escrow and are not used as of December 31, 2013 (See note 11).

During the year ended December 31, 2013, Debentures issued by the Company included:

The Hot Telecom Debentures:

The Series A' debentures-EUR 167 million, linked to the Consumer Prices Index for Tel Aviv, bear yearly interest at a rate of 3,9%. Series A' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

The Series B' debentures-EUR 137 million bear yearly interest at a fixed rate of 6,9%. Series B' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

Altice Financing Senior Secured Notes:

Altice Financing S.A. has issued Senior Secured Notes in December 2012 and December 2013 to finance various acquisitions:

- $ 460.0 million senior secured notes, issued in December 2012, bearing a semi-annual coupon of 7.875% and maturing on December 15, 2019.
- EUR 210.0 million senior notes, issued in December 2012, bearing a semi-annual coupon of 8.0% and maturing on June 15, 2023.
- $ 900.0 million senior secured notes issued in December 2013, bearing a semi-annual coupon of 6.5% and maturing in 2022. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.
- EUR 300.0 million senior secured notes issued in December 2013, bearing a semi-annual coupon of 6.5% and maturing in 2022. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

Altice Finco Senior Notes:

Altice Finco S.A. has issued Senior Notes in December 2012, June 2013 and December 2013 to finance various acquisitions:

- $ 425.0 million senior notes issued in December 2012, bearing a semi-annual coupon of 9.875% and maturing on December 15, 2020.
- EUR 250.0 million senior notes, issued in June 2013, bearing a semi-annual coupon of 9.0% and maturing on June 15, 2023.
- $ 400.0 million senior notes issued in December 2013, bearing a semi-annual coupon of 8.125% and maturing in 2024. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

The Senior and Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and traded on the Euro MTF Market of the Luxembourg Stock Exchange.

17.2 Covenants

17.2.1 Hot Telecom

The unsecured debentures issued on the Tel Aviv Stock Exchange by the Consolidated Group's subsidiary Hot Telecom include financial covenants measured on Hot Telecom performance, which mainly include:

- A debt to EBITDA ratio, which is not to exceed 6 for a period that exceeds two consecutive quarters;
- No distribution of a dividend when Hot Telecom exceeds a debt to EBITDA ratio of 5.5.

As of December 31, 2013, Hot Telecom was in compliance with all of the required financial covenants.

17.2.2 Altice Blue One

As of December 31, 2012, Altice Blue One was in default of financial covenants, though it was not in default of any scheduled payments due to the lenders. As per the debt agreements, one consequence of this default could be early or accelerated repayment of the debts, if and only if such repayments are unanimously reclaimed by all of the lending agencies.

Altice Blue One debt was refinanced its external debt on July 2, 2013 and Altice Blue One is no longer subject to any debt covenants.

17.2.3 Coditel Holding

Financial covenants have been set for Coditel Holding, in the framework of the financing agreement entered into with a pool of financial institutions on December 2, 2011, based on the consolidated accounts of Coditel Holding S.A. On June 2, 2013, the senior facilities (A and B) were refinanced and repaid by anticipation, thus releasing Coditel Holding S.A. from any covenant requirements on the senior debt facility.

As of December 31, 2013, Coditel Holding S.A. was in compliance with all of the required financial covenants on the Coditel Mezzanine debt.

17.2.4 Altice Finco and Altice Financing

Altice Finco and Altice Financing, the Senior and Senior Secured Notes issuers are subject to covenants that only come into effect every time new debts are issued with the following requirements:

- Secured net debt to EBITDA ratio: < 3:1
- Unsecured net debt to EBITDA ratio: <4:1

The Consolidated Group is allowed to fully consolidate the EBITDA from any subsidiaries in which they have a controlling interest and that are contained in the restricted group as defined under the indenture. In addition, the Consolidated Group is allowed to use a general debt basket adjustment amounting to 4% of the total assets of the group, against the gross debt of the Group.

In case the Consolidated Group exceeds any of the two conditions mentioned above, it cannot incur any new debt, till such time as the ratios are met again. The Consolidated Group also has access to two super senior revolvers provided under the indenture, in case of any financing needs the Consolidated Group may face (for a total EUR equivalent amount of EUR 118.0 million).

17.2.5 Altice Six

Altice Six has pledged the shares it holds in the Numericable Group as collateral for a margin loan. Under the provision of the loan agreement, Altice Six must respect a certain ratio, the 'Collateral LTV ratio', failure to comply with which would entail certain penalties, which are enumerated below.

- The collateral LTV ratio is defined as the ratio between the aggregated outstanding loan amount (including accrued interests), less any cash present in the pledge account, divided by the market value of the shares provided as collateral by Altice Six.
- If the Collateral LTV ratio is greater or equal to 60%, then Altice Six is required to make a cash infusion into the collateral cash account, for an amount that represents the shortfall between the aggregate amount of outstanding debt (including accrued interest) and the amount of the aggregated amount of outstanding debt representing a collateral LTV ratio of 50%. The latter value is calculated using the share price of the collateral shares at closing on the day of default.

As of December 31, 2013, Altice Six was not in breach of the covenant, with a collateral LTV ratio of 36.4%.

17.3 *Borrowings from financial institutions*

In addition to the bonds described above, the Consolidated Group has issued the following debts:

- A mezzanine debt issued by Coditel Holding S.A. in 2011 with a principal amount of EUR 100.0 million, bearing cash interest at 8.5% and a PIK interest at 5.25% which is capitalized annually. This debt matures in 2016.
- A covenant lite term loan issued by Altice Financing S.A for a total amount of USD 1,034 million (EUR 795 million), bearing interest at Prime FFER, Libor + 4.5%) and maturing in June 2019.
- A margin loan facility at Altice Six, with a principal amount of EUR 323.9 million, bearing interest at a variable rate of 12 months Euribor + 4.25% for the first period, then 6 months Euribor +4.25% and maturing in October 2016

Subordinated financial instruments have been issued by Altice VII and Altice Six.

(a) *Altice VII*

Subordinated financial instruments have been issued by Altice VII consists of:

YFPECs: Yield Free Preferred Equity Certificates;

ALPECs: Asset Linked Preferred Equity Certificate;

IFL: Interest Free Loans.

Conversely, according to our appreciation, and upon application of IAS 32/39, following instruments have to be classified as debt instruments:

ALPECs instruments (about EUR 94.3 Million as at the end of 2013; 2012 amount: EUR 104.6 million)

YFPECs instruments (about EUR 4.8 Million as at the end of 2013; 2012 amount: EUR 4.4 million)

IFL instruments (about EUR 0.2 million at the end of 2013; 2012 amount: EUR 0.2 million)

The YFPECs have been valued using a discount rate of 4.76% given its preferred interest rate which therefore values the liabilities at EUR 4.8 million as at December 31, 2013.

(b) *Altice Six*

All debt instruments previously issued by Altice Six have been reimbursed in exchange for capital increase of Altice Six or cash payments made by Altice Six. New YFPECs were issued by Altice Six on November 12, 2013 and subscribed by Next L.P. The New YFPECs are yield free instruments and hence under IAS 32/39, a fair value evaluation of such instruments is mandated.

The fair value of the new instruments was EUR 1.5 million as at December 31, 2013. The discounting rate used corresponds to the effective interest rate for Altice Six S.A. and is indexed to the external debt issued by the Company (5.3% as at December 31, 2013).

All such debt instruments issued by Altice Six were converted into common shares of Altice S.A. on January 31, 2014.

17.5 Other financial liabilities

Other financial liabilities mainly consist of:

(i) Preferred equity certificates (PECs): These instruments bear a yield and shall have a maturity of 49 years.

On November 29, 2013, Altice Holding S.à r.l. acquired the PECs held by Codilink S.à r.l. (40% of the total amount). Following this transaction, all remaining PECs issued by Coditel Holding Lux II have been subscribed by Deficom Telecom, of which 26.2% is detained by Deficom Group S.A

(ii) Debt related to Altice Caribbean put: Altice Caribbean, the sole shareholder of Altice Blue Two S.A.S, has the option to repurchase the minority stake in Altice Blue Two S.A.S, valued at EUR 52.7 million for the year ended December 31, 2013.

(iii) EUR 20.2 million in vendor notes owed by Altice VII S.à r.l. to the previous shareholders of MCS S.A.S. and SportV S.A., payable in 2014. Of the total purchase price of EUR 23.0 million for MCS and EUR 12.0 million for SportV S.A. cash payments were made for an amount of EUR 14.9 million in the year ended December 31, 2013. These vendor notes were settled after year end.

17.8 Derivatives

As of December 31 2013, the Consolidated Group had entered into the following swap transactions:

- A coupon only cross-currency swap transaction covering USD 200 million of the USD 400 million principal of Altice Finco's Senior Notes (of which USD 25 million is unhedged), based on which Altice pays Israeli Shekels and receives US Dollars, amounting to a Euro equivalent of 145 million with a maturity date on December 15, 2017 and an interest rate composed of an ILS TELBOR 3M floating rate and a fixed spread of between 8.0% and 8.25%

- A coupon only cross-currency swap transaction covering USD 225 million of the USD 450 million principal of Altice Financing's Senior Secured USD Notes (of which USD 10 million is unhedged), on the basis of which Altice pays Israeli Shekels and receives US Dollars, amounting to a Euro equivalent of EUR 163 million with a maturity date on December 15, 2017 and an interest rate composed of an ILS TELBOR 3M floating rate of 1.819% and a fixed spread of between 5.9% and 6.2%

- A coupon only cross-currency swap transaction covering EUR 100 million of the EUR 200 million principal of Altice Financing's Senior Secured Euro Notes (of which EUR 10 million is unhedged), based on which Altice pays Israeli Shekels and receives Euros, amounting to EUR 100 million with a maturity date on December 15, 2017 and an interest rate composed of an ILS TELBOR 3M floating rate of 1.819% and a fixed spread of 5.775%

- A coupon only cross-currency swap transaction covering a part of the USD 1,034 million Term loan notional (USD 292.8 million), in which Altice pays Israeli Shekels and receives US Dollars, amounting to USD 212 million with a maturity date on October 31, 2018 and an interest rate composed of an ILS TELBOR 3M floating rate of between 1.18 and 1.2% and a fixed spread of between 5.0% and 5.6%

- A coupon only cross-currency swap transaction covering part of the USD 1,034 million Term loan notional (USD 540.5 million), in which Altice pays Euros and receives US Dollars, amounting to EUR 392 million with a maturity date on October 31, 2018 and an interest rate composed of an EURIBOR 3M floating rate of between 0.22% and 0.26% and a fixed spread of between 4.5% and 4.8%

As of December 31, 2013, the Consolidated Group has entered into the following forward transactions:

- A forward transaction covering USD 500 million of the total USD nominal due at maturity of the Altice Finco USD Senior Notes and Altice Financing USD Senior Secured Notes (USD 885 million) based on which Altice pays Israeli Shekels and receives US Dollars, with a hedged rate ranging from 4.28-4.33 ILS/USD.
- A forward transaction to cover the repayment of a part of the nominal of the USD 1,034 million Term loan at maturity, in which Altice pays Israeli Shekels and Euros to receive US Dollars. As part of the transaction, Altice will pay ILS 1,076 million and receive USD 293 million at a hedged rate of 3.678 ILS/USD and will pay EUR 415 million and receive USD 541 million at a hedged rate of 1.301.
- A coupon only forward transaction covering USD 200 million of the USD 400 million Senior Notes issued by Altice Finco (of which USD 25 million are unhedged), in which Altice pays Israeli Shekels and receives US Dollars, with an average hedged exchange rate of 4.081 ILS/USD.
- A coupon only forward transaction covering USD 225 million of the USD 450 million Senior Secured Notes issued by Altice Financing (of which USD 10 million are unhedged), in which Altice pays Israeli Shekels and receives US Dollars, with an average hedged exchange rate of 4.081 ILS/USD.
- A coupon only forward transaction covering EUR 200 million of the EUR 200 million Senior Secured Notes issued by Altice Financing (of which EUR 10 million are unhedged), in which Altice pays Israeli Shekels and receives Euros, with an average hedged exchange rate of 5.036 ILS/EUR.

17.9 Non-cash transactions

Non-cash transactions consist of transactions where the Group has made payments to sellers of acquired entities or lenders (in case of debt repayments), with the cash being transferred directly to the third party.

The details of non-cash transactions are given below:

(in millions of euros)	December 31, 2013
Transaction costs related to acquisitions	(40.1)
Transaction with non-controlling interests	(120.9)
Acquisition of shares in associates	(243.7)
Net payments on acquisition of subsidiaries	(559.8)
Repayment of debt	(641.7)
TOTAL	(1,606.2)

In addition to this, Altice Six realized a non-cash gain arising from contribution of financial instruments to Numericable Group S.A. See note 27 for more details.

18 – Obligations under finance leases

18.1 Leasing arrangements

The Consolidated Group leased certain of its office facilities under financial leases. The average lease term is 5 years (2012: 5 years). The Consolidated Group has options to purchase the equipment for a nominal amount at the end of the lease terms. Obligations under finance leases are secured by the lessors' title to the leased assets. Entities with major lease contracts are, (i) HOT and HOT mobile, (ii) Outremer Telecom and (iii) Auberimmo.

Interest rates underlying all obligations under finance leases are fixed at respective contract dates ranging from 3.5% to 5.5% (2012: 3.75% to 6%) per annum.

18.1.1. Leasing arrangements

	Minimum lease payments	
	31 December 2013	31 December 2012
Less than one year	12.6	12.3
Between one and two years	7.3	7.2
Between two and three years	5.0	4.9
Between three and five years	2.8	2.9
More than five years	7.6	7.6
Less: future finance expenses	(2.9)	(2.6)
Present value of minimum lease payments	**35.3**	34.9

	31 December 2013	31 December 2012
Included in the consolidated financial statements as:		
Current borrowings (note 17)	23.4	27.1
Non-current borrowings (note 17)	11.4	7.8
Total	34.8	34.9

Current leasing obligations for HOT are listed below:

The HOT group (HOT Telecom and HOT mobile) leases equipment under finance leasing agreements. An arrangement exists within the framework of the leases, which does not meet the legal definition of leasing, but which is treated as a leasing agreement, based upon its terms. The leased equipment serves as collateral for the liabilities under the lease contract. As of December 31, 2013 the net carrying value of the leased facilities and equipment is EUR 38.1 million (NIS 182 million) (2012 – EUR 41.7 million/NIS 205 million).

HOT Mobile has finance leasing in an amount of EUR 2.9 million in accordance with its rental contract with the company "Airport City" Ltd., which is for a period of 10 years ending in 2019. As of December 31, 2013, there is no balance recorded in the accounting records in respect of leasehold improvements (as of December 31, 2012, the net carrying value of leasehold improvements was EUR 3.0 million).

The Consolidated Group has recorded finance leasing in respect of the Bezeq agreement. As of December 31, 2013, the finance leasing commitment in respect of the long-term Bezeq rental fees was updated by an amount of EUR 0.4 million (NIS 2 million), as a result of additional payments made in respect of the leasing in the reporting period (as of December 31, 2012 – EUR 0.4 million/NIS 2 million).

Other leasing contracts exist at Auberimmo, a datacenter owned by the Consolidated Group and operating in France. The facility was purchased under a finance lease agreement for an initial amount of EUR 5.6 million. A second tranche was issued to carry out renovations and leasehold improvements, amounting to a total of EUR 3.0 million.

19-Financial risk factors

In the course of its business, the Consolidated Group is exposed to a number of financial risks: credit risk, liquidity risk, market risk (including foreign currency risk and interest rate risk) and other risks (including equity price risk and settlement risk). This note presents the Consolidated Group's objectives, policies and processes for managing its financial risk and capital.

Financial risk management is an integral part of the way the Consolidated Group is managed. The Board of Directors establishes the Consolidated Group's financial policies and the Chief Executive Officer establishes objectives in line with these policies.

The Consolidated Group is not subject to any externally imposed capital requirements.

19.1 Credit risk

The Consolidated Group does not have significant concentrations of credit risk. The credit risk may arise from the exposures of commitments under a number of financial instruments with one body or as the result of commitments with a number of groups of debtors with similar economic characteristics, whose ability to meet their commitments could be similarly affected by economic or other changes.

The Consolidated Group's income mainly derives from customers in Israel, in the French Overseas Territories and in Europe (Belgium, Luxembourg, Portugal and Switzerland). The Consolidated Group regularly monitors its customers' debts and provisions for doubtful debts are recorded in the consolidated financial statements, which provide a fair value of the loss that is inherent to debts whose collection lies in doubt.

The Consolidated Group does not have significant concentration of credit risk, as a result of the Consolidated Group's policy, which ensures that the sales are mostly made under standing orders or via credit cards.

19.2 Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which manages liquidity risk by maintaining adequate reserves, banking facilities and reserves borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

19.3 Market risks

The Consolidated Group is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and anticipated future transactions.

19.3.1 Interest rate risk

Interest rate risk comprises the interest price risk that results from borrowings at fixed rates and the interest cash flow risk that results from borrowings at variable rates.

The Consolidated Group has an exposure to changes of interest rate in the market, deriving from long-term loans that have been received and which bear variable rate interest.

Interest structure of non-current financial debt (including interest effects of derivatives):

	December 31, 2013	**December 31, 2012**
	(in millions of euros)	
Financial debt at fixed rates	2,843.1	1,670.8
Financial debt at variable rates	1,345.5	333.4
TOTAL	4,188.6	2,004.2

	Weighted average effective interest rate	< 1 year	1-5 years	5+ years	Total	Carrying amount
31 December 2013						
Non- interest bearing	-	-	-	4.9	4.9	4.9
Variable interest rate instruments(1)	5.9%	73.9	1,309.7	481.1	1,864.7	1,345.5
Fixed interest rate instruments	7.7%	272.6	1,942.4	1,712.6	3,927.7	2,838.2

	Weighted average effective interest rate	< 1 year	1-5 years	5+ years	Total	Carrying amount
31 December 2012						
Non- interest bearing	-	-	-	4.4	4.4	4.4
Variable interest rate instruments	5.1%	-	5.6	326.3	842.2	333.4
Fixed interest rate instruments	7.4%	-	-	839.4	839.4	1,666.4

(1) The carrying amount of variable interest rate instruments excludes the following items included in note 17.6, 'accrued interest. Other financial liabilities and financial instruments'

19.3.2 Israeli CPI risk

The Consolidated Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Consolidated Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Consolidated Group is exposed to changes in the Israeli CPI amounted to approximately EUR 187.0 million (NIS 895 million) as of December 31, 2013.

19.3.3 Foreign currency management

1. Foreign currency sensitivity analysis

The Consolidated Group is exposed to foreign currency risk from transactions and translation. Transactional exposures are managed within a prudent and systematic hedging policy in accordance with the Consolidated Group's specific business needs. Translation exposure arises from the consolidation of the financial statements of foreign operations in euros, which is, in principle, not hedged. The Consolidated Group's objective is to manage its foreign currency exposure through the use of currency forwards, futures and swaps.

	December 31, 2013		
	Israeli Shekel	Swiss Franc	Total
	(in millions of euros)		
Profit for the year			
Increase of 10% in exchange rate	(12.8)	(0.2)	(12.9)
Decrease of 10% in exchange rate	12.8	0.2	12.9
Equity			
Increase of 10% in exchange rate	5.6	2.1	7.6
Decrease of 10% in exchange rate	(5.6)	(2.1)	(7.6)

	December 31, 2012		
	Israeli Shekel	Swiss Franc	Total
	(in millions of euros)		
Profit for the year			
Increase of 10% in exchange rate	(12.9)	(0.1)	(13.1)
Decrease of 10% in exchange rate	12.9	0.1	13.1
Equity			
Increase of 10% in exchange rate	23.3	3.0	26.3
Decrease of 10% in exchange rate	(23.3)	(3.0)	(26.3)

Exchange differences recorded in the income statement represented a profit of EUR 66.5 million in 2013 (2012: loss of EUR 22.5 million). They are allocated to the appropriate headings of expenses by nature.

The Consolidated Group estimates that a 10% variation of foreign currencies against euro parity is a relevant change of variables and reasonably possible risk in a year and the presented above allows to assess the impact of a 10% increase of foreign currencies against euro on net result and reserves. A 10% decrease would have a symmetrical impact with the same amounts but in the opposite direction.

2. Foreign currency hedging

It is the policy of the Consolidated Group to enter into hedging foreign exchange contracts to cover specific foreign currency payments and receipts.

The following table details the hedging contracts outstanding at the end of the financial year :

	Average exchange rate	Foreign currency	Notional Value	Fair Value of assets (1)
Outstanding swap contracts (ILS coupons only)	4.34	3,201.8	620.6	(25.0)
Outstanding swap contracts (EUR coupons only)	0.79	415.5	392.0	(12.9)
Outstanding forward contracts (ILS coupons only)	4.31	2,154.3	426.7	(22.7)
Outstanding forward contracts (ILS nominal only)	5.07	2,125.0	362.6	(81.7)

---

(1) Fair value of swap and forward contracts as of December 31. 2012 amounted to EUR 62.5 million

19.3.4 Price risk

The Consolidated Group has investments in listed financial instruments, shares and debentures that are classified as available-for-sale financial assets and financial assets at fair value through profit or loss in respect of which the Consolidated Group is exposed to risk of fluctuations in the security price that is determined by reference to the quoted market price. As of December 31, 2013, the carrying amount of these investments was EUR 9.4 million (6.1 million as of December 31, 2012).

19.4 Gearing computation

For the year ended December 31, 2013, the Consolidated Group had a net equity position of EUR 95.3 million, thus resulting in a gearing ratio of 43.3

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Net Debt	4,188.9	2,004.3
Cash and cash equivalents	(61.6)	(129.8)
Total equity	95.3	278.1
Gearing	43.3	6.7

19.5 Fair value of financial assets and liabilities

19.5.1 Fair value of the Consolidated Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Consolidated Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Financial assets/ Financial liabilities	Fair value as at		Fair value hierarchy	Valuation technique(s) and key input (s)	Significant unobservable differences	Relationship of unobservable differences
	31/12/2013	31/12/2012				
Foreign currency forward contracts (see notes17.8)	(104.9)	(52.6)	Level 2	Zero curve	N/A	N/A
					N/A	N/A
Interest rate swaps (see note 17.8)	(37.9)	(9.8)	Level 2	Zero curve	N/A	N/A
					N/A	N/A
AFS					N/A	N/A
- Wananchi (1)	31.9	-	Level 3	Internal approach using business plans	N/A	N/A
- Partner and Co.	8.4	6.1	Level 1	Quoted price in an active market	N/A	N/A

(1) In April 2012, the Consolidated Group made an investment in the East-African cable operator Wananchi, to gain a foothold in the strategic and fast developing African cable and telecom market. To date the Consolidated Group has invested a total of EUR 34.9 million ($ 48.4million, of which EUR 31.9 million in equity and EUR 3.0 as a convertible note, as of the year ended December 31, 2013) in this venture, alongside other industry peers, and has acquired a total stake of 17.5% in Wananchi. Given the specific geo-economic context of the zone that Wananchi operates in, the high growth rate, infrastructure development needs and volatilities associated with the region, the Board of Directors considers that the carrying amount of its investment reflects the fair value of the investment as of December 31, 2013.

19.5.2 Reconciliation of Level 3 fair value measurements

	Available for sale (unlisted shares)	Others	Total
31 December 2013			
Opening balance	0.0	–	0.0
Total gains or losses:			
– in profit or loss	0.0	–	0.0
– in other comprehensive income		–	
Purchases (*)	31.9		31.9
Issues	–	–	–
Disposals/settlements	-	–	-
Transfers in level 3	-	-	-
Transfers out of level 3	-	-	-
Closing balance	31.9	–	31.9

There were no available for sale instruments classified as level 3 for the year ended December 31, 2012.

(*) As at December 31, 2012 and during the year 2013, the Consolidated Group invested into convertible bonds issued by Wananchi. Such bonds have been converted during the year in exchange for shares of Wananchi.

20-Trade and other payables

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Trade payables	392.9	314.2
Corporate and social security contributions	29.8	24.5
Other payables	94.3	38.9
Amounts due to related parties	0.1	0.2
Deposit and guarantee received	0.4	-
Total current payables	517.4	377.8
Trade payables-acquisition of assets	13.0	5.9
Other payables	16.0	32.9
Total non-current payables	29.0	38.8

The increase in trade payables can mainly be attributed to the acquisitions of Outremer, ONI and integration of MCS and SportV in the scope of consolidation of the Consolidated Group in 2013.

The increase in income tax payables can be attributed to an improvement in the profit before tax at HOT and a concomitant increase in the income tax rate in Israel from 25.0% to 26.5% as compared to FY2012.

21-Deferred revenues

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Current deferred revenue	55.9	34.1
Non-current deferred revenue	10.6	10.8
Total deferred revenues	66.5	44.9

Current deferred revenues refer to revenues recognized from customers billed in advance of the monthly cut-off. Non-current deferred revenues result from multi-year contracts with business customers.

The increase in deferred revenues for the year ended December 31, 2013 was mainly due to an increase in price of certain products for the year ended December 31, 2013 and the subsequent billing and revenue collection of these subscriptions before the year end.

22-Classification and fair value of financial assets and liabilities

On December 31, 2013 and 2012, the principles for measuring financial instruments and their market value break down as follows:

	December 31, 2013			
			Fair Value	
	Book value	Amortized cost	Fair value through profit/loss	Assets available for sale
		(in millions of euros)		
Current assets				
Cash and cash equivalents	61.6	61.6	-	-
Restricted cash	1242.7	1242.7	-	-
Trade receivables	194.0	194.0	-	-
Other receivables	38.4	38.4	-	-
Non-current assets			-	-
Restricted cash	1.8	1.8	-	-
Loans and receivables	3.0	3.0		
Available for Sale	40.3	-	-	40.3
Long term trade receivables	5.5	5.5	-	-
Other long-term trade receivables	22.8	22.8	-	-
	1,610.1	1,569.8	0.0	40.3

	Book value	Amortized cost	Fair value
Current liabilities			
Credit from banking corporations and debentures	59.7	59.7	-
Loans from related parties	-	-	-
Trade payables	383.4	383.4	-
Others payables	246.8	246.8	-
Other current liabilities	15.9	15.9	-
Non-current liabilities			-
Loans from banking corporations and debentures	3,840.2	3,840.2	-
Other financial liabilities	271.6	129.3	142.3
Other non-current liabilities	39.6	39.6	-
	4,857.2	4,714.9	142.3

	December 31, 2012			
	Book value	Amortized cost	Fair value through profit/loss	Assets available for sale
Current assets				
Cash and cash equivalents	129.7	129.7	-	-
Trade receivables	150.8	150.8	-	-
Other receivables	37.9	37.9	-	-
Non-current assets				
Restricted cash	9.6	9.6	-	-
Investments in financial assets available for sale	-	-	-	-
Available for Sale	6.1	-	-	6.1
Long term trade receivables	18.7	18.7	-	-
Other long-term trade receivables	24.2	24.2	-	-
	377.0	370.9	-	6.1

	Book value	Amortized cost	Fair value
Current liabilities			
Credit from banking corporations and debentures	111.9	111.9	-
Trade payables	311.3	311.3	-
Others payables	111.4	111.4	-
Short-term loans from related parties	14.3	14.3	-
Other current liabilities	8.7	8.7	
Non-current liabilities			
Loans from banking corporations and debentures	1,365.7	1,365.7	-
Long-term loans from related parties	322.4	322.4	-
Other financial liabilities	181.2	118.70	62.5
Other non-current liabilities	49.5	49.5	-
	2,476.4	2,413.9	62.5

23-Taxes on income

23.1 Income tax (expense)/benefit

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Current income tax	(38.0)	4.2

Others	-	0.3	-	-	-	-	0.3	0.6
Earn out adjustment	-	-	(13.4)	-	-	-	(0.1)	(13.5)
Tax provisions	-	-	(6.8)	-	-	-	-	(6.8)
Total	(1.5)	(3.6)	2.5	(4.9)	(1.4)	37.5	(0.4)	28.2

23.4 Tax assessments

23.4.1 Hot Telecom

On December 22, 2013, an agreement was signed between Cool Holdings Ltd and all of its subsidiary companies (except for HOT Mobile Ltd.) (hereinafter in this section – the companies) and the Israeli Income Tax Authority for the closure of disputes that had arisen in the assessment discussions for the years 2006 – 2011 and in continuation of the tax assessments that had been received in December 2009 and during the course of 2010 for the 2006 – 2008 tax years. Pursuant to the compromise agreements the companies will be required to pay an additional amount of tax in respect of the said tax years, primarily in respect of timing differences in respect of the depreciation of the infrastructure and the cables network and the amortization of intangible assets. The implementation of the compromise agreements will result in the Company having chargeable income in 2012 and 2013 as well.

HOT Telecom's management has recorded the provision relating to the assessments in its financial statements in the past.

The impact of such assessment agreement in HOT's financial statements, including in respect of the updating of the HOT's deferred tax balances, is a net income of EUR 5.0 million.

Most of the companies have been issued with final tax assessments up to and including the 2011 tax year. HOT Mobile has been issued with tax assessments up to and including the 2009 tax year, which are deemed to be final.

23.4.2 Cabovisao

For the years 2012 and 2013, Cabovisao is subject to corporate income tax ("IRC – Imposto sobre o Rendimento das Pessoas Colectivas") at a rate of 25%, increased (i) up to a maximum of 1.5% of taxable income through a municipal tax ("Derrama""); and (ii) by a 3% and 5% state tax ("Derrama Estadual") applicable on taxable income between 1,5 million Euros and EUR 10 million (EUR 7.5 million as from January 1, 2013, following a change in Portuguese tax legislation occurred in December 2012) and on taxable income in excess of EUR 10 million (EUR 7.5 million as from January 1, 2013), respectively, in accordance with the article 87- A of the Portuguese Corporate Income Tax code, resulting in a maximum aggregate tax rate of approximately 31.5%.

In accordance with article 88° of the Portuguese Corporate Income Tax code, the Company is subject to an autonomous taxation over some expenses at the rates defined in that article.

As at December 31, 2013, the Company's tax returns, for the fiscal periods of 2006 until 2010, are being reviewed by Portuguese tax authorities. During the year ended December 31, 2013, the Company already received a tax notification, adjusting the Company's tax losses obtained in the fiscal year ended 2006, in the amount of approximately EUR 16.5 million. However, as of December 31, 2013, any carrying forward tax losses obtained in the fiscal year ended 2006 already expired, and therefore cannot be used to reduce future taxable profits.

The Company was subject to an inspection from the Portuguese tax authorities for the fiscal years 2003 to 2006, and the outcome was the following:

- An assessment of the Portuguese Tax Authorities related to 2005, requested an adjustment of tax losses in the amount of EUR 17.2 million, as well as an additional tax payment in the amount of EUR 4.1 million for withholding tax and stamp tax. The Company paid EUR 2.9 million and contested this decision through an appeal, but has not received the final decision yet. The unpaid amount of, approximately, EUR 1.0 million (excluding related late payment interests) was contested on appeal. In the year ended August 31, 2012, the Corporate Tax Authority accepted the claim. As of today, there were not any subsequent deliberations after that decision. The Board of Directors understands that the final outcome of this matter will be favorable to the Company.

- An assessment of the tax payable concluded that there was withholding tax due in the amount of approximately EUR 5.2 million (excluding related late payment interests). Cabovisao doesn't agree with this assessment, having filed a gracious complaint and submitted a bank guarantee in the amount of approximately EUR 6.8 million. As of December 31, 2013, the administrative and tax court of Almada didn't pronounce itself on that claim. The Board of Directors understands that the final outcome of this matter will be favorable to the Company.

23.4.3 Other entities

The Board of Directors has not identified any other material tax assessments in other group entities.

23.5 Unrecognized deferred tax assets

As at December 31, 2013, unrecognized deferred tax assets amount to EUR 253.0 million and are mainly split as follows:

	December 31, 2013	**December 31, 2012**
	(in million Euros)	
Cool Holding and HOT Telecom	(13.9)	-
HOT Mobile	(118.9)	(10.8)
Altice Financing	(3.9)	-
Altice Six	(342.6)	(342.6)
Cabovisao	(56.0)	(51.3)
Altice Finco	(1.8)	-
Altice Holdings	(36.9)	-
Altice Caribbean	(1.5)	-
Altice Blue Two	(6.4)	-
ONI	(11.8)	-
Others	(2.0)	-
Total	(595.7)	(404.8)

24-Segment analysis

24.1 Definitions of segments

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geography is inalienable to the Group strategy of managing its different businesses. It has thus been decided by the central management team to analyse the business across geographies and then by activity. The following geographies have been identified:

- Israel,
- Belgium and Luxembourg (Western Europe),
- Portugal (Western Europe)
- France (Western Europe)
- French Overseas Territories (Antilles and Indian Ocean),
- Others (Switzerland, Africa, France etc.).

Activities have been split as follows:

- Cable,
- Mobile,
- B2B and Others (Content/etc.).

Following the signature of agreements to acquire Tricom and Orange Dominicana in the Dominican Republic in October and November 2013 respectively, a new segment, "Dominican Republic", will be defined. Given the nature of the activities of the two firms, there will be no changes to the activities segment.

24.1.1 Operational KPIs

It has also been decided by Management that operating subsidiaries shall report operational KPIs every week together with financial KPIs every month, using a standard reporting format.

The main operational KPIs include:

The main operational KPIs that will be tracked will be:

Subscriber base evolution (both cable and mobile),

ARPU (Average Revenue per Unit) (cable and mobile),

Other relevant cost drivers.

These KPIs are benchmark indicators followed throughout the industry and allow for a thorough and accurate analysis of the business and strategic decision making.

24.1.2 Financial KPIs

Each local operational company will also report on a monthly basis the following financial KPIs by segment:

Revenues (Cable/Mobile/B2B and Others),

Cost of Sales (Cable/Mobile/B2B and Others),

Capex (Cable/Mobile/B2B and Others).

The central team believes that given the uniformity in the accounting and nature of operating expenses and given the experience and competence of the Consolidated Group in managing operating costs, the main indicator that can vary between business units is the gross margin.

Capital expenditure (Capex) is an important indicator to follow, as the profile varies greatly between the two activities:

The cable business has fixed Capex requirements that are mainly discretionary (network, platforms, general), and variable Capex requirements related to the connection of new customers and the purchase of Customer Premise Equipment (TV decoder, modem, etc).

Mobile Capex are mainly driven by investment in new mobile sites, upgrade to new mobile technology and licences to operate. Once Capex are engaged and operational, there are limited Capex requirement.

Management believes that operations in Switzerland are currently not substantial enough to require a separate reporting segment, and will be reported under 'B2B and Others'. However, as these activities grow, it is intended that they are also reported under a separate segment with relevant operating KPIs specific to the activity.

24.2 Regional specificities

24.2.1 Israel

Israel is currently an important contributor to the Consolidated Group revenues and EBITDA and has particularities that differentiate it. For this reason, it is classified as a separate region.

It is characterised by a high broadband and cable penetration and a very technology-savy population. Segments within the Israeli telecom market show different level of maturity and competition, with relatively frequent interventions from the regulator. Management is factoring expectations for price pressure and increasing competition in its strategic plan.

Triple play penetration is low and represents a valuable growth driver.

The regulatory environment does not yet allow for quadruple play packages (coupling fixed and mobile services), which Management need to consider when setting up integration plans and operational synergies. The prevailing political environment in the region can also have adverse impacts on the development of the business, as a deterioration of the situation may have serious repercussions on the market environment and may even lead to physical damage of the infrastructure.

24.2.2 Belgium and Luxembourg

Even though Belgium/Luxembourg and Portugal can be considered to be the same sub-region, the challenges posed by these two regions are quite different.

The Belgian and Luxembourg territories have a high standard of living and well developed economies, which translates into higher prices for services. The markets are quite mature, with high broadband penetration. Customers are willing to pay more for premium services and hence price pressure appears limited.

These regions are marked by the presence of many well established local cable operators with no overlap thou. Customer retention is a key factor in maintaining strong profit margins.

Given the density and presence of mobile operators, the mobile strategy has been driven by Mobile Virtual Network operations, through the deployment of quadruple play packages.

24.2.3 France

The French market is a large and mature market with high cable penetration and a large consumer base. French operations represent the oldest and largest part of the cable operations of the combined Group to date.

This region is marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins. Competition is tough and innovations in cable technology, such as Fiber to the home (FTTH) are driving market growth. Incumbent operators are slowly migrating to fiber optic based networks which gives the Group a head start in capturing the ultra-high speed internet market, given its pre-existing high density cable network.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

24.2.4 Portugal

The Portuguese market is marked by a high concentration of double play subscribers and a mature telecommunications market, which, when coupled with slow economic recovery, makes it difficult to achieve revenue growth. This market is marked by high subscriber attrition and downward migration from high to low ARPU offers.

The challenge in Portugal is to maintain a subscriber base and migrate the customer base from double play to triple play offers.

24.2.5 French Overseas Territories

The French Overseas Territories present growth opportunities with relatively limited competition and room to attract more subscribers on our cable infrastructure. Additional growth potential exists notably through the deployment of multiple-play services and efficiency gains in distribution network, , as multiple-play packages penetration remains low. Price pressure is low in these regions and customers are willing to pay more for value added services.

Additional opportunities have been identified and pursued in the e-banking sector.

24.3 Segment information

Details regarding revenues, cost of sales and gross profit for our cable, mobile and other segments are as follows:

		December 31, 2013					
	Total	**Belgium & Luxembourg**	**France**	**Israel**	**French Overseas Territories**	**Portugal**	**Others**

	(in millions of euros)	
Technical and maintenance costs	(149.7)	(141.9)
Customer services	(32.9)	(18.3)
Taxes	(3.6)	(2.4)
Total	(186.2)	(162.5)

26-Depreciation, amortization and goodwill impairment.

It consists in (i) amortization of intangible assets for a total of EUR 133.4 million (2012: EUR 245.7 million including EUR 121.9 million of goodwill impairment), (ii) depreciation of tangible assets for a total of EUR 251.4 (2012: EUR: 219.6 million) and (iii) other additions and reversals for a total of EUR 14.8 million (mainly representing additional depreciation on inventories and receivables) (2012: EUR 77.10 million, representing a net reversal for the year).

27- Gain on settlement of financial instruments

The gain on settlement of financial instruments recorded in the financial statements of Altice Six S.A. in the year ended December 31, 2013, corresponds to the difference between the carrying amount of the loans and receivables contributed by Altice Six in exchange for shares in Numericable Group S.A. and the fair value of these instruments as recorded in the IFRS financial statements of Altice Six at the time of the contribution.

The carrying amount of the loans at the time of the contribution was EUR 418.3 million and the fair value recorded in the IFRS accounts of Altice Six amounted to EUR 162.6 million, thus leading to a gain of EUR 255.7 million.

28-Other operating incomes and expenses

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Other incomes and expenses	(17.0)	(24.9)
Other revenues	0.9	-
Disposal of tangible assets	1.0	(4.8)
Other expenses, net	**(15.1)**	**(29.8)**
Non-recurring costs(1)	(58.3)	(22.4)
Restructuring costs(2)	(2.9)	(6.7)
Restructuring and other non-recurring costs	**(61.2)**	**(20.8)**
Total	(76.3)	(50.5)

(1) The increase of non-recurring costs is mainly explained by a one-off EUR 31.6 million charge booked at HOT Mobile concerning the entering into a new network sharing agreement with Partner Telecommunication and the termination of the existing agreement with Pelephone. The provision relates to any cost overlap resulting from the use of Pelephone's network during the transition phase. In addition, Altice financing incurred costs related to consultants' fees and other outlays related to the acquisition of OMT Invest S.A.S and Winreason S.A.

(2) Restructuring costs decreased in the year ended December 31, 2013 as a result of the completion of restructuring at Cabovisao. The charge of EUR 2.9 million refers to the restructuring costs engaged at ONI telecom since its acquisition in august 2012.

29-Net finance costs

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Gain arising on fair value of financial instruments(1)	2.6	1.2
Foreign exchange gains	91.0	24.7
Interest income	27.3	10.3
Other financial income	2.5	4.5
Finance income	120.9	40.7
Interest charges on borrowings and overdrafts (2)	(201.5)	(118.5)
Loss arising on fair value of financial instruments	(99.4)	(72.0)
Interest on subordinated debt	(37.6)	(11.5)
Foreign exchange losses	(24.5)	(2.1)
Net book-value of disposal/financial assets	(13.6)	(21.2)
Finance costs	(376.6)	(225.4)
Total	(255.6)	(184.7)

(1) Gains arising on fair value variations of financial and subordinated financial instruments issued by the Company for a total amount of EUR 1.4 million and a gain on interest rate swaps recorded at Altice financing for a total amount of EUR 1.3 million.

(2) The increase in interest expense for the year ended December 31, 2013 was primarily due to (i) the issuance of new debt to finance the Outremer Telecom and ONI transactions (EUR 12.9 million impact in 2013) and (ii) the full year impact of the debt incurred to finance the HOT take private in 2012 (EUR 47.45 million in 2013).

30-Transactions with non-controlling interests

On April 23, 2013, the company repurchased the 40% minority interests held by Apax in its Portuguese subsidiary, Cabovisao for a total consideration of EUR 105.0 million, of which EUR 90.0 million was paid as consideration for equity acquired and EUR 15.0 million used in the repayment of a shareholder loan. The total amount of equity acquired was valued at EUR 13.1 million and the impact on the net equity of the Consolidated Group was EUR 77.0 million following the consummation of the deal.

On November 29, 2013, the company repurchased the 40% minority interests held by Apax though its holding company Codilink S.à r.l. in Coditel Holding Lux and Coditel Management. The total consideration paid was EUR 82.5 million, of which EUR 30.6 million was paid to acquire shares in Coditel Holding Lux II and EUR 51.9 paid to reimburse subordinated debt instruments (CPECs) held by the minority shareholder. The amount of equity acquired by the Consolidated Group was valued at EUR 1.7 million, with a total impact of EUR 28.9 on the Consolidated Group net equity following the consummation of the deal.

31-Average workforce

	December 31, 2013	December 31, 2012
Managers	352	268
Technicians	857	660
Employees	3,011	4,719
	4,220	5,647

32-Transaction with related parties

32.1 Trading and financial transaction

Transactions with related parties mainly related to transactions with Numericable Group, Next L.P. or Altice Six S.A.. Such transactions are limited to (i) re-invoicing of certain operational services granted by Numericable Group to certain subsidiaries of Altice VII, or (ii) shareholder preferred equity certificates or loan issued by Altice VII and held by Next L.P.

Transaction with related parties that directly impact the reserves of the Consolidated Group are summarized in note 13.

Other related parties include consulting firms specialized in the management and operations of telecom companies and executive managers of Altice VII. The fees paid to the consulting companies include recurring fees paid based on service level agreements established with Altice VII, one-off success fees for the successful completion of acquisitions or negotiations with banks on debt contracts/bond issuance and reimbursement of any outlays and expenditures incurred by the employees of these companies when working on behalf of Altice VII. Transactions with executive managers include loans provided to them by the Company.

33.1 Hot Telecom Commitments

33.1.1 Commitments

A. Contingent liabilities

1. Within the framework of the merger of the cable companies on December 31, 2006, the Company assumed responsibility for the existing claims in the field of activity of the acquired companies (the cable companies in their former format), furthermore, it was determined that the Company would assume responsibility for any claim that might be filed in the interim period by any of the acquired companies after the time of the completion of the merger of the cable companies.

In addition, the Company has entered into a commitment under an indemnification agreement with each of the three previous holders of the rights in the HOT Gold Partnership (the Tevel Group, the Yedioth Communications and the Fishman Group) in accordance with which the Company has undertaken to fully indemnify the partners in the HOT Gold Partnership, prior to the completion of the merger transaction, so that they will be released from all responsibility, commitment or debt of any sort whatsoever that HOT Gold had on December 31, 2006 or that HOT Gold might have had after that date, and which relate to the period prior to the completion of the merger, including in respect of claims and legal proceedings.

2. Lawsuits have been filed and are pending against companies in the Consolidated Group in the routine course of business and various legal proceedings are outstanding against it (hereinafter - Lawsuits).

In the opinion of the managements of the Consolidated Group companies, based, inter alia, on legal opinions in respect of the chances of the lawsuits, appropriate provisions have been recorded in the financial statements as of December 31, 2013 in an amount of EUR 11.1 million, were provisions are required, to cover the exposure in respect of the said lawsuits.

In the opinion of the management of the Consolidated Group companies the additional exposure in an amount of approximately EUR 565 million (over and above the provisions that have been recorded in these financial statements), as of December 31, 2013 in respect of lawsuits that have been filed against companies in the Consolidated Group on various issues is as follows:

a) An amount of approximately EUR 377 Million in respect of claims, the chances of which, in the assessment of the Company's management, in reliance on opinions from its legal advisors, do not exceed 50%.

b) An amount of approximately EUR 105 Million in respect of claims, which it is not possible to evaluate at this stage, and which consist primarily of applications for approval as class actions that were filed shortly before the date of the financial statements.

c) An amount of approximately EUR 84 Million in respect of claims, where the chances of there being accepted in the assessment of the Company's management, in reliance on the opinion of its legal advisers, exceed 50%.

The following table is an abbreviated summary of the Consolidated Group's contingent liabilities, which are outstanding as of December 31, 2013, according to groupings having similar characteristics:

The subject matter of the lawsuit	Amount of the additional exposure over and above the provision as of December 31, 2013	Amount of the lawsuits that it is not possible to assess, which were presented shortly before the date of the financial statements (primarily applications for approval as class actions)	Provision recorded in the financial statements as of December 31, 2013	Provision recorded in the financial statements as of December 31, 2012	Updating of the expense (income) in the reporting period
	EUR in Millions				
Customers [1]	490.0	82.0	4.2	2.1	2.1
Copyright	-	-	6.3	11.3	0.4
Suppliers [2]	22.6	11.3	0.4	0.6	-
Employees	1.0	-	0.2	0.2	-
The merger transaction	50.2	-	-	-	-
Total	563.8	93.3	11.1	14.2	2.5

(1) The amount includes EUR 10.5 million in respect of claims after the balance sheet date.
(2) The amount includes EUR 9.4 million in respect of claims after the balance sheet date.

B. Commitments

1. Royalties to the Ministry of Communications and other payments to the government

a) Hot Telecom used to be committed to pay annual royalties in accordance with the Telecommunications Regulations (Concessions) - 1987. In accordance with the Telecommunications Regulations (Telecommunications and Broadcasting) (Royalties) - 2001, HOT Telecom is required to pay annual royalties in respect of its income from in country operator services and HOT Mobile is required to pay annual royalties in respect of its radio telephone services (less payments to another license holder in respect of reciprocal connection or roaming services). The royalties rates that HOT Telecom and HOT Mobile have each been charged to pay stood at 1.75% in 2012 and decreased to 0% from 2013 onwards.

b) In July 2001, the cables companies, including Hot Telecom, entered into a commitment under an agreement with the State of Israel on the subject of a solution to the disputes between the cable companies and the State in respect of the right of each company to operate the existing cables infrastructure in each of the concession areas after the end of the period of the concessions. It was stipulated in the agreement that the State undertakes to waive all of its claims and its rights in respect of the cables infrastructure such that each cables company would be the owner of all of the rights, including property rights, in the cables infrastructure that it held in the area of its concession and that it would have available to it the right to continue to operate it even at the end of the concession period. In consideration for this, it was stipulated that each company was to pay to the State, on an annual basis and for a period of 12 years (commencing on January 1, 2003), its relative share, as determined in the agreement, of an amount that is equivalent to the multiple of certain incomes (as determined in the agreement) of each of the cable companies on a graduated scale (in accordance with the level of income, as aforesaid) at a rate of from 0% to 4%. The relative share of each company can be altered by agreement between the cables companies.

In addition, it was stipulated that each company is to pay approximately 12% of the overall consideration from the sale of operations that are executed through the cables infrastructure for a period of 12 years. It was also stipulated in the agreement that in so far as Hot has received any amount whatsoever in consideration for the issuance of its shares to the public or to an external investor or in consideration for the sale of shares of another company from among the cables companies, part of the consideration from the issue or the sale, as aforesaid, is to serve as an advance payment for the payment of the relevant portion of the consideration that remains to be paid under the agreement, in accordance with a formula that will be determined by the parties by agreement. It is further stipulated in the agreement that it shall apply to the cables companies or to any company that is split or merged even if structural changes are made of any sort whatsoever, and accordingly, with the completion of the merger, the agreement applies to Hot as a merged company.

c) In accordance with the Wireless Telegraph Regulations (Licensing, Certification and Levies) -1978, HOT Mobile is required to pay a fixed annual payment for each frequency that it uses. HOT Mobile paid amounts of NIS 29 million and NIS 26 million in respect of the years 2013 and 2012 respectively.

2. Other royalties

a) Within the framework of the Consolidated Group's routine operations in the broadcasting field, the Consolidated Group enters into commitments under arrangements and agreements under which the Consolidated Group pays royalties to various authors' organizations. The amounts of the royalties that have been reflected by the Consolidated Group within this context in the years 2013 and 2012 amounted to NIS 45 million and NIS 42 million respectively.

b) On January 30, 2012 a draft of the Authors and Performers Law (Judgment on Royalties Issues) 2012 (hereinafter, in this section - "The draft law") was placed before the Knesset. The draft law was intended to create a royalties court by empowering one of the District Court Judges to hear cases on royalties issues, royalty rates and disputes in royalty issues (in other words, a dispute on the issue of royalty rates between a collective management entity and a user or users of a repertoire).

This draft, if it is accepted, may have an implication for the issue of the payment of royalties to various organizations. As of the date of this report, Hot is unable to assess what the impact of the said legislation will be on its business results, if it is passed.

3. A commitment to invest in original productions

In accordance with the provisions of the Communications Law, the principles of communications and decisions by the Council, Hot is required, inter alia, to invest amounts in original productions at a rate of 8% of its annual income from subscription fees. During the course of the years 2012 and 2013 Hot complied with the investment rate that is required, as aforesaid.

It should be noted in this connection that the Communications Law has empowered the Council to determine the rate of investment that is required, and solely that it may not exceed 12% and may not fall below 8% of the annual income from subscriber fees. In this connection, in October 2011 the Council informed Hot that as from the year 2012 its income from subscriber fees, which form the basis for the calculation for the requirement to invest in original productions, will be deemed to include all of the payments that are paid by its subscribers in order to receive broadcasts and to receive services, including income from users' terminal equipment and the installation thereof, whereas in accordance with the policy adopted by the Council up to them regarding the inclusion of income from terminal equipment for the purpose of the calculation of the requirement for original productions was made conditional upon a mechanism that was based on the profitability of this income, and in past years the income from users' terminal equipment and the installation thereof was not included in the basis for the calculation for original productions. On January 12, 2012, the Council determined that Hot will be entitled to complete the amount of the additional investment for the year 2012 over three investment years.

4. Agreement to deploy and maintain a cables network

On January 1, 1990 and on May 1, 1989, Tevel International Transmission for Israel Ltd. and HOT Gold & Co. (hereinafter together - The cable companies) entered into commitments under agreements for the provision of planning, installation and maintenance services of the cables network with the Bezeq company (the provisions of both of the two said agreements are similar, and they will hereinafter in this section be called - the agreement). This agreement was endorsed to HOT Telecom as part of the merger agreement.

In accordance with the agreement, Bezeq, Tevel and HOT Gold planned the cables network, inter alia, based on the Bezeq company's available infrastructure, which was deployed in the areas of the concession at the time of the signing of the agreement. Tevel and HOT Gold supplied the Bezeq company with the base equipment (as defined in the agreement) that comprises the cables network whereas the Bezeq company supplied the additional equipment (as defined in the agreement) that is used for setting up the cables network.

In accordance with the agreement, a cables network was set up and deployed in a number of major cities across Israel, and the Bezeq company conducts the routine maintenance of the cables network and also provides malfunction repair services. The provisions of the agreement also relate, inter alia, to the possibility of the expansion of the cables network to additional facilities, the connection of new houses and of new neighborhoods.

It is determined in the agreement that it will remain in force for the length of the period of the concession, and that it will continue to be in force if the concession or the rights in the concession are transferred or afforded to another, in whole or in part and directly or indirectly, during the course of the original concession period and during the extension of that period or after the end of it. The Bezeq company is only entitled to cancel the agreement in respect of a breach for which notice has been given in writing.

The total of the expenses recorded in Hot's accounting records for the network services payable to the Bezeq company in the years 2013 and 2012 amounted to NIS 47 million and NIS 48 million, respectively.

It should be noted that from time to time, during the routine course of business, disputes arise in connection with the implementation of the agreement, inter alia in respect of the division of the costs that are involved in the performance of some of the services that are supplied by the Bezeq company under the agreement, however the parties are continuing to operate in accordance with the agreement. It is further noted that over the course of the years additions have been signed to the agreement, primarily in connection with enhancement and upgrading work on the cables network.

5. Commitments to lease assets

The Consolidated Group has commitments under agreements for the leasing of buildings and motor vehicles for various periods up to the end of the year 2020. The minimal future rental fees in respect of the rental contracts as of December 31, 2013, exclusive of the option period, are as follows:

	EUR Million	EUR Million
	December 31, 2013	December 31, 2012
2014	37.3	37.8
2015	30.2	30.0
2016	19.7	24.4
2017	10.1	17.5
2018 and thereafter	7.3	61.7
	104.6	**171.3**

6. On July 19, 2011, Hot's Board of Directors approved a commitment under agreements for the execution of the upgrading of the fiber optic infrastructure (FTTX). In accordance with the said commitment, HOT Telecom will purchase advanced optic equipment, work and services from third parties, in order to upgrade the infrastructures, including maintenance services, in accordance with the deployment and the timetables that will be agreed upon between the parties from time to time. The upgrading of the infrastructure, as aforesaid, will enable the expansion of the traffic capacity on the network, in favor of the supply of enhanced VOD services, the increasing of the number of channels that the Consolidated Group can offer to its subscribers, faster internet services and it will also enable Hot to deal with increased demand for traffic capacity on the network in the future, which is expected to arise as a result of increased uses and applications that require a considerable band width.

7. On May 27, 2010, a facility agreement was signed between HOT Mobile and Motorola for the purchase, licensing and installation of the infrastructure equipment (hardware and software) which is required in order to operate HOT Mobile's iDEN network. The agreement is in force for a period of five years from the time that it was signed (hereinafter -the initial period) and it will be renewed for additional periods of one year each (or for a longer period that is agreed between the parties), unless a party to the agreement gives notice to the other party, 90 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment. The agreement arranged the commitment between the parties for the purpose of the execution of the work orders that will be presented to Motorola, from time to time, by HOT Mobile for the purpose of the supply of equipment or software for the iDEN network.

Within the framework of the agreement, Motorola has undertaken that during the initial period it will hold an inventory of equipment that will enable it to immediately supply the components that are required for the proper functioning of HOT Mobile's iDEN network, and so that it will be capable of supplying HOT Mobile with the maintenance services for the infrastructure equipment and the software that are required to operate the network for a period of seven years from the signing of the agreement, subject to the purchase of the said maintenance services by HOT Mobile.

In consideration for Motorola's commitment to sell the equipment and the licenses to HOT Mobile at the prices that are denoted in the agreement, HOT Mobile has made a commitment to purchase the infrastructure equipment and the software that is required to operate the iDEN network from Motorola alone during the period of the agreement.

8. As part of the commitment with Motorola in respect of the infrastructure for the iDEN network, HOT Mobile has signed on a system maintenance agreement with Motorola as well as on an agreement for the maintenance of the system's hardware, which arrange the repair of malfunctions and the provision of support by Motorola for HOT Mobile's iDEN network.

In December 2011, the system maintenance agreement was extended for an additional period of three years, until the end of 2014.

9. On May 26, 2010, as part of the sale of the control in HOT Mobile to Altice, HOT Mobile entered into a commitment under an agreement with Mobility for the purchase of terminal equipment that supports the iDEN technology.

The agreement is in force for a period of 5 years and it will be renewed for additional periods of one year each time unless a party to the agreement gives notice to the other party, 60 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment.

The agreement arranged a mechanism for the ordering and supply of the terminal equipment (including quarterly forecasts by HOT Mobile) with HOT Mobile being responsible for the importing of the terminal equipment from abroad.

The supplier has received an option and the right of first refusal for the repurchase from HOT Mobile of all of the terminal equipment that it may be holding at the time of the termination of the agreement, in accordance with a mechanism that was set in the agreement.

10. On June 16, 2011, HOT Mobile entered into a commitment with Nokia Siemens Networks Israel Ltd. (hereinafter - the supplier) for the setting up of the infrastructure for HOT Mobile's new network.

In accordance with the terms of the agreement, the supplier will plan and set up the new network for HOT Mobile as a turnkey contractor. In the first stage, which was completed in May 2012, the supplier completed the setting up of the systems that are required for the purpose of operating the new system with a coverage of approximately 30%, which is in excess of the extent of the coverage which HOT Mobile is required to provide (20%) in accordance with the terms of the tender within two years from the time of the receipt of the new radio telephone license. After the completion of the first stage, HOT Mobile has expanded and is expanding the new network, both from the perspective of the coverage and also from the perspective of the LTE capability.

The agreement is in force for 15 years, and it contains warranties for the proper functioning of the components of the system for a period of two years from the time of the handing over of each component in accordance with the agreement, as well as warranties for the entire period of the agreement that the system will operate in accordance with the system requirements that HOT Mobile placed (in terms of availability, functioning and capacity), subject to their being a maintenance agreement in force between the parties.

In consideration for the completion of the first, second and third stages in accordance with the agreement and the performance of all of the supplier's commitments by the year 2013, the Consolidated Group will pay the supplier an amount of 52 million Dollars, which amount does not include the expansion of the coverage and the capacity over and beyond what is stipulated in the agreement.

11. In 2013 and at the beginning of 2014, a number of additions to the agreement were signed, within the framework of which the payments that were supposed to be paid under the agreement have been deferred to a later date, subject to HOT Mobile's signing on debt notes, with Hot acting as guarantor. Within this framework, HOT Mobile has signed on confirmation for the final receipt of significant portions of the said project.

12. On October 27, 2011, an agreement was signed between HOT Mobile and Comverse Ltd. (hereinafter - Comverse), in accordance with which Comverse will supply Hot with a BSS system (a billing system that is integrated with the customer relations management (CRM) system) (hereinafter - The system) and Comverse will also supply Hot with hardware, software and services, including the operation and maintenance of the system The agreement is for a period of five years. In consideration for Comverse's services, HOT Mobile will pay an amount of approximately 12.5 million US Dollars. In January 2012, the parties signed on an addendum to this agreement, in accordance with which Comverse is committed to allocate seven additional employees to be available for the project (instead of the manpower that Hot had to make available for the project), for a payment of 500,000 US Dollars.

13. On May 30, 2012, HOT Mobile International Communications Ltd (hereinafter - HOT International), a wholly owned subsidiary of HOT Mobile's, received an operator's license for the provision of international telecommunications services (hereinafter - The international license). On January 6, 2013 HOT International received operational approval for starting to provide international telecommunications services in accordance with the international license and on January 8, 2013, notification of the opening of the services was sent to all of the operators.

14. On November 11, 2013, Hot's Audit Committee approved Hot's commitment under a sub-leasing agreement with the Middle East Company Ltd. (hereinafter – the lessor) for the sub-leasing of a plot of land in the Jaffa Port, which Hot is leasing (hereinafter – the leased property), retroactively, as from July 2013.

The leased property will be used by the tenant, which is a company that produces broadcasts for a foreign news company, which is 85% owned by Mr. Patrick Drahi, the ultimate controlling interest in Hot.

The lease fees that will be paid to Hot in respect of the leased property have been set in accordance with the rental fees that Hot pays in respect of the property and under the same payment terms (back to back), with the addition of a monthly amount in respect of: (1) the tenant's relative share of the municipal taxes, electricity, water, security and cleaning expenses (back to back terms to those paid by Hot) and (2) adaptations to the leased property that Hot has executed at its own expense.

It is determined in the rental agreement that in any case in which the agreement ends before the end of the rental period, the tenant shall pay Hot the balance of the payments in respect of the adaptations that Hot made in the leased property, as discounted using a real annual interest rate that has been set in the agreement.

15. On November 8, 2013, HOT Mobile signed on agreements with Partner Communications Ltd. (hereinafter – Partner), which are subject to the receipt of all of the approvals that are required, as detailed below: HOT Mobile and Partner will set up a limited partnership, which will hold, develop and operate a single advanced cellular communications network, for both of the companies, each of which will hold half of the rights in it. In accordance with the agreement, each of the parties will continue to hold and to operate its core of the network separately and provide cellular communications services, including the marketing and the selling of such services, to its customers alone.

The agreement arranges the management of the joint network and its development, the manner of the management of the partnership, including a mechanism for the appointment of a board of directors, the resolution of disagreements, the bearing of the costs of upgrading the network and so on.

The agreement will be in force for a period up to December 31, 2028, and thereafter, the agreement will be extended automatically for additional periods of 5 years each, unless either of the parties gives notice of its desire to terminate the agreement by giving notice in advance of 24 months before each automatic renewal. Despite the aforesaid, as from the end of a period of 8 years from the entry of the agreement into force, it may be cancelled by either of the parties, in accordance with their own judgment and by giving two years notice in advance from that time. The agreement also sets a mechanism for the separating of the parties in the event of the termination of the agreement.

In consideration for the agreement, HOT Mobile will pay a non-recurring amount, which is to be paid by the beginning of 2017, and thereafter, each party will bear half of the capital investments that are required to set up and to upgrade the joint network and the bearing of the operating expenses for the joint network will be in accordance with a mechanism that is set in the agreement and which is based, inter alia, on the volume of the data traffic that each party consumes from the joint network.

As an interim stage and until the receipt of the approvals that are required under the law, Partner will extend to HOT Mobile the right to use its cellular communications network for the purposes of the provision of brad national cover to its customers. The services under the agreement will apply after the completion of the preparations and in accordance with any agreement or regulation.

In the light of the commitment with Partner in connection with the in-country roaming services, HOT Mobile and Pelephone Telecommunications Ltd. (with which HOT Mobile had entered into an exclusive agreement in the past for in-country roaming services up to December 31, 2014) reached agreement regarding the cancellation of the exclusivity clause.

16. In the reporting period, the management of HOT Mobile Ltd. (hereinafter – HOT Mobile), made a decision regarding the vacation of its offices at Airport City, in respect of which there is a long-term rental contract with Airport City, for the period up to and including 2019. As a result of this decision, Hot has recognized losses of NIS 34 million (EUR 7.1 million) in the reporting period, which have been recorded under other expenses, reflecting the rental expenses, taxes and amortization of leasehold improvements, which in HOT Mobile's assessment are irrecoverable, and which meet the definition of anonerous contract.

17. Capitalized leasing rights on land from the Israel Lands Authority

Capitalized leasing rights on land from the Israel Lands Authority over an area of 20,713 square meters on which the Consolidated Group's buildings are located. The amount that is attributed to the capitalized rights is presented as a prepaid expenses in respect of operating leases in the balance sheet and is amortized over the period of the leases. See also Note 2K. The lease periods end in the years 2021-2045.

C. Guarantees and liens

1. As collateral for Hot's commitments vis-à-vis the parent company under the credit agreement with it, the following charges have been placed

a) A floating charge on Hot's assets.

b) A fixed charge on the shares in the subsidiary companies.

c) HOT Telecom has given a charge on some of its assets.

The said charges are in an unlimited amount, vis-à-vis Hot, the investee partnership - HOT Telecom and the subsidiary company - HOT Net, jointly and severally.

2. As collateral for the commitments of Hot, the investee partnership HOT Telecom and the subsidiary company HOT Net, first ranking floating charges have been placed in unlimited amounts in favor of the borrowers, on all of the assets and the rights belonging to debtors of companies in the Consolidated Group and a fixed charge on the goodwill and the unpaid share capital of the Companies in the Consolidated Group.

3. As collateral for Hot's commitments in respect of the royalties agreement, as set forth in section B(1) above, a second ranking floating charge has been placed in favor of the State.

4. As collateral for the Consolidated Group's commitments, as determined in the Consolidated Group's licenses and in the decisions by the Director and the Council, the Consolidated Group has issued a number of guarantees, as follows:

a) Bank guarantees to the Ministry of Communications, in respect of the national operator license that was granted to HOT Telecom amounting to 8.4 million Dollars, in force until December 2017 and December 2025.

b) Guarantees in an amount of NIS 34 million (index-linked) to the Council in respect of the broadcasting license, which are in force until May 2015.

5. HOT has given a number of bank guarantees to various bodies in an overall amount of NIS 32 million.

6. Guarantees for HOT Telecom and HOT Mobile

a) The Consolidated Group has extended guarantees in a cumulative amount of 22 million Dollars as collateral for payments by HOT Telecom to the Cisco company.

b) The Consolidated Group has extended a guarantee in an amount of NIS 246 million (index-linked) as collateral for HOT Telecom's commitments vis-à-vis an interested party with which it has signed a rental agreement.

c) The Consolidated Group has extended a guarantee in an amount of 36 million Dollars as collateral for HOT Mobile's commitments to Bank Crédit Agricole in connection with transactions with suppliers of equipment.

d) The Consolidated Group has extended a guarantee in an amount of NIS 11 million as collateral for the commitments of HOT Telecom to various bodies.

7. On May 23, 2013, Hot signed on a credit agreement with Bank Discount Le'Israel Ltd., the First International Bank Le'Israel Ltd. and HSBC Bank PLC (hereinafter – the banks and the credit agreement, respectively).

The amounts of the credit are divided into a number of facilities: A working capital facility, which may be exploited by the drawing down of loans in an amount of up to NIS 200 million and a credit facility for guarantees in an amount of up to NIS 105 million.

The collateral that exists under the financing agreement that Hot signed with Altice Financing S.A., which is a related party of Hot, will serve as collateral, together with the creation of new, additional liens on Hot's holdings in subsidiary companies and partnerships, except for HOT Mobile. As of the balance sheet date, Hot has taken up a guarantee in an amount of NIS 84 million from these facilities, however it has not taken up credit for working capital from these facilities.

33.2 Cabovisao commitments

33.2.1 Contingent assets

During the year ended December 31, 2013 and the analysis of the Decree-Law n ° 123/2009 of 21 May, Cabovisao made the decision not to pay any fees charged by municipalities, in addition to TMDP (Fees due for rights and charges related to the deployment of, passage within or crossing of systems, equipment and other resources of providers of publicly available electronic communications networks and services at a fixed location, of a public or private municipal domain). On December 31, 2013, Cabovisao had outstanding claims against several municipalities, totaling EUR 2.6 million. To present date, the Company received EUR 0.4 million from sixteen municipalities, and executed receivable plan of EUR 1.7 million for the next three years.

33.2.2 Contingent liabilities

a) Bank guarantees

	December 31, 2013
	In millions of euros
Tax Authority	9.6
City Council	0.9
Third Parties	0.1
Total	10.6

b) Commitments with third parties to add services to be provided in future years:

On December 31, 2013, the commitments with third parties to tangible assets and services to be provided in future years with an amount to approximately EUR 2.7 million Euros and EUR 65.7 million respectively.

c) Real guarantees:

During the year ended December 31, 2013, considering the refinancing and debt restructuring operations performed by Altice Group, headed by Altice VII S.à r.l., Cabovisao has signed a collateral agreement which involved the pledge of some Cabovisao's bank accounts, as well as a pledge on the Cabovisao's shares (representing 100% of Cabovisao's share capital and respective voting rights).

d) Other contingent liabilities:

As a result of the Cabovisao's decision to do not pay any taxes charged by municipalities (since September 2010), the municipality of Almada initiated a litigation process, regarding the municipality taxes charged for the period between 2006 and 2009, in the amount of 595.000 Euros. Until the present date, there are no subsequent deliberations. The Board of Directors understands that the final outcome will be favorable to Cabovisao, based on the legal counsels' opinion.

In addition, there are several legal proceedings, initiated by third parties, in particular claims by several suppliers, related to the supply of services and equipment, in the amount of approximately 174.000 Euros. Until the present date, Cabovisao has not recognized any provision, since it is Board of Directors understanding that the final outcome will be favorable to the company, based on the legal counsels' opinion.

33.3 Coditel Holding commitments

As of December 31, 2013, off balance sheet commitments include:

The shares, bank accounts and receivables of Coditel Brabant S.p.r.l. and Coditel S.à r.l. have been pledged in the framework of the Coditel facility. Coditel Holding is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

33.4 Altice Six

Altice Six has an outstanding commitment to buy an additional 10% stake in the Numericable Group S.A. from other major shareholders. This commitment, signed on November 7, 2013, amounted to a total of EUR 317 million for the year ended December 31, 2013. An additional price is due to be paid in the second quarter of 2014, which is based on the evolution of the share price of Numericable Group S.A. between the offering price at IPO and the price on the date of the transaction.; as of March 17, 2014 the additional price amounts to EUR 23.9 million.

33.5 Others

The shares, bank accounts and receivables of Altice VII and its following subsidiaries Altice Finco S.A., Altice Financing S.A., Altice Holdings S.à r.l., Altice West Europe S.à r.l., Altice Portugal S.A., Altice Carribean S. à r.l., Cool Holdings LTD S.A., H.Hadaros 2012 LTD., Hot Telecommunications System LTD, Cabovisao S.A., Altice Blue Two S.A.S. and its subsidiaries, Coditel Holding S.A., Winreason S.G.P.S and its subsidiaries have been pledged for the issued Senior Secured Notes and the Altice financing term loan. The Company is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

Altice Financing S.A. has access to two super senior secured revolving credit facilities amounting to a total of USD 80 million and EUR 60 million respectively. In addition to these facilities, it also has access to a guarantee facility of EUR 75 million. As of December 31, 2013 the revolving credit facilities remain undrawn. EUR 8.4 million were drawn down on the guarantee facility, and recorded in the accounts of Cabovisao. All pledges applicable for the senior secured notes and the term loan are also applicable to these facilities.

34-Statutory Auditors' fees

In 2013, an amount of EUR 3.8 million was paid to various networks affiliates of the Consolidated Group's auditors, split mainly between EUR 1.4 million for audit services, EUR 2.0 million for assurance services and EUR 0.4 million for non-audit services (tax and consultancy).

35-Going concern

During the year ended December 31, 2013, the company had a net current asset position of EUR 854.2 million (mainly due to current restricted cash of EUR 1,242.7 million), a net profit of EUR 49.6 million (down from a net loss of EUR 180.2 million in FY12), positive cash flow from operations of EUR 438.9 million and negative working capital of EUR 198.4 million. The positive cash flow from operations balance was mainly due to strong earnings growth and EBITDA generation. The net working capital of EUR 198.4 million is mainly driven by trade receivables and payables. The net profit recorded in FY13 was mainly driven by the recognition of a gain on the de-recognition of assets in the accounts of Altice Six related to the public offering of Numericable Group (See note 27). The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short DSOs (Days of Sales Outstanding) and suppliers are paid in the beginning of the following month, thus generating a negative working capital, as evidenced by the difference in the level of receivables and payables (EUR 194.0 million vs. EUR 392.4 million). Payables due the following month are covered by revenues and operating cash (if needed). As of December 31, 2013, the company had few short term loan payments (< 1y), and long term debt was refinanced in June 2013. Despite the net current liability position, Management is of the view that the company will continue to act as a going concern for 12 months from the date of approval of these financial statements based on the following:

The Consolidated Group has a strong track record of generating positive operating income before amortisation and depreciation and generated strong positive operating cash flows in 2013 (EUR 438.9 million). Operating income before D&A amounted to EUR 518.0 million, an increase of 28.5% compared to FY12, thus reaffirming management's ability to drive profits in the different operating companies.

The Consolidated Group had healthy unrestricted cash reserves at the end of 2013 (EUR 61.6 million vs. EUR 129.7 million in 2012), which would allow it to cover any urgent cash needs. Additionally, the Consolidated Group had access to a revolving credit facility ("RCF") of up to USD 80.0 million and EUR 63.8 million (EUR 124 million equivalent), as well as access to a guarantee facility of up to EUR 75 million (of which EUR 8.4 million were drawn in FY2013 in order to unblock restricted cash at Cabovisao).

The Consolidated Group had a net equity position of EUR 95.3 million as of December 31, 2013, a decrease of 66.0% compared to EUR 280.0 million for the year ended December 31, 2012. The decrease in the equity position was mainly driven by accounting adjustments related to losses made on the acquisition of minority interests from non-controlling shareholders recorded at Altice VII. It is management's view that these acquisitions have a strategic founding and will allow the Group to better integrate, absorb and utilize the cash generated by the concerned entities. In addition, Altice Six had enough reserves to absorb such non-cash losses and maintain a positive net equity position.

In addition to the points enumerated above, the Group has implemented a new budgeting exercise, with monthly account reviews with CFOs of operating companies to track budget accuracy. This exercise is complemented by a mid-year reforecast based on real first semester numbers.

Management also tracks operational key performance indicators (KPIs) on a weekly basis, thus closely tracking top line trends very closely. This allows management and local CEOs to ensure proper alignment with budget targets and respond with speed and flexibility to counter any unexpected events and ensure that the budgeted targets are met.

In the view of the initial public offering of the newly formed company Altice S.A., the new direct controlling shareholder of Altice VII Sà r.l., it was decided to convert all existing subordinated debt instruments issued by Altice VII and Altice Six and subscribed by Next L.P.., into share capital, before the contribution of Altice VII and Altice Six to Altice S.A. Thus, YPFECs and ALPECs issued by Altice VII, and YFPECs issued by Altice Six were converted into equity at their nominal value, totalling EUR 181.5 million (EUR133.3 million at Altice VII and EUR 48.2 million at Altice Six).

35-Events after the reporting period

Acquisition of the Mobius Group

On October 19, 2013, Altice Blue Two (a subsidiary of Altice VII) entered into an agreement pursuant to which Altice Blue Two will acquire the Mobius Group (the "Mobius Acquisition"). The Mobius Group is a telecommunications operator in the Overseas Territory of La Reunion, providing Internet access to professional clients under the "Mobius Technology" brand and double and triple play services based on xDSL technology to residential customers under the "IZI" brand. The consummation of the Mobius Acquisition occured on January 15, 2014 and was financed via the super senior revolving credit facility that the company has access to. A total of EUR 20.5 million was drawn from the RCF to finance the acquisition. Pursuant to an investment agreement dated October 19, 2013, certain managers of the Mobius Group (the "Mobius Managers") have agreed to reinvest a portion of the proceeds received from the Mobius Acquisition (approximately EUR 4.6 million) in Altice Blue Two. As a consequence of such reinvestment, the equity interest held by Altice Caribbean in Altice Blue Two would be reduced to approximately 77%. as of the date of this report, an agreement had been reached with the Managers of Altice Blue Two to transfer their minority holdings in Altice Blue Two into shares of Altice S.A. (please see below for more details).

Conversion of Altice VII and Altice Six subordinated debts

On January 31, 2014, Next L.P. converted all subordinated debt instruments held against Altice VII S.à.r.l, and Altice Six S.A. before the planned initial public offering of Altice S.A., in exchange for common shares in the newly listed entity. All outstanding YFPECs and ALPECs issued by Altice VII were converted at their nominal value of EUR 133.2 million, which was directly attributed to the net equity of the company. All outstanding YFPECs issued by Altice Six were converted into common shares of Altice Six S.A. at their nominal value of EUR 48.2 million.

Initial public offering

On January 31, 2014, Altice S.A. listed its shares in an initial public offering on Euronext Amsterdam. The company raised capital in two steps, first through a primary offering of new shares of the listed company, for EUR 750 million and a secondary offering, consisting of the sale of shares held by Next L.P. in Altice S.A., for a total amount of EUR 555 million. The shares were traded at opening at an offer price of EUR 28.25. Additionally, an over-allotment option, for the maximum authorised amount (upto 15% of the total shares offered), was exercised by Altice S.A. Following the IPO, 25.6% of the share capital of the company is publicly traded, with the rest held by Next L.P and certain Managers. The shares are traded on Euronext Amsterdam with the ticker ATC:NA.

Change in minority interests of Altice Blue Two

In January 2014, the Company entered into discussion with the management of Outremer Telecom ("OMT Managers"), holders of a 23% stake in Altice Blue Two, the holding company controlling Outremer Telecom, WSG and MTVC, to exchange their existing shares in Altice Blue Two S.A.S against shares in the newly floated mother company of Altice VII, Altice S.A.

As per the agreement, which was completed and signed on March 13, 2014, the OMT Managers contributed all their shares held in Altice Blue Two and OMT Ocean 3 (an investment vehicle held by certain members of OMT's senior management), for a base value of EUR 55.1 million and two separate earn out clauses that would become applicable only upon the achievement of certain operational and financial targets and the settlement of certain lawsuits.

Acquisition of the Tricom Group

On March 12, 2014 the Group obtained control of Tricom S.A. and Global Interlink Ltd. (together, "Tricom"), a leading telecommunications operator in the Dominican Republic, providing (i) cable and xDSL-based multiple-play services and stand-alone pay television, broadband Internet and fixed-line telephony services and (ii) 3G and 4G mobile telephony services relying on its mobile network. This acquisition enables the Group to expand its footprint in the Carribean and more especially in the Dominican Republic. Control was obtained upon approval from Indotel, the Dominican Republic antitrust authority. As of the date of the transfer of the shares, the Group acquired 96% of the total equity in Tricom S.A. and 92% of the outstanding interests in Global Interlinks.

For the year ended December 31, 2013, Tricom would have contributed EUR 158.3 million to revenue and EUR 19.9 million to operating profit to the Group's results, if it had been purchased on January 1, 2013 (these figures are based on unaudited US GAAP figures).

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for the shares of Tricom amounted to €291.3 million, using the proceeds raised in December 2013.

The total value of assets transferred in consideration for the values mentioned above amounted to EUR 145.7 million, comprising mainly of intangible assets for a net value of EUR 21.0 million, property, plant and equipment for a total value of EUR 133.8 million and trade receivables for a total amount of EUR 16.5 million. Total liabilities amounted to €97.9 million, comprising of EUR 45.1 of non-current liabilities and EUR 52.8 million of current liabilities. The residual value of EUR 145.6 million was recognised provisionally as goodwill (these figures are based on unaudited US GAAP figures).

The values of the assets and liabilities assumed have been determined on a provisional basis until the Group finalizes its assessment of the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been recognised as a result of the acquisition as follows:

Total consideration transferred	EUR	291.3 million
Fair value of identifiable assets and liabilities	EUR	(145.7) million
Goodwill	EUR	145.6 million

Acquisition of additional shares in Numericable

On November 18, 2013, Altice Six entered into an agreement with other major shareholders in the Numericable group to purchase an additional 10% stake, thus increasing its shareholding to 40% (inclusive of the 2.6% option provided to other shareholders and described elsewhere in this report). This acquisition triggered a change in control of the Numericable Group. The transaction was consummated on February 4, 2014, with the primary proceeds from Altice S.A.'s IPO and thus Altice S.A. became the controlling shareholder of Numericable S.A.

Stock Options provided to Senior Management and Executive Directors

Senior management and Executive Directors of the Company are eligible to participate in the Stock Option Plan ("SOP") at the discretion of the Remuneration Committee.

Members of the management team (including the Executive Directors) will be granted options on Admission to acquire Shares at the Offer Price. These options will vest and become exercisable in tranches of 50%, 25% and 25% respectively, on the second, third and fourth anniversary of Admission, for a period of seven years (or if earlier, ten years from the initial grant) after which time they will lapse. It is intended that no further options will be granted to participants who were granted options on Admission until the last tranche of the initial options have vested, however options may be granted to new members of the management team.

Options with an aggregate value of up to €250 million will be granted on Admission with an exercise price equal to the Offer Price and further options with an aggregate value of up to €100 million will be made available for new hires. Therefore, up to 6.9% of the Company's issued share capital will be allocated to satisfy these option grants.

Clawback and malus will apply to options granted under the SOP, such that options may be adjusted or reduced (even to nil) prior to exercise, and any exercised options reimbursed to the Company, in circumstances in which the Remuneration Committee considers appropriate, including material misstatement of financial results, failure of risk management, reputational damage, fraud or negligence.

Participants who leave the Group by reason of death, injury, ill-health or, for any other reason, if the Remuneration Committee so determines, will retain any vested options. Unvested options will vest on cessation, but will be pro-rated for time (unless the Remuneration Committee determines otherwise). Participants who leave the Group *for* any other reason will forfeit any outstanding unexercised options, unless the Remuneration Committee determines otherwise. Unvested options will normally vest in full on a change of control of the Company.

Contribution in kind by Valemi Corp S.A.

On October 4, 2013, Altice VII S.à r.l., a direct subsidiary of Altice S.A., acquired a controlling stake in two content companies, MCS S.A.S and SportV S.à r.l. from Altice IV and Valemi Corp S.A. This transaction gave rise to a vendor loan, held by Valemi Corp. S.A. against Altice VII S.à r.l. As part of the pre-IPO restructuring, Altice S.A. and Valemi Corp reached an agreement under which Valemi contributed to the Company a vendor loan payable by Altice VII against the issue of Ordinary Shares. The total amount of the vendor loan held by Valemi was EUR 6.7 million at the time of admission.

Acquisition of SFR

On March 14, 2014, Altice S.A. and Vivendi S.A, the sole shareholder of SFR, France's second largest mobile operator, entered into exclusive talks to negotiate a potential business combination between Numericable and SFR.

Altice S.A.

To the Board of Directors of
Altice S.A.
3, boulevard Royal
L-2449 Luxembourg

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

We have audited the accompanying combined financial statements of Altice S.A. (the "Company"); the successor entity of Altice Six S.A. and Altice VII S.à r.l. (collectively the "Combined Group") in the context of the contemplated initial public offering of the shares of the Company, which comprise the combined statements of financial position as at December 31, 2012, 2011 and 2010, the combined statements of income, comprehensive income, changes in equity and cash flows for each of the three years then ended, and a summary of significant accounting policies and other explanatory information (collectively the "Combined Financial Statements"). The Combined Financial Statements have been prepared by the Board of Directors in accordance with the basis of preparation as described in the note 1 thereto, for the purposes of meeting the requirements of EU Regulation (EC) 809/2004 that relate to the inclusion of historical financial information within a prospectus.

Responsibility of the Board of Directors for the Combined Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the Combined Financial Statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control the Board of Directors determines is necessary to enable the preparation of Combined Financial Statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on the Combined Financial Statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Combined Financial Statements are free from material misstatement.

Société à responsabilité limitée au capital de 35.000 €
RCS Luxembourg B 67.895
Autorisation d'établissement: 10022179

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Combined Financial Statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgment including the assessment of the risks of material misstatement of the Combined Financial Statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the Combined Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the Combined Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Combined Financial Statements give a true and fair view of the combined financial position of the Combined Group as of December 31, 2012, 2011 and 2010, and of its combined financial performance and combined cash flows for each of the three years then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Basis of accounting

Without modifying our opinion, we draw attention to the disclosures in note 1 to the Combined Financial Statements, which describes the basis of preparation utilized in preparing the Condensed Combined Financial Statements. The Combined Financial Statements are prepared for the purposes of meeting the requirements of EU Regulation (EC) 809/2004 that relate to the inclusion of historical financial information within a prospectus, and may not be suitable for any other purpose. We also draw attention to note 1 to the Combined Financial Statements which provides a description of the accounting method utilized for the purposes of combining the individual elements of the Combined Group; these being under common control; in the absence of specific guidance within International Financial Reporting Standards as adopted in the European Union.

The accompanying notes form an integral part of these consolidated financial statements.

1 Basis of preparation of the combined financial statements

1.1 *Presentation of the Two Groups forming Altice Group*

Altice S.A.

Altice S.A. (the "Company") is a limited company incorporated in the Grand Duchy of Luxembourg whose head office is in Luxemburg and has been formed on January 3, 2014. Upon admission of the Company's shares on Euronext Amsterdam, the Company shall receive the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice Six S.A. and Altice VII S.à r.l.. Altice Six S.A. and its subsidiaries are hereafter referred to as "Altice Six" and Altice VII S.à r.l. and its subsidiaries are hereafter referred to as "Altice VII" or "Altice VII Group". The Company shall hence become the successor entity of Altice Six and Altice VII (collectively the "Predecessor Entities").

Altice Six

As at approval date, Altice Six holds shares in Numericable Group, a French group listed on Euronext Paris. Numericable Group is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. They also provide French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Additionally to the Business To Consumer ("B2C") described above and through its main operational entity, Completel S.A.S., Numericable Group operates the largest alternative fiber-to-the-office ("FTTO"), network in France, constituting the third alternative Digital Subscriber Line ("DSL") network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

Altice VII

Altice VII offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Where possible, Altice VII Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and common knowledge. In addition, the Altice VII group companies aim at sharing skills and best practices across the various operations of Altice VII Group.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand ("VoD") and near-video-on-demand ("NVoD"), digital video recorders ("DVR"), high definition ("HD") television services and, in certain areas, exclusive content, purchased or produced. The Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice VII Group also offers broadband Internet access services and fixed-line telephony in all its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

1.2 *Description of the context*

Altice Six and Altice VII (collectively the "Two Groups" or the "Combined Group") are currently entities under common control. The Two Groups are ultimately controlled by Patrick Drahi. The purpose of the combined financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical bases in the assets, liabilities and results of operations and cash flows for each period presented in the combined financial statements.

Accordingly, the combined financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice Six and Altice VII, which are separate legal groups at December 31, 2012, 2011 and 2010.

The combined financial statements have been prepared for the three-year period ended December 31, 2012, 2011 and 2010 (collectively the "Combined Financial Statements") in conjunction with the contemplated initial public offering of the shares of Altice S.A. (the "**Offering**"). It is expected that Altice S.A. will acquire 100% of the share capital of Altice VII and Altice Six (the "**Combination**") in order to reflect the combination of the Two Groups.

1.3 Statement of compliance

The combined financial statements of Altice Group include a combined statement of financial position as of December 31, 2012, 2011 and 2010, a combined statement of income, a combined statement of comprehensive income, a combined statement of cash flows and a combined statement of changes in equity for each of the three years in the period ended December 31, 2012 and the underlying Notes. The combined financial statements have been prepared in compliance with International Financial Reporting Standards ("**IFRS**") as published by the International Accounting Standards Board ("**IASB**") and as adopted by the European Union at December 31, 2012.

1.4 Basis of presentation of the Combined Financial Statements

1.4.1 **IFRS financial statements**

For the purpose of preparing the Combined Financial Statements, accounting principles effective as of December 31, 2012 have been applied to all years presented in these Combined Financial Statements. Altice Six prepares financial statements in accordance with the accounting rules and principles generally accepted in Luxemburg ("**Luxemburg GAAP**"), in application of the Law of December 19, 2012, as amended.

Altice VII prepares consolidated financial statements in accordance with the International Financial Reporting Standards as adopted in the European Union.

In preparing the Combined Financial Statements, Altice Six prepared financial statements in accordance with Luxemburg GAAP and converted them to IFRS which resulted in the following adjustments:

- Equity accounting of its investments in Altice B2B Luxembourg S.à r.l., Altice B2B Lux. Holding S.à r.l., Ypso Holding S.à r.l., in accordance with IAS 28 *Investments in Associates*;
- Under IFRS, transactions that are not carried at a market rate should be discounted over the life of the financial instruments and carried at amortized cost (as opposed to the cost less impairment under Luxemburg GAAP);
- Certain non-recurring income and expenses have been reclassified to EBITDA and/or financial income in the combined statements of income under IFRS.

1.4.2 **Subsequent events**

The Combined Financial Statements of Altice Group were prepared under the responsibility of the Board of Directors of Altice S.A. and approved by the Board of Directors of Altice S.A. on January 6, 2014. The preparation of the Combined Financial Statements is consistent with estimates reflected in the financial statements of Altice Six and Altice VII as of December 31, 2012, which were respectively authorized for issue on October 17, 2013 and November 12, 2013 by respectively the Board of Directors and Board of Managers. With the exception of the adjustments made in connection with the conversion of the financial statements of Altice Six from Luxemburg GAAP to IFRS, no adjustment has been reflected in the Combined Financial Statements for any subsequent events since November 12, 2013 to reflect exactly the position that was presented in the financial statements of Altice Six and Altice VII for which the Combined Financial Statements are being prepared as disclosed hereafter with the exception of the adjustments made in connection with the conversion in IFRS of the Financial Statements of Altice Six prepared initially in accordance with Luxemburg GAAP.

1.4.3 **Basis of combination**

The Combined Financial Statements were prepared using the accounting records that were used to prepare the financial statements of the Altice Six and Altice VII sub-groups for the year ended December 31, 2012, 2011 and 2010.

All intra-group balances and transactions have been eliminated in preparing the Combined Financial Statements, including the transactions between Altice Six and Altice VII and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Patrick Drahi and the Combined Financial Statements reflects the combination of Altice Six and Altice VII using the following methods and principles:

- In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* (**"IFRS 3"**), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* and SEC Regulation S-X Article 3A – *Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Combined Financial Statements.

- Likewise, the Combined Financial Statements were prepared by aggregating the separate financial statements of Altice Six and Altice VII at their historical book value:
  - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Altice Six and Altice VII sub-groups and fully aggregated at their historical book value without being revalued;
  - The combined equity has been determined by aggregating the consolidated equity of the subgroups Altice Six and Altice VII ;
  - No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Combined Financial Statements;
  - The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated except for the operations that relate to associates which are not eliminated.

2 Significant accounting policies

2.1 Accounting principles governing the preparation of the Combined Financial Statements

2.1.1 Standards and Interpretations applied by the Combined Group as of December 31, 2012

With the exception of the principles used for the combination, as disclosed in Note 1, the accounting policies for recognition and measurement used in preparing the Combined Financial Statements at December 31, 2012 are the same as those used in the previous consolidated financial statements of Altice VII under IFRS. Adjustments have been recognized to convert the consolidated financial statements of Altice Six (prepared under Luxemburg GAAP) to IFRS (see Note 1.4).

As mentioned in Note 1, the Combined Financial Statements have been prepared in accordance with International Financial Reporting Standards (**"IFRS"**) as adopted in the European Union (**"EU"**) with mandatory application as of December 31, 2012. The recognition and measurement principles of International Financial Reporting Standards as adopted by the European Union have been applied in preparing the Combined Financial Statements.

2.1.2 Standards issued but not yet effective

In its combined financial statements, the Combined Group has not anticipated the following standards and interpretations, for which application is not mandatory for periods opened from January 1, 2011. Their impact on the Combined Group's financial statements is estimated not to be significant and/or not applicable. This essentially relates to:

- IFRIC 20 "Overdraft expenses".
- IFRS 1 amended "First application of IFRS" concerning serious hyperinflation and the abolition of dates set for the first adopters, published by the IASB on December 20, 2010 and adopted by the European Union on December 29, 2012. Application of this standard is obligatory from January 1, 2013.
- IAS 19 "Revised Employee Benefits".

The combined financial statements have been prepared on the historical cost basis, except for the liability in respect of share based payment transaction, derivatives and financial instruments at fair value through profit and loss and available for sale financial assets. The principal accounting policies are set out below.

2.2 Functional currency

The combined financial statements are presented in millions of euros. Euro is the functional of Altice Six and Altice VII and the presentation currency of the Two Groups.

The functional currency, which is the currency that best reflects the economic environment in which the Group operates and conducts its transactions, is separately determined for each Group entity, including an associate accounted for using the equity method, and is used to measure its financial position and operating results.

2.3 Foreign currency translation

The presentation currency of Altice is euro. In individual companies, transactions in foreign currencies are recorded at the exchange rate at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at year-end rates. Any resulting exchange differences are accounted for in the income statement. On consolidation, assets and liabilities of the Two Groups' entities reported in their functional currencies are translated into euro, the Two Groups' presentation currency, using the year-end exchange rates. Income and expense items are translated into euro at the annual weighted average exchange rate or at the rate of the date the transaction occurred for significant items.

Differences arising from the translation of opening net assets of the Two Groups entities, together with differences arising from the restatement of the net results for the year of the Two Groups entities, are recognized in other comprehensive income.

2.4 Subsidiaries and associates

2.4.1 Subsidiaries

All companies in which the Group has a controlling interest are fully consolidated. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the combined financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Group's equity therein.

2.4.2 Associates

Investments, over which the Group exercises significant influence, but not control, are accounted for under the equity method. Such investees are referred to as "associates" throughout these combined financial statements.

Significant influence is presumed to exist when the Group holds at least 20% of the voting power in the associates. Associates are initially recognized at cost at acquisition date. The Combined Financial Statements include the Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

As per the provisions of IAS 28 *Investment in associates* the interest income and expenses recorded in the consolidated financial statements of Altice Six on loans with associates have not been eliminated in the combined statements of income and therefore are still recorded in the combined financial statements.

2.5 *Operating profit before depreciation and amortization*

The Combined Group has included the subtotal "Operating profit before depreciation and amortization" on the face of the combined statements of income. The Combined Group believes that this subtotal is useful to users of the Combined Group's financial statements as it provides them with a measure of the operating results which excludes non-cash elements such as depreciation and amortization as well as non-recurring transactions and management fees, enhancing the predictive value of the Combined Group's financial statements and providing information regarding the results of the Combined Group's ongoing trading activities and cash-flow generation that allows investors to better identify trends in the Combined Group's financial performance.

This non-IFRS measure is used by the Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel.

The Combined Group's subtotal within operating income may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the combined financial statements in accordance with IFRS 1.

2.6 *Revenue recognition*

Revenue from the Combined Group's activities is mainly composed of television, broadband Internet, fixed and mobile telephony subscription and installations fees invoiced to residential and business clients.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Combined Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales within the group.

Revenues on bundle packages sold by the Combined Group are split into and recognised under each individual service sold in the bundle. For example, tripe play package revenues are booked under 'triple play television', 'triple play data' and 'triple play telephony' on a straight-line basis over their subscription period and revenues from telephone calls are recognized in revenue when the service is rendered.

Revenue is recognized as follows, in accordance with IAS 18 *Revenue:*

- Revenues from subscriptions for basic cable services, digital television pay, Internet and telephony are recognized in revenue on a straight-line basis over the subscription period; revenues from telephone calls are recognized in revenue when the service is rendered ;

- When a promotion not related to a customer's past consumption and purchases (such as subscription's rate discount, service free period) is offered to customer in relation to a subscription, the Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract ;

- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship. Service access fees for business clients, when they are only allowed access to the services that are sold associated to an equipment or a service, are deferred and the corresponding revenue is recognized along the statistical client lifetime duration and generally spread over the contractual engagement period ; and

- The revenue related to transmission capacity on terrestrial cables under indefeasible rights of use: Indefeasible Rights of Use ("IRU") arrangements are recognized on a straight-line basis over the life of the contract.

2.7 Finance costs

Finance costs primarily comprise:

- Interest charges and other expenses paid for financing operations recognized at amortized costs ;
- Changes in the fair value of interest rate derivative instruments that do not qualify as hedges for accounting purposes according to "IAS 39" ;
- Interest income relating to cash and cash equivalents; and
- Gains/losses on extinguishment of debt.

2.8 Income taxes

Taxes on income in the income statement include current taxes and deferred taxes. The tax expenses or income in respect of current taxes or deferred taxes are recognized in profit or loss unless they relate to items that are recorded directly in equity, in these cases the tax effect is reflected under the relevant equity item.

2.8.1 Current taxes

The current tax liability is measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period as well as adjustments required in connection with the tax liability in respect of previous years.

2.8.2 Deferred taxes

Differences existing at closing between the tax base value of assets and liabilities and their carrying value in the Combined Statement of Financial Position give rise to temporary differences. Pursuant to the liability method, these temporary differences result in the accounting of:

- Deferred tax assets, when the tax base value is greater than the carrying value (expected future tax saving),
- Deferred tax liabilities, when the tax base value is lower than the carrying value (expected future tax expense).

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the asset will be realized or the liability settled, based on tax rates (and tax regulations) enacted or substantially enacted by the closing date. They are reviewed at the end of each year, in line with any changes in applicable tax rates.

Deferred tax assets are recognized for all deductible temporary differences, tax loss carry-forwards and unused tax credits, insofar as it is probable that a taxable profit will be available, or when a current tax liability exists to make use of those deductible temporary differences, tax loss carry-forwards and unused tax credits, except where the deferred tax asset associated with the deductible temporary difference is generated by initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For deductible temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax assets are recorded to the extent that it is probable that the temporary difference will reverse in the foreseeable future and that a taxable profit will be available against which the temporary difference can be utilized.

The carrying value of deferred tax assets is reviewed at each closing date, and revalued or reduced to the extent that it is more or less probable that a taxable profit will be available to allow the deferred tax asset to be utilized. When assessing the probability of a taxable profit being available, account is taken, primarily, of prior years' results, forecasted future results, non-recurring items unlikely to occur in the future and the tax strategy. As such, the assessment of the group's ability to utilize tax losses carried forward is to a large extent judgment-based. If the future taxable results of the group proved to differ significantly from those expected, the group would be required to increase or decrease the carrying value of deferred tax assets with a potentially material impact on the Combined Statement of Financial Position and Combined Income Statement of the Combined Group.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability results from goodwill or initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For taxable temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax liabilities are recorded except to the extent that both of the following conditions are satisfied: the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not be reversed in the foreseeable future.

Current tax and deferred tax shall be charged or credited directly to other comprehensive income, and not earnings, if the tax relates to items that are credited or charged directly to other comprehensive income.

2.9 Goodwill and business combinations

Business combinations are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 "Business combinations" are recognized at their fair value at acquisition date.

The Group recognizes goodwill as of the acquisition date and is measured as the excess of (a) over (b) as follows :

a) The aggregate of:

- The consideration transferred, which generally requires acquisition-date fair value;
- The amount of any non-controlling interests in the acquiree measured;
- In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.

b) The net of the acquisition-date balances of the identifiable assets acquired and the liabilities measured in accordance with IFRS 3.

Any excess of the cost of acquisition over the Combined Group's share in the fair value of all identified assets and liabilities is recognized as goodwill.

The goodwill is determined provisionally by the end of the period. The Combined Group recognizes any adjustments to those provisional values within twelve months after the acquisition date.

During the measurement period, the acquirer shall recognize adjustments to the provisional amounts as if the accounting for the business combination had been completed at the acquisition date. Thus, the acquirer shall revise comparative information for prior periods presented in financial statements as needed, including making any change in depreciation, amortization or other income effects recognized in completing the initial accounting.

If the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed exceeds the purchase price, a gain is recognized immediately.

Subsequently, goodwill is measured at its initial amount less recorded accumulated impairment losses. Impairment loss for goodwill is recorded in the income statement as a deduction from operating income (account "Depreciation and amortization") and is never reversed subsequently.

Changes in the Combined Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Combined Group.

2.10 Other intangible assets

Intangible assets acquired separately are recorded at cost on initial recognition, with the addition of direct acquisition costs. Intangible assets acquired in a business combination are measured at fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses. In our Israeli entity, the costs of producing in-house content is also considered to be an intangible assets and recognized at the cost of production of the shows. Following initial recognition, these intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses.

According to Management, intangible assets have either definite or indefinite useful lives.

Assets with definite useful lives are amortized over their useful lives and assessed for impairment signs which would indicate impairment in value. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least once a year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits that are expected to derive from the asset are treated as a change in an accounting estimate which is treated prospectively. The amortization expenses regarding intangible assets with finite useful lives are recognized in the income statement.

The useful lives of the intangible assets are as follows:

	Duration
Software	3 years
Customer relations	7 to 37 years
Licences	5 years
Customer relations with a defined contractual term	3 years
Subscriber purchase costs	based on average duration of subscriptions

Assets with indefinite useful lives are tested for impairment annually as well as where there is an indication that it may be impaired by comparing their carrying amount with their recoverable amount.

2.11 Impairment of tangible and intangible assets

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, other intangible assets, property, plant and equipment and assets in progress, the Combined Group re-examines the value of these assets. In addition, goodwill, other intangible assets with an indefinite useful life, and intangible assets in progress are all subject to an impairment test performed annually.

This test is performed in order to compare the recoverable amount of an asset to its carrying amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the cash-generating unit to which the asset belongs. A Cash Generating Unit ("CGU") is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or "DCF") by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtained from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption "Depreciation and amortization" in the income statement. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment, may be reversed.

2.12 Property, plant and equipment

Property, plant and equipment are presented at cost with the addition of direct purchase costs less accumulated depreciation and accumulated losses on impairment and they do not include routine maintenance expenses. The cost includes spare parts and ancillary equipment that can only be used in connection with the plant and machinery.

Depreciation is calculated using the straight line method over the estimated useful lives of the assets, as follows:

	Duration
Buildings	25 to 50 years
Cables Network	4 to 20 years
Call center (primarly electronic equipment)	5 to 9 years
Converters and modems	7 years
Computers and ancillary equipment	3 to 6 years
Office furniture and equipment	6 to 16 years
Communication network infrastructure	6 to 16 years
Leasehold contracts	see below

Leasehold contracts are depreciated according to the straight line method during the rental period (including the option period for an extension by the Combined Group, which it intends to exercise) or the estimated useful lifetime of the improvement.

Elements of a fixed asset item, having a cost that is significant in comparison to the overall cost of the item, are depreciated separately, using the components method. The depreciation is calculated in accordance with the straight line method at annual rates that are considered to be sufficient in order to depreciate the assets over the length of their estimated useful lives.

The useful life, depreciation method and residual value of an asset are reviewed at least annually and any changes are accounted for prospectively as a change in accounting estimate.

2.13 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

2.13.1 The Combined Group as lessor

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Combined Group's net investment in the leases. Finance lease income is allocated in an accounting periods so as to reflect a constant periodic rate of return on the Combined Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Rental income from the leasing of customer premises equipment (set top boxes, modems and decoders) is recognized on a straight-line basis over the term of the subscription held by the client. At the end of the contract or in case of voluntary contract termination by the client, this equipment is repossessed and thus remains in the inventory of the Combined Group.

2.13.2 The Combined Group as lessee

Assets held under finance leases are initially recognized as assets of the Combined Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the combined statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs (see note 2.11 below). Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.14 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to management, it does not take a substantial period of time to get ready for the intended use because of the incremental deployment of the network. This standard has consequently no impact on the combined financial statements.

2.15 Government grants

Government grants are not recognized until there is reasonable assurance that the Combined Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Combined Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Combined Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the combined statement of financial position and transferred to the income statement on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Combined Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

2.16 Financial assets

The Combined Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1 "Presentation of financial statements".

Purchases and sales of all financial assets are recognized on a trade date basis.

2.16.1 Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in non-consolidated companies. Fair value corresponds to quote price for listed securities. For non-listed securities, and when a reliable estimate of fair value cannot be made using valuation techniques, the group values financial assets at historical cost, less any impairment losses.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from other comprehensive income to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

2.16.2 Loans and receivables

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has occurred, the amount of this loss, measured as the difference between the financial assets' carrying value and its recoverable amount is recognized in the income statement. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

2.16.3 Held-to-maturity financial assets

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Combined Group has both the intention and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, in accordance with the effective interest rate method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Combined Group currently does not hold any held to maturity financial assets.

2.16.4 Financial assets measured at fair value through profit or loss

These financial assets are measured at fair value with gains and losses recorded as finance income or costs.

This category mainly includes:

- Assets held for trading which the Combined Group intends to sell in the near future (primarily marketable securities);
- Assets voluntarily classified at inception in this category;
- Derivatives financial assets.

2.17 Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories comprises costs of purchase and costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated selling costs.

Cost of inventories is determined using the weighted average cost method.

The Combined Group periodically evaluates the condition and age of inventories and makes provisions for slow moving inventories accordingly.

2.18 Cash and cash equivalents

Cash consists of cash in banks and deposits.

Cash equivalents are considered as highly liquid investments, including unrestricted short-term bank deposits with an original maturity of three months or less from the date of acquisition or with a maturity of more than three months, but which are redeemable on demand without penalty and which form part of the Combined Group's cash management.

2.19 Restricted cash

Restricted cash is considered to be cash that is dedicated to the repayment of the Combined Group's liabilities to banking entities in accordance with the Group's credit agreement.

2.20 Derivatives

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently reassessed at their fair value.

The Combined Group enters into interest rate swaps and caps to manage its interest or foreign currency exchange rate exposure. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any of these derivative instruments are recognized immediately in the income statement within financial income and expenses.

2.21 Share based payment arrangements

The Combined Group's employees are entitled to remuneration in the form of equity-settled share-based payment transactions and certain employees are entitled to remuneration in the form of cash-settled share-based payment transactions that are measured based on the increase in the Company's share price. These stock options based remunerations mainly concerned the Israeli entity, HOT Telecom and these plans were terminated post the take private of the company in December 2012 and the delisting of all active shares of HOT Telecom on the Tel Aviv stock exchange.

2.22 Financial liabilities

Financial liabilities other than derivative instruments include:

2.22.1 Financial liabilities at amortized cost

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument.

2.22.2 Financial liabilities that are measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities classified as held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on liabilities held for trading are recognized in profit or loss.

Derivatives, including bifurcated embedded derivatives, are classified as held for trading unless they are designated as effective hedging instruments. In the event of a financial instrument that contains one or more embedded derivatives, the entire combined instrument may be designated as a financial liability at fair value through profit or loss only upon initial recognition.

The Combined Group assesses whether embedded derivatives are required to be bifurcated from host contracts when the Group first becomes party to the contract. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

The fair value of financial instruments that are traded in an active market is determined by reference to quoted market prices at the close of business on the balance sheet date. For financial instruments for which there is no active market, fair value is determined by the use of valuation techniques. Such techniques include evaluation based on transactions that have been executed recently under market terms, reference to the current market value of another instrument, which is substantially the same, discounted cash flow analysis or other valuation models.

2.22.3 Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.22.4 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the value of the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

The Group also issued some CPECs (Convertible Preferred Equity Certificates). Details of these subordinated financial instruments are set out in note 16.2.

2.23 Other liabilities

2.23.1 Provisions

A provision in accordance with IAS 37 is recognized in the statement of financial position when the Combined Group has a present obligation (legal or implicit) as the result of a past event and it is expected that the use of economic resources will be required in order to settle the obligation and it is possible to reliably estimate it. Where the impact is significant, the provision is measured by discounting the forecasted future cash flows, using a pre-tax interest rate that reflects the expectations of the market in respect of the time frame of the money and in certain cases, the risks that are specific to the liability.

The following types of provisions are recorded in the financial statements:

2.23.1.1 Legal claims

A provision regarding legal claims is recognized when the Combined Group has a present legal commitment or an implicit commitment resulting from a past event; when it is more likely than not that the Combined Group will be required to expand economic resources to clear the commitment, when it is possible to estimate it reliably and when the effect of time is significant, the provision is measured according to the present value.

2.23.1.2 Warranty

The Combined Group recognizes a provision for warranty for the sale of its products. The warranty is limited to malfunctions as defined by the Combined Group and does not include warranty for damages incurred by the customer.

2.23.1.3 Onerous contracts

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Combined Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.23.1.4 Restructuring

A restructuring provision is recognized when the Combined Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Combined Group.

2.23.2 Liabilities for employment benefits

In accordance with the laws and practices of each country in which it operates, the Combined Group participates in, or maintains, several employee benefits. There are as follows:

2.23.2.1 Short-term benefits for employees

Short-term benefits for employees include salaries, vacation pay, sick leave, recuperation pay and employers' deposits for national insurance and are recognized as an expense when the services are provided. A liability in respect of a cash bonus or a profits participation scheme is recognized where the Combined Group has a legal or an implicit commitment to pay the said amount in respect of service that has been provided by the employee in the past and where the amount can be reliably estimated.

2.23.2.2 Post-retirement benefits

In Israel, the Combined Group operates a defined benefits plan in respect of the payment of severance pay in accordance with the Israeli Severance Pay Law. According to this law, employees are entitled to receive severance pay if they are dismissed or on their retirement. The liability in respect of the termination of employee-employer relations is measured in accordance with the actuarial value of a forecast unit of entitlement method. The actuarial calculation takes into account increases in salaries in the future and the rate at which employees leave the Combined Group and this on the basis of an estimate of the timing of the payment. The amounts are presented on the basis of the discounting of the forecast future cash flows, in accordance with government bonds' interest rates, whose repayment dates are close to the period relating to the liability in respect of severance pay.

The Combined Group deposits funds in respect of its severance pay liability in pension funds and insurance companies (hereafter - the plan assets). The plan assets are assets that are held by the employee benefits plan for the long-term or in qualifying insurance policies. The plan assets are not available for use by the Combined Group's creditors, and cannot be paid directly to the Group.

The liability regarding employee benefits presented in the statement of financial position represents the present value of the defined benefits obligation less the fair value of the plan assets, and the past service costs. Actuarial gains and losses are reflected in the income statement in the period in which they arise, as part of the salary costs.

The Combined Group has defined contribution plans pursuant to the Severance Pay Law under which the Combined Group pays fixed contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods. Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed simultaneously with receiving the employee's services and no additional provision is required in the financial statements.

2.23.2.3 Other long-term employee benefits

The Combined Group's employees are entitled to benefits and other long-service grants. These benefits are accounted for as other long-term benefits since the Combined Group estimates that these benefits will be used and the respective Combined Group's obligation will be settled during the employment period and after one year from the end of the reporting period.

The Combined Group's net obligation regarding other long-term employee benefits is in respect of the future benefit amount due to employees for services rendered in current and prior periods. This amount of benefits is discounted to its present value and the fair value of the assets relating to this obligation is deducted from said amount. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the Combined Group's obligation. The obligation is calculated using the projected unit credit method. Actuarial gains and losses are recognized in profit or loss in the period in which they occur.

2.23.2.4 Benefits in respect of the termination of employment

Severance pay for employees is reflected as an expense when the Combined Group has made an undertaking, with no real possibility of cancellation, for the dismissal of employees before they reach the customary retirement age in accordance with a detailed formal plan. The benefits that are given to the employees who take voluntary retirement when the Group has offered the employees a plan that encourages voluntary retirement, it is expected that the offer will be accepted and the number of persons accepting the offer can be reliably estimated.

2.24 Significant accounting judgments and estimates used in the preparation of the financial statements

2.24.1 Judgments

In the process of applying the significant accounting policies, the Combined Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the combined financial statements.

2.24.2 Estimates and assumptions

The preparation of the combined financial statements requires the Combined Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

2.24.3 Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

The value in use of each CGU was determined by estimating cash flows for a period of five years for the operating activities. Cash flow forecasts are derived from the most recent business plans approved by the Board of Directors. Beyond the specifically forecasted period of five years, the Company extrapolates cash flows for the remaining years based on an estimated constant growth rate between 1,5-2%. This rate does not exceed the average long-term growth rate for the relevant markets. Discount rates have been computed using WACC approach and range from 7% to 7,5%.

The carrying amount of goodwill as at December 31, 2012 was EUR 790,9 million (December 31, 2011 was EUR 911,9 million ; December 31, 2010: EUR 17,8 million). No impairment loss has been accounted for in 2010 and 2011 respectively.

2.24.4 Legal claims

In estimating the likelihood of outcome of legal claims filed against the Combined Group and its investees, the Combined Group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ from these estimates.

2.24.5 Post-employment benefits

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates, expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

2.24.6 Deferred tax asset

Deferred tax assets relate primarily to tax loss carry forwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carry forwards are recognized if it is probable that the Combined Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Combined Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carry forwards.
As of December 31, 2012, 2011 and 2010, in evaluating whether deferred tax assets should be recognized, management considered the weight of one form of negative evidence being a significant amount of cumulative losses in recent years and concluded that it is not probable that future taxable profit will be available against which the unused tax loss carry forward can be utilized.

2.24.7 Discounting of Yield Free Preferred Equity Certificates (YFPEC)

The Combined Group has loans with its equity holder which are currently non-interest bearing and therefore considered as not being at arm's length. In determining the present value, a discount rate of 4,76% has been used for YFPECs issued by Altice VII and 6,38% for YFPECs issued by Altice Six.

(1) Solutions 25 changed its name to Green ch as the result of the merger of Green ch by Solutions 25 in 2010

(2) Everido was merged into Altice VII in 2010

(3) The Combined Group acquired in January 2012 the shares of Sequalum Participation that were held by Eiffage (15.78%). After this operation, the Combined Group owned 95% of Sequalum Participation.

(4). The entities Altitude Telecom, B3G SA and B3G Online were merged in 2011 in Completel SAS.

3.2 Modification of the scope of consolidation

3.2.1 Main acquisitions in 2010

3.2.1.1 Hot Mobile (ex MIRS Communications Ltd)

In 2010, Altice Securities S.à r.l. decided to incorporate Altice Acquisition Ltd, a company incorporated under the laws of Israel. On December 9, 2009, the company entered into an acquisition agreement which was amended on February 4, 2010, pursuant to which, the company acquired all the shares held in MIRS Communications Ltd ("Hot Mobile"), by way of a merger with and into Hot Mobile of the shares held in Altice Acquisition Ltd. This merger became effective on May 27, 2010.

3.2.2 Main acquisitions in 2011

3.2.2.1 The HOT group

On October 26, 2010, the Combined Group entered into two acquisition agreements with the HOT Telecommunications equity holders, the Fishman Group and the Yediot Communications Ltd. Group, which as of the date of the above mentioned agreements held about 12,61% and 16,79% of HOT shares, respectively. On November 28, 2011 the transaction was consummated.

On March 16, 2011, Hot Telecommunications completed a private placement for approximately 2% of HOT issued share capital which was entirely subscribed by the Combined Group. At completion of this placement, the Combined Group held approximately 64,7% of HOT's shares.

Until March 16, 2011, the Combined Group held about 44,7% of HOT shares which until that date had been accounted for as an investment in associate using the equity method.

Since March 16, 2011, the Combined Group consolidates HOT and the Combined Group elected to measure the non-controlling interests in the acquiree at fair value at the date when control had been achieved.

The Combined Group has recognized the fair value of the assets that were acquired and the liabilities that were taken on within the framework of the business combination in accordance with an evaluation by an independent external expert. As of the time of the approval of the financial statements a final evaluation from an external expert has been received in relation to the fair value of the identified assets that were acquired and the liabilities that have been taken up. The amount of the investment prior to achieving control, in accordance with the equity method of accounting, as aforesaid, has been revalued in accordance with the share price as of the said time (approximately EUR 12,14), such that the financial statements as of March 31, 2011 income has been recorded on the revaluation of the investment in the affiliate, which became a consolidated company, in an amount of approximately EUR 133,0 million.

a) Customer relations

The customer relations were valued on the basis of the fair value of the existing customers in accordance with the contracts with them, through the excess earnings method for multiple periods. The amortization period for customer contracts ranges from 7 to 14 years under the straight line method.

b) Customer relations with a defined contractual term

This intangible asset was estimated based on the cash flows expected from existing orders or signed agreements of existing customers according to the surplus earning method for multiple periods. The amortization period for this asset is 3 years according to the existing agreements data.

c) Brand name

The "HOT" brand and "Mirs" brand were valued within the framework of the business combination in accordance with the "relief from royalties" method.

d) Backlog of contracts

The backlog of contracts was valued within the framework of the business combination on the basis of the cash flows that were expected as a result of the acquisition, which derived from orders associated with signed contracts, with the addition of an appropriate profit margin, in accordance with the excess earnings method for multiple periods.

e) Subscriber purchase costs

The HOT Group has an intangible asset that was created in respect of the costs associated with the purchase of subscribers. The additional direct sales commissions that are paid in respect of sales to subscribers that have signed on a commitment to remain customers of the Combined Group are recognized as an intangible asset up to the maximum fine that exists according to their contractor obligation. The expenses relating to the amortization of the purchase of the subscribers are recorded in the income statement over the period of the subscribers' average contractual commitment.

f) Software

The Combined Group's assets include computer systems that contain both software and hardware. Software that constitutes an integral part of the hardware, which cannot operate without the software that is installed therein, are classified as fixed assets. On the contrary, licenses from stand-alone software which add additional functionalities for the hardware are classified as intangible assets.

3.2.2.2 Coditel Brabant S.p.r.l. and Coditel S.à r.l.:

The Coditel reporting entity, Coditel Holding S.A. ("Coditel Holding") was incorporated on May 12, 2011 for the purpose of acquiring Coditel Brabant S.p.r.l. ("Coditel Belgium") and Coditel S.à r.l. ("Coditel Luxembourg"), which acquisition was completed on July 31, 2011.

As at the end of 2011, Altice VII holds an indirect interest of 44,4% in Coditel Brabant S.p.r.l. and Coditel S.à r.l.. Through various holding vehicles, Altice VII controls Coditel Brabant and Coditel S.à r.l.. Control is obtained via the majority position on the board of these entities by the Altice VII representatives.

3.2.3 Main acquisitions in 2012

Altice Portugal S.A. acquired 100% of Cabovisao as at February 29, 2012, from Cogeco Cable Luxembourg Holding S.A.. The consideration amounted to EUR 45 million, of which 40% was subsequently sold to Apax Partners in April 2013.

3.3 Acquisitions of businesses

Business combinations that occurred during the reporting period are described in note 3.2..

The major classes of assets acquired and liabilities assumed at the acquisition date are:

(in millions of euros)	Total Business Combinations	Cabovisao	Hot Telecom	Coditel Brabant S.p.r.l.	Coditel S.à r.l.
Cost of acquisition	1 337,2	45,0	941,1	244,3	106,8
ASSET

Management monitors its different businesses by geography. The businesses are split into different geographies as mentioned below:

- Israel
- Belgium and Luxembourg
- France
- French overseas Territories
- Switzerland
- Others

In addition to this geographical split, for the purpose of the testing for impairment of goodwill and intangible assets with an indefinite useful life, the goodwill, brand name and customer relationships have been allocated to the local businesses that represent cash-generating units (CGU) as follows:

- WSG
- Valvision
- Everido
- Coditel Brabant
- Coditel S.à r.l.
- Hot Telecom

Goodwill is tested at the cash-generating units ("CGU") level for impairment annually, as of December 31, or whenever changes in circumstances indicate that the carrying amount may not be recoverable. In all cases, the CGU represents the lowest level at which goodwill is monitored for internal management purposes. The recoverable amounts of the CGUs are determined based on their value in use. The key assumptions for the value in use calculations are primarily the discount rates, growth rates, expected changes to telecom prices and direct costs during the period.

The Board of Directors estimates discount rates using pre-tax rates that reflect current market rates for investments of similar risk. The rate for each CGU was estimated from the weighted average cost of capital.

For the year ended December 31, 2012, the Board of Directors has determined the value in use of each cash generating unit, with the assistance of an external appraiser, and as a result of this valuation the Group concluded that the recoverable amount of the Israeli in-country fixed line is lower than its carrying amount and accordingly recorded in the reporting period an impairment of approximately EUR 121,9 million which was recorded as part of section ''depreciation and amortization''

The Board of Directors has performed an impairment analysis for the purpose of issuing these combined financial statements and determined that no impairment should be recorded for the years ended December 31, 2011 and 2010.

Most of the tangible assets increases as of December 31, 2012 are related to the Cabovisao business combination (see Note 3.3). The additions in capital expenditures come mainly from Hot Telecom activity:

- Modems and converters related capital expenditures represented EUR 69,4 million for the year ended December 31, 2012, as compared to EUR 29,3 million for the year ended December 31, 2011. The increase in converters and modems related capital expenditures resulted from capital expenditure incurred during the first two quarters of 2012 relating to our new set top boxes (HOT Magic HD) for which delivery was delayed and which we had expected to incur during the second quarter of 2011 and did not received until the last quarter of 2011.

- Cable network related (including centers) capital expenditures represented EUR 84 million for the year ended December 31, 2012, as compared to EUR 51.6 million for the year ended December 31, 2011. The increase in our total cable network related (including centers) capital expenditure was as a result of the expenditure incurred to complete the upgrade to 100Mb capacity throughout our cable network and fibre roll out in certain areas in 2012.

(1) *Cable networks: the Combined Group owns, directly and indirectly through its subsidiaries, cable or fibre network which allow it to supply cable-based pay television, broadband internet and fixed-line telephony services to its subscribers.*

(2) *Call center represents centralized offices used for the purpose of receiving or transmitting a large volume of administrative, technical or commercial requests by telephone.*

(3) *Office furniture and equipment refers to furnishings and IT equipment.*

(4) *The Communication network infrastructure includes the digital technologies for the transmission of multi-channel television services.*

Most of the tangible assets increases as of December 31, 2012 come from the Cabovisao business combinations (see Note 3.3).

Most of the tangible assets increases as of December 31, 2011 come from the Coditel and Hot Telecom business combinations (see Note 3.3).

The additions in capital expenditures mainly come from Hot Telecom activity:

- Modems and converters related capital expenditures represented EUR 29,3 million for the year ended December 31, 2011.The weaker amount of modems and converters related capital expenditures resulted from a delay in the delivery of the HOT Magic HD set top boxes which the local management initially expected to receive during the second quarter of 2011 and ended up not receiving until the fourth quarter of 2011.

- Cable network related (including centers) capital expenditures represented EUR 43,4 million for the year ended December 31, 2011 and was related to investments in the Israeli UFI-channel in 2011.

7 Investments in associates

The breakdown of the investments in associates in 2010, 2011 and 2012 is detailed as follows:

	December 31, 2012	
(in millions of euros)	**Combined Group's share of profits of associates**	**Combined Group's share of net assets of associates**
Altice B2B Lux Holding S.à r.l.	11,4	39,1
Ypso Holding S.à r.l.	9,0	(116,1)
Total	**20,4**	**(77,0)**

	December 31, 2011	
(in millions of euros)	**Combined Group's share of profits of associates**	**Combined Group's share of net assets of associates**
HOT TELECOM (and its subsidiaries)	11,7	-
Altice B2B Lux Holding S.à r.l.	7,8	28,1
Ypso Holding S.à r.l.	39,1	(129,1)
Total	**58,6**	**(101,0)**

	December 31, 2010	
(in millions of euros)	**Combined Group's share of profits of associates**	**Combined Group's share of net assets of associates**
HOT TELECOM (and its subsidiaries)	6,8	284,9
Altice B2B Lux Holding S.à r.l.	(1,9)	137,2
Ypso Holding S.à r.l.	15,9	(169,1)
Total	20,7	253,0

Variation in the statement of financial position of investment in associates is shown below:

(in millions of euros)	**Balance on December 31, 2012**	**Increase/ (Decrease)**	**Balance on December 31, 2011**	**Increase/ (Decrease)**	**Balance on December 31, 2010**
Altice B2B Lux Holding S.à r.l.	19,2	11,4	7,8	7,8	(1,9)
Ypso Holding S.à r.l.	64,0	9,0	55,0	39,1	15,9
HOT Telecom	-	-	-	(284,9)	284,9
Total	83,2	20,4	62,8	(238,1)	298,9

The Altice B2B Lux Holding S.à r.l.figures are detailed as follows:

(in millions of euros - unaudited)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Current assets	222,5	213,8	643,0

Total Net book value	**141,8**	**165,9**	**112,5**

(1) *Investment in available for sale financial asset:*

A subsidiary company, operating through Hot Net Internet Services Ltd. (formerly Hot Properties) and Finance Ltd. (hereinafter – Hot Net) holds 1 454 663 regular shares in Partner Communications Ltd. (hereinafter – Partner), constituting approximately 0,9% of Partner's share capital which is engaged in the provision of mobile communications services and whose shares are traded on stock exchanges in the United States of America, in the United Kingdom and in Israel. Partner's shares are subject to Israeli restrictions in accordance with the Radio Mobile Telephone license that was granted to Partner, in accordance with which the shares can only be sold to an Israeli buyer, as defined in the said license.

The subsidiary companies present the investment in Partner as an investment in an available for sale financial asset, which is measured at fair value.

(2) *Restricted cash (see Note 2.19).*

The restricted cash has been deposited in financial institutions and as of the statement of financial position date it bears interest based on the interest rate on daily bank deposits. It is restricted to repayment of certain interests on bank borrowings and debentures.

Loans to associates as of December 31, 2012, 2011 and 2010 are summarised below:

- Derivative instruments: EUR 4,3 million
- Income receivable: EUR 1,6 million
- Advances to suppliers: EUR 1,8 million.

(2) *Accrued interest on loans and receivables to associates correspond to interest accrued on the different debt instruments between Altice Six and its associates. As of December 31, 2012 this caption was composed mostly of interest due on Ypso Holdings and Altice B2B Super PECs for EUR 4,3 and 5,0 respectively As of December 31, 2011 this interest amounted to EUR 4,6 and EUR4,7 million respectively. For the period ended December 31, 2010, this amount totaled EUR 2,9 million.*

The Combined Group provides services on credit for an average of 16 days, 24 days and 96 days in average to its customers in the cable television field, in the in-country fixed line communications field and in the mobile communication field, respectively. The Combined Group routinely evaluates the credit that is provided to its customers, while checking their financial situations; however it does not demand collateral for those debts. The Combined Group records a provision for doubtful debts, based on the factors that affect the credit risks of certain customers, past experience and other information.

TOTAL	2,4	-	0,7	(0,6)	-	0,3	2,9

(1) Provisions for litigations and other risks decreased in FY12 compared to the previous period, mainly driven by a re-evaluation of the risk of pay-out on the various royalty and retransmission fees related lawsuits faced by HOT Telecom in Israel. The reversals on the three major litigations, namely TALI, AKUM and AGICOA, amounted to EUR 3, 13,5 and 3,5 million respectively. The total reversal on provision for litigation was EUR 20 million.

In 2012, HOT Telecom also recorded an additional provision of EUR 1,9 million to cover a contested withholding tax ruling. The increase in provisions for risks and litigation was mainly driven by the finalization of the acquisition of HOT Telecom on a fully consolidated basis from FY11 onwards. A large majority of provisions for litigations were recorded at HOT Telecom, arising from claims for royalty payments from the producers of audio-visual or musical content. The main litigations for the year ended December 31, 2011 were (i) Tali, a claim for royalties by a third party on behalf of writers and directors of audio-visual content, who are producers of their own local content. This claim was provisioned for a total amount of EUR 5,8 million; (ii) A claim by AKUM, provisioned for EUR 17,3 million, also relating to claims on royalties for musical writers, composers and publishers and (iii) a provision of EUR 8,6 million, brought forward by AGICOA, for the payment of fees to audio-visual producers for the retransmission of their locally produced content.

(2) In addition to the claims mentioned above, other provisions for risk mainly concerned legal claims made by former employees for wrongful dismissal in the French Caribbean subsidiaries (EUR 0,38 million), a provision for penalties stemming from an inspection by the labour department in Martinique (EUR 0,33 million) and a wrongful termination claim by a content provider (EUR 0,15 million).

15 Employee benefits

Breakdown of the employee benefits by entity:

(in millions of euros)	December 31, 2012	December 31, 2011	December 31, 2010	Notes

Green ch	2	1,4	1,2	
Total	9,1	6,9	1,2	

15.1 Hot Telecom

a) Defined Benefit Plans :

The portion of the severance pay payments that is not covered by deposits, is treated by the Combined Group as a defined benefit plan in accordance with which a liability is recorded in respect of employee benefits, and the Combined Group deposits amounts in central severance pay funds and in appropriate insurance policies in respect of it.

The Combined Group has defined contribution plans, in accordance with section 9 of the Israeli Severance Pay Law, in accordance with which the Combined Group makes regular payments without it having a legal or implicit commitment to pay additional payments even if sufficient funds have not accumulated in the funds to pay all of the benefits to an employee that relate to the employee's employment in the current period and in previous periods.

Deposits in a defined contribution plan in respect of severance pay or in respect of emoluments are recognized as expense at the time of the deposit in the plan, in parallel to the receipt of the labor services from the employee and no additional provision is required in the financial statements.

b) Expenses reflected in the statement of comprehensive income:

(in millions of euros)	**December 31, 2012**	**December 31, 2011**	**December 31, 2010**
Current service cost	4,7	3,9	-

Accrued interest	14,3	13,3	7,9
Current	134,9	255,8	89,6

During the year ended December 31, 2012, bonds include the debentures in Hot Telecom :

- The Series A' debentures – EUR 167 million (NIS 825 million par value), linked to the Consumer Prices Index for the month of February, 2011, that bear interest at a rate of 3,9% a year. Series A' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

- The Series B' debentures – EUR 137 million (NIS 675 million par value) that bear interest at a fixed rate of 6,9% a year. Series B' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

Bonds also include Senior and Senior secured Notes in Altice Finco S.A. and Altice Financing S.A.:

- The Senior Notes in U.S. dollar, issued by Altice Finco S.A and with a face value of $ 425,0 million (EUR 322,0 million) mature on December 15, 2020 and bear coupons of 9,875% annually

- The Senior Secured Notes in U.S. dollars, issued by Altice Financing S.A. and with a face value of $460 (EUR 348,5 million) mature on December 15, 2019 and bear coupons of 7,875% annually,

- The Senior Secured Notes in Euro, issued by Altice Financing S.A and with a face value of EUR 210 million mature on December 15, 2019 and bear coupons of 8% annually.

The Senior and Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and traded on the Euro MTF Market of the Luxembourg Stock Exchange. The interest payment of the bonds is semi-annually on June 15 and on December 15 of each year and the first payment of the interest will be on June 15, 2013.

16.1 Covenants

16.1.1 Hot

The unsecured debentures issued on the Tel Aviv stock exchange by the Combined Group's subsidiary Hot Telecom include financial covenants measured on Hot Telecom performance, which mainly include:

- a debt to EBITDA ratio, which is not to exceed 6 for a period that exceeds two consecutive quarters;
- no distribution of a dividend at a time when Hot Telecom exceeds a debt to EBITDA ratio of 5,5.

As of December 31, 2011 and 2012, Hot Telecom was in compliance with all of the required financial covenants.

Financial covenants have been set for Hot Mobile, which include:

- the making available of a fixed charge on a Shekel deposit, in favor of the banks, in accordance with a formula that was detailed in the letter of undertaking;
- a minimal ratio between the amounts of the increase in the shareholders' equity and Mirs cumulative free cash flows; For the periods ended December 31, 2010 and December 31, 2011, HOT Mobile was in compliance of the covenants set forth in its debt contracts. This debt was refinanced at the end of 2012.

16.1.2 Altice Blue One

As part of the Altice Blue One ("ABO") financing arranged in 2009, ABO was required to respect certain covenants calculated on the basis of its consolidated annual accounts. As of December 31, 2011, ABO was in default of its financial covenants, though it was not in default of any scheduled payments due to the lenders. As per the debt contracts, one consequence of this default could be early or accelerated repayment of the debts, if and only if such repayments are unanimously reclaimed by all of the lending agencies.

ABO's management does not believe that these covenant defaults affect in any way the ability of the Group to effectively pursue its operations. This hypothesis was supported by advanced level talks with the lending parties, and based on the fact that none of the lenders ever demanded early repayment of the loan. Thus ABO's accounts for 2012 were closed and approved based on the hypothesis outlined above. On July 2, 2013, ABO refinanced the relevant facilities with funds granted by the Group, thereby solving any default situation

As a result, the whole amount of debt has been reclassified as current borrowings from banking corporations and debentures for the three years ended December 31, 2012, December 31, 2011 and December 31, 2010.

16.1.3 Coditel Holding

Financial covenants have been set for Coditel Holding, in the framework of the financing agreement entered into with a pool of financial institutions on December 2, 2011, based on the consolidated accounts of Coditel Holding S.A..

As of December 31, 2012, Coditel Holding S.A. was in compliance with all of the required financial covenants.

As at December 31, 2012, there were no breaches of covenants for the senior and senior secured notes mentioned in the note above.

16.2 Bonds

Issuer	Effective interest rate	Year of maturity	Carrying amount December 31, 2012	Carrying amount December 31, 2011	Carrying amount December 31, 2010
Bonds					
Hot Telecom					
- Debentures	Variable (3,9 % and 6,9 % + Consumer Price Index)	2018	294,4	303,8	-

ALPECS J	13/11/2061	Business unit yield	No	-	3,9
Total				***65,5***	***101,3***

Conversely, according to our appreciation, and upon a strict application of IAS 32/39, following instruments have to be classified as debt instruments:

- ALPECs instruments (about EUR 101,3 Million as at the end of 2012);
- YFPECs instruments (about EUR 36,3 Million as at the end of 2012).

The YFPECs have been valued using a discount rate of 4,76% given its preferred interest rate which therefore values the liabilities at EUR 4,4 million as at December 31, 2012.

Name	Maturity date	Interest rate	Convertible	Amount as at the end 2010 (including interests) In millions of EUR
ALPECs A	14/05/2058	Loan Auberimmo - 25 bp	No	4,6
ALPECs B1	31/12/2057	Loan ABO - 25 bp	No	4,5
ALPECs B3	31/07/2058	Loan ICC France - 25 bp	No	1,0
ALPECS F (US dollar)	27/05/2059	Loan Mirs - 25 bp	No	46,4
ALPECS H	16/11/2060	Business Unit (1) - 25 bp	No	
Total				***56,5***

(1) As per the agreements, Business Unit means any interests and proceeds received by the Issuer by virtue of the Subsidiary's PECs. Each instrument is linked to a specific acquisition and hence to a specific asset.

Conversely, according to our appreciation, and upon a strict application of IAS 32/39, following instruments have to be classified as debt instruments:

- ALPECs instruments (about EUR 65,5 million nominal value as at the end of 2011);
- YFPECs instruments (about EUR 35,2 million nominal value as at the end of 2011).

The YFPECs have been valued using a discount rate of 4,76% given its preferred interest rate which therefore values the liabilities at EUR 4,1 million as at December 31, 2011.

b) Altice Six

Subordinated financial instruments consists of:

- YFPECs: Yield Free Preferred Equity Certificates;
- IFPECs: Interest Free Preferred Equity Certificate;
- PECs: Preferred Equity Certificates
- Super PECs: Super Preferred Equity Certificates
- Tracking IFPECs: Tracking Interest Free Preferred Equity Certificate;

The IFPECs, YFPECs and certain non bearing interests PECs at Altice Six have been valued using a discount rate of 6,38% given its preferred interest rate which therefore values the debt at EUR 97,0 million for the year ended December 31, 2012 (EUR 92,5 million for the year ended December 31, 2011 and EUR 87,2 million for the year ended December 31, 2010). As all the subordinated financial instruments mentioned above are non-convertible instruments, they are classified as debt in the local accounts of Altice Six and no reclassification was required in the combined accounts prepared as per the IFRS standards.

c) Coditel Holding

Subordinated financial instruments in Coditel Holding S.A. consist of PECs (Preferred Equity Certificates). Each PEC bears a yield and shall have a maturity of 49 years.

As at the end of 2012, the total of PECs instruments amounts to EUR 61,8 million (including interests):

17 Financial risk factors

In the course of its business, the Combined Group is exposed to a number of financial risks: credit risk, liquidity risk, market risk (including foreign currency risk and interest rate risk), commodity price risk and other risks (including equity price risk and settlement risk). This note presents the Combined Group's objectives, policies and processes for managing its financial risk and capital.

Financial risk management is an integral part of the way the Combined Group is managed. The Board of Directors establishes the Combined Group's financial policies and the Chief Executive Officer establishes objectives in line with these policies.

The Combined Group is not subject to any externally imposed capital requirements.

17.1 Credit risk

The Combined Group does not have significant concentrations of credit risk. The credit risk may arise from the exposures of commitments under a number of financial instruments with one body or as the result of commitments with a number of Combined Groups of debtors with similar economic characteristics, whose ability to meet their commitments could be similarly affected by economic or other changes.

Qualities that could cause a concentration of risk include the significance of the activities that the debtors are involved in, such as the branch in which the geographical region in which they conduct their activities and the level of their financial stability.

The Combined Group's income mainly derives from customers in Israel, in the French Overseas Territories and in Europe (Belgium, Luxembourg, France and Switzerland). The Combined Group regularly monitors its customers' debts and provisions for doubtful debts are recorded in the financial statements, which provide a fair value of the loss that is inherent to debts whose collection lies in doubt.

The Combined Group does not have significant concentration of credit risk, as a result of the Combined Group's policy, which ensures that the sales are mostly made under standing orders or via credit cards.

17.2 Liquidity risk

Ultimate responsibility for liquidity risk management rests with the management, which have established an appropriate liquidity risk management framework for the management of the short, medium and long-term funding and liquidity management requirements of the Combined Group. The Combined Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserves borrowing facilities, by continuously monitoring forecast and actual eash flows, and by matching the maturity profiles of financial assets and liabilities.

17.3 Market risks

The Combined Group is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and anticipated future transactions.

17.3.1 Interest rate risk

Interest rate risk comprises the interest price risk that results from borrowings at fixed rates and the interest cash flow risk that results from borrowings at variable rates.

The Combined Group has an exposure to risk in respect of changes in the interest rate in the market, deriving from long-term loans that have been received and which bear variable rate interest.

Interest structure of non-current financial debt (including interest effects of derivatives):

(in millions of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Financial debt at fixed rates	1 698,3	655,3	316,8
Financial debt at variable rates	287,1	834,6	88,3
TOTAL	1 985,4	1 489,9	405,1

Sensitivity tests for changes in interest rates are described as follows:

(in millions of euros)	**December 31, 2011**	**December 31, 2010**
Increase of 0.5% in the interest rate	0,4	(3,2)
Decrease of 0.5% in the interest rate	(0,4)	1,0

17.3.2 Israeli CPI risk

The Combined Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Combined Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Combined Group is exposed to changes in the Israeli CPI amounted to approximately EUR 0,5 million (Hot Telecom) as of December 31, 2011.

The Combined Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Group is exposed to changes in the Israeli CPI amounted to approximately EUR 247 million as of December 31, 2012.

17.3.3 Foreign currency risk

The Combined Group is exposed to foreign currency risk from transactions and translation. Transactional exposures are managed within a prudent and systematic hedging policy in accordance with the Combined Group's specific business needs. Translation exposure arises from the consolidation of the financial statements of foreign operations in euros, which is, in principle, not hedged. The Combined Group's objective is to manage its foreign currency exposure through the use of currency forwards, futures, swaps and options.

Exchange differences recorded in the income statement represented a loss of EUR 14,0 million in 2011 (2010: gain of EUR 33,8 million). They are allocated to the appropriate headings of expenses by function.

The Combined Group estimates that a 10% variation of foreign currencies against euro parity is a relevant change of variables and reasonably possible risk in a year and the chart presented below allows assessing the impact of a 10% increase of foreign currencies against euro on net result and reserves. A 10% decrease would have a symmetrical impact with the same amounts but in the opposite direction.

December 31, 2012

(in millions of euros)	Israeli Shekel	Swiss Franc	Total
Profit for the year			
Increase of 10% in exchange rate	(12,9)	(0,1)	(13,1)
Decrease of 10% in exchange rate	12,9	0,1	13,1
Equity			
Increase of 10% in exchange rate	23,3	3,0	26,3
Decrease of 10% in exchange rate	(23,3)	(3,0)	(26,3)

December 31, 2011 *(in millions of euros)*	Israeli Shekel	Swiss Franc	Total
Profit for the year			
Increase of 10% in exchange rate	(10,7)	(0,1)	(10,9)
Decrease of 10% in exchange rate	10,7	0,1	10,9
Equity			
Increase of 10% in exchange rate	(1,3)	(2,1)	(3,4)
Decrease of 10% in exchange rate	1,3	2,1	3,4

December 31, 2010 *(in millions of euros)*	Israeli Shekel	Swiss Franc	Total
Profit for the year			
Increase of 10% in exchange rate	(0,7)	(1,9)	(2,6)
Decrease of 10% in exchange rate	0,7	1,9	2,6
Equity			
Increase of 10% in exchange rate	(6,2)	(0,3)	(6,5)
Decrease of 10% in exchange rate	6,2	0,3	6,5

17.3.4 Price risk

The Combined Group has investments in listed financial instruments, shares and debentures that are classified as available-for-sale financial assets and financial assets at fair value through profit or loss in respect of which the Combined Group is exposed to risk of fluctuations in the security price that is determined by reference to the quoted market price.

As of December 31, 2011, the carrying amount of these investments was EUR 8,5 million. An increase/decrease in the asset's market price of 10% would result in a change of EUR 0,850 million in the carrying amount of these investments.

As of December 31, 2012, the carrying amount of these investments was EUR 5,7 million. An increase/decrease in the asset's market price of 10% would result in a change of EUR 0,570 million in the carrying amount of these investments.

17.4 Sensitivity tests in respect of a change in market factors

The sensitivity analysis in respect of financial instruments was performed under the assumption that the amount that was in force as of the statement of financial position date was in force throughout the reporting period.

The changes that have been selected as variables for the relevant risk were determined in accordance with management's assessment in respect of the possible reasonable changes in those risk variables.

17.5 Gearing computation

Gearing ratio (net debt / total invested equity) amounts is as follows:

Combined statement of financial position *(In millions of euros)*	December 31, 2012	December 31, 2011	December 31, 2010
Net Debt (short term and long term)	1 681,9	1 197,5	166,5
Invested Equity	272,9	367,2	233,9
Non-controlling interests	5,2	349,2	0,4
Total equity	278,1	716,4	234,3
Total equity and liabilities	2 937,7	2 695,0	779,2
Gearing	6,1	1,7	0,7

18 Trade and other payables

(In millions of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Trade payable	311,4	208,1	53,0
Trade payables - acquisition of assets	2,9	3,5	9,2
Corporate and social security contributions	24,5	26,2	4,7
Corporate income tax payable	10,7	7,2	2,4
Current Deferred revenue	34,1	31,3	17,7
Other payables	38,9	37,4	12,6
Liabilities from related parties	0,2	-	2,3
Total	422,7	306,5	101,9

Most of the trade payables' and other payables' increases as of December 31, 2011 is a result of the Coditel and Hot Telecom business combination and related to Cabovisao as of December 31, 2012.

19 Other non-current liabilities

(in millions of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Trade payables - acquisition of assets	5,9	-	-
Non-current Deferred revenue	-	9,4	0,7
Deferred revenue	10,8	-	-
Other payables	32,9	15,3	-
Total	49,5	24,7	0,7

Other payables correspond to Israeli non-current payables: interest payable, royalties to the Israeli government, income in advance from customers (Hot Telecom Business combination).

20 Classification and fair value of financial assets and liabilities

On December 31, 2012 ,2011 and 2010, the principles for measuring financial instruments and their market value breaks down as follows:

				Fair Value		
(In millions of euros) - December 31, 2012	**Book value**	**Amortized cost**	**Fair value through profit/loss**	**Assets available for sale**	**Loans & Receivables**	**Derivative instruments**

The classification of financial instruments in accordance with hierarchical levels for fair values:

The financial instruments that are presented in the statement of financial position in accordance with their fair value are classified in accordance with groups that have similar characteristics, into hierarchical levels for fair values, as aforesaid, which are determined in accordance with the source of the input that was used for determining the fair value:

- Level 1 - Quoted prices (without adjustments) in an active market for identical assets and liabilities. As of December 31, 2011 the Combined Group has no financial assets or liabilities that meet the definition of Level 1.
- Level 2 - Inputs other than quoted prices that are included in level 1, which can be observed directly or indirectly.
- Level 3 - Inputs that are not based on observable market data (an evaluation technique that does not use observable market data).

As result, as of December 31, 2012, classifications of financial instruments are as follows:

(in millions of euros)	Level 1	Level 2	Level 3	Total
	December 31, 2012			
Financial liabilities at FVTPL				
Other derivatives financial liabilities	-	62,5	-	62,5
AFS				
AFS HOT Telecom (Level 1)	6,1		-	6,1
	6,1	62,5	-	68,6

The notional principal amounts of the outstanding forward foreign exchange contracts at December 31, 2012 as follows:

- FX Forward contract: USD 550 million, the maturity date will be on December 15, 2017 and swap to NIS at the aggregate rate of 4,1700, this contract relates to a hedge of the notional of the debt and also the rate accretes up to 4,17 in December 15, 2017;
- FX Forward contract: USD 98,9 million, the maturity date is based on the interest date payment from June 17, 2013 to December 15, 2017 and swap to NIS at the aggregate rate of each interest payment period, this contract is related to interest rate hedging, exchanging fixed Euro and USD interest payments into fixed NIS payments.
- FX Forward contract: EUR 40,1 million, the maturity date is based on the interest date payment from June 17, 2013 to December 15, 2017 and swap to NIS at the aggregate rate of each interest payment period, this contract is related to interest rate hedging, exchanging fixed Euro and USD interest payments into fixed NIS payments.

The notional principal amounts of the outstanding forward foreign exchange contracts at December 31, 2012 as follows:

- Cross currency swap: USD 200 million, the maturity date will be on December 15, 2017 swap NIS at the aggregate rate of 7,7550%,
- Cross currency swap: USD 225 million, the maturity date will be on December 15, 2017 swap NIS at the aggregate rate of 5,6850%,
- Cross currency swap: EUR 100 million, the maturity date will be on December 15, 2017 swap NIS at the aggregate rate of 5,7750%.

Those contracts are effectively fixed Euro and USD interest payments in NIS.

As of December 31, 2012, classification of financial instruments' issue are as follows:

21.3 Reconciliation between the effective tax rate and the theoretical tax rate

(in millions of euros)	**December 31, 2012**	**December 31, 2011**
Net income	(180,2)	162,0
Share of net income - associates	(20,4)	(58,6)
Share of net income – equity holders	(200,6)	103,4
Tax charge [(-) expenses / (+) income]	(26,0)	32,5
Earnings/(Loss) before tax	(226,6)	135,9
Theoretical tax rate	28,80%	28,80%
Income tax calculated on theorical tax	65,3	(39,1)
Impact of:		
Effect of different tax rates of subsidiaries depending in other jurisdictions	(5,8)	
Permanent differences	(53,6)	2,0
Restatements without tax impact	12,1	10,6
Utilization of previously non capitalized tax credit	20,0	3,6
Carry-back	0,1	(0,2)
Tax loss carry forwards of the periods non activated	(13,2)	(9,7)
Effect of unused tax losses not recognized as Deferred tax asset	1,0	0,3
Effective Tax	26,0	(32,5)
Effective tax rate	14,43%	20,06%

The permanent differences mainly consist of:

- Reversal of the amortization of goodwill booked in the annual accounts of Solution 25 (Green.ch) for an amount of EUR 1,1.
- Elimination of a profit on internal operation on the sale of the shares of HOT Mobile by Altice Securities S.à r.l. to HOT Telecom Ltd, amounting to EUR 10,8 million.

21.4 Tax assessments

In December 2009 and in the course of the year 2010, HOT received tax assessments for the 2006-2008 tax years, in accordance with section 145(A)(2)(b) of the Income Tax Ordinance. In accordance with the tax assessments, expenses amounting to approximately EUR 220 million were adjusted for HOT for tax purposes as of the end of the year 2008, and this was as a result of a disagreement between HOT and the Tax Authority in Israel, primarily in respect of the pace of the recognition of depreciation expenses in respect of the cables network and additional issues. If the said position of the Tax Authority in relation to the assessments that were issued to HOT in respect of the 2006, 2007 and 2008 tax years is received, HOT will be exposed to a demand for the payment of tax in a cumulative amount of EUR 24 million. Linkage differentials and interest will be added to this amount. Furthermore, HOT will be exposed to a demand for the payment of additional taxation in significantly larger amounts in respect of the tax years after 2008.

HOT's management, on the basis of its position in the self-assessments and based upon its legal advice, has presented an objection against the tax assessments for the years 2006 - 2008 and in the opinion of HOT's management and its professional advisers, HOT has well founded complaints against the claims made in the tax assessments for the years 2006 - 2008, which could significantly change the results of the tax assessments for those years and could also significantly change the implications deriving from them in respect of the tax years after 2008.

At the present time, discussions are being held on the assessments, within the framework of Stage B for the years 2006 - 2008 and within the framework of Stage A for the 2009 - 2010 tax years. A number of issues have come within the framework of the discussions including the manner of the depreciation of the cables network infrastructure and the manner of the amortization of the intangible assets - brand, goodwill and customer connections. Up to the time of the publication of the financial statements, no assessment has yet been issued in respect of the aforesaid.

A provision of EUR 2 million has been recorded within the framework of the financial statements in respect of HOT estimated exposure in respect of the dispute with the tax authorities in respect of open tax years.

HOT has been issued with final tax assessments up to and including the 2005 tax year. The consolidated companies HOT Vision, HOT Haifa and HOT Eidan have been issued with final tax assessments up to and including the 2001 tax year. The consolidated companies HOT Edom and HOT Net (formerly HOT Investments and Finance) have been issued with final tax assessments up to and including the 2002 tax year. The consolidated company HOT T.L.M. has been issued with final tax assessments up to and including the 2004 tax year. The consolidated companies Drom Hasharon and HOT Properties have been issued with final tax assessments up to and including the 2008 tax year.

The consolidated companies HOT T.L.M., HOT Eidan and HOT Haifa have tax assessments that are considered to be final up to and including the 2005 tax year. The consolidated company HOT Mobile have tax assessments that are considered to be final up to and including the 2008 tax year. The consolidated companies HOT Vision, HOT Edom and Hot Net (formerly HOT Investments and Finance) have tax assessments that are considered to be final up to and including the 2007 tax year. The said assessments are considered to be final subject to the powers that have been afforded to the Director of the Tax Authority in Israel in accordance with section 145, 147 and 152 of the Income Tax Ordinance.

21.4.1 Cabovisao

Cabovisao is subject to corporate income tax at the rate of 25%, increased by a municipal surcharge at the applicable rate up to 1.5%, resulting in an aggregate rate of a maximum of 26.5%. Additionally, any taxable profit in excess of EUR 1,5 million is subject to a State surcharge of 3%, being 5% if the taxable net, or exceeds EUR 10 million, according to article 87-A of the corporate income tax law.

In accordance with the article 88 of the corporate income tax law, Cabovisao is subject to autonomous taxation over some costs incurred by Cabovisao at the rates provided for in the above-mentioned article.

In accordance with current legislation, tax returns are subject to review and correction by the tax authorities during a four-year period or, if tax losses are carried forward or a deduction or tax credit used, for the period for which such right is exercised (five years for Social Security). These periods can be suspended when there are tax inspections, claims or appeals in progress. Consequently, Cabovisao's tax returns for the years 2009 to 2012 are subject to review by the tax authorities.

Cabovisao was subject to an inspection from the Portuguese tax authorities for the fiscal years 2003 to 2006, and the outcome was the following:

Notification for fiscal year 2003 to adjust tax losses by EUR 7,2 million and an additional payment of stamp taxes for fiscal years 2000 to 2002 in the amount of EUR 1,3 million. The Company did not agree with the additional payment of stamp taxes, having claimed through a lawsuit appeal against the Portuguese Tax Authorities, presenting a bank guarantee in the amount of EUR 1,7 million. During the year ended August 31, 2011, the Almada Administrative and Fiscal Court decided the appeal was unfounded. Cabovisao has appealed against that decision before the Almada Administrative and Fiscal Court.

Assessment of the Portuguese Tax Authorities related to 2005, requests an adjustment to tax losses in the amount of EUR 17,1 million, as well as an additional tax payment in the amount of EUR 4 million, for withholding tax and stamp tax. Cabovisao paid EUR 2,6 million and contested this decision of the assessment through a gracious complaint and hierarchical appeal, but has not received the final decision yet. The unpaid amount of, approximately, EUR 1 million, was contested by hierarchic appeal. In the year ended 31 August, 2012, the Corporate Tax accepted the claim. As of the date of this report, there were not any subsequent deliberations after that decision.

For 2006, an assessment of tax payable on withholding tax linked to interest due to CSI1 in the amount of approximately EUR 4,9 million. Cabovisao doesn't agree with this assessment, having filed a gracious complaint and submitted a bank guarantee in the amount of approximately EUR 6,8 million. As of December 31, 2012, the administrative and tax court of Almada didn't pronounce on that claim, therefore it wasn't taken any subsequent deliberations.

The Board of Directors believes that any adjustments resulting from tax revisions to the tax returns of these exercises, taking into account the provisions recorded will not have a significant effect on the financial statements on December 31, 2012.

21.5 Unrecognized deferred tax assets

As at December 31, 2012, unrecognized deferred tax assets amount to EUR 86,1 million and split as follows:

- Cool Holding: EUR 21,2 million,
- Coditel Holding Lux S.à r.l.: EUR 13,6 million,
- Cabovisao: EUR 51,3 million.

As at December 31, 2011, unrecognized deferred tax assets amount to EUR 33,4 million and split as follows:

- Cool Holding: EUR 26,7 million
- Coditel Holding Lux S.à r.l.: EUR 5,8 million
- Coditel Brabant: EUR 0,9 million

22 Segment analysis

22.1 Definitions of segments

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geography is inalienable to Group strategy of managing its different businesses. It has thus been decided by the central management team to analyse the business across geographies and then by activity. The following geographies have been identified:

- Israel,
- Belgium and Luxembourg (Western Europe),
- France (Western Europe)
- Portugal (Western Europe),
- French Overseas Territories (Antilles and Indian Ocean),
- Other (Switzerland, Africa etc.).

Activities have been split as follows:

- Cable,
- Mobile,
- Others (B2B/Content/etc.).

22.1.1 Operational non-IFRS KPIs

It has also been decided by the central team that local operational teams in each geography shall report operational KPIs every week and operational and financial KPIs every month using a standard reporting format defined by the central team.

The main operational KPIs that will be tracked will be:

- Subscriber base evolution (both cable and mobile),
- ARPU (Average Revenue per Unit) (cable and mobile),
- Other relevant cost drivers.

These KPIs are benchmark indicators followed throughout the industry and allow for a thorough and accurate analysis of the business and strategic decision making.

22.1.2 Financial non-IFRS KPIs

Each local operational company will also report the following financial KPIs by segment:

- Revenues (Cable/Mobile/Other),
- Cost of Sales (Cable/Mobile/Other),
- Capex (Cable/Mobile/Other).

The central team believes that given the uniformity in the accounting and nature of operating expenses and given the experience and competence of the Group in managing operating costs, the main indicator that can vary between business units is the gross margin.

HOT Telecom however will report EBITDA on cable and mobile, in addition to the KPIs mentioned above. This derives from the size of the mobile business and the fact that historically, this business had separate reporting for these two activities and also because local regulation require operators to report the EBITDA on these segments.

Capital expenditure (Capex) is an important indicator to follow, as the profile varies greatly between the two activities:

- The cable business has small fixed Capex requirements and initial Capex is quite low, but variable Capex is high, as an increase in customers drives the cash needs for Customer Premise Equipment (CPE) and installation.
- Mobile Capex is one-off and mainly driven by investment in new mobile sites and licences to operate. Once the Capex is engaged and the business operational, there is limited Capex requirement.

Thus, the central team places a great emphasis on the proper tracking of capital expenditures and reviewing them against the costs budgeted for the year.

Management believes that operations in Switzerland and activities such as B2B sales are not yet substantial enough to warrant a separate reporting segment and will be reported under 'Others'. However, as these activities grow, it is intended that they are also reported under a separate segment with relevant operating KPIs specific to the activity. Financial KPIs are expected to remain the same. The same applies to any new line(s) of business that the Group may decide to venture into (for e.g., content etc.).

22.2 Regional specificities

22.2.1 Israel

Israel is currently an important contributor to the Group revenues and EBITDA and, for this reason, is classified as a separate region. Apart from this, this region has particularities that differentiate it.

It is characterised by a high broadband and cable penetration and the general population is very technology focussed. The market is maturing but highly regulated, which means that while opportunities for growth exist, they may be limited by specific regulatory challenges and also by high competition, thus leading to price pressures on ARPU development.

Triple play penetration is low and this represents the biggest development path. Customer retention is difficult as contractual terms heavily favour the customer and, hence, price increases, even when coupled with high value content, can be negatively perceived and lead to an erosion of the customer base.

The regulatory environment does not yet allow for quadruple play packages, which heavily restricts achieving full integration and operational synergies with the mobile business. The prevailing political environment in the region can also have adverse impacts on the development of the business, as a deterioration of the situation may have serious repercussions on the market environment and may even lead to physical damage of the infrastructure.

22.2.2 Belgium and Luxembourg

Even though Belgium/Luxembourg and Portugal can be considered to be the same sub-region, the challenges posed by these two regions are quite distinctly different.

The Belgian and Luxembourg territories have a high standard of living and well developed economies, which translates into higher prices for services. The markets are quite mature, with high broadband penetration and a high percentage of triple play customers. Customers are willing to pay more for premium services (high ARPU/subs) and hence price pressures are low.

These regions are marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

22.2.3 France

The French market is a large and mature market with high cable penetration and a large consumer base. French operations represent the oldest and largest part of the cable operations of the combined Group to date.

This region is marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins. Competition is tough and innovations in cable technology, such as Fiber to the home (FTTH) are driving market growth. Incumbent operators are slowly migrating to fiber optic based networks which gives the Group a head start in capturing the ultra-high speed internet market, given its pre-existing high density cable network.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

22.2.4 Portugal

The Portuguese market is marked by a high concentration of double play subscribers and a mature telecommunications market, which, when coupled with slow economic recovery after the crisis, makes it difficult to achieve high sales growth. This market is marked by high subscriber attrition and downward migration from high to low ARPU offers.

The challenge in Portugal is to maintain a subscriber base and then slowly migrating the customer base from double play to triple play offers.

22.2.5 French Overseas Territories

The French Overseas Territories represent an attractive market with high scope of growth in cable operations, owing to relatively limited competition and relatively low cable penetration. There is also a large scope for synergies between the cable and mobile businesses, as triple play penetration remains low and regulatory flexibility allows the marketing of quadruple play options.

Price pressures are low in these markets and customers are willing to pay more for value added services. Double play (TV and Internet) offers are predominant in these regions and the migration of new and existing customers to triple and quadruple play packages in the future will be an important factor in growing sales.

There are other opportunities for growth in the sector, most notably in the e-banking sector.

22.2.6 Segment information

Details regarding revenues, cost of sales and gross profit for our cable, mobile and other segments are as follows:

December 31, 2012

EBITDA split for Israel
(In millions of euros)

	2010	2012
Cable	-	303.0
Mobile	24.1	2.1
Total	24.1	305.2

23 Operating expenses

(in millions of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Other operating expenses	(248,9)	(195,4)	(21,9)
Other sales and marketing expenses	(80,1)	(64,4)	(11,6)
General and administrative expenses	(58,2)	(51,3)	(31,7)
Total Operating expenses	(387,2)	(311,1)	(65,2)

The increase in operating expenses at Combined Group level between FY10 and FY11 is mainly explained by the various acquisitions made by the Combined Group in FY11. The acquisition of Coditel Brabant and Coditel S.à r.l. and the change in consolidation method for HOT led to a EUR 114,5 million increase in Technical and Maintenance costs.

24 Other incomes and expenses

(in millions of euros)	December 31, 2012	December 31, 2011	December 31, 2010
Other incomes and expenses	(24,9)	(5,3)	(8,3)
Disposal of tangible assets - selling price and book value of disposal/tangible assets	(4,8)	(0,3)	0,8
Other expenses, net	**(29,8)**	**(5,6)**	**(7,4)**

Total	**(50,6)**	**121,6**	**(10,3)**

(1) *In the prior year, the gain from achieving control is linked to acquisition of Hot Telecom: the amount of the investment in HOT Telecom prior to achieving control, in accordance with the equity method of accounting has been revalued in accordance with the HOT's share price as of the said time, such that in the Altice VII financial statements as of December 31, 2011 income has been recorded on the revaluation of the investment in the affiliate, which became a consolidated company; as a result, HOT's assets and liabilities previously accounted for in accordance with equity method of accounting have been revalued for EUR 133,0 million.*

(2) *The increase in expenses from prior periods is mainly explained by fines and penalties paid by HOT relating to the early breakage of mortgage contracts and disputes with other suppliers. The total charge registered was of EUR 22.8 million, offset by a reversal in the provision for these charges for EUR 7.7 million, thus resulting in a net expense of EUR 14.9 million.*

(3) *Restructuring costs refer to the non-recurring costs incurred by Cabovisao in the year ended December 31, 2012, arising from the restructuring carried out at this company level, post-acquisition by the Group. The costs engaged are made up entirely of personnel costs and are associated with dismissal indemnities paid to employees.*

26 Transaction with related parties

26.1 Trading and financial transaction

Transactions with related parties mainly related to the companies Adevintel, Titan consulting and DOK, all consulting firms specialized in the management and operations of telecom companies. The fees paid to these companies include recurring fees paid based on service level agreements established with Altice VII, one-off success fees for the successful completion of acquisitions or negotiations with banks on debt contracts/bond issuance and reimbursement of any outlays and expenditures incurred by the employees of these companies when working on behalf of Altice VII.

Compensation of key management personnel

The compensation given to the managers, in respect of their duties as Chairman of the Executive Board or member of the Executive Board of Altice VII, for the financial year 2012, was EUR 1,7 million compared to EUR 0,9 million for the financial year 2011.

28 Contractual obligations and commercial commitments

28.1 Hot Telecom Commitments

28.1.1 Commitments

- Royalties to the Ministry of Communications and other payments to the government

- a) HOT is committed to pay annual royalties out of its overall income that are chargeable with royalties (hereinafter – the chargeable income) in accordance with the Telecommunications Regulations (Concessions) - 1987. In accordance with the Telecommunications Regulations (Telecommunications and Broadcasting) (Royalties) - 2001, HOT Telecom is required to pay annual royalties in respect of its income from in country operator services and HOT Mobile is required to pay annual royalties in respect of its radio telephone services (less payments to another license holder in respect of reciprocal connection or roaming services). The royalty rates that HOT, HOT Telecom and HOT Mobile have each been charged to pay in respect of their chargeable income, as aforesaid, stood at 2,5% in 2007, 2% in 2008, 1,5% in 2009 and 1% in 2010. In accordance with a Temporary Order, the annual royalty rate for the years 2011 and 2012 stood at 1,75%.

- In accordance with the Amendment to the Telecommunications Regulations (Concessions) and the Amendment to the Telecommunications Regulations (Telecommunications and Broadcasting) (Royalties) (Temporary Order) - 2012, as from 2013 the royalty rate that is paid by HOT, HOT Telecom and HOT Mobile on its chargeable income, as aforesaid, stands at 0%.

- b) In July 2001 the cables companies, including HOT, entered into a commitment under an agreement with the State of Israel on the subject of a solution to the disputes between the cable companies and the State in respect of the right of each company to operate the existing cables infrastructure in each of the concession areas after the end of the period of the concessions. It was stipulated in the agreement that the State undertakes to waive all of its claims and its rights in respect of the cables infrastructure such that each cables company would be the owner of all of the rights, including property rights, in the cables infrastructure that it held in the area of its concession and that it would have available to it the right to continue to operate it even at the end of the concession period. In consideration for this, it was stipulated that each company was to pay to the State, on an annual basis and for a period of 12 years (commencing on January 1, 2003), its relative share, as determined in the agreement, of an amount that is equivalent to the multiple of certain incomes (as determined in the agreement) of each of the cable companies on a graduated scale (in accordance with the level of income, as aforesaid) at a rate of from 0% to 4%. The relative share of each company can be altered by agreement between the cables companies.

- In addition, it was stipulated that each company is to pay approximately 12% of the overall consideration from the sale of operations that are executed through the cables infrastructure or which touch upon the cables infrastructure (as defined in the agreement) for a period of 12 years. It was also stipulated in the agreement that in so far as HOT has received any amount whatsoever in consideration for the issuance of its shares to the public or to an external investor or in consideration for the sale of shares of another company from among the cables companies, part of the consideration from the issue or the sale, as aforesaid, is to serve as an advance payment for the payment of the relevant portion of the consideration that remains to be paid under the agreement, in accordance with a formula that will be determined by the parties by agreement. It is further stipulated in the agreement that it shall apply to the cables companies or to any company that is split or merged even if structural changes are made of any sort whatsoever, and accordingly, with the completion of the merger, the agreement applies to HOT as a merged company.

- c) In accordance with the Wireless Telegraph Regulations (Licensing, Certification and Levies) -1978, HOT Mobile is required to pay a fixed annual payment for each frequency that it uses. HOT Mobile paid amounts of NIS 26 million and NIS 20 million in respect of the years 2012 and 2011 respectively (an amount of NIS 2 million in respect of December 2011).

- d) The license to operate a broadcasting center: It is stipulated in the broadcasting center operating license that the license holder is to pay a fee for the license at such rates and at such times as may be determined by the Ministry of Communications in accordance with the Communications Law and the Wireless Telegraph Ordinance (New Version) -1972.

- Other royalties.

- a) Within the framework of the Group's routine operations in the broadcasting field, the Group enters into commitments under arrangements and agreements under which the Group pays royalties to various authors' organizations. The amounts of the royalties that have been reflected by the Group within this context in the years 2012, 2011 and 2010 amounted to NIS 42 million, NIS 43 million and NIS 47 million respectively.

- b) On January 30, 2012 a draft of the Authors and Performers Law (Judgment on Royalties Issues) 2012 was placed before the Knesset. The draft law was intended to create a royalties court by empowering one of the District Court Judges to hear cases on royalties issues, royalty rates and disputes in royalty issues (in other words, a dispute on the issue of royalty rates between a collective management entity and a user or users of a repertoire).

- This draft, if it is accepted, may have an implication for the issue of the payment of royalties to various organizations. As of the date of this report, HOT is unable to assess what the impact of the said legislation will be on its business results, of it is passed.

- A commitment to invest in original productions

- In accordance with the provisions of the Communications Law, the principles of communications and decisions by the Council, HOT is required, inter alia, to invest amounts in original productions at a rate of 8% of its annual income from subscription fees. During the course of the years 2010, 2011 and 2012 HOT complied with the investment rate that is required, as aforesaid.

- It should be noted in this connection that the Communications Law has empowered the Council to determine the rate of investment that is required, provided that it may not exceed 12% and may not fall below 8% of the annual income from subscriber fees. In October 2011 the Council informed HOT that with effect from the year 2012 its income from subscriber fees, which form the basis for the calculation for the requirement to invest in original productions, will be deemed to include all of the payments that are paid by its subscribers in order to record broadcasts and to receive services, including income from users' terminal equipment and the installation thereof, whereas in accordance with the policy adopted by the Council up to such time the inclusion of income from terminal equipment for the purpose of this calculation was made conditional upon a mechanism that was based on the profitability of this income, and in past years the income from users' terminal equipment and the installation thereof was not included in the basis for the calculation for original productions. On January 12, 2012, the Council determined that HOT will be entitled to complete the amount of the additional investment for the year 2012 over three investment years.

- Agreement to deploy and maintain a cables network

- On January 1, 1990 and on May 1, 1989 Tevel International Transmission for Israel Ltd. and HOT Gold & Co. (hereinafter together - The cable companies) entered into commitments under agreements for the provision of planning, installation and maintenance services of the cables network with Bezeq (the provisions of both of the two said agreements are similar, and they will hereinafter in this section be called - the agreement). This agreement was endorsed to HOT Telecom as part of the merger agreement.

- In accordance with the agreement, Bezeq, Tevel and HOT Gold planned the cables network, inter alia, based on Bezeq's available infrastructure, which was deployed in the areas of the concession at the time of the signing of the agreement. Tevel and HOT Gold supplied Bezeq with the base equipment (as defined in the agreement) that comprises the cables network whereas Bezeq supplied the additional equipment (as defined in the agreement) that is used for setting up the cables network.

- In accordance with the agreement, a cables network was set up and deployed in a number of major cities across Israel, and Bezeq conducts the routine maintenance of the cables network and also provides malfunction repair services. The provisions of the agreement also relate, inter alia, to the possibility of the expansion of the cables network to additional facilities, the connection of new houses and of new neighborhoods.

- The agreement will remain in force for the length of the period of the concession, and will continue to be in force if the concession or the rights in the concession are transferred or afforded to another, in whole or in part and directly or indirectly, during the course of the original concession period and during the extension of that period or after the end of it. Bezeq is only entitled to cancel the agreement in respect of a breach for which notice has been given in writing, and which has not been repaired within six months.

- A consideration mechanism was set in the agreement, according to which HOT Telecom pays sums against the performance of Bezeq's commitments to setup, to maintain and to provide malfunction repair services, which are calculated in accordance with the length of the cables networks that have been deployed, in accordance with the various types of networks and it also makes non-recurring payments in respect of certain activities. In accordance with the agreement, the amount of the consideration in respect of the length of the cable, as aforesaid, is reduced by approximately 65% after 12 years from the time of the handing over of each section.

- The total of the expenses recorded in HOT's accounting records for the network services payable to Bezeq in the years 2012, 2011 and 2010 amounted to NIS 48 million, NIS 46 million and NIS 43 million, respectively.

- It should be noted that from time to time, during the routine course of business, disputes arise in connection with the implementation of the agreement, inter alia in respect of the division of the costs that are involved in the performance of some of the services that are supplied by the Bezeq company under the agreement, however the parties are continuing to operate in accordance with the agreement. It is further noted that over the course of the years additions have been signed to the agreement, primarily In connection with enhancement and upgrading work on the cables network.

- Commitments to lease assets

- The Group has commitments under agreements for the leasing of buildings and motor vehicles for various periods up to the end of the year 2020. The minimum future rental fees in respect of the rental contracts as of December 31, 2012, exclusive of the option period, are as follows:

	NIS in millions	**EUR in millions**
2013	186	37,7
2014	148	30,0
2015	120	24,3
2016	86	17,4
2017 and thereafter	304	61,7
TOTAL	844	171,1

- On July 19, 2011 HOT's Board of Directors approved a commitment under agreements for the execution of the upgrading of the fiber optic infrastructure (FTTX). In accordance with the said commitment, HOT Telecom will purchase advanced optic equipment, work and services from third parties, in order to upgrade the infrastructures, including maintenance services, in accordance with the deployment and the timetables that will be agreed upon between the parties from time to time. The upgrading of the infrastructure, as aforesaid, will enable the expansion of the traffic capacity on the network, in favor of the supply of enhanced VOD services, the increasing of the number of channels that the Group can offer to its subscribers, faster internet services and it will also enable HOT to deal with increased demand for traffic capacity on the network in the future, which is expected to arrive as a result of the increased use of applications that require a considerable band width.

- On May 27, 2010 a facility agreement was signed between HOT Mobile and Motorola for the purchase, licensing and installation of the infrastructure equipment (hardware and software) which is required in order to operate HOT Mobile's iDEN network. The agreement is in force for a period of five years from the time that it was signed (hereinafter -the initial period) and it will be renewed for additional periods of one year each (or for a longer period that is agreed between the parties), unless a party to the agreement gives notice to the other party, 90 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment. The agreement arranged the commitment between the parties for the purpose of the execution of the work orders that will be presented to Motorola, from time to time, by HOT Mobile for the purpose of the supply of equipment or software for the iDEN network.

- Within the framework of the agreement, Motorola has undertaken that during the initial period it will hold an inventory of equipment that will enable it to immediately supply the components that are required for the proper functioning of HOT Mobile's iDEN network, and so that it will be capable of supplying HOT Mobile with the maintenance services for the infrastructure equipment and the software that is required to operate the network for a period of seven years from the signing of the agreement, subject to the purchase of the said maintenance services by HOT Mobile.

- In consideration for Motorola's commitment to sell the equipment and the licenses to HOT Mobile at the prices that are denoted in the agreement, HOT Mobile has made a commitment to purchase the infrastructure equipment and the software that is required to operate the iDEN network exclusively from Motorola alone during the period of the agreement.

- As part of the commitment with Motorola in respect of the infrastructure for the iDEN network, HOT Mobile has signed on a system maintenance agreement with Motorola as well as on an agreement for the maintenance of the system's hardware, which arrange the manner of the repair of malfunctions and the provision of support by Motorola for HOT Mobile's iDEN network.

- In December 2011 the system maintenance agreement was extended for an additional period of three years, until the end of 2014.

- On May 26, 2010, as part of the sale of the control in HOT Mobile to Altice, HOT Mobile entered into a commitment under an agreement with Mobility for the purchase of terminal equipment that supports the iDEN technology.

- The agreement is in force for a period of 5 years and it will be renewed for additional periods of one year each time unless a party to the agreement gives notice to the other party, 60 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment.

- The agreement arranged a mechanism for the ordering and supply of the terminal equipment (including quarterly forecasts by HOT Mobile) with HOT Mobile being responsible for the importing of the terminal equipment from abroad.

- The supplier has received an option and the right of first refusal for the repurchase from HOT Mobile of all of the terminal equipment that it may be holding at the time of the termination of the agreement, in accordance with a mechanism that was set in the agreement.

- Within the framework of the preparations for the setting up of the new network, HOT Mobile entered into commitments under agreements with various suppliers for the purchase of terminal equipment that it will use on the UMTS network.

- On June 16, 2011 HOT Mobile entered into a commitment with Nokia Siemens Networks Israel Ltd. (hereinafter - the supplier) for the setting up of the infrastructure for HOT Mobile's new network.

- In accordance with the terms of the agreement, the supplier will plan and set up the new network for HOT Mobile as a turnkey contractor. In the first stage, which was completed in May 2012, the supplier completed the setting up of the systems that are required for the purpose of operating the new system with a coverage of approximately 30%, which is in excess of the extent of the coverage which is HOT Mobile required to provide (20%) in accordance with the terms of the tender within two years from the time of the receipt of the new radio telephone license. After the completion of the first stage, HOT Mobile has expanded and is expanding the new network, both from the perspective of the coverage and also from the perspective of the LTE capability.

- The agreement arranges the work arrangements between the supplier and HOT Mobile, the manner of the handing over of the system to HOT Mobile and the manner of the maintenance of the system by the supplier.

- The agreement is in force for 15 years, and it contains warranties for the proper functioning of the components of the system for a period of two years from the time of the handing over of each component in accordance with the agreement, as well as warranties for the entire period of the agreement that the system will operate in accordance with the system requirements that HOT Mobile placed (in terms of availability, functioning and capacity), subject to their being a maintenance agreement in force between the parties.

- In consideration for the completion of the first, second and third stages in accordance with the agreement and the performance of all of the supplier's commitments by the year 2013, the Group will pay the supplier an amount of USD 52 million, which amount does not include the expansion of the coverage and the capacity over and beyond what is stipulated in the agreement. The overall consideration in the agreement for all of the services up to the year 2017 is approximately USD 120 million, according to HOT Mobile's assessment.

  On January 31, 2013, an addition to the agreement was signed, within the framework of which the payments that were supposed to be paid under the agreement have been deferred to a later date, subject to HOT Mobile's signing on debt notes, with HOT acting as guarantor. Within this framework, HOT Mobile has signed on confirmation for the final receipt of significant portions of the said project.

- On October 27, 2011 an agreement was signed between HOT Mobile and Comverse Ltd. (hereinafter - Comverse), in accordance with which Comverse will supply HOT with a BSS system (a billing system that is integrated with the customer relations management (CRM) system) (hereinafter - The system) and Comverse will also supply HOT with hardware, software and services, including the operation and maintenance of the system. In consideration for Comverse's services, HOT Mobile will pay an amount of approximately USD 12.5 million. In January 2012, the parties signed on an addition to this agreement, in accordance with which Comverse is committed to allocating seven additional employees to be available for the project (instead of the manpower that HOT had to make available for the project), for a payment of USD 500 000.

- On October 6, 2005, HOT Mobile won a tender for the provision of Mobile services to the IDF. Following Cellcom's winning of a tender, which was published by the Ministry of Defense in 2012 for the selection of a new mobile operator for the IDF, in the third quarter of 2012, a gradual transfer of IDF customers to Cellcom's network began. HOT Mobile's revenues from the IDF in the years 2010, 2011 and 2012 amounted to NIS 139,3 million, NIS 112.4 million and NIS 83,7 million, respectively, which constituted approximately 13,5%, 12,5% and 9,8% of HOT Mobile revenues in the said periods, respectively. Of the said revenues, an amount of NIS 10 million a year was in respect of the PTT services, which are supplied to the IDF without reference to the tender.
  On May 30, 2012, HOT Mobile International Communications Ltd (hereinafter - HOT International), a wholly owned subsidiary of HOT Mobile's, received an operator's license for the provision of international telecommunications services (hereinafter - The international license). On January 6, 2013 HOT International received operational approval for starting to provide international telecommunications services in accordance with the international license and on January 8, 2013, notification of the opening of the services was sent to all of the operators.

- Marketing and distribution (for iDEN technology products and services)

- In 2012 HOT Mobile operated through marketing and distribution channels, which included: sales personnel, who were employed by HOT Mobile, inter alia, through services and sales centers, which HOT Mobile operates across the country, a national distribution channel that works "door to door" using an external contractor and authorized marketing agents. In 2012 and as of the date of this report, HOT Mobile distributes its products via sales staff who are employed by it, the Israel Post company in some 200 branches and some 150 branches of the Menta chain in the Delek Group's filling stations. In the ultra-orthodox sector, HOT Mobile operates through an external marketer who markets HOT Mobile's products and services in that sector.

- In addition, HOT Mobile is acting to recruit private subscribers through its business/institutional customers, by way of offering attractive packages and paths to the family members of the business/institutional customers.

- Commitment with an external marketer

- As aforesaid, in 2012, one of the distribution channels for the Group's products and services in the iDEN field of operations was through an external contractor, S.D.M. Sales and Direct Marketing Ltd. (hereinafter - SDM), which provided HOT Mobile with marketing services for the iDEN products, though the operation of sales staff in order to market the iDEN products in the private and business markets, by operating a nationwide set-up, using a specialist marketing method involving initiated personal approaches whilst going door to door.

- The consideration that SDM is entitled to is based on a fixed monthly consideration and commissions which are derived from SDM's results in respect of the sales of the iDEN products.

- The original commitment was up to December 31, 2013. However, on December 6, 2012 a compromise arrangement was signed between HOT Mobile and SDM, in accordance with which HOT Mobile will pay SDM an amount of NIS 8 million and the commitment between the parties will be terminated, with each party waiving its claims against the other party.

- Marketing and distribution (for UMTS technology products and services)

- The marketing and distribution of UMTS products is performed by means of HOT Mobile's and HOT's marketing and distribution channels and through third parties, within the restriction places in the radio telephone license.

- Capitalized leasing rights on land from the Israel Lands Authority

- Capitalized leasing rights on land from the Israel Lands Authority over an area of 20 713 square meters on which the Group's buildings are located. The amount that is attributed to the capitalized rights is presented as a prepaid expenses in respect of operating leases in the balance sheet and is amortized over the period of the leases. The lease periods end in the years 2021-2045.

28.1.2 Guarantees and liens

- As collateral for HOT's commitments vis-à-vis the parent company under the credit agreement with it, the following charges have been placed

- A floating charge on HOT's assets.

- A fixed charge on the shares in the subsidiary companies.

- HOT Telecom has given a charge on some of its assets.

- The said charges are in an unlimited amount, vis-à-vis HOT, the investee partnership - HOT Telecom and the subsidiary company - HOT Net, jointly and severally.

- As collateral for the commitments of HOT, the investee partnership HOT Telecom and the subsidiary company HOT Net, first ranking floating charges have been placed in unlimited amounts in favor of the borrowers, on all of the chargeable assets and the rights of companies in the Group and a fixed charge on the goodwill and the unpaid share capital of the Companies in the Group

- As collateral for HOT's commitments in respect of the royalties agreement, as set forth in section B(1) above, a second ranking floating charge has been placed in favor of the State.

- As collateral for the Group's commitments, as determined in the Group's licenses and in the decisions by the Director and the Council, the Group has issued a number of guarantees, as follows:

- Bank guarantees to the Ministry of Communications, in respect of the national operator license that was granted to HOT Telecom amounting to 8,4 million Dollars, in force until December 2017 and December 2025.

- Guarantees in an amount of NIS 34 million (index-linked) to the Council in respect of the broadcasting license, which are in force until April and June 2014.

- A bank guarantee in an amount of 2 million Dollars to the Director in respect of HOT's compliance with the terms of the merger as determined by the Director, which is in force until December 2014.

- A bank guarantee in an amount of NIS 695 million, which was made available by HOT Mobile within the framework of its win in a tender for the allocation of frequencies and as collateral for its commitment in favor of the Ministry of Communications, which is in force until December 31, 2018.

- In accordance with the wording of the guarantee that was written by the Ministry of Communications, there is no restriction in the guarantee on the endorsement, assignment or transfer of the guarantee to a third party. Furthermore, HOT Mobile has a duty to bear any expense that is involved in the exercise or the extension of the guarantee.

- In the light of the aforesaid terms, HOT Mobile has signed on a letter of undertaking and endorsement vis-à-vis a bank, according to which HOT waives and is prevented from raising any claim against the bank in connection with the wording of the said guarantee, and it will indemnify and compensate the bank in respect of any expenses incurred for the purpose of conducting administrative and legal proceedings in connection with the said issues.

- On November 28, 2011, HOT Mobile and the former parent company signed on an irrevocable letter of commitment vis-à-vis Bank Hapoalim Ltd. (hereinafter the bank). The letter of undertaking was signed as a condition for the making available of a bank guarantee in an amount of NIS 695 million, as collateral for HOT's commitments vis-à-vis the Ministry of Communications within the context of HOT's win in a frequencies tender for the setting up of a third generation mobile network (UMTS).

- The Group has given a number of bank guarantees to various bodies in an overall amount of NIS 59 million.

- Guarantees to HOT Telecom

- The Group has given guarantees in a cumulative amount of 23 million Dollars as collateral for payments by HOT Telecom to the Cisco company.

- The Group has given a guarantee in an amount of NIS 242 million (index-linked) as collateral for HOT Telecom's commitments vis-à-vis an interested party with which it has signed a rental agreement.

- There exist mutual guarantees between HOT and companies in the Group, in unrestricted amounts, in favor of financial institutions as collateral for the repayment of the Group's liabilities to those financial institutions.

28.1.3 Other contingent liabilities

During the routine course of business, lawsuits have been filed against the companies in the Group and various legal proceedings are outstanding against it (hereinafter, "The Legal Claims").

In the opinion of the management of the Company and each of its subsidiaries, as at signature date, the amount of the additional exposure, in an amount of approximately NIS 3 billion (EUR 628,5 million) (over and above the provisions that have been recorded in these financial statements), as a result of the legal proceedings that have been filed against the Company's Subsidiaries on various matters, is as follows:

a. An amount of approximately NIS 1.7 billion (EUR 356,1 million) in respect of claims, in respect of which in the assessment of the Company's management, in reliance on the opinion of its legal advisors, the chances of their being accepted do not exceed 50%.

b. An amount of approximately NIS 0,1 billion (EUR 20,9 million) in respect of claims, which it is not yet possible, at this stage, to make an assessment, the main ones being in connection with applications for the approval of class actions that were presented close to the date of the financial statements

c. An amount of approximately NIS 1,42 billion (EUR 297,5 million) in respect of claims which, in the assessment of the Company's management, in reliance upon the opinions of its legal advisors, their chances of being accepted exceed 50% and in respect of which a provision has been recorded in accordance with the assessments of the managements of the Company's Subsidiaries, as aforesaid.

The following is an abbreviated summary of the Group's contingent liabilities effective as of signature date, in accordance with groupings having similar characteristics:

The nature of the lawsuit (EUR in millions)	The amount of the additional exposure in excess of the provision recorded as of signature date	The amount of the lawsuits that cannot be assessed and which were presented close to the date of the financial statements (primarily applications for approval as class actions)
Customers	574	21
Lawsuits after the balance sheet date in respect of customers	33	33
Suppliers	13	5
Employees	1	-
The merger transaction	50	-
Total	671	59

28.2 Cabovisao commitments

28.2.1 Contingent assets

During the year ended December 31, 2012, Cabovisao made the decision not to pay any fees charged by municipalities, in addition to TMDP (Fees due for rights and charges related to the deployment of, passage within or crossing of systems, equipment and other resources of providers of publicly available electronic communications networks and services at a fixed location, of a public or private municipal domain). On December 31, 2012, Cabovisao had outstanding claims against several municipalities, totaling EUR 3,6 million. To present date, Cabovisao received 102 004 Euros from seven municipalities.

28.2.2 Contingent liabilities

28.2.2.1 Bank guarantees

In millions of euros	December 31, 2012
Tax Authority	8,4
City Council	0,9
Third Parties	0,0
Total	**9,3**

28.2.2.2 Real guarantees

On December 31, 2012, Cabovisao issued a bond amounting to EUR 25 million which was fully underwritten by Goldman Sachs International together with a financial first degree collateral of all bank accounts held by Cabovisao (except the bank deposit account in HSBC France and a current account with Caixa Geral de Depositos, S.A.) and pledge the shares representing Cabovisao's share capital and equity holders' rights.

28.2.2.3 Other contingent liabilities

As a result of the refusal by Cabovisao to pay the municipal taxes referred to above (since September 2010), the municipality of Almada initiated a process executive for payment of fees from 2006 to 2009, amounting to approximately EUR 0,7 million. It is the understanding of the Board of Directors, based on the opinion of its legal counsel, that the likelihood of loss is very low in the process.

28.2.2.4 Contingent assets

Cabovisao has outstanding claims against various municipalities for municipal taxes that it deems were charged illegally. The amount of such outstanding claims was EUR 3.6 million for the year ended December 31, 2012, of which EUR 0,1 million have been received from seven municipalities, while recovery is on-going with others.

28.3 Coditel Holding commitments

As of December 31, 2012, off balance sheet commitments include:

The shares, bank accounts and receivables of Coditel Brabant S.p.r.l. and Coditel S.à r.l. have been pledged. Coditel Holding is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

28.4 Others

The shares, bank accounts and receivables of Altice VII and its following subsidiaries Altice Finco S.A., Altice Financing S.A., Cool Holdings Ltd S.A., H.Hadaros 2012 Ltd., Hot Telecommunications System Ltd, Cabovisao S.A., Altice Blue Two S.A.S. and its subsidaries, Coditel Holding S.A. and its subsidiaries have been pledged for the issued Senior Secured Notes and Senior Notes. The Company is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

29 Going concern

The Combined Group was formed by a series of acquisitions, mainly funded through external borrowings. In addition, the construction and subsequent modernization of the network have required substantial investments. These two factors explain the structure of the statement of financial position and the proportion of financial liabilities in relation to total equity as well as the significant amount of amortization expense and net finance cost.

Currently, the Combined Group services its debt and funds its investments through net operating cash flows. The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short DSOs (Days of Sales Outstanding) and suppliers are paid in the beginning of the following month, thus generating a negative working capital, as evidenced by the difference in the level of receivables and payables.

Under these conditions and given the cash flow projections, Management believes that the Combined Group will be able to finance its cash requirements for the next twelve months from the date of approval of the Combined Financial Statements for the three years ended December 31, 2012 and meet its financial debt obligations during the period.

As a result, the Combined Financial Statements of the Combined Group for the three years ended December 31, 2012 have been prepared on a going concern basis.

30 Events after the reporting period

On May 31, 2013, Altice Holdings entered into a sale and purchase agreement to acquire Winreason (the "ONI Purchase Agreement"), the owner of the Portuguese telecommunications group, ONI, pursuant to which Cabovisao purchased all of the outstanding shares of ONI and refinanced the outstanding indebtedness of ONI (the "ONI Transaction"). The deal was consummated on August 8, 2013.

On June 7, 2013, Altice VII and certain of its subsidiaries entered into a sale and purchase agreement (the "Outremer Purchase Agreement") with the owners of OMT Investand certain of its affiliates pursuant to which (i) the Combined Group had agreed to purchase all of the outstanding share capital of OMT Invest other than shares to be contributed separately pursuant to the Outremer Investment Agreement on completion of the Outremer Transaction and (ii) all of the outstanding indebtedness of OMT Invest and its subsidiaries were to be refinanced using a portion of the proceeds of the June 24, 2013 bond issuance (see below). The parties to the Outremer Purchase Agreement entered into an investment agreement (the "Outremer Investment Agreement") pursuant to which (i) the Combined Group contributed all of the outstanding share capital of Le Cable Martinique and Le Cable Guadeloupe and (ii) managers of OMT Invest contributed all of the outstanding shares of OMT Invest not sold to the Combined Group under the Outremer Purchase Agreement. The transaction was completed on the July 5, 2013.

On June 14, 2013, Altice Finco issued EUR 250 million aggregate principal amount of its 9% senior notes due 2023 (the "2013 Senior Notes").

On June 24, 2013, Altice Financing entered into a senior secured term loan credit facility (as amended from time to time, the "2013 Term Loan Facility") which provides for U.S. dollar term loans (the "2013 Term Loans") up to an aggregate principal amount equivalent to USD 1 034 million. Altice Financing may draw under the 2013 Term Loan, in up to four tranches, at any time on or prior to November 30, 2013, as long as, among other things, the incurrence of the indebtedness would have been permitted by the covenants in the existing Altice Financing debt documents. On July 2, 2013 and July 5, 2013, Altice Financing borrowed USD 584,2 million and U.S. dollar-equivalent USD 81,9 million under the 2013 Term Loan (the "First Draw"). The proceeds, together with the proceeds of the 2013 Senior Notes and cash on the balance sheet of the Combined Group were applied to complete the Cabovisao Refinancing, the Coditel Refinancing, the Le Cable Refinancing and the ABO Refinancing on July 2, 2013 (described below), and the Outremer Transaction on July 5, 2013.

On March 7, 2013, Altice VII purchased the 40% remaining shares held by Codilink S.à r.l in Altice Portugal S.A..

Cabovisao Refinancing

On July 2, 2013, Altice Financing repaid the outstanding indebtedness under the existing Cabovisao Bridge Facility of EUR 203 million (the "Cabovisao Refinancing").

Coditel Refinancing

In July 2, 2013, Coditel Holding prepaid approximately EUR 7 million of its EUR 138 million indebtedness outstanding under the existing Coditel Senior Facility and Altice Holdings purchased substantially all of the remaining interests of the existing lenders under the existing Coditel Senior Facility.

ABO Refinancing

On July 2, 3013 ABO refinanced approximately EUR 70 million of its existing indebtedness to third parties (the "ABO Refinancing").

WSG and MTVC Refinancing

WSG and MTVC are indirect subsidiaries of the Combined Group. On July 2, 2013, Altice Pool refinanced approximately (x) EUR 8 million of indebtedness of MTVC and (y) EUR 14 million of indebtedness of WSG (collectively, the "Le Cable Refinancing").

Reduction of Guarantees to the State of Israel

HOT Mobile has informed the Ministry of Communications that as of September 26, 2013, it had reached an average market share in the private sector of 11.3%, constituting an addition of 9.52% on HOT Mobile's market share at the time of the expansion of the general license for the provision of mobile radio telephone services under the cellular method (hereinafter - the license), on September 26, 2011.

In the light of HOT Mobile achieving the market share that is required as of the time of the first check, HOT Mobile has requested the Ministry to reduce the amount of the guarantee that was deposited by HOT Mobile, from an amount of NIS 695.0 (€144.6 million) million to an amount of NIS 80 (€16.6 million) million. This was in addition to an amount of NIS 10.0 (€2.0 million) million that it paid upon the receipt of the license.

As of November 21, 2013, the response of the Ministry of Communications has been received and they approved the reduction of Hot Mobile guarantee from NIS 695 Million to NIS 80 Million.

Acquisition of Ma Chaîne Sport and Sportv

On October 4, 2013, Altice IV and Altice VII entered into sale and purchase agreements relating (i) to the sale on the same day by Altice IV and Valemi Corp of their respective shareholding (of approximately 65% and 35%, respectively) in Sportv S.A. (a producer of sport related content) to Ma Chaîne Sport S.A.S (a producer of sports related content) and (ii) to the sale on the same day by Altice IV and Valemi Corp of all or part of their respective shareholdings (of approximately 68% and 32%, respectively) in Ma Chaîne Sport S.A.S to Altice VII. In addition, on October 10, 2013, the general shareholders' meeting of Ma Chaîne Sport S.A.S decided on a capital decrease of €5.0 million by way of a share buy-back of the remaining shares in Ma Chaîne Sport S.A.S held by Valemi Corp which was not sold under the sale and purchase agreement. This capital decrease has been completed on November 8, 2013. As a result of this transaction, Altice VII now holds all of the outstanding equity interests in Ma Chaîne Sport S.A.S which in turn holds 100% of Sportv S.A.. In 2012, Ma Chaîne Sport S.A.S. and Sportv S.A. generated EBITDA of €9.0 million and €0.8 million respectively and had an EBITDA margin of 56.7% and 62.5% respectively.

As this is a common control transaction, the requirements of IFRS 3 in relation to acquisition accounting shall not be applicable and it is expect that the Combined Group shall elect to utilise the pooling-of-interest method to record this acquisition.

Acquisition of the Mobius Group

On October 19, 2013, Altice Blue Two (a subsidiary of Altice VII) entered into an agreement pursuant to which Altice Blue Two will acquire the Mobius Group (the "Mobius Acquisition"). The Mobius Group is a telecommunications operator in the Overseas Territory of La Reunion, providing Internet access to professional clients under the "Mobius Technology" brand and double and triple play services based on xDSL technology to residential customers under the "IZI" brand. The consummation of the Mobius Acquisition is expected to occur in the first quarter of 2014 and is subject to the satisfaction of customary closing conditions, including regulatory approval. Pursuant to an investment agreement dated October 19, 2013, certain managers of the Mobius Group have agreed to reinvest a portion of the proceeds received from the Mobius Acquisition in Altice Blue Two. As a consequence of such reinvestment, the equity interest held by Altice Caribbean in Altice Blue Two will be reduced to approximately 75%.

The consideration paid, net of reinvestment of the Managers of Mobius, amounts approximately €21.0 million.

Network Sharing Agreement

On November 8, 2013, HOT Mobile entered into a network sharing agreement (the "Network Sharing Agreement") with Partner Communications Company Ltd. Pursuant to the terms of the Network Sharing Agreement, HOT Mobile and Partner will each own 50% of a newly formed limited partnership, which shall hold, develop and operate an advanced shared mobile network for both companies. Network Sharing Agreement enables HOT Mobile and Partner to share antennas and frequencies, and facilitates optimum utilization of the spectrum. In addition, while HOT Mobile and Partner will continue to maintain and operate separate core networks, Partner has agreed to grant HOT Mobile a right of use in its cellular communication network for the purpose of providing nation-wide cellular coverage to HOT Mobile's customers.

Also, as part of the engagement the Combined Group will grant a guarantee on behalf of Hot Mobile Ltd. In addition, in several cases as determined in the agreements the Combined Group will be required to grant an additional guarantee for example in case of a change in the finance ranking of the Combined Group. The Network Sharing Agreement is subject to regulatory approvals of the Ministry of communication and the restrictive trade practices controller, which as of the balance sheet date were not achieved.

As a result of this new agreement, the existing agreement with the existing service provider, Pelephone, will be phased out until the contractual end of the agreement in 2014.

Tricom Dominican Republic Acquisitions

On November 26, 2013, Altice Bahamas (a wholly owned indirect subsidiary of Altice VII) and Wirefree Services Denmark A/S (a company controlled by Orange S.A.), entered into a share purchase agreement (the "ODO Acquisition Agreement") pursuant to which Altice Bahamas has agreed to acquire from Wirefree Services Denmark A/S and certain of its affiliates (collectively, the "ODO Sellers"), and the ODO Sellers have agreed to sell to Altice Bahamas, on completion of the ODO Acquisition, all of the outstanding share capital of ODO. The total consideration for the ODO Acquisition is $1,435 million less certain agreed adjustments and subject to final working capital and cash balances on the Orange Dominicana Acquisition Completion Date. The consummation of the ODO Acquisition is subject to certain conditions, including relevant authorizations or clearances from the Dominican Republic regulatory authority Indotel and is expected to occur in the first quarter of 2014.

On October 31, 2013, Altice Caribbean (a wholly owned indirect subsidiary of Altice VII) and Hispaniola Telecom Holdings, Ltd. (the "Tricom Sellers"), a company controlled by Amzak Capital Management and Inversiones Bahía, entered into agreements (the "Tricom Purchase Agreements") pursuant to which Altice Caribbean or one of its subsidiaries (the "Tricom Purchaser") is expected to purchase all of the outstanding equity interests in each of Tricom S.A. and Global Interlinks Ltd. (together, "Tricom") from the Tricom Sellers (the "Tricom Acquisition"). The aggregate purchase price payable by Altice Caribbean for the Tricom Acquisition is $405 million. The consummation of the Tricom Acquisition pursuant to the Tricom Purchase Agreements is expected to occur in the first quarter of 2014 and is subject to the satisfaction of customary closing conditions, including the approval of the Dominican Republic regulatory authority Indotel.

The purchase price for the ODO Acquisition and the Tricom Acquisition is expected to be financed from (i) the proceeds received pursuant to the issuance of the 2013 Senior Secured Notes and the 2013 Dollar Senior Notes which are currently being held in escrow and (ii) a portion of the proceeds from the Offering if regulatory approval for the pending acquisitions is received after the Admission, or, to the extent regulatory approval for the pending acquisitions is granted prior to the Admission, an equity contribution to the Altice VII restricted group by a subsidiary of the Company which has obtained committed third party financing to fund such equity contribution. To the extent such regulatory approval for the pending acquisitions is granted prior to the Admission and third party financing is used to complete such acquisitions, a portion of the proceeds from the Offering will be used by the Company to repay such third party financing.

Issuance of New Senior Notes and New Senior Secured Notes

Altice VII announced on December 2, 2013 that (i) its subsidiary Altice Finco S.A. would launch an offering of $400 million in aggregate principal amount of senior notes (the "Senior Notes") and (ii) its subsidiary Altice Financing S.A. would launch an offering of $1,309 million equivalent in aggregate principal amount of dollar and euro senior secured notes (the "Senior Secured Notes" and, together with the Senior Notes, the "Notes"). Proceeds of the Notes are expected to be used to finance (i) its previously announced acquisition of 88% of Tricom S.A. and Global Interlinks Ltd. (together, "Tricom"), which Altice entered into an agreement to acquire on October 31, 2013, and (ii) its previously announced acquisition of a majority ownership in Orange Dominicana S.A. ("ODO"), which Altice entered into an agreement to acquire on November 26, 2013.

ODO provides mobile telephony and wireless broadband services to residential customers in the Dominican Republic and fixed and mobile voice and data services to business customers. Tricom provides pay television, broadband Internet and fixed-line telephony services as well as mobile telephony services in the Dominican Republic.

Restructuring of Altice Six holding structure

In anticipation of the increase in shareholding of the newly listed Numericable Group S.A., Altice Six S.A. has performed a restructuring of its subsidiaries to simplify its holding structure. Thus, with effect from November 11, 2013, Altice B2B Lux Holding S.à r.l. was merged with Ypso Holding S.à r.l..

Altice B2B Lux Holding S.à r.l., helds Altice B2B Lux S.à r.l., through which Altice Six S.A. has invested in Completel, the B2B arm of Numericable Group.

On December 18, 2013, the final step of this restructuring was consummated, with the merger of the Altice B2B Lux Holding S.à r.l. with Ypso Holding S.à r.l., thus creating a common company: Ypso Holding S.à r.l. which would directly control the French investment vehicles.

Numericable IPO

On November 7, 2013, Numericable Group, the sole cable operator in France and a leading provider of television and broadband Internet services in its network area ("Numericable" and together with its subsidiaries, the "Numericable Group"), announced that it had successfully completed its initial public offering on the regulated market of NYSE Euronext in Paris (Compartment A).

The Global Offering amounted to approximately €652.2 million, consisting of a capital increase of approximately €250 million and a sale of existing shares by Carlyle Cable Investment SC ("Carlyle") and CCI (F3) S.à.r.l. ("Cinven") amounting to approximately €402.2 million. An over-allocation option was also offered, which when fully exercised increased the Global Offering to approximately €750 million. The Employee Offering was subscribed for approximately €1 million at €19.84 per share. Trading of the Numericable Group's shares began on November 8, 2013.

Following the Global Offering and the Employee Offering and after the completion of all concurrent share transfers, and once the over-allotment option was exercised in full, Numericable Group's share capital was as follows: Altice 30%, Carlyle 26%, Cinven 18% and a public float of 24%.

Issuance of new margin loan

On November 7, 2013, Altice Six S.A. entered into a financing agreement for a total amount of EUR 300 million with ING Bank N.V as the agent and Deutsche Bank, HSBC, Credit Agricole, Goldman Sachs and Morgan Stanley as lenders. The purpose of this new debt issuance was to purchase an additional 10% holding stake in Numericable Group S.A. and thus increase Altice Six S.A's total stake up to 40% in Numericable Group S.A. thus giving it a controlling stake and allowing full integration of Numericable Group into the accounts of Altice S.A..

As a condition to financing, Altice Six has entered into a pledge agreement with the security agent and bank, following the terms of which it has pledged all the security assets (pertaining to cash and book entries) to an account held at ING Bank Luxembourg to be blocked from immediate effect, post signing of the debt agreement.

Increase in shareholding in Numericable Group

Altice Six announced on November 18, 2013 that it has entered into an agreement with certain funds affiliated with Cinven Ltd. ("Cinven") and an entity affiliated with Carlyle Group ("Carlyle") to acquire additional shares in Numericable Group, from Cinven and Carlyle (the "Acquisition"). Altice will hold 40% of shares in Numericable (including shares of Numericable subject to call options granted to Altice by certain existing shareholders) and will have the majority of votes in the board of directors. The Acquisition is subject to (i) antitrust approval and (ii) waiver granted by the Autorité des marchés financiers (AMF) to file a mandatory tender offer and is expected to be completed in the first quarter of 2014.

2013 Coditel Acquisition

As of September 30, 2013, Deficom Telecom S.à r.l., a majority owned subsidiary of Altice VII, was the owner of 60% of the outstanding shares of Coditel Holding and various funds advised by Apax Partners MidMarket SAS (the "Coditel Minority Shareholder") was the owner of the remaining outstanding shares of Coditel Holding. On March 7, 2013, Altice VII and the Coditel Minority Shareholder entered into a purchase and sale agreement (the "Coditel Purchase Agreement") pursuant to which Altice VII, through a wholly owned subsidiary, agreed to purchase all of the outstanding shares of Coditel Holding held by the Coditel Minority Shareholder (the "2013 Coditel Acquisition"). The 2013 Coditel Acquisition was consummated on November 29, 2013 and was funded in part by using the remaining amounts available under the 2013 Term Loan.

Other Transactions

The Combined Group intends to designate Green Datacenter and Auberimmo as unrestricted subsidiaries in accordance with the terms of our debt instruments and upon such designation these entities will not be subject to the covenants under the terms of our debt instruments.

The Combined Group is in talks with the minority stakeholders in Outremer Telecom, to study the possibility of exchanging the minority interests currently held by the Management and Managers of Outremer Telecom in Altice Blue Two S.A.S against shares to be issued by the listed entity, Altice S.A.

ASSURANCE REPORT OF THE REVISEUR D'ENTREPRISES AGREE ON THE COMPILATION OF UNAUDITED PRO FORMA FINANCIAL INFORMATION

We have completed our assurance engagement to report on the compilation of the Unaudited Pro Forma Financial Information of Altice S.A. (the "Company") by its Board of Directors (the "Board of Directors"). The Unaudited Pro Forma Financial Information consists of an unaudited pro forma statement of financial position as at December 31, 2013 and an unaudited pro forma statement of income for the year ended December 31, 2013 and related notes as set out in the prospectus to be issued by the Company on or around July 21, 2014 (the "Prospectus"). The applicable criteria on the basis of which the Board of Directors has compiled the Unaudited Pro Forma Financial Information are described in Note 2 thereto.

The Unaudited Pro Forma Financial Information has been compiled by the Board of Directors to illustrate the impact of the transactions set out in Note 2 (the "Transactions") as if such Transactions had taken place on January 1, 2013. The Unaudited Pro Forma Financial Information does illustrate the impact of, or give effect to, any other transaction not explicitly described within Note 2 thereto. The financial information pertaining to the entities involved in the Transactions has been extracted by the Board of Directors from the relevant financial statements described in Note 2 to the Unaudited Pro Forma Financial Information.

Board of Director's responsibility for the Unaudited Pro Forma Financial Information

The Board of Directors is responsible for compiling the Unaudited Pro Forma Financial Information in accordance with the basis of preparation described in Note 2.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion, about whether the Unaudited Pro Forma Financial Information has been compiled, in all material respects, by the Board of Directors in accordance with the basis of preparation described in Note 2.

We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3420, *Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus*, issued by the International Auditing and Assurance Standards Board. This standard requires that the *réviseur d'entreprises agréé* complies with ethical requirements and plans and performs procedures to obtain reasonable assurance about whether the Board of Directors has compiled, in all material respects, the Unaudited Pro Forma Financial Information in accordance with the basis of preparation described in Note 2.

For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the Unaudited Pro Forma Financial Information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the Unaudited Pro Forma Financial Information.

The purpose of the Unaudited Pro Forma Financial Information included in a Prospectus is solely to illustrate the impact of significant events or transactions identified by the Board of Directors on unadjusted financial information of the entity as if the events have occurred or the transactions had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the events or transactions at any date would have been as presented, nor do we provide any assurance that there are not any events or transactions; other than those identified by the Board of Directors; that may be considered significant for the purposes of the illustration.

A reasonable assurance engagement to report on whether the Unaudited Pro Forma Financial Information has been compiled, in all material respects, in accordance with the criteria within a defined basis of preparation involves performing procedures to assess whether the applicable criteria used by the Board of Directors in the compilation of the Unaudited Pro Forma Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the identified events or transactions, and to obtain sufficient appropriate evidence about whether:

- The related pro forma adjustments give appropriate effect to those criteria; and
- The Unaudited Pro Forma Financial Information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the judgment of the *réviseur d'entreprises agréé*, having regard to the *réviseur d'entreprise agréé*'s understanding of the nature of the company, the event or transaction in respect of which the Unaudited Pro Forma Financial Information has been compiled, and other relevant engagement circumstances. The engagement also involves evaluating the overall presentation of the Unaudited Pro Forma Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Unaudited Pro Forma Financial Information has been compiled, in all material respects, in accordance with the basis of preparation described in Note 2 thereto.

Emphasis of Matter

We draw attention to the third paragraph of note 1 to the Unaudited Pro Forma Financial Information which describes the reasons for which the Board of Directors has elected to prepare Unaudited Pro Forma Financial Information without illustrating the impact of, or giving effect to the acquisitions of Société Francaise de Radiotéléphonie S.A. ("SFR") and Virgin Mobile S.A. ("Virgin Mobile"). Such transactions have not yet been consummated and are currently pending regulatory approval. The Board of Directors has indicated that it is not in a position to access the appropriate level of financial information pertaining to SFR and Virgin Mobile; including such information required to determine whether any pro-forma adjustments are necessary to align accounting policies and presentation; that would be necessary for their appropriate inclusion within the Unaudited Pro-Forma Financial Information. Our opinion is not qualified in respect of this matter.

Restriction on distribution and use

The Unaudited Pro Forma Financial Information has been prepared for the purposes of inclusion within the Prospectus issued by the Company on or around July 21, 2014. As a result, the Unaudited Pro Forma Financial Information may not be suitable for any other purpose. Our report has been prepared solely for inclusion in the aforementioned Prospectus and may not be suitable for any other purpose.

For Deloitte Audit, Cabinet de révision agréé

John Psaila, *Réviseur d'entreprises agréé*

ASSURANCE REPORT OF THE REVISEUR D'ENTREPRISES AGREE ON THE COMPILATION OF UNAUDITED ILLUSTRATIVE AGGREGATED SELECTED COMBINED FINANCIAL INFORMATION

We have completed our assurance engagement to report on the compilation of the Unaudited Illustrative Aggregated Selected Combined Financial Information of Altice S.A. (the "Company") by its Board of Directors (the "Board of Directors"). The Unaudited Illustrative Aggregated Selected Combined Financial Information consists of selected statement of income and cash flow items for the years ended December 31, 2011 and December 31, 2012 (the "Selected Items") and related notes as set out in the Prospectus issued by the Company on or around July 21, 2014. The applicable criteria on the basis of which the Board of Directors has compiled Unaudited Illustrative Aggregated Selected Combined Financial Information are described in Note 1 thereto.

The Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled by the Board of Directors to illustrate the impact of the transactions set out in Note 1 on the Selected Items as if the transactions described in Note 1 (the "Transactions") had taken place on January 1, 2011. As part of this process, the Selected Items pertaining to the Company have been extracted by the Board of Directors from the Company's combined financial statements as of and for the years ended December 31, 2012 and December 31, 2011 on which an audit report has been published. Also, the Selected Items pertaining to the entities involved in the Transactions have been extracted by the Board of Directors from the relevant financial statements described in note 1 to the Unaudited Illustrative Aggregated Selected Combined Financial Information.

Responsibility of the Board of Director for the Unaudited Illustrative Aggregated Selected Combined Financial Information

The Board of Directors is responsible for compiling the Unaudited Illustrative Aggregated Selected Combined Financial Information in accordance with the basis of preparation described in Note 1.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion, about whether the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, in all material respects, by the Board of Directors in accordance with the basis of preparation described in Note 1.

We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3420, *Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus*, issued by the International Auditing and Assurance Standards Board. This standard requires that the *réviseur d'entreprises agréé* complies with ethical requirements and plans and performs procedures to obtain reasonable assurance about whether the Board of Directors has compiled, in all material respects, the Unaudited Illustrative Aggregated Selected Combined Financial Information in accordance with the basis of preparation described in Note 1.

For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the Unaudited Illustrative Aggregated Selected Combined Financial Information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the Unaudited Illustrative Aggregated Selected Combined Financial Information.

The purpose of the Unaudited Illustrative Aggregated Selected Combined Financial Information included in a prospectus is solely to illustrate the impact of significant events or transactions on unadjusted financial information of the entity as if the events have occurred or the transactions had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the events or transactions at any date would have been as presented.

A reasonable assurance engagement to report on whether the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, in all material respects, in accordance with the criteria within a defined basis of preparation involves performing procedures to assess whether the applicable criteria used by the Board of Directors in the compilation of the Unaudited Illustrative Aggregated Selected Combined Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the events or transactions, and to obtain sufficient appropriate evidence about whether:

- The related pro forma adjustments give appropriate effect to those criteria; and
- The Unaudited Illustrative Aggregated Selected Combined Financial Information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the judgment of the *réviseur d'entreprises agréé*, having regard to the *réviseur d'entreprise agréé*'s understanding of the nature of the company, the event or transaction in respect of which the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, and other relevant engagement circumstances. The engagement also involves evaluating the overall presentation of the Unaudited Illustrative Aggregated Selected Combined Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, in all material respects, in accordance with the basis of preparation described in Note 1 thereto.

Restriction on distribution and use

The Unaudited Illustrative Aggregated Selected Combined Financial Information has been prepared for the purposes of inclusion within the Prospectus issued by the Company on or around July 21, 2014. As a result, the Unaudited Illustrative Aggregated Selected Combined Financial Information may not be suitable for any other purpose. Our report has been prepared solely for inclusion in the aforementioned Prospectus and may not be suitable for any other purpose.

ALTICE S.A.
NOTES TO THE UNAUDITED ILLUSTRATIVE AGGREGATED SELECTED FINANCIAL INFORMATION

1. BASIS OF PREPARATION

The accompanying selected items from the aggregated statements of income and aggregated statements of cash flows as of and for the years ended December 31, 2011 and 2012 (collectively, the "Unaudited Illustrative Aggregated Selected Combined Financial Information") present an aggregation of the corresponding amounts as derived from the audited combined financial statements of Altice S.A. or its predecessor entities Altice Six S.A. and Altice VII S.à r.l. (the "Company") as of and for the years ended December 31, 2011 and 2012 (the "Historical Financial Statements"), the audited or reviewed financial information of each of the business undertakings acquired between January 1, 2011 and October 15, 2013; with the exception of the acquisitions described in the following paragraph; if such amounts are not already included within the Historical Financial Statements (the "Pre-Acquisition Financial Information") and any adjustments needed to align the Pre-Acquisition Financial Information with the accounting policies adopted for the Historical Financial Statements. Such adjustments are made where the accounting policy elections used for the Pre-Acquisition Financial Information differ substantially from the accounting policies used for the purposes of the Historical Financial Statements. The Unaudited Illustrative Aggregated Selected Combined Financial Information has not been audited or reviewed.

The Unaudited Illustrative Aggregated Selected Combined Financial Information has been prepared for illustrative purposes. It has not been prepared in accordance with Regulation S-X under the U.S. Securities Act nor in accordance with the requirements of Commission Regulation (EC) 809/2004, as amended, regarding pro forma information. Because of its nature, it addresses a hypothetical situation and, therefore, does not represent the Company's actual financial position or results. It does not purport to indicate the results of operations or the financial position that would have resulted had the transactions been completed at the beginning of any period presented, nor is it intended to be indicative of expected results of operations or cash flows in future periods or the future financial position of the Company. The pro forma adjustments are based upon available information and certain assumptions that the Company believes to be reasonable. In addition, they do not reflect cost savings or other synergies resulting from the acquisitions that may be realized in future periods. The Unaudited Illustrative Aggregated Selected Combined Financial Information does not give effect to the Mobius Acquisition, the Orange Dominicana Acquisition, the Numericable Acquisition and Tricom Acquisition and therefore does not include any financial information of the Mobius Group, Orange Dominicana, Numericable or Tricom.

The Unaudited Illustrative Aggregated Selected Combined Financial Information should be read in conjunction with the assumptions underlying the adjustments which are described in the notes accompanying them below as well as the historical and other financial statements of Altice S.A. included elsewhere in the Prospectus. See "*Presentation of Financial and Other Information—Financial Data*".

The Unaudited Pro Forma Condensed Combined Financial Information has been prepared to give effect to the following transactions as if they occurred on January 1, 2012 for the purposes of the unaudited pro forma condensed combined statements of income and, if applicable, on September 30, 2013 for the purposes of the unaudited condensed combined pro forma statement of financial position:

- The acquisition by Altice S.A. or its predecessor entities of:
  - 77% of the share capital of OMT Invest S.A.S.,
  - 100% of the share capital of Cabovisao S.A. in two tranches of 60% and 40% respectively,
  - 100% of the share capital of Winreason S.A.,
  - 100% of the share capital of Sportv S.A.,
  - 100% of the share capital of Ma Chaîne Sport S.A.S..
- Certain adjustments to accounting policies of the above mentioned entities, in order to better reflect Company applicable accounting standards.

(a) Compilation of available financial information for the Company and the Acquired Businesses

The Unaudited Illustrative Aggregated Selected Combined Financial Information for the years ended December 31, 2011 and 2012 has been compiled under the responsibility of the Board of Directors of Altice S.A. (the "Company"); by aggregating for each of the selected financial statement items the following:

- the amounts relating to the selected financial statement items as derived from the audited historical combined financial statements of the Company or its predecessor entities Altice Six S.A. and Altice VII S.à r.l. as of and for each of the years ended December 31, 2011 and 2012 (collectively the "Historical Financial Statements") drawn up in accordance with the basis of preparation described in the notes to the combined financial statements of the Company;
- the amounts relating to the selected financial statement items as derived from the audited or reviewed financial information of each of the business undertakings acquired between January 1, 2011 and October 15, 2013 (the "Acquired Businesses") for the periods during which such amounts are not included within the Historical Financial Statements (collectively the "the Pre-Acquisition Financial Information"); and
- the amounts relating to adjustments that have been identified for the purposes of aligning the Pre-Acquisition Financial Information the accounting policies adopted by the Company for the purposes of the Historical Financial Statements (the "Alignment Adjustments").

(b) The Pre-Acquisition Financial Information

The Pre-Acquisition Financial Information has been derived from the following financial information pertaining to the Acquired Businesses:

Year ended December 31, 2011

- the financial statements of Outremer Telecom S.A. ("OMT") as of and for the year ended December 31, 2011 drawn up in accordance with IFRS. Such financial statements have been audited by Constantin Associes and Ernst & Young et Autres who have issued an unmodified audit opinion thereon on March 23, 2012;
- the financial statements of Coditel Brabant S.p.r.l. ("CodiBe") as of and for the period ended July 31, 2011 drawn up in accordance with accounting policies and practices applicable in Belgium ("Belgian GAAP"). Such financial statements have been audited by Deloitte Réviseurs d'entreprises S.c r.l. who has issued an unmodified audit opinion thereon on October 1, 2011;
- the annual accounts of Coditel S.à r.l. ("CodiLu") as of and for the period ended July 31, 2011 drawn up in accordance with accounting policies and practices applicable in Luxembourg ("Lux GAAP"). Such annual accounts have been audited by Deloitte S.A. who has issued an unmodified audit opinion thereon on May 31, 2012;
- the special-purpose financial statements of Cabovisao S.A. as of and for the year ended December 31, 2011 drawn up in accordance with IASB IFRS. Such financial statements have been audited by Baker Tilly, PG & Associados, SROC S.A. who has issued a modified review opinion thereon on November 21, 2013; and
- the special-purpose consolidated financial statements of Winreason S.A. as of and for the year ended December 31, 2011 drawn up in accordance with IFRS as endorsed by the European Union. Such financial statements have been audited by Deloitte & Associados SROC, S.A. who has issued a modified audit opinion thereon on September 25, 2013; and
- the financial statements of Ma Chaine Sport S.A.S. ("MCS") as of and for the year ended December 31, 2011 drawn up in accordance with French GAAP. Such financial statements have been audited by KPMG Audit who has issued an unmodified audit opinion thereon on May 31, 2012.

Year ended December 31, 2012

- the financial statements of Outremer Telecom S.A. ("OMT") as of and for the year ended December 31, 2012 drawn up in accordance with IFRS. Such financial statements have been audited by Constantin

Associes and Ernst & Young et Autres who have issued an unmodified audit opinion thereon on April 18, 2013;

- the special-purpose financial statements of Cabovisao S.A. as of and for the period ended February 29, 2012 drawn up in accordance with IASB IFRS. Such financial statements have been reviewed by Baker Tilly, PG & Associados, SROC, S.A. who has issued a modified review report thereon on October 14, 2013;
- the special-purpose consolidated financial statements of Winreason S.A. as of and for the year ended December 31, 2012 drawn up in accordance with IFRS as endorsed by the European Union. Such financial statements have been audited by Deloitte & Associados SROC, S.A. who has issued a modified audit opinion thereon on September 25, 2013;
- the financial statements of Ma Chaine Sport S.A.S. ("MCS") as of and for the year ended December 31, 2012 drawn up in accordance with French GAAP. Such financial statements have been audited by KPMG Audit who has issued an unmodified audit opinion thereon on May 23, 2013; and
- the unaudited financial statements of Sportv as of and for the year ended December 31, 2012 drawn up in accordance with IFRS.

The presentation and classification of the selected financial statement items that have been derived from the historical financial statements of the Acquired Businesses have been modified in order to align with the presentation and classification criteria that have been retained for the purposes of the Historical Financial Statements of the Company. Accordingly, certain reclassifications discussed below have been made to the selected financial statement items derived from the historical financial statements of the Acquired Businesses to present the Unaudited Illustrative Aggregated Selected Combined Financial Information that is aligned with the presentation and classification criteria applied by the Company in the preparation of its Historical Combined Financial Information. All the Pre-Acquisition Financial Information and Historical Financial Statements and related audit/review reports can be found attached in the Prospectus to be issued on or around January 31, 2014.

(c) The Alignment Adjustments

The Alignment Adjustments are primarily composed of the following elements:

- In those instances where the amounts included in the Pre-Acquisition Financial Information have been drawn up in accordance with an accounting framework the measurement and recognition criteria of which differs substantially from the corresponding criteria applicable under IFRS, alignment adjustments have been prepared by the Board of Directors in order to substantially align the contribution of the Acquired Businesses to the Unaudited Illustrative Aggregated Selected Combined Financial Information with the measurement and recognition criteria of IFRS. The key adjustments and any exceptions thereto are described in note 2.
- In those instances where the amounts included in the Pre-Acquisition Financial Information have been drawn up in accordance with accounting policy elections that differ substantially from the accounting policies retained by the Company for the purposes of the Historical Financial Statements no alignment adjustments have been prepared by the Board of Directors in order to substantially align the contribution of the Acquired Businesses to the Unaudited Illustrative Aggregated Selected Combined Financial Information with the accounting policies retained by the Company.

(d) Translation of historical financial information denominated in currencies other than the Euro

The historical financial statements of HOT, from which amounts have been derived in preparing the Unaudited Illustrative Aggregated Selected Combined Financial Information for the year ended December 31, 2011, have been drawn up in Israeli Shekel ("NIS"). The relevant amounts have been translated into Euro ("EUR"), for the purposes of their inclusion within the Unaudited Illustrative Aggregated Selected Combined Financial Information, using the average daily exchange rates over the relevant period as described below:

Period from January 1, 2011 to March 16, 2011	1 NIS = 0.201 EUR

(e) Key limitations to the basis of preparation

The Unaudited Illustrative Aggregated Selected Combined Financial Information for the years ended December 31, 2011 and 2012 do not purport to represent the performance, cash flows or financial position that the

Company would have reported had the Acquired Businesses been subsidiaries of the Company during the entire length of the periods presented. They also do not purport to represent the performance and cash flows of the Company for any future period or its financial position at any future date. The Unaudited Illustrative Aggregated Selected Combined Financial Information do not reflect the effect of any anticipated synergies and efficiencies associated with combining the ONI group, the OMT Group and the other subsidiaries of the Altice VII Group.

In addition, only a complete set of consolidated financial statements as defined in IAS 1 can provide a fair presentation of the financial position, financial performance and cash flows of an entity in accordance with IFRS. The Unaudited Illustrative Aggregated Selected Combined Financial Information do not purport to represent a complete set of financial statements drawn up in accordance with IFRS, and are solely prepared to illustrate the aggregation of the Historical Financial Statements with the Pre-Acquisition Financial Information. In preparing the Unaudited Illustrative Aggregated Selected Combined Financial Information, the Board of Directors has determined that the extent of any transactions between the Company and the Acquired Businesses is negligible, and hence no adjustments relating to the elimination of such transactions or balances have been made.

2. ACCOUNTING FRAMEWORK ALIGNMENT ADJUSTMENTS

(a) Revenues and expenses

IFRS requires discounts to be recognized as a reduction of revenues over the length of the contractual arrangement with the customer. In addition, certain expenses may be restated as capital expenditure based on the nature of the expense.

Alignment adjustment in relation to Coditel S.à r.l.

The Pre-Acquisition Financial Information relating to Coditel S.à r.l. is drawn up in accordance with the measurement and recognition criteria of Lux GAAP, which does not require mandatory accounting for disconnection fees. Had Coditel S.à r.l. adopted the aforementioned measurement and recognition criteria of IFRS, illustrative adjustments result in an increase in other operating expenses of 0.1 million EUR for the year ended December 31, 2011.

The Pre-Acquisition Financial Information relating to Coditel S.à r.l. relates to the period from January 1, 2011 to July 31, 2011. For the purpose of building the Unaudited Illustrative Aggregated Selected Combined Financial Information the Board of Directors recorded the following adjustments which reflect the activity for the period from July 1, 2011 to July 31, 2011: (i) revenues decreased by 1.4 million EUR; (ii) other operating expenses decreased by 0.1 million EUR; (iii) general and administrative expenses decreased by 0.1 million EUR.

Alignment adjustment in relation to Coditel Brabant S.p.r.l.

The Pre-Acquisition Financial Information relating to Coditel Brabant S.p.r.l. is drawn up in accordance with the measurement and recognition criteria of Belgian GAAP, which permits such discounts to be recognized immediately as a reduction to revenues at inception of the contract. Alignment adjustments have been made to record the changes that would result to revenues had Coditel S.p.r.l. adopted the aforementioned measurement and recognition criteria of IFRS. Such illustrative adjustments result in increase to revenue of 0.2 thousand EUR for the year ended December 31, 2011. In addition, Coditel Brabant also applied IFRS adjustments related to the accounting for employee pension benefits and disconnection fees, which resulted in an increase in other operating expenses of 0.3 million EUR.

The Pre-Acquisition Financial Information relating to Coditel Brabant S.p.r.l relates to the period from January 1, 2011 to July 31, 2011. For the purpose of building the Unaudited Illustrative Aggregated Selected Combined Financial Information the Board of Directors recorded the following adjustments which reflect the activity for the period from July 1, 2011 to July 31, 2011: (i) revenues decreased by 4.0 million EUR; (ii) purchases and subcontracting services decreased by 0.6 million EUR; (iii) other operating expenses decreased by 0.4 million EUR; (iv) other sales and marketing expenses decreased by 0.2 million EUR; and (v) general and administrative expenses decreased by 0.2 million EUR.

Alignment adjustment in relation to Ma Chaîne Sport SAS.

The Pre-Acquisition Financial Information relating to Ma Chaîne Sport S.A.S. is drawn up in accordance with the measurement and recognition criteria of French GAAP, which permits no capitalisation of costs related to the acquisition of content for delivery to final customers. Given the exclusive nature of such content, IFRS rules allow the capitalisation and recognition of such costs as intangible assets. Had Ma Chaîne Sport adopted the aforementioned measurement and recognition criteria of IFRS, such illustrative adjustments result in a decrease in purchasing and subcontracting costs of 3.4 million EUR and in other operating expenses of 1.1 million EUR for the year ended December 31, 2011 and 4.7 million EUR and 1.6 million EUR for the year ended December 31, 2012.

3. SUPPLEMENTS NOTES TO THE UNAUDITED ILLUSTRATIVE STATEMENT OF SELECTED AGGREGATED FINANCIAL STATEMENT ITEMS

The Unaudited Illustrative Aggregated Selected Financial Information for the years ended December 31, 2011 and 2012 has been compiled, under the responsibility of the Board of Directors of Altice S.A. (the "Company"), as follows:

(a) Revenue

The revenue account balance per segments is as follows:

To the Board of Directors of
Altice S.A.
3, boulevard Royal
L-2449 Luxembourg
Grand-Duchy of Luxembourg

REPORT OF THE *RÉVISEUR D'ENTREPRISES AGRÉÉ* ON THE COMPILATION OF UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION INCLUDED IN A PROSPECTUS

In our capacity as *réviseur d'entreprises agréé* of Altice S.A. (the "Company"), we have completed our assurance engagement to report on the compilation of pro forma financial information of the Company by the Board of Directors. The pro forma financial information consists of an unaudited pro forma condensed combined statement of financial position as of September 30, 2013 and unaudited pro forma condensed combined statements of income for the twelve month period ended on December 31, 2012 and the nine month period ended on September 30, 2013 and related notes as set out in the Prospectus (collectively the "Unaudited Pro Forma Condensed Combined Financial Information") issued by the Company. The applicable criteria on the basis of which the Board of Directors has compiled the pro forma financial information are specified in Commission Regulation (EC) 809/2004 and described in note 2 within the Unaudited Pro Forma Condensed Combined Financial Information.

The Unaudited Pro Forma Condensed Combined Financial Information has been compiled by the Board of Directors to illustrae the impact of the transactions set out in note 2 (the "Transactions") to the Unaudited Pro Forma Condensed Combined Financial Information on the Company's financial position as at September 30, 2013, and its financial performance for the twelve month period ended on December 31, 2012 and the nine month period ended on September 30, 2013 as if the transactions had taken place at September 30, 2013 for the purposes of the unaudited pro forma condensed combined statement of financial position and at January 1, 2012 for the purposes of the unaudited pro forma condensed combined statements of income. As part of this process, information about the Company's financial position and financial performance has been extracted by the Board of Directors from the Company's combined financial statements as of and for the year ended December 31, 2012 on which an audit report has been published and the Company's combined condensed interim financial information as of and for the nine month period ended September 30, 2013 on which a review report has been published. Also, information about the financial position and financial performance of the entities involved in the Transactions have been extracted by the Board of Directors from the relevant financial statements described in note 2 to the Unaudited Pro Forma Condensed Combined Financial Information.

Responsibility of the Board of Directors for the pro forma financial information

The Board of Directors of the Company is responsible for compiling the Unaudited Pro Forma Condensed Combined Financial Information in accordance with the requirements of Commission Regulation (EC) 809/2004, as amended, regarding pro forma information.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion, as required by Item 7 of Annex II of Commission Regulation (EC) 809/2004, as amended, about whether the Unaudited Pro Forma Condensed Combined Financial Information has been compiled, in all material respects, by the Board of Directors on the basis described in Note 2 thereto.

We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3420, *Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus*, issued by the International Auditing and Assurance Standards Board. This standard requires that the *réviseur d'entreprises agréé* comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether the Board of Directors has compiled, in all material respects, the Unaudited Pro Forma Condensed Combined Financial Information on the basis described in Note 2 thereto.

For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the Unaudited Pro Forma Condensed Combined Financial Information, nor have we, in the course of this engagement, performed an audit or a review of the financial information used in compiling the Unaudited Pro Forma Condensed Combined Financial Information.

The purpose of pro forma financial information included in a prospectus is solely to illustrate the impact of a significant event or transaction on unadjusted financial information of the entity as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the Transactions at September 30, 2013 or for the twelve month period ended December 31, 2012 or the nine month period ended September 30, 2013 would have been as presented.

A reasonable assurance engagement to report on whether pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria involves performing procedures to assess whether the applicable criteria used by the Board of Directors in the compilation of the pro forma financial information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:

- The related pro forma adjustments give appropriate effect to those criteria; and
- The pro forma financial information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the *réviseur d'entreprises agréé*'s judgment, having regard to the *réviseur d'entreprises agréé*'s understanding of the nature of the company, the event or transaction in respect of which the pro forma financial information has been compiled, and other relevant engagement circumstances.

The engagement also involves evaluating the overall presentation of the pro forma financial information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Unaudited Pro Forma Condensed Combined Financial Information has been properly compiled on the basis stated; and such basis is consistent with the accounting policies of the Company.

Restriction on distribution and use

The Unaudited Pro Forma Condensed Combined Financial Information has been prepared for the purposes of inclusion within the Prospectus issued by the Company on or around January 31, 2014. As a result, the Unaudited Pro Forma Condensed Combined Financial Information may not be suitable for any other purpose. Our report has been prepared solely for inclusion in the aforementioned Prospectus and may not be suitable for any other purpose.

For Deloitte Audit, *Cabinet de révision agréé*

John Psaila, *Réviseur d'entreprises agréé*

ALTICE S.A.
NOTES TO THE UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

1. GENERAL INFORMATION

The accompanying unaudited pro forma condensed combined statements of income for the twelve month period ended December 31, 2012 and for the nine month period ended September 30, 2013 and the accompanying unaudited pro forma condensed combined statement of financial position as of September 30, 2013 (together the "Unaudited Pro Forma Condensed Combined Financial Information") present the pro forma financial statements of the Altice S.A. (the "Company"), giving effect to each of the acquisitions and other transactions described in the basis of preparation below. The Company, its predecessor entities and their subsidiaries are referred to collectively as the "Group". The Unaudited Pro Forma Condensed Combined Financial Information does not give pro forma effect to the Mobius Acquisition, the Tricom Acquisition and the Outremer Share Exchange and therefore does not include any financial information of the Mobius Group or Tricom nor any adjustments to the non-controlling interests of OMT as the Board of Directors has concluded that these are not significant for the purpose of preparing the attached financial information. This financial information has not been audited or reviewed.

The Unaudited Pro Forma Condensed Combined Financial Information does not purport to be indicative of the financial position and results of operations that the Group will obtain in the future, or that the Group would have obtained if the significant acquisitions and disposals described in the basis of preparation below occurred with effect from the dates indicated. The pro forma adjustments are based upon currently available information and upon certain assumptions that we believe are reasonable.

The Unaudited Pro Forma Condensed Combined Financial Information should be read in conjunction with the assumptions underlying the pro forma adjustments which are described in these notes as well as the historical and other financial statements of Altice S.A. and its subsidiaries included elsewhere in the Prospectus. See "*Presentation of Financial and Other Information—Financial Data*".

2. BASIS OF PREPARATION

The Unaudited Pro Forma Condensed Combined Financial Information has been prepared to give effect to the following transactions as if they occurred on January 1, 2012 for the purposes of the unaudited pro forma condensed combined statements of income and, if applicable, on September 30, 2013 for the purposes of the unaudited condensed combined pro forma statement of financial position:

- The acquisition by Altice S.A. or its predecessor entities of:
  - 77% of the share capital of OMT Invest S.A.S.,
  - 100% of the share capital of Cabovisao S.A. in two tranches of 60% and 40% respectively, and
  - 100% of the share capital of Winreason S.A.
  - A supplementary 34% of the share capital of Hot Telecommunications Limited
  - 100% of the share capital of Sportv S.A.
  - 100% of the share capital of Ma Chaîne Sport S.A.S.
  - 100% of the share capital of Orange Dominicana S.A.
  - A supplementary 40% of the share capital of Coditel Holding Lux II S.à r.l.
- The planned acquisition by Altice S.A. or its predecessor entities of:
  - A supplementary 15,94% of the share capital of Numericable Group S.A. (including 2.6% through call options)
- The following Refinancing Transactions
- The issuance by subsidiaries within the Group of:

  - 9% EUR250 million Senior Notes falling due in 2023,
  - 8% EUR210 million Senior Secured Notes falling due in 2019,
  - $9^7/_8$% \$425 million Senior Notes falling due in 2020,
  - $7^7/_8$% \$460 million Senior Secured Notes due in 2019,
  - $6^1/_2$% \$900 million Senior Secured Notes due in 2022, and
  - $8^1/_8$% \$400 million Senior Secured Notes due in 2024.
- The obtaining of a senior secured term loan B credit facility agreement for an amount equivalent to EUR795 million
- The obtaining of a margin loan for an amount equivalent to EUR464 million
- The obtaining of an intercompany loan for an amount equivalent to EUR365.3 million
- The repayment of the Coditel Senior Facility amounting to EUR138 million
- The repayment of the Cool loan amounting to NIS 879 million
- The repayment of the HOT bank facility amounting to NIS 1,902 million
- The repayment of the ABO credit facility amounting to EUR65.6 million
- The repayment of the Cabovisao facility amounting to EUR202,6 million
- The repayment of the ONI facility amounting to EUR 47,3 million
- The conversion of all existing non current loans from related parties into equity amounting to EUR329.6 million

On February 29, 2012, a member of the Group acquired 60% of the share capital of Cabovisao S.A. ("Cabovisao"). On April 23, 2013, a member of the Group acquired the remaining 40% of the share capital of Cabovisao. The Group acquired control over Cabovisao on February 29, 2012 and the acquisition was accounted for using the purchase method of accounting with the assets acquired and liabilities assumed recorded at their estimated fair values at the date of acquisition. The assets acquired and liabilities assumed of Cabovisao are reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. The Cabovisao historical income statement for the period from January 1, 2012 through February 29, 2012 has been included in the unaudited pro forma condensed combined statement of income for the period ended December 31, 2012. Accordingly, the relevant pro-forma effects on the non-controlling interests resulting from the increase in the Group's shareholding from 60% to 100% have been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013, respectively.

On December 12, 2012 and December 20, 2012, Altice Financing S.A., a member of the Group, proceeded with the issuance of $7^7/_8$% Senior Secured Notes for an aggregate principal of \$460 million maturing in 2019. Such liabilities are reflected in the historical statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs for the period between January 1, 2012 and December 12, 2012 have been included in the unaudited pro forma condensed combined statement of income for the year ended December 31, 2012.

On December 27, 2012, a member or the Group acquired an additional 34% of the share capital of Hot Telecommunications Limited ("HOT"), which resulted in the Group owning 100% of HOT's share capital. The assets acquired and liabilities assumed of HOT are reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects on the non-controlling interests resulting from the increase in the Group's shareholding from 66% to 100% have been included in the unaudited pro forma condensed combined statement of income for the year ending on December 31, 2012.

On December 12, 2012 and December 20, 2012, Altice Finco S.A., a member of the Group, proceeded with the issuance of $9^{7}/_{8}$% Senior Notes for an aggregate principal of $425 million maturing in 2020. Such liabilities are reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs for the period between January 1, 2012 and December 20, 2012 have been included in the unaudited pro forma condensed combined statement of income for the year ended December 31, 2012.

On December 12, 2012 and December 20, 2012, Altice Financing S.A., a member of the Group, proceeded with the issuance of 8% Senior Secured Notes for an aggregate principal of EUR 210 million maturing in 2019. Such liabilities are reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs for the period between January 1, 2012 and December 20, 2012 have been included in the unaudited pro forma condensed combined statement of income for the year ended December 31, 2012.

On December 27, 2012, HOT repaid its bank loans for an amount of NIS 1,902 million. The corresponding operation is reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs on the aforementioned drawn amount for the period between January 1, 2012 and December 27, 2012 have been included in the unaudited pro forma condensed combined statement of income for the year ended on December 31, 2012.

On December 27, 2012, Cool Holdings Limited, a member of the Group, repaid its credit facility for an amount of NIS 879 million. The corresponding operation is reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs on the aforementioned drawn amount for the period between January 1, 2012 and December 27, 2012 have been included in the unaudited pro forma condensed combined statement of income for the year ended on December 31, 2012.

On June 14, 2013, Altice Finco S.A., a member of the Group, proceeded with the issuance of 9% Senior Secured Notes for an aggregate principal of EUR250 million maturing in 2023. Such liabilities are reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs on the aforementioned drawn amount for the period between January 1, 2012 and June 14, 2013 have been included in the unaudited pro forma condensed combined statements of income for thc year and nine month period ending on December 31, 2012 and September 30, 2013, respectively.

On June 24, 2013, Altice Financing S.A., a member of the Group, entered into a senior secured credit facility agreement providing for term loans for a total equivalent amount of EUR795 million. As of September 30, 2013, an amount of EUR714.2 million has been drawn under this facility. The corresponding liability is reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs on the aforementioned drawn amount for the period between January 1, 2012 and June 24, 2013 have been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013, respectively.

On July 2, 2013, Cabovisao repaid its credit facility for an amount of EUR202,6 million. The corresponding operation is reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs on the aforementioned drawn amount for the period between January 1, 2012 and July 2, 2013 have been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013, respectively.

On July 4, 2013, a member of the Group acquired 77% of the share capital of Outremer Telecom S.A. ("OMT"). The acquisition was accounted for using the purchase method of accounting and the assets acquired and liabilities assumed were recorded at their estimated fair values at the date of acquisition. The assets acquired and liabilities assumed of OMT are reflected in the historical combined statement of financial position as of September 30, 2013, based on a preliminary purchase price allocation. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. The results of operations for OMT have been included in the historical combined statement of income since the date of acquisition, July 4, 2013. The OMT historical combined statements of income for the period from January 1, 2012 through July 3, 2013 have hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On August 8, 2013, a member of the Group acquired 100% of the share capital of Winreason S.A. ("ONI"). The acquisition was accounted for using the purchase method of accounting and the assets acquired and liabilities assumed were recorded at their estimated fair values at the date of acquisition. The assets acquired and liabilities assumed of ONI are reflected in the historical combined statement of financial position as of September 30, 2013, based on a preliminary purchase price allocation. Accordingly, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. The results of operations for ONI have been included in the historical combined statement of income since the date of acquisition, August 8, 2013. The ONI historical statements of income for the period from January 1, 2012 through August 7, 2013 have been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On August 8, 2013, ONI repaid its credit facility for an amount of EUR47,3 million. The corresponding operation is reflected in the historical combined statement of financial position as of September 30, 2013. Therefore, this transaction has not been deemed to result in any adjustments to the unaudited pro forma condensed combined statement of financial position. Accordingly, the relevant pro-forma effects of the resulting borrowing costs on the aforementioned drawn amount for the period between January 1, 2012 and August 8, 2013 have been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On October 1, 2013, a member of the Group acquired 100% of the share capital of Ma Chaîne Sport SAS ("MCS"). This acquisition was not accounted for using the purchase method of accounting as it was considered to qualify as a transaction performed under the common control of the ultimate beneficial owner of the Group at the date of acquisition. Given that such acquisition has occurred after September 30, 2013, the assets acquired and liabilities assumed of MCS are not included in the historical statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The MCS statements of income for the period from January 1, 2012 through September 30, 2013 have hence been included in the unaudited combined pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On October 1, 2013, a member of the Group acquired 100% of the share capital of Sportv S.A. ("Sportv"). This acquisition was not accounted for using the purchase method of accounting as it was considered to qualify as a transaction performed under the common control of the ultimate beneficial owner of the Group at the date of acquisition. Given that such acquisition has occurred after September 30, 2013, the assets acquired and liabilities assumed of Sportv are not included in the historical combined statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The Sportv historical statements of income for the period from January 1, 2012 through September 30, 2013 have hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On November 29, 2013, a member of the Group acquired an additional 40% of the share capital of Coditel Holding Lux II S.à r.l. ("Coditel") and repaid some Preferred Equity Certificates held by the non-controlling interests in this entity. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this contemplated transaction as if it had occurred on September 30, 2013. Accordingly, the relevant pro-forma effects on the non-controlling interests resulting from the increase in the Group's shareholding from 60% to 74% have been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013, respectively and the unaudited pro forma condensed combined statement of financial position as of September 30, 2013.

On December 5, 2013, Altice Financing S.A., a member of the Group, proceeded with the issuance of 6 ½ % Senior Secured Notes for an aggregate principal of $ 900 million maturing in 2022. Given that such issuance has occurred after September 30, 2013, the liabilities assumed are not included in the historical combined statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The issuance has hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On December 5, 2013, Altice Finco S.A., a member of the Group, proceeded with the issuance of 8 1/8 % Senior Notes for an aggregate principal of $ 400 million maturing in 2024. Given that such issuance has occurred after September 30, 2013, the liabilities assumed are not included in the historical combined statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The issuance has hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

During the fourth quarter of 2013, Altice Six S.A., a member of the Group, entered into a margin loan agreement providing a total amount of EUR324 million together with an intercompany loan agreement for a total amount of EUR35.3 million granted by the sole shareholder of the Company (this amounts is expected to go up to EUR505,3 million in the first quarter of 2014). The corresponding liability is not reflected in the historical combined statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The issuance has hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

On November 12, 2013, Altice Six S.A., a member of the Group, acquired additional shares to get to 30% of the share capital of Numericable Group S.A. ("NG") (including 2.6% under call options). Additionally, Altice Six is contemplating the acquisition of an additional 10% of the share capital so as to get control over the Board of Directors of NG. The excess of the purchase price over the historical book value of the non-controlling interests will be recorded as goodwill after a prelimiuary purchase price allocation. The Board has not conducted any impairment on this goodwill generated from this allocation for the purpose of preparing this financial information. However, this does not purport to represent any adjustments resulting from the allocation of the consideration that will be paid by the Group to acquire NG. Given that such acquisitions will occur after September 30, 2013, the assets acquired and liabilities assumed of NG are not included in the historical combined statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The NG historical statements of income for the period from January 1, 2012 through September 30, 2013 have hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

During the first quarter of 2014, the Group contemplates acquiring 100% of the share capital of Orange Dominicana S.A. ("ODO"). The excess of the purchase price over the historical book value of the non-controlling interests will be recorded as goodwill after a preliminary purchase price allocation. The Board has not conducted any impairment on this goodwill generated from this allocation for the purpose of preparing this financial information. However, this does not purport to represent any adjustments resulting from the allocation of the consideration that will be paid by the Group to acquire ODO. Given that such acquisitions will occur after September 30, 2013, the assets acquired and liabilities assumed of ODO are not included in the historical combined statement of financial position as of September 30, 2013. Accordingly, adjustments have been made to the unaudited pro forma condensed combined statement of financial position in order to reflect this transaction as if it had occurred on September 30, 2013. The ODO historical statements of income for the period from January 1, 2012 through September 30, 2013 have hence been included in the unaudited pro forma condensed combined statements of income for the year and nine month period ending on December 31, 2012 and September 30, 2013 respectively.

Other referenced divestitures as disclosed in "Presentation of Financial and Other Information" in the Prospectus have not been reflected in the pro forma adjustments as they were not individually or in the aggregate deemed significant to Altice S.A..

The unaudited Pro Forma Financial Information has been prepared for illustrative purposes. It has not been prepared in accordance with Regulation S-X under the U.S. Securities Act. Because of its nature, it addresses a hypothetical situation and, therefore, does not represent the Group's actual financial position or results. It does not purport to indicate the results of operations or the financial position that would have resulted had the transactions been completed at the beginning of the period presented, nor is it intended to be indicative of expected results of operations in future periods or the future financial position of the Group. The pro forma adjustments are based upon available information and certain assumptions that the Company believes to be reasonable. In addition, they do not reflect cost savings or other synergies resulting from the acquisitions that may be realized in future periods. The unaudited Pro Forma Financial Information do not give effect to the Mobius Acquisition, Outremer Share Exchange, Tricom Acquisition nor does it purport to indicate any entries to harmonize the accounting policies between ODO, NG and the Altice group as these have been considered immaterial by the Board of the Company.

The unaudited Pro Forma Financial Information should be read in conjunction with the notes thereto as well as the historical combined financial statements of the Company included herein.

Intercompany transactions between the entities included in the Unaudited Pro Forma Condensed Combined Financial Information have not been excluded or eliminated from the Unaudited Pro Forma Condensed Combined Financial Information as the amounts were not considered material by the Board of Directors, except for certain transactions between NG and Cabovisao, Coditel Brabant S.p.r.l., Coditel S.à r.l., Green.ch, World Satellite Group, Martinique TV Cable and Hot Telecom Ltd..

The presentation and classification of the selected financial statement items that have been derived from the historical financial statements of the Acquired Businesses have been modified in order to align with the presentation and classification criteria that have been retained for the purposes of the Pro Forma Financial Information. Accordingly, certain reclassifications discussed below have been made to the selected financial statement items derived from the historical financial statements of the Acquired Businesses to present the Pro Forma Financial Information that is aligned with the presentation and classification criteria applied by Altice S.A in the preparation of its Historical Combined Financial Statements. All the Pre-Acquisition Financial Information and Historical Financial Statements and related audit/review reports can be found attached in the Prospectus to be issued on or around January 31, 2014.

3. PRO-FORMA ADJUSTMENTS

Translation of historical financial information denominated in currencies other than Euro.

The historical financial statements of ODO, from which amounts have been derived in preparing the Post Transaction Pro Forma Financial Information for the year ended December 31, 2012 and as of and for the period ended September 30, 2013, have been shown up in Dominican Pesos ("DOP"). The amounts have been translated into Euro ("EUR"), for the purposes of their inclusion within the Post Transaction Pro Forma Financial Information, using the following notes

- As of September 30, 2013: DOP1.00 = EUR0.0177
- Period ended December 31, 2012 DOP1.00 = EUR0.024
- Period ended September 30, 2013 DOP1.00 = EUR0.0186

(a) Obtention of control over Cabovisao

Altice VII obtained control of Cabovisao on February 29, 2012 further to a purchase of 60% of its shares. These pro-forma adjustments relate to the historical income statement of Cabovisao for the period from January 1, 2012 through February 29, 2012 derived from the unaudited special-purpose financial statements of Cabovisao prepared in accordance with the measurement and recognition criteria of IFRS, to which certain reclassification to conform to the presentation of the accompanying unaudited pro forma statements of income.

(b) Purchase of Cabovisao non-controlling interests

On April 23, 2013, Altice VII purchased the remaining 40% of the shares and voting rights of Cabovisao. The cash consideration for the acquisition on a cash-free and debt-free basis was EUR 105.1 million. Pro-forma adjustments have hence been recorded to give effect to the impact on the non-controlling interests within the income statement and the statement of financial position as if such transaction took place on January 1, 2012. Such adjustments represents the reallocation of the net income attributable to non-controlling interests to net income attributable to equity holders of the parent, as a result of the acquisition of the non-controlling interests for an amount of EUR 105.0 million.

(c) Acquisition of OMT

Altice Blue Two SAS, an indirectly fully-owned subsidiary of Altice VII obtained control of OMT on July 4, 2013 pursuant to a purchase of 77% of its shares. These pro-forma adjustments relate to the historical income statement of OMT for the period from January 1, 2012 through July 4, 2013 derived from the audited and reviewed financial statements of OMT prepared in accordance with the measurement and recognition criteria of IFRS, to which certain reclassifications were made to conform to the presentation of the accompanying unaudited pro forma statements of income.

(d) Acquisition of Winreason S.A.

Cabovisao, an indirectly fully-owned subsidiary of Altice VII obtained control of Winreason on August 8, 2013 pursuant to a purchase of 100% of its shares. These pro-forma adjustments relate to the historical income statement of ONI for the period from January 1, 2012 through August 8, 2013 derived from the unaudited special-purpose consolidated financial statements of Winreason prepared in accordance with the measurement and recognition criteria of IFRS as endorsed by the European Union, to which certain reclassification have been applied to conform to the presentation of the accompanying unaudited pro forma statements of income.

(e) Acquisition of Ma Chaîne Sport

On October 4, 2013, Altice VII entered into a share purchase agreement with Altice IV S.A. and Valemi S.A. for the purchase of 100% of the share capital and voting rights of Ma Chaîne Sport S.A.S.. The consideration for the acquisition on a cash free and debt free basis was EUR 23.0 million, split between EUR 13.0 million of vendor loan and EUR 10.0 million of cash.

The unaudited pro forma financial information for Ma Chaîne Sport has been prepared based on the audited historical financial statements of Ma Chaîne Sport as of and for the year ended December 31, 2012 prepared in accordance with French GAAP after giving effect to the following adjustments:

- Reclassification adjustments—certain reclassification adjustments have been made to the audited consolidated financial information for French GAAP as of and for the year ended December 31, 2012 to conform to the financial statement presentation of unaudited pro forma financial information of Altice S.A..
- IFRS adjustments—the audited historical financial information for Ma Chaine Sport has been adjusted to give effect to significant differences between French GAAP and IFRS identified by management. This may not represent all impacts on the financial position or results of operations of Ma Chaine Sport had it been reported on an IFRS basis since inception. IFRS differs in certain material respects from French GAAP as discussed below.

The measurement and recognition criteria of French GAAP do not permit the capitalisation of costs related to the acquisition of contents for delivery to final customers. Given the exclusive nature of such contents, IFRS rules allow the capitalisation and recognition of such costs as intangible assets. Had Ma Chaine Sport adopted the aforementioned measurement and recognition criteria of IFRS, such illustrative adjustments result in a decrease in purchasing and subcontracting services of 4.7 million EUR, a decrease in other operating expenses of 1.6 million EUR and an increase in depreciation and amortization of 6.1 million EUR for the year ended December 31, 2012 and 4.1 million EUR, 1.4 million EUR and 4.4 million EUR for the period ended September 30, 2013.

(f) Acquisition of Sportv

On October 4, 2013, Altice VII obtained control over Sportv S.A.. The consideration for the Acquisition on a cash free and debt free basis was EUR 12.0 million, split between EUR 7.0 million of vendor loan and EUR 5.0 million of cash. On a pro forma basis, this debt has been eliminated on consolidation. These pro-forma adjustments relate to the historical income statement of Sportv for the period from January 1, 2012 through September 30, 2013 derived from the audited and reviewed financial statements of Sportv prepared in accordance with the measurement and recognition criteria of IFRS.

(g) Acquisition of the non-controlling interests in Coditel

During the fourth quarter of 2013, Altice VII purchased the remaining 40% of the shares and voting rights of Coditel Lux II S.à r.l. and refinanced some Preferred Equity Certificates issued by such entity. The cash consideration for the acquisition on a cash-free and debt-free basis is expected to be EUR 80.6 million. Pro-forma adjustments have hence been recorded to give effect to the impact on the non-controlling interests within the income statement and the statement of financial position as if such transaction took place on January 1, 2012. Such adjustments represents the reallocation of the net income attributable to non-controlling interests to net income attributable to equity holders of the parent, as a result of the acquisition of the non-controlling interests for an amount of EUR 14.5 million for the period ended September 30, 2013 as well as EUR 42.0 million impacting Other financial liabilities as at September 30, 2013.

(h) Acquisition of the non-controlling interests in HOT

On December 27, 2012, Altice VII purchased the remaining 34% of the shares and voting rights of HOT. The cash consideration for the acquisition on a cash-free and debt-free basis was EUR 194.2 million. Pro-forma adjustments have hence been recorded to give effect to the impact on the non-controlling interests within the income statement and the statement of financial position as if such transaction took place on January 1, 2012. Such adjustments represents the reallocation of the net income attributable to non-controlling interests to net income attributable to equity holders of the parent, as a result of the acquisition of the non-controlling interests for an amount of EUR 172.9 million.

(i) Acquisition of Orange Dominicana S.A.

During the first quarter of 2014, Altice VII is expected to finalize the purchase 100% of the shares and voting rights of Orange Dominicana S.A. Based on September 30, 2013 figures, the cash consideration for the Acquisition on a cash-free and debt-free basis is expected to be EUR 1,054 million (including cash acquired at closing and transaction fees). Pro-forma adjustments have hence been recorded to give effect to the impact on the non-controlling interests within the income statement and the statement of financial position as if such transaction took place on January 1, 2012. These pro-forma adjustments relate to the historical income statement of ODO for the period from January 1, 2012 through September 30, 2013 derived from the audited and reviewed financial statements of ODO prepared in accordance with the measurement and recognition criteria of IFRS, to which certain reclassification have been made to conform to the presentation of the accompanying unaudited pro forma condensed combined income.

The unaudited pro forma financial information for ODO has been prepared based on the audited historical financial statements of ODO as of and for the year ended December 31, 2012 prepared in accordance with IFRS and unaudited interim financial information of ODO as of and for the period ended September 30, 2013 after giving effect to the following adjustments:

- Reclassification adjustments—certain reclassification adjustments have been made to the audited and unaudited historical financial information for IFRS as of and for the year ended December 31, 2012 and as of and for the period ended September 30, 2013 to conform to the financial information presentation of unaudited pro forma financial information of the Altice S.A..
- The ODO Acquisition is being accounted for using the acquisition method of accounting in accordance with IFRS. Under the acquisition method, the consideration paid is allocated to the tangible and identifiable intangible assets acquired and liabilities assumed as the basis of their fair values on the transaction cost. Goodwill is measured as the excess of the sum of the consideration paid over the net amounts of identifiable assets and liabilities acquired and liabilities assumed of the acquisition costs and amounts to EUR746.2 million. This unaudited pro forma financial information has been prepared based on preliminary estimates of fair values. The actual amounts and the allocation to goodwill ultimately recorded may differ materially from the information presented in this unaudited pro forma financial information. The preliminary estimates reflected herein are subject to change based upon completion of the valuation of the assets acquired.

(j) Acquisition of additional shares in Numericable Group S.A.

During the fourth quarter of 2013, Altice Six acquired shares and voting rights of Numericable Group S.A. so as to get up to 30% of the voting rights of Numericable Group S.A. (including 2.6% under call options).

During the first quarter of 2014, Altice Six is expected to finalize the purchase of an additional 10% of the shares and voting rights of Numericable Group S.A.. The cash consideration for the Acquisition on a cash-free and debt-free basis is expected to be EUR 330 million. Pro-forma adjustments have hence been recorded to give effect to the impact on the non-controlling interests within the income statement and the statement of financial position as if such transaction took place on January 1, 2012. These pro-forma adjustments relate to the historical income statement of NG for the period from January 1, 2012 through September 30, 2013 derived from the audited and reviewed financial statements of NG prepared in accordance with the measurement and recognition criteria of IFRS, to which certain reclassification have been made to conform to the presentation of the accompanying unaudited pro forma condensed combined income.

The unaudited pro forma financial information for NG has been prepared based on the audited historical financial statements of NG as of and for the year ended December 31, 2012 prepared in accordance with IFRS and unaudited interim financial information of NG as of and for the period ended September 30, 2013 after giving effect to the following adjustments:

- Reclassification adjustments—certain reclassification adjustments have been made to the audited and unaudited historical financial information for IFRS as of and for the year ended December 31, 2012 and as of and for the period ended September 30, 2013 to conform to the financial information presentation of unaudited pro forma financial information of Altice S.A..

- The NG Acquisition is being accounted for using the acquisition method of accounting in accordance with IFRS. Under the acquisition method, the consideration paid is allocated to the tangible and identifiable intangible assets acquired and liabilities assumed as the basis of their fair values on the transaction cost. Goodwill is measured as the excess of the sum of the consideration paid over the net amounts of identifiable assets and liabilities acquired and liabilities assumed of the acquisition costs and amounts to EUR833.8 million. This unaudited pro forma financial information has been prepared based on preliminary estimates of fair values. The actual amounts and the allocation to goodwill ultimately recorded may differ materially from the information presented in this unaudited pro forma financial information. The preliminary estimates reflected herein are subject to change based upon completion of the valuation of the assets acquired.

(k) Refinancing Transactions

The Pro forma adjustments relating to the refinancing transactions are composed as follows:

(i) Issuance of Senior and Senior Secured Notes on December 27, 2012, June 14, 2013 and December 5, 2013

On December 27, 2012, June 14, 2013 and December 5, 2013, the Altice VII Group issued Senior and Senior Secured Notes for an amount of EUR 2,136.0 million. The proceeds were used to refinance the following liabilities.

- The repayment of the HOT bank loans on December 27, 2012 for an amount of NIS 1,902 million
- The repayment of the Cool Holdings facilities on December 27, 2012 for an amount of NIS 879 million
- The repayment of the Cabovisao credit facility on July 2, 2013 for an amount of EUR202.6 million
- The purchase of the Coditel Senior Facility on July 2, 2013 for an amount of EUR42.3 million
- The future purchase of Orange Dominicana for an amount of EUR1,054.0 million

(ii) Use of Term Loan

On June 24, 2013, the Altice VII Group secured a senior secured credit facility of EUR795 million. The proceeds were used to acquire ONI together with OMT and the rest was used to refinance the following liabilities:

- The repayment of the Coditel Senior Facility on July 2, 2013 for an amount of EUR95.7 million
- The repayment of the ONI credit facility on August 8, 2013 for an amount of EUR47.3 million
- The repayment of the ABO credit facility on July 2, 2013 for an amount of EUR65.6 million

(iii) Use of Margin Loan

During the fourth quarter of 2013, Altice Six secured a margin loan of EUR324 million together with an intercompany loan of EUR365.3 million granted by the sole shareholder of Altice S.A.. The proceeds will be used to finance the increase in the share capital of Numericable Group S.A. and reimburse some vendor loans due to existing shareholders of Altice VII.

Proforma adjustments of EUR113.4 million and EUR51.6 million have been recorded to reflect the net change to finance costs on borrowings for the year ended December 31, 2012 and for the period ended September 30, 2013 respectively, inclusive of tax effects, that would have been recorded had the above refinancing transactions taken place on January 1, 2012.

Other Information

Other referenced acquisitions and divestitures as disclosed in the "Presentation of Financial Information" have not been reflected in the pro forma adjustments. The other referenced acquisitions and divestitures were not individually or in the aggregate significant to Altice S.A..

The effect of the Transactions as described in this Prospectus has not been included as a pro-forma adjustment as the Board of Directors is of the opinion that this will not affect significantly the financial position of the Altice S.A. combined group as the proceeds will be mainly used to acquire the 10% additional in the share capital and voting rights of Numericable Group S.A. and to refinance a bridge loan contracted with an affiliate of Next L.P., the sole ultimate beneficial owner of Altice S.A..

The tax effect of the transaction adjustments in the unaudited pro forma financial information has been calculated on an aggregate basis using an assumed effective tax rate of 29% for the twelve and nine months ended December 31 and 29.22% for the nine months ended September 30, 2013 which is expected to be the combined effective tax rate of the Altice S.A. Group.
